Recommendation: I recommend that the contract for work under Agreement "CM", Route 61, Modification of Railroad Structure east of Boulevard to Allow Raising of Street Grades, Borough of Queens, be awarded to the low bidder, Hamme & Jackson, Inc., at its bid figure of \$37,735, and that a requisition be made on the Board of Estimate and Apportionment for an appropriation of this amount to be taken from the appropriation of the Board of Estimate of May 18, 1923, the work to be under the jurisdiction of the President of the Borough of Queens and performed under the supervision of the Transit Commission.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment by resolution adopted May 18, 1923, appropriated the sum of \$40,000, to be used for reconstructing the retaining wall on both sides of the Sixtieth Street Tunnel of the municipal rapid transit railroad at North Jane Street, Borough of Queens under the jurisdiction of the President of the Borough of Queens, "such work to be performed under the supervision of the Transit Commission and the fund to be expended by the Borough President upon vouchers to be prepared by said Transit Commission"; and

Whereas, This Commission has adopted a proposed contract for the performance of such work and subsequent to public advertisement duly held bids respectively totalling as follows were received therefor:

Hamme & Jackson, Inc.....	\$37,735.00
Contractors' Service Corporation	43,695.00
D. C. Serber	52,000.00
M. A. Charles	52,685.00

; and

Whereas, The Chief Engineer of this Commission has by communication, dated June 8, 1923, reported as therein more particularly set forth and recommended the additional award of said proposed contract to the said Hamme & Jackson, Inc.; and

Whereas, Counsel has prepared and submitted a proposed requisition upon the said Board of Estimate and Apportionment which if adopted will effect the said recommendation,

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed contract be and the same hereby is awarded to said Hamme & Jackson, Inc., subject to its being consented to in form and substance as required by law and that said proposed contract, together with the proposed requisition so submitted upon said Board of Estimate and Apportionment be transmitted to said Board of Estimate.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

June 13, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board on May 18, 1923, adopted the following resolution:

“(Cal. No. 65)

Resolved, By the Board of Estimate and Apportionment, that, pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding forty thousand dollars (\$40,000), which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which to the amount of the par value thereof to be used for reconstructing the retaining wall on both sides of the 60th Street Tunnel of the Brooklyn Rapid Transit Railroad Company at North Jane street, Borough of Queens, under the jurisdiction of the President, Borough of Queens; such work to be performed under the supervision of the Transit Commission and the fund to be expended by the Borough President upon vouchers to be prepared by said Transit Commission.”

Pursuant thereto the Transit Commission has prepared a proposed contract for the performance of work indicated therein for which, subsequent to public advertisement duly held bids were received respectively totalling as follows:

Hamme & Jackson, Inc.....	\$37,735.00
Contractors' Service Corporation	43,695.00
D. C. Serber	52,000.00
M. A. Charles	52,685.00

The Chief Engineer of this Commission by communication, dated June 8, 1923, has reported that the amount of the low bid is reasonable and the low bidder is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said low bid and awarded said proposed contract to the said Hamme & Jackson, Inc., subject to its being approved and consented to in form and substance as required by law.

Your Honorable Board is therefore requested to consent to said proposed contract herewith transmitted and to set aside from the appropriation of \$40,000 made as aforesaid, the sum of Thirty-seven thousand, Seven hundred and Thirty-five (\$37,735) for the purposes of said contract herewith transmitted.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

773—R. T. 7658

Contract No. 1—Report by Chief Engineer Recommending Approval of Construction of New Stairway to Northbound Platform of 225th Street Station—Approval Resolution—Requisition upon Board of Estimate and Apportionment for \$2,750 as City's Share

A report was presented from the Chief Engineer dated April 27, 1923, recommending the approval of Drawing No. 22,497, showing an additional stairway to the northbound platform of the 225th Street station and recommending the preparation of an agreement with the Interborough Rapid Transit Company to perform the work as an Addition to Existing Railroads, at an estimated cost of \$5,500, and that a requisition be made upon the Board of Estimate and Apportionment for \$2,750, as the City's share.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission has by communication dated April 27, 1923, reported with respect to the necessity for constructing an additional

stairway to the northbound platform of the 225th Street Station of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads as described in the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company as follows:

"This refers to the letter from Mr. Frank Hedley, President and General Manager of the Interborough Rapid Transit Company to the Commission and referred to this office for report, transmitting a print of Drawing No. 22,497 showing an additional stairway to the above station from the northbound platform to the street which is required on account of the large number of passengers leaving trains en route to the Velodrome at 225th Street.

Mr. Hedley states that he is willing to build the stairways as an addition under Contract No. 3 and requests that the Board of Estimate and Apportionment be requested to make the necessary appropriation. He estimates the cost of this stairway at \$5,500.00. The stairway is needed, for at present there is but one stairway from this platform to the street. We have checked the estimate and find it satisfactory. A print of the above drawing is herewith attached.

Recommendation: I respectfully recommend that the above drawing be approved and that a request be made on the Board of Estimate and Apportionment for \$2,750.00 one-half of the above sum for the construction of the above entrance as an addition under Contract No. 3 and that the attached print be referred to Counsel for the preparation of an agreement."

such work to be performed as an Addition to Existing Railroads as those terms are defined in said Contract No. 3, the City's share thereof to be \$2,750, being one-half of the estimated cost of said work; and

Whereas, Counsel has prepared and submitted a proposed agreement standard in form which has been approved by the Corporation Counsel and Interborough Rapid Transit Company designed to be applicable generally to the performance of work of constructing Additions to Construction by the Lessee pursuant to said Contract No. 3 which standard form of agreement has been made applicable to the performance of the work of constructing said additional stairway to said 225th Street Station, together with a proposed requisition upon the Board of Estimate and Apportionment for the consent of said Board to the making of said proposed agreement for the performance of the work so recommended by the Chief Engineer, and the appropriation of said estimated cost to the City,

Resolved, That said recommendation be and the same hereby is approved; that this Commission pursuant to the provisions of Article LXX and LXXI of Chapter IV of Part Third of said Contract No. 3, hereby approves of the construction by the Lessee of such additional stairway to the said 225th Street Station as an Addition to Existing Railroads and as to which this Commission assigns Work Order No. ICCA-4 and that said proposed agreement, together with the proposed requisition so submitted, be transmitted to the Board of Estimate and Apportionment for the consent of said Board to the making of said proposed agreement and the appropriation of one-half of the estimated cost of such work be and the same hereby are approved and that they be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

June 13, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Chief Engineer of this Commission by communication dated April 27, 1923, has reported with respect to the necessity for the construction of an additional stairway to the northbound platform of the 225th Street Station of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads as described in the contract dated March 19, 1913, known as Contract No. 3, as follows:

"This refers to the letter from Mr. Frank Hedley, President and General Manager of the Interborough Rapid Transit Company to the Commission and referred to this office for report, transmitting a print of Drawing No. 22,497, showing an additional stairway to the above station from the northbound plat-

form to the street which is required on account of the large number of passengers leaving trains en route to the Velodrome at 225th Street.

Mr. Hedley states that he is willing to build the stairway as an addition under Contract No. 3, and requests that the Board of Estimate and Apportionment be requested to make the necessary appropriation. He estimates the cost of this stairway at \$5,500.00. The stairway is needed for at present there is but one stairway from this platform to the street. We have checked the estimate and find it satisfactory. A print of the above drawing is herewith attached.

Recommendation: I respectfully recommend that the above drawing be approved and that a request be made on the Board of Estimate and Apportionment for \$2,750.00, one-half of the above sum for the construction of the above entrance as an addition under Contract No. 3, and that the attached print be referred to Counsel for the preparation of an agreement."

Article LXX of Chapter IV of Part Third of said Contract No. 3 provides with respect to the making of Additions as follows:

"Such construction or provision of Additions and such changes shall be made to the satisfaction of the Commission and, when necessary, under such forms of contracts, plans, specifications and directions as it may issue or approve. If the direction shall have reference to the Equipment or to operation the cost of complying therewith shall be borne by the Lessee. If the direction shall have reference to Construction the cost of complying therewith shall be shared equally by the City and by the Lessee (except in the case of Additions to the Extensions in which event the cost shall be borne wholly by the City) and the work necessary shall be done under the supervision and direction of the Commission and under contracts let by the Commission or directly by the Lessee as the Commission may elect. If the Lessee shall neglect or refuse to comply with such directions the Commission in addition to other remedies may cause such changes or Additions to be made at the expense of the Lessee."

The Transit Commission has approved the recommendation of its Chief Engineer aforesaid and the performance of such work by the Lessee under the foregoing provisions of said Contract No. 3, necessary to construct an additional stairway to the said 225th Street Station of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroad as an Addition to Existing Railroads will necessitate the appropriation of the sum of Two Thousand Seven Hundred and Fifty (\$2,750) Dollars in order to pay the City's share of one-half the estimated cost of such work.

Requisition is accordingly made upon your Honorable Board for the appropriation of the sum of Two Thousand Seven Hundred and Fifty (\$2,750) Dollars for the purposes aforesaid, said requisition to be a subrequisition under and not in addition to the requisitions heretofore made for the purposes of carrying out said Contract No. 3, and the appropriations made by your Honorable Board in pursuance thereof.

BY THE COMMISSION,
GEORGE McANENY,
Chairman.

774—R. T. 7011

Contract No. 4—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Requisition for Appropriation of \$5,000 for Maintenance—Approval Resolution—Requisition upon Board of Estimate and Apportionment

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 11, 1923, recommending that a requisition be made upon the Board of Estimate and Apportionment for an appropriation of \$5,000 for Maintenance Prior to Operation of Contract No. 4 Lines.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment has established a fund for the purpose of defraying expenses in connection with the Maintenance Prior to Operation of the Railroad described in the contract dated March 19, 1913, between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated June 11, 1923, reported with respect to the present and future necessities in connection with the Maintenance Prior to Operation of the Railroad under said Contract No. 4, and recommended the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of an additional sum of \$5,000 under and for the purposes of said fund so established,

Resolved, That the said report and recommendation be and the same hereby is approved and that the requisition in the form now submitted by Counsel, which will effect such recommendation, be and the same hereby is approved and that it be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows :

June 13, 1923

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen :

Your Honorable Board has established a fund known as Code CCM-406, Maintenance Prior to Operation under the contract dated March 19, 1913, known as Contract No. 4.

The Chief Engineer of this Commission has reported, under date of June 11, 1923, with respect to the said fund as follows :

“On February 7, 1923, I recommended that requisition be made on the Board of Estimate and Apportionment for the sum of \$6,500 as an additional appropriation for the Maintenance of Contract No. 4 lines prior to Operation. It was expected that the sum named would be sufficient for the purpose for at least six months. From figures which will be given below, it appears that the available balance is likely to be exhausted in about that period, namely the end of August, and, although the Board of Estimate and Apportionment appropriated \$6,500 as requested, it is considered necessary that further funds be secured for the work without delay.

According to figures furnished to this office, the status of the Maintenance Fund was as follows :

Date.	Available Balance.
March 22, 1923.....	\$5,893.86
April 25, 1923.....	4,161.00
June 5, 1923.....	3,063.57

It will be noted from these figures that the expenditures are at the rate of at least \$1,000 per month. If this rate be continued, the balance on hand will be exhausted before the end of the summer vacation period of the Board of Estimate and Apportionment.

As I have already stated in previous reports on this subject, there are now ten temporary pumps installed in the 14th St.-Eastern Subway, two each at five locations. Several City contractors are now at work in the subway and it is necessary that the subway be kept drained at all times in order to avoid interruption of their work. This situation is particularly serious with regard to the track work, which work has about reached the stage of laying concrete, inasmuch as the failure even for a short time to remove the leakage as fast as it enters the subway, would seriously affect the quality of the concrete. In addition to the pumping work, maintenance of other kinds must be and is being done. Inasmuch as the responsibility of the City for maintenance of the 14th St.-Eastern Subway will continue at least into the year 1924, it is considered that at least \$5,000 will be required in addition to the balance now on hand to complete the work.

Recommendation: Accordingly, I recommend from the engineering standpoint that requisition be made on the Board of Estimate and Apportionment for the sum of \$5,000, in addition to previous appropriation, for the Maintenance of Contract No. 4 lines prior to Operation.”

The Transit Commission has approved said report and requisition is accordingly made upon your Honorable Board for the additional appropriation of five thousand dollars for Maintenance Prior to Operation of the Railroad described in said Contract No. 4

between the time of the completion thereof and the beginning of operation, to be defrayed from the proceeds of corporate stock chargeable to said Contract No. 4.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

775—R. T. 7575

Centre Street Loop—Form of Contract, Specifications, Invitation to Contractors, etc., for Construction of Additional Entrances at Canal Street Station—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption, the proposed Invitation to Contractors, Information for Contractors and forms of contract, bond and contractors' proposal, together with the specifications and contract drawings for the construction of additional entrances at the Canal Street Station (Loop Line) of the Broadway-Fourth Avenue Rapid Transit Railroad.

Resolved, That said Invitation to Contractors, Information for Contractors and forms of contract, bond and contractors' proposal, together with the specifications and contract drawings for the construction of additional entrances at the Canal Street Station (Loop Line) of the Broadway-Fourth Avenue Rapid Transit Railroad be and are hereby approved and adopted, and that said Invitation to Contractors be published in THE CITY RECORD every day of publication continuously, from and including June 15, 1923, to and including June 29, 1923, and on June 18, 1923, and June 25, 1923, in THE NEW YORK TRIBUNE and THE EVENING MAIL, daily newspapers published in The City of New York, and that such bids as shall be received shall on the 29th day of June, 1923, at eleven-thirty (11.30) o'clock A. M., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission at the office of the Transit Commission, and read.

776—R. T. 7652

Route No. 45, Section No. 2—Application by Patrick McGovern, Inc., Lowest Bidder, for Permission to Substitute Surety Bond in Place of Certified Check in the Sum of \$75,000 Deposited with Bid for Construction of Portion of Nassau Street Line—Approval Resolution

An application was presented from Patrick McGovern, Inc., dated June 4, 1923, requesting permission to substitute a surety bond in place of the certified check in the sum of \$75,000 deposited with its bid on May 22, 1923, for the construction of Section No. 2 of Route No. 45.

The following resolution was adopted:

Whereas, By resolution adopted May 23, 1923, this Commission subsequent to public advertisement, awarded, subject to the conditions as in said resolution more particularly set forth, the proposed contract for the construction of a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 45, Section No. 2, Broad and Nassau Streets (under Contract No. 4) to Patrick McGovern, Inc., and thereafter transmitted said proposed contract to the Board of Estimate and Apportionment of the City of New York for the consent of said Board and the appropriation of the money estimated to be necessary to meet the obligations of the City under said proposed contract; and

Whereas, In accordance with the contractor's proposal said Patrick McGovern, Inc., at the time of depositing its bid for said proposed contract, deposited a certified check in the sum of \$75,000; and

Whereas, By communication, dated June 4, 1923, said Patrick McGovern, Inc., has requested permission to substitute a surety bond for said certified check deposited as aforesaid,

Resolved, That said request be and the same hereby is approved; that the Secretary of this Commission be and hereby is authorized and directed to return said certified check in the sum of \$75,000 to said Patrick McGovern, Inc., and to take proper receipt therefor, provided, however, and as a condition precedent thereto, the said Patrick

McGovern, Inc., shall deposit with the Secretary of this Commission in triplicate a bond in the sum of \$75,000, with itself as principal, and with two or more sureties conditioned upon the performance by said Patrick McGovern, Inc., of all the terms and conditions of its said proposal in form approved by Counsel to this Commission.

777—R. T. 7607

Routes Nos. 4 & 38, Section No. 5—Certificate by Chief Engineer of Completion of Changes in Structure at Northeast Corner of 25th Street and Seventh Avenue, Borough of Manhattan—Resolution Accepting Work and Directing That Certificate Be Transmitted to President of Borough of Manhattan and to Comptroller of City of New York

The following certificate was approved:

June 7, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion—Changes to Subway Structure at 25th Street and 7th Avenue, Borough of Manhattan.

In connection with the agreement dated October 11, 1922, between the City of New York, acting by the Transit Commission, and Interborough Rapid Transit Company for changing the structure of the Seventh Avenue Rapid Transit Railroad, made necessary in connection with roadway changes at the northeast corner of 25th Street and 7th Avenue, Borough of Manhattan, under the jurisdiction of the President, Borough of Manhattan, I hereby certify that the work was completed on January 31, 1923. The cost of the work was \$3,017.99.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission has, by communication dated June 7, 1923, reported and certified that the work required under the agreement dated October 11, 1922, between The City of New York, acting by the Transit Commission, and Interborough Rapid Transit Company, for changing the structure of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Municipal Rapid Transit Railroad, incidental to and made necessary by the changes in the roadway at the northeast corner of 25th Street and Seventh Avenue, in the Borough of Manhattan, City of New York, was, in all respects, completed on January 31, 1923; that the total cost of such work was \$3,017.99 and recommends that the work so performed be accepted and that a certificate of such completion and acceptance be prepared and transmitted to the Comptroller of the City of New York,

Resolved, That said report and recommendation be and the same hereby is approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the President of the Borough of Manhattan and to the Comptroller of the City of New York.

778—R. T. 7505

Order No. 21—Report by Chief Engineer Recommending Extension of Time for Delivery of Portions of Special Work—Approval Resolution

A report was presented from the Chief Engineer, dated June 8, 1923, recommending that an extension of time be granted to the Ramapo Iron Works for the delivery of various portions of Special Work Order No. 21.

The following resolution was adopted:

Whereas, The contract dated June 27, 1922, between The City of New York acting by the Transit Commission and Ramapo Iron Works for the supply of Special Work for use in parts of the Fourteenth Street-Eastern and Broadway-Fourth Avenue Rapid Transit Railroads, Special Work Order No. 21, provides in Article L thereof for the periods of time for delivery of the various portions as therein more particularly indicated; and

Whereas, The Chief Engineer of this Commission by communication dated June 8, 1923, reports as to the contract date and actual date of delivery of said various portions under said contract as follows:

	Latest Contract Date.	Actual Delivery.
Portion 115.....	September 5, 1922	September 25, 1922
Portion 409.....	October 5, 1922	December 9, 1922
Portion 424.....	October 5, 1922	December 9, 1922
Portion 406.....	February 5, 1923	May 26, 1923
Portion 407.....	February 5, 1923	May 26, 1923

that the other portions required to be delivered under said contract were delivered in contract time and recommends for the reasons in said report set forth that the time for the delivery of the portions herein referred to in the schedule set forth be extended to date of the actual delivery of said portions.

Resolved, That said report and recommendation be and the same hereby are approved; that the time of the delivery of the portions set forth in the foregoing schedule be and the same hereby is extended to the date indicated as the date of "actual delivery" in said schedule.

779—R. T. 7635

Agreement "CE"—Proposed Assignment by Benedetto & Saussez to The Royal Company of Moneys Due Under Contract for Changes in Subway Structure so as to Permit Widening of Certain Streets in Borough of Manhattan—Approval Resolution

The following resolution was adopted:

Whereas, On or about the 14th day of March, 1923, The City of New York, acting by the Transit Commission, entered into a contract with Benedetto & Saussez, for making alterations in the Broadway-Fourth Avenue Rapid Transit Railroad Structure at various locations to permit widening of streets, Borough of Manhattan; and

Whereas, Said Benedetto & Saussez have submitted to the Transit Commission a proposed assignment, dated June 13, 1923, assigning all the moneys due and to grow due under or on account of said contract to The Royal Company of New York, in the City of New York, and in accordance with the provisions of said contract and the requirements of law have requested this Commission to consent to said proposed assignment;

Resolved, That said assignment aforesaid now submitted to the Transit Commission be and the same hereby is approved subject to the terms and conditions in said contract contained and upon the conditions following:

First, That said assignment hereby approved and the consent of the Transit Commission herein given shall in no way defeat or impair such rights and remedies as subcontractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or services performed or material furnished if said assignment had never been made, such rights and remedies to remain in all respects the same as if said assignment had never been made.

Second, That said assignment hereby approved and the consent of the Transit Commission herein given shall in no respect affect the rights of The City of New York or of the Transit Commission or of any Board, Officer, agent or employee acting for or on behalf of The City of New York or the Transit Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to person or property), such rights as well as all other rights of The City of New York and the Transit Commission to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third, The consent of the Transit Commission to said assignment herein given shall take effect if, when and only when the sureties upon the bond deposited as security for the faithful performance on the part of the contractor of its obligations under said

contract shall consent in writing to said assignment and the conditions of this resolution in form to be approved by Counsel to the Commission and further until the assignee under said assignment, The Royal Company of New York, shall consent and accept the terms and conditions of this resolution, in form to be approved by Counsel to this Commission.

780—R. T. 7368

Contract No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Establishment of Supplementary Schedule Item for Concrete Wall Under Contract for Construction of Second Addition to Shops at Lenox Avenue and 148th Street Yard—Approval Resolution

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 8, 1923, was ordered filed:

(Cal. No. 74)

Resolved. That, pursuant to the request of the Transit Commission to this Board, dated May 8, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921, is unconstitutional and void, does hereby consent and agree to the establishment of a supplementary unit price under Item 150 of the contract, dated August 3, 1922, with Jacob Schlesinger, Inc., for the construction of the Second Addition to Shops at the Lenox Avenue and 148th Street Yard, under Contract No. 3, as follows:

Schedule Item 6AA For 12-inch concrete wall in place with a neat smooth finished surface at \$23 per cubic yard.

—as more particularly set forth in said request of the Transit Commission to this Board, dated May 8, 1923, and the cost of which exceeds the limitations fixed by Item 150 of the contract, namely, five thousand dollars (\$5,000), and therefore requires the consent of the Board of Estimate and Apportionment to the substitution.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 8, 1923.

JAMES MATTHEWS,
Assistant Secretary.

The following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated August 3, 1922, between the City of New York acting by the Transit Commission and Jacob Schlesinger, Inc., for the construction of the Second Addition to Shops at the Lenox Avenue Yard, under Contract No. 3, having, subject to the approval of the Commission, agreed with the said Contractor on the following supplementary schedule item:

Item No. 6AA—For 12" concrete wall in place with a neat smooth finished surface at \$23.00 per cubic yard.

Resolved. That such action on the part of the Chief Engineer be and hereby is approved.

781—R. T. 7589

Contract No. 3—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Removing and Disposing of Rock Excavation under Contract for Column Foundations for Third Addition to Shops at Lenox Avenue and 148th Street Yard—Approval Resolution

A report was presented from the Chief Engineer, dated June 5, 1923, recommending the establishment of a supplementary schedule item, as described below.

The following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission, in pursuance of Item 150 of the contract dated December 26, 1922, between the City of New York, acting by the Transit Commission, and the Rosenthal Engineering Contracting Company, Inc., for the Construction of Foundations, Third Addition to Shops, Lenox Avenue and 148th Street Yard, under Contract No. 3, having, subject to the approval of the Commission, agreed with the said Contractor on the following supplementary schedule item:

Item No. 3-G—For removing and disposing of rock excavation, the unit price of \$8.00 per cubic yard.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

782—R. T. 6561

Route No. 18—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Furnishing Checkered Plate Cover for Ejector Pit under Contract for Installation of Tracks at 239th Street Yard—Approval Resolution

A report was presented from the Chief Engineer dated June 5, 1923, recommending the establishment of a supplementary schedule item as described below.

The following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission, in pursuance of Item No. 3000 of the contract dated November 24, 1922, between the City of New York, acting by the Commission, and Michael Del Balso, for the installation of tracks for the 239th Street Yard, Route No. 18, having, subject to the approval of the Commission, agreed with said contractor upon the following schedule item:

Item No. 2-X—For furnishing, delivering and installing checkered plate cover for ejector pit complete in accordance with Drawing No. S-1968, except for supporting angle and anchor bolts, which are classifiable under Schedule Item 21, for the sum of \$385.00.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

783—R. T. 6820

Fourth Avenue Subway—Letter from Counsel Submitting Proposed Agreement for Approach to DeKalb Avenue Station Through Premises at No. 571 Fulton Street—Approval Resolution

A letter was presented from Counsel dated June 8, 1923, submitting a proposed agreement with The Fain Knitting Mills for an approach to the westerly platform of the DeKalb Avenue Station through the premises at No. 571 Fulton Street, Borough of Brooklyn.

The following resolution was adopted:

Whereas, Counsel, with his letter dated June 8, 1923, has submitted to this Commission a proposed form of agreement between The City of New York, acting by the Transit Commission, New York Consolidated Railroad Company and The Fain Knitting Mills, for the construction, maintenance and operation of an additional entrance to the DeKalb Avenue Station with an Approach through the premises from No. 571 Fulton Street to the westerly platform of the DeKalb Avenue Station of the Broadway-Fourth Avenue Line, a rapid transit railroad in the Borough of Brooklyn, and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, This agreement has been approved by the Chief Engineer,

Resolved, That said proposed agreement in the form so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized to execute the same.

784—R. T. 6698

Route No. 39, Section No. 2—Report by Real Estate Clerk Recommending Removal of Building at No. 1826 85th Street and No. 1845 86th Street, Borough of Brooklyn—Resolution Approving Notices to Tenants to Vacate Buildings and Directing Bids Be Advertised for Sale of Buildings at Public Auction

A report was presented from the Real Estate Clerk dated June 11, 1923, recommending the wrecking or removal of the buildings at No. 1826 85th Street and No. 1845

86th Street, Borough of Brooklyn, to make way for the construction of the extension of New Utrecht Avenue between 81st and 86th Streets and recommending that the Commission confirm notices sent to tenants on June 6, 1923, to vacate the buildings and that the buildings be advertised to be sold at public auction on June 25, 1923.

The following resolution was adopted:

Whereas, The City of New York acquired on or about the year 1914 the premises known as 1826 85th St. and 1845 86th St., in the Borough of Brooklyn, for the purpose of the construction of the New Utrecht Avenue Elevated Line (Route 39, Section 2) and on such premises were several frame dwellings which have until this date been used as sub-offices for transit work or rented on a temporary basis; and

Whereas, The City of New York has laid out and is constructing an extension of New Utrecht Avenue between 81st and 86th Streets, following generally the line of the rapid transit elevated railroad (Route 39, Section 2) and the said dwellings are partly within the lines of the proposed street extension; and

Whereas, The Real Estate Clerk, under date of June 11, 1923, has reported that the Secretary, under date of June 6, 1923, has notified the temporary tenants in the said dwellings to remove therefrom by the end of the month of June, 1923, and that it is advisable to sell the buildings for wrecking or removal, submitting a statement by the Auditor, dated June 7, 1923, as to the financial results of holding the buildings from the year 1914 until that date, and a form of advertisement in THE CITY RECORD giving public notice of the sale of said dwellings at public auction on June 25, 1923, at 11:00 A. M., in the Real Estate Bureau of the Commission, recommending that the Commission confirm the notices to the temporary tenants, as aforesaid, and that it authorize the sale of the buildings in accordance with the terms of the aforesaid form of advertisement in THE CITY RECORD, in which recommendations Counsel has concurred;

Resolved, That the Commission do, and it hereby does, confirm the aforesaid notices to the temporary tenants to vacate the said dwellings and that the sale of the said dwellings at public auction in accordance with the terms contained in the form of advertisement to be inserted in THE CITY RECORD be and hereby is, approved, that the Secretary be, and he hereby is, directed to cause the insertion of the aforesaid advertisement in THE CITY RECORD for the period beginning June 15, 1923, and ending with the date of the sale, and that the Real Estate Clerk be, and he hereby is, directed to report to the Commission upon the results of the proposed sale immediately after it has been held for further action by the Commission.

785—R. T. 6080

Fourth Avenue Subway—Application by Budoff Brothers for Approval of Substitution of Barnett Budoff as Tenant for Concession Held Under Trade Name of Orpheum Auto Park for Premises on Southerly Side of Fulton Street between Rockwell Place and Ashland Place, Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Budoff Brothers dated June 8, 1923, requesting approval of the substitution of Barnett Budoff for Budoff Brothers and Carlos Garcia as tenants under the trade name of Orpheum Auto Park for the concession on the southerly side of Fulton Street between Rockwell Place and Ashland Place, Borough of Brooklyn.

A report was presented from the Real Estate Clerk dated June 9, 1923, stating that the partnership has been dissolved as a result of the death of one of the partners and recommending that the application be approved for the substitution of the tenant.

The following resolution was adopted:

Whereas, By communication dated June 8, 1923, Barnett Budoff and Charles Budoff advised the Commission that Carlos Garcia, a partner in the partnership of Budoff Brothers & Carlos Garcia, conducting an auto park on property on the southerly side of Fulton Street between Rockwell place and Ashland place, in the Borough of Brooklyn,

under the trade name of Orpheum Auto Park, has died, and jointly request as the surviving partners that the concession held by them be continued in the name of one of the surviving partners, Barnett Budoff; and

Whereas, The aforesaid Barnett Budoff, under date of June 8, 1923, has made application in accordance with the foregoing for permission to take over the concession and assume all the obligations of the former partnership to the Commission as of July 1, 1923; and

Whereas, The Real Estate Clerk, under date of June 9, 1923, has reported that the aforesaid partnership was of a character to be dissolved on the death of one of the partners and that the surviving partners have agreed upon Barnett Budoff to conduct the business on the concession, recommending that the Commission terminate the concession of the partnership and approve the aforesaid application of Barnett Budoff, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, terminate the concession of Budoff Brothers & Carlos Garcia, a partnership doing business as Orpheum Auto Park above referred to, to take effect as of the end of June, 1923, and that the Commission do, and it hereby does, approve the aforesaid application of Barnett Budoff, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on the aforesaid application.

786—R. T. 6960, 7235, 7354

Contract No. 3 and Elevated Extension Certificate—Proposed Stipulation with Interborough Rapid Transit Company Extending Time to October 1, 1923, within Which to Agree upon Successor to Hon. Luke D. Stapleton as Third Arbitrator in Proceedings with Respect to Operating Expenses and Classification and Amount of Depreciation—Approved

The Commission approved the proposed stipulation with the Interborough Rapid Transit Company extending to October 1, 1923, the time of the Commission and the Interborough Rapid Transit Company within which to agree upon a successor to the late Hon. Luke D. Stapleton as the third arbitrator in the two pending arbitrations, the first having to do with objections dated November 24, 1920, and January 28, 1921, of the former Transit Construction Commissioner with respect to certain operating expenses, and the second having to do with the classification and amount of depreciation and excess maintenance deductible under Contract No. 3 and the Extension Certificate to June 30, 1920.

787—R. T. 6407

Route No. 52—Proposed Stipulation with Interborough Rapid Transit Company Extending Time to and Including July 14, 1923, within Which Company Shall Advise of Acquiescence in Flushing Extension as Addition to Contract No. 3—Approval Resolution

The following resolution was adopted:

Resolved, That the following stipulation

"It is hereby stipulated and agreed by and between the undersigned that the time within which the Interborough Rapid Transit Company, as Lessee under the provisions of the contract dated March 19, 1913, between The City of New York and said Interborough Rapid Transit Company, known as Contract No. 3, shall inform the Transit Commission, in accordance with the provisions of Article LXXII of said Contract No. 3, whether it acquiesces in the addition of the so-called Flushing Extension, pursuant to the notice of the Transit Commission dated May 13th, 1923, be and the same hereby is extended to and including July 14th, 1923, provided, however, that this stipulation shall not take effect unless and until it shall be consented to in writing in the form hereto annexed by the sureties upon

the continuing bond of Interborough Rapid Transit Company, filed in accordance with the provisions of said Contract No. 3.

TRANSIT COMMISSON,

By

Chairman

INTERBOROUGH RAPID TRANSIT COMPANY

By

President & General Manager"

be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute and deliver said stipulation.

788—R. T. 6761

Contract No. 3—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Modification of Specifications for Construction of Foundations for Substation No. 27 so as to Substitute Concrete Masonry for Brick—Approval Resolution

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated June 12, 1923, recommending that the resolution adopted on March 6, 1923, approving the specifications and contract for the construction of foundations for Substation No. 27 of the Interborough Rapid Transit Company be modified so as to permit the substitution of concrete masonry for brick.

The following resolution was adopted:

Whereas, By resolution, adopted March 6, 1923, pursuant to the provisions of the Contract, dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and the Interborough Rapid Transit Company known as Contract No. 3, this Commission approved a proposed Contract, Contractor's Bond, Contractor's Proposal and Specifications, together with blueprints of the drawings referred to in the Specifications for the construction of foundations of superstructure (exclusive of structural metal work) of Substation No. 27 for the Railroad as described in said Contract No. 3, to be located at Roosevelt Avenue between 32d Street and 33d Street in Elmhurst, Borough of Queens, City of New York, the award by Interborough Rapid Transit Company of said Contract to James A. Henderson, for the performance of the work under said proposed Contract and Specifications being authorized by resolution of this Commission adopted March 20, 1923; and

Whereas, By communication, dated June 12, 1923, the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that the plans and specifications of the proposed Contract so approved provided for the foundations to be constructed of common brick of good quality; that at the present time such brick on account of abnormal demand is exceedingly difficult to procure; that the Chief Engineer of the Interborough Rapid Transit Company has requested the approval of this Commission to a substitution of concrete for common brick wherever possible in order to expedite the completion of such substation which is urgently needed; that from an engineering standpoint it is considered acceptable to use concrete masonry instead of brick masonry for the foundations of said substation up to the sidewalk level; that the cost of the concrete should be less than the brick work and recommend the approval of the application of said Interborough Rapid Transit Company to change the drawings and specifications of said proposed Contract so approved so as to permit of the substitution of concrete masonry instead of brick masonry in the foundations for said substation below the sidewalk level subject to a price adjustment to be approved by the Chief Engineer of this Commission;

Resolved, That said report and recommendation be and the same hereby are approved; that the said application of Interborough Rapid Transit Company to so change the plans and specifications for said proposed Contract for the said substation so as to substitute concrete masonry for brick masonry all and as recommended by the said Engineer of the Commission be and the same hereby is approved and that

the Chief Engineer of this Commission be and hereby is authorized to take such steps as are necessary to effect this approval.

789—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchase and Installation of Twenty-four Current Relays in 59th Street and 74th Street Power Houses—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order Numbers—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated January 8, 1923, requesting approval to the purchase and installation of twenty-four current relays in the 59th Street and 74th Street power houses, at a cost of \$3,900.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated January 27, 1923, stating that the cost is reasonable and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and Chief of the Bureau of Accounting and Valuations, dated June 9, 1923, classifying the work and assigning Work Order Nos. IBR-2, IBA-7, ILR-1 and ILA-1.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract, dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, said Interborough Rapid Transit Company by communication, dated January 8, 1923, has requested the approval of this Commission to the purchase and installation of twenty-four current relays in the 59th Street and 74th Street power houses at an estimated cost of \$3,900; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication, dated January 27, 1923, reported that said relays are of a type known as Type "CD"; that they are to be installed on the five tie line cables between the two power houses; that their function is to isolate promptly a defective cable and thus prevent the disturbance from interfering with service over the remaining cables; that their importance is such as to justify the best protective devices available; that the type proposed to be used is satisfactory; that the estimated cost is reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have by communication, dated June 9, 1923, reported with respect to the proper classification of said work, all as more particularly hereinafter set forth,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company be and the same hereby is approved upon the following conditions:

1. That the Interborough Company account for the salvage, including the cost of removing all facilities removed, the net final sum to be withdrawn from or paid into (as the case may be) the appropriate depreciation funds; and that the original costs of the facilities retired be held available for replacements, in the appropriate depreciation funds.
2. That the cost of providing and installing the relays for the 59th Street Power House, to the amount of the original cost of the facilities retired by the work hereby approved in the 59th Street Power House, shall be paid for out of that portion of the moneys of the "Depreciation Fund for the Railroad and Equipment" which will be made available by retirements from service due to the work hereby approved and as to which work this Commission assigns Work Order No. IBR-2, such work to be classified as a replacement.

3. That the cost of providing and installing the relays hereby approved for the 59th Street Power House in excess of the original cost of the facilities retired by the work hereby approved in the 59th Street Power House shall be classified as Additional Equipment under Work Order No. IBA-7, heretofore assigned by this Commission.

4. That the cost of providing and installing the relays hereby approved for the 74th Street Power House, to the amount of the original cost of the facilities retired by the work hereby approved in the 74th Street Power House shall be paid for out of that portion of the moneys of the Depreciation Funds under the Elevated Extensions Certificate which will be made available by retirements from service due to the work hereby approved and as to which this Commission assigns Work Order No. ILR-1, such work to be classified as a replacement.

5. That the cost of providing and installing the relays hereby approved for the 74th Street Power House in excess of the original cost of the facilities retired by the work hereby approved in the 74th Street Power House shall be classified as an Addition to the Manhattan power plant, subject to the stipulation dated March 9, 1923, between said Interborough Rapid Transit Company and this Commission and as to which work this Commission assigns Work Order No. ILA-1.

790—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Transformer for Use in Connection with New Boilers at 59th Street Power House—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated May 14, 1923, requesting approval of a proposed purchasing agent's order directed to the General Electric Company for furnishing one 1,000 KVA indoor type transformer for use in connection with the auxiliary power for the two new boilers to be installed at the 59th Street power house, at a cost of \$5,680.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 8, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment to be performed under Work Order No. IBA-7.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company known as Contract No. 3, said Interborough Rapid Transit Company by communication dated May 14, 1923, has requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated May 14, 1923, directed to General Electric Company for the following:

One (1) 1,000 KVA 25 cycle, type ABT, 11440-440 volt Indoor Transformer in accordance with our Specification 86, Issue No. 2
 Price \$5,680 00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 481"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated June 8, 1923, reported that the following bids were received for such material:

General Electric Co. (F. O. B. Pittsfield, Mass.)..... \$5,680 00
 Westinghouse Electric & Manufacturing Co. (F. O. B. East Pitts-
 burgh, Pa.) 5,800 00

That said transformer is to be used for supplying power to induction motors driving blowers in connection with auxiliary power for the two new B. & W. boilers recently ordered; that the proposed transformer is of satisfactory design and the amount to be paid for is reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, By endorsement dated June 11, 1923, the Auditor of Rapid Transit Costs has recommended that said material be classified as Additional Equipment for the Railroad as defined in said contract and that Work Order No. IBA-7 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved, said transformer to be classified as Additional Equipment for the Railroad and as to which this Commission assigns Work Order No. IBA-7 and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

791—R. T. 7005

Contract No. 4—Resolution Modifying Resolution of May 15, 1923, Approving Arrangements by New York Municipal Railway Corporation for Furnishing Additional Power Facilities—Adopted

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, and pursuant also to the provisions of the certificate dated March 19, 1913, granted by The City of New York for certain elevated extensions known as the Extension Certificate, this Commission pursuant to a resolution adopted May 15, 1923, approved of certain plans showing Additions to substation and feeder equipment upon condition, among other things, that

"4. The construction of an addition to the Kings Highway Substation building. The installation of 2,000 K. W. rotary converter and accessories in this substation, together with a duct line and other equipment necessary for the supply of power from the said substation to the Brighton Beach Line and the installation of an additional high tension cable, which work is classified as Additions to Existing Railroads and as to which unit this Commission assigns Work Order No. MCA-25, it being understood that the cost of the extension to the substation building for housing said equipment shall not be included in the cost of the work hereby approved."

"It is further understood that the foregoing approvals are upon the condition that the cost of taking down, transporting, reinstalling and reconstructing units and structures operated by the Brooklyn Rapid Transit Company, if any, shall be carried in the Brooklyn Rapid Transit Company's accounts under the so-called Power Agreement."

"It is further understood that the foregoing approvals shall be without prejudice to the Commission's contention that the ten-year period of suspension of the obligation of New York Municipal Railway Corporation to install Equipment, including power facilities for the Railroad under said Contract No. 4, will expire on August 4, 1923, and that therefore the so-called Power Agreement will not have application thereafter."

; and

Whereas, The Receiver of New York Municipal Railway Corporation has made objection to the wording of the paragraphs in said resolution of May 15, 1923, hereinbefore set forth and conferences have been held with respect to proposed changes in said paragraphs of said resolution and an agreement has been reached as to the modification of said paragraphs,

Resolved, That the foregoing paragraphs herein set forth of the resolution of May 15, 1923, be modified so as to respectively read as follows:

4. The construction of an addition to the Kings Highway Substation building. The installation of 2,000 K. W. rotary converter and accessories in this substation, together with a duct line and other equipment necessary for the supply of power from the said substation to the Brighton Beach Line and the installation

of an additional high tension cable, which work is classified as Additions to Existing Railroads and as to which unit this Commission assigns Work Order No. MCA-25, it being understood that any extension to said substation is an additional electrical facility under the provisions of the so-called Power Agreement and that title to said extension shall remain in New York Municipal Railway Corporation as part of the Existing Railroads.

It is further understood that the foregoing approvals are upon the condition that the cost of taking down, transporting, reinstalling and reconstructing units and structures removed from substations operated by the Brooklyn Rapid Transit Company, if any, shall be carried in the Brooklyn Rapid Transit Company's accounts under the so-called Power Agreement. It is further understood that the foregoing approvals shall be without prejudice to any rights of the City of New York with respect to the suspension of the provision of power facilities under Contract No. 4.

792—R. T. 6668

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Proposed Purchasing Agent's Order for Furnishing Transformers and High Tension Panels—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated May 24, 1923, requesting approval of a proposed purchasing agent's order directed to the Westinghouse Electric & Mfg. Co. for furnishing 18 transformers and 18 high tension panels for the 14th Street-Eastern Line, at a cost of \$18,161.85.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 6, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, the Receiver of said New York Municipal Railway Corporation by communication dated May 24, 1923, has submitted for the approval of this Commission proposed purchasing agent's order dated May 14, 1923, directed to Westinghouse Electric & Mfg. Co. for the following:

18 Transformers	
18 High Tension Panels	
	\$18,161.85
	Delivered.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 348"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that the following bids have been received for such work:

Westinghouse Electric & Mfg. Co.....	\$18,161.85
General Electric Co.....	21,525.00

that said transformers and high tension panels are necessary to provide lighting facilities for the municipal rapid transit railroad described in said Contract No. 4; that the said Westinghouse Electric and Mfg. Co. can satisfactorily supply said material; that the prices are reasonable and recommend that said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated June 9, 1923, has recommended that said material be classified as "Equipment of the Railroad" as described in said Contract No. 4,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified as Equipment of the Railroad as defined in said Contract No. 4.

793—R. T. 6595

Contract No. 4—Statement from New York Consolidated Railroad Company of Results of Operation for Month of April, 1923, and Status of Maintenance and Depreciation Fund—Referred to Chief Accountant

A communication dated June 5, 1923, from the New York Consolidated Railroad Company, by Howard Abel, Comptroller for Lindley M. Garrison, Receiver, submitting statement of Results of Operation for the month of April, 1923, for the period from August 4, 1913 to April 30, 1923, and the status of the Maintenance and Depreciation Funds, under Contract No. 4, was referred to the Chief Accountant.

794—R. T. 6481, 6506

Contract No. 4—Communication from A. M. Williams with Respect to Financing of Fifty New Cars—Referred to Acting Chief Executive Officer

The following communication and enclosures referred to therein were referred to the Acting Chief Executive Officer:

RUSHMORE, BISBEE & STERN,
21 Broadway, New York.

"June 8, 1923.

Mr. JAMES B. WALKER,
Secretary of TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Dear Sir:

Re: B. R. T.

Referring to your recent letter and confirming my conversation with you regarding the status of the fifty additional rapid transit cars proposed to be financed by the Receiver to the use of funds on deposit with the Depreciation Fund Board under Contract No. 4, I enclose herewith the copy of a letter dated April 19, 1923, addressed to me by Mr. Harold J. Gallagher and copy of my reply dated April 21, 1923. I assume the purchase price of the cars will be financed either through the use of the money to be provided in the reorganization of New York Municipal Railway Corporation and New York Consolidated Railroad Company, or, if it is determined to acquire the fifty new cars as replacements of existing equipment, through funds with the Depreciation Fund Board insofar as applicable under Contract No. 4, and with new money provided in the reorganization or from some other source for the balance. These are matters, however, on which no final decision has been reached so far as I am aware, and undoubtedly will be taken up and disposed of by the new management in due course after it takes charge.

I suggest in the meantime that it might be appropriate for you to ascertain from Mr. Menden whether the orders for the cars have been placed in order that your records may be complete.

Very truly yours,
A. M. WILLIAMS."

June 13, 1923]

590

HORNBLOWER, MILLER & GARRISON,
New York.

A. M. WILLIAMS, Esq.,
61 Broadway,
New York City.
Dear Mr. Williams:

"April 19, 1923.

In order that our files will show what was decided to be done respecting the investment of the moneys in the Depreciation Fund Board in Equipment Trust Certificates, I beg to state the understanding that we had over the telephone on Wednesday afternoon, April 11th. You advised me that you and Mr. Mudge had had a conference with Judge Mayer on that afternoon at which the question of the investment of the Depreciation Fund moneys in the equipment obligations to be secured by the 50 new subway cars was brought up and that the conclusion reached by Judge Mayer was that the conference with Colonel Williams and the other members of the Depreciation Fund Board scheduled for Thursday, April 12th, should be indefinitely postponed and the Depreciation Fund Board not be requested at this time to invest the funds under their control in the new subway cars or in equipment trust certificates. You further stated that in behalf of your Committee you thought the Receiver should go ahead and order the cars and to hold in abeyance for the time being the matter as to how the payment for the said fifty cars should be financed. Accordingly no action has been taken by us since that time to secure the consent of the Depreciation Fund Board to the use of the Depreciation Fund for the purchase of the 50 cars.

If I have correctly stated your understanding, will you kindly confirm it by letter.
Yours very truly,
HAROLD J. GALLAGHER."

Mr. HAROLD J. GALLAGHER,
Hornblower, Miller & Garrison,
24 Broad St.,
New York City.

"April 21, 1923.

Re: B. R. T.

Dear Mr. Gallagher:

I have your letter of April 19th, regarding the purchase of fifty new subway cars and the use of moneys in the Depreciation Fund Board to purchase Equipment Trust Certificates in connection with financing such purchase. In reply, your letter correctly states my understanding.

Very truly yours,
A. M. W."

795—R. T. 7668

Contract No. 3—Report by Real Estate Clerk as to Fire Risks Under Elevated Portions of Interborough Rapid Transit System—Referred to Chief Engineer

A report was presented from the Real Estate Clerk dated May 28, 1923, advising of a general survey made as to fire risks under elevated portions of the Interborough Rapid Transit System. Upon motion duly seconded and adopted the matter was referred to the Chief Engineer to take up with the engineers of the Interborough Rapid Transit Company with a view to eliminating any really dangerous conditions.

796—Cases 1264; 1380

The Long Island Railroad Company—Alterations of Grade Crossings at Hempstead, Jamaica Turnpike, et al—Communication from Chief Engineer of Company Relative to Removal of Wires and Poles of New York & Queens Electric Light & Power Company Concerning Expense of Such Removal—Report by Counsel Recommending that the Commission Join with Company in Making Application to Public Service Commission—Approved

The Secretary presented a communication, dated May 24, 1923, from L. V. Morris, Chief Engineer of The Long Island Railroad Company, advising that in carrying out

the work of elimination pursuant to the Order in Cases Nos. 1264 and 1380, it would be necessary to have the poles and wires of the New York & Queens Electric Light & Power Company raised and relocated at 212th Street, Hempstead Turnpike, 218th Street and Springfield Boulevard, in the Borough of Queens, and inquiring if the electric company must pay the expense of such changes. The Secretary also presented a report, dated June 1, 1923, by Assistant Counsel Cloutman, approved by Counsel to the Commission, recommending that the Commission join with The Long Island Railroad in an application to the Public Service Commission for an Order directing the New York & Queens Electric Light & Power Company to raise and relocate at its own expense the poles and wires involved in the work of the elimination in a manner to conform with the new street grades established in the proceeding.

Thereupon, the above mentioned report was approved.

797—Case 2625

Eighth Avenue Railroad Company—Application for Authority to Issue Bonds Secured by Real Estate Mortgage—Opinion by Counsel Approved—Order Granting Supplemental Application for Authority to Issue \$100,000 Bond and Mortgage Adopted

The Secretary presented a Report and Opinion in Case No. 2625, dated June 4, 1923, by George O. Redington, Counsel to the Commission, recommending that permission be granted to the Eighth Avenue Railroad Company to issue a mortgage for \$100,000 to the Farmers Loan & Trust Company, and to issue its bond in the sum of \$100,000 secured by said mortgage.

Thereupon, the above mentioned Report and Opinion was approved and an Order in Case No. 2625 was adopted and ordered filed in the following form:

At a Meeting of the Transit Commission held at its office,
No. 49 Lafayette Street, Borough of Manhattan, City of
New York, on the 13th day of June, 1923.

Present:

GEORGE McANENY,

of the

Application of the Eighth Avenue Railroad Company for
authorization to issue bonds secured by mortgages on
two parcels of its real property to the amount of
\$1,200,000

Case No. 2625
ORDER GRANTING SUP-
PLEMENTAL APPLICA-
TION FOR AUTHORITY
TO ISSUE ADDITIONAL
\$100,000 BOND AND
MORTGAGE

Section 1. Supplemental application having been made to the Transit Commission by the Eighth Avenue Railroad Company by petitions, dated and verified May 10, 1923, and May 25, 1923, for an Order authorizing it to execute its further bond and mortgage for the sum of \$100,000 to the Farmers Loan & Trust Company on certain real estate located on the west side of Eighth Avenue between 49th and 50th Streets, extending back 475 feet on 49th Street and 450 feet on 50th Street, in the Borough of Manhattan, City, County and State of New York.

Section 2. It Is Ordered, That the Transit Commission does, as is hereinafter provided, hereby consent to the execution and issuance by said Eighth Avenue Railroad Com-

pany of a certain mortgage described as follows: A mortgage by the said Eighth Avenue Railroad Company unto the Farmers Loan & Trust Company on the parcel of real estate of the Eighth Avenue Railroad Company situate on the west side of Eighth Avenue between 49th and 50th Streets, in the Borough of Manhattan, City of New York, to secure a loan of \$100,000 on bond and mortgage of the Eighth Avenue Railroad Company, payable March 11, 1927, with interest at the rate of five per cent. per annum, interest dates March 11 and September 11 in each year.

Provided, however, that the said Eighth Avenue Railroad Company shall hereafter submit to the Commission the mortgage for approval as to form and that the said Commission shall approve the said mortgage as to form. Said company, however, shall have no right or authority to issue any bond pursuant to the terms of said mortgage, except as herein or hereinafter authorized by the Commission.

Section 3. Application having also been made to the Transit Commission by said Eighth Avenue Railroad Company by its said petitions under the provisions of the Public Service Commission Law for an Order of the Commission authorizing the issue by said company of its bond payable March 11, 1927, with interest at the rate of five per cent. per annum, secured by mortgage on that parcel of real estate of said company situate on the west side of Eighth Avenue between 49th and 50th Streets, in the Borough of Manhattan, hereinbefore referred to and a hearing having been duly held on the said application, and it now being the opinion of the Commission, (1) that the money to be procured by the issue of said bond, namely, \$100,000 is necessary to and reasonably required by said company for the improvement of its real property and for the reimbursement of moneys already expended for capital purposes, (2) that the said company should be permitted to expend the said money for the purposes hereinafter stated.

Section 4. It Is Ordered, That the Transit Commission does hereby authorize the issue by said Eighth Avenue Railroad Company of its bond of \$100,000, payable March 11, 1927, with interest at the rate of five per cent. per annum, secured by mortgage to the Farmers Loan & Trust Company hereinbefore described.

Section 5. It Is Ordered, That the issue of said bond of the Eighth Avenue Railroad Company is authorized upon the conditions following and not otherwise, to wit:

First: That the said Eighth Avenue Railroad Company shall apply the proceeds of said issue to the amount of \$100,000 to the following purposes:

1. To the reimbursement of its capital for expenditures made for the improvement of its real property on the east side of Eighth Avenue between 155th and 156th Streets, Borough of Manhattan.

Second: That the said company shall keep separate, true and accurate accounts of the receipt and application in detail of the proceeds of the bond hereby authorized to be issued; and on or before the 10th day of each month, the company shall make verified reports to the Commission stating the issue of said bond, the moneys received therefrom and the use and application of such moneys; and said accounts, vouchers and records shall be open to audit and may be audited from time to time by accountants and examiners designated for such purpose by the Commission.

Third: That the authority hereby given to issue said bond shall apply only to bond issue by the said company on or before the thirtieth day of July, 1923.

Section 6. That a duplicate original of the bond and mortgage authorized and consented to as aforesaid and of the agreement made between the parties consolidating and co-ordinating the said \$100,000 mortgage and the \$800,000 mortgage authorized by order herein adopted March 7, 1922 upon execution thereof be filed by the said Eighth Avenue Railroad Company with the Secretary of the Commission.

Section 7. It is Further Ordered, That this Order take effect immediately, subject to the proviso contained in Section 2, and except as provided in subdivision Third of Section 5, limiting the duration of the authority to issue such bond herein granted, continue in force until otherwise ordered by the Commission, and that within ten days after service upon it of a copy of this Order, said company notify the Commission whether the terms of this Order are accepted and will be obeyed.

BY THE COMMISSION,
JAMES B. WALKER,
Secretary.

(L. S.)

798—Case 2682

The Long Island Railroad Company—Application of The City of New York for a Determination as to the Manner in Which Two Bridges Carrying Main Drive in Forest Park Over Right of Way of the Rockaway Beach Division and the Montauk Division of the Railroad Shall Be Altered—Report and Opinion by Acting Chief Executive Officer Approved—Final Order and Determination Adopted

The Secretary presented a report and opinion, dated June 5, 1923, by George L. Lucas, Acting Chief Executive Officer, recommending the granting of the application of The City of New York for a determination as to the manner in which two bridges carrying the Main Drive in Forest Park over the tracks of The Long Island Railroad Company should be altered or changed.

Thereupon, the above mentioned report and opinion in Case No. 2682 was approved and a final order and determination was adopted in Case No. 2682, determining that the additional width of Forest Park Main Drive should be carried over the Montauk and Rockaway Beach Divisions of The Long Island Railroad Company upon the existing bridges to be reconstructed and that the existing bridges should be reconstructed, altered, changed and widened substantially in accordance with the plan prepared by the Commissioner of Parks of the Borough of Queens, and approved by the Board of Estimate and Apportionment on March 23, 1923, and being received in evidence in the proceeding as City's Exhibit No. 5, and further directing that the actual work of reconstruction should be done by The Long Island Railroad Company, that detailed plans and specifications thereof be submitted for the approval of the Commission, and that contracts, if any, be similarly submitted, and that the division of expense be reserved for determination by the Commission upon accounting or accountings provided by the Grade Crossing Act, and that the Company should notify the Commission within five days after the receipt of the order whether the terms thereof were accepted and would be obeyed, and further directing that the Order should take effect at once.

799—Case 2687

Nassau Bus Line, Inc.—Application for Certificate of Convenience and Necessity for Operation of Bus Line between Beach 20th Street and Coronado Beach, Borough of Queens—Order Authorizing Exercise of Franchise Adopted—Resolution Authorizing Execution of Certificate Approved

The Commission approved a resolution in Case No. 2687, authorizing the permission and approval of the Commission to the exercise by the Nassau Bus Line, Inc., of the franchise granted to the company, dated June 8, 1923, by The City of New York.

The Commission also adopted and ordered filed an Order in Case No. 2687, granting the permission and approval of the Commission to the Nassau Bus Line, Inc., to exercise the franchise granted to it by The City of New York, dated June 8, 1923, for the operation of stages or omnibuses over the following route in Far Rockaway, Borough of Queens, City of New York:

"Starting at the intersection of Beach 20th Street, and Cornaga Avenue, east along Cornaga Avenue to Beach 19th Street, to Everdell Avenue to Greenport Road to Rue St. Felix to Grandview Avenue to Seagirt Avenue and along Seagirt Avenue to its termination at the bay at Simis' or Coronado Beach, returning over the same route."

Thereupon the Chairman was authorized by said Resolution and Order in Case No. 2687, to execute a Certificate of Convenience and Necessity for the operation of said route.

800—Case 1198

Interborough Rapid Transit Company—Filing of Franchise and Corporate Documents—Letter from Secretary of Company Transmitting Contract with Third Avenue Railway Company for Installation of Sliding Negative Return Contacts and Binding Cables—Filed

The Secretary presented a communication, dated June 5, 1923, from H. M. Fisher, Secretary of the Interborough Rapid Transit Company, transmitting contract, dated April 20, 1923, with the Third Avenue Railway Company, providing for the installation of sliding negative return contacts and binding cables connected to tracks of the Kingsbridge Railway Company at each end of the draw span of the Harlem Ship Canal Bridge.

Thereupon the above mentioned papers were ordered filed.

801—Case 2618

The Long Island Railroad Company—Application of The City of New York for a Determination as to the Manner in which Park Lane South, in the Borough of Queens, Shall Cross the Tracks of the Montauk Division—Communication from Assistant Counsel Cooke Transmitting Copy of Commission's Brief in the Appellate Division—Filed

The Secretary presented a communication, dated June 7, 1923, from Assistant Counsel Cooke, transmitting copy of Commission's brief in the Appellate Division on the appeal taken by The Long Island Railroad Company, from the Commission's Order in Case No. 2618, determining the manner in which Park Lane South, in the Borough of Queens, shall cross the tracks of the Montauk Division of the railroad, and advising that the appeal was to be argued on June 8, 1923.

Thereupon the above mentioned papers were ordered filed.

802—Case 2679

Brooklyn Rapid Transit Company—Application of Stockholders' Committee for Approval of Plan of Reorganization—Statement by Secretary as to Execution of Certificate by Chairman Authorizing Reorganization of New York Consolidated Railroad Company and New York Municipal Railway Corporation—Ordered Spread on Minutes

The Secretary stated that on June 7, 1923, the Chairman had on behalf of the Commission executed the Certificate authorizing the reorganization of the New York Consolidated Railroad Company and the New York Municipal Railway Corporation, pursuant to the Order in Case No. 2679, which said Certificate was attached to the

certificate of incorporation of the New York Rapid Transit Corporation, a copy of which was filed with the Commission.

Thereupon the above mentioned statement by the Secretary was ordered spread on the minutes.

803

Contract No. 3—The City of New York v. Interborough Rapid Transit Company and Robert Ridgway, etc., Prior Determination Case—Letter from Counsel Advising of Affirmance by Court of Appeals of Judgment of Appellate Division—Filed

The Secretary presented a communication, dated June 1, 1923, from Assistant Counsel Stover, approved by Counsel to the Commission, advising that on May 29, 1923, the Court of Appeals affirmed without opinion the judgment of the Appellate Division, First Department, affirming the judgment of Special Term of the Supreme Court which dismissed the City's complaint in the prior determination case on the ground that it failed to state the cause of action.

Thereupon the above mentioned papers were ordered filed.

804—R. T. 7601

Route No. 52, Section No. 1—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract with McClintic-Marshall Company for Furnishing and Erecting Structural Steel and Authorizing Appropriation of \$679,838.80—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 1, 1923, was ordered filed:

(Cal. No. 49)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated May 8, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with McClintic-Marshall Company for furnishing and erecting structural steel for a part of a rapid transit railroad, Flushing Route, Route No. 52, Section No. 1, at an estimated cost of six hundred and seventy-nine thousand eight hundred and thirty-eight dollars and eighty cents (\$679,838.80); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be six hundred seventy-nine thousand eight hundred and thirty-eight dollars and eighty cents (\$679,838.80); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of Transit Commission, dated May 8, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding six hundred seventy-nine thousand eight hundred and thirty-eight dollars and eighty cents (\$679,838.80) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be in addition to the general appropriation of *twenty-eight million two hundred thousand dollars* (\$28,200,000), made by the Board of Estimate and Apportionment on *March 18, 1913*, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment June 1, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated June 11, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract, approved as to form, was also ordered filed.

805—R. T. 6407

Route No. 52—Certified Copies of Resolutions of Board of Estimate and Apportionment Authorizing Department of Plant and Structures to Prepare Plans for Highway and Rapid Transit Bridge Over Flushing River, Authorizing Appropriation of \$21,200 for Bridge as Charge to Rapid Transit Funds, Authorizing Appropriation of \$18,800 for Bridge as Charge to Funds of Department of Plant and Structures and Authorizing Agreement with Long Island Railroad Company for Contribution and Easements—Filed

The following certified copies of the resolutions adopted by the Board of Estimate and Apportionment on June 1, 1923, were ordered filed:

(Cal. No. 12-A)

Resolved, By the Board of Estimate and Apportionment that, pursuant to the recommendation of the Transit Commission under date of February 27, 1923, the Department of Plant and Structures be and hereby is authorized to proceed with the preparation of plans for the proposed rapid transit and highway bridge over the Flushing River, Borough of Queens, such plans to cover the entire structure, including the double-deck approaches, the lower one to carry the highway and the upper one the rapid transit trains, as well as the double-deck bridge, either lift or swing, which will span the river; the cost of said plans to be charged to the extent of eighteen thousand eight hundred dollars (\$18,800) against the appropriation of a like sum of tax notes, and to the extent of twenty-one thousand two hundred dollars (\$21,200) against the appropriation of a like sum of rapid transit corporate stock, *both* authorized on this date for said purpose.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 1, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 12-B)

Whereas, The Transit Commission, under date of February 27, 1923, recommended to the Board of Estimate and Apportionment that work incident to the construction of the proposed bridge across the Flushing River, to be used partly for rapid transit and partly for highway purposes, be assigned to the Department of Plant and Structures and that said Department in cooperation with the Chief Engineer of the Transit Commission, be authorized to take the necessary steps toward that end; and

Whereas, It appears from estimates presented at this meeting of the Board of Estimate and Apportionment that forty-seven per cent. of the cost of the bridge and its approaches from the highway abutment on the west side of Flushing River to the railway abutment on the east side, would be chargeable to the account of highway construction, and fifty-three per cent. to rapid transit construction; and

Whereas, The tentative estimated cost of the preparation of the plans for said bridge and approaches is forty thousand dollars (\$40,000); therefore be it

Resolved, That the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to and authorize an appropriation of twenty-one thousand two hundred dollars (\$21,200) corporate stock to provide for that portion of the cost of the preparation, by the Department of Plant and Structures, of plans for the proposed rapid transit and highway bridge and approaches over the Flushing River (Rapid Transit Route No. 52), properly chargeable to rapid transit funds; and be it further

[June 13, 1923

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty-one thousand two hundred dollars (\$21,200); and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, and the provisions of section 45 of the Greater New York Charter, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to the amount of twenty-one thousand two hundred dollars (\$21,200) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be used for the preparation of the plans aforesaid; said issue of corporate stock to be *in addition* to the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 1, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 12-C)

Resolved, By the Board of Estimate and Apportionment that, pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding eighteen thousand eight hundred dollars (\$18,800), which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which, to the amount of the par value thereof to be (in addition to the appropriation of twenty-one thousand two hundred dollars (\$21,200) rapid transit corporate stock authorized on this date) for the preparation of complete plans for the proposed rapid transit and highway bridge, with approaches, over the Flushing River, Borough of Queens, under the jurisdiction of the Department of Plant and Structures; provided, however, that no encumbrance by contract or otherwise shall be made against this authorization, nor shall bids upon contemplated contracts be advertised for until after approval by the Board of Estimate and Apportionment, or its duly authorized representative, of such proposed expenditure, or of the plans, specifications, estimates of cost and forms of proposed contracts for said improvements; nor shall any architect, engineer, expert or departmental employee be engaged or employed as a charge against such authorization, except after approval by said Board of such employment and of the fee or wage to be paid by preliminary and final contract, voucher or Budget schedule, unless in the case of departmental employees such employment is in accordance with schedules approved by said Board.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 1, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 12-D)

Resolved, By the Board of Estimate and Apportionment that, in connection with the construction of the proposed rapid transit and highway bridge and approaches over the Flushing River, Borough of Queens, the Corporation Counsel be and hereby is authorized and directed to prepare and submit to the Board for its consideration a stipulation and agreement with the Long Island Railroad Company which shall cover among other provisions the following:

(a) A contribution of \$50,000 by the Long Island Railroad Company and as much more as may be agreed upon after the complete plans for this structure are prepared, and it is possible to estimate closely the cost of the elevated approach over the Long Island Railroad Company's property west of the river.

(b) Transfer to the City of title in fee to those portions of the right of way which will necessarily be taken by the footings of the columns which support the elevated structure; and also of an easement in perpetuity over the railroad property for the elevated structure.

(c) That the Long Island Railroad Company shall not make claim against the City for injury or damage of any character to its property or structures by reason of the construction of the bridge and its approaches.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 1, 1923.

JAMES MATTHEWS,
Assistant Secretary.

806—R. T. 6583

Route No. 16—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Transfer of \$40,000 from Rapid Transit Funds to Department of Water Supply, Gas and Electricity for Expense of Relocating Water Mains in Jerome Avenue—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 1, 1923, was ordered filed:

(Cal. No. 143)

Whereas, Under date of June 21, 1922, the Transit Commission transmitted to the Board of Estimate and Apportionment for its approval a requisition for a transfer of forty thousand dollars (\$40,000) from rapid transit funds to the Department of Water Supply, Gas and Electricity for the purpose of relocating water mains under and along Jerome avenue, where they are below and contiguous to the elevated column footings of the Municipal Elevated Rapid Transit Railroad over and along said Jerome avenue; and

Whereas, On March 16, 1923, the Board of Estimate and Apportionment, pursuant to an opinion of the Corporation Counsel, referred back to the Transit Commission its requisition of June 21, 1922; and

Whereas, The Chief Engineer of the Transit Commission, in a communication under date of March 27, 1923, reported with respect to said matter, and on April 3, 1923, the Transit Commission adopted the following resolution:

“Resolved, That said report and recommendation be and the same hereby is approved; that this Commission hereby certifies to the Board of Estimate and Apportionment of The City of New York that upon the findings based upon pertinent facts as set forth in the said report of the Chief Engineer of this Commission that this Commission is of the opinion and believes that the water mains in their present location under and along Jerome avenue, where contiguous to and below the column footings of the Municipal Elevated Railroad over and along Jerome avenue, are a danger and a menace to the safety and stability of said elevated structure and that a communication and requisition in pursuance thereof be transmitted to said Board of Estimate and Apportionment.”

—and renewed its application for the appropriation of the sum of forty thousand dollars (\$40,000) for the purposes set forth in its communication of June 21, 1922, said sum to be deducted from the appropriation heretofore made for the purposes of Contract No. 3; and to be transferred to the Department of Water Supply, Gas and Electricity; and

Whereas, The Chief Engineer of this Board, under date of May 22, 1923, reported in part, as follows:

“The communication of reference from the Transit Commission complies with the terms of the opinion of the Corporation Counsel, and I accordingly recommend that \$40,000 be transferred from the funds appropriated for carrying out Rapid Transit Contract No. 3 to the Department of Water Supply, Gas and Electricity for the purpose of meeting a portion of the expense of relocating the water mains in Jerome avenue from Kingsbridge road to a point about 300 feet north of East 198th street, Borough of The Bronx, but with the understanding that such additional funds as may be necessary will be provided by the Board of Estimate and Apportionment and that the work will be undertaken without undue delay.”

Resolved, That the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, hereby approves of and consents to the requisition of the Transit Commission, dated June 21, 1922, as renewed on April 3, 1923, and that the Comptroller is authorized and requested to transfer the sum of forty thousand dollars (\$40,000) to the Department of Water Supply, Gas and Electricity, for the purpose of meeting a portion of the

expense of relocating the water mains, in Jerome avenue from Kingsbridge road to a point about 300 feet north of East 198th street, Borough of The Bronx; said sum of forty thousand dollars (\$40,000) to be transferred from the appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by this Board on March 18, 1913, and the supplemental or additional appropriations made thereto, for the purposes of Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 1, 1923.

JAMES MATTHEWS,
Assistant Secretary.

Expenses—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$200,000 as Part of Expenses for Year Ending December 31, 1923—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 1, 1923, was ordered filed:

(Cal. No. 48)

Resolved, That the Board of Estimate and Apportionment, in accordance with the requisition of the Transit Commission, dated May 8, 1923, and pursuant to the provisions of chapter 134 of the Laws of 1921, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, hereby authorizes an appropriation in the sum of two hundred thousand dollars (\$200,000), in addition to the amount heretofore appropriated, to properly enable the Transit Commission to do and perform or cause to be done and performed, for the year ending December 31, 1923, the duties imposed upon said Commission by the said law; and the Comptroller is hereby authorized, pursuant to law, and the said requisition of the Transit Commission, to issue special revenue bonds of The City of New York to an amount not exceeding two hundred thousand dollars (\$200,000), redeemable from the tax levy of the year next succeeding the year of their issue, the proceeds to be used for the purposes aforesaid.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 1, 1923.

JAMES MATTHEWS,
Assistant Secretary.

Lease—Report by Real Estate Clerk Recommending Proposed Lease for Two Rooms in Premises at No. 57 Alburdis Avenue, Corona, for Term of One Year from April 16, 1923—Approval Resolution

A report was presented from the Real Estate Clerk, dated June 11, 1923, recommending approval of a proposed lease with Robert G. Lake, for two rooms in the premises at No. 57 Alburdis Avenue, Corona, for a term of one year, beginning on April 16, 1923, at a rental of \$100 per month.

The following resolution was adopted:

Whereas, The Real Estate Clerk, under date of June 11, 1923, has reported that the proposed lease dated April 16, 1923, between Robert G. Lake and this Commission, of two rooms numbers 2 and 3 in the premises known as No. 57 Alburdis Avenue, Corona, for the term of one year beginning on the 16th day of April, 1923 and ending on the 16th day of April, 1924, at the rental of \$100.00 per month with an option for a renewal for one year at the same rental, all as more particularly set forth in the said proposed lease, is satisfactory from a real estate point of view, considering local conditions, recommending that the said lease be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid lease, and that the Chairman and Secretary of this Commission be, and they hereby are, authorized and directed to deliver the said lease for and on behalf of this Commission.

815

Employees' Resolution No. 148

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—Barnett M. Bass, junior assistant, at \$125.08 per month, to take effect June 11, 1923; Simon Broder, junior assistant, at \$125.08 per month, to take effect June 11, 1923; Alexander Charles, draftsman, at \$150.08 per month, to take effect June 12, 1923; Jacob J. Delbourgo, junior assistant, at \$125.08 per month, to take effect June 11, 1923; Arthur T. Demeroto, junior assistant, at \$125.08 per month, to take effect June 7, 1923; Arthur K. Drake, junior assistant, at \$125.08 per month, to take effect June 11, 1923; Harry Lee, junior assistant, at \$125.08 per month, to take effect June 11, 1923; Percival P. Little, engineering inspector, at \$150.08 per month, to take effect June 8, 1923; Peter E. Rattinger, draftsman, at \$150.08 per month, to take effect June 11, 1923; Gustave Reinberg, junior assistant, at \$125.08 per month, to take effect June 6, 1923; Edward C. Schmidt, junior assistant, at \$125.08 per month, to take effect June 11, 1923; Joseph P. Weismantel, junior assistant, at \$125.08 per month, to take effect June 11, 1923.

Appointment under Rule VIII:9—Julius Jacobs, watchman, at \$3.00 per day, to take effect June 6, 1923.

Reinstatement under Rule XVI:1—George Meister, accountant, at \$150.08 per month, to take effect June 11, 1923.

Resignations—Leo Blankman, draftsman, at \$150.08 per month, to take effect June 20, 1923; Leon A. Humphrey, draftsman, at \$150.08 per month, to take effect June 9, 1923; Carl S. Monniche, draftsman, at \$150.08 per month, to take effect June 19, 1923.

Leave of Absence with Pay—W. J. Broderick, junior assistant, from May 29, 1923; to June 2, 1923; Louis Kamman, junior assistant, from April 20, 1923, to April 26, 1923; Charles Monheit, junior clerk, from April 17, 1923, to May 16, 1923.

Voucher Schedule No. 24

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 565-614, open market orders, \$2,227.71; Vouchers Nos. 297-329, miscellaneous bills, \$95,202.32.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 119; Benedetto & Saussez; approximate estimate No. 1 for the making of alterations in the Broadway-Fourth Avenue Rapid Transit Railroad at various locations to permit widening of streets in the Borough of Manhattan, from March 21, 1923 to April 30, 1923 (R. T. 7635) \$1,471.50;

Voucher No. 129; Rapid Transit Subway Construction Company; Requisition No. 49; principal Contract No. 2, Brooklyn-Manhattan Rapid Transit Railroad, as per determination of Chief Engineer of Transit Commission dated May 12, 1923 (R. T. 6616) \$85,000.00;

Voucher No. 137; Wagner Engineering Company, Inc.; approximate estimate No. 5 for the construction of direction signs at stations of rapid transit railroads of The City of New York, from May 6, 1923 to June 5, 1923 (R. T. 7482) \$1,244.15;

Voucher No. 138; Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 9 for the construction of inspection shed enclosure for route No. 18, 180th Street Yard, from May 1, 1923 to May 31, 1923 (R. T. 7457) \$16,237.75;

Voucher No. 139; Interborough Rapid Transit Company; final estimate for changing the structure of the 7th Ave. Rapid Transit Railroad, made necessary in connection with roadway changes at the northeast corner of 25th Street and Seventh Avenue, Borough of Manhattan to Jan. 31, 1923 (R. T. 7607) \$3,017.99;

Voucher No. 140; Joslin Construction Co., Inc.; approximate estimate No. 10 for the reconstruction of a part of the Queensboro Subway Rapid Transit Railroad, Route No. 26, Jackson Avenue Station, from May 1, 1923 to May 31, 1923 (R. T. 7556) \$10,608.08;

Voucher No. 141; Frederick L. Cranford, Inc.; approximate estimate No. 11 for the reconstruction of a part of Section No. 3 of Route No. 33, completion of Lawrence Street Station, from May 1, 1923 to May 31, 1923 (R. T. 6754) \$10,238.62;

Voucher No. 142; George Colon & Company; approximate estimate No. 12 for the construction of Union Square passageway connection station, Routes Nos. 5 and 8, from May 1, 1923 to May 31, 1923 (R. T. 7513) \$1,083.40;

Voucher No. 143; Frederick L. Cranford, Inc.; approximate estimate No. 2 for the construction of Section 6-A-1 of Route No. 8 of the 14th Street-Eastern Line, from May 1, 1923 to May 31, 1923 (R. T. 7667) \$32,719.47;

Voucher No. 144; Rosenthal Engineering Contracting Co., Inc.; approximate estimate No. 13 for the construction of inspection shed enclosure at Livonia Avenue Yard, Route No. 31, from May 1, 1923 to May 31, 1923 (R. T. 7520) \$2,307.52;

Voucher No. 145; Oakdale Contracting Co. Inc.; approximate estimate No. 1 for the construction of a part of the Flushing Route No. 52, Section No. 3, from March 29, 1923 to May 31, 1923 (R. T. 7673) \$35,225.70;

Voucher No. 146; Holbrook, Cabot & Rollins Corporation; approximate estimate No. 12 for the construction of a new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad, from May 1, 1923 to May 31, 1923 (R. T. 6114) \$8,615.77;

Voucher No. 148; Gustin-Morris Contracting Corporation; approximate estimate No. 2 for the construction of foundations, Route 52, Section No. 1, Flushing Route, from May 1, 1923 to May 31, 1923 (R. T. 7670) \$7,860.83;

Voucher No. 149; Powers-Kennedy Contracting Corporation; approximate estimate No. 12 for the construction of a part of the Queensboro Subway Rapid Transit Line, Routes Nos. 35 and 67 (R. T. 7584) \$83,456.11.

817

Upon motion, duly seconded and adopted, the meeting was adjourned to Thursday, June 21, 1923.

JAMES B. WALKER,
Secretary.

Proceedings for Wednesday, June 20, 1923

Present: George McAneny, Chairman; James B. Walker, Secretary.

The following matter was presented and action taken as noted:

818—R. T. 7665

Routes Nos. 36 & 37—Receipt of Bids for Installation of Switchback Track and Miscellaneous Work East of Queensboro Plaza Station—Referred to Chief Engineer

Chairman McAneny stated that the time within which to receive bids for installing a switchback track and other miscellaneous work east of the Queensboro Plaza Station, Routes Nos. 36 & 37, had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the two bids received. The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

Proceedings for Thursday, June 21, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

819—R. T. 7653

Agreement "CN"—Receipt of Bids for Changes in Subway Structure Due to Widening of West 32d Street at Broadway and for Construction of Ventilation Flue—Bids Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for making changes in the subway structure at Broadway incidental to the widening of West 32nd Street and the construction of a ventilation flue at West 32nd Street and Broadway, Routes Nos. 4 & 36, Section No. 2, Agreement "CN," had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the four bids received. The bids were then referred to the Chief Engineer.

820—R. T. 7653

Agreement "CN"—Resolution Authorizing Release of Checks to All but Lowest and Next to Lowest Bidders for Changes in Subway Structure Due to Widening of West 32d Street and Construction of Ventilation Flue—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on June 21, 1923, for making changes in the subway structure at Broadway, incidental to the widening of West 32nd Street and the construction of a ventilation flue at West 32nd Street and Broadway, Borough of Manhattan (Agreement "CN"), the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to the lowest of the bidders the certified checks in the sum of Three hundred (\$300) dollars, deposited with their bids as security.

821—R. T. 6189

Route No. 5, Section No. 9—Communication from Comptroller Requesting Preparation of Voucher for Payment of Judgment Obtained by Patrick McGovern and Charles L. Perrin—Approval Resolution—Requisition upon Board of Estimate and Apportionment for Authorization of \$182,403.16.

A communication was presented from Charles L. Craig, Comptroller, advising of a judgment obtained by Patrick McGovern and Charles L. Perrin, growing out of the contract for the construction of Section No. 9 of Route No. 5, part of the Lexington Avenue Line, and requesting the preparation of a voucher for payment of same with interest.

The following resolution was adopted:

Whereas, The Comptroller of The City of New York by communication dated June 9, 1923 has requested the transmission to the Department of Finance of The City of New York of a voucher as follows:

"Code CCM 339-A—Judgment in favor of Patrick McGovern and Charles L. Perrin, dated May 3, 1923, for \$153,185.62, plus interest thereon from July 27, 1920 and \$2,172.93 as taxed costs, which judgment was based upon a contract for the construction of that portion of the subway in Lexington Avenue extending from 67th to 79th Streets."

; and

Whereas, The Auditor of this Commission has recommended the making of a requisition for the subauthorization of such amount under the appropriations heretofore made for Contract No. 3, the voucher in compliance with the Comptroller's request to be transmitted to the Department of Finance coincidentally with the sending of such requisition; and

Whereas, Counsel has prepared a proposed requisition which will effect such recommendation,

Resolved, That the said requisition so submitted be and the same hereby is approved and that it be transmitted to the Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

June 21, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission is in receipt of the following communication dated June 9, 1923, from the Comptroller of The City of New York:

"To THE TRANSIT COMMISSION,

Gentlemen:

The Corporation Counsel advised this department that a judgment, dated May 3, 1923, was obtained against the City of New York by Patrick McGovern

and Charles L. Perrin upon an action commenced against it on the 11th day of April, 1916, to recover the sum of \$284,920.84, together with interest and costs. The action grew out of a contract entered into between the plaintiffs and the City of New York, acting by the Public Service Commission for the First District, for the construction of Section No. 9 of Route No. 5 of that portion of the subway in Lexington Avenue which extends from 67th Street to 79th Street.

There is transmitted herewith a copy of the Corporation Counsel's communication to the Comptroller, under date of May 11, 1923, advising of said judgment, from which it may be noted that in the final judgment, as modified by the Court of Appeals, the plaintiffs are awarded the sum of \$153,185.62 with interest thereon from July 27, 1920, and with the costs of appeal to the Court of Appeals which were taxed at \$2,172.93 and judgment entered accordingly. The Corporation Counsel advised that the judgment was properly obtained and should be paid.

The funds necessary to make payment of the judgment have been transferred from code CCM 300 to

(Code CCM 339-A—Judgment in favor of Patrick McGovern and Charles L. Perrin, dated May 3, 1923, for \$153,185.62, plus interest thereon from July 27, 1920 and \$2,172.93 as taxed costs, which judgment was based upon a contract for the construction of that portion of the subway in Lexington Avenue extending from 67th to 79th Streets.

Will you, therefore, transmit a voucher charged against code CCM 339-A, in favor of Patrick McGovern and Charles L. Perrin, for \$153,185.62 covering the judgment, to which interest is to be added from July 27, 1920 to the date of payment and also charging the sum of \$2,172.93 as taxed costs.

Yours truly,

CHARLES L. CRAIG,
Comptroller."

Your Honorable Board is therefore requested to set aside as a subauthorization from the appropriations heretofore made for the purposes of carrying out the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3, the sum of One hundred eighty-two thousand, Four hundred and Three Dollars and Sixteen Cents (\$182,403.16), which is made up as follows, the interest being computed to July 6, 1923, the anticipated day of payment

Amount of Judgment.....	\$153,185.62
Interest from July 27, 1920 to July 6, 1923.....	27,044.61
Costs (Court of Appeals).....	2,172.93
	<hr/>
	\$182,403.16

The voucher, as requested by the Comptroller in his communication, will be transmitted to the Department of Finance coincidentally with the transmission of this requisition.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

822—R. T. 7601

Route No. 52, Section No. 1—Resolution Approving Sureties upon Bond in Sum of \$50,000 Deposited by Contractor for Supply and Erection of Structural Steel—Adopted

The following resolution was adopted:

Whereas, This Commission is in receipt of the following communication dated June 20, 1923, from G. R. Enscoe, Contracting Engineer of the McClintic-Marshall Company:

"We are delivering herewith four copies of Contract covering furnishing and erecting structural steel on Section No. 1 of Route No. 52 of the Flushing Line, duly executed on our behalf.

You will note that Messrs. W. S. Mitchell, H. H. McClintic, and C. D.

Marshall have signed our bond as Sureties. These men are large stockholders and directors of the McClintic-Marshall Company, as well as of a number of other corporations, and are individually possessed of assets in excess of \$1,000,000.00"

; and

Whereas, This Commission is satisfied as to the financial responsibility of the individuals referred to as sureties upon the said bond in the sum of fifty thousand dollars (\$50,000) deposited as security for the faithful performance of the work for the supply and erecting structural steel on said Section No. 1 of Route No. 52,

Resolved, That the said W. S. Mitchell, H. H. McClintic, and C. D. Marshall be and the same hereby are approved as sureties upon the said bond deposited in accordance with the provisions of and as security for the faithful performance of said contract.

823—R. T. 7652

Route No. 45, Section No. 2—Resolution Approving Sureties upon Bond Deposited by Contractor in Substitution for Certified Check in Sum of \$75,000 Submitted with Bid—Adopted

The following resolution was adopted:

Resolved, That the Massachusetts Bonding and Insurance Company, Maryland Casualty Company, American Surety Company, and United States Fidelity and Guaranty Company, be and hereby are approved as sureties upon the bond in the sum of \$75,000 deposited by Patrick McGovern, Inc., in substitution for the certified check submitted with the bid of the said Patrick McGovern, Inc., on May 22, 1923, for the construction of Section No. 2 of Route No. 45, part of the Broadway-Fourth Avenue Rapid Transit Railroad.

824—R. T. 7648

Agreement "CJ"—Resolution Approving Sureties upon Bond in Sum of \$4,000 Deposited by Contractor for Construction of Concrete and Steel Highway Bridge Over Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn—Adopted

The following resolution was adopted:

Resolved, That the Globe Indemnity Company and the Maryland Casualty Company be and hereby are approved as sureties upon the bond in the sum of Four thousand (\$4,000) Dollars deposited by M. A. Charles as security for the faithful performance of the contract for the construction of a concrete and steel highway bridge over Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn, Agreement "CJ," each of said sureties being held and bound in the sum of Two thousand (\$2,000) Dollars.

825—R. T. 7520

Route No. 31—Report by Chief Engineer Recommending Extension of Time to Contractor to May 26, 1923, within Which to Complete Contract for Enclosure to Inspection Shed at Livonia Avenue Yard—Approval Resolution

A report was presented from the Chief Engineer dated June 15, 1923, recommending that an extension of time be granted to Rosenthal Engineering Contracting Company to and including May 26, 1923, within which to complete the contract for the construction of an enclosure to the inspection shed at the Livonia Avenue Yard.

The following resolution was adopted:

Whereas, The contract dated February 17, 1922, between The City of New York acting by the Transit Commission and Rosenthal Engineering Contracting Company for the construction of inspection shed enclosure for the Eastern Parkway Rapid Transit Railroad, Route No. 31, Livonia Avenue Yard, requires in Chapter VIII thereof that the entire work covered by said contract shall be completed in all respects within ten (10) months from the date of the delivery thereof, which contract was

delivered on February 20, 1922, the original period therefor expiring on December 20, 1922; and

Whereas, The said contract in said chapter further provides "But in case the contractor shall be actually and necessarily delayed by reasons of any labor strike not caused or instituted or provoked by the Contractor * * * or in case the Contractor shall be actually and necessarily delayed by any injunction or by any act of the United States Government or by any other interference of public authority or by the suspension of the whole or any part of the work by the Commission * * * then the said date for completion shall, except as hereinafter provided, be extended by the Commission to a date later than the expiration of said authority of ten (10) months * * *"; and

Whereas, The Chief Engineer of this Commission by communication dated June 15, 1923 has reported that the work under said contract started on March 6, 1922; that all the work required by said contract was in all respects completed on May 26, 1923; that the original contract period was exceeded by 131 actual working days; that the said contractor has requested an extension of time as set forth in its letter to the said Chief Engineer of December 12, 1922 for the reason that "we have been hampered a great deal and have been prevented from operating our work in accordance with our schedule by the brick famine during the months of May, June and July; by the embargo placed on material which held back our slate work for quite a long time; by the inability to obtain specific material for the sheet metal work; by the fact that the track floors were not as contemplated when we originally signed the contract * * * which hampered our progress in the plastering work" and recommends for the reason that there is sufficient ground for the granting of the extension of time within the permissible provisions of said contract, that the time for the completion of the work under said contract be extended to and including May 26, 1923.

Resolved, That the said report and recommendation be and the same hereby are approved; that the time of Rosenthal Engineering Contracting Company within which to complete all the work under said contract aforesaid be and hereby is extended to and including May 26, 1923; provided, however, that this extension of time shall not take effect unless and until it shall be consented to in writing by the sureties upon the bond deposited by the said contractor as security for the faithful performance of said contract and unless and until it shall be accepted in writing by the said contractor in a form to be approved by Counsel to this Commission, expressing the understanding that the extension of time herein granted shall in no way for any purpose be deemed a recognition or admission of any claim legal or equitable made or which may be made by the said Contractor under the contract aforesaid and the fact that such extension of time is herein granted shall not be used by the said contractor in any action or proceeding at law or in equity as evidence of an admission of any claim or claims of the said contractor under said contract and that the granting of such extension of time shall in no way defeat or impair any claim or defense of The City of New York in any such action or proceeding growing out of said contract aforesaid.

826—R. T. 7466

Agreement "AZ"—Report by Chief Engineer Recommending Extension of Time to May 25, 1923, to Charles J. Adams & Sons, Inc., within Which to Complete Entrance to Borough Hall Station Through Isle of Safety and Recommending that Contractor Be Required to Deposit Certified Check in Sum of \$200 as Security for Installation of Enamel Signs—Approval Resolution

A report was presented from the Chief Engineer dated June 16, 1923, advising of a request from Charles J. Adams & Sons Inc. dated June 7, 1923, for an extension of time to and including May 25, 1923, within which to complete all work under Agreement "AZ" for an entrance to the Borough Hall Station through the Isle of Safety, Borough of Brooklyn, and recommending that such extension of time be granted and that the contractor be required to deposit a certified check in the sum of \$200 as security for the installation of two enamel signs.

The following resolution was adopted:

Whereas, The contract dated May 16, 1922 between The City of New York acting by the Transit Commission and Charles J. Adams & Sons, Inc. (Agreement "AZ") for the completion of entrance through the isle of safety at the Borough Hall Station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad required the completion of all work thereunder within six months after the date of the delivery thereof, which said contract was delivered on May 18, 1922, the last date for completion therefor being November 18, 1922; and

Whereas, The Chief Engineer of this Commission by communication dated June 13, 1923 reports that with the exception of tile work and the replacement of enamel signs and street pavement the work under said contract was completed on March 24, 1923 and that all other work with the exception of the replacement of enamel signs was completed on May 25, 1923; that the said contractor has by communication dated June 7, 1923 requested an extension of time for the reasons more particularly set forth in said report of the Chief Engineer who recommends that the time for the completion of the work under said contract be extended to and including May 25, 1923 and that said contractor be required to deposit a certified check in the sum of \$200 as security for the faithful performance of the contractor in installing said two enamel signs, so as to permit of the acceptance of the work under said contract prior to the installation of said signs,

Resolved, That said report and recommendation be and the same hereby are approved; that the time of the contractor within which to complete the work under said contract be and the same hereby is extended to and including May 25, 1923; and that said contractor deposit with this Commission its certified check in the sum of \$200 as security for the faithful performance on its part of the work of installing two enamel signs required by said contractor, as a condition of the acceptance of all the work under said contract prior to the installation of said enamel signs.

827—R. T. 7466

Agreement "AZ"—Certificate by Chief Engineer of Completion of Contract for Construction of Entrance to Borough Hall Station Through Isle of Safety, Borough of Brooklyn—Resolution Accepting Work and Directing That Certificate Be Filed with Comptroller

The following certificate was approved:

June 16, 1923.

To: TRANSIT COMMISSION:

Certificate of Completion: New Entrance to Borough Hall Station through Isle of Safety, Route 33, Section 3 (Agreement "AZ.")

In connection with the contract dated May 16, 1922 between the City of New York and Chas. J. Adams & Son, Inc., for the construction of an entrance to Borough Hall Station through isle of safety, Route 33, Section 3, I hereby certify that all work was completed on May 25, 1923. The total cost of the work was \$15,930.78.

In accordance with the provisions of the contract all work should have been completed by November 18, 1922. The time for completion, however, was extended to May 25, 1923 by resolution of the Transit Commission adopted on June 20, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The contract dated May 16, 1922 between The City of New York acting by the Transit Commission and Charles J. Adams & Son, Inc. (Agreement "AZ") for the construction of an entrance to the Borough Hall Station of the Seventh Avenue branch of the Seventh Avenue-Lexington Avenue Line, through the isle of safety, Route 33, Section 3, required the completion of all work thereunder on or before November 18, 1922, which time was extended to and including May 25, 1923 by resolution of the Transit Commission adopted on June 20, 1923; and

[June 21, 1923

Whereas, The Chief Engineer of this Commission by communication dated June 16, 1923 has reported that all the work under said contract was in all respects completed on or before May 25, 1923; that the total amount due therefor was \$15,930.78 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York,

Resolved, That said report and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

828—R. T. 7505

Order No. 21—Certificate by Chief Engineer of Completion of Contract for Supply of Special Work—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

June 14, 1923.

To: TRANSIT COMMISSION:

Certificate of Completion: Supply of Special Work, Order No. 21.

In connection with the contract dated June 27, 1922, between the City of New York and Ramapo Iron Works, for the supply of Special Work (Order No. 21), I hereby certify that all material was delivered by May 26, 1923. The total cost of this material was \$29,214.00.

In accordance with the provisions of the contract, the various portions of special work should have been delivered, as follows:

Portion	Earliest Date Due	Latest Date Due	Received
115	August 22, 1922	September 5, 1922	September 25, 1922
409	September 5, 1922	October 5, 1922	December 9, 1922
424	September 5, 1922	October 5, 1922	December 9, 1922
406	December 5, 1922	February 5, 1923	May 26, 1923
407	December 5, 1922	February 5, 1923	May 26, 1923

The Commission by resolution of June 13, 1923, granted extensions of time for each portion up to and including its actual date of delivery.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The contract dated June 27, 1922, between The City of New York acting by the Transit Commission and Ramapo Iron Works for the supply of Special Work (Order No. 21) required the delivery of the various portions of said Special Work as in said contract more particularly prescribed which periods were extended to and including the actual dates of delivery of said various portions by resolution of this Commission adopted June 13, 1923; and

Whereas, The Chief Engineer of this Commission by communication dated June 14, 1923, reports that the said portions of Special Work were delivered within the extended periods as granted by the Transit Commission in its resolution of June 13, 1923; that the total amount due therefor was \$29,214 and recommends that the said Special Work so delivered be accepted and that a certificate of such completion and acceptance be prepared and transmitted to the Comptroller of The City of New York,

Resolved, That said report and recommendation be and the same hereby are approved; that the said material so delivered be and the same hereby is accepted and that a certificate of such completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

829—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Third Rail Trolley Track Trough for 180th Street Inspection Shed—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated June 5, 1923, requesting approval of a proposed purchasing agent's order directed to Shield Electric Company for furnishing third rail trolley track trough and cable for 180th Street inspection shed, at a cost of \$3,720.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 12, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company, by communication dated June 5, 1923, has requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated June 5, 1923, directed to Shield Electric Company for the following:

2400 Ft. No. 1014 Third Rail Trolley Track Trough drilled complete with adjustable hangers, also insulation strips. All material to be lead coated with the exception of insulation strips.

Price:		
	\$1.20 per Ft.....	\$2,880.00
20 Current Collectors for 250,000 C.M. Cable.	\$20.00 each.....	400.00
20 Contact points for 250,000 C.M. Cable.	\$22.00 each	440.00
		\$3,720.00
	Total	\$3,720.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 482"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated June 12, 1923, have reported that such material consists of third rail trolley track troughs, current collectors and contact points for use in the erection of an overhead trolley system for the 180th Street inspection shed of the Railroad described in said Contract No. 3; that such installation is to be used for motive power for cars entering and leaving the inspection pits; that the quantities requested are necessary and the prices proposed reasonable; that the design of the apparatus is satisfactory and recommend that the said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated June 18, 1923, has recommended that such material be classified as Equipment of the Railroad, as defined in said Contract No. 3,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be so purchased to be classified as Equipment of the Railroad as defined in said Contract No. 3.

830—R. T. 7669

Contracts Nos. 1 and 3—Application by Interborough Rapid Transit Company for Approval of Installation of Air Line in Southbound Track of Harlem River Tunnel—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order No. ICqA-6—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated May 22, 1923, requesting the approval to the installation of a three-inch air line in the southbound track of the Harlem River Tunnel of the Manhattan-Bronx Rapid Transit Railroad at an estimated cost of \$1,600.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 5, 1923, stating that the cost is reasonable and that the application should be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations dated June 13, 1923, classifying the work as Additions to Existing Equipment and assigning Work Order No. ICqA-6.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3, said Interborough Rapid Transit Company has by communication dated May 22, 1923 requested the approval of this Commission to the installation of a three-inch air line in the south bound track of the Harlem River tunnel of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads described in said Contract No. 3; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated June 5, 1923 reported that the estimated cost of such work is \$1,600 which is reasonable; that the air line proposed is to be approximately 1,300 feet and is to have outlets at various places to provide air facilities for air-driven track and construction tools now used by said Lessee and recommend that the said proposal be approved; and

Whereas, By communication dated June 13, 1923 the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have recommended that the proposed work be classified as Additions to Existing Equipment and that Work Order No. ICqA-6 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal be and the same hereby is approved, the cost of such work to be classified as Additions to Existing Equipment, as defined in said Contract No. 3 and as to which work this Commission assigns Work Order No. ICqA-6.

Route No. 18—Communication from Interborough Rapid Transit Company Requesting Installation of Approach Tracks at Northerly End of 180th Street Yard—Referred to Chief Engineer

The following communication from the Interborough Rapid Transit Company was referred to the Chief Engineer:

June 15th, 1923.

TRANSIT COMMISSION,
49 Lafayette Street,
New York City.
Dear Sirs:

As you are aware, the new yard and inspection facilities at East 180th Street, which are to be provided by the City, as part of its obligations under Contract No. 3, are

urgently needed, and, in fact, indispensable to permit this Company to render the best service possible to the travelling public of this City.

These facilities have been in the course of construction for several years and I understand have already cost, or obligated the City for, nearly \$900,000.

I further understand that within a few weeks these facilities will be completed and ready for use, with the exception of the approach tracks to be provided at the northerly end of the yard and without which the facilities already completed cannot be used for any purpose whatever.

The approach tracks, with slight additional work incident to their construction, are estimated to cost approximately \$44,000.00, and upon their completion would make this most necessary improvement in operating facilities available for immediate use by the Company. Until this small expenditure is made, the investment of nearly \$900,000.00 represented by the balance of the yard, must remain idle and of no use whatever.

Inasmuch as it is clearly the duty of the City to complete this improvement, upon which I do not understand there is, or can be, any difference of opinion, it seems to the writer that the Board of Estimate should be requested promptly to appropriate the necessary funds to enable the Commission to take steps to have these additional facilities made available for use without further delay.

Yours very truly,

FRANK HEDLEY,

President and General Manager.

Rapid Transit Railroads—Communication from the Board of Estimate and Apportionment Submitting Report by Engineers as to Request of Pennsylvania Railroad for Additional Rapid Transit Routes in Borough of Queens—Referred to Committee of Whole

The following communication from the Board of Estimate and Apportionment was referred to the Committee of the Whole:

June 12, 1923.

THE TRANSIT COMMISSION,
49 Lafayette Street,
New York City.
Gentlemen:

At the direction of the Committee of the Whole of this Board, I am forwarding herewith, for your information, copy of a report to said Committee, by Assistant Engineers in this office, relative to the communication from the President of the Pennsylvania Railroad, calling attention to the urgent need for additional rapid transit routes in the Borough of Queens.

Respectfully,

JAMES MATTHEWS,

Assistant Secretary.

Route No. 18—Certified Copy of Resolution of Board of Estimate and Apportionment Refusing to Consent to Proposed Stipulation for Construction of Duct Line at 239th Street Yard—Referred to Counsel

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 8, 1923, was referred to Counsel.

Resolved, That the Board of Estimate and Apportionment hereby *refuses* to consent to the request of the Transit Commission, under date of February 20, 1923, for approval of a proposed stipulation, executed by the Interborough Rapid Transit Company, providing for the construction of a single duct line within the limits of the City-owned yard at 239th street and White Plains road, whereby the said company obligates itself to pay 30 per cent. of the cost of construction of said duct line, and also as rental for the occupation of the 239th street yard, for the portion of the duct line used by it, the sum of \$100 per annum.

834—R. T. 7455

**Contract No. 1—Communication from Interborough Rapid Transit Company
Expressing Opposition to Reconstruction of 33d Street Station from Local
to Express Stop—Resolution Directing Public Hearing**

A communication was presented from the Interborough Rapid Transit Company dated May 31, 1923, expressing its opposition to the reconstruction of the 33rd Street Station of the Manhattan-Bronx Rapid Transit Railroad from a local to an express stop and declining to enter into any agreement for such reconstruction.

The following resolution was adopted:

Whereas, On or about the 14th day of December, 1922, the Transit Commission approved the recommendation of its engineers that the 33rd Street Station on the 4th Avenue Line of the Interborough Rapid Transit Company should be reconstructed and altered from a local to an express station; and

Whereas, Pursuant to such recommendation and approval a proposed contract for the reconstruction of such 33rd Street Station accordingly was prepared under and pursuant to the provisions of the contract between The City of New York, acting by the Public Service Commission for the First District and the Interborough Rapid Transit Company dated on or about the 19th day of March, 1913 and known as Contract No. 3; and

Whereas, Interborough Rapid Transit Company, by communication to Counsel for the Transit Commission dated May 31, 1923 expressed its opposition to the alteration and reconstruction of said station as aforesaid and has declined to enter into any agreement for the construction thereof,

Resolved, That upon its own motion, the Transit Commission orders a public hearing to be held before it at its hearing room, No. 49 Lafayette Street, New York City, on the 10th day of July, 1923 at 3 o'clock in the afternoon, to determine whether an alteration and change in construction of said 33rd Street Station from a local to an express station ought reasonably to be made in order to promote the security or convenience of the public or in order to secure adequate service or facilities for the transportation of passengers or property.

835—Case 2688

**The Long Island Railroad Company—Application of The City of New York
for a Determination as to the Manner in Which Queens Boulevard from
74th (17th) Street to Jacobus Street Shall Cross Flushing and North Side
Division, in the Borough of Queens—Hearing Resolution Approved**

The Secretary presented a communication, dated June 11, 1923, from James Matthews, Assistant Secretary of the Board of Estimate and Apportionment, transmitting certified copies of two resolutions approved by the Board on May 25, 1923, changing the grades of Queens Boulevard from 74th (17th) Street to Jacobus Street, in the Borough of Queens, and requesting the Commission to determine the method by which Queens Boulevard shall be carried across the right of way of the Flushing and North Side Division of The Long Island Railroad Company, in the Borough of Queens, together with a map adopted by the Board showing the proposed changes.

Thereupon the Commission approved a resolution in Case No. 2688, directing a hearing on said application at a date to be fixed by the Acting Chief Executive Officer and designating George L. Lucas, Acting Chief Executive Officer, to conduct said hearing.

836—Case 1364

Belt Line Railway Corporation v. Newton et al—Communication from Special Counsel Kingsbury Advising of Special Master's Report and Transmitting Copy of Exceptions Filed on Behalf of Commission—Filed

The Secretary presented a communication, dated June 15, 1923, from H. T. Kingsbury, Special Counsel, advising that the Special Master in the proceeding commenced by the Belt Line Railway Corporation against Newton et al in the United States District Court had filed his report on May 25, 1923, holding that the Commission's Order requiring the railway company to accept transfers for a single five cent fare was confiscatory, and transmitting a copy of exceptions filed on behalf of the Commission to said report.

Thereupon the above mentioned papers were ordered filed.

837

Marine Railway Company—Cessation of Operation—Report by Chief of Transit Bureau as to Discontinuance of Service—Filed

The Secretary presented a report, dated June 14, 1923, from George F. Daggett, Chief of Transit Bureau, approved by George L. Lucas, Acting Chief Executive Officer, advising of the discontinuance of service on June 11, 1923, of the Marine Railway Company from Oriental Point in Manhattan Beach to West End Avenue.

Thereupon the above mentioned report was ordered filed.

838—R. T. 7636

Route No. 16—Notice by Chief Engineer of Commencement of Work for Construction of Inspection Shed and Service Buildings at Jerome Avenue Yard—Filed

The Commission ordered filed a notice from the Chief Engineer, dated June 16, 1923, advising of the commencement of work on June 6, 1923, by Jacob Schlesinger, Inc., for the construction of the inspection shed and service buildings at the Jerome Avenue Yard.

839—R. T. 7416

Routes Nos. 36 and 37—Communication from Interborough Rapid Transit Company Transmitting Copy of Agreement Supplementing Supplementary Agreement for Joint Operation Over Queensboro Lines—Filed

The Commission ordered filed a communication dated June 12, 1923, from the Interborough Rapid Transit Company by H. M. Fisher, Secretary, transmitting a copy of an agreement dated May 28, 1923, between the Interborough Rapid Transit Company, the New York Municipal Railway Corporation, the New York Consolidated Railroad Company and their respective Receivers, supplementing the supplementary agreement dated March 19, 1913, with respect to the exercise of trackage rights and joint operation over the Queensboro Lines.

840—R. T. 6761

Contract No. 3—Communication from Interborough Rapid Transit Company Transmitting Copy of Contract for Purchase of 67,000 Feet of Cable for Substation No. 27—Filed

The Commission ordered filed a communication dated June 12, 1923, from the Interborough Rapid Transit Company, by H. M. Fisher, Secretary, transmitting a copy

of a contract dated January 17, 1923, with the Standard Underground Cable Company for the purchase of 67,000 feet of three-conductor 4/0 paper and lead covered cable for supplying power for Substation No. 27.

841—R. T. 7663

Route No. 52, Section No. 3—Communication from Acting Corporation Counsel Requesting Verification and Signature to Petition for Order of Condemnation for Acquisition of Property at Amity Street between Lawrence and Main Streets, Borough of Queens—Filed

The Commission ordered filed the communication dated June 19, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, submitting for verification and signature, as required by Section 43 of the Rapid Transit Act, a petition to the Supreme Court for an Order of Condemnation for the acquisition of an estate in fee simple absolute in and to certain premises on Amity Street, between Lawrence and Main Streets, Borough of Queens, required for the construction of Section No. 3 of Route No. 52, Flushing Line, the petition having been signed and returned to the Acting Corporation Counsel.

842

Accumulation of Records—Report by Counsel Relative to Records of Cars Turned Back and Recommending Legislation—Filed

The Secretary presented a communication, dated June 12, 1923, by Assistant Counsel Cooke, concurred in by Assistant Counsel Fullen and approved by George O. Redington, Counsel to the Commission, advising that it would be safe to destroy records of cars turned back upon the consent of the Commissioner of Education, and recommending that amendment of the Public Service Commission Law be made by the next Legislature to cover cases of records, etc.

Thereupon the above mentioned report was ordered filed.

843

Employees' Resolution No. 149

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—Alfred G. Hewel, draftsman, at \$150.08 per month to take effect June 18, 1923; Abraham Kaufman, engineering inspector, at \$150.08 per month, to take effect June 18, 1923; William J. Lodge, architectural draftsman, at \$150.08 per month, to take effect June 15, 1923; Meyer Michalowitz, engineering inspector, at \$150.08 per month, to take effect June 14, 1923; Raymond D. Palmer, junior assistant, at \$125.08 per month, to take effect June 18, 1923; Charles F. Rittel, Jr., architectural draftsman, at \$150.08 per month, to take effect June 18, 1923; John H. Scott, draftsman, at \$150.08 per month, to take effect June 20, 1923; Carl J. Speer, Jr., junior assistant, at \$125.08 per month, to take effect June 20, 1923.

Resignations—R. K. Diamond, draftsman, at \$150.08 per month, to take effect June 30, 1923; Isaac Dubertstein, draftsman, at \$150.08 per month, to take effect June 24, 1923; Benjamin Govern, draftsman, at \$210.00 per month, to take effect June 18, 1923; Robert J. Stimpfle, draftsman, at \$150.08 per month, to take effect June 15, 1923; Allen H. Tosh, engineering inspector, at \$150.08 per month, to take effect June 16, 1923.

Rescission of Leave of Absence with Pay—W. J. Broderick, junior assistant, from May 29, 1923, to June 2, 1923.

Voucher Schedule No. 25

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of The State of New York, as the vouchers may direct:

Vouchers Nos. 615-623; 625-632; 634-641, open market orders, \$713.82; Vouchers Nos. 330-343, miscellaneous bills, \$3,058.17; Vouchers Nos. 108-125, City payrolls, \$174,736.08; Voucher No. CM-12, State payrolls, \$2,541.66;

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 147, Benedetto & Saussez; approximate estimate No. 2, for the making of alterations in the structure of the Broadway-Fourth Avenue Line, at various locations in the Borough of Manhattan from May 1, 1923 to May 31, 1923 (R. T. 7635) \$988.87;

Voucher No. 150, Slattery Engineering and Constructing Co., Inc.; approximate estimate No. 7 for the construction of additional approach track to the Lenox Ave. & 148th Street Yard, under Contract No. 3, from May 1, 1923 to May 31, 1923 (R. T. 7366) \$22,032.27;

Voucher No. 151; John Pollock; approximate estimate No. 5, for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Line, Borough of Brooklyn, from May 11, 1923 to June 12, 1923 (R. T. 7609) \$1,753.83;

Voucher No. 152, Ramajo Iron Works; final estimate for the supply of special work, Order No. 21, for use in the construction of parts of the 14th Street-Eastern and Broadway-Fourth Avenue Rapid Transit Railroad, Routes Nos. 8 and 4 & 36, from June 27, 1922 to May 26, 1923 (R. T. 7505) \$1,310.30;

Voucher No. 153, Department of Water Supply, Gas and Electricity, City of New York; for relocating water mains on Jerome avenue from Kingsbridge Road to a point about 300 feet north of 198th Street, The Bronx (R. T. 7457) \$40,000.00;

Voucher No. 154; Charles H. Brown & Son, Corporation, Assignee; approximate estimate No. 16 for the construction of station finish on Sections Nos. 1 and 2 of Route No. 8, from May 16, 1923 to June 15, 1923 (R. T. 7539) \$6,282.79;

Voucher No. 155; Charles J. Adams & Son, Inc.; Final Estimate for the construction of an entrance to Borough Hall Station through Isle of Safety, Agreement "AZ," to May 25, 1923 (R. T. 7466) \$2,342.45.

Voucher No. 156; Patrick McGovern and Charles L. Perrin; in full payment of judgment in action of Patrick McGovern and Charles L. Perrin vs. The City of New York, in connection with contract dated February 13, 1912 for the construction of Section 9 of Route No. 5, entered in office of Clerk of New York County on May 4, 1923 (R. T. 6209) \$182,403.16;

Upon motion, duly seconded and adopted, the meeting was adjourned to Wednesday, June 27, 1923.

JAMES B. WALKER,
Secretary.

Proceedings for Wednesday, June 27, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

846—R. T. 7665

Routes Nos. 36 & 37, Section No. 1—Report by Chief Engineer as to Receipt of Bids for Installation of Switchback Track and Miscellaneous Work East of Queensboro Plaza Station and Recommendation for Award of Contract to B. T. & J. J. Mack, Inc., at Bid Price of \$28,562.50—Approval Resolution—Requisition upon Board of Estimate and Apportionment for Appropriation of \$31,562.50.

The following report was approved:

June 26, 1923.

TO: TRANSIT COMMISSION:

Proposed Contract for Installation of Switchback Track East of Queensboro Plaza Station, Route 36-37, Section 1.

As previously reported, the bids which were opened on June 20 for this work resulted as follows:

B. T. & J. J. Mack, Inc.....	\$28,562.50
Slattery Engineering Construction Co., Inc.....	31,717.50

Our engineer's estimate for this work was \$17,970.50. The total of the low bid, exclusive of contract items 6, 7 & 8, is only slightly in excess of our estimate for the same work. Items 6, 7 & 8 are for work all of which is required to be done on the operated tracks of the Railroad. The contract provides that the contractor may be required to arrange with the Interborough Rapid Transit Company to do this work. The aggregate price bid for these three items by the low bidder is \$15,000 and by the other bidder, \$12,975. Our estimate for the work under these items was \$6,000. The bid price of the low bidder is based upon an estimate of the probable cost of this work furnished him by the operating company; and that of the other bidder upon his own judgment as to the amount of work, difficulty and risk involved in the work. The cost of work of this character affected by train operation is most difficult to forecast, and therefore notwithstanding the disparity between our estimate and the prices bid, I believe the contract should be awarded to the low bidder.

The low bidder has recently completed in a satisfactory manner a contract, under the supervision of the Commission, for the installation of tracks in the Livonia Avenue Yard. Attached hereto is a copy of minutes of conference held in this office on June 25 with Mr. J. J. Mack, representing the firm. Mr. Mack stated that their financial status is substantially the same as indicated by their statement dated January 16, 1923, also attached, submitted in connection with their bid for construction transformer closets for emergency lighting on New York Municipal Lines in Manhattan and Queens, which contract they were awarded.

I transmit herewith blueprints showing tabulation of bids.

In view of the provision of the contract that all changes in the contact rail and rail bonding incidental to the installation of the tracks to be done by the operating company will be paid for at the actual cost to the contractor plus 5% for superintendence etc., and also an account of extra work payments under Item 150 of the contract, an amount somewhat in excess of the amount of the bid should be requisitioned for this work. The estimated cost of the contact rail and bonding work is \$2,600 and of manufacturing beveled blocks and extra haul under Item 150 of the contract is approximately \$400, making a total of \$3,000, which should be appropriated in excess of the contractor's bid.

Recommendation: From an engineering standpoint I recommend that the contract be awarded to the lowest bidder, B. T. & J. J. Mack, Incorporated, at their bid price of \$28,562.50 and that the amount of \$31,562.50 be appropriated to cover the cost of the work entirely chargeable to Contract No. 4.

ROBERT RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the installation of a switchback track east of the Queensboro Plaza Station of the Queensboro Rapid Transit Railroad, Routes Nos. 36 and 37, Section No. 1, to permit of the joint operation of the Queens lines was heretofore finally adopted and subsequent to advertisement duly made bids respectively totalling as follows were received therfor on June 20, 1923:

B. T. & J. J. Mack, Inc.....	\$28,562.50
Slattery Engineering Construction Co., Inc.....	31,717.50

Whereas, The Chief Engineer of this Commission by communication dated June 26, 1923, has reported that the amount of said low bid is reasonable and that the said B. T. & J. J. Mack, Inc., the low bidder, is financially capable and competent to perform the work and has recommended the award of said contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$31,562.50, being the amount estimated to be necessary to carry out the provisions of said contract upon the part of the City.

Resolved, That the said report and recommendation of the Chief Engineer aforesaid be and the same hereby is approved; that the bid of B. T. & J. J. Mack, Inc. submitted as aforesaid be and the same hereby is accepted and the said proposed contract for the installation of switchback track east of the Queensboro Plaza Station of the Queensboro Rapid Transit Railroad, Routes Nos. 36 and 37, Section No. 1 be and the same hereby is awarded to said B. T. & J. J. Mack, Inc., subject to its being approved and consented to in form and substance as required by law, and that requisition on the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$31,562.50, estimated to be necessary to meet the obligations of the City under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

June 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT,
Municipal Building,
New York, N. Y.

Gentlemen:

The Transit Commission pursuant to the authority vested in it by the provisions of Chapter 134, Laws of 1921, transmits herewith for the consent of your Honorable Board as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission and B. T. & J. J. Mack, Inc., for the installation of a switchback track east of the Queensboro Plaza Station of the Queensboro Rapid Transit Railroad Routes Nos. 36 and 37, Section No. 1, necessary to permit of joint operation of the Queens Lines, together with a requisition upon your Honorable Board for the appropriation of the sum of thirty-one thousand, five hundred sixty-two dollars and fifty cents (\$31,562.50) being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on June 20, 1923, respectively totalling as follows:

B. T. & J. J. Mack, Inc.....	\$28,562.50
Slattery Engineering Construction Co., Inc.....	31,717.50

The Chief Engineer of this Commission in a communication dated June 26, 1923, reports that the bid of B. T. & J. J. Mack, Inc., the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to the said B. T. & J. J. Mack, Inc., subject to its being approved and consented to in form and substance as required by law.

Your Honorable Board is therefore requested to consent to said proposed contract herein transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of \$31,562.50 (the additional sum being requested for the reason that as reported by the Chief Engineer "all changes in the contact rail and rail bonding incidental to the installation of the tracks to be done by the operating company will be paid for at the actual cost to the contractor plus 5% for superintendence, etc., and also on account of extra work payments under Item 150 of

the contract, an amount somewhat in excess of the amount of the bid should be requisitioned for this work. The estimated cost of the contact rail and bonding work is \$2-600, and of manufacturing beveled blocks and extra haul under Item 150 of the contract is approximately \$400, making a total of \$3,000, which should be appropriated in excess of the contractor's bid") and also to direct the Comptroller of the City of New York to issue bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary moneys for meeting the City's obligations under said proposed contract, to wit the sum of thirty-one thousand, five hundred sixty-two dollars and fifty cents (\$31,562.50).

Your Board is also requested to authorize pursuant to Section 45 of the Greater New York Charter an issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is a sub-requisition under and not in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913, known as Contract No. 4 and the appropriations made in consequence thereto by your Honorable Board.

TRANSIT COMMISSION,
By GEORGE MCANENY,
Chairman.

847—R. T. 7653

Agreement "CN"—Report by Chief Engineer as to Receipt of Bids for Changes in Subway Structure at West 32d Street and Broadway and Construction of Ventilation Flue and Recommendation for Award of Contract to D. C. Serber, Second Lowest Bidder, at Bid Price of \$35,200—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

June 25, 1923.

To: TRANSIT COMMISSION.

*Award of Contract for Work under Agreement "CN," to
D. C. Serber.*

On June 21st, the following bids were received for work under Agreement "CN," making changes in the subway structure at Broadway incidental to the widening of West 32nd Street, and the construction of a ventilation flue at West 32nd Street and Broadway, Routes 4 & 36, Section 2, Borough of Manhattan:

Name	Amount
Benedetto & Saussez	\$29,550
D. C. Serber	35,200
I. J. Stander	37,905
Wagner Eng. Co.	41,347

Our estimate for this work was \$27,690.25.

The members of the firm, Benedetto & Saussez, which is the lowest bidder on this contract, are the same individuals who were members of the firm, Benedetto, Saussez & Bottino, which firm failed to furnish a bond under its bid for work under Agreement "CC," changes in subway structure on account of widening the roadway of East 60th Street, which contract had been awarded by the Commission, and approved by the Board of Estimate. Counsel informally advises that this constitutes a default of its contract for work under Agreement "CC," and therefore, the contract for work under Agreement "CN" can not, under the Charter of the City of New York, be awarded to Benedetto & Saussez.

The next lowest bidder is D. C. Serber, whose bid is \$5,650.00 above the lowest bid. Mr. Serber's bid, although considerably higher than our estimate, I consider reasonable under present conditions of labor and material markets. D. C. Serber, either under his own name or as member of Serber-Stander Company, Inc., has done considerable work for the Commission amounting to more than \$500,000, all of which was carried out to our satisfaction. Lately a contract was awarded to him for work under Agreement "BV," miscellaneous construction and station finish, amounting to \$15,020.

The work under Agreement "CN" includes Item 145-0 for altering existing structure for street widening amounting to \$1,000. This work is to be done "under the juris-

diction of the President, Borough of Manhattan; said work to be performed under the supervision of the Transit Commission." \$1,000 was appropriated for this work by resolution of the Board of Estimate on April 6, 1923.

The rest of the work under Agreement "CN" consists of building a ventilation flue to connect the fan chamber at 30th Street to an opening with grating to be constructed on Greeley Square.

Attached, I send you copies of conferences held in my office on June 22nd and June 25th with members of the firm of Benedetto & Saussez, and also copy of conference held on June 25th with D. C. Serber.

Recommendation: I respectfully recommend that the contract for work under Agreement "CN," making changes in the subway structure at Broadway incidental to the widening of West 32nd Street, and the construction of a ventilation flue at West 32nd Street and Broadway, Routes 4 & 36, Section 2, Borough of Manhattan, be awarded to the second lowest bidder, D. C. Serber, at his bid price of \$35,200, and that a request be made upon the Board of Estimate for an appropriation of this amount, \$1,000 to be taken from the appropriation by the Board of Estimate and Apportionment, of April 6th "for the changes in the subway structure incidental to the widening of West 32nd Street at the northeast corner of Broadway, Manhattan, under the jurisdiction of the President, Borough of Manhattan; said work to be performed under the supervision of the Transit Commission," the balance of the appropriation or \$34,200.00 to be charged to Contract No. 4.

ROBERT RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract (Agreement "CN") for the performance of the work of making changes in the subway structure at the northeast corner of West 32nd Street and Broadway in the Borough of Manhattan and the work of constructing a ventilation flue in the Broadway-Fourth Avenue Rapid Transit Railroad at West 32nd Street and Broadway, Routes Nos. 4 and 36, Section No. 2, was heretofore finally adopted and subsequent to advertising duly made bids respectively totalling as follows were received on June 21, 1923:

Benedetto & Saussez	\$29,550
D. C. Serber	35,200
I. J. Stander	37,905
Wagner Eng. Co.....	41,347

; and

Whereas, The Chief Engineer of this Commission by communication dated June 25, 1923, has reported that the low bidders, Benedetto & Saussez, are the same individuals who were members of the firm of Benedetto, Saussez & Bottino which defaulted under their bid for the proposed contract (Agreement "CC") for making changes in the subway structure on account of the widening of the roadway of East 60th Street and that by reason of the provisions of Section 419 of the Charter of The City of New York their said bid may not therefore be accepted; that the next lowest bid, to wit, that of D. C. Serber, is reasonable under present conditions of labor and material markets; that said D. C. Serber is financially able and competent to perform the work under said proposed contract and has recommended that said proposed contract be awarded to the said D. C. Serber at his bid of \$35,200 and that a requisition be made upon the Board of Estimate and Apportionment for the appropriation of \$34,200 as a charge against the appropriations for Contract No. 4 and the application of \$1,000 being the appropriation made by the Board of Estimate and Apportionment on April 6, 1923, for the performance of the work of changing the subway structure at said point in order to effect the roadway widening; and

Whereas, Counsel has advised and concurred in the conclusions of the Chief Engineer with respect to the effect of the default of the proposed contract of the firm of Benedetto, Saussez & Bottino and the consequent legal inability of this Commission to award said proposed contract to Benedetto & Saussez, the low bidders, for the proposed contract here under consideration,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of Benedetto & Saussez be and hereby is rejected on the ground that the members of said partnership are defaulters within the letter and intention of Section 419 of the Charter of The City of New York; that the bid of D. C. Serber, the next low bidder, submitted as aforesaid, be and the same

hereby is accepted and that the said proposed contract (Agreement "CN") for the making of changes in the subway structure at Broadway and West 32nd Street in the Borough of Manhattan and the construction of a ventilation flue at West 32nd Street and Broadway in the Broadway-Fourth Avenue Rapid Transit Railroad, be and the same hereby is awarded to said D. C. Serber, subject to its being approved and consented to in form and substance as required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation and application of the money estimated to be necessary to meet the City's obligations under said proposed contract be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

June 27, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921 transmits herewith for the consent of your Honorable Board as required by law a proposed contract to be entered into between The City of New York acting by the Transit Commission and D. C. Serber (Agreement "CN") for the making of changes in the subway structure at Broadway and West 32nd Street in the Borough of Manhattan and the construction of ventilation flue at West 32nd Street and Broadway in the Broadway-Fourth Avenue Rapid Transit Railroad, Routes Nos. 4 & 36, Section No. 2, together with a requisition upon your Honorable Board for the appropriation of the sum of Thirty-four thousand, Two hundred (\$34,200) Dollars and the application of One Thousand (\$1,000) Dollars heretofore appropriated by your Board as hereinafter indicated being the total of \$35,200 which is the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on June 21, 1923 respectively totalling as follows:

Benedetto & Saussez	\$29,550
D. C. Serber	35,200
I J. Stander	37,905
Wagner Eng. Co.	41,347

The Chief Engineer of this Commission in a communication dated June 25, 1923, has reported that the partnership of Benedetto & Saussez consists of the same individuals who were members of the firm of Benedetto, Saussez & Bottino, who were the low bidders for the proposed contract for the alterations in the subway structure necessitated by the widening of East 60th Street and who, after award, approval by your Board and the approval as to form of the Corporation Counsel, defaulted in the execution and delivery of the contract by reason of their inability and failure to file a bond as required by their proposal. They were accordingly declared in default by the Commission, their bid check forfeited and said proposed contract awarded to the next low bidder with the consent of your Honorable Board.

The Counsel to the Commission advises that in view of the legal liability of the members of the partnership of Benedetto, Saussez & Bottino under said default, which was a general partnership, the award of this proposed contract herewith transmitted to the low bidder Benedetto & Saussez would offend both the letter and the spirit of the provisions of Section 419 of the Charter of The City of New York which in part is as follows:

"No bid shall be accepted from, or contract awarded to, any person who is in arrears to the City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the city."

The Chief Engineer accordingly has in his said communication of June 25, 1923 reported that the bid of D. C. Serber, the next low bidder, is reasonable under existing conditions of labor and material markets; that the said D. C. Serber is competent and financially capable of carrying out the provisions of said proposed contract and the Transit Commission has accepted said bid of D. C. Serber and awarded said proposed contract to him subject to its being approved and consented to in form and substance as required by law, rejecting the bid of Benedetto & Saussez for the legal reasons hereinbefore set forth.

On April 6, 1923 your Honorable Board adopted the following resolution:

"Resolved, By the Board of Estimate and Apportionment, that, pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding one thousand dollars (\$1,000), which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which to the amount of the par value thereof to be used for the changes in the subway structure incidental to the widening of West 32nd Street at the northeast corner of Broadway, Manhattan, under the jurisdiction of the President, Borough of Manhattan, said work to be performed under the supervision of the Transit Commission, and said appropriation to be disbursed upon vouchers, prepared by the Transit Commission and certified by the Borough President."

The amount of the lump sum bid in the proposal of D. C. Serber for the performance of the work included in the resolution of your Honorable Board herein set forth is exactly One thousand (\$1,000) Dollars.

Your Honorable Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract in so far as it pertains to rapid transit construction, to wit; the sum of Thirty-four Thousand Two hundred (\$34,200) Dollars and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract in so far as it applies to rapid transit construction, to wit; the sum of Thirty-four Thousand, Two Hundred (\$34,200) Dollars.

Your Board is also requested to authorize pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract in so far as it applies to rapid transit construction.

This requisition for the appropriation of Thirty-four Thousand, Two Hundred (\$34,200) Dollars is a subrequisition under and not in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4 and the appropriations made in consequence thereof by your Honorable Board.

Your Honorable Board is also requested to apply to the work included in said proposed contract herewith transmitted of making changes in the subway structure incidental to the widening of 32nd Street at the northeast corner of Broadway, Borough of Manhattan, the sum of One Thousand (\$1,000) Dollars as appropriated by your Board pursuant to the resolution of April 6, 1923 hereinbefore set forth.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

848—R. T. 7520

Route No. 31—Certificate by Chief Engineer of Completion of Contract for Enclosure to Inspection Shed at Livonia Avenue Yard—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

June 26, 1923

TO: TRANSIT COMMISSION

Certificate of Completion: Inspection Shed Enclosure, Livonia Avenue Yard, Route 31.

In connection with the contract dated February 17, 1922, between the City of New York and Rosenthal Engineering Contracting Company, Inc., for the construction of Inspection Shed Enclosure, at Livonia Avenue Yard, Route 31, I hereby certify that all work was completed on May 26, 1923. The total cost of the work was \$190,672.50.

In accordance with the provisions of the contract all work should have been completed by December 20, 1922. The time for completion, however, was extended to May 26, 1923 by resolution of the Transit Commission adopted on June 21, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The contract dated February 17, 1922 between The City of New York, acting by the Transit Commission, and Rosenthal Engineering Contracting Co., Inc., for the construction of inspection shed enclosure of the Livonia Avenue Yard of the Eastern Parkway Rapid Transit Railroad, Route No. 31, required the completion of all work thereunder on or before December 20, 1922, which time was extended to and including May 26, 1923 by resolution of the Transit Commission adopted on June 21, 1923; and

Whereas, The Chief Engineer of this Commission, by communication dated June 26, 1923, has reported that all the work required under said contract was in all respects completed on or before May 26, 1923; that the total cost of such work was \$190,672.50 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York,

Resolved, That said report and recommendation be and the same hereby is approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

849—R. T. 6594

Route No. 48, Section No. 2—Communication from Counsel Submitting Proposed Agreement for Stairway in Front of the Premises at No. 55 Wall Street—Approval Resolution

A communication was presented from Counsel dated June 21, 1923, submitting a proposed agreement with The National City Bank of New York and the Interborough Rapid Transit Company for the construction of a subway entrance in front of the premises at No. 55 Wall Street, Borough of Manhattan.

The following resolution was adopted:

Whereas, Counsel, with his letter dated June 21, 1923, has submitted to this Commission a proposed agreement between The National City Bank of New York, Interborough Rapid Transit Company and The City of New York, acting by the Transit Commission, for the construction, maintenance and operation of a subway entrance stairway located in front of the premises No. 55 Wall Street in the Borough of Manhattan, and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, This proposed agreement has been approved by the Chief Engineer, Resolved, That said proposed agreement in the form submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized to execute the same.

850—R. T. 6698

Route No. 39—Section No. 2—Report by Real Estate Clerk as to Receipt of Bids for Removal of Buildings at No. 1826-85th Street and 1846-86th Street, Borough of Brooklyn, and Recommendation for Award of Contracts—Approval Resolution

A report was presented from the Real Estate Clerk dated June 25, 1923, advising of the result of bids received on June 25, 1923, for the wrecking or removal of buildings to make way for the construction of the extension of New Utrecht Avenue between 81st Street and 86th Street, Borough of Brooklyn, and recommendation for

acceptance of bid of Z. K. Berlin of \$200 for the building at 1826-85th Street and the bid of M. Klotz of \$25 for the building at 1845-86th Street.

The following resolution was adopted :

Whereas, The Commission by resolution dated June 13, 1923, directed that the buildings on the premises known as 1826-85th Street and 1845-86th Street, in the Borough of Brooklyn, for reasons set forth in the said resolution, be sold at public auction for wrecking or removing at 11.00 A. M. on June 25, 1923, in the Real Estate Bureau of the Commission, after advertisement in the CITY RECORD; and

Whereas, The Real Estate Clerk, under date of June 25, 1923, has reported that an auction sale of the said buildings was held at the time and place above set forth, pursuant to the direction of the Commission, after advertisement in the CITY RECORD and after over one hundred building wreckers had been notified by first class mail of the proposed sale, and that at such sale Z. K. Berlin, of No. 145 West 41st Street, Borough of Manhattan, bid \$200 for the building on the premises known as 1826-85th Street and M. Klotz of No. 223 West 112th Street, Borough of Manhattan, bid \$25 for the building on the premises known as 1845-86th Street, recommending that the said bids be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid bids of Z. K. Berlin and M. Klotz, and that the Secretary be, and he hereby is, authorized and directed to execute, on behalf of the Commission, contracts for the wrecking or removing of the said buildings with the said Z. K. Berlin and the said M. Klotz in form to be approved by Counsel; and it is further

Resolved, That the Real Estate Clerk, under the direction of Counsel, be, and he hereby is, authorized and directed to take such steps as may be necessary to clear the said buildings of existing tenancies and to place the said buildings in possession of the respective purchasers thereof at the earliest practicable time.

851—R. T. 7674, 7545

Contract No. 3—Report by Engineer of Equipment and Operation and Chief Engineer Recommending That Interborough Rapid Transit Company Be Directed to Install Train Announcer for Experimental Purposes—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Assigning Work Order No. IGA-2—Approval Resolution

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 5, 1923, recommending that the Interborough Rapid Transit Company be directed to make a trial installation at one mezzanine station on the elevated lines of a suitable train announcer for experimental purposes.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations dated June 14, 1923, classifying the expenditures and assigning Work Order No. IGA-2.

The following resolution was adopted:

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated June 5, 1923, reported with respect to the necessity of installing a suitable train announcer system in the mezzanine stations of the elevated portions of the Railroad described in the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, and recommends that said Interborough Rapid Transit Company, as Lessee under said Contract No. 3, be directed to make a trial installation at one of said stations for the approval of the Engineers of the Commission, before proceeding to the general adoption and installation of any one system; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated June 14, 1923, reported that the said proposed trial installation at one station is in the nature of an experiment and as such comes within the resolution of this Commission of March 7, 1922, with respect to the method of charging expenditures for experimental work,

Resolved, That said reports and recommendations be and the same hereby are approved; that pursuant to the provisions of said Contract No. 3 this Commission hereby directs said Interborough Rapid Transit Company to install at one of the stations of the elevated portion of the Railroad, as defined in said Contract No. 3, a suitable train announcer for experimental purposes, such work to be performed upon the following conditions:

Before beginning proposed experimental work which eventually might become a capital charge, the Lessees should be required to obtain the approval of the Chief Engineer of the Commission to proceed and have appropriate job numbers assigned thereto.

All expenditures made on account of this class of experimental work should be charged to an account, entitled, 'Experimental Work—Suspense';

In the event that such experimental work results in an improvement (approved as such by the Chief Engineer), the account, 'Experimental Work—Suspense' will be credited with the entire cost and the appropriate capital account charged.

The cost of the same class of experimental work which does not result in an improvement should be credited to the account, 'Experimental Work—Suspense' and charged to Operating Expenses, immediately it is decided to stop the work.

and as to which work this Commission assigns Work Order No. IGA-2.

852—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Guide Supports for Steel Doors on 982 Subway Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated May 29, 1923, requesting approval of a proposed purchasing agent's order, directed to the Constructing Specialties Company, for furnishing 5950 guide supports for steel doors for 982 subway cars, at a cost of \$5,650.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 15, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, By order adopted on the 15th day of December, 1920, the Transit Construction Commissioner in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911 modifying the contract dated February 21, 1900, known as Contract No. 1 for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920, for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911 and by orders adopted co-incidentally therewith modified the order of April 23, 1920 aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922 for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, By resolution adopted January 30, 1923 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company dated May 25, 1922 as modified by communication dated January 17, 1923 for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with the said approval Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated May 29, 1923, directed to Construction Specialties Company for the following:

5,950 Supports, guide, for steel doors, B/P 10358-A.	
Price: \$94951	\$5,650.00
Terms: 2% ten days.	
Deliveries to be made as follows:	
10% by June 20th.	
30% by July 1st, 1923.	
Balance 20% monthly thereafter.	

Other Bidders

The P. H. Gill & Sons Forge & Mach. Works.....	\$1.20 ea.
R. Steel and Sons, Inc.....	1.50 ea.
Columbia Machine Wks. & Mall. Iron Co.....	1.75 ea.
Eastern Steel Castings.....	No bid
Traction Supply and Equipment Company.....	No bid

which proposed purchasing agent's order has been caused to be designated as "Approval No. 485"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated June 15, 1923 reported that such material is necessary and the price therefor reasonable and recommend that said proposed purchasing agent's order so submitted be approved,

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

853—R. T. 6761

Contract No. 3—Communication from Interborough Rapid Transit Company Requesting Approval of Change of Date in Delivery in Contract for Furnishing Stokers for New Boilers at 59th Street Power House—Report by Railway Engineer Recommending Approval—Approval Resolution

A communication was presented from the Interborough Rapid Transit Company dated June 11, 1923, calling attention to an error in the form of contract with the American Engineering Company for the purchase and installation of four stokers to be installed under the new boilers at the 59th Street power house with respect to the date of delivery of two stokers.

A report was presented from the Railway Engineer dated June 22, 1923, recommending that the change be approved.

The following resolution was adopted:

Whereas, By resolution adopted by this Commission on September 7, 1922, the application of Interborough Rapid Transit Company for the approval of the installation of Additional Equipment as described in the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company known as Contract No. 3 was approved and to which this Commission assigned, by resolution adopted November 14, 1922, Work Order No. IBA-7; and

Whereas, In pursuance of said approval this Commission by resolution adopted May 15, 1923, approved of a proposed contract dated December 13, 1922, between the said Interborough Rapid Transit Company and American Engineering Company for the purchase and installation of four stokers to be installed under the new boilers at the 59th Street Power House of said Interborough Rapid Transit Company as in said resolution more particularly set forth; and

Whereas, By communication dated June 11, 1923 said Interborough Rapid Transit

Company by Frank Hedley, its President and General Manager, has advised of a clerical error in the form of contract so approved in that the words "the remaining two stokers shall be delivered after February 20, 1923 and not later than March 1, 1923" should read "and not later than March 1, 1924"; that the said contract was changed to correct such error and request the approval of this Commission to the making of such change in said form of contract; and

Whereas, The Railway Engineer of the Power Bureau of this Commission by communication dated June 22, 1923 has recommended that such change in said form of contract be approved,

Resolved, That the said application of Interborough Rapid Transit Company be and the same hereby is approved and that the making of the change in said contract as approved by resolution of May 23, 1923 aforesaid with respect to the date for the delivery of the remaining two stokers from March 1, 1923 to March 1, 1924 be and the same hereby is approved.

854—R. T. 7676

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Plans for Addition to Trainmen's Quarters at Eastern Parkway Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order No. MCR-18—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated June 6, 1923, requesting approval of plans showing a proposed addition to the trainmen's quarters on the westbound platform of the Eastern Parkway Station of the Broadway Elevated Line at an estimated cost of \$2,500.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 16, 1923, stating that the plans are satisfactory and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations dated June 22, 1923, classifying the work and assigning Work Order No. MCR-18.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, the Receiver of said New York Municipal Railway Corporation by communication dated June 6, 1923 requested the approval of this Commission to the construction of trainmen's quarters on the westbound platform of the Eastern Parkway Station of the Broadway Elevated Line of the Existing Railroads as described in said Contract No. 4; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated June 16, 1923 have reported that the estimated cost of such work is \$2,500, which is considered reasonable; that the quarters are considered necessary for the convenience of the operating forces; that the drawings showing such work are satisfactory from an engineering standpoint; that the arrangement is satisfactory to the Transit Bureau and recommend that the said request of the Receiver of New York Municipal Railway Corporation be approved; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have by communication dated June 22, 1923 reported with respect to said application and have recommended with respect to the accounting of the cost thereof as follows:

"(1) That the Company account for the salvage, including the cost of removing of all facilities removed, the net final amount to be withdrawn from or paid into (as the case may be), the "Depreciation Fund for Existing Railroads"; and that the original cost of the facilities retired be held available in

said fund for expenditure on new Construction or new Equipment as a Replacement.

"(2) That the cost of constructing the Trainmen's Room, in so far as it is a betterment, be provided out of that portion of moneys of the 'Depreciation Fund for Existing Railroads' which has been made available by Retirements from Service; that it be classified as a Replacement and Work Order Number MCR-18 be assigned thereto.

"(3) That the cost of rearranging any existing facilities be charged to 'Maintenance'."

Resolved, That said reports and recommendations be and the same hereby are approved; that the said application of the Receiver aforesaid be and the same hereby is approved upon the conditions following:

(1) That the New York Rapid Transit Corporation as successor of the said Receiver under said Contract No. 4 shall account for the salvage, including the cost of removing of all facilities removed, the net final amount to be withdrawn from or paid into (as the case may be) the "Depreciation Fund for Existing Railroads"; and that the original cost for the facilities retired shall be held available in said fund for expenditure on new Construction or new Equipment as a Replacement.

(2) That the cost of constructing the trainmen's quarters hereby approved, in so far as it is a betterment, shall be provided for out of that portion of the moneys of the "Depreciation Fund for Existing Railroads" which has been made available by retirements from service; that such work be classified as a Replacement and as to which this Commission assigns Work Order No. MCR-18.

(3) That the cost of rearranging any existing facilities in connection with the work hereby approved shall be charged to "Maintenance."

855—Gen. 1772, R. T. 6694

Contract No. 3—Application by Interborough Rapid Transit Company for Extension of Time to September 15, 1923, within Which to Complete Plans, Specifications and Estimate of Cost for Installation of Signal System on One Mile of Local Elevated Track—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Motion Granting Extension of Time to August 15, 1923

An application was presented from the Interborough Rapid Transit Company dated June 13, 1923, requesting an extension of time to and including September 15, 1923, within which to complete plans, specifications and estimate of cost for installing a speed control system of signals with automatic stops for one mile of local track on the elevated railroads.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 26, 1923, recommending that the extension of time be granted.

Upon motion, duly seconded and adopted, an extension of time was granted to August 15, 1923, within which to file plans, specifications and estimate of cost of such signal system with the understanding that no further extension of time would be granted.

856—Case 2684

The Long Island Railroad Company—Application of The City of New York for a Determination as to the Manner in Which Cross Island Boulevard (Squire Street) Shall Cross the Main Line—Amending Order Adopted

The Secretary presented a report, dated June 18, 1923, by Engineer of Structures William L. Selmer, approved by H. N. Latey, Engineer of Equipment and Operation,

recommending an amendment of the Final Order in Case No. 2684, adopted on May 29, 1923, so as to eliminate the provision requiring the raising of grades as shown on City map

Thereupon the Commission adopted and ordered filed an Order in Case No. 2684, amending the Order therein adopted May 29, 1923, and directing The Long Island Railroad Company to carry Cross Island Boulevard (Squire Street) across the tracks of the company's Main Line Division, in the Borough of Queens, under the said railroad tracks, such tracks to be reconstructed by raising the same from their present elevation to the elevation shown on a map bearing the signature of the President of the Borough of Queens, entitled "Map No. 1115, showing a change in street grades heretofore established on Cross Island Boulevard," dated December 20, 1922, and being City Exhibit No. 5, introduced at the hearing therein and further providing that detailed plans and specifications shall be submitted to the Commission for approval and requiring that the company should notify the Commission within five days whether the terms of the Order would be accepted and obeyed; the Order to take effect at once.

857—Case 2685

The Long Island Railroad Company—Application of The City of New York for a Determination as to the Manner in Which 211th Street (Bellaire Boulevard) Shall Cross the Main Line—Amending Order Adopted

The Secretary presented a report, dated June 18, 1923, by Engineer of Structures William L. Selmer, approved by H. N. Latey, Engineer of Equipment and Operation, recommending an amendment of the Final Order in Case No. 2685, adopted on May 29, 1923, so as to eliminate the provision requiring the raising of grades as shown on City map.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2685, amending the Order therein adopted May 29, 1923, and directing The Long Island Railroad Company to carry 211th Street (Bellaire Boulevard) across the tracks of the company's Main Line Division, in the Borough of Queens, under the said railroad tracks, such tracks to be reconstructed by raising the same from their present elevation to the elevation shown on a map bearing the signature of the President of the Borough of Queens, entitled "Map No. 1114; establishing the lines and grades of 211th Street (Bellaire Boulevard) from Jamaica Avenue to 99th Avenue, in the Fourth Ward"; dated December 21, 1922, and being City's Exhibit No. 5, introduced at the hearing therein, and further providing that detailed plans and specifications shall be submitted to the Commission for approval and requiring that the Company should notify the Commission within five days whether the terms of the Order would be accepted and obeyed; the Order to take effect at once.

858—Case 2690

Common Carriers Other Than Steam Railroads—Form of Annual Report—Filing Order Adopted

The Secretary presented a report, dated June 25, 1923, from John E. Cooper, Chief, Bureau of Accounting and Valuations, recommending the adoption of a Filing Order

requiring the filing of annual reports by common carriers other than steam railroads, and transmitting proposed forms of letters of transmittal.

Thereupon the above mentioned report was approved and an Order was adopted and ordered filed in Case No. 2690, in the following form:

At a Meeting of the Transit Commission held at its office, No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 27th day of June, 1923.

Present, GEORGE McANENY, Chairman, } COMMISSIONERS
LE ROY T. HARKNESS, }

IN THE MATTER
of the
Forms of Annual Report to be filed by Corporations
under the jurisdiction of the Commission other than
steam railroads.

CASE No. 2690
FILING ORDER

It is hereby Ordered, That corporations under the jurisdiction of this Commission other than steam railroad corporations be and they are hereby directed to file with the Commission on or before September 30, 1923, annual reports for the year ending June 30, 1923, in accordance with the following rules and upon the form herein prescribed:

- (1) Operating and non-operating companies—Form E (R-132)
- (2) Lessor Companies—Form D (R-131)
- (3) Stage Coach Corporations earning less than \$500,000 per annum—Mimeographed form
- (4) Fifth Avenue Coach Company shall make its annual report on Form E (R-132) in so far as said form is applicable to the affairs and circumstances of the said Fifth Avenue Coach Company, provided that the operating expenses shall be stated in accordance with the classification filed by the Company on or about July 15, 1914.

Further Ordered, That the Secretary of the Commission shall serve upon each of the said corporations under its jurisdiction other than steam railroad corporations on or before June 30, 1923, a certified copy of this Order together with two copies of the appropriate form in the manner prescribed by law.

Further Ordered, That pursuant to Section 23 of the Public Service Commission Law every person and corporation so served shall notify the Commission within five (5) days in writing of the receipt of said certified copy of this Order and the Forms of annual report aforesaid and that in the case of a corporation such notification must be signed by a person or officer duly authorized by the corporation to admit such service.

BY THE COMMISSION,
JAMES B. WALKER,
Secretary.

State of New York }
County of New York } ss.

I, JAMES B. WALKER, Secretary of the Transit Commission, do hereby certify that I have compared the foregoing with the original adopted by the Transit Commission on June 27, 1923, and on file in the office of said Commission, and that it is a correct transcript thereof and of the whole of the original.

In testimony whereof, I have hereunto subscribed my hand and affixed the seal of the Transit Commission, this 27th day of June, 1923.

JAMES B. WALKER,
Secretary.

859—Case 2679

Brooklyn Rapid Transit Company—Application of Stockholders' Committee for Approval of Plan of Reorganization—Communications from Alfred E. Marling and Robert A. Shaw Acknowledging Notification as Directors of Brooklyn-Manhattan Transit Corporation—Communications from Gerhard M. Dahl, Frederick Strauss and A. E. Mudge Acknowledging Notification of Nomination of Directors of Brooklyn-Manhattan Transit Corporation—Filed

The Secretary presented two communications from Alfred E. Marling and Robert A. Shaw, dated June 19, 1923, acknowledging receipt of notification by the Commission of their nomination as directors of the Brooklyn-Manhattan Transit Corporation. The Secretary also presented three communications, dated June 19, 1923, from Messrs. Gerhard M. Dahl, Frederick Strauss and A. E. Mudge, acknowledging receipt of notification by the Commission of the nomination of Messrs. Travis H. Whitney, Alfred E. Marling and Robert Alfred Shaw, as directors of the Brooklyn-Manhattan Transit Corporation.

Thereupon, the above mentioned communications were ordered filed.

860—R. T. 7601

Route No. 52, Section No. 1—Statement as to Execution and Delivery of Original Contract for Furnishing and Erecting Structural Steel—Contract Ordered Filed

The Commission ordered filed an original contract dated June 18, 1923, between the City of New York, acting by the Transit Commission, and McClintic-Marshall Company for furnishing and erecting structural steel for Section No. 1 of Route No. 52, Flushing Line, which contract had been executed on behalf of both parties and delivered on June 21, 1923.

861—R. T. 7612

Agreement "CG"—Notice by Chief Engineer of Commencement of Work for Concreting Voids Under Platform at 8th Street Station—Filed

The Commission ordered filed a notice from the Chief Engineer dated June 25, 1923, advising of the commencement of work by Edwards & Flood, Inc., on June 19, 1923, for the concreting of voids under the platform of the 8th Street station, Route No. 5, Section No. 4.

862—R. T. 4039

Centre Street Loop—Original Receipt from Department of Finance for Certified Checks in Sum of \$22,375 as Balance of Purchase Price of Property Sold at Public Auction on Westerly Side of Centre Street between Canal and Howard Streets, Borough of Manhattan—Filed

The following receipt was ordered filed:

June 22, 1923.

THE CITY OF NEW YORK—DEPARTMENT OF FINANCE.
AUDITOR OF RECEIPTS.

Received from TRANSIT COMMISSION certified check of Atlas Construction Corporation for Fifteen thousand Dollars (\$15,000.00) and certified check of the Mandel Ehrich

Corporation for Seven thousand three hundred seventy-five Dollars (\$7,375.00), making a total of Twenty-two thousand three hundred seventy-five 00/100 Dollars (\$22,375.00).

Particulars:

Brooklyn Loop Lines (Manhattan Sections).

Being the balance of purchase price of Plot No. II, westerly side of Centre St., between Canal and Howard Streets, Borough of Manhattan, sold to Herbert Fisher at public auction on January 16, 1923, and assigned to Atlas Industrial Corporation.

To be credited to account known as Code No. S 109 C—Real Estate Sales and Rentals of the Transit Commission.

For Comptroller,
H. H. RATHYEN,
Auditor of Receipts.

863

Fees Received During May, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of May, 1923, fees, etc., to the amount of \$311.32 and refunds of rental from rapid transit real estate to the amount of \$4,521.40 had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$311.32 to be accredited to the General Fund of The City of New York, and the sum of \$4,521.40 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as rentals and proceeds of the sale of properties in the same proceeding and held available for the purposes of the Commission, as provided in the Rapid Transit Act.

864

Employees' Calendar No. 150

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment—George McCarthy, telephone operator, at \$90.00 per month, to take effect June 23, 1923.

Appointments under Rule V:4—Roscoe E. Robins, laborer, at \$100.00 per month, to take effect June 22, 1923; Jacob Thorkeisen, machinist, at \$125.00 per month, to take effect June 25, 1923; John R. Turner, laborer, at \$100.00 per month, to take effect June 22, 1923.

Appointments under Rule VIII:4—John P. Mulhern, architectural draftsman, at \$150.08 per month, to take effect June 26, 1923; William R. Nugent, draftsman, at \$150.08 per month, to take effect June 25, 1923; Rafael Pacheco, junior assistant, at \$125.08 per month, to take effect June 25, 1923; William H. Young, junior assistant, at \$125.08 per month, to take effect June 25, 1923.

Appointments under Rule VIII:9—Benjamin Friedenbergl, junior assistant, at \$125.08 per month, to take effect July 26, 1923; Nathan B. Sparer, draftsman, at \$150.08 per month, to take effect July 7, 1923; Samuel Weinberg, draftsman, at \$150.08 per month, to take effect July 28, 1923; Simon Weiner, draftsman, at \$150.08 per month, to take effect July 7, 1923.

Resignations—Paschal Tatorc, draftsman, at \$150.08 per month, to take effect June 23, 1923; G. VanderBoon, draftsman, at \$150.08 per month, to take effect June 29, 1923.

Terminations of Appointments under Rule VIII:4—Benjamin Friedenbergl, junior assistant, at \$125.08 per month, to take effect July 25, 1923; Nathan B. Sparer, draftsman, at \$150.08 per month, to take effect July 6, 1923; Samuel Weinberg, draftsman,

at \$150.08 per month, to take effect July 27, 1923; Simon Weiner, draftsman, at \$150.08 per month, to take effect July 6, 1923.

Change of Item in June 21, 1923, Resolution Concerning Benjamin Govern so as to Read as Follows—(Resignation) Benjamin Govern, draftsman, at \$210.00 per month, to take effect June 15, 1923.

Leave of Absence without Pay—Louis Kamman, junior assistant, from June 6, 1923, to June 17, 1923.

865

Employees' Calendar No. 151

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment Exempt—Benjamin Schwartz, assistant secretary, at \$250.00 per month, to take effect July 1, 1923.

Resignation Exempt—Lillian Keller, secretary to Chairman, at \$300.00 per month, to take effect June 30, 1923.

866

Voucher Schedule No. 26

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that said vouchers be transmitted for payment to the Comptroller of The City of New York.

Estimates by Chief Engineer for Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 157, B. T. & J. J. Mack, Inc.; approximate estimate No. 4 for the construction of transformer closets for emergency lighting for part of the Broadway-Fourth Avenue Line in the Boroughs of Manhattan and Queens, from May 16, 1923, to June 16, 1923 (R. T. 7587) \$1,033.76;

Voucher No. 158; New York Rapid Transit Corporation; approximate estimate No. 2 for distribution and installing covers, frames and asbestos lumber panels for low bench duct manholes, Contract No. 4, from March 1, 1923, to May 31, 1923 (R. T. 7596), \$596.81;

Voucher No. 159; Rosenthal Engineering Contracting Company; final estimate for the construction of inspection shed enclosure at Livonia Avenue Yard, Route No. 31, to May 26, 1923 (R. T. 7520), \$19,067.24;

Voucher No. 160; Jacob Schlesinger, Inc., approximate estimate No. 11 for the construction of a second addition to shops at the Lenox Avenue and 148th Street Yard, under Contract No. 3, from May 16, 1923, to June 15, 1923 (R. T. 7368), \$21,024.27.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, June 29, 1923

Present: George McAneny, Chairman; James B. Walker, Secretary.

The following matter was presented and action taken as noted:

867—R. T. 7575

Brooklyn Loop Line—Receipt of Bids for Construction of Additional Entrances at Canal Street Station—Referred to Chief Engineer

Chairman McAneny stated that the time within which to receive bids for the construction of additional entrances at the Canal Street station, Brooklyn Loop Line,

June 29, 1923]

634

had elapsed a 11:30 A. M. and directed the Secretary to open the sealed box, which had been provided for the deposit of such bids, and to read the bids received.

The Secretary presented the proper affidavits of publication and opened the box and read the three bids received.

The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

PROCEEDINGS OF
TRANSIT COMMISSION

49 Lafayette Street

Borough of Manhattan, City of New York

Proceedings for Tuesday, July 3, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

868—R. T. 7470

Order No. 20—Report by Chief Engineer Recommending Extensions of Time within which to Complete Delivery of Various Portions of Special Work—Approval Resolution

A report was presented from the Chief Engineer, dated June 27, 1923, recommending extensions of time to Bethlehem Steel Products Company, within which to complete the delivery of various portions of Special Work, Order No. 20.

The following resolution was adopted:

Whereas, The contract dated June 5, 1923 between The City of New York acting by the Transit Commission and Bethlehem Steel Products Company for the supply of Special Work and other track materials for use in the Jerome Avenue Yard, Route No. 16 (Order No. 20), required the delivery of the various portions of work and material, as more particularly set forth in Article L of said contract; and

Whereas, The Chief Engineer of this Commission by communication dated June 27, 1923 has reported that the following table shows the contract date for delivery and the actual date of delivery:

Latest Contract Date	Actual Delivery
Portion 245 October 6, 1922	January 11, 1923
" 246 "	February 7, 1923
" 253 "	March 28, 1923
" 250 November 6, 1922	June 6, 1923
" 251 "	January 8, 1923
" 252 "	March 12, 1923
" 247 December 6, 1922	June 6, 1923
" 248 "	February 14, 1923
" 249 "	March 12, 1923

that because of the inability of the City to utilize the various portions of Special Work an informal arrangement was entered into with the said contractor for the sequence and times of delivery, which accorded with the Commission's necessity for such material and accordingly recommends that the times of delivery for the various portions of the Special Work under said contract be extended to the dates of "actual delivery" as set forth in the foregoing schedule,

Resolved, That the said report and recommendation be and the same hereby are approved; that the time for the delivery of the various portions of Special Work under said contract for such work be and the same hereby is extended to and including the date appearing in the column headed "Actual Delivery" as hereinbefore set forth.

869—R. T. 7470

Order No. 20—Certificate by Chief Engineer of Completion of All Work under the Contract for the Supply of Special Work for Use in Construction of Jerome Avenue Yard—Resolution Accepting Work and Directing that Certificate be Transmitted to Comptroller of The City of New York

July 3, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion: Supply of Special Work, Order No. 20.

In connection with the contract dated June 5, 1922 between the City of New York and Bethlehem Steel Products Co. for the supply of special work, Order No. 20, for use in the construction of a part of the Jerome Avenue Yard, Route 16, I hereby certify that all material was delivered by June 6, 1923. The total cost of this material was \$38,053.74.

In accordance with the provisions of the contract, the various portions of special work should have been delivered as follows:

Portion	Earliest Date Due	Latest Date Due	Received
245	September 6, 1922	October 6, 1922	January 11, 1923
246	September 6, 1922	October 6, 1922	February 7, 1923
253	September 6, 1922	October 6, 1922	March 28, 1923
250	October 6, 1922	November 6, 1922	June 6, 1923
251	October 6, 1922	November 6, 1922	January 8, 1923
252	October 6, 1922	November 6, 1922	March 12, 1923
247	November 6, 1922	December 6, 1922	June 6, 1923
248	November 6, 1922	December 6, 1922	February 14, 1923
249	November 6, 1922	December 6, 1922	March 12, 1923

The Commission, by resolution of July 3, 1923, granted extensions of time for each portion up to and including its actual date of delivery.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RINGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The contract dated June 5, 1922, between The City of New York, acting by the Transit Commission and Bethlehem Steel Products Company for the supply of Special Work (Order No. 20) for use in the construction of the Jerome Avenue Yard, Route No. 16, of the Railroad described in the contract dated March 19, 1913, known as Contract No. 3, required the delivery of the various portions of special work within the periods prescribed in said contract, which periods were extended as more particularly appear in the resolution of the Transit Commission adopted July 3, 1923; and

Whereas, The Chief Engineer by communication dated July 3, 1923, reports that the various portions of such work were delivered within the periods of time as extended by the resolution of the Transit Commission adopted July 3, 1923; that the total amount due therefore was \$38,053.74 and recommends that the materials so delivered be accepted and that a certificate of such final delivery and acceptance be prepared and transmitted to the Comptroller of the City of New York.

Resolved, That the said report and recommendation be and the same hereby are approved; that the materials so delivered be and the same hereby are accepted and that a certificate of such final delivery and acceptance be prepared and transmitted to the Comptroller of The City of New York.

870—R. T. 7603-6961

Route No. 52, Section No. 3—Report by Chief Engineer Recommending Restriction of Traffic on Decking over Subway Excavation on Amity Street between Lawrence and Main Streets, Flushing—Approval Resolution

A report was presented from the Chief Engineer dated June 28, 1923, recommending that traffic be restricted over the subway decking on Amity Street between Lawrence

and Main Streets, Flushing, in connection with the contract for the construction of Section No. 3 of Route No. 52.

The following resolution was adopted:

Resolved, That all traffic over the subway decking on Amity Street, Flushing, between Lawrence Street and Main Street, and between Main Street and the easterly limits of subway construction, be restricted to eight (8) miles per hour;

That vehicles with or without loads weighing over ten tons be prohibited on such decking;

That there be excepted herefrom the vehicles of the subway contractor over the decking on its own work;

That the Commissioner of Police be requested to have the above regulation observed.

871—R. T. 7575

Brooklyn Loop Line—Resolution Authorizing Release of Bids to all but Lowest and Next to Lowest of Bidders for Construction of Additional Entrances at Canal Street Station—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on June 29, 1923 for the construction of additional entrances at the Canal Street Station of the Brooklyn Loop Line the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders the certified checks in the sum of Five thousand dollars (\$5,000.) each deposited with their bids.

872—R. T. 7618, 6761

Contract No. 3—Application by Interborough Rapid Transit Company Requesting Approval of Award of Contract for Erection of Steam Heating System for Inspection Sheds at 180th Street and Livonia Avenue Yards—Report By Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated June 8, 1923, requesting approval to the award of a proposed contract for the manufacture and erection of a steam heating system for the inspection sheds and buildings at the 180th Street and Livonia Avenue Yards to Almirall and Company at a total cost of \$93,000.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 22, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, this Commission, by resolution adopted May 15, 1923, approved the Invitation to Contractors, Forms of Contract, Bond, Contractor's Proposal and Specifications for the performance of the work for the manufacture and erection of a steam heating system for the inspection shed, oil house, signal tower and crew room buildings in the 180th Street and Livonia Avenue Yards of the Railroad as described in said Contract No. 3, and authorized said Interborough Rapid Transit Company to invite bids for the performance of the work under said proposed contract so approved from a selected list of contractors in lieu of public advertising for bids; and

Whereas, Pursuant to the approval so given Interborough Rapid Transit Company, by communication dated June 8, 1923, has requested the approval of this Commission to the award of said proposed contract to Almirall and Co. at a total cost of \$93,000; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated June 22, 1923, reported that the following bids were received for such work:

	180th St. Yard	New Lots Rd. Yard
Almirall and Co.	\$46,000	\$47,000
Gillis and Geoghegan	49,440	48,560
E. Rutzler Co.	47,171	50,620
Wm. H. Curtin Mfg. Co.	47,850	51,150
N. J. Olvany, Inc.	49,950	52,000

; that the said low bidder is a reputable firm; that the prices are reasonable and recommend that the application of Interborough Rapid Transit Company to award said proposed contract to said Almirall and Co. be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated June 27, 1923, has recommended that such work be classified as Equipment of the Railroad as defined in said Contract No. 3,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said application of Interborough Rapid Transit Company to award the said proposed contract approved as aforesaid to Almirall and Co., the low bidder for such work, be and the same hereby is approved, such work to be classified as Equipment of the Railroad, as defined in said Contract No. 3.

873—R. T. 6761

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for the Provision and Installation of Additional Manhole Doors and Ladders on Brighton Beach Line—Reports by Engineer of Equipment and Operation and Chief Engineer and by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated June 7, 1923, requesting approval of a proposed Purchasing Agent's order directed to the Whale Creek Iron Company for the provision and installation of manhole doors, frames, steel ladders, etc. on the Brighton Line from Church Avenue to Avenue H at an estimated cost of \$2,987.

A report from the Engineer of Equipment and Operation and the Chief Engineer dated June 27, 1923, recommending that the contract be approved, and a report by the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations recommending that the work be charged to Maintenance and in so far as it is a betterment be classified, as "Additions" to Existing Railroads and included in Work Order No. MCA-20 dated October 24, 1922, were also presented.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, W. S. Menden, President of New York Rapid Transit Corporation, successor under said contract to said New York Municipal Railway Corporation, has by communication dated June 7, 1923, requested the approval of this Commission to the issuance of a proposed Purchasing Agent's Order dated June 7, 1923, directed to Whale Creek Iron Works, for the following:

"Furnish and install, including necessary painting, steel plate manhole doors, frames, steel ladders, etc., on the Brighton Beach line, from Church Avenue to Avenue H, Borough of Brooklyn, City of New

[July 3, 1923

York, as indicated upon our drawings C-5689 and C-5690, and as called for in our specifications dated May 1st, 1923.

The above, as per your proposal dated May 28th, 1923, for the lump sum of \$2,987.00" which proposed Purchasing Agent's Order has been caused to be designated "Approval No. 350"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated June 27, 1923, reported that the following bids were received for such work:

"Whale Creek Iron Works	\$2,987.00
Albee and Godfrey	3,152.00
Vulcan Rail and Construction Co.	3,790.00
Harris H. Uris Iron Works	4,586.00
Buckingham Steel Co.	6,225.00"

; that the low bidder is competent to perform the work required; that the work is necessary; that the plans and specifications for the work are satisfactory from an engineering standpoint and recommended that the said proposed Purchasing Agent's Order be approved; and

Whereas, By communication dated June 30, 1923, the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations, have recommended a particular classification of the work proposed under said Purchasing Agent's Order as hereinafter more particularly indicated.

Resolved, That the said reports and recommendations be and the same hereby are approved and the said Proposed Purchasing Agent's Order be and the same hereby is approved and the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said Proposed Purchasing Agent's Order, provided, however, that the foregoing approval is given upon condition that

- (1) The cost of alterations, removal and relocation of signal apparatus, accessories, wires and cables be charged to maintenance; and
- (2) That the cost of the work included in the proposed purchasing agent's order, insofar as it is a betterment, be classified as "Additions" to Existing Railroads and included in Work Order Number MCA-20 heretofore assigned, by this Commission on October 24, 1922.

Route No. 39—Report by Real Estate Clerk, Approved by Counsel, Recommending that Commission Authorize Counsel to Take Such Steps as He Deems Advisable Towards Securing Payment of Rental, etc., from Arthur Bruck, Tenant, at No. 1845—86th Street, Brooklyn—Approval Resolution

The following resolution was adopted:

Whereas, The Real Estate Clerk, under date of June 30, 1923, has reported that Arthur Bruck, a tenant in a dwelling at 1845-86th Street, and June, 1923, in the total amount of \$90.00, that formal demand was made for this rental on June 6, 1923, and that no reply has been made to such demand by the said Arthur Bruck, recommending that Counsel be authorized to adjust the matter of this rental with the tenant and to take such steps as may be necessary to secure the payment of the money fairly due to the City, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, authorize and direct Counsel to take such steps as may in his judgment be necessary to recover from the said Arthur Bruck the fair rental due to The City of New York.

875—R. T. 6080

Contract No. 3—Report by Real Estate Clerk, Approved by Counsel, Referring to Default of James R. Ashley and Everett L. Booth, Tenants on Premises on the Easterly Side of Lenox Avenue between West 146th and West 147th Streets, Borough of Manhattan, in Payment of Rental for the Southerly Half of the Block for the Period from March 16, 1923 to April 16, 1923—Approval Resolution

The following resolution was adopted:

Whereas, The Real Estate Clerk, under date of June 30, 1923, has reported that Messrs. Ashley & Booth, tenants on the premises on the easterly side of Lenox Avenue between West 146th and West 147th Streets, Borough of Manhattan, are in arrears in the payment of rental in the amount of \$80.00 for the occupancy of the southerly half of the block for the month beginning March 16, 1923, and that formal demand has been made for the payment of this rental without result, recommending that Counsel be authorized to take such steps as in his judgment may be necessary to adjust the amount of rental due The City of New York, if there be grounds for such adjustment, and to recover the fair amount of rental due The City of New York, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, authorize and direct Counsel to take such steps as in his judgment may be necessary to effect the proper adjustment of the above matter and the recovery of the fair amount of rental due The City of New York.

Route No. 5, Section No. 15—Letter from Counsel Transmitting Original Recorded Mortgage for Property Purchased at Public Auction at Gerard Avenue and Walton Avenue, Borough of The Bronx—Motion Directing Auditor to Provide for Receipt of Interest and Principal When Due—Mortgage Ordered Filed and Motion Adopted

A letter was presented from Counsel dated June 26, 1923, transmitting original mortgage dated May 7, 1923, from John A. McCarthy of No. 243 West 70th Street, Borough of Manhattan, to the City of New York to secure the payment of \$17,000 as the balance of the purchase price of the plot of property sold at public auction on January 16, 1923, at Gerard and Walton Avenues, Borough of The Bronx, which mortgage was recorded in the office of the Register of The Bronx County on May 10, 1923, in Liber 688 of mortgages at page 329 and is indexed in Section 9 under Block 350 on the Land Map of the County of The Bronx.

The communication and mortgage were ordered filed.

Upon motion, duly seconded and adopted, the Auditor was directed to provide for the receipt of the interest and the principal of the mortgage when due.

877—R. T. 7476

Agreement "BH"—Report by Chief Engineer Recommending Extension of Time to June 6, 1923 within which to Complete Contract for Miscellaneous Construction and Station Finish Work in Boroughs of Brooklyn and Manhattan—Approval Resolution

A report by the Chief Engineer dated June 27, 1923, recommending that an extension of time be granted to Geo. Colon & Company to and including June 6, 1923, within which to complete work under the contract for miscellaneous construction and station finish work in the Boroughs of Brooklyn and Manhattan, was presented.

The following resolution was adopted:

Whereas, The contract dated June 6, 1922 between The City of New York acting by the Transit Commission and George Colon & Co. (Agreement "BH") Groups I, II and III for the completion of Station Finish in municipal rapid transit railroads required that the various groups thereunder be completed as follows:

Group 1 within five (5) months of the date of delivery or before Nov. 7, 1922

Group 2 within four (4) months of the date of delivery or before Oct. 7, 1922

Group 3 within three (3) months of the date of delivery or before Sept. 7, 1922

; and

Whereas, The Chief Engineer of the Commission by communication dated June 7, 1923 reports that the various groups of work under said contract were completed on the following dates:

Group 1—June 6, 1923

Group 2—May 28, 1923

Group 3—March 14, 1923

that the completion of the various groups was delayed because of certain contingencies beyond the control of the contractor and for the reasons in his report more particularly set forth, recommends that the time under said contract within which to complete the various groups of work be extended to the date of actual completion,

Resolved, That said report and recommendation be and the same hereby are approved; that the time under said contract aforesaid within which to complete the various groups be extended to and including the date of actual completion as hereinbefore indicated.

878—R. T. 7476

Agreement "BH"—Certificate by Chief Engineer of Completion of all Work under Contract for Miscellaneous Construction and Station Finish—Resolution Accepting Work and Directing that Certificate be Transmitted to Comptroller of The City of New York

The following certificate was approved:

June 30, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion: Miscellaneous Construction and Station Finish—Agreement "BH" Groups 1, 2 and 3.

In connection with the contract dated June 6, 1922 between the City of New York and George Colon & Company for miscellaneous construction and station finish work, Agreement "BH" Groups 1, 2 and 3, I hereby certify that all work under Groups 1, 2 and 3 was completed on June 6, 1923, May 28, 1923, and March 14, 1923 respectively. The total cost of the work was \$13,962.91.

In accordance with the provisions of the contract all work should have been completed as follows:

Group 1, by November 7, 1922; Group 2, by October 7, 1922; and Group 3, by September 7, 1922. The Commission by resolution of July 3, 1923, granted extensions of time for each group up to and including its actual date of completion.

Recommended, That the work be accepted and that a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The contract dated June 6, 1922 between The City of New York acting by the Transit Commission and George Colon & Company for Miscellaneous Construction and Station Finish (Agreement "BH") Groups I, II and III, required the completion of the said groups as in said contract more particularly set forth, which periods for completion were extended to the date of actual completion by resolution of the Transit Commission adopted on July 3, 1923; and

Whereas, The Chief Engineer of this Commission, by communication dated June 30, 1923, has reported that the work under the various groups, as required by said contract, was completed within the time as extended by the Transit Commission as aforesaid;

that the total amount due therefor was \$13,962.91 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York

Resolved, That the said report and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

879—R. T. 6924, 6324

Routes Nos. 19 and 22—Communication from Commissioner of Department of Water Supply, Gas and Electricity, Requesting Approval of Permit Issued by Interborough Rapid Transit Company to that Department to Install Watermain Upon and Across the Rapid Transit Railroad Bridge Over Bronx River at Westchester Avenue—Report by Chief Engineer Recommending Approval—Approval Resolution

A communication was presented from Honorable Nicholas J. Hayes, Commissioner of the Department of Water Supply, Gas and Electricity for The City of New York, dated June 29, 1923, requesting approval of a permit issued by the Interborough Rapid Transit Company, authorizing the City, through the said Department of Water Supply, Gas and Electricity, to construct and maintain a watermain upon and across a rapid transit bridge over the Bronx River at Westchester Avenue.

A report was presented from the Chief Engineer dated July 3, 1923, recommending that the application be approved, providing there be no legal objections thereto.

The following resolution was adopted:

Whereas, Hon. Nicholas J. Hayes, Commissioner of Water Supply, Gas and Electricity of the City of New York, has by communication dated June 29, 1923, submitted for the approval of this Commission in triplicate a proposed permit dated June 11, 1923, issued by Interborough Rapid Transit Company to said Commissioner of Water Supply, Gas and Electricity and accepted by the latter on June 29, 1923, granting the right to The City of New York to support a 20-inch water main on and along the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, where the same crosses the Bronx River by a bridge at Westchester Avenue, in the Borough of The Bronx, which proposed permit has been approved as to form by the Acting Corporation Counsel under date of June 29, 1923; and

Whereas, Counsel has examined said proposed permit and finds no objection thereto; and

Whereas, The Chief Engineer of this Commission, by communication dated July 3, 1923, has recommended the approval of said permit,

Resolved, That the said permit so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission, made part of said proposed permit.

880—R. T. 6761, 6561

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Signal Equipment to be Installed in Railroad Yard at 239th Street and White Plains Avenue—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval, Endorsed by Auditor of Rapid Transit Costs Recommending Material be Classified as Equipment of the Railroad—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated June 18, 1923, requesting approval of a proposed purchasing agent's order, directed to

the Union Switch and Signal Company for furnishing signal equipment to be installed in the railroad yard at 239th Street and White Plains Avenue.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated June 28, 1923, recommending that the application be approved, said report being endorsed by the Auditor of Rapid Transit Costs, recommending that the material described in the application be classified as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company by communication dated June 18, 1923 has requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated June 18, 1923 directed to the Union Switch and Signal Company for the following:

Item No.

(1)	6—2 arm (Home and Home) Elec. pneu. semaphore signals, viaduct type, 15 ft. from bottom of base to center of lower blade, as per U. S. & S. Co. dwg. D-1034, dated 2/28/06, to have low flat base, marine sockets for fuse plugs and lamps. The signals to be without cylinder magnets and circuit changers but to have circuit changer connections. Price: \$320.00 each.....	\$1,920.00
(2)	6—1 Arm (Home) Elec. Pneu. semaphore signals, viaduct type, 15 ft. from bottom of base to center of blade, in all other respects similar to item 1. Price: \$225.00 each.....	1,350.00
(3)	1—2 Arm (Home and Home) Elec. pneu. semaphore signal, viaduct type, 11 ft. from bottom of base to center of lower blade. In all other respect similar to item 1. Price: \$295.00 each.....	295.00
(4)	1—1 Arm (Home) Elec. Pneu. semaphore signal, viaduct type 11 ft. from bottom of base to center of blade. In all other respect similar to item 1. Price: \$200.00 each.....	200.00
(5)	17—1 Arm (Home) dwarf signals, as per Fig. A. pl. 0883, U. S. & S. Co. catg. with spectacles as shown on pl. 0907, fig. 9, U. S. & S. Co. with red and green glasses and rubber blades. Signals to have marine sockets for fuse plugs and lamps, 400 ohms magnets. No special circuit breakers. Price: \$115.00 each.....	1,955.00
(6)	18—Mid track Elec. Pneu. motion plate, switch and lock movements complete, with plate cover, indication box and all communications to switch for staggered switch points, 100 lb. ARA type B. rail (10 right) (8 left). Price: \$300.00 each.....	5,400.00
(7)	6—Hanging stop release boxes, comp. with key guide and comp. union, 400 ohm, magnets, type B, pl. 0923, U. S. & S. Co. catg. both air connections for ½" pipe. Price: \$50.00 each.....	300.00
(8)	30—Valves and magnets comp. for signals. 400 ohms, resistance, as per fig. No. 26. pl. 0881, U. S. & S. Co. catg. Price: \$40.00 each.....	1,200.00
(9)	2—Elec. pneu. single switch and lock movements, comp. fig. A pl. 0935, 6" cylinder for slip switches, style of screw jaw and motion plate to be as shown on pl. 0839, U. S. & S. Co. Catg. Cylinder to take ½" pipe. Price: \$133.40 each.....	266.80
(10)	33—Elec. Pneu. switch valves with automatic cut off, 120 ohm magnets, valve seat brackets, connecting bolts and insulators, similar to that shown on fig. 3, pl. 0959, U. S. & S. Co. catg. Price: \$170.00 each.....	5,610.00

Item No.		
(11)	11—Elec. Pneu. switch valves, with automatic cut off, 120 ohm magnets, without cover, but to have base, valve seat brackets, connecting bolts and insulators similar to that shown on fig. 3, pl. 0959, U. S. & S. Co. catg. Price: \$148.50 each.....	1,633.50
(12)	6—Air cooled transformers, 550 volt primary with one 55 volt secondary with taps at 53-57 and 59 volts to supply current for local phase of two A. C. track relays, 6-60 volt, 25 watt lamps, and one secondary to supply current for track phase of two A. C. track relays. Same as previously furnished under our order C-39639, dated August 16th, 1922, requisition 2353-JMW., Union Switch & Signal Co. Price: \$37.50 each.....	225.00
(13)	150—Air strainers, fig. Aa. pl. 01024, U. S. & S. Co. Catg. for ½" pipe, both ends. Also to have ¼" brass male and female cocks in place of pet cocks. Price: \$3.10 each.....	465.00
(14)	75—Keystone insulated track joints, new style, nonsymmetrical, for 100 lb. ARA type B. single rail section as per IRT dwg. C-281, C. H. Whall fibre to be furnished. Price: \$12.00 each.....	900.00
(15)	5—Case iron instrument cases as per I. R. T. dwg. E.-52. Price: \$150.00 each.....	750.00
Total		\$22,470.30

which proposed purchasing agent's order has been caused to be designated as "Approval No. 487"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated June 28, 1923 has reported that the Union Switch and Signal Company's bid was the lowest of those received; that the material is to be used in the 239th Street Yard of the White Plains Road Line of the Railroad, as described in said Contract No. 3; that the quantity of the materials is proper and the character standard for the Interborough system and recommend that the said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated July 2, 1923, has recommended that such material be classified as Equipment of the Railroad.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

881—Case 2691

New York & Long Island Traction Company—Application for Permission to File Revised Tariff Showing Termination of Operation at City Line—Hearing Order Adopted

The Secretary presented a communication, dated June 20, 1923, from Lincoln C. Andrews, General Manager of the New York & Long Island Traction Company, asking for permission to put into effect on three days notice after filing and publication new Local Passenger Traffic No. 1, showing a termination of operation of the Brooklyn-Mineola Line at the City Line.

Thereupon an Order in Case No. 2691 was adopted and ordered filed directing a hearing on said application on July 13, 1923, at 11 A. M., and authorizing and certifying George F. Daggett, Chief of Transit Bureau, pursuant to Sections 8 and 11 of the Public Service Commission Law to conduct said hearing, to take the testimony

therein and report same to the Commission together with his opinion thereon for its decision and determination.

882

The Long Island Railroad Company—New Tariff Relative to Identification of Purchasers of Commutation Tickets—Report by Chief of Transit Bureau—Referred to Counsel

The Secretary presented a report, dated June 27, 1923, by George F. Daggett, Chief of Transit Bureau, approved by George L. Lucas, Acting Chief Executive Officer, recommending that the new tariff filed by The Long Island Railroad Company requiring identification of purchasers of commutation tickets be referred to Counsel to the Commission.

Thereupon the above mentioned report was referred to Counsel to the Commission for opinion.

883—Case 1505

New York Rapid Transit Corporation—Destination Signs in Cars of Elevated and Subway Trains—Amended Order Adopted

The Secretary presented a report, dated June 25, 1923, by George F. Daggett, Chief of Transit Bureau, transmitting correspondence with respect to the acceptance of the Order in Case No. 1505, adopted May 1, 1923, concerning destination signs on rapid transit lines and recommending an amendment to the Order.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1505, in the following form:

At a Meeting of the Transit Commission held at its office,
No. 49 Lafayette Street, Borough of Manhattan, City
of New York, on the 3rd day of July, 1923.

Present:

GEORGE MCANENY,	} COMMISSIONERS.
Chairman,	
LE ROY T. HARKNESS,	

IN THE MATTER
of the

Hearing on the motion of the Commission on the question of changes in the regulations, practices and service of New York Consolidated Railroad Company, Nassau Electric Railroad Company and South Brooklyn Railway Company.

CASE No. 1505
ORDER AMENDING ORDER OF
MAY 1, 1923.

Destination signs in cars in service on elevated lines.

An order having been made in this Case on July 30, 1914, and the New York Consolidated Railroad Company, the Nassau Electric Railroad Company, and the South Brooklyn Railway Company having made application for a modification of said order, and an order having been made on September 15, 1914 amending said order of July 30, 1914, and an order having been made on June 8, 1915 amending said order of July 30, 1914 as amended, and an order having been made on June 22, 1915 further amending said order of July 30, 1914 as amended, and an order having been made on July 9, 1915 further amending said order of June 22, 1915 as amended, and an order having been made on May 1, 1923 further amending said order of July 30, 1914 as amended, and the New York Rapid Transit Corporation having become the successor

of the New York Consolidated Railroad Company and succeeded to all of its franchise and property rights,

It Is Ordered, That said order of July 30, 1914 as amended by said order of September 15, 1914, and said order of June 8, 1915, and said order of June 22, 1915, and said order of July 9, 1915, and said order of May 1, 1923, be, and the same hereby is further amended as to the directory portion thereof, so as to read as follows:

Ordered, That all cars now equipped with holders for line or destination signs, and every motor car operated by said New York Rapid Transit Corporation, shall display, when in service, proper line and destination signs, and that all trains composed of the old type elevated cars operated by said company shall also display in service proper dash destination signs, and

It Is Further Ordered:

1. Special trains, such as trains to baseball games, motordrome, and places of like character, carrying white flags, shall be exempt from requirements as to signs.

2. Trains or cars of the old elevated type diverted from one line to another for emergency or shop purposes shall not be required to display signs.

3. On Sundays and holidays, when the entire available equipment of the Southern Division is insufficient to care for the persons on that division and it is necessary to operate therein trains or cars ordinarily operated on the Eastern Division, the trains or cars of the old elevated type so diverted shall not be required to carry signs.

4. When in an emergency it becomes necessary to turn back cars before trains reach their scheduled destination, it shall not be deemed a violation of this order if such cars or trains do not display proper destination signs.

5. The elevated equipment used in the Myrtle Avenue short-line service between Metropolitan Avenue and Broadway on their westbound trips shall be required to display a dash sign only; and the subway equipment used in this service shall not be required to carry destination signs.

6. Cars and trains used in the Fulton Street short-line service between Lefferts Avenue and Franklin Avenue on their westbound trips shall be required to carry a dash sign only.

7. Cars and trains used in the Culvert short-line service between Kings Highway and 9th Avenue on their westbound trips shall be required to display dash signs only.

8. Subway cars and trains used in the Broadway-Canarsie rush hour service, which is short-lined at Canal Street and discharges all passengers at the Bowery Station, shall not be required to display destination signs.

9. Subway cars not equipped with the Queens Plaza and Prospect Park roll signs will not be required to display such signs before August 1, 1923.

10. Subway cars not equipped with City Hall, Via Bridge and Via Tunnel roll signs shall not be required to display such signs until October 1, 1923, and

It Is Further Ordered, That this order shall take effect immediately, and that within three days after service of this order, said last mentioned company shall notify this Commission whether this order is accepted and will be obeyed.

By the Commission,

JAMES B. WALKER,
Secretary.

884—Case 1676

The Concourse Bus Line, Inc.—Regulations as to Schedules for Passenger Service—Report by Transit Bureau as to Failure of Company to File Tariff Schedules—Letter to Company Authorized

The Secretary presented a report, dated June 28, 1923, by Frank Bennett, Assistant Chief of Transit Bureau, advising that the Concourse Bus Line, Inc., had not filed tariff schedules as required by the Order in Case No. 1676.

Thereupon the Secretary was authorized to write the Concourse Bus Line, Inc., requesting the filing of said tariff schedules at once.

885

Expenses—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$800,000 on Account for Expenses of Year Ending December 31, 1923—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 22, 1923, was ordered filed.

(Cal. No. 326)

Resolved, That the Board of Estimate and Apportionment, in accordance with the requisition of the Transit Commission, dated May 8, 1923, and pursuant to the provisions of chapter 134 of the Laws of 1921, and in compliance with an order of the Appellate Division of the Supreme Court in and for the First Judicial Department, entered on June 16, 1923, hereby authorizes an appropriation of eight hundred thousand dollars (\$800,000) on account, to properly enable the Transit Commission to do and perform or cause to be done and performed for the year ending December 31, 1923, the duties imposed upon the said Commission by the said law, and the Comptroller is hereby authorized, pursuant to law and the said requisition of the Transit Commission, to issue special revenue bonds of The City of New York to an amount not exceeding eight hundred thousand dollars (\$800,000), redeemable from the tax levy of the year next succeeding the year of their issue, the proceeds to be used for the purposes aforesaid.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 22, 1923.

JAMES MATTHEWS,
Assistant Secretary.

886

Street Changes—Certified Copies of Resolutions of Board of Estimate and Apportionment Establishing Roadway and Sidewalk Widths of East 20th Street between Broadway and Fifth Avenue, Borough of Manhattan, and Authorizing Removal of Encroachments—Filed

The following certified copies of the resolutions adopted by the Board of Estimate and Apportionment on June 22, 1923, were ordered filed:

(Cal. No. 182-A)

Resolved, By the Board of Estimate and Apportionment, that the widths of the roadway and sidewalks on East 20th Street, from the west curb line of Broadway to the east curb line of 5th Avenue, Borough of Manhattan, be established as follows: The roadway shall be centrally located and shall have a width of thirty-four (34) feet.

The width of the sidewalks on each side of the roadway shall be thirteen (13) feet; and be it further

Resolved, That all ordinances, permits or licenses heretofore adopted or granted by The City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which interfere with the proper support of the roadway, curb, and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments in accordance with the foregoing resolution.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 22, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 182-B)

Whereas, The entire width of East 20th Street, between Broadway and Fifth Avenue, Borough of Manhattan, is required for public purposes, be it

Resolved, By the Board of Estimate and Apportionment that all ordinances, permits or licenses heretofore adopted or granted by The City of New York or by any

body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which project beyond the building line of East 20th Street between Broadway and 5th Avenue, Borough of Manhattan, between levels 10 feet above the curb grade and a sufficient depth below said curb to provide for the proper support of the roadway, sidewalk and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments or encumbrances in accordance with the foregoing resolution; except in cases, if any, where existing statutes require the maintenance or continuance of fire escapes in their present positions.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 22, 1923.

JAMES MATTHEWS,
Assistant Secretary.

887—R. T. 7648

Agreement "CJ"—Statement as to Execution and Delivery of Original Contract for Construction of Concrete and Steel Highway Bridge Over Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn—Communication from Brooklyn-Manhattan Transit Corporation Accepting Indemnity Bond Deposited by Contractor—Contract and Communication Ordered Filed

The Commission ordered filed an original contract dated June 16, 1923, between the City of New York, acting by the Transit Commission, Brooklyn Manhattan Transit Corporation, successor to the property and franchises of the Brooklyn Rapid Transit Company and Lindley M. Garrison, Receiver, the South Brooklyn Railway Company and M. A. Charles for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn, Agreement "CJ," which contract had been executed on behalf of all parties and delivered on June 30, 1923.

A communication was also ordered filed from the Brooklyn-Manhattan Transit Corporation dated June 29, 1923, accepting an original bond in the sum of \$10,000 deposited by the contractor in accordance with Article V of the said contract, indemnifying the Company from loss or injury growing out of the work under contract.

Routes Nos. 12 and 31—Notice from Joseph A. Solovei for Variation in Building Zone Resolution Affecting Premises at Northeast Corner of East New York Avenue and Portal Street, Borough of Brooklyn—Report by Real Estate Clerk Recommending Notice Be Filed—Filed

A notice was presented from Joseph A. Solovei, attorney for applicant, Benjamin Dreisler, Jr., on behalf of Alexander M. Graham for a variation from the requirements of the Building Zone Resolution so as to permit the erection and maintenance of a garage on the premises at the northeast corner of East New York Avenue and Portal Street, Borough of Brooklyn, and advising that the application will be heard on July 3, 1923 in Room 919, Municipal Building, New York City.

A report was presented from the Real Estate Clerk dated June 27, 1923, advising that the nearest property under the jurisdiction of the Transit Commission is at some distance from the property affected and stating that the erection of a garage will not injure such property and recommending that the notice be filed.

The papers were ordered filed.

889—R. T. 7520

Route No. 31—Consents of Contractor and Sureties to Resolution Extending Time to May 26, 1923, within which to Complete Contract for Construction of Inspection Shed Enclosure for Eastern Parkway Rapid Transit Railroad, Livonia Avenue Yard—Filed

Consents were ordered filed from Rosenthal Engineering Contracting Co., Inc. and sureties upon the bond deposited by the contractor to the resolution of the Commission adopted on June 21, 1923, extending the time of the contractor to and including May 26, 1923, within which to complete the work for the construction of inspection shed enclosure for the Eastern Parkway Rapid Transit Railroad, Route No. 31.

890—Case 1670

New York Rapid Transit Corporation—Filing of Passenger Tariffs—New Tariff Showing Service and Fares on Rapid Transit Lines—Filed

The Secretary presented a communication, dated June 14, 1923, from H. A. Crowe, General Passenger Agent of the New York Rapid Transit Corporation, transmitting Local and Joint Passenger Tariff No. 1, showing service and fares on the rapid transit lines operated by the company, effective June 15, 1923.

Thereupon the above mentioned papers were ordered filed.

891—Case 2618

The Long Island Railroad Company—Park Lane South Grade Crossing—Communication from Counsel Transmitting Opinion of Appellate Division, Second Department, Affirming Commission's Order—Filed

The Secretary presented a letter, dated June 28, 1923, from Counsel to the Commission, transmitting opinion of the Appellate Division of the Supreme Court, Second Department, unanimously affirming the Commission's Final Order and Determination in Case No. 2618, relative to the Park Lane South elimination over the tracks of The Long Island Railroad Company.

Thereupon the above mentioned papers were ordered filed.

892—Case 2679

Brooklyn Rapid Transit Company—Petition of Reorganization Committee of Stockholders for Approval of Reorganization Plan—Communication from Travis H. Whitney Acknowledging Resolution Nominating Him as Director—Filed

The Secretary presented a communication, dated June 28, 1923, from Travis H. Whitney, acknowledging receipt of Resolution in Case No. 2679, nominating him as a director of the Brooklyn-Manhattan Transit Corporation.

Thereupon the above mentioned communication was ordered filed.

893—Case 2679

Brooklyn Rapid Transit Company—Petition of Reorganization Committee of Stockholders for Approval of Reorganization Plan—Communication from M. B. Hoffman, Assistant Counsel, Transmitting Agreement, Deed and Order, etc.—Filed

The Secretary presented a communication, dated June 27, 1923, from M. B. Hoffman, Assistant Counsel of the New York Rapid Transit Corporation, transmitting the following papers:

1. Agreement of Sale between Purchasers, The Committee and New York Rapid Transit Corporation, dated June 14, 1923.
2. Deed from Purchasers to New York Rapid Transit Corporation, dated June 14, 1923.
3. Form of receipt given by New York Rapid Transit Corporation to Receiver for delivery of property.
4. Decree of confirmation, dated June 7, 1923.

Thereupon the above mentioned papers were ordered filed.

894

Employees' Calendar No. 152

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—John L. Lemke, junior assistant, at \$125.08 per month, to take effect June 28, 1923; Abraham I. Shulman, draftsman, at \$150.08 per month, to take effect June 27, 1923.

Appointment under Rule VIII:10—John J. Rooney, junior clerk, at \$60.00 per month, to take effect July 2, 1923.

Appointment under Rule XVIII—Thomas F. McDonough, chauffeur, at \$30.00 per week, to take effect June 29, 1923.

Resignations—William D. Baer, accountant, at \$173.00 per month, to take effect June 27, 1923; Hyman Needle, junior assistant, at \$125.08 per month, to take effect June 27, 1923; Jacob Simon, junior assistant, at \$125.08 per month, to take effect June 23, 1923.

Leave of Absence without Pay—F. C. Cannon, engineering inspector, from July 1, 1923, to September 30, 1923.

895

Employees—Resolution Designating Sverre Dahm, Engineer of Designs, as Acting Chief Engineer

The following resolution was adopted:

Whereas, The Chief Engineer, Robert Ridgway, has been granted a leave of absence from July 9, 1923 to July 14, 1923, inclusive,

Resolved, That Sverre Dahm, Engineer of Designs, be and hereby is designated as Acting Chief Engineer, said designation to take effect as of July 9, 1923, and to continue during the absence of the said Robert Ridgway.

896

Employees' Calendar No. 153

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Resignation (Exempt)—Richard A. Malone, Stenographer to Commission, at \$200.00 per month, to take effect July 15, 1923.

Voucher Schedule No. 27

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said voucher be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York, as the vouchers may direct.

Vouchers Nos. 344-345, miscellaneous bills, \$2,104.17; Vouchers Nos. 11-14, special payroll, \$6,775.00; Voucher No. CM-13, State payroll, \$2,757.40.

Estimate by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 161, Fox, Reynolds Co., Inc.; approximate estimate No. 2 for the completion of Newsstand enclosures at stations of the Municipal Rapid Transit Railroad, under Contracts Nos. 3 and 4, from May 26, 1923 to June 25, 1923 (R. T. 7642) \$1,667.52;

Voucher No. 162, Powers-Kennedy Contracting Corporation; for retained percentage payment in accordance with Certificate No. 2-R under Contract dated April 21, 1922, for the construction of Routes Nos. 35 and 67 (R. T. 7584) \$50,000.00;

Voucher No. 163, Bethlehem Steel Products Co.; final estimate for the supply of special work and other track materials, Order No. 20, for use in the construction of a part of Jerome Avenue Yard, Route No. 16, from June 5, 1922 to June 6, 1923 (R. T. 7470) \$5,977.75;

Voucher No. 164, George Colon & Co.; final estimate for miscellaneous construction and station finish on certain portions of the Rapid Transit Railroad, Agreement "BH," Group I, II and III. (R. T. 7476) \$2,764.89;

Voucher No. 165, Station Finish Corporation, Assignee; approximate estimate No. 11 for the construction of station finish on Sections Nos. 3, 4 and 5 of Route No. 8, from June 1, 1923 to June 30, 1923 (R. T. 7516) \$6,737.57;

Voucher No. 166, Rosenthal Engineering Contracting Company, Inc.; approximate estimate No. 4 for the construction of foundations for third additions to shops, Lenox Avenue and 148th Street Yard, under Contract No. 3, from May 21, 1923 to June 20, 1923, (R. T. 7589) \$47,646.13.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, July 10, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

Brooklyn Loop Lines—Report by Chief Engineer Recommending Rejection of Bids for Construction of Additional Entrance at Canal Street Station—Resolution Directing Return of Certified Checks to Lowest and Next to Lowest of Bidders

A report by the Chief Engineer dated July 6, 1923, recommending the rejection of all bids received on June 29, 1923, for the construction of additional entrance at the Canal Street Station (Loop Line), was presented.

The following resolution was adopted:

Whereas, Heretofore by resolution adopted June 13, 1923, this Commission approved the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and contract drawings for the construction of additional entrance at the Canal Street Station (Loop Line) of the Broadway-Fourth Avenue Rapid Transit Railroad and pursuant to advertisement duly made, bids were received respectively totalling as follows:

D. C. Serber	\$93,000.00
O'Rourke Engineering Constr. Co.....	99,163.50
Lustig & Weil	104,642.00

; and

Whereas, The Chief Engineer of this Commission by communication dated July 6, 1923 has reported and recommended with respect to the bids so received as follows:

"Our estimate for this work was \$61,751. The lowest bid is therefore about 50% more than our estimate of cost. Due to the bids received being so high, I hesitate to recommend the approval of this contract.

It is very desirable that these additional entrances should be constructed and my recommendation not to approve any of the submitted bids is with the view of readvertising this contract some time in the future when it may be expected that lower bids might be received.

I have discussed this matter with Captain Daggett and he advises that while these entrances are very desirable, he thinks there is no objection to postponing their construction until more reasonable prices may be obtained.

Recommendation:—I therefore respectfully recommend that all bids received on June 29, 1923 for Construction of Additional Entrances at the Canal Street Station (Loop Line) be rejected and that the readvertising for bids be deferred for the present."

Resolved, That said report and recommendation be and the same hereby is approved; that the bids so received be and hereby are in all respects rejected and that the Secretary of this Commission be and hereby is authorized and directed to return the certified checks deposited with said bids and to take proper receipt therefor.

900—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Contract with The Babcock & Wilcox Company for Four Boilers and Three Superheaters for 59th Street Power House—Report by Consulting Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated June 18, 1923, requesting approval of a proposed contract with The Babcock & Wilcox Company, for the manufacture, delivery and installation in the 59th Street Power Station of four 1,140 horsepower boilers and three superheaters.

A report was presented from Consulting Engineer, Dr. Charles E. Lucke, and the Chief Engineer dated June 26, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922, the application of the Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3 consisting of additional units of new equipment and appurtenances and cables to provide additional power was approved and by resolution adopted November 14, 1922 this Commission assigned thereto Work Order No. IBA-7; and

Whereas, The said Interborough Rapid Transit Company by communication dated June 18, 1923 has submitted for the approval of this Commission pursuant to the reso-

lutions aforesaid a proposed contract with the Babcock & Wilcox Co. for the manufacture, delivery and installation in the 59th Street Power House of four 1,140 H.P. Babcock & Wilcox boilers and three Babcock & Wilcox super heaters complete ready for operation at the total cost of \$130,583; and

Whereas, By communication dated June 26, 1923 the Consulting Engineer, Dr. Charles E. Lucke has reported that the bid of Babcock & Wilcox Co. is the lowest of the bids received; that the type of boiler is the most suitable; that the plans and specifications therefor are satisfactory and recommended that the said proposed contract be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated July 2, 1923 has recommended that the work be classified as Additional Equipment for the Railroad under Work Order No. IBA-7 assigned as aforesaid; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto,

Resolved, That the said reports and recommendations be and the same hereby are approved and that the said proposed contract, together with the plans and specifications made part thereof be and the same hereby are approved and that said Interborough Rapid Transit Company be and hereby is authorized to enter into said proposed contract with Babcock & Wilcox in the form hereby approved.

901—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Contract for Manufacture and Delivery of Two 15 Ft. Cindervane Design No. 1 Induced Draft Centrifugal Blowers for 59th Street Power House—Report by Dr. Charles E. Lucke, Consulting Engineer, Endorsed by Auditor of Rapid Transit Costs Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated June 18, 1923, requesting approval of a proposed contract with the B. F. Sturtevant Co. for the manufacture and delivery of two 15 ft. Cindervane Design No. 1 Induced Draft Centrifugal Blowers for 59th Street Power House, at a cost of \$16,144.

A report was presented from Dr. Charles E. Lucke, Consulting Engineer, dated June 28, 1923, recommending that the application be approved, which report was endorsed on July 2, 1923, by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment for the Railroad.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922, the application of the Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3 consisting of additional units of new equipment and appurtenances and cables to provide additional power was approved and by resolution adopted November 14, 1922 this Commission assigned thereto Work Order No. IBA-7; and

Whereas, The said Interborough Rapid Transit Company by communication dated June 18, 1923 has submitted for the approval of this Commission pursuant to resolutions aforesaid a proposed contract with the B. F. Sturtevant Co. for the manufacture and delivery of two 15 ft. Cindervane Design No. 1 induced Draft Centrifugal Blowers at a total cost of \$16,144 F.O.B. 59th Street Power House, New York City; and

Whereas, By communication dated June 28, 1923 the Consulting Engineer, Dr. Charles E. Lucke, has reported that the report of the bid of the B. F. Sturtevant Co. is the lowest of the bids received; that the type of blower is the most suitable to conform with the proposed new equipment of the Interborough Rapid Transit Company in the 59th Street Power House; that the plans and specifications therefor are satisfactory and recommend that the said proposed contract be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated July 2, 1923, has recommended that the work be classified as Additional Equipment for the Railroad under Work Order No. IBA-7 assigned as aforesaid; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto,

Resolved, That the said reports and recommendations be and the same hereby are approved and that the said proposed contract, together with the plans and specifications made part thereof be and the same hereby are approved and that said Interborough Rapid Transit Company be and hereby is authorized to enter into said proposed contract with B. F. Sturtevant Co. in the form hereby approved.

902—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Contract for the Manufacture and Delivery of Two Forced Draft Centrifugal Blowers for 59th Street Power House—Report by Consulting Engineer, Endorsed by Auditor of Rapid Transit Costs, Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated June 18, 1923, requesting approval of a proposed contract with the B. F. Sturtevant Co. for the manufacture and delivery of two forced draft centrifugal blowers for the 59th Street Power House at a cost of \$5,786.

A report was presented from Dr. Charles E. Lucke, Consulting Engineer, dated June 29, 1923, recommending that the application be approved, which report was endorsed on July 6, 1923, by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment for the Railroad.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922 the application of the Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3 consisting of additional units of new equipment and appurtenances and cables to provide additional power was approved and by resolution adopted November 14, 1922 this Commission assigned thereto Work Order No. IBA-7; and

Whereas, The said Interborough Rapid Transit Company by communication dated June 18, 1923 has submitted for the approval of this Commission pursuant to the resolutions aforesaid a proposed contract with B. F. Sturtevant Co. for the manufacture and delivery of two forced draft centrifugal blowers for the 59th Street Power House at a total cost of \$5,786; and

Whereas, By communication dated June 29, 1923 the consulting engineer, Dr. Charles E. Lucke, has reported that considering the suitability of apparatus and the conditions under which the required blowers are to operate and the space available for their installation the bid of B. F. Sturtevant is the lowest received for such material; that such apparatus is necessary in connection with the new boilers to be installed in the 59th Street Power House in order to furnish force draft to the boilers and recommends that the said proposed contract so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated July 6, 1923 has recommended that the work under said proposed contract be classified as Additional Equipment for the Railroad under Work Order No. IBA-7 heretofore assigned as aforesaid; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto,

Resolved, That the said reports and recommendations be and the same hereby are approved and that the said proposed contract, together with the plans and specifica-

tions made part thereof be and the same hereby are approved and that the said Interborough Rapid Transit Company be and hereby is authorized to enter into said proposed contract with B. F. Sturtevant Company.

903

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order on Shepard Electric Crane and Hoist Company for Apparatus Necessary in the 148th Street Shop—Report by Engineer of Equipment and Operation and Chief Engineer, Endorsed by Auditor of Rapid Transit Costs, Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated June 18, 1923, requesting approval of a proposed purchasing agent's order on Shepard Electric Crane and Hoist Company for apparatus necessary in the 148th Street Yard at the cost of \$2,525.00.

A report was presented from the Engineer of Equipment and Operation and Chief Engineer dated June 30, 1923, recommending that application be approved, which report was endorsed on July 6, 1923, by the Auditor of Rapid Transit Costs, classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3 said Interborough Rapid Transit Company has by communication dated June 21, 1923 submitted for the approval of this Commission proposed purchasing agent's order dated June 21, 1923 directed to Shepard Electric Crane and Hoist Company for the following:

1—Hoist, 600 volt, D. C. Monorail type, electric cage control with double monorail trolley, form No. 24, maximum lift 20 feet, class AB, capacity 4 tons, with the following special equipment:

1. Resistance mounted on back of cage
2. Special grounded circuit with voltage fluctuations from 600 to 650
3. Special conductor location

To be as per proposal of Shepard Electric Crane and Hoist Company No. H-3110.

Price: \$2,525.00.

Shipment: Ten weeks from date of order.

NOTE—No other bids were secured as our Car Equipment Department prefers this type hoist due to the very satisfactory service given by a similar hoist now in operation, which was purchased from the Shepard Electric Crane and Hoist Company.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 489"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated June 30, 1923, reported that such apparatus is necessary in the 148th Street shop of the Railroad, as defined in Contract No. 3 because of the large volume of maintenance work carried on at said shop; that the cost is reasonable; that the similar hoists already installed in said shop have proven satisfactory and recommend that the said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated June 6, 1923 has recommended that such material be classified as Equipment of the Railroad.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form or approval of this Commission made part of said pro-

posed purchasing agent's order, such approval being upon condition that the material to be procured by said proposed purchasing agent's order shall be classified as Equipment of the Railroad.

904—R. T. 7457

Route No. 18—Application by Rosenthal Engineering Contracting Company, Inc., for Approval of Assignment to First National Bank of Moneys Due or to Grow Due Under Contract for Construction of Inspection Shed Enclosure at 180th Street Yard—Approval Resolution

An application was presented from the Rosenthal Engineering Contracting Company, Inc. dated July 6, 1923, requesting approval of a proposed assignment to the First National Bank of moneys due or to grow due from the City of New York in connection with the contract dated June 26, 1922, for the construction of an inspection shed enclosure in the 180th Street Yard of the White Plains Road Rapid Transit Railroad, Route No. 18.

The following resolution was adopted:

Whereas, On or about the 26th day of June, 1922, The City of New York, acting by the Transit Commission entered into a contract with Rosenthal Engineering Contracting Company, Inc., for construction of the inspection shed enclosure in the 180th Street Yard of the White Plains Road Rapid Transit Railroad, Route No. 18, Borough of The Bronx; and

Whereas, Said Rosenthal Engineering Contracting Company, Inc. have submitted to the Transit Commission a proposed assignment dated the 6th day of July, 1923, assigning sixteen thousand, two hundred thirty-seven dollars and seventy-five cents (\$16,237.75) moneys due and to grow due under or on account of said contract to the First National Bank of Brooklyn and in accordance with the provisions of said contract and the requirements of law have requested this Commission to consent to said proposed assignment,

Resolved, That said assignment aforesaid now submitted to the Transit Commission be and the same hereby is approved subject to the terms and conditions in said contract contained and upon the conditions following:

First: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no way defeat or impair such rights and remedies as subcontractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or services performed or material furnished if said assignment had never been made, such rights and remedies to remain in all respects the same as if said assignment had never been made.

Second: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no respect affect the rights of The City of New York or of the Transit Commission or of any Board, Officer, agent or employee acting for or on behalf of The City of New York or the Transit Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to person or property) such rights as well as all other rights of The City of New York and the Transit Commission to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third: The consent of the Transit Commission to said assignment herein given shall take effect if, when and only when the sureties upon the bond deposited as security for the faithful performance on the part of the contractor of its obligations under said contract shall consent in writing to said assignment and the conditions of this resolution in form to be approved by Counsel to the Commission and further until the assignee under said assignment, the First National Bank of Brooklyn shall consent and accept the terms and conditions of this resolution, in form to be approved by Counsel to this Commission.

905—R. T. 7589

Contract No. 3—Application by Rosenthal Engineering Contracting Company, Inc., for Approval of Assignment to First National Bank of Moneys Due or to Grow Due Under Contract for Construction of Foundations for Third Addition to Shops—Approval Resolution

An application was presented from the Rosenthal Engineering Contracting Company, Inc., dated July 6, 1923, requesting approval of a proposed assignment to the First National Bank of moneys due or to grow due from the City of New York in connection with the contract dated December 26, 1922, for the construction of foundations for third addition to shops at the Lenox Avenue and 148th Street Yard in the Borough of Manhattan.

The following resolution was adopted:

Whereas, On or about the 26th day of December, 1922, The City of New York, acting by the Transit Commission, entered into a contract with Rosenthal Engineering Contracting Company, Inc., for construction of foundations for third addition to shops at the Lenox Avenue and 148th Street Yard in the Borough of Manhattan, City of New York; and

Whereas, Said Rosenthal Engineering Contracting Company, Inc., has submitted to the Transit Commission a proposed assignment dated the 6th day of July, 1923, assigning forty-seven thousand, six hundred forty-six dollars and thirteen cents (\$47,646.13) moneys due and to grow due under or on account of said contract to the First National Bank of Brooklyn and in accordance with the provisions of said contract and the requirements of law have requested this Commission to consent to said proposed assignment,

Resolved, That said assignment aforesaid now submitted to the Transit Commission be and the same hereby is approved subject to the terms and conditions in said contract contained and upon the conditions following:

First: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no way defeat or impair such rights and remedies as subcontractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or services performed or material furnished if said assignment had never been made, such rights and remedies to remain in all respects the same as if said assignment had never been made.

Second: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no respect affect the rights of The City of New York or of the Transit Commission or of any Board, Officer, agent or employee acting for or on behalf of The City of New York or the Transit Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to person or property) such rights as well as all other rights of The City of New York and the Transit Commission to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third: The Consent of the Transit Commission to said assignment herein given shall take effect if, when and only when the sureties upon the bond deposited as security for the faithful performance on the part of the contractor of its obligations under said contract shall consent in writing to said assignment and the conditions of this resolution in form to be approved by Counsel to the Commission and further until the assignee under said assignment, The First National Bank of Brooklyn shall consent and accept the terms and conditions of this resolution, in form to be approved by Counsel to this Commission.

906—R. T. 7520

Route No. 31—Application by Rosenthal Engineering Contracting Company, Inc., for Approval of Assignment to First National Bank of Brooklyn of Moneys Due or to Become Due Under Contract for Construction of Inspection Shed Enclosure, Livonia Avenue Yard—Approval Resolution

An application was presented from the Rosenthal Engineering Contracting Company, Inc., dated July 6, 1923, requesting approval of a proposed assignment to the First National Bank of Brooklyn of moneys due or to become due from The City of New York in connection with the contract dated February 17, 1923, for the construction of inspection shed enclosure in the Livonia Avenue Yard, Borough of Brooklyn.

The following resolution was adopted:

Whereas, On or about the 17th day of February, 1922, The City of New York, acting by the Transit Commission, entered into a contract with Rosenthal Engineering Contracting Company, Inc., for the construction of inspection shed enclosure in the Livonia Avenue Yard of the Eastern Parkway Rapid Transit Railroad (Route No. 31) in the Borough of Brooklyn, City of New York; and

Whereas, Said Rosenthal Engineering Contracting Company, Inc., has submitted to the Transit Commission a proposed assignment dated the 6th day of July, 1923, assigning nineteen thousand sixty-seven dollars and twenty-four cents (\$19,067.24) moneys due and to grow due under or on account of said contract to the First National Bank of Brooklyn and in accordance with the provisions of said contract and the requirements of law have requested this Commission to consent to said proposed assignment.

Resolved, That said assignment aforesaid now submitted to the Transit Commission be and the same hereby is approved subject to the terms and conditions in said contract contained and upon the conditions following:

First: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no way defeat or impair such rights and remedies as subcontractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or service performed or material furnished if said assignment had never been made, such right and remedies to remain in all respects the same as if said assignment had never been made.

Second: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no respect affect the rights of The City of New York or of the Transit Commission or of any Board, Officer, agent or employee acting for or on behalf of The City of New York or the Transit Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to person or property) such rights as well as all other rights of The City of New York and the Transit Commission to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third: The consent of the Transit Commission to said assignment herein given shall take effect if, when and only when the sureties upon the bond deposited as security for the faithful performance on the part of the contractor of its obligations under said contract shall consent in writing to said assignment and the conditions of this resolution in form to be approved by Counsel to the Commission and further until the assignee under said assignment, the First National Bank of Brooklyn, shall consent and accept the terms and conditions of this resolution in form to be approved by Counsel to this Commission.

907—R. T. 7457

Route No. 18—Application by Rosenthal Engineering Contracting Company, Inc., for Approval of Assignment to First National Bank of Brooklyn of Moneys Due and to Grow Due Under Contract for Construction of Inspection Shed Enclosure, 180th Street Yard—Approval Resolution

An application was presented from the Rosenthal Engineering Contracting Company, Inc. dated July 9, 1923, requesting approval of a proposed assignment to the First National Bank of Brooklyn of \$19,164.96, moneys due or to grow due from The City of New York in connection with the contract dated June 26, 1922, for the construction of inspection shed enclosure in the 180th Street Yard, White Plains Road Line, Route No. 18.

The following resolution was adopted:

Whereas, On or about the 26th day of June, 1922, The City of New York, acting by the Transit Commission, entered into a contract with Rosenthal Engineering Contracting Company, Inc., for construction of inspection shed enclosure in the 180th Street Yard of the White Plains Road Rapid Transit Railroad, (Route No. 18) in the Borough of The Bronx, City of New York; and

Whereas, Said Rosenthal Engineering Contracting Company, Inc., has submitted to the Transit Commission a proposed assignment dated the 9th day of July, 1923, assigning nineteen thousand, one hundred sixty-four dollars and ninety-six cents (\$19,164.96) moneys due or to grow due under or on account of said contract to the First National Bank of Brooklyn and in accordance with the provisions of said contract and the requirements of law have requested this Commission to consent to said proposed assignment;

Resolved, That said assignment aforesaid now submitted to the Transit Commission be and the same hereby is approved subject to the terms and conditions in said contract contained and upon the conditions following;

First: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no way defeat or impair such rights and remedies as sub-contractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or services performed or material furnished if said assignment had never been made, such rights and remedies to remain in all respects the same as if said assignment had never been made.

Second: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no respect affect the rights of The City of New York or of the Transit Commission or of any Board, Officer, agent or employee acting for or on behalf of The City of New York or the Transit Commission to deduct, reserve, retain, withhold, apply use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to person or property) such rights as well as all other rights of The City of New York and the Transit Commission to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third: The consent of the Transit Commission to said assignment herein given shall take effect if, when and only when the sureties upon the bond deposited as security for the faithful performance on the part of the contractor of its obligations under said contract shall consent in writing to said assignment and the conditions of this resolution in form to be approved by Counsel to the Commission and further until the assignee under said assignment, the First National Bank of Brooklyn shall consent and accept the terms and conditions of this resolution, in form to be approved by Counsel to this Commission.

Contract No. 1—Application by William P. O’Ryan Requesting Addition of Words “Manhattan College” to Present Name of Station at 242nd Street, Van Cortlandt Park—Referred to Commissioner O’Ryan

An application by William P. O’Ryan, Esq., requesting that the words “Manhattan College” be added to the present designation of the terminal station at 242nd Street, Van Cortlandt Park, Broadway-Seventh Avenue Line, was referred to Commissioner O’Ryan.

913—R. T. 6080

Route No. 39—Application by John E. Wenzel, Inc., for Permission to Occupy Vacant Triangular Plot of Ground Bounded by the Easterly Side of New Utrecht Avenue as Extended from 81st to 86th Streets, the Right of Way of the Nassau Electric Railroad and the Land Now or Formerly of Cropsey, in the Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from John E. Wenzel, Inc. dated July 2, 1923, requesting permission to occupy the vacant triangular plot of ground bounded by the easterly side of New Utrecht Avenue as extended from 81st to 86th Streets, the right of way of the Nassau Electric Railroad and the land now or formerly of Cropsey, in the Borough of Brooklyn, for the purpose of manufacturing concrete building blocks, at a rental of \$15.00 per month beginning July 1, 1923 and \$25.00 per month beginning December 1, 1923.

A report was presented from the Real Estate Clerk dated July 7, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, John E. Wenzel, Inc., a domestic corporation of the State of New York, having its main place of business at No. 1762-73rd St., Brooklyn, N. Y., has under date of July 2, 1923, made application for permission to occupy the vacant triangular plot of ground bounded by the easterly side of New Utrecht Avenue as extended from 81st to 86th Streets, the right of way of the Nassau Electric Railroad and the land now or formerly of Cropsey, in the Borough of Brooklyn, for the purpose of manufacturing concrete building blocks, agreeing to pay rent at the rate of \$15.00 per month beginning July 1, 1923, and \$25.00 per month beginning December 1, 1923; to deposit \$25.00 as rental for the last month of occupancy and to vacate on fifteen (15) days’ notice; the said application containing other terms similar to those usually governing like concessions; and

Whereas, The Real Estate Clerk, under date of July 7, 1923, has reported upon this application, recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission thereon.

Manhattan Elevated Railway—Communication from Hon. Julius Miller, President, Borough of Manhattan, Requesting Designation of Representative to Confer on Removal and Relocation of Elevated Columns of Sixth Avenue Line in Vicinity of 34th Street and 42nd Street—Reply Approved

A communication was presented from Hon. Julius Miller, President Borough of Manhattan, dated July 3, 1923, suggesting the designation of someone to take part in the negotiations with the Interborough Rapid Transit Company to bring about the necessary changes for the relocation of elevated columns of the Sixth Avenue Line between 30th and 35th Streets and 35th and 42nd Streets.

The following reply was approved:

July 10, 1923

Hon. JULIUS MILLER,
President, Borough of Manhattan,
Municipal Building, New York.
Dear Sir:

Chairman McAneny asks me to acknowledge your letter of July 3rd, calling attention to the action of your office in suggesting to the Interborough Rapid Transit Company the preparation of plans and estimates of cost for changing the Sixth Avenue Elevated structure between 30th and 35th Streets and 35th and 42nd streets, and asking that the Transit Commission designate someone to participate in the negotiations.

Your letter was placed before the Commission at its meeting today and Mr. Robert Ridgway, Chief Engineer, and Mr. William G. Fullen, Assistant Counsel, were designated to co-operate with you and the Interborough Rapid Transit Company in the negotiations, preparation of plans, etc., for the proposed improvement.

Very truly yours,

JAMES B. WALKER,
Secretary.

915—R. T. 6989

Route No. 18—Report by Acting Chief Engineer Recommending Approval of Agreement between The City of New York and Interborough Rapid Transit Company, as Contractor, for Installation of Tracks and Other Miscellaneous Work in the 180th Street Yard—Approval Resolution—Requisition Upon Board of Estimate and Apportionment for Appropriation of \$24,500

A report from the Acting Chief Engineer, dated July 9, 1923, recommending approval of a proposed agreement between The City of New York, acting by this Commission, and Interborough Rapid Transit Company, as Contractor, for the installation of tracks and other miscellaneous work in the 180th Street Yard, White Plains Road Line, Route No. 18, was presented.

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission a proposed contract between The City of New York acting by the Transit Commission and Interborough Rapid Transit Company to be entered into pursuant to the provisions of the Rapid Transit Act as amended by Chapter 625 of the Laws of 1917 for the installation of additional tracks and other miscellaneous work in the 180th Street Yard of the White Plains Road Line of the Railroad as described in the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company, known as Contract No. 3, the estimated cost of such work under said proposed contract being \$24,500, the necessity for such agreement being set forth in the report of the Acting Chief Engineer of this Commission dated July 9, 1923,

Resolved, That said proposed agreement be and the same hereby is approved and that it be transmitted to the Board of Estimate and Apportionment, together with a requisition for the appropriation of the estimated cost to the City of carrying out

[July 10, 1923]

said proposed contract and the consent of said Board thereto in the form now submitted by Counsel.

The requisition upon the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

July 10, 1923.

**BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK,**

Gentlemen:

The Transit Commission pursuant to the authority vested in it by Chapter 134 of the Laws of 1921 transmits herewith for the consent of your Honorable Board a proposed agreement between The City of New York, acting by the Transit Commission and Interborough Rapid Transit Company, to be entered into pursuant to the provisions of the Rapid Transit Act as amended by Chapter 625 of the Laws of 1917, for the installation of tracks and other miscellaneous work in the 180th Street Yard of the White Plains Road Line of the Railroad described in the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, together with a requisition upon your Honorable Board for the appropriation of the sum of Twenty-four thousand, Five hundred (\$24,500) Dollars, being the estimated cost to the City of carrying out said proposed agreement.

The Acting Chief Engineer of this Commission in a communication dated July 9, 1923 reports with respect to said proposed agreement as follows:

"This agreement provides for the removal of the present temporary inspection shed and the installation of two switchback tracks in place of two of the present temporary pit tracks, thereby providing suitable switching tracks and an adequate connection between the present operated tracks and the permanent inspection shed, which is now rapidly nearing completion. In view of the fact that the work to be performed under this agreement is on or about operated tracks, it is advisable that the work be done by the operating company. While the work contemplated will not complete the track work in the yard, it will cover the most difficult and hazardous portion, after the completion of which the remaining work can, if deemed advisable, be done by an outside contractor.

As improved facilities in the 180th Street Yard are urgently needed by the operating company and as the last meeting of the Board of Estimate and Apportionment before the summer recess, will be held on July 13th, it is very necessary that prompt action be taken to have this agreement approved.

Our approximate estimate of the cost of the work to be done under this agreement, exclusive of the materials which the city will furnish and the cost of equipment which will be provided by the operating company, is \$24,500."

Your Board is therefore requested to consent to said proposed agreement herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Twenty-four thousand, Five hundred (\$24,500) Dollars and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Twenty-four Thousand, Five hundred (\$24,500) Dollars.

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is a subrequisition under and not in addition to the requisitions heretofore made for the purposes of carrying out said Contract No. 3 and the appropriations made by your Honorable Board in consequence thereof.

TRANSIT COMMISSION,

By GEORGE McANENY,
Chairman.

916—R. T. 6407

Contract No. 3, Route No. 52—Communication from President of Interborough Rapid Transit Company Relating to Notice by Commission to Said Company of Determination to Construct the Flushing Extension as an Addition to the Queensboro Subway Rapid Transit Railroad, Contract No. 3, and Requesting Statement by Commission as to Effect of Company's Proposed Acquiescence in such Addition in Respect of Company's Deductions for Interest Upon Cost of Additional Equipment Required for Operation of Said Extension—Report by Counsel and Proposed Communication by Secretary Addressed to President of Interborough Rapid Transit Company—Approved

The Commission took under consideration a communication from the President of the Interborough Rapid Transit Company dated July 5, 1923, relating to the notice given by the Commission on March 13, 1923, of its determination to add the Flushing Extension, Route No. 52, to Queensboro Subway Rapid Transit Railroad of the Railroad described in Contract No. 3, said communication from the President of the Interborough Rapid Transit Company requesting a statement of the views of the Commission as to the effect of such acquiescence on the part of said Company in respect of the deductions to be made by it for interest upon cost of Additional Equipment required for operation of said extension.

The above mentioned communication was in the following form:

July 5, 1923.

TRANSIT COMMISSION,
49 Lafayette Street,
New York City.
Dear Sirs:

In the matter of your communication of March 13, 1923, notifying this Company of your determination to construct the so-called Flushing Extension, as I advised you in my letter of June 11, 1923, it is the desire of this Company to acquiesce in the Addition of such Extension, but before doing so we would like to know whether or not your Commission concurs in our views as to the effect of such acquiescence in respect of the deductions to be made by this Company for interest upon the cost of the Additional Equipment required. Article LXXII of Contract No. 3 provides that

"If the Lessee acquiesces in the Addition of such Extension it shall * * * maintain and operate it as a component part of the Railroad * * * in the same manner and to the same extent * * * as if such Extension were described in Chapter II of Part First of this Contract * * * paying the City rental therefor as provided in Articles XLIX and X."

If the Company acquiesces, the only provisions under which it can deduct interest upon the cost of the Additional Equipment necessitated because of the construction of the Extension, are subdivisions 7 and 8 of Article XLIX.

Subdivision 7 provides for a deduction of six per cent of the cost of Equipment of the Railroad for initial operation. The expression "Equipment for Initial Operation" is defined to mean the "Equipment provided for the initial operation of the Railroad costing twenty-two million (\$22,000,000) dollars * * *" (Subd. 15, Art. II).

The word "Additions" is defined to mean, among other things, "such Equipment as is provided for initial operation and which shall cost in excess of" \$22,000,000 (Subd. 16, Art. II). It is further provided in this same subdivision that "the expression 'Additional Equipment' shall be deemed to be synonymous with Additions when Additions is used in respect of Equipment of Existing Equipment." As the Company has already provided Equipment costing in excess of \$22,000,000, it is quite manifest that subdivision 7 of Article XLIX cannot apply.

Subdivision 8 of Article XLIX provides that when the Company "shall provide Additional Equipment (except Additional Equipment belonging to the Extension),"

[July 10, 1923

then the Company may retain an amount "equal to the annual interest payable by the Lessee," that is, actual interest, unless it does not borrow money for such purpose, in which case it retains interest at the average rate payable by it on its long term securities. Seemingly the parenthetical matter "(except Additional Equipment belonging to the Extension)" creates a doubt as to whether the Company, if it acquiesces in the addition of the Extension, is entitled to deduct interest upon the cost of the Additional Equipment under and as provided in this subdivision. If the Company does not acquiesce then under Article LXXII it is permitted to deduct actual interest upon the cost of the Equipment provided for the Extension, the language providing for such deduction being practically identical with that of subdivision 8 of Article XLIX. Surely it is neither the intent nor the spirit of the contract that the Company shall be entitled to less if it acquiesces.

It is the view of this Company that under the language of Article LXXII if the Company "acquiesces in the Addition of such Extension, it shall * * * maintain and operate it as a component part of the Railroad * * * in the same manner and to the same extent * * * as if such Extension were described in Chapter II of Part First of this contract," the new or added line does not become an Extension for the purposes of operation, but becomes part and parcel of the Railroad as though originally described in Chapter II of Part First of the contract, and that, consequently the Additional Equipment provided therefore is not Additional Equipment belonging to an Extension within the intent of the parenthetical matter of subdivision 8 of Article XLIX, but is Additional Equipment belonging to the Railroad, the same as Equipment provided for initial operation costing in excess of \$22,000,000. and is, therefore, subject to the deductions stipulated in subdivision 8 of Article XLIX.

Please advise me whether or not your Commission concurs in this view.

Yours very truly,

FRANK HEDLEY,

President and General Manager.

The Commission also took under consideration a report by Counsel dated July 10, 1923, recommending concurrence by the Commission in the views as expressed by the President of the Interborough Company in his communication, above presented, subject to the understanding that such views conform to the provisions of Article LXXII of Contract No. 3 and subject also to the understanding that the Commission deems the additional equipment to be used in the operation of said extension to be in the same category as Additional Equipment for the Railroad in addition to that necessary for initial operation irrespective of any financial limitation in Contract No. 3.

The above mentioned report by Counsel was thereupon approved in the following form:

July 10, 1923.

To: TRANSIT COMMISSION

Under date of March 13, 1923 the Transit Commission, pursuant to the provisions of Article LXXII of the contract dated March 19, 1913, between The City of New York and the Interborough Rapid Transit Company, known as Contract No. 3, notified said Interborough Rapid Transit Company as Lessee under said contract of the intention of the Commission to add the Flushing Extension to the Corona branch of the Queensboro Subway Line of the Railroad as described in said Contract No. 3, and requested said Lessee to notify the Commission within the prescribed contractual period as to whether it acquiesced in the addition of such extension.

The Lessee was required to inform the Commission in writing within three months after the receipt of such notice, but by action of the Commission taken on June 13, 1923, such time was extended by stipulation to and including July 14, 1923.

Counsel to the Commission has been in communication with Counsel to the company relative to the interpretation of various provisions of Contract No. 3 pertaining to the matter of Extensions and particularly the effect of the provisions of said contract in the event of acquiescence by the Lessee in the making of any Extension.

If the Lessee refuses to acquiesce in the making of any Extension, contractually there is set up a method of accounting wherein the Lessee is granted the right to actual

interest and sinking fund on the money invested in the Extension. On the other hand, reading Subdivision 8 of Article XLIX where it is provided,

"when the Lessee shall provide Additional Equipment (except Additional Equipment belonging to the Extension), then an amount to be retained by the Lessee equal to one-quarter of the actual interest * * * *"

there is created a doubt as to just what the actual deduction upon the money invested in Additional Equipment in an Extension, to which the company has acquiesced, should be. However, the whole contract and particularly the portions of it relative to Extensions indicates both in letter and spirit, the purpose of affording to the company a position if it acquiesces equally as good as, if not better, than if it refuses to acquiesce in the making of an Extension.

Article LXXII of the contract provides "If the Lessee acquiesces in the addition of such Extension it shall, upon the requirement of the Commission, forthwith equip such Extension and maintain and operate it as a component part of the Railroad or the Existing Railroads in the same manner and to the same extent, except for purposes of termination, as if such Extensions were described in Chapter II of Part First of this contract or as though it formed part of the Existing Railroads, paying the City rental therefor, as provided in Article XLIX and L."

I transmit herewith a letter dated July 5, 1923, addressed to the Commission by Frank Hedley, President and General Manager of Interborough Rapid Transit Company, wherein it is stated that if the company acquiesces in the Extension, "the new or added line does not become an Extension for the purpose of operation, but becomes part and parcel of the Railroad as though originally described in Chapter II of Part First of the contract, and that, consequently the Additional Equipment provided therefor is not Additional Equipment belong to an Extension within the intent of the parenthetical matter of subdivision 8 of Article XLIX, but is Additional Equipment belonging to the Railroad, the same as Equipment provided for initial operation costing in excess of \$22,000,000 and is, therefore, subject to the deductions stipulated in Subdivision 8 of Article XLIX.

In that conclusion I concur. The Auditor of Rapid Transit Costs in a communication dated June 22, 1923 has advised with respect to the subject of this letter, as follows:

"I have your memorandum of June 21st, transmitting a copy of memorandum submitted to you by Mr. Watson, Assistant Counsel of Interborough Rapid Transit Company, relative to the provision of Contract No. 3 in respect of the acquiescence or non-acquiescence of the Lessee under that contract in the making of the so-called Flushing Extension to the railroad.

IF THE LESSEE ACQUIESCES

..... 'If the Lessee acquiesces in the addition of such Extension, it shall, upon the requirement of the Commission, forthwith equip such Extension and maintain and operate it as a component part of the Railroad or the Existing Railroads in the same manner and to the same extent, except for purposes of termination, as if such Extension were described in Chapter II of Part First of this contract or as though it formed part of the Existing Railroads, paying the City rental therefor as provided in Articles XLIX and L.' (Article LXXII.)

IF THE LESSEE SHALL NOT ACQUIESCE

..... 'If the Lessee shall not acquiesce in the addition of such Extension, it shall nevertheless upon the direction of the Commission forthwith equip such Extension and Operate it as a component part of the Railroad or the Existing Railroads but upon the following basis, to wit:..... (The basis is given in detail in this article) (Article LXXII)

I agree with Mr. Watson's conclusions as to deductions from revenue. I think, however, that the conclusions arrived at by argument are self-evident from a reading of the contract, and that it is unnecessary to substitute Mr. Watson's paraphrase for the wording of the contract."

I accordingly recommend that the Commission concur in the views expressed in Mr. Hedley's letter as to the effect of the acquiescence by the Lessee under Contract No. 3 in the Flushing Extension and that a communication of such concurrence be transmitted in somewhat the following form:

[July 10. 1923]

FRANK HEDLEY, Esq., Pres. & Gen. Mgr.
Interborough Rapid Transit Company
165 Broadway
New York City.
Dear Sir:

The Commission is in receipt of your communication dated July 5, 1923, referring to a letter of this Commission dated March 13, 1923, notifying your company of the determination to construct the so-called Flushing Extension and requesting the contractual notice from your company as Lessee under Contract No. 3 as to whether it acquiesces or not, in the Extension referred to, and particularly has considered the views therein expressed as to the interpretation of the various provisions of Contract No. 3 pertaining to an acquiescence by your company in the addition of such Extension.

The Commission advises you that it concurs in such views with the understanding that it conforms to the provisions of Article LXXII of Contract No. 3 and particularly to the exception therein contained, that it does not apply for purposes of termination and with the further understanding that Additional Equipment for the Extension as used in your letter is understood to be in the same category as Additional Equipment for the Railroad in addition to that necessary for initial operation irrespective of any financial limitation in Contract No. 3.

WILLIAM G. FULLEN,
Assistant Counsel.
Approved: GEORGE O. REDINGTON,
Counsel.

The Commission thereupon approved the following communication to be transmitted by the Secretary to the Interborough Company:

July 10, 1923.

FRANK HEDLEY, Esq.,
President & General Manager
Interborough Rapid Transit Company,
165 Broadway, New York City.
Dear Sir:

The Commission is in receipt of your communication dated July 5, 1923, referring to a letter of this Commission dated March 13, 1923, notifying your company of the determination to construct the so-called Flushing Extension and requesting the contractual notice from your company as Lessee under Contract No. 3 as to whether it acquiesces or not, in the Extension referred to, and particularly has considered the views therein expressed as to the interpretation of the various provisions of Contract No. 3 pertaining to an acquiescence by your company in the addition of such Extension.

The Commission advises you that it concurs in such views with the understanding that such views conform to the provisions of Article LXXII of Contract No. 3 and particularly to the exception therein contained, in that your letter does not apply for purposes of termination. This Commission deems the Additional Equipment for the Extension as used in your letter to be in the same category as Additional Equipment for the Railroad in addition to that necessary for initial operation irrespective of any financial limitation in Contract No. 3.

Very truly yours,
JAMES B. WALKER,
Secretary.

Route No. 70-C—Resolution Extending Time to Board of Estimate and Apportionment for Consideration of Route and General Plan for Proposed Rapid Transit Railroad in the Borough of Brooklyn Known as Bedford Avenue, Fulton Street and Livingston Street Route—Approval Resolution

The following resolution was adopted:

Whereas, This Commission by resolution adopted May 15, 1923, adopted a route and general plan for a proposed rapid transit railroad in the Borough of Brooklyn in the City of New York, known as the Bedford Avenue, Fulton Street and Livingston Street Route, Route No. 70-C, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment for its consideration pursuant to the provisions of the Rapid Transit Act, which by the provisions of Section 5 thereof requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time expires on August 1, 1923; and

Whereas, The said route and general plan is now being considered by committees of the said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said committees,

Resolved, That the time within which a final vote shall be taken upon the said route and general plan by the Board of Estimate and Apportionment, in accordance with the provisions of the Rapid Transit Act, be and the same hereby is extended sixty (60) days from August 1, 1923.

919—R. T. 7591

Route No. 70-D—Resolution Extending Time to Board of Estimate and Apportionment for Consideration of Route and General Plan for Proposed Rapid Transit Railroad in the Borough of Brooklyn Known as Bedford Avenue-Brighton Beach Railway Connection—Approval Resolution

The following resolution was adopted:

Whereas, This Commission by resolution adopted May 15, 1923, adopted a route and general plan for a proposed rapid transit railroad in the Borough of Brooklyn in the City of New York, known as the Bedford Avenue-Brighton Beach Railway Connection, Route No. 70-D, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment for its consideration pursuant to the provisions of the Rapid Transit Act, which by the provisions of Section 5 thereof requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time expires on August 1, 1923; and

Whereas, The said route and general plan is now being considered by committees of the said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said committees,

Resolved, That the time within which a final vote shall be taken upon the said route and general plan by the Board of Estimate and Apportionment, in accordance

with the provisions of the Rapid Transit Act, be and the same hereby is extended sixty (60) days from August 1, 1923.

920—R. T. 7660

Route No. 78—Resolution Extending Time to Board of Estimate and Apportionment for Consideration of Route and General Plan for Proposed Rapid Transit Railroad in the Borough of Manhattan Known as Central Park West, Manhattan Avenue and St. Nicholas Avenue Route—Approval Resolution

The following resolution was adopted:

Whereas, This Commission by resolution adopted May 15, 1923, adopted a route and general plan for a proposed rapid transit railroad in the Borough of Manhattan in the City of New York, known as the Central Park West, Manhattan Avenue and St. Nicholas Avenue Route, Route No. 78, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment for its consideration pursuant to the provisions of the Rapid Transit Act, which by the provisions of Section 5 thereof requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time expires on August 1, 1923; and

Whereas, The said route and general plan is now being considered by committees of the said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said committees,

Resolved, That the time within which a final vote shall be taken upon the said route and general plan by the Board of Estimate and Apportionment in accordance with the provisions of the Rapid Transit Act, be and the same hereby is extended sixty (60) days from August 1st, 1923.

921—Case 2436

Railroad Corporations—Authorizations of Changes in Physical Property—Abrogating Order Adopted

The Secretary presented a report, dated June 28, 1923, by the Electrical Engineer of the Commission, approved by the Engineer of Equipment and Operation, advising that the work of the capitalization squad had been discontinued and stating that the reports of authorizations and authorities were not necessary to the work of the Bureau of Accounts and Valuations and recommending the rescission of the Filing Order in Case No. 2436.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2436, abrogating the Final Order therein adopted November 28, 1919.

922—Case 2682

The Long Island Railroad Company—Application of the City of New York for Determination as to Manner in which Two Bridges Carrying Main Drive in Forest Park Shall Be Altered or Changed—Communication from Company Advising that an Appeal had Been Taken—Referred to Counsel

The Secretary presented a communication, dated July 7, 1923, from C. L. Addison, Assistant to the President of The Long Island Railroad Company in reply to the Secretary's letter of July 6, 1923, advising that an appeal had been taken from the Commission's Order in Case No. 2682, requiring the alteration of two bridges in

Forest Park, Borough of Queens, over the tracks of The Long Island Railroad Company.

Thereupon the above mentioned communication was referred to Counsel to the Commission with directions to press the appeal to an early determination.

923

The Long Island Railroad Company—New Tariff Relative to Commutation Tickets—Report by Counsel—Report Approved and Tariff Filed

The Secretary presented a report, dated July 10, 1923, by George O. Redington, Counsel to the Commission, stating that the requirements in the new tariff filed by The Long Island Railroad Company as to the signature and establishment of identification of purchasers of commutation tickets were reasonable.

Thereupon the above mentioned report was approved and the tariff effective July 20, 1913 were ordered filed.

924—G. F. 1717

Proposed Metropolitan Transit Plan—Progress Report by Consulting Engineer Stating Result of Preliminary Studies and Surveys—Referred to Committee of Whole

A report by the Consulting Engineer dated March 22, 1923, with respect to the progress being made upon a proposed metropolitan transit plan to serve New York City and its environs, was presented and was referred to the Committee of the Whole.

925—R. T. 7230

Rapid Transit Railroads—Report by Chief Engineer Submitting List of Sub-Contractors Approved During Months of May and June, 1923—Filed

The following report by the Chief Engineer was ordered filed: July 7, 1923.

ROBERT RIDGWAY, Chief Engineer.
TRANSIT COMMISSION.

List of Sub-Contracts.

I submit, as follows, a list of sub-contracts, approved by this Department during the months of May and June.

Route No.	Section No.	Contractor	Sub-Contractor	Date of Approval	Materials
8	6-A-1	Frederick Cranford, Inc.	L. U. S. Cast Iron Pipe & Foundry Co.	5/ 3/23	Cast-iron water pipe and specials.
33 Sec. 3	Completion of Lawrence St. Station.	Frederick Cranford, Inc.	L. U. S. Cast Iron Pipe & Foundry Co.	5/ 3/23	Cast-iron water pipe and specials.
	Contract for special work & track fittings, Order No. 22.	Railway Switch & Crossing Corporation	Hansen & York (Agts. for the Pawtucket Bolt Co.)	5/28/23	Bolts and nuts, screws, spikes and lag screws.
			Eastern Malle- able Iron Co.	5/28/23	Main and guard rail braces and end inclines.
			Dilworth, Porter & Company.	5/28/23	Tie plates, type "A."

Route No.	Section No.	Contractor	Sub-Contractor	Date of Approval	Materials
8	6-A-1	Frederick Cranford, Inc.	L. Mitchell-Tappen Co.	6/ 9/23	Ventilation gratings, T. C. Inspected.
			Hydrex Asphalt products Corpn.	6/ 9/23	Asphalt treated burlap, T. C. Inspected.
52 Sec. 1	Column founda- tions.	Gustin - Morris Contracting Corporation	Hunterspoint Lbr. & Supply Co.	6/ 2/23	"Lehigh" Portland cement, sand and gravel, T. C. Inspected.
	Agreement "CC"—Changes in subway structure necessitated by widening of 60th St. bet. 2nd and 5th Aves.	Jacob Schlesinger, Inc.	Candee, Smith & Howland.	6/30/23	"Lehigh" Portland cement, T. C. Inspected.
	Second Addition to Shops, 148th St. and Lenox Ave. Yard.	Jacob Schlesinger, Inc.	Allison Steel Products Co.	6/25/23	Glass.
	Contract for supply of ties and timber, Order No. 8. Contract No. 1—168th St. Station.	Alfred R. Sax Lumber Co.	Long-Bell Lbr. Co.	6/ 9/23	Ties and timber.
		Holbrook Cabot & Rollins Corp.	Knickerbocker Slate Corp.	6/ 1/23	Furnishing and placing structural slate.
			Elizabeth Cornice Works, Inc.	6/ 2/23	Furnishing copper gutters and appurtenances.

ROBT. RIDGWAY,
Chief Engineer.

926—R. T. 7603, 6961

Route No. 52, Section No. 3—Communication from Special Deputy Police Commissioner Advising Proposed Restriction of Traffic Over Subway Decking on Amity Street Between Lawrence and Main Streets, Flushing, Would Receive Proper Police Attention—Filed

The Commission ordered filed a communication from John A. Harriss, Special Deputy Police Commissioner, dated July 5, 1923, advising that the proposed restriction of speed of traffic over subway decking on Amity Street, Flushing, between Lawrence Street and Main Street and the easterly limits of subway construction, to eight miles per hour, and that vehicles with or without loads weighing over ten tons be prohibited on such decking, as requested in the resolution of the Commission of July 3, 1923, would receive proper police attention.

927

Route No. 11-B, Section No. 2—Communication from Chief Engineer Stating Arrangements Had Been Made for Periodical Inspection of Condition of Gas Mains on Long Island Railroad Bridge at 65th Street, Brooklyn—Filed

A communication by the Chief Engineer dated July 3, 1923, stating that arrangements had been made among interested parties for periodical inspections of condition of gas mains on Long Island Railroad Bridge at 65th Street, Brooklyn, such inspections being advisable because of proximity of subway structure, was ordered filed.

928—Case 2679

Brooklyn Rapid Transit Company—Petition of Reorganization Committee of Stockholders for Approval of Reorganization Plan—Communication from President, New York Rapid Transit Company Relative to Court Direction Turning Over Property of New York Consolidated Railroad Company and New York Municipal Railway Corporation to New York Rapid Transit Corporation—Filed

The Secretary presented a communication dated June 29, 1923, from W. S. Menden, President, New York Rapid Transit Corporation, advising that pursuant to the direction in open court on June 14, 1923, of Hon. Julius M. Mayer, Judge of the United States District Court for the Southern District of New York, all of the railroad property formerly belonging to the New York Consolidated Railroad Company and the New York Municipal Railway Corporation or their receiver, were taken over by the New York Rapid Transit Corporation at 12 o'clock midnight between June 14 and June 15, 1923, and that from that time all subway and elevated lines formerly operated by said New York Consolidated Railroad Company and the New York Municipal Railway Corporation had been operated by the New York Rapid Transit Corporation.

Thereupon the above mentioned communication was ordered filed.

929—Case 2582

Manhattan Railway Company—Removal of 42nd Street Spur—Resolution of Board of Estimate and Apportionment Authorizing Removal and Fixing Areas of Assessment of Expense—Filed

The Secretary presented a communication dated July 6, 1923, from James Matthews, Assistant Secretary of the Board of Estimate and Apportionment, transmitting certified copy of resolution adopted by the Board on June 29, 1923, authorizing the removal of the 42nd Street Spur of the elevated railroad owned by the Manhattan Railway Company and fixing the areas of assessment of the expense thereof.

Thereupon the above mentioned papers were ordered filed.

930—Case 2684

The Long Island Railroad Company—Application of the City of New York for Determination of Manner in Which Cross Island Boulevard (Squire Street) Shall Cross Main Line of Railroad—Notice from Company Accepting Amended Order—Filed

The Secretary presented a notice dated July 5, 1923, from C. L. Addison, Assistant to the President of The Long Island Railroad Company, accepting the amended Order in Case No. 2684, adopted June 27, 1923, determining the manner in which Cross Island Boulevard (Squire Street) in the Borough of Queens, shall be carried across the tracks of the Main Line of the railroad.

Thereupon the above mentioned notice was ordered filed.

931—Case No. 2685

The Long Island Railroad Company—Application of the City of New York for Determination as to Manner in Which 211th Street (Bellaire Boulevard) Shall Cross Main Line of Railroad—Notice from Company Accepting Amended Order—Filed

The Secretary presented a notice dated July 5, 1923, from C. L. Addison, Assistant to the President of The Long Island Railroad Company, accepting the amended Order in Case No. 2685, adopted June 27, 1923, determining the manner in which 211th Street (Bellaire Boulevard) in the Borough of Queens, shall cross the tracks of the Main Line of the railroad.

Thereupon the above mentioned notice was ordered filed.

932

Staten Island Rapid Transit Company—New Tariff Showing Reduction in Freight Rates—Report by Assistant Chief of Transit Bureau—Filed

The Secretary presented a report dated July 6, 1923, from Frank Bennett, Assistant Chief of the Transit Bureau advising that the Staten Island Rapid Transit Company had filed a new tariff reducing freight rates on shipments of sulphate, flour, glycerine, etc., and recommending the filing of said tariff.

Thereupon the above mentioned papers were ordered filed.

933—R. T. 7529

Contract No. 4—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$3,240 for Making Changes in Smoke Flues on Stations of Culver and New Utrecht Avenue Lines—Filed

The following certified copy of a resolution adopted by the Board of Estimate and Apportionment on June 29, 1923, was ordered filed:

(Cal. No. 58)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated May 23, 1923, the Board of Estimate and Apportionment does hereby consent to an appropriation of corporate stock for installing, as addition to construction under Contract No. 4, the direct type of smoke flue at stations on the Culver Line and the New Utrecht portion of the Broadway-Fourth Line, described in said Contract No. 4, at a total estimated cost of five thousand four hundred dollars (\$5,400), to which is to be credited the cost of the material for the old flues, namely two thousand one hundred and sixty dollars (\$2,160), leaving an estimated cost to The City of New York of three thousand two hundred and forty dollars (\$3,240); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be three thousand two hundred and forty dollars (\$3,240); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of the City of New York to an amount not exceeding three thousand two hundred and forty dollars (\$3,240), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment. June 29, 1923.

JAMES MATTHEWS,
Assistant Secretary.

934—R. T. 6699

Contract No. 3—Notice by Chief Engineer of Completion of Work of Concreting Floor and Installing Floor Plates at Borough Hall Station—Filed

A notice by the Chief Engineer dated July 7, 1923, advising of the completion of work on July 2, 1923, of concreting floor and installing floor plates in connection with the escalator at the Borough Hall Station, was ordered filed.

935—R. T. 5006

Agreement "CI"—Notice by Acting Chief Engineer of Commencement of Work by P. J. Healey at Site of Westchester Yard Under Contract for Making Borings at Sites of Coney Island Yard, Westchester Yard, etc.—Filed

A notice by the Acting Chief Engineer dated June 9, 1923, advising of the commencement of work at the site of the Westchester Yard on June 23, 1923, by P. J. Healey, for making borings at sites of Coney Island Yard, Westchester Yard, etc., under Agreement "CI," was ordered filed.

936

Employees' Calendar No. 153

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—Anthony J. Donargo, draftsman, at \$150.08 per month, to take effect July 9, 1923; Maurice Friedlander, engineering inspector, at \$150.08 per month, to take effect July 5, 1923; Harry R. Gabriel, draftsman, at \$150.08 per month, to take effect July 6, 1923; William Harwetel, junior assistant, at \$125.08 per month, to take effect July 9, 1923; Louis S. Kirjassoff, draftsman, at \$150.08 per month, to take effect July 5, 1923; John L. McGowan, engineering inspector, at \$150.08 per month, to take effect July 5, 1923; Albert W. Scrivens, junior assistant, at \$125.08 per month, to take effect July 5, 1923; Walter Widstrand, junior assistant, at \$125.08 per month, to take effect July 9, 1923.

Appointments under Rule VIII:10—Edmond G. Bouyssou, junior clerk, at \$60.00 per month, to take effect July 5, 1923; Robert Gilbert, junior clerk, at \$60.00 per month, to take effect July 5, 1923.

Reinstatement under Rule XVI:1—Stephen Frankel, junior clerk, at \$60.00 per month, to take effect July 5, 1923.

Resignations.—W. H. Eberhardt, junior assistant, at \$125.08 per month, to take effect July 3, 1923; Elmer R. Hauck, engineering inspector, at \$150.08 per month, to take effect July 9, 1923; Anna Proetto, clerk, at \$66.66 per month, to take effect June 30, 1923.

Change of Item in Resolution of July 3, 1923, Concerning William D. Baer, so as to read as follows: (Resignation)—David W. Baer, accountant, at \$173.00 per month, to take effect June 27, 1923.

Leave of Absence With Pay.—A. J. Connolly, stenographer, from July 9, 1923 to July 11, 1923; Julia Mollahan, clerk, from May 25, 1923 to August 31, 1923; H. W. Weber, junior assistant, from May 17, 1923 to June 23, 1923.

937

Voucher Schedule No. 28

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

Vouchers Nos. 624, 633 and 642-711, open market orders, \$5,332.51; Vouchers Nos. 346-361 miscellaneous bills, \$1,739.09; Voucher No. 15, Special Payroll, \$1,100.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

- Voucher No. 167, Fox Reynolds Co., Inc., approximate estimate No. 1 for excavation and construction of a retaining wall at the Lenox Avenue Yard, Seventh Avenue, between 148th and 150th Streets, Borough of Manhattan, (R. T. 7642) \$14,830.20;
- Voucher No. 168, Otis Elevator Company; approximate estimate No. 1 for furnishing and installing two electric passenger elevators in the new entrance to the 168th Street station, Manhattan-Bronx Rapid Transit Railroad (R. T. 7623) \$4,029.75;
- Voucher No. 169, Michael DelBalso; approximate estimate No. 6, for the installation of tracks, including furnishing part of track materials and construction of drainage system, etc., Route No. 18, 239th Street Yard, (R. T. 7528) \$23,736.12;
- Voucher No. 170, Wagner Engineering Co., Inc., approximate estimate No. 6, for the Construction of direction signs at stations of Rapid Transit Railroad (R. T. 7482) \$1,087.21;
- Voucher No. 171, Frederick L. Cranford; approximate estimate No. 3 for construction of Section No. 6-A-1, of Route No. 8, (R. T. 7667) \$34,163.88;
- Voucher No. 172, Interborough Rapid Transit Company; Estimate No. 1 for the installation and change of construction of tracks between Jerome Avenue Yard and existing elevated line on Jerome Avenue (R. T. 7521) \$2,024.42;
- Voucher 173, Frederick L. Cranford, Inc., approximate estimate No. 12 for reconstruction of a part of Section No. 3 of Route No. 33,—completion of Lawrence St. station, (R. T. 6754) \$12,570.34;
- Voucher No. 174, New York Rapid Transit Corporation; approximate estimate No. 3 for lengthening platforms at Canal Street station (R. T. 7431) \$25,862.89;
- Voucher No. 175, Rosenthal Engineering Contracting Co. Inc., approximate estimate No. 10 for the construction of inspection shed enclosure for Route No. 18, 180th Street Yard (R. T. 7457) \$19,164.96;
- Voucher No. 176, Holbrook, Cabot & Rollins Corporation; approximate estimate No. 13 for the construction of a new entrance to the 168th St. station of the Manhattan-Bronx Rapid Transit Railroad (R. T. 6114) \$4,550.83;
- Voucher No. 177, Oakdale Contracting Co., Inc.; approximate estimate No. 2 for the construction of a part of Flushing Route, Section No. 3 of Route No. 52 (R. T. 7673) \$30,941.70;
- Voucher No. 178, Philip J. Healy; approximate estimate No. 1 for making test borings in proposed Coney Island Line; in the proposed Westchester Line, and along the proposed extension of the Broadway-Fourth Avenue line, Agreement "CI" (R. T. 5006) \$960.36;
- Voucher 179, Gustin-Morris Contracting Company; approximate estimate No. 3 for the construction of foundations, Route No. 52, Section No. 1, Flushing Route, (R. T. 7670) \$7,187.35;
- Voucher No. 180, Jacob Schlesinger, Inc.; approximate estimate No. 1, for making changes in subway structures necessitated by the widening of 60th Street between 2nd and 5th Avenues, Borough of Manhattan (R. T. 7639) \$2,398.95.

938

Upon motion, duly seconded and adopted, the meeting was adjourned to Friday, July 13, 1923.

939

Hearing

The following hearing was held:

3:00 P.M., Case 2695: Proposed reconstruction of 33rd Street Station from local to express stop, Lexington-Fourth Avenue Subway Line. Chairman McAneny and Commissioner Harkness presided. Hearing adjourned to July 12, 1923, at 11:00 A.M.

JAMES B. WALKER

Secretary.

Route No. 70-B—Resolution Extending Time to Board of Estimate and Apportionment for Consideration of Route and General Plan for Proposed Rapid Transit Railroad in the Borough of Brooklyn Known as Manhattan Avenue, Roebling Street and Bedford Avenue Route—Adopted

The following resolution was adopted:

Whereas, This Commission by resolution adopted May 15, 1923, adopted a route and general plan for a proposed rapid transit railroad in the Borough of Brooklyn in The City of New York, known as the Manhattan Avenue, Roebling Street and Bedford Avenue Route, Borough of Brooklyn, Route No. 70-B, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment for its consideration pursuant to the provisions of the Rapid Transit Act, which by the provisions of Section 5 thereof requires a vote to be taken on said route and general

plan by said Board within sixty days after it shall have been first received by said Board, which time expires on August 1, 1923; and

Whereas, The said route and general plan is now being considered by committees of the said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said committees,

Resolved, That the time within which a final vote shall be taken upon the said route and general plan by the Board of Estimate and Apportionment, in accordance with the provisions of the Rapid Transit Act, be and the same hereby is extended sixty (60) days from August 1, 1923.

943

Hearing

11:30 A. M.; Case No. 2691; The New York & Long Island Traction Company; Application for permission to file revised tariff showing termination of operation of Brooklyn-Mineola Line at the City Line; George F. Daggett, Chief of Transit Bureau, presided. Hearing closed.

 JAMES B. WALKER,
 Secretary.

Proceedings for Tuesday, July 17, 1923

Present: LeRoy T. Harkness, Acting Chairman; John F. O'Ryan, Commissioner; Frank N. Robinson, Acting Secretary.

The following matters were presented and action taken as noted.

945—R. T. 7681

Contract No. 3—Resolution Directing Public Hearing on Draft Form of Contract for Construction of Enclosures of Third Addition to Shops at Lenox Avenue and 148th Street Yard and Directing that Notice Be Advertised—Adopted

The following resolution was adopted:

Whereas, There is now submitted to this Commission a draft form of proposed contract for construction of enclosures of the Third Addition to Shops at the Lenox Avenue and 148th Street Yard (under Contract No. 3)

Resolved, That before finally fixing the terms and conditions of said proposed contract for construction of enclosures of the Third Addition to Shops at the Lenox

Avenue and 148th Street Yard (under Contract No. 3) a public hearing upon the proposed terms and conditions thereof shall be held on the 7th day of August, 1923, at the office of the Transit Commission at No. 49 Lafayette Street, Borough of Manhattan, New York City at 11:30 o'clock A. M., at which hearing citizens shall be entitled to appear and be heard and that notice of such hearing shall be published in the City Record every day of publication continuously from and including July 21, 1923 to and including August 7, 1923 and on July 24, 1923 and July 31, 1923 in The World and The Evening Post, daily newspapers published in the City of New York and that such notice shall state that copies of said draft of proposed contract may be obtained at the office of the Transit Commission on payment of the fee of One Dollar (\$1) for each copy.

946—R. T. 6334

Contract No. 1—Proposed Agreement With Interborough Rapid Transit Company for Reconstruction of Entrance to Dyckman Street Station—Approval Resolution—Requisition Upon Board of Estimate and Apportionment for Additional Appropriation of \$200 for City's Share

The following resolution was adopted:

Whereas, This Commission under date of April 23, 1922 transmitted to the Board of Estimate and Apportionment for its consent and the appropriation of the sum of \$1,200 to meet the obligations of the City thereunder a proposed agreement modifying Contract No. 1 dated February 21, 1900 for the construction, maintenance and operation of the Manhattan-Bronx Rapid Transit Railroad so as to provide for the re-construction of the Dyckman Street Station of said railroad as Extra Work under said Contract No. 1; and

Whereas, The Board of Estimate and Apportionment by resolution adopted May 11, 1923 appropriated the sum of \$600 being one-half the estimated cost of such work at the time and provided for the performance of such work as an Addition to Construction as defined in the contract dated March 19, 1913 known as Contract No. 3; and

Whereas, Interborough Rapid Transit Company has consented to perform such work as an Addition to Construction under said Contract No. 3 provided that in so doing it shall not create a precedent; and

Whereas, Counsel has prepared and submitted a proposed agreement which would effect the purposes of the resolution of the Board of Estimate and Apportionment adopted May 11, 1923 and provides for the performance of such work of reconstructing said Dyckman Street Station of the Manhattan-Bronx Rapid Transit Railroads of the Existing Railroads as defined in said Contract No. 3 as an Addition to Existing Railroads which classification was recommended by the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations by communication dated June 14, 1923 wherein they also recommend that Work Order No. ICcA-5 be assigned thereto; and

Whereas, By communication dated July 9, 1923 the Acting Chief Engineer of this Commission reports that the estimated cost of such work is now \$1,600, the City's share therefor being \$800;

Resolved, That the said proposed agreement be and the same hereby is approved; that said proposed agreement together with the requisition to the Board of Estimate and Apportionment for the consent of said Board thereto and the appropriation in the sum of \$200 in addition to the appropriation heretofore made by said Board for such work be and the same hereby are approved; that this Commission pursuant to the provisions of Article LXX and LXXI of Chapter IV of Part Third of said Contract No. 3 hereby orders Interborough Rapid Transit Company as Lessee under said Contract No. 3 to perform the work of reconstructing said entrance to the Dyckman Street Station as aforesaid, in accordance with the plan made part of said proposed agreement hereby approved, and to which this Commission assigns Work Order No. ICcA-5 and that said proposed agreement, together with a certified copy of this resolution and the requisition hereby approved be transmitted to said Board of Estimate and Apportionment.

[July 17, 1923]

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

July 17, 1923.

**BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.**

Gentlemen:

On May 11, 1923 your Honorable Board adopted the following resolution:

(Cal. No. 69)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated April 25, 1922, the Board of Estimate and Apportionment does hereby consent to and authorize an appropriation of six hundred dollars (\$600), to provide for the City's share of the cost of the reconstruction of the entrance to the Dyckman Street Station of the Manhattan-Bronx Rapid Transit Railroad as "Addition to construction" under Contract No. 3 (instead of an appropriation of twelve hundred dollars (\$1,200) for extra work under Contract No. 1, as requested by the Transit Commission); said sum of six hundred dollars (\$600) being one-half of the total estimated cost of twelve hundred dollars (\$1,200) for said work, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be six hundred dollars (\$600); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding six hundred dollars (\$600), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said "addition to construction" under Contract No. 3; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

Accordingly, the Transit Commission has prepared and transmits herewith a proposed agreement between The City of New York acting by the Transit Commission and Interborough Rapid Transit Company to be entered into pursuant to the provisions of Articles LXX and LXXI of Chapter IV of Part Third of the contract dated March 19, 1913 between The City of New York and said Interborough Rapid Transit Company known as Contract No. 3 to provide for the work of reconstructing the entrance to the Dyckman Street Station of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads as described in said Contract No. 3 as an Addition to Existing Railroads.

The estimated cost of the work under said proposed contract as reported by the Acting Chief Engineer of this Commission under date of July 9, 1923 is now \$1,600, one-half of which the City must bear, or \$800.

Your Honorable Board is requested therefore, to consent to the said proposed agreement herewith transmitted and requisition is made upon your Honorable Board for the appropriation of the sum of Two Hundred (\$200) Dollars in addition to that appropriated by the resolution of your Board adopted on May 11, 1923 as aforesaid, for the purposes of meeting the City's obligations under said proposed agreement, such sum to be appropriated from the same source as the appropriation made by your Board on May 11, 1923.

TRANSIT COMMISSION,
By LEROY T. HARKNESS,
Acting Chairman.

947—R. T. 7496

Order No. 7—Certificate by Acting Chief Engineer of Completion of Work Under Contract for Supply of Ties and Timber—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

July 10, 1923.

To TRANSIT COMMISSION:

Certificate of Completion; Ties and Timber (Order No. 7).

In connection with the contract dated May 9, 1922, between the City of New York and Alfred R. Sax Lumber Company for the supply of ties and timber, Order No. 7, I hereby certify that the delivery of material was completed on May 12, 1923. The total cost was \$94,851.00

The contract requires, pursuant to stipulation made part thereof, that all material be delivered by January 1, 1923. The Transit Commission by resolution of June 5, 1923, granted an extension of time to May 12, 1923. As all material was delivered within the contract time as extended, there are no liquidated damages to be assessed.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

SVERRE DAHM,
Acting Chief Engineer,
Transit Commission.

The following resolution was adopted:

Whereas, The contract dated May 9, 1922, between The City of New York, acting by the Transit Commission, and Alfred R. Sax Lumber Company for the supply of Ties and Timber (Order No. 7) for use in the construction of municipal rapid transit railroads, required the completion of all work hereunder on or before January 1, 1923, which time was extended to and including May 12, 1923, by resolution of the Transit Commission adopted on June 5, 1923; and

Whereas, The Acting Chief Engineer of this Commission, by communication dated July 10, 1923, has reported that all the work required under said contract was in all respects completed on or before May 12, 1923, that the total cost therefor was \$94,851 and recommends that the work so performed be accepted and a certificate of such completion and acceptance be prepared and transmitted to the Comptroller of the City of New York,

Resolved, That the said report and recommendation be and the same hereby is approved; that the work so performed under the contract aforesaid be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

948—R. T. 7368

Contract No. 3—Report by Acting Chief Engineer Recommending Approval of Supplementary Schedule Items for Pull Boxes and Panel Boxes Under Contract for Second Addition to Shops at Lenox Avenue and 148th Street Yard—Approval Resolution

A report was presented from the Acting Chief Engineer, dated July 10, 1923, recommending the establishment of supplementary schedule items as described below and the following resolution was adopted:

Whereas, The Acting Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated May 23, 1922, between the City of New York, acting by the Transit Commission, and Jacob Schlesinger, Inc., for the construction of the Second Addition to Shops, Lenox Avenue and 148th Street Yard, Contract No. 3, having, subject to the approval of the Commission, agreed with the said contractor on the following schedule items:

Item No. 797 (a) For furnishing and installing complete 6-inch by 6-inch by 6-inch cast iron pull boxes, the sum of Five and 10/100 Dollars (\$5.10) each,

- Item No. 797 (j) For furnishing and installing complete 18-inch by 36-inch by 6-inch cast iron pull boxes, the sum of Eighty-nine and 70/100 Dollars (\$89.70) each,
- Item No. 797 (j) For furnishing and installing complete 27-inch by 53-inch by 6-inch steel panel board boxes, the sum of Fifty-one and 75/100 Dollars (\$51.75) each,

Resolved, That such action on the part of the Acting Chief Engineer be and hereby is approved.

949—R. T. 7652

Route No. 45, Section No. 2—Application by Frederick L. Cranford, Inc., Second Lowest Bidder, for Return of Certified Check Deposited with Bid for Construction of Part of the Broad and Nassau Streets Line—Approval Resolution

An application was presented from Frederick L. Cranford, Inc., dated July 9, 1923, requesting the return of the certified check in the sum of \$75,000 deposited with the bid of the company on May 22, 1923, for the construction of Section No. 2 of Route No. 45, Broad and Nassau Streets Line.

The following resolution was adopted:

Whereas, Pursuant to public advertisement Frederick L. Cranford, Inc. filed with this Commission its proposal for the proposed contract for the construction of a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 45, Section No. 2, Broad and Nassau Streets (under Contract No. 4) and in compliance with the conditions of the Invitation for Proposals deposited its certified check in the sum of \$75,000 with this Commission simultaneously with the filing of said proposal; and

Whereas, Said Frederick L. Cranford, Inc., by communication dated July 9, 1923 has requested the return to it of its said check so deposited; and

Whereas, Counsel advises that the time has expired during which this Commission might legally retain any of the proposals made for said proposed contract.

Resolved, That the Secretary of this Commission be and hereby is authorized and directed to return to the said Frederick L. Cranford, Inc. its certified check in the sum of \$75,000 deposited with its proposal as aforesaid and to take proper receipt therefor.

950—R. T. 6361

Routes Nos. 4 & 36, Section No. 5—Proposed Agreement with New York Rapid Transit Corporation and Bloomingdale Bros., Inc., for Relocation of Sidewalk Beams at Southeast Corner of 60th Street and Lexington Avenue, Borough of Manhattan—Approval Resolution

A communication was presented from Counsel, dated July 12, 1923, submitting a proposed agreement between the Transit Commission, New York Rapid Transit Corporation and Bloomingdale Bros., Inc., providing for the relocation of sidewalk beams in the building at the southeast corner of 60th Street and Lexington Avenue, Borough of Manhattan, so as to accommodate the widening of the roadway at that point.

The following resolution was adopted:

Whereas, Counsel with his letter dated July 12, 1923, has submitted to this Commission a proposed form of agreement between The City of New York, acting by the Transit Commission, New York Rapid Transit Corporation and Bloomingdale Bros., Inc., for the relocation of sidewalk beams in building at the southeast corner of 60th Street and Lexington Avenue, Borough of Manhattan, City of New York, to accommodate widening of the roadway and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, The proposed agreement has been approved by the Chief Engineer,

Resolved, That said proposed agreement in the form so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and are hereby authorized to execute the same.

951—R. T. 6074, 6597

Contract No. 2—Communication from Interborough Rapid Transit Company Requesting Approval of a Proposed Agreement Modifying the Agreement for an Entrance from the Wall Street Station to the Empire Building so as to Provide for Installation of Automatic Turnstiles—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, by James L. Quackenbush, General Attorney, dated July 2, 1923, requesting approval of a proposed agreement modifying the agreement dated May 31, 1910, for an entrance from the Wall Street Station to the Empire Building at the southwest corner of Broadway and Rector Street, so as to permit the installation of automatic turnstile control.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated July 12, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Heretofore and on or about the 31st day of May, 1910, a predecessor of this Commission, the Public Service Commission for the First District, entered into an agreement with Frederick Potter and Clarence Kelsey as Trustees under a deed of trust executed by the heirs at law of Orlando B. Potter, deceased, Rapid Transit Subway Construction Company and Interborough Rapid Transit Company, providing for the construction, maintenance and operation of an entrance from the Wall Street Station of the Brooklyn-Manhattan Rapid Transit Railroad to the premises known as the Empire Building at the southwest corner of Broadway and Rector street in the Borough of Manhattan, City of New York; and

Whereas, By communication dated July 2, 1923, James L. Quackenbush, as General Attorney for Interborough Rapid Transit Company, has submitted for the approval of this Commission a proposed agreement dated June 19, 1923, modifying the agreement of May 31, 1910, aforesaid, so as to permit the said Interborough Rapid Transit Company to maintain and operate automatic turnstiles, station railings and controls in front of the entrance to the building aforesaid, as more particularly indicated upon the drawing attached to said proposed agreement of June 19, 1923; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have by communication dated July 12, 1923, recommended the approval of said proposed agreement; and

Whereas, Counsel has examined said proposed agreement and finds no objection thereto,

Resolved, That the said proposed agreement so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed agreement for and on behalf of this Commission.

952—R. T. 6761

Contract No. 3 and Extension Certificate—Application by Interborough Rapid Transit Company for Approval of Proposed Contract for Removal of Ashes and Rubbish—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated June 26, 1923, requesting approval of a proposed contract with the Bouker Contracting

Company for the removal of ashes and rubbish from power houses and storage yards for a period of one year.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated July 7, 1923, stating that the bids received by the company are satisfactory, and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Operating Expense.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3 and the provisions of the certificate dated March 19, 1913, granted to Interborough Rapid Transit Company for certain elevated extensions, said Interborough Rapid Transit Company has by communication dated June 26, 1923, submitted for the approval of this Commission a proposed contract to be entered into by it with Bouker Contracting Company for the removal of ashes and rubbish for a period of one year from the date thereof; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated July 7, 1923, reported that the following bids were received for such work:

Five bids were received in response to twenty invitations sent out:

Bidder.	Ashes.	Rubbish.
Bouker Contracting Co.....	24c per cubic yard	95c per cubic yard
O'Brien Bros., Inc.....	30c per cubic yard	\$1.40 per cubic yard
Moran Towing & Trans. Co.....	33c per cubic yard	1.60 per cubic yard
Fredk. Starr Contr. Co.....	34c per cubic yard	1.50 per cubic yard
Henry Steers, Inc.....	35c per cubic yard	1.75 per cubic yard

that Bouker Contracting Co. has done similar work for the Interborough Rapid Transit Company for many years and its services have been entirely satisfactory and recommends that the said proposed contract be approved; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated July 10, 1923, has recommended that the cost of carrying out said proposed contract be classified as operating expense,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed contract be and the same hereby is approved, provided, however, that any agreement entered into pursuant to the provisions of Article Fifteenth shall be before becoming operative submitted to this Commission for its approval and provided further that the cost of carrying out said contract by the Interborough Rapid Transit Company shall be charged to operating expense under said Contract No. 3 and said Extension Certificate.

953—R. T. 7007

Contract No. 3—Applications from Interborough Rapid Transit Company Requesting Approval of Two Proposed Purchasing Agent's Orders for Furnishing Dry Batteries for Emergency Door Opening Device on 982 Subway Cars—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work—Approval Resolutions

Two applications were presented from the Interborough Rapid Transit Company, dated June 27, 1923, requesting approval of proposed purchasing agent's orders directed

to the Manhattan Electrical Supply Company and the Western Electric Company for furnishing 2,500 dry batteries each, in connection with the installation of emergency door opening device on 982 low voltage subway cars at a total cost of \$7,750.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated July 10, 1923, recommending that the applications be approved.

A report was presented from the Auditor of Rapid Transit Costs and Chief of the Bureau of Accounting and Valuations, dated July 13, 1923, classifying the work as described below.

The following resolutions were adopted:

Whereas, By order adopted on the 15th day of December, 1920, the Transit Construction Commissioner, in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911, modifying the contract dated February 21, 1900, known as Contract No. 1, for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920, for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911, and by orders adopted coincidentally therewith modified the order of April 23, 1920, aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of The City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922, for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, By resolution adopted January 30, 1923, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated May 25, 1922, as modified by communication dated January 17, 1923, for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with the foregoing resolutions Interborough Rapid Transit Company has submitted, for the approval of this Commission, a proposed purchasing agent's order dated June 27, 1923, directed to Manhattan Electrical Supply Company for the following:

2,500 Batteries, comprising five 1½ volt dry cells, Red Seal Sparker No. 152.
 Price: \$1.55 each \$3,875.00
 Terms: 2% ten days. An additional 5% rebate will be allowed from the total amount of dollars and cents should we purchase 10,000 of these sparkers during the period of one year.
 Delivery requirements are as follows and must be strictly complied with:
 375 at once.
 250 first of each month thereafter.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 492"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 10, 1923, reported that the following bids were received for such material:

Manhattan Electrical Supply Company..	\$1.55 each—2%	\$3,875—2%
National Carbon Company.....	1.55 each	
Western Electric Company.....	1.55 each—2%	

; that the material is necessary and the prices are reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuation have, by communication dated July 13, 1923, recommended that the cost of purchasing such material be charged as hereinafter more particularly set forth,

Resolved, That said reports and recommendations be and the same hereby are approved and that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, provided, however, that the foregoing approval is upon the following conditions:

- (1) that the cost of the batteries required for original installation in the 982 subway cars be classified as Contract No. 1 Equipment in so far as cost is paid out of moneys provided under the Saratoga Award.
- (2) That the cost of the batteries in excess of those required for original installation in the 982 subway cars be charged to Operating Materials and Supplies Account.

Whereas, By order adopted on the 15th day of December, 1920, the Transit Construction Commissioner, in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911, modifying the contract dated February 21, 1900, known as Contract No. 1, for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920, for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911, and by orders adopted co-incidentally therewith modified the order of April 23, 1920, aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution, adopted August 2, 1921, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922, for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, By resolution, adopted January 30, 1923, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated May 25, 1922, as modified by communication, dated January 17, 1923, for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with the foregoing resolutions, Interborough Rapid Transit Company has submitted, for the approval of this Commission, a proposed purchasing agent's order, dated June 27, 1923, directed to Western Electric Company for the following:

2,500 Batteries, comprising five 1½ volt dry cells, "Hot Shot" No. 1562.
 Price, \$1.55 each..... \$3,875 00
 Terms, 2 per cent. ten days.

If at the end of twelve months from date of order, 10,000 or more No. 1562 batteries have been delivered and billed, an allowance of 5 per cent. will be made.

Delivery requirements are as follows and must be strictly complied with:

375 to be delivered at once.

250 to be delivered the first of each month thereafter.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 493"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication, dated July 10, 1923, reported that the following bids were received for such materials:

Western Electric Company.....\$1.55 each—2% \$3,875—2%
 National Carbon Company..... 1.55 each
 Manhattan Electrical Supply Co..... 1.55 each—2%

; that the material is necessary and the prices are reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication, dated July 13, 1923, recommended that the cost of purchasing such material be charged as hereinafter more particularly set forth,

Resolved, That said reports and recommendations be and the same hereby are approved and that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, provided, however, that the foregoing approval is upon the following conditions:

- (1) that the cost of the batteries required for original installation in the 982 subway cars be classified as Contract No. 1, Equipment in so far as cost is paid out of moneys provided under the Saratoga Award.
- (2) that the cost of the batteries in excess of those required for original installation in the 982 subway cars be charged to Operating Materials and Supplies Account.

954—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Insertion of Clause in Proposed Contract for Installation of Three Rotary Converters for Substation No. 27 with Respect to Final Payment for Work—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated July 6, 1923, requesting approval of the insertion of a clause in the proposed contract with the General Electric Company for the installation of three rotary converters for Substation No. 27 with respect to the final payment for units of the work.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated July 12, 1923, stating that the clause is satisfactory from an engineering standpoint.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract, dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, this Commission by resolution adopted April 18, 1923, approved a proposed contract to be entered into by said Interborough Rapid Transit Company with General Electric Company for the manufacture, delivery and installation complete, of three 2000 K. W. rotary converters with their transformers and switchboard panels for Substation No. 27 of the Railroad described in said Contract No. 3 as a part of Equipment of the Railroad as defined in said Contract No. 3; and

Whereas, By communication, dated July 6, 1923, said Interborough Rapid Transit Company has requested the approval of this Commission to the insertion in said proposed contract approved as aforesaid on April 18, 1923, of the following paragraphs:

"It is understood and agreed that such 10 per cent. shall become due and payable ninety days from the complete erection ready for operation of the unit, if final acceptance is delayed for such length of time through no fault of the contractor."

; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission by communication, dated July 12, 1923, had reported that the insertion of said proposed clause is satisfactory from an engineering standpoint; and

Whereas, Counsel has reported that there is no objection to the insertion of said proposed clause in said contract approved as aforesaid,

Resolved, That said application of Interborough Rapid Transit Company for the inclusion of said clause as hereinbefore set forth in the contract approved on April 18, 1923, as aforesaid, be and the same hereby is approved.

955—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Apparatus for Kings Highway and Richmond Hill Substations—Report by Engineer of Equipment and Operation and Chief Engineer, Endorsed by Auditor of Rapid Transit Costs Classifying Work and Assigning Work Order Nos. MCA-25 and MEA-6 Respectively—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated June 21, 1923, requesting approval to the issuance of a purchasing agent's order directed to the General Electric Company for apparatus, as described below, for the Kings Highway and Richmond Hill Substations, at a total cost of \$60,000.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated July 7, 1923, recommending that the application be approved, which report was endorsed, under date of July 10, 1923, by the Auditor of R. T. Costs, classifying the work as Additions to Existing Railroads, under Work Order No. MCA-25, and Additions to Elevated Extensions under Work Order No. MEA-6, respectively.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation known as Contract No. 4, and pursuant to provisions of the certificate dated March 19, 1913, granting to the said New York Municipal Railway Corporation for certain elevated extensions, New York Rapid Transit Corporation as successor to the rights and obligations under said Contract No. 4 and said certificate has, by communication dated June 21, 1923, submitted for the approval of this Commission a proposed purchasing agent's order dated June 21, 1923, directed to General Electric Company for the following:

Supply all labor and material required to furnish and deliver, in accordance with the attached specifications, dated March 9, 1923, and your proposals dated April 5th and 12th, 1923, the following apparatus:

- 2 2000 K. W. 575 Volt, D. C. 6-Phase, 25 Cycle, Commutating Pole, Shunt Wound Rotary Converters
- 2 2000 K. V. A. 3-Phase, 25 Cycle, A. B. Transformers
- 2 5000 Amp. 650 Volt D. C. Rotary Control Panels
- 2 1000-3000 Amp. 440 Volt A. C. Starting Panels
- 2 5000 Amp. Pedestal Switches

All for the sum of \$60,000.00, F. O. B. Brooklyn.

One of each of the above items required for Kings Highway Sub-Station, No. 2026 Coney Island Avenue, and one each for Richmond Hill Sub-Station, No. 8649 Beach street.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 351"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated July 7, 1923, reported that the following bids were received for such material:

General Electric Company.....	\$60,000
Westinghouse Electric & Mfg. Co.....	61,670

that the specifications covering the machines and accessories are satisfactory from an engineering standpoint and recommend that said proposed purchasing agent's order be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated July 10, 1923, has recommended that the rotary converter and accessories for Kings Highway Substation be classified as Additions to Existing Railroads under Work Order No. MCA-25 heretofore assigned by this Commission and that the rotary converter and accessories for Richmond Hill Substation be classified as Additions to Elevated Extensions under Work Order No. MEA-6 heretofore assigned by this Commission,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the rotary converter and accessories for Kings Highway Substation to be classified as Additions to Existing Railroads under Work Order No. MCA-25 heretofore assigned by this Commission and that the rotary converter and accessories for Richmond Hill Substation shall be classified as Additions to Elevated Extensions under Work Order No. MEA-6 heretofore assigned.

956—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent Order for Apparatus for Hudson Substation—Report by Engineer of Equipment and Operation and Chief Engineer, Endorsed by Auditor of Rapid Transit Costs Classifying Work and Assigning Work Order No. MCA-24, Recommending Approval—Approval Resolution

An application was presented from New York Rapid Transit Corporation, dated June 21, 1923, requesting approval to the issuance of a purchasing agent's order directed to the Westinghouse Electric & Manufacturing Company for apparatus, as described below, for the Hudson Substation, at a total cost of \$50,460.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated July 7, 1923, recommending that the application be approved, which report was endorsed, under date of July 10, 1923, by the Auditor of Rapid Transit Costs, classifying the work as Additions to Existing Railroads, and assigning Work Order No. MCA-24.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has submitted to this Commission for approval a proposed purchasing agent's order dated June 21, 1923, directed to Westinghouse Electric & Manufacturing Co., for the following:

Supply all labor and material required to furnish and deliver, in accordance with the attached specifications, dated March 9, 1923, and your proposal of April 5th, 1923, the following apparatus:

- 1 4000 K. W. 575 Volt, D. C., 6-phase, 25 cycle, Commutating Pole, Shunt Wound, Rotary Converter
- 1 4000 K. V. A. 3-Phase, 25 Cycle, A. B. Transformer
- 1 10,000 Amp. 650 Volt D. C. Rotary Converter Control Panel
- 1 1500-5000 Amp. 440 Volt A. C. Starting Panel
- 1 10,000 Amp. 600 Volt, D. C. Pedestal Switch

All for the sum of \$50,460.00, F. O. B. Brooklyn.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 352"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated July 7, 1923, reported that the following bids were received for such work:

Westinghouse Electric & Mfg. Co.....	\$50,460
General Electric Co.	51,500

that the award is to the low bidder; that the prices are reasonable; that the specifications are satisfactory from an engineering standpoint and recommend that the said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated July 10, 1923, has recommended that the cost of such material be classified as Additions to Existing Railroads under Work Order No. MCA-24 heretofore assigned by this Commission,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval made part of said proposed purchasing agent's order, the cost of the material under said proposed purchasing agent's order so approved to be classified as Additions to Existing Railroads under Work Order No. MCA-24 heretofore assigned by this Commission.

957—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Motor Driven Ventilating Fans and Transformers—Report by Engineer of Equipment and Operation and Chief Engineer, Endorsed by Auditor of Rapid Transit Costs Classifying Work, Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated June 15, 1923, requesting approval of the issuance of a purchasing agent's order directed to the Buffalo Forge Company for thirty-three motor driven ventilating fans and transformers for installation in toilet rooms of the 14th Street-Eastern Line at a cost of \$3,168.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated July 10, 1923, recommending that the application be approved, which report was endorsed, under date of July 12, 1923, by the Auditor of Rapid Transit Costs, classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has, by communication dated June 16, 1923, submitted for the approval of this Commission proposed purchasing agent's order dated June 15, 1923 directed to the Buffalo Forge Company for the following:

33 Motor Driven Ventilator Fans with Transformers, each equipment to consist of the following: \$96.00 per Equipment, F. O. B., Buffalo.

One No. 3 Baby Conoidal Fan as illustrated on page 20 of your bulletin 490. One $\frac{1}{8}$ H. P. 110 Volt, Single Phase, 25 Cycle, 2 Pole, 1440 r.p.m. Induction Motor, type "CA," as manufactured by the W. E. & M. Co. with ring oil bearings and with stator wound with specially impregnated cotton covered enameled wire. The motor and shaft shall have the same dimensions as those furnished the N. Y. M. Ry. Corp. on order No. 15083, Dec. 19, 1917 and to be interchangeable therewith. One single phase, 25 cycle voltage transformer dry type, high tension side to be arranged for 575 volts, low tension side for 115 volts, as manufactured by the Westinghouse Electric & Mfg. Co., similar to transformer No. S-10352 and the exact duplicate of those furnished on our order No. 15083.

Price includes assembly of motors but does not include any assembly of transformers.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 349"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 10, 1923, reported that the following bids were received for such material:

Buffalo Forge Co.	\$96.00 each—\$3,168.00
American Blower Co.—	
Westinghouse Motors	117.00 "
General Electric	97.50 "
B. F. Sturtevant Company	125.40 "
General Electric Company	Could not quote
Western Electric Company	" " "
Westinghouse Electric & Mfg.	Could not quote on complete equipment

; that the fans are to be used in the toilet rooms of the 14th Street-Eastern Line of the Railroad described in Contract No. 4; that the fans are standard part of subway equipment; that the price is reasonable and the best obtainable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs has, by endorsement dated July 12, 1923, recommended that the cost of such material be classified as Equipment of the Railroad.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

958—R. T. 6481

Contract No. 4—Communication from New York Rapid Transit Corporation Advising of Revision in Price for Car Brake Shoes for Third Quarter of Year 1923—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

A communication dated June 30, 1923, from New York Rapid Transit Corporation, advising of a revised price of \$65.00 per net ton for the price of brake shoes for the third quarter of 1923, under the contract with the American Brake Shoe and Foundry Company, was presented.

A report by the Engineer of Equipment and Operation and the Chief Engineer dated July 7, 1923, advising that the revised price is the same as the last quarter's price, and recommending that the revised price be approved, was also presented.

The following resolution was adopted:

Whereas, This Commission, by resolution adopted on November 9, 1921, as amended by resolution adopted on November 22, 1921, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation consented to a proposed contract to be entered into between The Receiver of the New York Consolidated Railroad Company (assignee of New York Municipal Railway Corporation of the maintenance and operating provisions of said Contract No. 4) with American Brake Shoe and Foundry Company for the purchase of car brake shoes in connection with the operation of the Railroad and Existing Railroads under said Contract No. 4 "the price of said shoes varying," provisions being made in said proposed contract for revising the prices on the first day of January, April, July and October, the revised price to prevail for the succeeding three months, which resolution further provides that each new price fixed in accordance with the provisions of said proposed contract shall be submitted to this Commission for approval; and

Whereas, By communication dated June 30, 1923 New York Rapid Transit Corporation, as successor to all the rights and obligations under said Contract No. 4, has

requested the approval of this Commission to a price of \$65 per net ton, F. O. B., Mahwah, N. J., to be paid in the third quarter of 1923; and

Whereas, By communication dated July 7, 1923 the Engineer of Equipment and Operation and the Chief Engineer of this Commission, have reported that the said price of \$65 per ton for the third quarter of the year 1923 is reasonable, in view of the present material and labor costs and recommend that said be approved; and

Whereas, The Auditor of Rapid Transit Costs, by communication dated July 10, 1923, has recommended that the cost of such material be classified as Operating Materials and Supplies,

Resolved, That the fixation of \$65 per net ton, F. O. B., Mahwah, N. J., as of July 1, 1923, for the supply of car brake shoes under said contract with American Brake Shoe & Foundry Company, approved as aforesaid, to prevail during the third quarter of the year 1923, be and the same hereby is approved.

959—R. T. 6695, 6645

Fulton Street Elevated Line—Application by New York Rapid Transit Corporation for Approval of Installation of Additional Signal West of Hinsdale Street Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order No. MCA-26—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated May 25, 1923, requesting approval to the installation of an additional signal on the eastbound local track, west of the Hinsdale Street Station of the Fulton Street Elevated Line, at an estimated cost of \$1,800.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated July 7, 1923, stating that the plans are satisfactory; that the cost is reasonable and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations classifying the work as Additions to Existing Railroads and assigning Work Order No. MCA-26.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has, by communication dated May 25, 1923, requested the approval of this Commission to the installation of an additional signal on the eastbound local track at a point approximately 300 feet west of the Hinsdale Street Station of the Fulton Street Elevated Line of the Existing Railroads as described in said Contract No. 4, at an estimated cost of approximately \$1,800; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated July 7, 1923, reported that said proposed additional signal is to increase the capacity of this track at this point and is considered desirable; that the estimated cost is reasonable; that the plans submitted, showing said proposed additional signal, are satisfactory and recommend that said proposal be approved; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have recommended, with respect to said proposal, as follows:

- (1) That the cost of alterations, removal and relocation of existing equipment be charged to maintenance.
- (2) That the cost of the proposed installation, in so far as it is a betterment, be classified as Additions to Existing Railroads and that Work Order Number MCA-26 be assigned thereto.

Resolved, That said reports and recommendations be and the same hereby are approved; that the proposal of said New York Rapid Transit Corporation so submitted be and the same hereby is approved, upon condition (1) that the cost of alterations, removal and relocation of existing equipment shall be charged to Maintenance under said Contract No. 4; and (2) that the cost of the proposed installation, in so far as it is a betterment, shall be classified as Additions to Existing Railroads and as to which this Commission assigns Work Order No. MCA-26.

960—R. T. 6695

Contract No. 4—Application by New York Rapid Transit Company for Approval of Special Train Order Signal at South End of Prince Street Station of Broadway-Fourth Avenue Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs Classifying Work and Assigning Work Order No. MBA-24—Approval Resolution

An application was presented from the New York Rapid Transit Company dated June 25, 1923, requesting approval to the installation of a special train order signal at the south end of the Prince Street Station of the Broadway-Fourth Avenue Line, at an estimated cost of \$200.

A report was presented from the Engineer of Equipment and Operation and the City Engineer dated July 7, 1923, stating that the proposed apparatus is satisfactory and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs dated July 10, 1923, classifying the work as Additional Equipment for the Railroad and assigning Work Order No. MBA-24.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has requested the approval of this Commission to the installation of a special train order signal at the south end of the Prince Street Station of the Broadway-Fourth Avenue Line of the railroad described in said Contract No. 4, at an estimated cost of \$200; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated July 7, 1923, reported that said train order signal is to be located at the south end of the Prince Street Station in the east-bound direction, for the convenience of the dispatcher when it is desired to divert trains from the local to the express tracks; that the signal is considered desirable; that the estimated cost is reasonable, and recommend that the said proposal be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated July 10, 1923, has recommended that the cost of installing such signal be classified as Additional Equipment for the Railroad and that Work Order No. MBA-24 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the proposal of New York Rapid Transit Corporation aforesaid to install such signal be and the same hereby is approved, such work to be classified as Additional Equipment for the Railroad and as to which this Commission assigns Work Order No. MBA-24.

961—R. T. 6695

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Changes in Signals Between Canal Street Station, Lower Level, and Prince Street Crossing of Broadway-Fourth Avenue Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Recommending Work Be Charged to Maintenance—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated June 16, 1923, requesting approval to the making of certain signal changes between Broadway Station on the Canal Street portion of the Broadway-Fourth Avenue Line on the Westbound side and the Prince Street crossing of the Broadway portion of the Broadway-Fourth Avenue Line, at an estimated cost of \$1,050.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated July 7, 1923, stating that the proposed changes are satisfactory and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations dated July 10, 1923, recommending that the work be charged to Maintenance.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation as successor to all the rights and obligations under said Contract No. 4 has by communication dated June 16, 1923, requested the approval of this Commission to the making of certain signal changes between Broadway station on the Canal Street portion of the Broadway-Fourth Avenue Line on the Westbound side and the Prince street crossing of the Broadway portion of the Broadway-Fourth Avenue Line; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated July 7, 1923, reported that the estimated cost of such work is \$1,050; that such changes so proposed are necessary because of the intention to operate seven and eight car trains past the Broadway station instead of six car trains as at present; that the estimated cost is reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuation have reported and recommended with respect thereto as follows:

(1) That the Company account for the salvage, including the cost of removing of all facilities removed, the net final amount to be withdrawn from or paid into (as the case may be) the Depreciation Fund for the Railroad and Equipment; and that an amount equal to the original cost of the facilities retired be held available for replacements, in the Depreciation Fund for the Railroad and Equipment.

(2) That the cost of alterations, changes and relocation of signal apparatus, accessories, wires and cables be charged to maintenance.

Resolved, That said reports and recommendations be and the same hereby are approved and that said proposal so submitted be and the same hereby is approved upon the condition:

(1) That the Company account for the salvage, including the cost of removing of all facilities removed, the net final amount to be withdrawn from or paid into (as the case may be) the Depreciation Fund for the Railroad and Equipment; and that an amount equal to the original

cost of the facilities retired be held available for replacements, in the Depreciation Fund for the Railroad and Equipment.

(2) That the cost of alterations, changes and relocation of signal apparatus, accessories, wires and cables be charged to maintenance.

962—R. T. 7682

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Relocation of Handrail and Additional Footwalk on 38th Street Line of Broadway-Fourth Avenue Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of the Bureau of Accounting and Valuations Recommending Work Be Charged to Maintenance—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated June 8, 1923, requesting approval to the performance of the work of relocating a portion of handrailing and installing certain additional footwalk planking on Track No. 1-Y west of the Ninth Avenue station of Subdivision VIII of the Broadway-Fourth Avenue Line, at an estimated cost of \$300.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated July 7, 1923, stating that the proposed changes are satisfactory and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations dated July 10, 1923, recommending that the work be charged to Maintenance.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation known as Contract No. 4, the Receiver of said New York Municipal Railway Corporation by communication dated June 8, 1923, requested the approval of this Commission to the performance of the work of relocating a portion of handrailing and installing certain additional footwalk planking on Track No. 1-Y west of the Ninth Avenue Station of Subdivision VIII of the Broadway-Fourth Avenue Line as described in said Contract No. 4; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated July 7, 1923, reported that at the particular location in question the track is curved and on account of the overhang of the wide car bodies on such curve the present footwalk is not wide enough to provide a safe refuge for employees and others alongside the track; that approximately 100 linear feet of footwalk is to be altered; that the estimated cost is approximately \$300; that such work is necessary and recommend that said proposal be approved; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have reported with respect to such application and recommended that such work be charged to Maintenance,

Resolved, That said reports and recommendations be and the same hereby are approved; that the application of the Receiver as aforesaid, be and the same hereby is approved: that the cost of such work shall be charged to Maintenance under said Contract No. 4.

963—R. T. 7177

Routes Nos. 36 & 37—Certified Copy of Resolution of Board of Estimate and Apportionment Requesting that Commission Modify Design of Proposed Corona Storage Yard so as to Permit an Amendment to the Street Plan—Referred to Chief Engineer

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 29, 1923, was referred to the Chief Engineer:

(Cal. No. 197)

Whereas, The Transit Commission, under date of April 25, 1923, has made requisition upon the Board of Estimate and Apportionment for the consent of this Board to the purchase of such personal property constituting the fill on the city-owned site comprising the Corona Yard of the Queensboro Rapid Transit Railroad, from the owner of such, to wit, the Queens Subway Apartment and Loft Building Corporation, at the sum of thirty cents per cubic yard or, upon the estimated quantity of 250,000 cubic yards, a total expenditure of \$75,000; and has requested an appropriation of \$75,000 for said purpose; be it

Resolved, That the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, hereby advises the Transit Commission that this Board will give favorable consideration to a proposition providing for the purchase of that portion of the stored material which is actually required for the construction of the Corona Yard up to a maximum of 250,000 cubic yards measured in place at a price not to exceed 10 cents per cubic yard, provided such offer is accepted by the owners of said material before July 13, 1923, and that in case the present owners are not prepared to accept payment on these terms, the Transit Commission immediately notify them to remove from the City property within the time limit fixed by the court such portion of the fill as, under the terms of the court decree, belongs to them; and be it further

Resolved, That the Transit Commission be and hereby is requested to modify the design of the proposed yard so as to permit of the amendment of the street plan to provide a marginal street across the easterly end of the proposed yard and across the Long Island R. R., about midway between Peartree avenue and Lawrence street, in such a way that the storage capacity of the yard will be only slightly curtailed.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 29, 1923.

JAMES MATTHEWS,
Assistant Secretary.

964—R. T. 6481

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Contract and Purchasing Agent's Orders for Fifty New Steel Trailer Cars and Equipment—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order No. MBA-25—Approval Resolutions

An application was presented from the New York Rapid Transit Corporation, dated June 28, 1923, requesting approval of a proposed contract and seven purchasing agent's orders for portions of equipment for fifty new steel trailer cars at an approximate cost of \$1,077,829.00.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated July 14, 1923, stating that the prices are reasonable and the best obtainable and recommending that the proposed contract and purchasing agent's orders be approved.

A report was presented from the Auditor of Rapid Transit Costs and Chief of the Bureau of Accounting and Valuations, dated July 17, 1923, classifying the work as Additional Equipment of the Railroad and assigning Work Order No. MBA-25 thereto.

The following resolutions were adopted:

Whereas, In compliance with the provisions of the Final Order in Case No. 2628, Service Order "B," New York Rapid Transit Corporation as successor to the rights and obligations under and pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and the New York Municipal Railway Corporation, known as Contract No. 4

has submitted for the approval of this Commission a proposed contract to be entered into with Pressed Steel Car Company for the manufacture and delivery of bodies and trucks for fifty (50) steel passenger cars, Series 4000-4049, together with the plans and specifications therefor; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have by communication dated July 14, 1923, reported that the following bids were received for such units:

	Bodies (each)	Trucks (pair)	Total (per car)
Pressed Steel Car Co.....	\$14,596	\$2,943	\$17,529
American Car and Foundry Co.....	16,178	3,125	19,303
Standard Steel Car Co.....	15,875	3,025	18,900
Pullman Co.	16,350	3,690	20,040
Baldwin Locomotive Works (trucks only)	3,382

that the proposed contract is with the low bidder; that the prices therefor are reasonable and the best obtainable; that the proposed form of contract and specifications are satisfactory and recommend the approval of said proposed contract as so submitted; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have by communication dated July 17, 1923, recommended that the said bodies and trucks be classified as Additional Equipment of the Railroad and that Work Order No. MBA-25 be assigned thereto,

Resolved, That said reports and recommendations be and the same are hereby approved; that the said proposed contract be and the same hereby is approved, such units to be classified as Additional Equipment of the Railroad as defined in said Contract No. 4 and as to which this Commission assigns Work Order No. MBA-25, provided, however, that said contract shall before execution and delivery thereof be modified in the following respect:

- Page 18, item 13, line 8:
Change "top side of plate" to "...top of side plate."
- Page 22, item 19, line 4:
Change "secured"... to "securely"...
- Page 22, item 19, line 29:
Change "ar" .. to "at"...
- Page 40, item 6 (d), line 5:
Change "bond"... to "bend"...
- Page 46, item 17-1 (a), line 4:
Change "Receiver" to "Company."

Whereas, In compliance with the order of this Commission in Case No. 2628, Service Order "B." New York Rapid Transit Corporation, as successor to the rights and obligation under and pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Rapid Transit Corporation, known as Contract No. 4, has submitted for the approval of this Commission a proposed purchasing agent's order dated June 19, 1923, directed to Consolidated Car Heating Company for the following:

- 50 Car Equipments of Electro Pneumatic Door Operating Devices, same as furnished on N. Y. M. Ry. Corpn. P. A. Order No. 20081, except that engines shall have new by-pass valves in the racks instead of being in the main cylinder casting and push button control box shall include change in design of Key Switch to increase key bearing surface and box cover shall be flush with the end of buttons.

\$1,400.00 per car equipment, F. O. B. Albany with freight allowed to Car Builders Works.

Each equipment shall consist of the following:

- 14 Door Engines Comp. w/strainers.
- 14 Door Slides.
- 8 Sets Double Magnetic Air Valve w/Strainers.
- 6 Three-Way Cocks.
- 14 Cut-Out Cocks.

- 2 10-Button, Push Button Boxes.
- 4 2-button, Push Button Switches.
- 2 Side Door Emergency Opening Devices.
- 2 End Door Emergency Opening Devices.
- 14 Interlock Contact Sets.

and any other material necessary to make a complete car equipment.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 354"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 14, 1923, reported that such equipment is necessary for the 50 new steel trailer cars, the contract for which is approved coincidentally herewith and as ordered aforesaid; that the following bids were received for such material:

Consolidated Car Heating Co.	\$1,400 per car
National Pneumatic Co.	1,510 per car

; that the prices are the best obtainable and are reasonable and that said Consolidated Car Heating Company is reliable and competent to provide such material, and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 17, 1923, recommended that the cost of such material (as constituting a part of the 50 trailer cars, Series 4000-4049) be classified as Additional Equipment for the Railroad and that Work Order No. MBA-25 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified as Additional Equipment of the Railroad and as to which (as constituting a part of the 50 trailer cars, Series 4000-4049) this Commission assigns Work Order No. MBA-25.

Whereas, In compliance with the order of this Commission in Case No. 2628, Service Order "B," New York Rapid Transit Corporation, as successor to the rights and obligation under and pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Rapid Transit Corporation, known as Contract No. 4, has submitted for the approval of this Commission a proposed purchasing agent's order dated June 19, 1923, directed to Westinghouse Traction Brake Co. for the following:

50 Car Sets, Westinghouse Traction Brake Co.'s Automatic Car and Air Coupler Complete with Draw Bar and Draft Gear. \$810 per Car Set, F. O. B. Your Factory. Each set consisting of parts as per list attached.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 355"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 14, 1923, reported that such equipment is necessary for the 50 new steel trailer cars, the contract for which is approved coincidentally herewith and as ordered aforesaid; that the following bid was received for such material:

Westinghouse Traction Brake Co.	\$810 per car
--------------------------------------	---------------

; that the price is the best obtainable and is reasonable and that said Westinghouse Traction Brake Co. is reliable and competent to provide such material, and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 17, 1923, recommended that the cost of such material (as constituting a part of the 50 trailer cars, Series 4000-4049) be classified as Additional Equipment for the Railroad and that Work Order No. MBA-25 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified as Additional

Equipment of the Railroad and as to which (as constituting a part of the 50 trailer cars, Series 4000-4049) this Commission assigns Work Order No. MBA-25.

Whereas, In compliance with the order of this Commission in Case No. 2628, Service Order "B," New York Rapid Transit Corporation, as successor to the rights and obligation under and pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Rapid Transit Corporation, known as Contract No. 4, has submitted for the approval of this Commission a proposed purchasing agent's order dated June 19, 1923, directed to Westinghouse Traction Brake Company for the following:

50 Car Sets Westinghouse Traction Brake Co.'s Automatic Air Brake Equipment Schedule A. T. U. E.....\$637.36 Net Per Car Set F. O. B. your Factory Each set consisting of parts as per list attached.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 356"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 14, 1923, reported that such equipment is necessary for the 50 new steel trailer cars, the contract for which is approved coincidentally herewith and as ordered aforesaid; that the following bid was received for such material:

Westinghouse Traction Brake Co.\$637.36 per car

; that the price is the best obtainable and is reasonable and that said Westinghouse Traction Brake Co. is reliable and competent to provide such material, and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 17, 1923, recommended that the cost of such material (as constituting a part of the 50 trailer cars, Series 4000-4049) be classified as Additional Equipment for the Railroad and that Work Order No. MBA-25 be assigned thereto.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified as Additional Equipment of the Railroad and as to which (as constituting a part of the 50 trailer cars, Series 4000-4049) this Commission assigns Work Order No. MBA-25.

Whereas, In compliance with the order of this Commission in Case No. 2628, Service Order "B," New York Rapid Transit Corporation, as successor to the rights and obligation under and pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Rapid Transit Corporation, known as Contract No. 4, has submitted for the approval of this Commission a proposed purchasing agent's order dated June 19, 1923, directed to Westinghouse Traction Brake Company for the following:

50 Car Sets, Westinghouse Traction Brake Company's Variable Load Brake Attachment.....\$465.12 Net per set F. O. B. your Factory Each complete set consisting of parts as per attached list.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 357"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 14, 1923, reported that such equipment is necessary for the 50 new steel trailer cars, the contract for which is approved coincidentally herewith and as ordered aforesaid; that the following bid was received for such material:

Westinghouse Traction Brake Co.\$465.12 per car

; that the price is the best obtainable and is reasonable and that said Westinghouse Traction Brake Co. is reliable and competent to provide such material, and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 17, 1923, recommended that the cost of such material (as constituting a part of the 50 trailer cars, Series 4000-4049) be classified as Additional Equipment for the Railroad and that Work Order No. MBA-25 be assigned thereto,

[July 17, 1923

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified as Additional Equipment of the Railroad and as to which (as constituting a part of the 50 trailer cars, Series 4000-4049) this Commission assigns Work Order No. MBA-25.

Whereas, In compliance with the order of this Commission in Case No. 2628, Service Order "B," New York Rapid Transit Corporation, as successor to the rights and obligation under and pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Rapid Transit Corporation, known as Contract No. 4, has submitted for the approval of this Commission a proposed purchasing agent's order dated June 19, 1923, directed to Carnegie Steel Company for the following:

Solid Wrought Carbon Steel Wheels To Be Furnished In Accordance With N. Y. C. R. R. Co. Spec. No. 1001-A Dated July 2, 1920, Revised to Jan. 2, 1923 herewith, and Plans as Indicated.

200 34 $\frac{1}{4}$ " Subway Driver 7" R. B. Sym. E-3-B, Plan 1-M-15497-K, Contour of tread and flange as per Plan 1-M-15722-A furnished.....	\$50.00	Each
200 31" Subway Trailer 6" R. B. Sym. E-1-B, Plan 1-M-15495-G, Contour of tread and flange as per Plan 1-M-15722-A.....	\$40.75	Ea.

Quenched and Tempered Carbon Steel Axles To Be In Accordance with N. Y. C. R. R. Co. Specification No. 1000 Dated July 2, 1920 herewith, and Plans as Indicated.

100 Driver Plan 4-B-60-6 herewith		
100 Trailer " 4-B-40-5 "	\$4.74	100 lbs.

All F. O. B. 40th St. Sta. So. Bklyn. Ry.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 358"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 14, 1923, reported that such equipment is necessary for the 50 new steel trailer cars, the contract for which is approved coincidentally herewith and as ordered aforesaid; that the following bids were received for such material:

Wheels	Driver	Trailer
Carnegie Steel Co. (per wheel)	\$50.00	\$40.75
Edgewater Steel Co.	50.25	41.00
Bethlehem Steel Co.	50.00	40.75
Standard Steel Works Co.	50.00	40.75
Forged Steel Wheel Co.	Could not quote.	

Axles		
Carnegie Steel Co.	\$4.74	per 100 lbs.
Bethlehem Steel Co.	4.74	per 100 lbs.
Camden Forge Co.	6.22 $\frac{1}{2}$	per 100 lbs.
Standard Steel Works Co.	7.40	per 100 lbs.
Pollak Steel Co.	5.12	per 100 lbs.

; that the prices are the best obtainable and are reasonable and that said Carnegie Steel Co. is reliable and competent to provide such material, and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 17, 1923, recommended that the cost of such material (as constituting a part of the 50 trailer cars, Series 4000-4049) be classified as Additional Equipment for the Railroad and that Work Order No. MBA-25 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified as Additional Equipment of the Railroad and as to which (as constituting a part of the 50 Trailer cars, Series 4000-4049) this Commission assigns Work Order No. MBA-25.

Whereas, In compliance with the order of this Commission in Case No. 2628, Service Order "B," New York Rapid Transit Corporation, as successor to the rights and obligation under and pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Rapid Transit Corporation, known as Contract No. 4, has submitted for the approval of this Commission a proposed purchasing agent's order dated June 19, 1923, directed to General Electric Company for the following:

Ceiling Fans.

- 250 To be in accordance with N. Y. Con. R. R. Co.'s Specification for fans for Subway Cars, dated May 1, 1919, revised to December 12, 1922. \$35 Each, Freight allowed to 40th Street Station South Brooklyn Railway.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 359"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 14, 1923, reported that such equipment is necessary for the 50 new steel trailer cars, the contract for which is approved coincidentally herewith and as ordered aforesaid; that the following bids were received for such material:

General Electric Co.	\$35.00 per fan
Westinghouse Electric & Mfg. Co.....	37.00 per fan

; that the prices are the best obtainable and are reasonable and that said General Electric Company is reliable and competent to provide such material, and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 17, 1923, recommended that the cost of such material (as constituting a part of the 50 trailer cars, Series 4000-4049) be classified as Additional Equipment for the Railroad and that Work Order No. MBA-25 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified as Additional Equipment of the Railroad and as to which (as constituting a part of the 50 trailer cars, Series 4000-4049) this Commission assigns Work Order No. MBA-25.

Whereas, In compliance with the order of this Commission in Case No. 2628, Service Order "B," New York Rapid Transit Corporation, as successor to the rights and obligation under and pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Rapid Transit Corporation, known as Contract No. 4, has submitted for the approval of this Commission a proposed purchasing agent's order dated June 19, 1923, directed to National Safety Car & Equipment Co. for the following:

Hand Straps.

- 1400 R. I. C. O. Metallic Porcelain Enameled, complete M. I. Loop and Hanger, as per Plan 3-B-932 and sample furnished.....\$1.45 Each
F. O. B. 40th Street Station So. Bklyn. Ry.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 360"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 14, 1923, reported that such equipment is necessary for the 50 new steel trailer cars, the contract for which is approved coincidentally herewith and as ordered aforesaid; that the following bids were received for such material:

National Safety Car and Equipment Co.....	\$1.45 each
Railway Improvement Co.....	Could not quote.

; that the prices are the best obtainable and are reasonable and that said National Safety Car and Equipment Co. is reliable and competent to provide such material, and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 17, 1923, recommended that the cost of such material (as constituting a part of the 50 trailer cars, Series 4000-4049) be classified as Additional Equipment for the Railroad and that Work Order No. MBA-25 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified as Additional Equipment of the Railroad and as to which (as constituting a part of the 50 trailer cars Series 4000-4049) this Commission assigns Work Order No. MBA-25.

Whereas, This Commission, by resolution adopted co-incidentally herewith, approved the proposed contract between the New York Rapid Transit Corporation and Pressed Steel Car Company for the manufacture and delivery of bodies and trucks for fifty (50) steel passenger cars, Series 4000-4049, together with the plans and specifications therefor, classifying such material as Additional Equipment of the Railroad and assigning Work Order No. MBA-25, all as more particularly set forth in said resolution; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated July 17, 1923, reported that said New York Rapid Transit Corporation has submitted for the approval of this Commission a proposed change to be made in the form of contract approved as aforesaid and has stated with respect thereto as follows:

"The supplementary agreement covers the assumption by the Transit Corporation of any royalties which may have to be paid for the use of clasp brakes which are standard on the subway cars of the Transit Corporation, for a change in the amount of partial payments to be made to the contractor upon delivery of cars, and for a change in the time of delivery from the definite date of March 1, 1924, to the period commencing 180 days (Sundays and holidays excepted) from the date of the main contract and ending ten weeks thereafter. The Transit Corporation recommends approval of the supplementary agreement. It is satisfactory also from the engineering standpoint."

and recommending the approval of such change.

Resolved, That said proposed contract, as proposed to be amended by said change, be and the same hereby is approved.

965—R. T. 4007

Contract No. 1—Report by Chief Engineer Recommending Approval of Lengthening Local Station Platforms to 480 Feet Instead of 435 Feet as Previously Authorized—Referred to Commissioner O'Ryan

A report was presented from the Chief Engineer, dated June 26, 1923, recommending approval of the lengthening of local station platforms between Brooklyn Bridge and Grand Central Stations and between Times Square and 96th Street Stations, to 480 feet instead of 435 feet as previously authorized.

The matter was referred to Commissioner O'Ryan.

966—R. T. 6567, 6553

Contracts Nos. 3 and 4 and Related Certificates—Report by Special Committee Suggesting Continuance of Modified Procedure for Preparation of Determinations of Cost—Approved

A report was presented from Robert Ridgway, Chief Engineer, George L. Lucas, Acting Chief Executive Officer, H. N. Latey, Engineer of Equipment and Operation, John E. Cooper, Chief of Bureau of Accounting and Valuations, and William G. Fullen, Assistant Counsel, as a Special Committee, dated July 7, 1923, with respect to the

preparation of determinations of cost rendered under Contracts Nos. 3 and 4 and related certificates, with particular reference to the inspection and checking of the work and records of the Lessee Companies, and suggesting a continuance of the modified procedure so as to permit of a reduction in the work involved in the preparation of the determinations.

Upon motion, duly seconded and adopted, the report was approved.

967—C-20575

Smoke Nuisance—Report by Counsel as to Jurisdiction and Powers of Commission—Approved—Letter to Department of Health Authorized

The Secretary presented a report, dated July 12, 1923, by Assistant Counsel Fullen, approved by George O. Redington, Counsel to the Commission, advising with respect to the jurisdiction and powers of the Commission concerning the abatement of smoke nuisance from steam railroads and recommending a plan of procedure to be followed by the Commission.

Thereupon the above mentioned report was approved and a letter to the Commissioner of Health of The City of New York authorized, outlining the plan of procedure to be followed by the Commission and advising that in carrying it out the Commission would endeavor to co-operate with the Department of Health so that in conjunction with the exercise of their jurisdiction complaints might be satisfied.

968—Case No. 1048

Brooklyn City Railroad Company—Fenders and Wheelguards—Resolution Adopted Approving Type of Wheelguards

The Secretary presented a report, dated July 13, 1923, from the Engineer of Equipment and Operation, recommending approval of plan submitted by the Brooklyn City Railroad Company of type of wheelguard known as the Root Spring Life Wheelguard to be used on 200 new cars purchased by the company.

Thereupon the Commission, adopted and ordered filed a Resolution in Case No. 1048 approving the above mentioned type of wheelguard.

969—Case No. 1867

Brooklyn City Railroad Company—Notice of Acquisition of New Equipment—Communication from Company Submitting Blue Print Plans for 200 New Passenger Cars—Report by Engineer of Equipment and Operation—Letter to Company Authorized

The Secretary presented a communication, dated July 5, 1923, from the Brooklyn City Railroad Company, by G. W. Jones, Assistant Secretary, submitting blue print plans for 200 new passenger cars to be operated by the company.

The Secretary also presented a report, dated July 13, 1923, advising that the plans had been examined and were satisfactory and recommending approval of same.

Thereupon the Secretary was authorized to advise the Brooklyn City Railroad Company that the Commission has no criticism to make with respect to said plans.

970—Case No. 2692

The Long Island Railroad Company and Pennsylvania Tunnel and Terminal Railroad Company—Application for Approval of Agreement for Trackage Rights Into and the Use of Pennsylvania Station—Hearing Order

The Secretary presented a communication, dated July 13, 1923, from O'Brien, Boardman, Parker & Fox, Esqs., transmitting joint petition dated June 29, 1923, of The Long Island Railroad Company, by G. LeBoutillier, Vice-President, and Pennsylvania Tunnel and Terminal Railroad Company, by A. J. County, Vice-President, asking for the approval of an agreement dated June 29, 1923, between the companies, effective as of January 1, 1923, for trackage rights into and the use of Pennsylvania Station, Manhattan, and showing an increased rental over the previous operating agreement between the companies.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2692 directing a hearing on July 25, 1923, at 10.30 A. M., with respect to the matter.

971

Railroad Corporations—Grade Crossings—Report by Engineer of Structures—Communication from Board of Estimate and Apportionment Advising of Appointment of Committee to Confer with Representatives of the Long Island Railroad Company—Report and Letter Approved

The Secretary presented a report, dated June 12, 1923, by W. L. Selmer, Engineer of Structures, advising of conference with the engineers of The Long Island Railroad Company and of the Board of Estimate and Apportionment and recommending the elimination of grade crossings of said company on its Montauk Division from Hillside to Springfield.

The Secretary also presented a communication, dated June 8, 1923, from the Board of Estimate and Apportionment advising of the appointment of a committee to confer with representatives of The Long Island Railroad Company relative to depressing the railroad tracks in Atlantic Avenue, Brooklyn.

Thereupon the above mentioned report and letter were approved.

972—Case No. 2253

New York Central Railroad Company et al.—Application of the City of New York for Determination as to Manner in which East 238th Street Shall Cross Companies' Tracks—Letter from Counsel for New York, New Haven and Hartford Railroad Company Requesting Consent to Entry of Stay of Proceedings Pending Determination of Company's Appeal to Court of Appeals—Report by Counsel—Motion Denying Request

The Secretary presented a communication, dated July 13, 1923, from William L. Barnett, Counsel for the New York, New Haven and Hartford Railroad Company, addressed to Counsel to the Commission, requesting consent to the entry of an order staying all proceedings and work under the mandamus order in the case of McAneny vs. New York Central Railroad Company (238th Street) until the determination of the appeal taken by the company to the Court of Appeals.

The Secretary also presented a report, dated July 14, 1923, by Carleton S. Cooke, Assistant Counsel, approved by Counsel to the Commission, requesting instructions with respect to said request.

Thereupon a motion was duly made, seconded and unanimously carried, denying the request aforesaid of Counsel for the New York, New Haven and Hartford Railroad Company and Counsel to the Commission was instructed to press to an early determination the appeal to the Court of Appeals.

973—Case No. 2693

Union Railway Company of New York City—Service on Morris Park Avenue Line—Hearing Order Adopted

The Secretary presented a report, dated July 17, 1923, by the Chief of Transit Bureau, advising that the Union Railway Company of New York City had not resumed service on its Morris Park Avenue Line, between Bronxdale Avenue and Williamsbridge Road in the Borough of The Bronx and recommending a hearing with respect to the matter.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2693, directing a hearing on July 30, 1923, at 10:30 A. M., with respect to the matter, and designating and authorizing George L. Lucas, Acting Chief Executive Officer, to conduct said hearing, to take testimony therein and to report the same with his opinion thereon to the Commission for its decision and determination.

974—Case No. 2694

Railroad and Street Railroad Corporations—Orders, Rules and Regulations to Officers and Employees Relative to Accidents—Order Adopted Requiring Promulgation of Rules

The Commission adopted and ordered filed an Order in Case 2694, in the following form:

At a Meeting of the Transit Commission, held at its office,
No. 49 Lafayette Street, Borough of Manhattan, City
of New York, on the 17th day of July, 1923.

Present:

LEROY T. HARKNESS, Acting Chairman	} COMMISSIONERS
JOHN F. O'RYAN,	

IN THE MATTER

of the

Printing and promulgation of orders, rules and regulations by railroad and street railroad corporations to employees relative to accidents.

CASE No. 2694

ORDER REQUIRING PROMULGATION OF RULES TO EMPLOYEES RELATIVE TO ACCIDENTS.

Whereas, In the operation of rapid transit railroads in The City of New York, and particularly in the performance of the necessary work attendant upon the happening of accidents, by the operating companies and their officers and employees, the effort has apparently been primarily directed to the resumption of service; and

Whereas, This Commission demands that the preservation of the safety, health and convenience of the passengers in said railroads shall, at all times and especially in cases of accident, be the initial consideration of the representatives of the operating companies

and that every attention should be exclusively given to the passengers until that end has been thoroughly accomplished; and

Whereas, This Commission, in the light of conditions in respect to passengers, which obtained in regard to accidents of recent happening, is fully convinced that a more efficient and expeditious procedure with respect to the dissemination of information by the employees of the operating companies to the passengers as to the character, origin and extent of such accidents, and the active prosecution of means to guide and discharge passengers from the railroad structures to the street would have alleviated considerable inconvenience to and have promoted the safety and health of such passengers,

Ordered, That every railroad corporation and street railroad corporation, as said terms are defined in Section 2 of the Public Service Commission Law and being under the jurisdiction of this Commission, are hereby directed and required to forthwith issue orders and to print and promulgate rules and regulations to their and each of their officers and employees to the effect that in the event of the happening of any accident or accidents in the operation, or otherwise, of railroads and street railroads, to at once reasonably inform passengers of the character, cause and extent of such accident and to take immediate action to direct passengers safely to means of egress from the railroad structure of said corporation, if necessary, and to take prompt steps to move trains and/or passengers to the end that the inconvenience and/or danger to passengers shall be entirely obviated or reduced to the lowest possible minimum.

Further Ordered, That every such corporation shall, within five (5) days after the receipt of a certified copy of this order, notify this Commission as to whether it accepts this order and as to whether the requirements hereof will be obeyed.

Further Ordered, That every such corporation shall, within five (5) days after the receipt of a certified copy of this order, notify this Commission as to what rules, directions or orders have been issued to effect a compliance with the terms and intention of this order.

BY THE COMMISSION,
FRANK N. ROBINSON,
Acting Secretary.

975—Case No. 2691

New York and Long Island Traction Company—Application for Permission to File on Short Notice Revised Tariff Sheet Showing Termination of Operation of Service of Brooklyn-Mineola Division at City Line—Report and Opinion by Chief of Transit Bureau—Order Adopted Granting Application

The Secretary presented a Report and Opinion in Case No. 2691, by the Chief of Transit Bureau recommending the granting of the application by the New York and Long Island Traction Company for special permission to file on three days notice an amended schedule providing for the termination of operation on its Brooklyn-Mineola Line at Rosedale, the dividing point between Queens and Nassau Counties, and for the establishment of lines to be operated independently in each of said counties.

Thereupon the above mentioned Report and Opinion in Case No. 2691, was approved and ordered filed and Special Permission No. 749 in Case No. 2691 was adopted and ordered filed, granting the desired permission.

976—Case No. 2631

Brooklyn City Railroad Company—Relocation of Tracks in Fresh Pond Road—Resolution of Board of Estimate and Apportionment Relative to Payment of Cost of Work—Referred to Counsel and Acting Chief Executive Officer

The Secretary presented a certified copy of a resolution, adopted by the Board of Estimate and Apportionment on June 29, 1923, relative to the payment of the City's share for relocating the tracks of the Brooklyn City Railroad Company in Fresh Pond Road, pursuant to the Commission's Order in Case No. 2631.

Thereupon the above mentioned resolution was referred to the Counsel to the Commission and the Acting Chief Executive Officer of the Commission for report.

977

Railroad Corporations—Report by Counsel as to Jurisdiction of Commission Relative to Electrification of Railroads—Filed

The Secretary presented a report, dated July 11, 1923, by W. G. Fullen, Assistant Counsel, approved by Counsel to the Commission, advising that the Commission has no jurisdiction under Section 53-A of Chapter 901 of the Laws of 1923, amending the Public Service Commission Law relative to the electrification of railroads in certain cities.

Thereupon the above mentioned report was ordered filed.

978—Case No. 2679

Brooklyn Rapid Transit Company—Reorganization—Letter from A. E. Mudge Transmitting Copy of Decree of United States District Court Authorizing Receiver to Return Properties of Nassau Electric Railroad Company to Latter Company—Filed

The Secretary presented a communication, from Alfred E. Mudge, Esq., of Counsel for the Stockholders' Committee on Reorganization of the Brooklyn Rapid Transit Company and its subsidiaries, transmitting copy of decree made on July 11, 1923, by Judge Mayer of the United States District Court directing the Receiver of the Nassau Electric Railroad Company to return the properties to said last mentioned company as of midnight between July 14 and July 15, 1923.

Thereupon the above mentioned papers were ordered filed.

979—R. T. 7476

Order No. 7—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Readjustment of Appropriations for Supply of Ties and Timber—Filed

The following certified copy of the resolution, adopted by the Board of Estimate and Apportionment on June 29, 1923, was ordered filed:

(Cal. No. 205)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated June 5, 1923, and without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, the resolution adopted by the Board of Estimate and Apportionment on April 28, 1922, consenting to the contract with the Alfred R. Sax Lumber Company for supply of ties and timber (Order No. 7), for use in the construction of municipal rapid transit railroads, at an estimated cost of \$95,500, and authorizing the Comptroller to issue corporate stock of The City of New York to an amount not exceeding \$95,500, apportioned against Contracts No. 3 and No. 4, be and the same is hereby *amended* by increasing the amount of the subauthorization against the general appropriation for Rapid Transit Contract No. 3 from "seventy-two thousand dollars (\$72,000)" to *seventy-four thousand six hundred dollars (\$74,600)* and also by decreasing the amount of the subauthorization against the general appropriation for Rapid Transit Contract No. 4 from "twenty-three thousand five hundred dollars (\$23,500)" to *twenty thousand nine hundred dollars (\$20,900)*.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 29, 1923.

JAMES MATTHEWS,
Assistant Secretary.

980—R. T. 7011

Contract No. 4—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of Corporate Stock of the City of New York Not to Exceed \$5,000 for Maintenance of Railroad Under Contract Between City of New York and New York Municipal Railway Corporation

The following certified copy of a resolution, adopted by the Board of Estimate and Apportionment on June 29, 1923, was ordered filed:

(Cal. No. 207)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated June 13, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to and approve of the issuance of an additional amount of five thousand dollars (\$5,000) of corporate stock for maintaining the railroad constructed under Contract No. 4, between The City of New York and the New York Municipal Railway Corporation, during the time intervening between the completion of portions of the railroad and the time when such portions are taken over by the City for operation under said Contract No. 4; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be five thousand dollars (\$5,000); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding five thousand dollars (\$5,000) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes aforesaid; said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 29, 1923.

JAMES MATTHEWS,
Assistant Secretary.

981—R. T. 7522

Agreement "CM"—Communication from Acting Corporation Counsel Returning, Approved as to Form, Proposed Contract for Changes in Subway Structure to Permit Raising of Grade of North Jane Street, Borough of Queens—Filed

A communication was ordered filed from Arthur J. W. Hilly, Acting Corporation Counsel, dated July 9, 1923, returning approved as to form, a proposed contract with Hamme & Jackson, Inc., for making changes in the subway structure of Route No. 61 so as to permit the raising of the street grade of North Jane Street, Borough of Queens.

982—R. T. 7658, 7571

Contract No. 1 and Route No. 48—Communication from Acting Corporation Counsel Returning, Approved as to Form, Proposed Agreements for Additional Stairway at 225th Street Station and for Ventilating Manhole in Mail Street—Filed

The Commission ordered filed a communication, dated July 10, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning, approved as to form, two proposed agreements with the Interborough Rapid Transit Company, one for the construction of an additional stairway at the 225th Street Station of the Manhattan-Bronx Rapid Transit Railroad and the other for the construction of a ventilating manhole in Mail Street, Borough of Manhattan.

983—R. T. 6407

Route No. 52—Communication from Interborough Rapid Transit Company Acquiescing in Addition of Flushing Line as Extension—Filed

The following communication from the Interborough Rapid Transit Company was ordered filed:

July 12, 1923.

TRANSIT COMMISSION,
49 Lafayette Street,
New York City.
Gentlemen:

Under date of March 13, 1923, you formally notified this Company, in pursuance of the provisions of Article LXXII of Contract No. 3, of your determination to construct an Extension from the present terminus of Subdivision V of the Queensboro Subway Line to Main Street, Flushing, and under date of June 13, 1923, a stipulation was entered into between your Commission and this Company, whereby the time within which this Company should inform your Commission, in accordance with the provisions of said Article LXXII, whether it acquiesces in the addition to the so-called Flushing Extension was extended to and including July 14, 1923. Thereafter, and under date of July 5, 1923, I addressed a communication to you setting forth this Company's views in respect of the interpretation of the various provisions of Contract No. 3, in the event of this Company's acquiescence in the addition of said Extension, to which your Commission by its Secretary responded under date of July 10, 1923.

You are now hereby informed that this Company acquiesces in the addition of said Extension.

Very truly yours,

FRANK HEDLEY,

President and General Manager.

984

Contracts Nos. 3 and 4—Communications from Interborough Rapid Transit Company and New York Rapid Transit Corporation Advising of the Appointment of Engineers to Make an Inspection and Report Upon the Condition of Mechanical and Electrical Apparatus Used on Cars—Filed

The Commission ordered filed two communications, one from the Interborough Rapid Transit Company, dated July 9, 1923, and one from the New York Rapid Transit Corporation, dated July 11, 1923, advising of the appointment of the General Electric Company and the Westinghouse Electric & Manufacturing Company, associated with the Westinghouse Traction Brake Company, to make an investigation and report upon the condition of the mechanical and electrical apparatus used on the companies' cars, also a report covering the character of maintenance that the companies are applying to such rolling stock, in accordance with the suggestion of the Commission that two sets of engineers be appointed for such purpose.

985—R. T. 7601

Route No. 52, Section No. 1—Notice by Acting Chief Engineer of Commencement of Work for Supply and Erection of Structural Steel—Filed

The Commission ordered filed a notice from the Acting Chief Engineer, dated July 11, 1923, advising of the commencement of work on June 21, 1923, by McClintic-Marshall Company for the supply and erection of structural steel on Section No. 1 of Route No. 52, Flushing Line.

986

Employees' Calendar No. 154

On motion, duly seconded, the following resolution was unanimously adopted:

Appointment—Irene M. Quinn, stenographer, at \$90.00 per month; to take effect July 16, 1923.

Appointment Under Rule VIII:4—Herbert Steinbeck, draftsman, at \$150.08 per month; to take effect July 10, 1923.

Resignations—Louis Chesir, draftsman, at \$150.08 per month; to take effect July 16, 1923; George H. Harp, junior engineer, at \$180.00 per month; to take effect July 16, 1923; Peter E. Rattinger, draftsman, at \$150.08 per month; to take effect July 14, 1923; Abraham Skeer, junior assistant, at \$125.08 per month; to take effect July 16, 1923; S. E. Van Hoesen, junior electrical engineer, at \$180.00 per month; to take effect August 16, 1923.

Change of Item in Resolution of April 10, 1923, Concerning Julio M. Conesa, so as to Read as Follows: (Appointment under Rule VIII:4)—Julio M. Conesa, architectural draftsman, at \$150.08 per month; to take effect April 10, 1923.

Leave of Absence with Pay—Mollie Ornstein, stenographer, from June 11, 1923, to June 26, 1923.

987

Voucher Schedule No. 29

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York, as the vouchers may direct:

Vouchers Nos. 712-727, open market orders, \$1,423.02; Vouchers Nos. 362-373, miscellaneous bills, \$2,256.32; Vouchers Nos. 126-143, City payrolls, \$176,388.20; Vouchers Nos. CM-14 and CM-15, State Payroll, \$5,083.32.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 181, Alfred R. Sax Lumber Co., final estimate for the supply of ties and timber, Order No. 7, to May 12, 1923 (R. T. 7496), \$2,667.55;

Voucher No. 182, Joslin Construction Co., Inc.; approximate estimate No. 11 for the reconstruction of a part of the Queensboro Subway Rapid Transit Railroad, Route No. 26, Jackson Avenue station, from June 1 to June 30, 1923 (R. T. 7556), \$12,132.48;

Voucher No. 183, Powers-Kennedy Contracting Corporation, approximate estimate No. 13, for the construction of a part of the Queensboro Subway Rapid Transit Railroad, Routes Nos. 35 and 67, from June 1, 1923, to June 30, 1923 (R. T. 7584), \$58,565.68;

Voucher No. 184, T. H. Reynolds Contracting Co., Inc.; approximate estimate No. 7 for the installation of tracks in Sections Nos. 1-5, inclusive, Route No. 8, from June 1, 1923, to June 30, 1923 (R. T. 7536), \$8,978.92;

Voucher No. 185; George Colon Company; supplementary approximate estimate No. 1-A for the construction of Union Square Passageway, Routes Nos. 5 and 8, from May 17, 1922, to April 26, 1923 (R. T. 7513), \$2,134.66;

Voucher No. 186, Slattery Engineering Construction Co., Inc.; approximate estimate No. 8 for the construction of additional approach track, Lenox Avenue and 148th St. Yard, under Contract No. 3, from June 1, 1923, to June 30, 1923 (R. T. 7366), \$20,674.35;

Voucher No. 187, Benedetto & Saussez; approximate estimate No. 3, for making alterations in the Broadway-Fourth Avenue Rapid Transit Railroad at various locations to permit widening of streets, from June 1, 1923, to June 30, 1923 (R. T. 7635), \$2,640.29;

Voucher No. 188; Jobson-Gifford Co.; approximate estimate No. 1 for making changes in steel work at easterly approach to Queensboro Plaza station, Routes Nos. 36 & 37, Section No. 1, from December 2, 1922, to June 30, 1923 (R. T. 7573), \$9,951.11;

Voucher No. 189; Charles H. Brown & Son Corporation, Assignee; approximate estimate No. 17, for the construction of station finish on Sections Nos. 1 and 2 of Route No. 8, from June 16, 1923, to July 15, 1923 (R. T. 7539), \$9,260.93.

FRANK M. ROBINSON,
Acting Secretary.

988

Hearing

The following hearing was adjourned:

10:30 A. M. Case 2695: Proposed reconstruction of 33d Street Station from local to express stop, Lexington-Fourth Avenue Subway Line. Adjourned to July 26, 1923, at 10:30 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, July 24, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

989—R. T. 7684

Agreement "CO"—Form of Contract, Specifications, Invitation to Contractors, etc., for Miscellaneous Drainage and Sewer Construction in Parts of Manhattan, Brooklyn and Queens—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed invitation to Contractors, information for contractors and forms of contract, bond and contractors' proposal, together with the specifications and contract drawings for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens (Agreement "CO")—

Resolved, That said invitation to contractors, information for contractors and forms of contract, bond and contractors' proposal, together with specifications and contract drawings for miscellaneous drainage and sewer construction in the Borough of Manhattan, Brooklyn and Queens (Agreement "CO"), be and are hereby approved and adopted, and that said invitation to contractors be published in the City Record every day of publication continuously from and including July 27, 1923, to and including August 10, 1923, and on July 30, 1923, and August 6, 1923, in Journal of Commerce and The Brooklyn Daily Times, daily newspapers published in the City of New York, and that such bids as shall be received shall on the 10th day of August, 1923, at 11:30 o'clock A. M. or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission at the office of the Transit Commission and read.

990—R. T. 7368

Contract No. 3—Report by Chief Engineer Recommending Establishment of Supplementary Schedule Item for Concrete Walls Under Contract for Second Addition to Shops at Lenox Avenue and 148th Street Yard—Approval Resolution—Communication to Board of Estimate and Apportionment

A report was presented from the Chief Engineer, dated July 18, 1923, recommending the establishment of a supplementary schedule item of \$25 per cubic yard for concrete walls under the contract for the Second Addition to Shops at the Lenox Avenue and 148th Street Yard.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission, by communication dated July 18, 1923, has, for the reasons herein more particularly set forth, recommended the establishment of a supplemental unit price for 8-inch concrete walls in the construction of Second Addition to Shops at Lenox Avenue and 148th Street Yard, pursuant to the contract dated August 3, 1922, between The City of New York, acting by this Commission, and Jacob Schlesinger, Inc., for the performance of such work, the estimated cost under such proposed supplemental unit price exceeding the limitation set forth in the third paragraph of Item 150 of said contract; and

Whereas, Counsel has prepared and submitted a proposed communication to the Board of Estimate and Apportionment requesting its consent as required by said contract to the establishment of said supplemental unit price,

Resolved, That said report and recommendation be and the same hereby is approved, that the said communication so submitted be and the same hereby is adopted and that it be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

July 24, 1923.

**BOARD OF ESTIMATE AND APPOINTMENT
OF THE CITY OF NEW YORK:**
Gentlemen:

The Chief Engineer of this Commission, in a communication dated July 18, 1923, has reported with respect to the work under the contract dated August 3, 1922, between The City of New York, acting by the Transit Commission, and Jacob Schlesinger, Inc., for the construction of Second Addition to Shops at the Lenox Avenue and 148th Street Yard as part of the Railroad described in the contract dated March 19, 1913, known as Contract No. 3, as follows:

"In a letter dated March 27th, J. Schlesinger, Inc., Contractor for the above job, stated that the difficulty in obtaining good brick was so great that it was desirable to construct the 12-inch walls of concrete instead of brick as shown on the plans, and submitted a price of \$23 per cu. yd.

A resolution was passed by the Commission on May 8th, requesting the Board of Estimate and Apportionment to approve of the new schedule item.

Recently a letter was received from the Contractor, stating that the difficulties of brick construction are now so acute, that they wish to eliminate all brick work from the job, and request that they be permitted to build 8" walls, called for on the drawing, of concrete at \$28.00 per cubic yard, which is the price for brick work. We objected to this price, and on July 17th a letter was received submitting a new price of \$25.00 per cubic yard.

There are about 240 cubic yards of 8" wall. The reduction of \$3.00 per yard represents a saving to the City of about \$720. Inasmuch as the form work is more expensive for 8" walls than for 12" walls, we consider \$25.00 a reasonable price. Concrete walls furthermore are entirely satisfactory.

Recommendation: I therefore respectfully recommend the approval of the supplementary schedule No. 9W for 8" walls in place with a neat smooth finished surface at \$25.00 per cubic yard, and as this item exceeds the limit fixed under item 150 of the Contract, that the Board of Estimate be requested to establish this supplementary schedule item. Resolution is attached."

The resolution proposed to be adopted to effect such recommendation which has been approved by this Commission is as follows:

"Whereas, The Chief Engineer of the Transit Commission, in pursuance of Item 150 of the contract dated August 3, 1922, between The City of New York acting by the Transit Commission and Jacob Schlesinger, Inc., for the construction of the Second Addition to Shops at the Lenox Avenue Yard, under Contract No. 3, having, subject to the approval of the Commission, agreed with the said contractor on the following supplementary schedule item:

Item No. 9-W—For 8" concrete wall in place with a neat smooth finished surface at \$25.00 per cubic yard.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved."

Item 150 of said contract provides in the third paragraph thereof as follows:

* * * "In the case of any single order of work or materials, or both, for a particular job or purpose where the lump sum price for such order to be agreed upon under the provisions of this paragraph or the estimated cost of such order according to the unit prices therefor to be agreed upon under the provisions of this paragraph shall exceed five thousand dollars (\$5,000), such agreement shall not be binding upon the City until the Board of Estimate and Apportionment shall approve or consent to such agreement or such lump sum price or such unit prices."

Inasmuch as the estimated cost under the proposed supplemental unit price exceeds the limitation set forth in Item 150 the consent of your Honorable Board to the establishment of said supplemental unit price is necessary.

Your Honorable Board is therefore requested to consent to the establishment of said supplemental price as hereinbefore set forth for the purposes herein referred to.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

991—R. T. 7653

Agreement "CN"—Communication from Board of Estimate and Apportionment Referring Back Proposed Contract with D. C. Serber for Changes in Subway Structure and Construction of Ventilation Flue at Broadway and West 32nd Street—Referred to Chief Engineer

The following communication and enclosure were referred to the Chief Engineer:

(Cal. No. 174)

July 13, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

Enclosed please find copy of report prepared in this office relative to your communication dated June 27, 1923, submitting for the consent of the Board, proposed contract with D. C. Serber (Agreement "CN") for making changes in the subway structure at Broadway and West 32d street, Borough of Manhattan, and the construction of ventilation flue in the Broadway-Fourth Avenue Rapid Transit Railroad at West 32d street and Broadway, Routes Nos. 4 and 36, Section No. 2.

At the meeting of the Board of Estimate and Apportionment on July 13, 1923, this matter was referred back to the Transit Commission for re-advertising.

Respectfully,
JAMES MATTHEWS,
Assistant Secretary.

[July 24, 1923]

The enclosure referred to in the above communication was as follows:

July 2, 1923.

To the BOARD OF ESTIMATE AND APPORTIONMENT,
Gentlemen:

Calendar No. 551—June 29, 1923.

Communication, dated June 27, 1923, from the Transit Commission, submitting for the consent of the Board proposed contract with D. C. Serber (Agreement "CN") for making changes in the subway structure at Broadway and West 32nd street, Borough of Manhattan, and the construction of ventilation flue in the Broadway-Fourth Avenue Rapid Transit Railroad at West 32nd Street and Broadway, Routes Nos. 4 and 36, Section No. 2, and requesting the Board to appropriate as a subauthorization under Contract No. 4, the sum of \$34,200 to meet the City's obligations under said proposed contract. Also requesting that \$1,000 of the appropriation authorized April 6, 1923 (Cal. No. 322), be applied towards said proposed contract for widening 32nd Street.

On June 21, 1923, the Transit Commission opened four bids submitted in itemized form prepared by the Commission, for the work of making changes in the subway structure and constructing a ventilating flue from the subway to the street at West 32nd Street and Broadway, Manhattan. The bids when summarized were as follows:

Benedetto & Saussez.....	\$29,550
D. C. Serber.....	35,200
I. J. Stander.....	37,905
Wagner Eng. Co.....	41,347

The lowest bidder, Benedetto & Saussez, is in default to the City and the Transit Commission has ruled that under Section 419 of the Charter is not eligible for further City contracts. The Commission, therefore, awarded the contract to the second lowest bidder in the amount of his bid, subject to the consent and approval of the Board of Estimate and Apportionment.

The work included within this contract is to provide a ventilating flue in which a fan will be installed to ventilate the Broadway-Fourth Avenue Subway and the 33rd Street Station. Provision was made in the original construction contract for a ventilating duct and grating, but for reasons which appeared sufficient at the time the ventilating shaft and grating were omitted altogether. It is now proposed to remedy that omission by constructing a ventilating flue on the west side of Broadway.

The Commission also includes within this contract the making of the necessary changes in the subway structure at the northeast corner of 32nd Street and Broadway incidental to the widening of Broadway by the Borough President. For this item the Board appropriated \$1,000 on April 6, 1923.

I concur in the judgment of the Transit Commission in withholding the award from the lowest bidder, but, in my opinion, there are reasons why the award to the second lowest bidder should not be approved.

I have examined the bidding sheet with some care, and I doubt if I have ever seen such irregular bidding when there were no more than four bidders. The irregularities extend throughout the entire list and are such that I should be constrained to recommend the rejection of all the bids on the ground of the irregular and unbalanced unit prices submitted.

The second reason why the Board should withhold its consent to the award made by the Transit Commission is because the second lowest bid exceeds the engineer's estimate by more than twenty-seven per cent.

Another and a third reason why I think it would be unwise to approve this contract is because there is no such impelling urgency for the immediate prosecution of the work as would warrant the acceptance of any bid which appeared to be not to the best interest of the City.

I recommend, therefore, that the Board withhold its consent to the proposed contract as requested by the Transit Commission and refer the same back to the Commission for re-advertising.

Respectfully,
JAMES W. REED,
Assistant Engineer.

Concurred in—
A. G. CULVER,
Assistant Engineer

992—R. T. 7605

Routes Nos. 35 & 67—Communication from Board of Estimate and Apportionment Submitting Copy of Letter from Commissioner of Parks Agreeing to Location of Subway Entrances in Bryant Park Similar to Those at 59th Street and Fifth Avenue, Central Park—Referred to Chief Engineer

The following communication and enclosure were referred to the Chief Engineer :

CITY OF NEW YORK
BOARD OF ESTIMATE AND APPORTIONMENT
Office of the Secretary
Municipal Building
(Cal. No. 238)

July 13, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen :

Enclosed herewith for your information, is copy of a report of the Commissioner of Parks, Borough of Manhattan, relative to the communication from the President of the Borough of Manhattan with reference to the location of subway entrances to the Queensboro Subway on the sidewalks of 42d street between 5th and 6th avenues, Borough of Manhattan.

At the meeting of the Board of Estimate and Apportionment on July 13, 1923, this matter was referred to the Transit Commission.

Respectfully,
JAMES MATTHEWS,
Assistant Secretary.

The enclosure referred to in the above communication was as follows :

July 2, 1923.

Mr. JAMES MATTHEWS,
Assistant Secretary,
BOARD OF ESTIMATE AND APPORTIONMENT,
THE CITY OF NEW YORK.
Dear Sir :

I beg to acknowledge the receipt of your letter of June 29th, transmitting a letter from Hon. Julius Miller, President, Borough of Manhattan, in reference to the location of subway entrances to the Queensboro Subway on the sidewalks of 42nd Street, between 5th and 6th Avenues, Borough of Manhattan.

This department is willing to issue permits for the construction of these entrances within the park. It is, however, not willing to accept the plans of the Transit Commission as originally presented. If the Commission will agree to place their entrances in Bryant Park adjacent to the fence, similar to those at 59th Street and 5th Avenue, Central Park, this department will give permission to have them so constructed.

I would suggest that the Engineers of the Transit Commission arrange for a consultation with the Landscape Architect of this department in order that definite plans may be decided upon.

Yours very truly,
FRANCIS D. GALLATIN,
Commissioner of Parks,
Manhattan.

993—R. T. 6881

Order No. 3—Certificate by Chief Engineer of Completion of Contract for Loading, Hauling and Storing Ties and Timber—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved :

July 18, 1923.

TO TRANSIT COMMISSION :

Certificate of Completion: Transporting and Storing Ties and Timber.

In connection with the contract dated December 20, 1918, between the City of New York and John C. Orr Company for loading, hauling and storing ties and timber, I hereby

[July 24, 1923

certify that the work was completed in accordance with the provisions of the contract. The total cost of the work was \$5,815.21.

Recommended, that the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
Transit Commission.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission by communication dated July 18, 1923, has reported that all the work required under the contract dated December 20, 1918, between The City of New York, acting by the Public Service Commission for the First District, and John C. Orr Company for loading, hauling and storing ties and timber for use in the construction of municipal rapid transit railroads was in all respects completed; that the total amount due therefor was \$5,815.21 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York,

Resolved, That said report and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

994—R. T. 6361, 7605

Routes Nos. 4 & 36 and 35 & 67—Letter from Counsel Submitting Proposed Agreement with New York Rapid Transit Corporation and Interborough Rapid Transit Company for Connecting Passageway at Times Square—Approval Resolution

A letter was presented from Counsel, dated July 20, 1923, submitting a proposed agreement between the City of New York, acting by the Transit Commission, New York Rapid Transit Corporation and the Interborough Rapid Transit Company providing for the construction, maintenance and operation of a connecting passageway between Times Square Station of the Queensboro Subway and the Broadway-4th Avenue Line.

The following resolution was adopted:

Whereas, Counsel with his letter dated July 20, 1923 has submitted to this Commission a proposed form of agreement between The City of New York, New York Rapid Transit Corporation and the Interborough Rapid Transit Company, for the construction, maintenance and operation of a connecting passageway between the Times Square station of the Queensboro subway and the Broadway-4th Avenue Line; and

Whereas, The proposed agreement has been approved by the Chief Engineer of the Commission,

Resolved, That said proposed agreement in the form so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they are authorized to execute the same.

995—R. T. 6924

Routes Nos. 19 & 22, Section No. 2—Proposed Permit Issued by Interborough Rapid Transit Company to Union Railway Company of New York City to Attach Cables to Bridge Over Bronx River—Reports by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

A proposed permit was presented from the Third Avenue Railway System, issued by the Interborough Rapid Transit Company to the Union Railway Company of New York City, granting the right to attach cables to the rapid transit bridge crossing the Bronx River, Routes Nos. 19 & 22, Section No. 2.

Reports were presented from the Engineer of Equipment and Operation and the

Chief Engineer dated June 5, 1923 and July 18, 1923, recommending that the proposed permit be approved.

The following resolution was adopted:

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, have, by communication dated June 5, 1923, reported that a proposed permit was submitted for the approval of this Commission in behalf of the Third Avenue Railway System under date of May 11, 1923, issued by Interborough Rapid Transit Company under date of April 19, 1923 to Union Railway Company of New York City and accepted by the latter on April 19, 1923, granting the right and privilege to attach to the municipal rapid transit elevated railroad crossing the Bronx River over and along Westchester Avenue, in the Borough of The Bronx, 6 one million C. M. weatherproof cables and for the reason therein more particularly set forth, as amplified by their subsequent communication dated July 18, 1923 with respect to the same subject, have recommended the approval of said proposed permit; and

Whereas, Counsel has examined said proposed permit and now finds no objection thereto,

Resolved, That said report and recommendation be and the same hereby is approved; that the said proposed permit so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed permit.

Contracts Nos. 3 and 4 and Related Certificates—Form of Communication to Interborough Rapid Transit Company and New York Rapid Transit Corporation Notifying Them to Comply with Procedure for Preparation of Determinations of Costs as Recommended in Report by Special Committee—Approved

The following form of communication to the Interborough Rapid Transit Company and the New York Rapid Transit Corporation was approved:

"The Transit Commission, at its meeting of July 17, 1923, approved the report of its Special Committee, appointed to consider the modifications necessary in the procedure now followed in the preparation of the determinations of cost under Contracts Nos. 3 and 4 and the Related Certificates, with a view to a reduction in the work involved. Included in the recommendations so approved is the following:

- (2) Upon the making and reporting by the lessee company of expenditures following such Commission approval of the particular units, such tests should be made by this Commission's staff as may be deemed necessary to establish the substantial accuracy of the lessee's procedure and a compliance with the contracts in accordance with the terms of the Commission's approval. The reports submitted by the lessee company for the determinations should be verified by the Lessee's Chief Accounting Officer, whereby that officer states under oath that the reports submitted are accurate and have been made in accordance with the provisions of the Contracts (No. 3 or 4 and the Related Certificates), the particular contract or order under which the work is performed, and as directed in the Commission's approval resolutions.

You are hereby accordingly notified, in accordance with the provisions of Contract No. 3 or 4 and the related certificates for additional tracks and elevated extensions, to comply with the foregoing requirement on and after the date of receipt of this communication."

997—R. T. 6685

Route No. 33, Section No. 3—Report by Engineer of Equipment and Operation and Chief Engineer Recommending that New York Rapid Transit Corporation Be Ordered to Install Escalator at Lawrence Street Station—Letter to Company—Approved

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated July 21, 1923, recommending that the New York Rapid Transit

[July 24, 1923

be ordered to install an escalator without delay at the Lawrence Street Station of the Montague Street Line.

The following communication was approved:

July 24, 1923.

NEW YORK RAPID TRANSIT CORPORATION,
85 Clinton Street,
Brooklyn, N. Y.

Dear Sirs:

The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated July 21, 1923, reported with respect to the necessities for the early installation of an escalator at the Lawrence Street Station of the Montague Street Line of the railroad described in the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4, as follows:

"In my opinion, the escalator should be ready for service as soon as the station is opened. It is estimated that this station will be ready for use in the early part of 1924. It will take six to eight months to obtain an escalator; consequently, no time should be lost if this escalator is to be placed in operation at the time the station is opened for service.

The depth of the station platform below the street is such as to justify the escalator. It is estimated that the initial traffic at this station will warrant its installation; in which opinion the Transit Bureau concurs."

In accordance with the provisions of Article XL of said Contract No. 4 you, as successor to the rights and obligations under said Contract No. 4, are ordered to begin forthwith and to diligently proceed with the installation of the escalator at said station.

Very truly yours,

JAMES B. WALKER,
Secretary."

998—R. T. 7007

Contract No. 1—Applications by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Orders for Battery Boxes and Hangers, Brakes and Battery Cradles for Installation in Connection with Multiple Door Control on 982 Subway Cars—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Approval Resolutions.

Applications were presented from the Interborough Rapid Transit Company, dated July 3, 1923 and July 5, 1923, requesting approval of two proposed purchasing agent's orders, one directed to Fred Buse Company for furnishing wooden battery boxes at a cost of \$7,109.40, and the other on R. Steel & Sons for furnishing hangers, brakes and battery cradles at a total cost of \$7,716.20, to be installed in connection with multiple door control on 982 subway cars.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated July 12, 1923, recommending that the applications be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment under Contract No. 1, to be paid out of moneys provided by the Saratoga Award.

The following resolutions were adopted:

Whereas, By order adopted on the 15th day of December, 1920, the Transit Construction Commissioner, in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911, modifying the contract dated February 21, 1900, known as Contract No. 1, for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit

Company and Rapid Transit Subway Construction Company, dated July 12, 1920, for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911, and by orders adopted coincidentally therewith modified the order of April 23, 1920 aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922 for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, By resolution adopted January 30, 1923 the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company dated May 25, 1922 as modified by communication dated January 17, 1923 for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with the foregoing Interborough Rapid Transit Company has submitted for the approval of this Commission, proposed purchasing agent's order dated July 5, 1923, directed to R. Steel and Sons for the following:

Item No.

1	820 Hangers, emergency door opening battery cradle, Det. 1, B/P 10447-A and Spec. 64-A.	
	Price, \$0.41 each	\$336.20
2	820 Hangers, emergency door opening battery cradle, Det. 2, B/P 10447-A and Spec. 64-A.	
	Price, \$0.40 each	328.00
3	1,640 Hangers, emergency door opening battery cradle, Det. 3, B/P 10447-A and Spec. 64-A.	
	Price, \$0.50 each	820.00
4	820 Brackets, emergency door opening, battery cradle, pipe, Det. 4, B/P 10447-A.	
	Price, \$0.10 each	82.00
5	820 Cradles, battery, emergency door opening, assembled complete, B/P 10449-A and Spec. 64-A.	
	Price, \$7.50 each	6,150.00
	Total	\$7,716.20

Terms: 1% ten days.

To be delivered to our 128th Street and Second Avenue Storehouse, New York, N. Y.

To be delivered as follows:

- 5% of each item at once.
- 5% of each item by July 17, 1923.
- 10% of each item by August 1st, 1923.
- 20% of each item by September 1st, 1923.
- 30% of each item by October 1st, 1923.
- 30% of each item by November 1st, 1923.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 495"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 12, 1923, reported that the following bids were received:

	Item No. 1	No. 2	No. 3	No. 4	No. 5	
R. Steel and Sons.....	\$0.41 each	\$0.40	\$0.50	\$0.10	\$7.50	\$7,716.20-1%

; that the material is necessary and the price therefor reasonable and recommend that said proposed purchasing agent's order so submitted be approved,

Resolved, That the said report and recommendation be and the same hereby is approved; that said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission, made part of said proposed purchasing agent's order.

999—R. T. 7007

Contract No. 1—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Unilets and Covers for Installation in Connection with Multiple Door Control on 982 Subway Cars—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated July 6, 1923, requesting approval of a proposed purchasing agent's order directed to Sibley Pitman Electric Corporation for furnishing unilets and covers at a cost of \$2,208.96 to be installed in connection with multiple door control on 982 subway cars.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated July 13, 1923, recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations, dated July 19, 1923, classifying the cost as a charge to Operating Materials and Supplies Account to be paid out of moneys provided by the Saratoga Award.

The following resolution was adopted:

Whereas, By order adopted on the 15th day of December, 1920, the Transit Construction Commissioner, in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911, modifying the contract dated February 21, 1900, known as Contract No. 1, for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920, for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911, and by orders adopted coincidentally therewith modified the order of April 23, 1920 aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of The City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922, for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, By resolution adopted January 30, 1923, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated May 25, 1922, as modified by communication dated January 17, 1923, for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with the foregoing, Interborough Rapid Transit Company has submitted for the approval of this Commission proposed purchasing agent's order dated July 6, 1923, directed to Sibley Pitman Electric Corporation for the following:

3,200 Unilets, ½" T, without covers, hot galv. finished, No. 9003.	
Price: \$34.56 per C.....	\$1,105 92
2,900 Unilets, ½" straight, without covers, hot galv. finished, No. 9002.	
Price: \$25.92 per C.....	751 68

6,100 Covers, 1/2" Blank Metal Unilet, hot galv. finished, No. 6000.	
Price: \$5.76 per C.....	351 36
Total	\$2,208 96
Terms: 2% ten days.	
To be delivered to our 128th St. and Second Avenue Storehouse, as follows:	
20% of each item at once.	
20% of each item by July 20th, 1923.	
20% of each item monthly thereafter.	

which proposed purchasing agent's order has been caused to be designated as "Approval No. 496"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 13, 1923, reported that the following bids were received:

Sibley Pitman Electric Corp.....	\$2,208.96—2%

Stanley and Patterson	No bid.

; that the material is necessary and the price therefor reasonable and recommend that said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 19, 1923, recommended that said proposed purchasing agent's order be approved upon the following conditions:

"(1) That the cost of the unilets and covers required for original installation in the 982 subway cars be classified as Contract No. 1 Equipment in so far as cost is paid out of moneys provided under the Saratoga Award.

(2) That the cost of the unilets and covers in excess of the number required for original installation in the 982 subway cars be charged to Operating Materials and Supplies Account."

Resolved, That said reports and recommendations be and the same hereby are approved, that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such approval being given upon condition (1) that the cost of the unilets and covers required for original installation in the 982 subway cars be classified as Contract No. 1 Equipment in so far as cost is paid out of moneys provided under the Saratoga Award, and (2) that the cost of the unilets and covers in excess of the number required for original installation in the 982 subway cars be charged to Operating Materials and Supplies Account.

1000—R. T. 7007

Contract No. 1—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Cable for Installation in Connection with Multiple Door Control of 982 Subway Cars—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated July 6, 1923, requesting approval of a proposed purchasing agent's order directed to Okonite Company for furnishing 850,000 feet of cable at a cost of \$20,655, for use in connection with multiple door control on 982 subway cars.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated July 14, 1923, recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations, dated July 20, 1923, classifying the cost as a charge to Operating Materials and Supplies Account to be paid out of moneys provided by the Saratoga Award.

The following resolution was adopted:

Whereas, By order adopted on the 15th day of December, 1920, the Transit Construction Commissioner, in pursuance of his finding aforesaid and of the provisions of the agreement dated December 30, 1911, modifying the contract dated February 21, 1900, known as Contract No. 1, for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, approved the requisition of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated July 12, 1920, for the utilization of \$1,750,000 of the award of \$2,260,534.58, being the amount of the arbitration award agreed upon, as more particularly set forth in said agreement of December 30, 1911, and by orders adopted coincidentally therewith modified the order of April 23, 1920, aforesaid and approved a certain stipulation between the Transit Construction Commissioner and the Interborough Rapid Transit Company with respect to the classification of the expenditure of such portion of said arbitration award and thereafter certified to the Comptroller of the City of New York for payment a voucher in the sum of \$1,750,000 in accordance with his said action; and

Whereas, By resolution adopted August 2, 1921, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, dated June 17, 1922, for the payment of \$204,318 to be used for the purposes of completing the installation of such multiple car door control device as a second installment of the net amount of said arbitration award; and

Whereas, By resolution adopted January 30, 1923, the Transit Commission approved the application of Interborough Rapid Transit Company and Rapid Transit Subway Construction Company dated May 25, 1922, as modified by communication dated January 17, 1923, for the payment of \$270,139 to be used for the purpose of completing the installation of such multiple car door control device as a third installment of the net amount of said arbitration award; and

Whereas, In accordance with the foregoing Interborough Rapid Transit Company has submitted for the approval of this Commission, proposed purchasing agent's order dated July 6, 1923, directed to Okonite Company for the following:

850,000 Ft. Cable, 19—No. 25, single conductor insulated, single braid
 (O. D. must not exceed .250") as per spec. 34-T.
 Price: \$24.30 per M. Ft. \$20,655.00
 Terms: 2% ten days.

Deliveries to be made as follows, to our 128th Street and Second Avenue Storehouse:

20% by September 1st, 1923.
 20% monthly thereafter.

NOTE—It is recommended that this order be placed with Okonite Company, as our Car Equipment Department Engineers prefer that Company's cable which is to be used in connection with the installation of couplers, jumpers and door control safety interlocking system on 982 low voltage cars, on account of the importance to maintain safety and reliability.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 490"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have, by communication dated July 14, 1923, reported that the following bid was received:

Okonite Co. \$20,655.00

; that the material is necessary and the price therefor reasonable and recommend that said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 20, 1923, recommended that said proposed purchasing agent's order be approved upon the following conditions:

- (1) That the cost of the unilets and covers required for original installation in the 982 subway cars be classified as Contract No. 1 Equipment in so far as cost is paid out of moneys provided under the Saratoga Award.
- (2) That the cost of the unilets and covers in excess of the number required for original installation in the 982 subway cars be charged to Operating Materials and Supplies Account."

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such approval being given upon condition (1) that the cost of the unilets and covers required for original installation in the 982 subway cars be classified as Contract No. 1 Equipment in so far as cost is paid out of moneys provided under the Saratoga Award, and (2) that the cost of the unilets and covers in excess of the number required for original installation in the 982 subway cars be charged to Operating Materials and Supplies Account.

1001—R. T. 6114

Contract No. 1—Application by Interborough Rapid Transit Company for Approval of Installation of Various Items of Equipment for New Entrance to 168th Street Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order No. ICqA-7—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated May 21, 1923, requesting approval of the installation of various items of equipment for the new entrance to the 168th Street Station of the Manhattan-Bronx Rapid Transit Railroad at an estimated cost of \$10,050.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated July 7, 1923, stating that the equipment is necessary and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations, dated July 16, 1923, classifying the work as Additions to Existing Equipment and assigning Work Order No. ICqA-7 thereto.

The following resolution was adopted:

Whereas, The City of New York, acting by the Transit Commission, in pursuant to a contract dated May 18, 1922, between The City of New York, acting by this Commission and Holbrook, Cabot & Rollins Corporation, constructing a new entrance to the 168th Street Station of the Manhattan-Bronx Rapid Transit Railroad, being a part of the Existing Railroads as described in the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, which work is made part of construction of Extra Work pursuant to so-called Contract No. 1, by reason of the agreement dated June 21, 1917, between The City of New York and said Interborough Rapid Transit Company; and

Whereas, By communication dated May 21, 1923, Interborough Rapid Transit Company has submitted for the approval of this Commission its proposal to install the various items of equipment at the said new entrance to the 168th Street Station aforesaid as Additional Equipment in accordance with the provisions of said Contract No. 3; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of

this Commission have by communication dated July 7, 1923 reported that the equipment proposed includes such items as lighting and heating apparatus, power cables, auxiliary apparatus required in connection with the new elevators, telephones and other communication devices, clocks and miscellaneous furnishings; that the kind and amount of equipment proposed is suitable and necessary for the purpose; that the estimated cost of \$10,050 appears reasonable and recommends the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have by communication dated July 16, 1923 recommended that the work included in said proposal, in so far as it is a betterment, be classified as Additions to Existing Equipment as defined in Contract No. 3 and Work Order No. ICqA-7 be assigned thereto.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company aforesaid be and the same hereby is approved and that the work therein included be classified as Additions to Existing Equipment as defined in Contract No. 3 and as to which this Commission assigns Work Order No. ICqA-7.

1002—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Contract for One Foster Radiant Heat Superheater to be Installed Under New Boiler in 59th Street Power House—Report by Consulting Engineer, Dr. Charles E. Lucke, Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated July 13, 1923, requesting approval of a proposed contract with the Power Specialty Company for the purchase, delivery and installation of one Foster Radiant Heat Superheater, to be installed under the new boiler in the 59th Street Power House at a cost of \$6,800.

A report was presented from Consulting Engineer Dr. Charles E. Lucke, dated July 14, 1923, stating that the proposed contract and plans and specifications are satisfactory, and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment for the Railroad, under Work Order No. IBA-7, heretofore assigned.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922, the application of the Interborough Rapid Transit Company, pursuant to the provisions of the contract, dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3 consisting of Additional units of new equipment and appurtenances and cables to provide additional power was approved and by resolution adopted November 14, 1922, this Commission assigned thereto Work Order No. IBA-7; and

Whereas, The said Interborough Rapid Transit Company by communication, dated July 13, 1923, has submitted for the approval of this Commission, pursuant to the resolutions aforesaid, a proposed contract with Power Specialty Company for the purchase, delivery and installation of one Foster Radiant Heat super heater to be installed under the new boiler in the 59th Street Power House at a total cost of \$6,800; and

Whereas, By communication dated July 14, 1923, Consulting Engineer, Dr. Charles E. Lucke has reported that the bid of Power Specialty Company is the best bid which can be obtained for the installation of this type of superheater; that the proposed contract together with the plans and specifications are satisfactory and recommends that the said proposed contract so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs has by endorsement dated July

18, 1923, recommended that the work be classified as Additional Equipment for the Railroad under Work Order No. IBA-7 heretofore assigned as aforesaid; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto,

Resolved, That said reports and recommendations be and the same hereby are approved and that the said proposed contract together with the plans and specifications made part thereof be and the same hereby are approved, and that said Interborough Rapid Transit Company be and hereby is authorized to enter into said proposed contract with Power Specialty Company in the form hereby approved.

1003—R. T. 6668, 6695

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Signaling and Interlocking on 14th Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated July 10, 1923, requesting approval of a proposed purchasing agent's order directed to the General Railway Signal Company for furnishing and installing signaling and interlocking on the 14th Street-Eastern Line, for the lump sum of \$297,570.

A report was presented from the Engineer of Equipment and Operation and Chief Engineer, dated July 20, 1923, stating that the plans and specifications are satisfactory and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract, dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has, by communication, dated July 10, 1923, submitted for the approval of this Commission a proposed purchasing agent's order, dated July 9, 1923, directed to General Railway Signal Company for the following:

Furnish and install signaling and interlocking on the 14th Street-Eastern Line, as per Plan C-1359, C-1360, C-1361 and specifications all dated June 23d, 1923, two copies attached hereto and your proposal dated July 3, 1923, for the lump sum of \$297,570

which proposed purchasing agent's order has been caused to be designated as "Approval No. 361," together with the plans and specifications for such proposed work; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication, dated July 20, 1923, reported that such equipment is intended for the initial operation of the subway portion of the 14th Street-Eastern Line of the Railroad described in said Contract No. 4; that the following bids were received for such material;

General Railway Signal Co.....	\$297,570
Federal Signal Co.....	301,500
Union Switch and Signal Co.....	303,500

; that the proposed layout of signalling and interlocking for this line is similar to that on other local tracks of the subway and is satisfactory from an engineering standpoint; that the plans and specifications are satisfactory and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement, dated July 24, 1923, recommended that such material be classified as Equipment of the Railroad as described in said Contract No. 4.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted, together with the plans and specifications made part thereof be and the same hereby is approved and

that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the material to be so purchased to be classified as Equipment of the Railroad as defined in said Contract No. 4.

1004—R. T. 6481

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for 100 Sets of Truck Anti-nosing Device for Subway Cars—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order No. MGA-4—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated June 23, 1923, requesting approval of a proposed purchasing agent's order directed to the Standard Steel Car Company, for furnishing 100 sets of truck anti-nosing device for installation on subway cars at a cost of \$3,500.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated July 12, 1923, stating that there is no objection from an engineering standpoint and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations, dated July 16, 1923, classifying the cost of the work and assigning Work Order No. MGA-4.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has submitted to this Commission for its approval, a proposed purchasing agent's order dated June 22, 1923, directed to Standard Steel Car Co. for the following:

Truck Anti-Nosing Device.

100 Car Sets. As shown on Plan Sk. X-832-2 furnished.....\$35.00
Car Set F. O. B. 40th St. Sta. So. Bklyn. Ry.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 353"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have by communication dated July 12, 1923 reported that no objection from the engineering standpoint will be made to the purchase of the anti-nosing devices, provided it is agreed to be an experiment until the experiment shall have demonstrated the practicability of such device, and accordingly recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have by communication dated July 16, 1923 reported with respect to said proposed purchasing agent's order as follows:

"The proposed installation being an experiment comes within the resolution of the Commission of March 7, 1922, viz.:

'Before beginning proposed experimental work which eventually might become a capital charge, the Lessee should be required to obtain the approval of the Chief Engineer of the Commission to proceed and have appropriate job numbers assigned thereto.

'All expenditures made on account of this class of experimental work should be charged to an account, entitled, "Experimental Work-Suspense";

[July 24, 1923

'In the event that such experimental work results in an improvement (approved as such by the Chief Engineer), the account "Experimental Work—Suspense" will be credited with the entire cost and the appropriate capital account charged.

'The cost of the same class of experimental work which does not result in an improvement should be credited to the account, "Experimental Work—Suspense" and charged to Operation Expenses, immediately it is decided to stop the work.'

It is recommended that the cost of the proposed purchase of 100 sets anti-noising device and the installation thereof be accounted for pursuant to the terms of the Commission's resolution of March 7, 1922 on the subject of experimental work, and that Work Order Number MGA-4 be assigned thereto."

Resolved, That said reports and recommendations be and the same hereby are approved and that said proposed purchasing agent's order so submitted be and the same hereby is approved, and that the cost thereunder be accounted for pursuant to the terms of this Commission's resolution of March 7, 1922 aforesaid, and as to which this Commission assigns Work Order MGA-4.

1005—R. T. 6695

Contract No. 4—Application by New York Rapid Transit Corporation Requesting Approval of Certain Signal Changes and Installation of Additional Signal Apparatus in Montague Street Tunnel Line Between Court Street and DeKalb Avenue Stations—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order No. MBA-26—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated June 23, 1923, requesting approval of certain signal changes and for the installation of additional signal apparatus in the Montague Street Tunnel Line between the Court Street and DeKalb Avenue Stations at an estimated cost of \$35,100.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated July 14, 1923, stating that changes and additional apparatus are necessary to provide increased train capacity through Lawrence Street Station, when placed in service, and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations, dated July 18, 1923, classifying the work and assigning Work Order No. MBA-26 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successors to the rights and obligations under said Contract No. 4 has submitted for the approval of this Commission, a proposal to make certain signal changes and the installation of additional signal apparatus in the Montague Street Tunnel of the Broadway-4th Avenue Line from a point west of Court Street Station to the DeKalb Avenue Station in the Borough of Brooklyn, at an estimated cost of \$35,100; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have by communication dated July 14, 1923 reported that the proposal includes numerous signal changes on account of the station at Lawrence Street when that station is placed in service and signal apparatus necessary to obtain increased train capacity through the said station; that the plans submitted indicating the proposed signal

changes and additions are satisfactory and recommend the approval of said proposal; and Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have by communication dated July 18, 1923 recommended that the cost of such work be classified as follows:

"(1) That the cost of new signal apparatus on account of placing the Lawrence Street Station in operation be classified as Equipment of the Railroad for Initial Operation.

"(2) That the cost of new signal apparatus necessary to expedite train operation, to an amount equal to the original cost of facilities retired on account of this work, be charged to maintenance. The salvage of facilities retired to be credited to maintenance and the cost of removing or rearranging existing facilities to be charged to maintenance.

"(3) That the cost of new signal apparatus necessary to expedite train operation, in excess of the original cost of facilities retired on account of this work, be classified as Additional Equipment for the Railroad and that Work Order Number MBA-26 be assigned thereto."

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of New York Rapid Transit Corporation so submitted be and the same hereby is approved upon condition that the cost thereof be charged as follows;

(1) That the cost of new signal apparatus on account of placing Lawrence Street Station in operation be classified as Equipment of the Railroad for Initial Operation.

(2) That the cost of new signal apparatus necessary to expedite train operation, to an amount equal to the original cost of facilities retired on account of this work, be charged to maintenance. The salvage of facilities retired to be credited to maintenance and the cost of removing or rearranging existing facilities to be charged to maintenance.

(3) That the cost of new signal apparatus necessary to expedite train operation, in excess of the original cost of facilities retired on account of this work, be classified as Additional Equipment for the Railroad and as to which this Commission assigns Work Order No. MBA-26.

1006—R. T. 7683

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Re-building of Illuminated Track Indicators at Canal Street, DeKalb Avenue and Gold Street Signal Towers—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order No. MBA-27—Approval Resolution

An application was presented from the New York Rapid Transit Corporation requesting approval to the rebuilding of the illuminated track indicators now installed at the Canal Street, DeKalb Avenue and Gold Street signal towers at an estimated cost of \$18,750.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated July 14, 1923, stating that the work is desirable, the cost reasonable and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations, dated July 18, 1923, classifying the work and assigning Work Order No. MBA-27 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract, dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York

Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4 has requested the approval of this Commission to the rebuilding of the illuminated track indicators now installed at the Canal Street, DeKalb Avenue and Gold Street signal towers of the Broadway-4th Avenue Line of the Railroad as described in said Contract No. 4 at an estimated cost of \$18,750; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have by communication, dated July 14, 1923 reported that in their opinion, for the reasons therein more particularly set forth, such work is desirable; that the estimated cost therefor is reasonable; that the drawings showing the proposed work are satisfactory and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have by communication, dated July 18, 1923 recommended that the cost of such work be classified as follows:

"(1) That the cost of alterations, removal and relocation of existing facilities be charged to Maintenance. The salvage of facilities retired to be credited to Maintenance.

"(2) That the cost of new facilities, to an amount equal to the original cost of facilities retired on account of this work, be charged to Maintenance.

"(3) That the cost of new signal apparatus, in excess of the original cost of facilities retired on account of this work, be classified as Additional Equipment for The Railroad and that Work Order Number MBA-27 be assigned thereto."

Resolved, That said reports and recommendations be and the same hereby are approved; that the proposal of New York Rapid Transit Corporation as aforesaid be and the same hereby is approved upon condition that the cost thereof be charged as follows:

(1) That the cost of alterations, removal and relocation of existing facilities be charged to Maintenance. The salvage of facilities retired to be credited to Maintenance.

(2) That the cost of new facilities, to an amount equal to the original cost of facilities retired on account of this work, be charged to Maintenance.

(3) That the cost of new signal apparatus, in excess of the original cost of facilities retired on account of this work, be classified as Additional Equipment for The Railroad and as to which this Commission assigns Work Order No. MBA-27.

1007—R. T. 6695

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Restoration of Signal Apparatus, Etc., for Signal Tower and Battery House at Broadway and Myrtle Avenue, Borough of Brooklyn—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work and Assigning Work Order No. MCA-27—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated June 19, 1923, for approval of the restoration of signal apparatus and the installation of two new junction boxes and a standard motor-generating charging set for the signal tower and battery house at Broadway and Myrtle Avenue, Borough of Brooklyn, at an estimated cost of \$5,200.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated July 18, 1923, stating that the work is necessary and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations, dated July 20, 1923, classifying the work and assigning work order No. MCA-27 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has, by communication dated June 19, 1923, submitted for the approval of this Commission a proposed scheme for the restoration of signal apparatus and the installation of two new junction boxes and a standard motor-generating charging set, all for the signal tower and battery house located at Broadway and Myrtle Avenue of the Broadway-Myrtle Avenue Elevated Lines of the Existing Railroads, as defined in said Contract No. 4, the estimated cost of such work being \$5,200; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated July 18, 1923, reported that the principal work proposed to be done pursuant to said proposal is an improved method of installation of practically all the existing signal circuits leading to the interlocking tower and battery house aforesaid, which were destroyed by fire on April 8, 1923; that the proposed changes and additional equipment are satisfactory and necessary; that the proposed costs are reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 20, 1923, recommended, with respect to said proposal, as follows:

(1) That that the cost of alterations, removal and relocation of existing facilities be charged to maintenance. The salvage of facilities retired to be credited to maintenance.

(2) That, in addition to the cost in (1), the cost of the work equal to the estimated cost of replacing all the present wires and cables from the existing and new junction boxes to the tower and battery house (estimated at \$3,500.) be charged to maintenance.

(3) That the excess cost of armored cable over the present cost of braided wire and cable, the cost of the two new junction boxes and the cost of motor-generator charging set, (total estimated at \$1,700.) be classified as Additions to Existing Railroads and that Work Order Number MCA-27 be assigned thereto.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of New York Rapid Transit Corporation so submitted be and the same hereby is approved, such approval being given upon the following conditions:

"(1) That the cost of alterations, removal and relocation of existing facilities be charged to maintenance. The salvage of facilities retired to be credited to maintenance.

(2) That, in addition to the cost in (1), the cost of the work equal to the estimated cost of replacing all the present wires and cables from the existing and new junction boxes to the tower and battery house (estimated at \$3,500.) be charged to maintenance.

(3) That the excess cost of armored cable over the present cost of braided wire and cable, the cost of the two new junction boxes and the cost of motor-generator charging set, (total estimated at \$1,700.) be classified as Additions to Existing Railroads and as to which this Commission assigns Work Order No. MCA-27."

1008—R. T. 6695

Broadway Elevated Line—Application by New York Rapid Transit Corporation for Approval of Additional Signal on Express Track West of Myrtle Avenue Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated July 9, 1923, requesting approval to the installation of an additional signal on the express track of the Broadway Elevated Line, about 500 feet west of the Myrtle Avenue Station, at an estimated cost of \$600.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated July 14, 1923, stating that the signal is desirable; that the cost is reasonable, and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additions to Additional Tracks, and assigning Work Order No. MDA-1 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Certificate dated March 19, 1913 granted to the New York Municipal Railway Corporation for certain additional tracks, New York Rapid Transit Corporation, as successor to the rights and obligations under said Certificate, by communication dated July 9, 1923 requested the approval of this Commission to the installation of an additional signal on the express track of the Broadway Elevated Line at a point approximately 550 feet west of the Myrtle Avenue Station at an estimated cost of approximately \$600; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission, by communication dated July 14, 1923 has reported that the proposed additional signal is to increase the capacity of this track at said point and is considered desirable; that the estimated cost is reasonable and recommend the approval of such proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated July 18, 1923 has recommended that the cost of such work be classified as Additions to Additional Tracks and that Work Order MDA-1 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal so submitted be and the same hereby is approved, provided that the cost of such work shall be classified as Additions to Additional Tracks as to which this Commission assigns Work Order MDA-1.

1009—R. T. 6695

Contract No. 4—Application by New York Municipal Railway Corporation for Approval of Relocation of Certain Signal Apparatus at Westerly End of Broadway Station of Canal Street Line—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations Classifying Work as Equipment of the Railroad—Approval Resolution

An application was presented from the New York Municipal Railway Corporation dated June 11, 1923, requesting approval to the relocation of certain signal apparatus at the westerly end of the westbound platform of the Broadway Station of the Canal Street Line, at an estimated cost of \$540.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated July 14, 1923, stating that the work is necessary and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations, dated July 19, 1923, classifying the work as Equipment of the Railroad.

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, the Receiver of said New York Municipal Railway Corporation, by communication dated June 11, 1923, has requested the approval of this Commission to the relocation of certain signal apparatus now located at the westerly end of the westbound platform of the Broadway Station of the low level subway in Canal Street, Borough of Manhattan; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer

of this Commission have, by communication dated July 14, 1923, reported that the estimated cost is \$540; that the work is necessary and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 19, 1923, recommended that such work be classified as Equipment of the Railroad,

Resolved, That said reports and recommendations so submitted be and the same hereby are adopted and that said proposal so made be and the same hereby is approved, such work to be classified as Equipment of the Railroad, as defined in said Contract No. 4.

1010—R. T. 6695, Gen. 1772

Contract No. 4—Application by New York Rapid Transit Corporation for Extension of Time of Two Months Within Which to Complete Plans, Specifications and Estimate of Cost for Installation of Complete Signal System on One Mile of Local Elevated Track—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Extension of Time to September 15, 1923—Motion Granting Extension of Time to August 15, 1923

An application was presented from the New York Rapid Transit Corporation, dated July 12, 1923, requesting an extension of time of two months within which to complete plans, specifications and estimate of cost for installing a speed control system of signals with automatic stops on one mile of local track on the elevated railroads.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated July 16, 1923, recommending that an extension of time be granted to September 15, 1923.

Upon motion, duly seconded and adopted, an extension of time was granted to August 15, 1923, within which to file such plans, specifications and estimate of cost.

1011—Case No. 1676

Nassau Bus Line, Inc.—Regulation Requiring Filing of Tariff Schedules—Report by Transit Bureau Regarding Failure of Company to File Tariff Schedule—Letter to Company Authorized

The Secretary presented a report dated July 19, 1923, by Frank Bennett, Assistant Chief of Transit Bureau, advising that the Nassau Bus Line, Inc., had not filed with the Commission its tariff schedule.

Thereupon the Secretary was authorized to advise the Nassau Bus Line, Inc., that its tariff schedule must be filed at once as required by the Order in Case No. 1676.

1012—Case No. 2627

Interborough Rapid Transit Company—Service and Equipment—Application for Modification of Service Order "A"—Hearing Resolution Adopted

The Secretary presented a communication dated July 3, 1923, from Frank Hedley, President of the Interborough Rapid Transit Company, asking for a modification of Service Order "A" in Case No. 2627 adopted May 2, 1922, so as to permit a reduction of service on subway lines during the summer months in non-rush hour periods from a three minute headway to a three and one-half minute headway.

Thereupon the Commission adopted and ordered filed a Resolution in Case No. 2627 directing a hearing on said application on July 31, 1923, at 10.30 A. M.

1013—Case No. 2680

Staten Island Edison Corporation—Application for Consent to Acquire and Hold Stock of Richmond Light and Railroad Company—Approval Order

The Secretary presented a supplemental petition dated July 20, 1923, of the Staten Island Edison Corporation, asking permission to acquire 28,717.5 shares of the outstanding common stock of the Richmond Light and Railroad Company and that petitioner be allowed to transfer all of said stock so acquired to the Irving Bank-Columbia Trust Company as collateral security under the mortgage to be delivered by petitioner to said bank, as Trustee.

The Secretary also presented two reports dated July 18 and July 23, 1923, from George H. Stover, Assistant Counsel, approved by Counsel to the Commission, recommending the granting of the application.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2680 in the following form:

At a Meeting of the Transit Commission held at its office,
No. 49 Lafayette Street, Borough of Manhattan, City
of New York, on the 24th day of July, 1923.

Present:

GEORGE McANENY, Chairman, LE ROY T. HARKNESS.	}	Commissioners.
---	---	----------------

IN THE MATTER
of the

Application of STATEN ISLAND EDISON CORPORATION
under Section 54 of the Public Service Commission
Law for consent to acquire, purchase and hold the
stocks, bonds and other liabilities of the Richmond
Light and Railroad Company.

CASE No. 2680

ORDER CONSENTING TO AC-
QUISITION OF STOCK OF
RICHMOND LIGHT AND
RAILROAD COMPANY.

Application having been made to this Commission by Staten Island Edison Corporation by petition dated March 8, 1923 and filed March 29, 1923, for the approval by the Commission of the acquisition by it of 28,717.5 shares of the outstanding common capital stock of the Richmond Light and Railroad Company and for like approval of the acquisition of such capital stock of Richmond Railways, Inc., as may issue pursuant to the Order in Case No. 2664, adopted by the Commission on March 27, 1923; and the said Staten Island Edison Corporation having, by supplementary petition dated and filed July 20, 1923, prayed among other things that this Commission consent that all the stock of Richmond Light and Railroad Company to be acquired by petitioner be transferred to and held by Irving Bank-Columbia Trust Company, for the purpose of collateral security under the mortgage to be executed and delivered by petitioner to Irving Bank-Columbia Trust Company, as Trustee, to secure the bonds of petitioner to be issued thereunder; and it appearing to the Commission that the Public Service Commission has, by order dated July 12, 1923, consented to the transfer by Richmond Light and Railroad Company to the Staten Island Edison Corporation and the acquisition by Staten Island Edison Corporation of the franchises, works and system and all other property and assets of said Richmond Light and Railroad Company, excepting the portion thereof directly devoted to its railroad operation, which railroad property is to be transferred to Richmond Railways, Inc., but including the bonds and capital stock of said Richmond Railways, Inc., to be issued in payment therefor, and has authorized the acquisition by Staten Island Edison Corporation of the capital stock of Richmond Light and Railroad Company now outstanding and the pledge of such capital stock under the mortgage of Staten Island Edison Corporation to Irving Bank-Columbia Trust Company; and the Commission being of the opinion that the prayer of said supple-

mentary petition should be granted without prejudice to the other matters contained in the original application of March 8, 1923, it is

Ordered:

(1) That the Staten Island Edison Corporation be and it hereby is authorized to purchase, acquire, take and hold all of the capital stock of Richmond Light and Railroad Company, consisting of 28,717.5 shares outstanding; and

(2) That the Commission hereby consents that all of the stock of Richmond Light and Railroad Company acquired by Staten Island Edison Corporation be transferred to and held by Irving Bank-Columbia Trust Company, for the purpose of collateral security under the mortgage to be executed and delivered by Staten Island Edison Corporation to Irving Bank-Columbia Trust Company, as Trustee, to secure the bonds of Staten Island Edison Corporation to be issued thereunder.

By the Commission,
JAMES B. WALKER,
Secretary.

1014—Case No. 2683

Concourse Bus Line, Inc.—Application for Certificate of Public Convenience and Necessity to Operate Stage Route by Auto Buses Upon Certain Streets in the Boroughs of Manhattan and The Bronx—Letter from Attorney for Company Advising of Extended Franchise Granted by Board of Estimate and Apportionment and Inquiring if Existing Certificate Is Sufficient—Referred to Counsel

The Secretary presented a communication dated July 19, 1923, from Max Monfried, Attorney for Concourse Bus Line, Inc., advising that The City of New York had granted a franchise to the company to commence August 1, 1923, for a six months period and inquiring if the Certificate of Public Convenience and Necessity granted by the Commission in Case No. 2683 would be sufficient.

Thereupon the above mentioned communication was referred to the Counsel to the Commission for his opinion.

1015—Case No. 1364

Belt Line Railway Corporation—Transfers on Street Surface Lines—Report by Assistant Counsel Stover Transmitting Copies of Briefs Filed on Behalf of Commission and District Attorney of New York County on Company's Motion to Overrule Exceptions Filed in United States District Court Action—Filed

The Secretary presented a report dated July 16, 1923, advising that on July 13, 1923, briefs on the motion of the plaintiff in the case of Belt Line Railway Corporation v. Newton to overrule the exceptions to the report of the Master, to confirm the said report and for final judgment enjoining the defendants, were exchanged and submitted to Judge Knox, and transmitting copies of briefs filed by the Commission and on behalf of the District Attorney of New York County.

Thereupon the above mentioned papers were ordered filed.

1016

New York Dock Railway—New Tariff Sheet Showing Reduction in Freight Charges—Report by Transit Bureau—Filed

The Secretary presented a report dated July 19, 1923, from Frank Bennett, Assistant Chief of Transit Bureau, approved by the Chief of Transit Bureau, transmitting new

tariff sheet designated as Supplement No. 1 to T. C. N. Y. No. 1 filed by the New York Dock Railway, showing reductions in freight charges and recommending the filing of same.

Thereupon the above mentioned papers were ordered filed.

1017—R. T. 7665

Routes Nos. 36 & 37, Section No. 1—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Proposed Contract with B. T. & J. J. Mack, Inc., for Installation of Switchback Track East of Queensboro Plaza Station and Authorizing Appropriation of \$31,562.50—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on July 13, 1923, was ordered filed:

(Cal. No. 175)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated June 27, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with B. T. & J. J. Mack, Inc., for the installation of a switchback track east of the Queensboro Plaza Station of the Queensboro Rapid Transit Railroad, Routes Nos. 36 and 37, Section No. 1, at an estimated cost of thirty-one thousand five hundred and sixty-two dollars and fifty cents (\$31,562.50), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be thirty-one thousand five hundred and sixty-two dollars and fifty cents (\$31,562.50); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding thirty-one thousand five hundred and sixty-two dollars and fifty cents (\$31,562.50) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, July 13, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1018—R. T. 6881

Order No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Readjustment of Appropriations Under Contract with John C. Orr Company for Hauling and Storing Treated Ties and Timber—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 29, 1923, was ordered filed:

(Cal. No. 206)

Whereas, The Board of Estimate and Apportionment, (1) on November 22, 1918, on requisition of the Public Service Commission for the First District, subauthorized and Apportionment on June 29, 1923, was ordered filed: porate stock, sixteen hundred dollars (\$1,600) to be charged against Contract No. 3, and sixteen hundred dollars (\$1,600) to be charged against Contract No. 4, to cover the cost of a contract with the John C. Orr Company for the continued storage, hauling, loading and unloading of treated ties and timber needed in the installation of tracks of

rapid transit railroads to be constructed under Contracts Nos. 3 and 4, and (2) on April 20, 1919 on the requisition of said Public Service Commission for the First District, subauthorized an additional appropriation of two thousand six hundred dollars (\$2,600), two hundred dollars (\$200) to be charged against Contract No. 3, and two thousand four hundred dollars (\$2,400), to be charged against Contract No. 4, for the purposes of said contract with the John C. Orr Company; and

Whereas, The expenditures from these subauthorizations charged against Contract No. 3 have aggregated one thousand seven hundred and ninety-nine dollars and eighty-six cents (\$1,799.86), and under Contract No. 4, three thousand nine hundred and eighty-one dollar and thirty-five cents (\$3,981.35), but on the basis of the work actually performed the charges against Contract No. 3 should be fifteen hundred and thirty dollars and sixty-two cents (\$1,530.62), and against Contract No. 4, should be four thousand two hundred and eighty-four dollars and fifty-nine cents (\$4,284.59), which will therefore necessitate an adjustment of the changes between Contracts Nos. 3 and 4, and a consequent rescindment of two hundred and sixty-nine dollars and thirty-eight cents (\$269.38) from the subauthorizations made for the purposes of Contract No. 3, and an additional subauthorization of two hundred and eighty-four dollars and fifty-nine cents (\$284.59) for the purposes of Contract No. 4; therefore be it

Resolved (1), That the sum of sixty-nine dollars and thirty-eight cents (\$69.38) be and hereby is *rescinded* from the subauthorization of sixteen hundred dollars (\$1,600) made by the Board of Estimate and Apportionment on November 22, 1918, for the purposes of Contract No. 50287 with the John C. Orr Company, and (2) that subauthorization of two hundred dollars (\$200) made by the Board of Estimate and Apportionment on April 25, 1919, for the purposes of said Contract No. 50287, be and hereby is *rescinded*, and (3) that the said sum of sixty-nine dollars and thirty-eight cents (\$69.38) and two hundred dollars (\$200) be credited back to the general appropriation of corporate stock for the purposes of Contract No. 3; and be it further

Resolved, That to provide funds to cover the cost of such work for the purposes of Contract No. 4, the Board of Estimate and Apportionment, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission, dated June 5, 1923 (without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void), does hereby authorize the Comptroller to issue corporate stock of The City of New York to an amount not exceeding two hundred and eighty-four dollars and fifty-nine cents (\$284.59), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value of the stock to be applied to liquidate the cost of that portion of work performed under said Contract No. 50287 with the John C. Orr Company, which is properly chargeable to Contract No. 4, said issue of corporate stock to be limited to the sum of two hundred and eighty-four dollars and fifty-nine cents (\$284.59), and to be charged against the general appropriation of corporate stock made by this Board to meet the City's obligations under Rapid Transit Contract No. 4.

Route No. 48, Section No. 1—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Proposed Agreement with Interborough Rapid Transit Company for Installation of Ventilating Manhole in Mail Street, Borough of Manhattan—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 29, 1923, was ordered filed:

(Cal. No. 195)

Resolved, That, pursuant to its resolution of July 19, 1922, and to the requisition of the Transit Commission to this Board, dated February 27, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent to

the agreement with the Interborough Rapid Transit Company (lessee) for the installation of a ventilating manhole at a point in Mail street, in the Borough of Manhattan, where the cable duct line of the Municipal Rapid Transit Railroad (Section No. 1, Route No. 48) crosses the steam main of the New York Steam Company that enters the Post Office Building.

Assistant Secretary.

1020—R. T. 7658

Contract No. 1—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Proposed Agreement with Interborough Rapid Transit Company for Construction of Additional Stairway at 225th Street Station and Authorizing Appropriation of \$2,750 as City's Share—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on June 29, 1923, was ordered filed:

(Cal. No. 208)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated June 13, 1923, the Board of Estimate and Apportionment does hereby consent to a proposed agreement with the Interborough Rapid Transit Company, as lessee, for the construction of an additional stairway to the northbound platform of the 225th Street Station of the Manhattan-Bronx Rapid Transit Railroad, as addition to construction, under Contract No. 3, at an estimated cost to The City of New York of two thousand seven hundred and fifty dollars (\$2,750), being one-half of the total estimated cost of said work, namely five thousand five hundred dollars (\$5,500), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be two thousand seven hundred and fifty dollars (\$2,750), and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding two thousand seven hundred and fifty dollars (\$2,750) at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said agreement; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

Street Changes—Certified Copies of Resolutions of Board of Estimate and Apportionment Establishing Roadway and Sidewalk Widths and Authorizing Removal of Encroachments on West 56th Street Between 5th and 7th Avenues, Borough of Manhattan—Filed

The following certified copies of the resolutions adopted by the Board of Estimate and Apportionment on July 13, 1923, were ordered filed:

(Cal. No. 85-A)

Resolved, By the Board of Estimate and Apportionment, that the widths of the roadway and sidewalks on West 56th street from the west curbline of 5th avenue to the east curbline of 7th avenue, Borough of Manhattan, be established as follows:

The roadway shall be centrally located and shall have a width of thirty-four (34) feet.

The width of the sidewalks on each side of the roadway shall be thirteen (13) feet;

—and be it further

Resolved, That all ordinances, permits or licenses heretofore adopted or granted by The City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which interfere with the proper support of the roadway, curb, and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments in accordance with the foregoing resolution.

Routes Nos. 4 & 38, Section No. 5—Communication from Acting Corporation Counsel Returning, Approved as to Form, Proposed Agreement with Interborough Rapid Transit Company for Changes in Subway Structure at Northeast Corner of West 30th Street and Seventh Avenue—Filed

A communication was ordered filed from Arthur J. W. Hilly, Acting Corporation Counsel, dated July 16, 1923, returning, approved as to form, a proposed agreement

with the Interborough Rapid Transit Company for making changes in the subway structure at the northeast corner of West 30th Street and Seventh Avenue, Borough of Manhattan, made necessary by the widening of the street at that point under the jurisdiction of the President of the Borough of Manhattan.

1030—R. T. 5058

Fourth Avenue Subway—Communication from Counsel Transmitting Original Recorded Agreement with Fain Knitting Mills for Additional Entrance to DeKalb Avenue Station—Filed

The Commission ordered filed a communication from Counsel, dated July 23, 1923, transmitting an original agreement, dated April 9, 1923, with Fain Knitting Mills and New York Consolidated Railroad Company for the construction, maintenance and operation of an additional entrance to the DeKalb Avenue Station of the Fourth Avenue Subway through the premises at No. 571 Fulton Street, Borough of Brooklyn, which agreement was recorded on June 26, 1923, in the Office of the Register of Kings County in Liber 4288, Page 275, Block 2093A of Conveyances.

1031

Lease—Proposed Lease with William T. Richensteen and Others for West Side of Second Floor of Premises at No. 62-64 Jackson Avenue, Long Island City, for Term of One Year from August 1, 1923—Approval Resolution

The following resolution was adopted:

Resolved, That the Commission approve a proposed lease prepared and now submitted by Counsel of the west side of the second floor of the premises, 62-64 Jackson Avenue, Long Island City, for the term of one year from the 1st day of August, 1923 to the 1st day of August, 1924, at the annual rental of \$600, payable in monthly installments of \$50 each, for the purpose of maintaining a section office for the use of the Chief Engineer and that the Chairman and the Secretary of the Commission be and they are hereby authorized to execute the same.

1032

Fees Received During June, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of June, 1923, fees, etc., to the amount of \$92.62 and refunds of rental from rapid transit real estate to the amount of \$4,434.00 had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$92.62 to be accredited to the General Fund of The City of New York and the sum of \$4,434.00 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as Rentals and proceeds of the sale of properties in the same proceeding and held available for the purposes of the Commission, as provided in the Rapid Transit Act.

1033

Employees' Resolution No. 155

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—William Y. Llewelyn, inspector of steel, at \$175.00 per month, to take effect July 23, 1923; William Russell, engineering inspector,

at \$150.08 per month, to take effect July 23, 1923; August J. Zimmerman, junior assistant, at \$125.08 per month, to take effect July 23, 1923.

Appointment under Rule VIII:9—W. H. Ahearn, consulting traffic expert, at \$50.00 per day, employed May 1, 1923.

Resignations—Nathaniel W. Blanchard, junior electrical engineer, at \$162.50 per month, to take effect July 31, 1923; Ralph Eberlin, junior engineer, at \$152.50 per month, to take effect July 31, 1923; H. R. Gabriel, draftsman, at \$150.08 per month, to take effect July 13, 1923; Harry W. Henderson, draftsman, at \$150.08 per month, to take effect July 21, 1923; C. F. Jehlen, assistant electrical engineer, at \$291.66 per month, to take effect August 31, 1923; Benjamin Leibowitz, junior clerk, at \$60.00 per month, to take effect July 19, 1923; Wilmer F. Lucas, accountant, at \$150.08 per month, to take effect July 21, 1923.

Promotion—Charles Kessler, chauffeur, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923.

Leave of Absence Without Pay—David Apter, draftsman, from July 1, 1923 to July 31, 1923.

Leave of Absence With Pay—David Apter, draftsman, from August 1, 1923 to August 31, 1923; Cecelia W. Teale, stenographer, from July 9, 1923 to July 14, 1923.

1034

Voucher Schedule No. 30

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 728-765, open market orders, \$2,954.16; Vouchers Nos. 374-385, miscellaneous bills, \$903.55; Voucher No. 16, Special payroll, \$1,500;

Estimates by Chief Engineer of Value of Work Done and Material Furnished for Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 190, John C. Orr Company; final estimate for storing, insuring and transporting ties and timber for rapid transit railroads, from December 20, 1918, to January 31, 1923 (R. T. 6881) \$34.00;

Voucher No. 191, Interborough Rapid Transit Company; approximate estimate No. 3 for remedying the leaky condition of the mezzanine roofs of eight stations on Jerome Avenue and five stations on White Plains Road Lines, from December 1, 1922, to May 31, 1923 (R. T. 7494) \$3,672.33;

Voucher No. 192, Jacob Schlesinger, Inc.; approximate estimate No. 1 for the construction of inspection shed and service buildings at the Jerome Avenue Yard, Route No. 16, from May 23, 1923 to July 6, 1923 (R. T. 7636) \$12,488.26.

1038—R. T. 7653

Agreement "CN"—Report by Chief Engineer Recommending Readvertisement for Bids for Making Changes in Subway Structure at Broadway Incidental to Widening of West 32nd Street and for Construction of Ventilation Flue at Broadway and West 32nd Street—Approval Resolution

A report was presented from the Chief Engineer, dated July 27, 1923, recommending that bids be readvertised for making changes in the subway structure at Broadway incidental to the widening of West 32nd Street and for the construction of a ventilation flue at Broadway and West 32nd Street, in view of the action by the Board of Estimate and Apportionment on July 13, 1923, in referring back a proposed contract for such work.

The following resolution was adopted:

Whereas, This Commission heretofore adopted the proposed invitation to Contractors, Information for Contractors, and Forms of Contract, Bond and Contractor's

Proposal, together with the specifications and contract drawings for making changes in the subway structure at Broadway, incidental to the widening of West 32nd Street, and the construction of a ventilation flue at West 32nd Street and Broadway, Routes Nos. 4 & 36, Section No. 2, Borough of Manhattan, Agreement "CN," and thereafter, pursuant to public advertisement, received bids for the performance of the work on June 21, 1923; and

Whereas, This Commission, by resolution adopted June 27, 1923, awarded said proposed contract to the second low bidder, D. C. Serber, and transmitted said proposed contract, together with a requisition for the appropriation of the sum estimated to be necessary to meet the obligations of the City thereunder, to the Board of Estimate and Apportionment of the City of New York, which Board, by resolution adopted on July 13, 1923, referred back said proposed contract and requisition to this Commission for readvertising; and

Whereas, The Chief Engineer of this Commission, by communication dated July 27, 1923, has recommended that said proposed contract, as heretofore adopted, be readvertised,

Resolved, That said report and recommendation be and the same hereby is approved; that the said Invitation to Contractors, forming part of said proposed contract, as heretofore adopted, be published in the City Record every day of publication from and including August 3, 1923 to and including August 17, 1923 and on August 6, 1923 and August 13, 1923 in The Commercial and The Sun and The Globe, daily newspapers published in the City of New York and that such bids as shall be received shall, on the 17th day of August, 1923, at eleven-thirty (11:30) o'clock, A. M., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

1039—R. T. 7591

Route No. 70-A—Resolution Rescinding Route and General Plan for Jackson Avenue, Newtown Creek and Manhattan Avenue Route and Directing Request to Board of Estimate and Apportionment to Return Route Without Further Consideration—Adopted

The following resolution was adopted:

Whereas, This Commission by resolution adopted on May 15, 1923 established a route and general plan for a proposed rapid transit railway in the Boroughs of Queens and Brooklyn, City of New York, known as the Jackson Avenue, Newtown Creek and Manhattan Avenue Route, Route No. 70-A and thereafter in accordance with the requirements of the provisions of the Rapid Transit Act transmitted said route and general plan to the Board of Estimate and Apportionment of the City of New York for its consideration and approval; and

Whereas, Said route and general plan was thereafter submitted by said Board of Estimate and Apportionment to its Committee on Transportation Facilities, which committee in conference with the Transit Commission has considered said route and general plan and the making of certain changes and modifications therein so as to provide for a through subway connection to the Borough of Manhattan instead of connecting with the elevated structure on the Queensborough Plaza of the Queensborough Bridge; and

Whereas, This Commission has, by resolution adopted coincidentally herewith, established the route and general plan of a proposed rapid transit railway in the Boroughs of Queens and Brooklyn, known as the North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route, Route No. 70-A-1, which incorporates the changes so agreed upon between the said committee of the Board of Estimate and Apportionment and this Commission, and is submitting said route to the Board of Estimate and Apportionment for its consideration and approval; and

Whereas, There is no longer any need for retaining said Route No. 70-A which is now supplanted by said Route No. 70-A-1,

Resolved, That said resolution of May 15, 1923 adopting the route and general plan for the said Jackson Avenue, Newtown Creek and Manhattan Avenue Route, Route No. 70-A be and the same hereby is in all respects rescinded, and that the Secretary of this Commission be and hereby is authorized and directed to request the Board of Estimate and Apportionment to return said Route No. 70-A to this Commission without further consideration thereon.

1040—R. T. 7591

Route No. 70-A-1—Resolution Adopting Route and General Plan for North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

NORTH JANE STREET, JACKSON AVENUE, NEWTOWN CREEK AND MANHATTAN AVENUE ROUTE, (ROUTE No. 70-A-1).

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Boroughs of Queens and Brooklyn, the center line of which shall begin at a point in the Borough of Queens at or near the intersection of Vernon Avenue and North Jane Street, where a connection can conveniently be made with the existing rapid transit railroad; thence extending easterly along and under North Jane Street and/or along, under and across Queensboro Bridge right-of-way and intervening streets to a point in North Jane Street and/or Queensboro Bridge right-of-way at or near Prospect Street; thence curving southwesterly across and under Queensboro Bridge right-of-way, South Jane Street, Hunter Avenue and private property to a point in Jackson Avenue at or near Henry Street; thence southwesterly along and under Jackson Avenue to a point at or near Vernon Avenue; thence southerly along and under Vernon Avenue to Newtown Creek; thence under Newtown Creek to Manhattan Avenue in the Borough of Brooklyn; thence southerly along and under Manhattan Avenue to a point at or near Clay Street where a connection can conveniently be made with other proposed rapid transit railroads.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by surface or subsurface structures or other special or local necessities, and at stations and curves and for the purpose of avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be practicable except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches and, if necessary, for the purpose of tunneling by the shield method, the tracks or any one or more of them may be diverted as far as necessary to either side or both sides of said streets or any of

them. Any part of the longitudinal streets of the route may be occupied so far as the purpose of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, unless it shall be necessary to tunnel by the shield method, in which event the tracks may be placed in tubes which shall not exceed twenty (20) feet outside diameter; except that at stations, station approaches, fan chambers, emergency exits, duct man-holes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear or such diameter may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, unless it shall be necessary to tunnel by the shield method, in which event the tracks may be placed in tubes not exceeding twenty (20) feet outside diameter, as aforesaid; except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width or diameter may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks may be placed in the same subway or tunnel, or there may be separate subways or tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half ($8\frac{1}{2}$) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional track for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railway.

Station and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction of the route shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or

other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place. The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAP OR DRAWING

It Is Further Resolved, That the map or drawing entitled "State of New York Transit Commission, Engineering Department, Route & General Plan, Route No. 70-A-1, North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route, Boroughs of Queens and Brooklyn," dated July 25, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The following communication to the Board of Estimate and Apportionment was approved:

July 31, 1923.

To the BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Under and in accordance with the provisions of the Rapid Transit Act (Chapter 4 of the Laws of 1891 as amended) the Transit Commission submits herewith for the approval of your Honorable Board and the approval of the Mayor of the City, a certified copy of a resolution adopted by it on July 31, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad to be known as the North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route (Route No. 70-A-1).

This route begins at a point in the Borough of Queens, at or near the intersection of Vernon Avenue and North Jane Street where a connection can conveniently be made with the existing rapid transit railroad, and extends thence easterly along and under North Jane Street and/or along, under and across Queensboro Bridge right-of-way and intervening streets to a point near the Plaza of the Queensboro Bridge; thence curving southeasterly to Jackson Avenue; thence extending southwesterly and southerly along and under Jackson Avenue, Vernon Avenue, Newtown Creek and Manhattan Avenue, in the Borough of Brooklyn, to a point at or near Clay Street, where a connection can conveniently be made with other proposed rapid transit railroads.

Dated, July 31, 1923.

Attest:
JAMES B. WALKER
Secretary.

TRANSIT COMMISSION,
By GEORGE MCANENY,
Chairman.

1041—R. T. 7652

Route No. 45, Section No. 2—Communication from Board of Estimate and Apportionment Advising of Failure to Approve Proposed Contract with Patrick McGovern, Inc.—Referred to Chairman

The following communication was referred to the Chairman with power:

(Cal. No. 50)

July 25, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Sirs:

At the meeting of the Board of Estimate and Apportionment on July 13, 1923, a resolution proposing to give the consent of this Board to a proposed contract with

Patrick McGovern, Inc., for the construction of Route No. 45, Section No. 2, (Broad and Nassau Streets) of the Broadway-Fourth Avenue Rapid Transit Railroad, and authorizing an appropriation of \$5,976,085.50 for the purpose thereof, was *lost*, all the members of the Board having voted in the negative on the proposed resolution.

Respectfully,
 JAMES MATTHEWS,
 Assistant Secretary.

1042—R. T. 3083, 2008, 7007

Contract No. 1—Proposed Communication to Board of Estimate and Apportionment Requesting Consolidation of All Various Existing Accounts for Extra Work Into One Account from Which All Future Charges May Be Paid—Approval Resolution

The following communication was approved:

July 31, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
 OF THE CITY OF NEW YORK.

Gentlemen:

Pursuant to the provisions of the contract dated February 21, 1900, between The City of New York, acting by the Board of Rapid Transit Commissioners for The City of New York and John B. McDonald for the construction and operation of the Manhattan-Bronx Rapid Transit Railroad, known as Contract No. 1, there have been performed numerous details of work which could not specifically be included in the original contract or indicated upon the plans made part thereof, but which work, wherever it might be needed, was provided for in the contract by the Rapid Transit Board having the right, during the progress of the work, to amplify the plans and to require additional work to be done or additional materials to be furnished, or both, within the general purview of a rapid transit railroad as described in the general plan, which work is contractually called and commonly referred to as "Extra Work." This work was authorized and has been prosecuted at various times between the date of said contract and the present time. While the character of the work was in all respects contractually similar, to wit, Extra Work as understood and defined in said Contract No. 1, the practice has been, in most instances, to approve an agreement modifying Contract No. 1 for the specific unit of additional work then under consideration and to appropriate, for the purpose of said agreement, the money estimated to be necessary to meet the cost thereof.

This practice has resulted in the establishment of almost as many separate, independent appropriations as there are modifying agreements and has entailed the additional bookkeeping and administration incident to the control and supervision of an unnecessarily large number of accounts, whereas, in the opinion of the Commission the proper and more efficient practice would have been to establish one "Extra Work" Fund or account supplementing it from time to time as the additional units were found to be necessary and approved and authorized by the Board of Estimate and Apportionment. The further result of the above outlined procedure is that there exists in the numerous accounts odds and ends of appropriations for which no further purpose can be foreseen.

While the provisions of Contract No. 1 authorizing the performance of Extra Work has been suspended by virtue of the provisions of the contract dated March 19, 1913, known as Contract No. 3, there remains to be performed as Extra Work under Contract No. 1 those details which have been authorized but not completed. There are also such other units of work which must necessarily be performed under Contract No. 1 in view of the definition of Existing Railroads under Contract No. 3, which requires that matters *initiated* prior to the beginning of the lease under Contract No. 3 pertaining to the Manhattan-Bronx Rapid Transit Railroad shall be performed as Extra Work under Contract No. 1 and the work of constructing the additional entrance at 168th Street Station of said railroad, which may be eliminated from consideration here inasmuch as it is performed under a contract with an independent contractor, to which a separate code is assigned.

The Commission therefore feels that all of the unneeded balances of odds and ends of appropriations hereinbefore referred to made for the purposes of Contract No. 1

and which, in the beginning, should have supplemented the appropriation for extra work be now closed and transferred into one single account to be known and referred to as "Extra Work, Contract No. 1" and from which all future charges for Extra Work under Contract No. 1, for whatever purpose, may be charged and paid. If the aggregate of such balances prove in the future not to be sufficient, the Commission then can request a supplemental appropriation to said consolidated and unified fund for the purposes to be therein indicated. The Commission is firmly convinced that such action would avoid much time and the confusion of carrying dead accounts, create a ready reservoir for the existing and future necessities of Extra Work under Contract No. 1 by the utilization of such unexpended balances which would obviate to such extent the further authorization of corporate stock for future Extra Work requirements under Contract No. 1.

The Commission accordingly hereby requests your Honorable Board to take such action as may be necessary to transfer to and consolidate all the various existing accounts for Extra Work under Contract No. 1 to one single account to be known as Extra Work, Contract No. 1. This will not apply to the appropriation provided for the construction of the additional entrance at the 168th Street Station of the Manhattan-Bronx Rapid Transit Railroad. Such action also will not affect the requirement to submit to and procure the approval of your Honorable Board to the carrying out of new units of Extra Work or any increase in the quantity of work of completing units already authorized.

TRANSIT COMMISSION,
BY GEORGE MCANENY,
Chairman.

The following resolution was adopted:

Resolved, That this Commission do and hereby does approve and adopt the proposed requisition now submitted by Counsel upon the Board of Estimate and Apportionment, requesting said Board to consolidate and unify all the various existing accounts for Extra Work under Contract No. 1, into one account to be known and referred to as "Extra Work, Contract No. 1" from which all future charges for Extra Work under Contract No. 1, for whatever purpose, may be charged and paid, and that said requisition so adopted be transmitted to said Board of Estimate and Apportionment.

1043—R. T. 7612

Agreement "CG"—Report by Chief Engineer Recommending Extension of Time to July 14, 1923, Within Which to Complete Contract for Concreting Voids Under Platform of Eighth Street Station—Approval Resolution

A report was presented from the Chief Engineer, dated July 25, 1923, recommending that an extension of time be granted to Edwards & Flood, Inc., from June 12, 1923, to and including July 14, 1923, within which to complete all work under the contract for concreting voids under the platform of the Eighth Street Station of the Broadway-Fourth Avenue Line, Agreement "CG."

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission, by communication dated July 25, 1923, has reported with respect to the completion of the work under the contract dated April 2, 1923, between The City of New York, acting by the Transit Commission, and Edwards & Flood, Inc. (Agreement "CG") for concreting voids under platform of Eighth Street Station of the Broadway-Fourth Avenue Line, Route No. 5, Section No. 4, and for the reasons therein more particularly set forth has recommended that the time for the completion of all the work under said contract be extended from June 12, 1923 to and including July 14, 1923,

Resolved, That said report and recommendation be and the same hereby is approved; that the time of Edwards & Flood, Inc., within which to complete all the work under the contract aforesaid be and the same hereby is extended to and including July 14, 1923, provided, however, that such extension of time shall not take effect unless and until there shall be filed with this Commission a consent in writing in form to be approved by Counsel to this Commission by the sureties upon the bond deposited as security for the faithful performance of said contract by said contractor, to the extension of time herein provided for.

1044—R. T. 7108

Routes Nos. 4 & 36, Section No. 4—Resolution Declaring Additional Crossover at Broadway and 44th Street Ready for Operation—Adopted

The following resolution was adopted:

Resolved, That under and in pursuance of the provisions of the contract known as Contract No. 4, dated March 19, 1913, made between the City of New York, acting by the Public Service Commission for the First District, and the New York Municipal Railway Corporation, the Commission hereby declares the following portion of the Broadway-Fourth Avenue Line as described in said Contract No. 4 to be ready for operation at 7 A. M. o'clock on Sunday, August 5th.

The additional crossover between Tracks 3 and 4 at Broadway and 44th Street of the Broadway-Fourth Avenue Line (approximate general stationing Station 37/76 to 33/29) known as Special Work Portion 115 connecting with the original single crossover at the same location.

1045—R. T. 7600

Route No. 52, Section No. 1—Report by Chief Engineer Recommending Approval of Substitution of Timber Piles for Reinforced Concrete Piles—Referred to Commissioner O'Ryan

A report was presented from the Chief Engineer dated July 31, 1923, recommending approval to the substitution of timber piles for reinforced concrete piles under the contract with Gustin-Morris Contracting Corporation for the construction of column foundations for Section No. 1 of Route No. 52, Flushing Line. The matter was referred to Commissioner O'Ryan.

1046—R. T. 3003

Contracts Nos. 1 and 2—Communication from Department of Finance Requesting Statement of Rental Due City from Interborough Rapid Transit Company for Quarter Ended March 31, 1923—Copy of Reply Approved

A communication was presented from the Department of Finance, by Arthur J. Philbin, Deputy Comptroller, dated April 5, 1923, requesting a statement of rental due the City from the Interborough Rapid Transit Company for the quarterly period ended March 31, 1923, under the contracts for the Manhattan-Bronx and Brooklyn-Manhattan Rapid Transit Railroads.

A copy of the following reply was approved:

April 25, 1923.

Rentals under Contracts No. 1 and No. 2 for Quarterly Period ended March 31, 1923.
HON. CHARLES L. CRAIG, Comptroller,
Department of Finance,
Municipal Building,
New York City.

Dear Sir:

Receipt is acknowledged of a communication dated April 5, 1923, from Mr. A. J. Philbin, Deputy Comptroller, (Reference "Accountancy") transmitting "copies of statements and letter sent to the Interborough Rapid Transit Company with respect to the amount of rental payable by said Lessee Company for the quarterly period ended March 31, 1923, under the provisions of the contracts for operation of the Manhattan-Bronx and the Brooklyn-Manhattan Rapid Transit Railroads (Contracts Nos. 1 and 2)," and requesting that your Department be furnished with the usual statements for said quarterly period, containing the information classified and arranged as in the quarterly statements heretofore prepared.

The statements are reported by our Bureau of Accounting and Valuations to be correct except in the particular to which the attention of your office has been directed in previous communications on this subject. In the tabulation given below comparison is made between the rental as computed by your Department and as adjusted to conform with the records of the Transit Commission. The comparison shows your rental figures for Contract No. 1 to be excessive in the amount of \$275.84.

	Department of Finance		Transit Commission	
	Amount	%	Amount	%
Total outlays to March 31, 1923, on account of construction; terminals; interest, etc.	\$51,493,515.49	95.742182	\$51,493,515.49	95.682813

Adjustment of Rental (Reduction).....		<u>\$275.84</u>

[July 31, 1923

If you desire, I shall be pleased to designate a representative of the Transit Commission to confer with your Department, with a view to bringing this matter to a conclusion.

Yours very truly,
 JAMES B. WALKER,
 Secretary.

1047—R. T. 3003

Contracts Nos. 1 and 2—Communication from Department of Finance Requesting Statement of Rental Due City from Interborough Rapid Transit Company for Quarter Ended June 30, 1923—Copy of Reply Approved

A communication was presented from the Department of Finance, by Arthur J. Philbin, Deputy Comptroller, dated July 14, 1923, requesting a statement of rental due the City from the Interborough Rapid Transit Company for the quarterly period ended June 30, 1923, under the contracts for the Manhattan-Bronx and Brooklyn-Manhattan Rapid Transit Railroads.

A copy of the following reply was approved:

July 28, 1923.

Rentals under Contracts Nos. 1 and 2 for Quarterly Period ended June 30, 1923.

Hon. CHARLES L. CRAIG, Comptroller,
 Department of Finance,
 Municipal Building,
 New York City.

Dear Sir:

Receipt is acknowledged of a communication dated July 14, 1923, from Mr. A. J. Philbin, Deputy Comptroller, (Reference "Accountancy") transmitting "copies of statements and letter sent to the Interborough Rapid Transit Company with respect to the amount of rental payable by said Lessee Company for the Quarterly period ended June 30, 1923, under the provisions of the contracts for operation of the Manhattan-Bronx and the Brooklyn-Manhattan Rapid Transit Railroads (Contracts Nos. 1 and 2)," and requesting that your Department be furnished with the usual statements for said quarterly period, containing the information classified and arranged as in the quarterly statements heretofore prepared.

The statements are reported by our Bureau of Accounting and Valuations to be incorrect in the particular to which the attention of your office has been directed in previous communications. The method used by your Department in computing the rental for the quarter year ended June 30, 1923 is considered inequitable in that 100% of the interest accrued on notes issued for construction purposes under Contract No. 1 is charged to the Interborough Rapid Transit Company, although the expenditures from such notes have been included in the amounts used in computing the percentage of the bond interest chargeable to the Company. In the tabulation given below comparison is made between the rental as computed by your Department and as adjusted to conform with the records of the Transit Commission. The comparison shows your rental figures for Contract No. 1 to be excessive in the amount of \$959.94.

	Department of Finance		Transit Commission	
	Amount	%	Amount	%
Total outlays to June 30, 1923 on account of Construction; terminals; interest, etc.....	\$51,515,102.81		\$51,515,102.81	95.743890

1048—R. T. 4007

Contract No. 1—Report by Commissioner O’Ryan Concurring in the Recommendation of the Chief Engineer for the Lengthening of Local Station Platforms to 480 Feet—Resolution Directing Hearing Be Held

A report was presented from Commissioner O’Ryan, dated July 30, 1923, concurring in the recommendation by the Chief Engineer for the lengthening to 480 feet of the local station platforms between Brooklyn Bridge and Grand Central stations, with the exception of 33rd Street Station, and between Times Square station and 96th Street station.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission has recommended the lengthening of the following local stations, to wit: Worth Street, Canal Street, Spring Street, Bleecker Street, Astor Place, 18th Street, 23rd Street, 28th Street, 50th Street, 59th Street (Columbus Circle), 66th Street, 79th Street, 86th Street and 91st Street of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads, as defined in the contract dated March 19, 1913 between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, to 480 feet for the purpose of permitting of operation of ten-car trains at said local stations; and

Whereas, This Commission is of the opinion that before final approval to said recommendation is given a hearing upon the question of lengthening such stations should be held,

Resolved, That a hearing upon the question of the lengthening of the platforms of the aforesaid stations to 480 feet for the purpose of accommodating ten-car trains, be held by and before this Commission at its office, No. 49 Lafayette Street, in the Borough of Manhattan, City of New York, on August 9, 1923 at 10.30 A. M., and that a certified copy of this resolution be transmitted to Interborough Rapid Transit Company.

1049—R. T. 7368

Contract No. 3—Report by Chief Engineer Recommending Modification of Resolution of July 17, 1923, Approving Supplementary Schedule Items for Pull Boxes and Panel Board Boxes Under Contract for Second Addition to Shops at Lenox Avenue and 148th Street Yard so as to Substitute Price for Pull Boxes—Modifying Resolution

A report was presented from the Chief Engineer, dated July 21, 1923, recommending that the resolution adopted on July 17, 1923, approving supplementary schedule items for cast iron pull boxes and panel board boxes under the contract for Second Addition to Shops at the Lenox Avenue and 148th Street Yard, be modified so as to substitute the price of \$6.10 each in place of \$5.10 for 6-inch by 6-inch by 6-inch cast iron pull boxes.

The following modifying resolution was adopted:

Whereas, By resolution adopted July 17, 1923, this Commission, pursuant to the provisions of Item 150 of the contract dated May 23, 1922, between The City of New York, acting by the Transit Commission, and Jacob Schlesinger, Inc., for the construction of the Second Addition to Shops, Lenox Avenue and 148th Street Yard, Contract No. 3, approved of the action of the Acting Chief Engineer of this Commission in adopting the following supplemental schedule item:

Item No. 797 (a) For furnishing and installing complete 6-inch by 6-inch by 6-inch cast iron pull boxes, the sum of Five and 10/100 Dollars (\$5.10) each.

; and

Whereas, The Chief Engineer of this Commission, by communication dated July 21, 1923, has reported with respect to such matter as follows:

In letter of July 18, 1923 the Contractor calls attention to the fact that the price of 6-inch by 6-inch by 6-inch cast iron pull boxes should be \$6.10 instead of \$5.10. The price of \$5.10 for the 6-inch by 6-inch by 6-inch cast iron pull boxes was an inadvertent error due to a poor copy of letter being used. The price of \$6.10 is reasonable and I thereby submit the following

Recommendation: That resolution of July 17, 1923 approving the above Supplementary Schedule Items be modified so that Item No. 797 (a) reads as follows:

For furnishing and installing complete, 6-inch by 6-inch by 6-inch cast iron pull boxes, the sum of Six and 10/100 Dollars (\$6.10) each.

Resolved, That said report and recommendation be and the same hereby is approved and that the resolution of July 17, 1923 be and the same hereby is modified by striking from Item No. 797 (a) the words and figures "Five and 10/100 Dollars (\$5.10)" and by substituting in place thereof the following: *Six and 10/100 Dollars (\$6.10).*

1050—R. T. 7007

Contract No. 1—Resolution Modifying Resolution of July 24, 1923, Approving Proposed Purchasing Agent's Order by Interborough Rapid Transit Company for 850,000 Feet of Cable for Installation in Connection with Multiple Door Control on 982 Subway Cars so as to Substitute Reference to Different Class of Material to Be Furnished—Adopted

The following resolution was adopted:

Whereas, This Commission, on July 24, 1923, adopted a resolution approving, as therein more particularly set forth, the proposed purchasing agent's order dated July 6, 1923, directed to Okonite Company for 850,000 feet of cable for use in the installation of the multiple door control on 982 subway cars, as submitted by Interborough Rapid Transit Company under date of January 30, 1923, which order inadvertently included the report of the Auditor of Rapid Transit Costs upon another subject,

Resolved, That said resolution of July 24, 1923 be and the same hereby is modified by striking therefrom the following:

"Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 20, 1923, recommended that said proposed purchasing agent's order be approved upon the following conditions:

- (1) That the cost of the unilets and covers required for original installation in the 982 subway cars be classified as Contract No. 1 Equipment in so far as cost is paid out of moneys provided under the Saratoga Award.
- (2) That the cost of the unilets and covers in excess of the number required for original installation in the 982 subway cars be charged to Operating Materials and Supplies Account.'

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such approval being given upon condition (1) that the cost of the unilets and covers required for original installation in the 982 subway cars be classified as Contract No. 1 Equipment in so far as cost is paid out of moneys provided under the Saratoga Award, and (2) that the cost of the unilets and covers in excess of the number

required for original installation in the 982 subway cars be charged to Operating Materials and Supplies Account."

and by substituting in place thereof the following:

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by communication dated July 20, 1923, recommended that said proposed purchasing agent's order be approved upon the following conditions:

- (1) That pursuant to the Commission's approval resolution of January 30, 1923:
 - (a) the cost of cable required for installation in the 982 subway cars less the original cost of cable removed incidental to the installation of additional safety features be classified as Contract No. 1 Equipment in so far as cost is payable out of moneys provided under the Saratoga Award.
 - (b) the cost of cable required for installation in the 982 subway cars equal to the original cost of cable removed incidental to the installation of additional safety features be classified as Replacements of Existing Equipment.
- (2) That the cost of cable required for original installation in the 100 trailer cars be classified as Additional Equipment for the Railroad under Work Order No. IBA-3, heretofore approved.
- (3) That the cost of cable in excess of that required for the above purposes be charged to Operating Materials and Supplies Account.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form approval of this Commission made part of said proposed purchasing agent's order, such approval being upon condition (1) that pursuant to the Commission's approval resolution of January 30, 1923; (a) the cost of cable required for installation in the 982 subway cars less the original cost of cable removed incidental to the installation of additional safety features be classified as Contract No. 1 Equipment in so far as cost is payable out of moneys provided under the Saratoga Award, (b) the cost of cable required for installation in the 982 subway cars equal to the original cost of cable removed incidental to the installation of additional safety features be classified as Replacements of Existing Equipment. (2) that the cost of cable required for original installation in the 100 trailer cars be classified as Additional Equipment for the Railroad under Work Order Number IBA-3, heretofore approved, and (3) that the cost of cable in excess of that required for the above purposes be charged to Operating Materials and Supplies Account.

Further Resolved, That said resolution of July 24, 1923, as hereby amended be and hereby is in all respects confirmed and approved.

1051—R. T. 6668, 7011

Contract No. 4—Application by New York Rapid Transit Corporation Requesting Approval of Proposed Purchasing Agent's Order for Drainage Pumps for 14th Street-Eastern Line—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated July 16, 1923, requesting approval of a proposed purchasing agent's order, dated July 10, 1923, directed to Rumsey Pump & Machinery Company for furnishing drainage pumps for the 14th Street-Eastern Line at a cost of \$3,045.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer, dated July 25, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the material as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has submitted, for the approval of this Commission, a proposed purchasing agent's order dated July 10, 1923, directed to Rumsey Pump & Machinery Company for the following:

- 2 Motor-driven, 5" x 8", Triplex Reciprocating Pumps, each having a capacity of 100 gallons per minute against a 60-foot head. Pumps to be equipped with a 5 H. P. direct connected motor, together with controllers, sump switch, float, pulleys and chains, all in accordance with our specifications dated May 12th, 1923
For the total lump sum of..... \$2,180.00
- 1 Motor-driven, centrifugal pump, having a capacity of 500 gallons per minute, pump to be equipped with a 15 H. P. direct connected motor, together with shaft, bearings, controller, sump switch, float and brass connecting rod, all in accordance with our specifications dated March 20th, 1920
For the lump sum of..... \$865.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 362"; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated July 25, 1923, reported that the following bids were taken for such pumps:

	2 100-gal. Pump	1 500-gal. Pump	Total Price
Rumsey Pump and Mach. Company	\$2,180.00	\$865.00	\$3,045.00
Morris Machine Works	No bid	1,252.50
Worthington Pump and Mach. Corp.	2,620.00	1,314.00	3,934.00
Gould Mfg. Co.	2,930.00	1,160.00	4,090.00
Yeomans Bros.	No bid	1,653.00

; that the pumps are a necessary part of the standard equipment of the 14th Street-Eastern Line of the Railroad described in said Contract No. 4; that the prices are reasonable and the best obtainable; that the specifications submitted with the said proposed purchasing agent's order are satisfactory from an engineering standpoint and accordingly recommend that the said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated July 27, 1923, has recommended that such material be classified as Equipment of the Railroad,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such approval being upon condition that the said material shall be classified as Equipment of the Railroad, as defined in said Contract No. 4.

1052—R. T. 6416, 6481, 7007

Route No. 52—Communication from Acting Engineer of Equipment and Operation and Chief Engineer Requesting Advice as to Policy in Regard to Operation of Wooden Cars Over Flushing Extension—Motion Directing that no Wooden Cars Be Permitted to Operate—Adopted

A communication was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer, dated July 25, 1923, calling attention to the present conditions

under which wooden cars are used by the Interborough Rapid Transit Company and the New York Rapid Transit Corporation for the joint operation of the Corona Line, and requesting advice as to the policy in regard to the future operation of the Flushing Extension.

On motion, duly seconded and adopted, it was directed that no wooden cars be permitted to be used in the operation of the Flushing Extension when built, and the Secretary was directed to notify the lessee companies of such decision.

1053

Contract No. 2—Communication from Commissioner of Parks Submitting Complaint of Mr. Louis L. Tribus as to Congestion Between Subway Entrances at South Ferry—Report by Chief Engineer Recommending Cutting Back of Subway Stairway Landings and Removal of Newsstand and Light Pole—Report Approved

A communication dated July 12, 1923 was presented from Hon. Francis D. Gallatin, Commissioner of Parks, transmitting a complaint from Mr. Louis L. Tribus, dated June 29, 1923, as to congested conditions between the subway entrances at South and Whitehall Streets due to obstruction caused by projecting subway stairway landings and the interference by a newsstand and electric light pole.

A report was presented from the Chief Engineer dated July 28, 1923, recommending that the corners of the subway stairway landings be cut back so that a minimum passageway of fourteen feet in width will be provided between the stairway landings, instead of ten feet as now existing, and suggesting that the Park Commissioner be requested to arrange for the removal of the newsstand and the electric light pole at that point.

Upon motion, duly seconded and adopted, the recommendation of the Chief Engineer was approved and the Secretary was directed to request the Commissioner of Parks to arrange for the removal of the newsstand and the electric light pole.

1054

Contract No. 2—Communication from State Island Chamber of Commerce Submitting Suggestion of Mr. O. J. Thomen for Construction of Moving Sidewalks to Connect Subway Stations at South Ferry with Staten Island Ferry House—Report by Chief Engineer Recommending Disapproval—Motion Approving Report by Chief Engineer

A communication was presented from the Staten Island Chamber of Commerce by John R. Hugi, Chairman of the Traffic and Transportation Committee, dated July 13, 1923, submitting a suggestion from Mr. O. J. Thomen dated June 8, 1923, for the construction of underground moving sidewalks connecting the subway stations in the neighborhood of South Ferry with the Staten Island Ferry House.

A report was presented from the Chief Engineer dated July 28, 1923, recommending that the suggested construction of a proposed moving platform be disapproved in view of the great expense involved.

Upon motion, duly seconded and adopted, the report by the Chief Engineer was approved.

1055—R. T. 7489

Route No. 31—Communication from Commissioners of Sinking Fund Referring Back Request for Approval of Sale of Property on Westerly Side of Linwood Street Between New Lots and Hegeman Avenues, Borough of Brooklyn—Referred to Real Estate Clerk

The following communication from the Commissioners of the Sinking Fund was referred to the Real Estate Clerk:

July 28, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

At the meeting of the Commissioners of the Sinking Fund on July 26, 1923, the request of the Transit Commission for approval of a sale at public auction, at an upset price of \$12,000, of a parcel of land located on the westerly side of Linwood Street, between New Lots, and Hegeman avenues, Borough of Brooklyn, and containing 30,878 square feet, was referred back to the Transit Commission with the suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter may be again submitted to the Commissioners of the Sinking Fund for their approval.

Respectfully,
JAMES MATTHEWS,
Secretary.

1056—R. T. 7489

Route No. 31—Communication from Commissioners of Sinking Fund Referring Back Request for Approval of Sale of Property on Easterly Side of Elton Street between New Lots and Hegeman Avenues, Borough of Brooklyn—Referred to Real Estate Clerk

The following communication from the Commissioners of the Sinking Fund was referred to the Real Estate Clerk:

July 27, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

At the meeting of the Commissioners of the Sinking Fund on July 26, 1923, the request of the Transit Commission for approval of a sale at public auction, at an upset price of \$9,900, of a parcel of land located on the easterly side of Elton street between New Lots and Hegeman avenues, Borough of Brooklyn, and containing 27,132 square feet, was referred back to the Transit Commission with the suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter may be again submitted to the Commissioners of the Sinking Fund for their approval.

Respectfully,
JAMES MATTHEWS,
Secretary.

1057—R. T. 7345

Route No. 48, Section No. 3—Communication from Commissioners of Sinking Fund Referring Back Request for Approval of Sale of Strip of Land on North Side of Clark Street Between Columbia Heights and Furman Street, Borough of Brooklyn—Referred to Real Estate Clerk

The following communication from the Commissioners of the Sinking Fund was referred to the Real Estate Clerk:

July 27, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

At the meeting of the Commissioners of the Sinking Fund on July 26, 1923, a communication from the Transit Commission dated December 29, 1922, stating that a

certain parcel of land (38 feet 2 inches by 130 feet) located on the northerly side of Clark street, between Columbia Heights and Furman street, Borough of Brooklyn, was offered for sale at public auction on April 28, 1921, at the upset price of \$20,000, as approved by the Commissioners of the Sinking Fund on February 17, 1921, without any bids being received for it, was referred back to the Transit Commission for further consideration and action in accordance with law.

Respectfully,
 JAMES MATTHEWS,
 Secretary.

1058—Cases 1264 and 1380

The Long Island Railroad Company—Alterations and Changes in Grade Crossing with Company's Tracks at Hempstead and Jamaica Turnpike (Case No. 1264)—Alterations and Changes in Grade Crossings with Company's Tracks at Bennett or Baylis Avenue, Wertland, Creed Avenue and Madison Avenue (Case No. 1380)—Resolution for Hearing on Partial Accounting Adopted

The Secretary presented a communication, dated June 22, 1923, from L. V. Morris, Chief Engineer of The Long Island Railroad Company, submitting blue print showing cost of elimination of grade crossings in Queens directed by the Order in Cases Nos. 1264 and 1380.

The Secretary also presented a report, dated July 26, 1923, by W. L. Selmer, Engineer of Structures, approved by W. C. Whiston, Acting Engineer of Equipment & Operation, recommending that the Commission on the preliminary accounting certify payment of \$70,000 each by the City and State of New York.

Thereupon the Commission adopted and ordered filed a Resolution in Cases Nos. 1264 and 1380, directing a hearing for partial accounting on August 15, 1923 at 10:30 A. M., and certifying and authorizing Carleton S. Cooke, Assistant Counsel to the Commission, pursuant to Sections 8 and 11 of the Public Service Commission Law to conduct said hearing, to take the testimony therein and report same to the Commission together with his opinion thereon for its decision and determination.

1059—Case 2158

The Bronx Traction Company—Application for Approval of Declaration of Abandonment of Portion of Route on Morris Park Avenue from Bronxdale Avenue to Williamsbridge Road—Petition of Company for Reopening of Proceeding—Referred to Counsel

The Secretary presented a petition, dated July 23, 1923, of The Bronx Traction Company by Leslie Sutherland, Vice President, asking that the hearing on its application for the approval of declaration of abandonment in Case No. 2158 for the portion of the route on Morris Park Avenue, between Bronxdale Avenue and Williamsbridge Road, be re-opened in order that petitioner may present additional evidence relative to a notice served on the company by the President of the Borough of The Bronx that the City of New York intends paving said portion of Morris Park Avenue.

Thereupon the above mentioned petition was referred to Counsel to the Commission.

1060—Case 2683

The Concourse Bus Line, Inc.—Application for Certificate of Public Convenience and Necessity for Operation of Stage Routes by Auto-Buses on Certain Streets in Boroughs of Manhattan and The Bronx—Communication from Attorney for Company Relative to Franchise Granted by the City of New York—Opinion by Counsel Approved—Letter to Attorney for Company Authorized

The Secretary presented an opinion, dated July 25, 1923, by George H. Stover, Assistant Counsel, approved by Counsel to the Commission, reading as follows:

July 25, 1923.

To TRANSIT COMMISSION:

Concourse Bus Line, Inc.—Inquiry of Max Monfried.

There has been referred to me a letter from Max Monfried, Attorney for the Concourse Bus Line, Inc., dated July 19, 1923, stating that The City of New York has granted the company a franchise for the operation of its buses over the same route mentioned in its earlier franchise and asking whether the existing certificate of necessity will be sufficient for the continuation of the operation of the buses.

The letter submits no copy of the new franchise, but an advertised copy of the franchise is to be found in the the City Record for July 13, 1923 at page 4819. Section 1 (b) of the proposed contract states the arrangement of the routes in The Bronx somewhat differently from the manner in which they are stated in the original franchise contract of May 1, 1923. While there is probably no alteration of route, this involves a question of fact on which I think Counsel ought not to pass.

Mr. Monfried's letter speaks of the new franchise as "the extended franchise." In a practical sense this is probably true. Strictly speaking, however, it is not a renewal in the sense that street railway franchise contracts provide for renewals. The original contract contains no express provision for renewal and the advertised form seems to make no reference to a prior franchise and on its face treats this as a new proposition.

I incline to the view that if the Commission has once certified that the public convenience and necessity require the operation of buses over a specified route, as it did in Case No. 2683 on May 3, 1923, this is sufficient where the same company secures, upon the termination of a franchise limited as to time, another franchise for a further period, covering the same route. As, however, this is a purely legal question which can only be finally determined by the courts and as other public officers might entertain other views of the law, I suggest that in replying to this informal inquiry care be taken to avoid furnishing the company with a moral defense or seeming in any way to act as legal adviser for the company. As a general rule the duty of the Commission is to enforce and not interpret in advance the law. This seems to be particularly true where the inquiry fails to state all the facts on which an opinion should be based.

There is one question presented on which I am clearly of the opinion that the Commission should express no opinion. Section 7 of the proposed contract, as it appears in the City Record, provides:

"Seventh—The company shall commence operation immediately upon receiving the necessary approval or authority from the Transit Commission as required by law. If, however, such approval or authority shall not be obtained by the company within thirty (30) days from the date upon which this contract is signed by the Mayor the right and privilege hereby granted shall cease and determine and no operation shall take place hereunder."

This may conceivably be interpreted as a condition attached by the Board of Estimate which requires a certificate from the Commission, the failure to secure which would subject the company to the forfeiture of its franchise. This, in my opinion, must be left for the company to determine.

Transmitted herewith is a proposed form of reply.

GEORGE H. STOVER,
Assistant Counsel.

Approved: GEORGE O. REDINGTON,
Counsel.

[July 31, 1923]

Thereupon the above mentioned Opinion in Case No. 2683 was approved and a communication to Max Monfried authorized in the following form:

July 31, 1923.

MAX MONFRIED, Esq.,
299 Broadway,
New York City.

Re: Concourse Bus Line franchise.

Dear Sir:

As your letter of July 19, 1923, asking whether the existing certificate of convenience and necessity will be sufficient for the continuation of operation of the buses of the Concourse Bus Line, Inc., contains no copy of the new franchise, the Commission prefers to express no final opinion on a matter which may ultimately come before it on a formal application. As a general proposition and without reference to the specific case, it inclines to the view that, when the Commission has once certified that the public convenience and necessity require the operation of buses over a specified route, this is sufficient where the same company secures an extended franchise covering the same route.

Very truly yours,

JAMES B. WALKER,
Secretary.

1061—R. T. 7665

Routes Nos. 36 & 37, Section No. 1—Communication from Acting Corporation Counsel Returning, Approved as to Form, Proposed Contract for Switchback Track and Miscellaneous Work East of Queensboro Plaza Station—Filed

The Commission ordered filed a communication, dated July 25, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning, approved as to form, a proposed contract with B. T. & J. J. Mack, Inc., for the construction of a switchback track and miscellaneous work east of the Queensboro Plaza Station to effect joint operation of the Queens Lines.

1062—R. T. 7654

Routes Nos. 19 & 22, Section No. 2—Communication from Corporation Counsel Requesting Verification and Signature to Petition for Order of Condemnation for Acquisition of Property Between Westchester and Blondell Avenues, Eastchester Road, Haswell Street and Waters Avenue, Borough of The Bronx—Filed

The Commission ordered filed a communication dated June 27, 1923, from George P. Nicholson, Corporation Counsel, submitting for verification and signature, as required by Section 43 of the Rapid Transit Act, a petition to the Supreme Court for an Order of Condemnation for the acquisition of an estate in fee simple absolute in and to certain premises between Westchester and Blondell Avenues, Eastchester Road, Haswell Street and Waters Avenue, Borough of The Bronx, required for the proposed Westchester Avenue Storage Yard, the petition having been verified and signed and returned to the Corporation Counsel.

1063

Street Changes—Certified Copies of Resolutions of Board of Estimate and Apportionment Establishing Roadway and Sidewalk Widths and Authorizing Removal of Encroachments on Madison Avenue from East 24th Street to East 34th Street and from East 35th Street to East 41st Street, Borough of Manhattan—Filed

The following certified copies of the resolutions adopted by the Board of Estimate and Apportionment on July 13, 1923, were ordered filed:

(Cal. No. 87-A)

Resolved, By the Board of Estimate and Apportionment, that the widths of the roadway and sidewalks on Madison avenue from the north curblin of East 24th street to the south curblin of East 34th street and from the north curblin of East 35th street to the south curblin of East 41st street, Borough of Manhattan, be established as follows:

The roadway shall be centrally located and shall have a width of forty-five (45) feet.

The width of the sidewalks on each side of the roadway shall be fifteen (15) feet;

—and be it further

Resolved, That all ordinances, permits or licenses heretofore adopted or granted by The City of New York, or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which interfere with the proper support of the roadway, curb, and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments in accordance with the foregoing resolution.

A true copy of resolution adopted by the Board of Estimate and Apportionment, July 13, 1923.

JAMES MATTHEWS,
Assistant Secretary.

(Cal. No. 87-B)

Whereas, The entire width of Madison avenue between East 24th and East 30th streets and between East 35th and East 41st streets, Borough of Manhattan, is required for public purposes, be it

Resolved, By the Board of Estimate and Apportionment, that all ordinances, permits or licenses heretofore adopted or granted by the City of New York or by any body or officer thereof, which permit or license, or which purport to permit or license encroachments of any nature which project beyond the building line of Madison avenue between East 24th and East 30th streets and between East 35th and East 41st streets, Borough of Manhattan, between levels 10 feet above the curb grade and a sufficient depth below said curb to provide for the proper support of the roadway, sidewalk and necessary and proper subsurface structures, be and they hereby are repealed; and be it further

Resolved, That the President of the Borough of Manhattan be and he hereby is authorized to remove or cause to be removed all said encroachments or encumbrances in accordance with the foregoing resolution; except in cases, if any, where existing statutes require the maintenance or continuance of fire escapes in their present positions.

A true copy of resolution adopted by the Board of Estimate and Apportionment, July 13, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1064

Employees' Calendar No. 156

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved: That this Commission takes the following action with reference to employees:

Appointment (Exempt)—Margaret F. Richters, stenographer to Commission, at \$200.00 per month, to take effect August 1, 1923.

Appointments—Samuel Axelrod, junior assistant, at \$125.08 per month, to take effect August 4, 1923; George M. Biales, draftsman, at \$150.08 per month, to take effect August 4, 1923; William J. Broderick, junior assistant, at \$125.08 per month, to take effect August 4, 1923; Willard J. Carmel, draftsman, at \$150.08 per month, to take effect August 1, 1923; Jacob J. Delbourgo, junior assistant, at \$125.08 per month, to take effect August 4, 1923; Harry Garfinkel, draftsman, at \$150.08 per month, to take effect August 4, 1923; Edward J. Hanley, transit inspector, at \$125.08 per month,

to take effect August 6, 1923; Aaron Kahn, draftsman, at \$150.08 per month, to take effect August 21, 1923; Meyer Michalowitz, draftsman, at \$150.08 per month, to take effect August 17, 1923; John A. Moran, junior assistant, at \$125.08 per month, to take effect August 4, 1923; Benjamin Nelson, draftsman, at \$150.08 per month, to take effect August 20, 1923; Rafael Pacheco, junior assistant, at \$125.08 per month, to take effect August 4, 1923; Stephen M. Poutier, draftsman, at \$150.08 per month, to take effect August 4, 1923; Jessie Schenkler, stenographer, at \$90.00 per month, to take effect July 24, 1923; Mortimer Schoener, draftsman, at \$150.08 per month, to take effect August 4, 1923; Nathan B. Sparer, draftsman, \$150.08 per month, to take effect August 4, 1923; Nathan Stern, junior assistant, at \$125.08 per month to take effect August 4, 1923; Adolph D. Sussman, draftsman, at \$150.08 per month, to take effect August 4, 1923; Samuel J. Thier, junior assistant, at \$125.08 per month, to take effect August 4, 1923; Irving Troemel, junior assistant, at \$125.08 per month, to take effect August 4, 1923; Samuel Weinberg, draftsman, at \$150.08 per month, to take effect August 4, 1923; Simon Weiner, draftsman, at \$150.08 per month, to take effect August 4, 1923; Morris L. Weissberg, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Joseph R. Weismantel, junior assistant, at \$125.08 per month, to take effect August 4, 1923; Walter Widstrand, junior assistant, at \$125.08 per month, to take effect August 4, 1923.

Appointments under Rule VIII:4—Ernest H. Cooper, engineering inspector, at \$150.08 per month, to take effect July 25, 1923. Charles E. Marlbor, inspector of steel, at \$175.00 per month, to take effect July 25, 1923.

Appointments under Rule VIII:9—Julio M. Conesa, architectural draftsman, at \$150.08 per month, to take effect August 10, 1923; James P. O'Shea, junior assistant, at \$125.08 per month, to take effect August 9, 1923; Benjamin Silverman, architectural draftsman, at \$150.08 per month, to take effect August 6, 1923; David Stone, architectural draftsman, at \$150.08 per month, to take effect August 24, 1923.

Appointment under Rule VIII:10—James Kaufman, junior clerk, at \$60.00 per month, to take effect July 24, 1923.

Resignations—John Cahill, transit inspector, at \$125.08 per month, to take effect July 26, 1923; Martin Goldman, junior assistant, at \$152.50 per month, to take effect July 28, 1923; Alfred G. Hewel, draftsman, at \$150.08 per month, to take effect July 31, 1923; Martin C. Hunt, engineering inspector, at \$150.08 per month, to take effect August 7, 1923; Aaron Kahn, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Yvonne M. Mercier, file clerk, at \$112.50 per month, to take effect July 23, 1923; Margaret F. Richters, stenographer, at \$125.00 per month, to take effect July 31, 1923.

Termination of Appointments under Rule VIII:4—Samuel Axelrod, junior assistant, at \$125.08 per month, to take effect August 3, 1923; George M. Biales, draftsman, at \$150.08 per month to take effect August 3, 1923; Simon Broder, junior assistant, at \$125.08 per month, to take effect August 3, 1923; William J. Broderick, junior assistant, at \$125.08 per month, to take effect August 3, 1923; Willard J. Carmel, draftsman, at \$150.08 per month, to take effect July 31, 1923; Julio M. Conesa, architectural draftsman, at \$150.08 per month, to take effect August 9, 1923; Jacob J. Delbourgo, junior assistant, at \$125.08 per month, to take effect August 3, 1923; William J. Foster, junior assistant, at \$125.08 per month, to take effect August 3, 1923; Harry Garfinkel, draftsman, at \$150.08 per month, to take effect August 3, 1923; Joseph Gladstein, draftsman, at \$150.08 per month, to take effect August 3, 1923; Peter F. McBride, draftsman, at \$150.08 per month, to take effect August 3, 1923; Aubrey L. McCaffrey, draftsman, at \$150.08 per month, to take effect August 1, 1923; Meyer Michalowitz, engineering inspector, at \$150.08 per month, to take effect August 16, 1923; John A. Moran, junior assistant, at \$125.08 per month, to take effect August 3, 1923; Benjamin Nelson, draftsman, at \$150.08 per month, to take effect August 3, 1923; William D. O'Driscoll, junior assistant, at \$125.08 per month, to take effect August 3, 1923; James P. O'Shea, junior assistant, at \$125.08 per month, to take effect August 8, 1923; Rafael Pacheco, junior assistant, at \$125.08 per month, to take effect August 3, 1923; Samuel A. Pickoff, draftsman, at \$150.08 per month, to take effect August 3, 1923; Stephen M. Poutier, draftsman, at \$150.08 per month, to take effect August 3, 1923; Mortimer Schoener, draftsman, at \$150.08 per month, to take effect August 3, 1923; Martiman G. Smolensky, draftsman, at \$150.08 per month, to take effect August 3, 1923; Benjamin Silverman, architectural draftsman, at \$150.08 per month, to take effect August 5, 1923; Nathan Stern, junior assistant, at \$125.08 per month, to take effect

August 3, 1923; David Stone, architectural draftsman, at \$150.08 per month, to take effect August 23, 1923; Adolph D. Sussman, draftsman, at \$150.08 per month, to take effect August 3, 1923; Samuel J. Thier, junior assistant, at \$125.08 per month, to take effect August 3, 1923; Irving Troemel, junior assistant, at \$125.08 per month, to take effect August 3, 1923; Joseph R. Weismantel, junior assistant, at \$125.08 per month, to take effect August 3, 1923; Walter Widstrand, junior assistant, at \$125.08 per month, to take effect August 3, 1923.

Termination of Appointments under Rule VIII:9—Nathan B. Sparer, draftsman, at \$150.08 per month, to take effect August 3, 1923; Samuel Weinberg, draftsman, at \$150.08 per month, to take effect August 3, 1923; Simon Weiner, draftsman, at \$150.08 per month, to take effect August 3, 1923.

Leave of Absence with Pay—Charles D. Thomas, assistant engineer, from July 10, 1923, to July 16, 1923.

1065

Voucher Schedule No. 31

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

Vouchers Nos. 766-787, open market orders, \$4,021.57; Vouchers Nos. 386-393, miscellaneous bills, \$3,191.89; Voucher No. 17, Special payroll, \$1,250.00.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines, for the Periods Indicated Below:

Voucher No. 193, Jacob Schlesinger, Inc., approximate estimate No. 12 for the construction of a second addition to shops at the Lenox Avenue Yard, under Contract No. 3, from June 16, 1923 to July 15, 1923 (R. T. 7368) \$10,306.44;

Voucher No. 194, Rosenthal Engineering Contracting Co., Inc., approximate estimate No. 5, for the construction of foundation for third addition to shops, Lenox Avenue and 148th Street Yard, under Contract No. 3, from June 21, 1923 to July 20, 1923 (R. T. 7589) \$21,409.89;

Voucher No. 195, Station Finish Corporation, Assignee; approximate estimate No. 12, for the construction of station finish on Sections Nos. 3, 4 and 5 of Route No. 8, from July 1, 1923 to July 31, 1923 (R. T. 7516) \$14,194.66;

Voucher No. 196, Fox Reynolds Co., Inc., approximate estimate No. 3 for the completion of newsstand enclosures at stations of the Municipal Rapid Transit Railroads, under Contracts Nos. 3 and 4, from June 26, 1923 to July 25, 1923 (R. T. 7419) \$1,832.72.

Agreement "CP"—Form of Contract, Specifications, Invitation to Contractors for Changes in Subway Structure to Provide for Crossover on Route No. 8, Section No. 5, Bushwick Avenue—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Form of Contract, Bond and Contractor's Proposal, together with the specifications and contract drawings for making changes in railroad structure to provide for crossover, Route No. 8, Section No. 5, Bushwick Avenue, Borough of Brooklyn (Agreement "CP").

Resolved, that Said Invitation to Contractors, Information for Contractors and Form of Contract, Bond and Contractor's Proposal, together with the specifications and contract drawings for making changes in railroad structure to provide for crossover, Route No. 8, Section No. 5, Bushwick Avenue, Borough of Brooklyn (Agreement "CP") be and hereby are approved and adopted and that said Invitation to Contractors be published in the City Record every day of publication continuously from and including August 9, 1923, to and including August 23, 1923, and in the Brooklyn Citizen and the Standard Union on August 13, 1923, and August 20, 1923, daily newspapers published in The City of New York and that such bids as shall be received shall on the 23rd day of August, 1923, at eleven-thirty (11:30) o'clock a. m. or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission at the office of the Transit Commission and read.

1071—R. T. 6416

Routes Nos. 36 and 37—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval of Agreement with Interborough Rapid Transit Company for Rearrangement of Signals and Interlocking East of Queensboro Plaza Station for Joint Operation of Queens Lines—Approval Resolution—Requisition Upon Board of Estimate and Apportionment for Appropriation of \$23,500

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer dated August 1, 1923, recommending approval of a proposed form of agreement with the Interborough Rapid Transit Company providing for the rearrangement of certain signals and interlocking east of the Queensboro Plaza Station and that a request be made to the Board of Estimate and Apportionment for

the consent to the proposed agreement and an appropriation of \$23,500 to pay for the estimated cost of the work.

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption a proposed agreement between The City of New York acting by this Commission and Interborough Rapid Transit Company providing for the rearrangement of signals and interlocking on the Queensboro Subway Rapid Transit Railroad of the railroad described in Contract No. 3 east of the Queens Plaza Station in order to make possible the approved scheme of joint operation of said Queensboro Subway Rapid Transit Railroad.

Resolved, That said proposed agreement so submitted be and the same hereby is approved and adopted and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed agreement if and when consented to by the Board of Estimate and Apportionment and approved as to form by the Corporation Counsel.

Further Resolved, That said proposed agreement be transmitted to said Board of Estimate and Apportionment, together with a requisition in the form now submitted by Counsel for the consent of said Board and the appropriation of the money estimated to be necessary to meet the obligations of the City thereunder.

The requisition upon the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

August 7, 1923.

Gentlemen:

The Transit Commission transmits herewith for the consent of your Honorable Board pursuant to the authority vested in it by the provisions of Chapter 104 of the Laws of 1921 a proposed agreement between The City of New York acting by the Transit Commission and Interborough Rapid Transit Company for the rearrangement of signals and interlocking on the Queensboro Lines east of the Queens Plaza Station for the purpose of making possible the approved scheme of joint operation on said lines.

The Chief Engineer of this Commission in a communication dated August 1, 1923, has reported and recommended with respect to this matter as follows:

"Your approval is requested to the form of an agreement proposed to be entered into between the Commission, acting for The City of New York, and Interborough Rapid Transit Company to provide for the rearrangement of signals and interlocking on the Queens lines east of Queens Plaza Station, in order to make possible the approved scheme of joint operation of the Queens lines.

"The track changes incident to the joint operation on the Queens lines require numerous changes in the signaling and interlocking which the Interborough Company has already installed in this vicinity as Equipment under Contract No. 3. The tracks now in place are all in use for regular operation of the railroad and therefore it seems necessary from the engineering standpoint that changes in the interlocking and signaling system should be made by the operating company. The cost of the work is estimated at \$23,500 which figure is considered reasonable. A form of agreement which is believed to be satisfactory to the Interborough Co. has been prepared in collaboration with Counsel and copies of the same are transmitted herewith.

Recommendation—

"From an engineering standpoint, I recommend that under the provisions of Contract No. 3, the Commission adopt the attached form of contract between the City, acting by the Commission, and Interborough Rapid Transit Co. providing for the rearrangement of certain signals and interlocking on the Queens lines east of Queens Plaza Station and that the Commission request the Board of Estimate and Apportionment to consent to said proposed agreement and to appropriate the sum of \$23,500 to pay the cost of the work."

The proposed agreement is to be entered into pursuant to the provisions of the Rapid Transit Act as amended by Chapter 625 of the Laws of 1917 which authorize the Commission to enter into agreements without public letting where the estimated

cost of the work is less than \$25,000. The estimated cost of the work for the proposed agreement herewith transmitted is \$23,500.

Accordingly, your Honorable Board is hereby requested to consent to the making of the said proposed agreement herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed agreement, to wit, the sum of Twenty-three thousand Five Hundred Dollars (\$23,500) and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, the sum of Twenty-three thousand Five hundred Dollars (\$23,500).

Your Board is also requested to authorize pursuant to Section 45 of the Greater New York Charter the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is a subrequisition under and not in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company known as Contract 3 and the appropriations made by your Honorable Board in consequence thereof.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1072—R. T. 7600

Route No. 52, Section No. 1—Report by Chief Engineer Recommending Approval of Substitution of Timber Piles for Reinforced Concrete Piles Under Contract for Column Foundations—Report by Commissioner O'Ryan Recommending Approval—Approved

A report was presented from the Chief Engineer dated July 31, 1923, recommending approval of the substitution of timber piles for reinforced concrete piles under the contract with Gustin-Morris Contracting Corporation for column foundations on Section No. 1 of Route No. 52, Flushing Line.

A report was presented from Commissioner O'Ryan dated August 6, 1923, concurring in the report by the Chief Engineer and recommending that it be approved.

Upon motion, duly seconded and adopted, the recommendation and reports were approved.

1073—R. T. 7665

Routes Nos. 36 and 37, Section No. 1—Resolution Approving Sureties Upon Bond in Sum of \$20,000 Deposited by Contractor as Security for Installation of Switchback Track and Miscellaneous Work East of Queensboro Plaza Station—Adopted

The following resolution was adopted:

Resolved, That the American Surety Company of New York and the National Surety Company be and hereby are approved as sureties upon the bond in the sum of Twenty thousand (\$20,000) dollars, desposited by B. T. & J. J. Mack, Inc., as security for the faithful performance of the contract for installing switchback track and other miscellaneous track work east of the Queensboro Plaza station, each of said sureties being held and bound in the sum of Ten thousand (\$10,000) dollars.

1074

Contract No. 1—Application by Interborough Rapid Transit Company for Approval of Installation of Drainage Air Line between 96th Street and Broadway and 116th Street and Lenox Avenue—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated July 12, 1923, requesting approval to the installation of a 2-inch drainage air line between 96th Street and Broadway and 116th Street and Lenox Avenue at an estimated cost of \$8,700.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer dated July 27, 1923, stating that such connection is desirable from an engineering standpoint and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additions to Existing Equipment and assigning Work Order No. ICqA-8 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company, by communication dated July 12, 1923, from Frank Hedley, its President and General Manager, has submitted for the approval of this Commission, its proposal to install a 2-inch drainage airline equipped with valves every 250 feet between 96th Street and Broadway and 116th Street and Lenox Avenue, in the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads, described in said Contract No. 3, at an estimated cost of \$8,700; and

Whereas, the Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission, have by communication dated July 27, 1923, reported that such installation will complete an air loop between the east and west side subways; that such connection is considered desirable from the operating standpoint; that the estimated cost is reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated July 30, 1923, has recommended that such work be classified as Additions to Existing Equipment as defined in said Contract No. 3 and that Work Order No. ICqA-8 be assigned thereto.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company be and the same hereby is approved, the cost of such work to be classified as Additions to Existing Equipment as defined in said Contract No. 3, and as to which this Commission assigns Work Order No. ICqA-8.

1075—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Contract for Manufacture and Erection of Traveling Crane for Substation No. 27—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated July 18, 1923, requesting approval of a proposed contract with the Northern Engineering Works for the manufacture and erection of one thirty-ton electrically operated travelling crane for Substation No. 27 at a total cost of \$8,800.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer dated July 31, 1923, recommending that the application be approved,

which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has, by communication dated July 18, 1923, submitted for the approval of this Commission a proposed contract, together with the plans and specifications made part thereof, between the said Interborough Rapid Transit Company and Northern Engineering Works, for the manufacture and erection of one thirty-ton electrically operated travelling crane for Substation No. 27, in the Borough of Queens, as part of the Equipment of the Railroad as defined in said Contract No. 3, at a total cost of \$8,800; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated July 31, 1923, reported that the following bids were received for such work:

Northern Engineering Works	\$8,800
Manning, Maxwell and Moore	8,805
Morgan Engineering Co.	10,495
Alliance Machine Co.	12,135

; that the successful bidder has heretofore installed similar cranes satisfactorily for the Interborough Company's substations; that the type of crane is part of the standard equipment; that the capacity of the crane is adequate; that the cost thereof is reasonable; that the specifications are satisfactory from an engineering standpoint and recommend the approval of said proposed contract and the award thereof to said Northern Engineering Works; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated August 2, 1923, has recommended that such material be classified as Equipment of the Railroad, as defined in said Contract No. 3; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto,

Resolved, That said proposed contract so submitted, together with the specifications made part thereof, be and the same hereby is approved and that Interborough Rapid Transit Company be and hereby is authorized to execute said proposed contract with Northern Engineering Works in accordance with its bid submitted as aforesaid, the cost of such work to be classified as Equipment of the Railroad as defined in said Contract No. 3.

1076—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Cable for Miscellaneous Work—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated July 20, 1923, requesting approval of a proposed purchasing agent's order directed to the American Steel and Wire Company for cable for miscellaneous work at a total cost of \$4,408.50.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer, dated July 31, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the material as Undistributed Materials and Supplies Account.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York

Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has by communication dated July 20, 1923 submitted for the approval of this Commission a proposed purchasing agent's order dated July 19, 1923 directed to American Steel & Wire Co. for the following:

1,000 ft. 2,000,000 c.m. Class 'A' R.&B. Cable.....	\$1,851.40
1,000 ft. 2,000,000 c.m. Class 'B' R.&B. Cable.....	1,782.10
Complete shipment within 12 weeks.	
50,000 ft. No. 14 Class 'A' R.&B. Wire.....	13.80
5,000 ft. No. 12 Class 'A' R.&B. Wire.....	17.00
All per 1,000 feet net 1 per cent ten days	
F. O. B. 40th St. Sta. So. Bklyn. Ry.	
Complete shipment within 10 weeks.	

which proposed purchasing agent's order has been caused to be designated as "Approval No. 363;" and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated July 31, 1923 reported the following bids were received for such material:

American Steel and Wire Co.....	\$4,408.50
Standard Underground Cable Co.....	4,738.85
Okonite Co.	5,432.00
Hazard Mfg. Co.....	5,432.00

that such cable will be used for miscellaneous work as occasion requires and will be placed in stock and drawn for the work as needed; and that it is necessary and the price therefor reasonable and the best obtainable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 2, 1923 has recommended that the cost of such material be classified as Contract No. 4 Undistributed Materials and Supplies Account,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said purchasing agent's order, such approval being given upon the understanding that such material will be classified as Contract No. 4 Undistributed Materials and Supplies Account.

1077—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Feeder Cables to Connect with Interborough Rapid Transit Company's Sub-station No. 13 at 53rd Street and Seventh Avenue, Borough of Manhattan—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated July 24, 1923, requesting approval of a proposed purchasing agent's order directed to Standard Underground Cable Company for the installation of feeder cables connecting Interborough Rapid Transit Company's Sub-station No. 13 with the Broadway-Fourth Avenue Subway at 53rd Street and Seventh Avenue, Borough of Manhattan, at an estimated cost of \$6,000.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer, dated August 1, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the material as Additional Equipment for the Railroad under Work Order No. MBA-22.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4 and pursuant also to the provisions of the Certificate dated March 19, 1913 granted to said New York Municipal Railway Corporation for certain elevated extensions known as the Extension Certificate this Commission by resolution adopted on May 15, 1923 as modified by resolution adopted by this Commission on June 13, 1923 approved, among other things, of the installation of four 2,000,000 c.m. feeder cables from Interborough Rapid Transit Substation No. 13 to the Broadway-Fourth Avenue Subway at 53rd Street and Seventh Avenue classifying such work as Additional Equipment for the Railroad as described in said Contract No. 4 and assigned to such unit Work Order No. MBA-22; and

Whereas, By communication, dated July 24, 1923 New York Rapid Transit Corporation as successor to the rights and obligations under said Contract No. 4 and pursuant to the authority contained in said resolution of May 15, 1923 as modified by resolution adopted on June 13, 1923 aforesaid, has submitted for the approval of this Commission proposed purchasing agent's order dated July 24, 1923 directed to Standard Underground Cable Company for the following:

Item	Standard Underground Cable Company	National Conduit and Cable Co.	Safety Insulated Wire & Cable Co.
Price per foot.....	\$2.194	\$2.25	No bid.
Asbestos listing per foot.	.85	.85	
*Extra joints each.....	16.50	11.00	

which proposed purchasing agent's order has been caused to be designated as "Approval No. 365"; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated August 1, 1923, reported that the aforesaid bids were received for such material; that such work is as authorized by said resolution of May 15, 1923; that the specifications and plans attached to said proposed purchasing agent's order are satisfactory from an engineering standpoint; that the prices are reasonable and the best obtainable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 6, 1923 has recommended the classification of such material as Additional Equipment for the Railroad pursuant to Work Order No. MBA-22 heretofore assigned as aforesaid.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order, together with the plans and specifications made part thereof be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified in accordance with Work Order No. MBA-22 heretofore assigned as aforesaid.

1078—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Rotary Converter and Accessories for Avenue "T" Substation—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated July 24, 1923, requesting approval of a proposed purchasing agent's order directed to Westinghouse Electric and Mfg. Co., for one 4000 K.W. rotary converter and accessories for Avenue "T" Substation at a total cost of \$50,460.

(*) It is not contemplated that any extra joints will be necessary and no allowance for same has been made in the total amounts of the bids.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer, dated August 1, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the material as Additional Equipment for the Railroad under Work Order No. MBA-23.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4 and pursuant also to the provisions of the certificate dated March 19, 1913 granted to said New York Municipal Railway Corporation for certain elevated extensions known as the Extension Certificate this Commission by resolution adopted on May 15, 1923 as modified by resolution adopted by this Commission on June 13, 1923 approved, among other things, of the location of a new substation for the Railroad at Avenue "T" adjacent to the Sea Beach Line, the acquisition of the necessary real estate and the construction of the said substation complete with all equipment and necessary duct and feeder connections to the West End Line and the Culver Line of the Railroad and the Sea Beach Line of the Existing Railroads as described in said Contract No. 4 and assigned to such unit Work Order No. MBA-23; and

Whereas, By communication dated July 24, 1923 New York Rapid Transit Corporation as successor to the rights and obligations under said Contract No. 4 and pursuant to the authority contained in said resolution of May 15, 1923 as modified by resolution adopted on June 13, 1923 aforesaid, has submitted for the approval of this Commission a proposed purchasing agent's order dated July 24, 1923 directed to the Westinghouse Electric and Mfg. Co. for the following:

1 4000 K.W. 575 Volt, D.C. 6-phase, 25 cycle, commutating pole, shunt wound, Rotary Converter.	
1 4000 K.V.A. 3-phase, 25 cycle, A.B. Transformer.	
1 10,000 Amp. 650 Volt, D.C. Rotary Converter Control Panel.	
1 1500-5000 Amp. 440 Volt A.C. Starting Panel.	
1 10,000 Amp. 600 Volt D.C. Pedestal Switch.	
All for the sum of.....	\$50,460.00

F.O.B. Brooklyn,

which proposed purchasing agent's order has been caused to be designated as "Approval No. 364"; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated August 1, 1923 reported that no bids were taken as the price is to be the same as the price of the rotary converter in the Hudson substation for which said company was low bidder; that the specifications covering the same have already been approved and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 6, 1923 has recommended the classification of such material as Additional Equipment for the Railroad pursuant to Work Order No. MBA-23 heretofore assigned,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order, together with the specification made part thereof be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such material to be classified in accordance with Work Order No. MBA-23 heretofore assigned as aforesaid.

1079—R. T. 6449-6474

Route No. 5, Section No. 2A—Application by New York Rapid Transit Corporation for Approval of Agreement for Sale of Property at Northeast Corner of Canal Street and Broadway—Report by Real Estate Clerk Recommending Approval—Approval Resolution Directing Counsel to Provide for Conveyance of Easements to City

An application was presented from the New York Rapid Transit Corporation dated July 31, 1923, requesting approval of a proposed agreement with D. & D. Land

& Improvement Corporation, providing for the sale of the property at the northeast corner of Canal Street and Broadway, subject to the necessary easements for the maintenance of the Broadway-Fourth Avenue Rapid Transit Railroad, for the sum of \$325,000 cash.

A report was presented from the Real Estate Clerk dated August 2, 1923, stating that the purchase price is satisfactory and recommending that the application be approved.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, and particularly Article XI thereof, an agreement dated August 1, 1913 between The City of New York and said New York Municipal Railway Corporation was entered into, wherein it is provided that said New York Municipal Railway Corporation shall purchase and acquire a certain piece or parcel of land, together with the buildings and improvements thereon, situated at the northeast corner of Canal Street and Broadway, in the Borough of Manhattan, City, County and State of New York, for the purpose of providing for the physical connection between Subdivisions I & II of the Broadway-Fourth Avenue Line at Canal Street and Broadway, in the Borough of Manhattan, as more particularly described and provided for in said Contract No. 4 and said agreement aforesaid; and

Whereas, It is further provided in Article Fourth of said agreement of August 1, 1913, that after the completion of such physical connection the said New York Municipal Railway Corporation, as Lessee under said contract, shall convey to The City of New York, upon demand of the "Commission," such perpetual rights and easements in said property as the Commission may deem necessary or proper for the maintenance and operation of such physical connection and the rapid transit railroad therein; and

Whereas, New York and Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has, pursuant to said Contract No. 4 and said agreement of August 1, 1913, by communication dated July 31, 1923 from J. H. Bennington, its Real Estate and Tax Agent, submitted for the approval of this Commission a proposed agreement dated July 1, 1923 between said New York Rapid Transit Corporation and D. & D. Land & Improvement Corporation, providing for the sale of said property subject to the necessary right and easement for the maintenance and operation of said rapid transit railroad, for the sum of \$325,000; and

Whereas, The Real Estate Clerk of this Commission, by communication dated August 2, 1923, has recommended that said contract be approved; and

Whereas, Counsel has examined said contract and the proposed deed for the conveyance of the easement to the City in said property and finds no objection thereto,

Resolved, That the contract so submitted, for the sale of said property as aforesaid, be and the same hereby is approved.

Further Resolved, That Counsel to this Commission be and hereby is authorized and directed to take such steps as may be necessary to effect the conveyance of the necessary rights and easements in said property to The City of New York in accordance with the provisions of said Contract No. 4 and said agreement of August 1, 1923.

1080—R. T. 7354

Contract No. 3—Stipulation With Interborough Rapid Transit Company Extending Time Within Which to Agree Upon Amount and Classification of Depreciation for Year Ended June 30, 1923—Approved

The Commission approved a stipulation dated July 30, 1923, with the Interborough Rapid Transit Company, extending the time to and including thirty days after receipt of written notice by either party that it requires an agreement to be entered into as to the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1923, as provided in Subdivision 5 of Article XLIX of Chapter II of Contract No. 3.

1081—R. T. 7235

Elevated Extension Certificate—Stipulation With Interborough Rapid Transit Company Extending Time Within Which to Agree Upon Amount and Classification of Depreciation for Year Ended June 30, 1923—Approved

The Commission approved a stipulation dated July 30, 1923, with the Interborough Rapid Transit Company, extending the time to and including thirty days after receipt of written notice by either party that it requires an agreement to be entered into as to the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1923, as provided in Subdivision 5 of Article XII of the Extension Certificate.

1082—R. T. 6506

Contract No. 4 and Related Certificates—Stipulation With New York Rapid Transit Corporation Extending Time to 30 Days from July 30, 1923 Within Which to Agree Upon Amount and Classification of Depreciation and Excess Maintenance for Year Ended June 30, 1923—Approved

The Commission approved the stipulation dated July 27, 1923, with the New York Rapid Transit Corporation extending the time to and including 30 days after July 30, 1923, within which to agree upon the amount and classification of depreciation and excess maintenance for the fiscal year ended June 30, 1923, as provided in Subdivision 5 of Article XLIX of Contract No. 4 and in Subdivision 5 of Article X of the Extension Certificate and in Subdivision 5 of Article X of Additional Track Certificate.

1083—R. T. 6553

Contract No. 4—Stipulation With New York Rapid Transit Corporation Agreeing as to Rendition of Thirty-seventh to Fortieth Quarterly Determinations of Costs and as to the Filing of Objections to Thirty-eighth to Forty-first Quarterly Determinations of Costs—Approved

The Commission approved a stipulation with the New York Rapid Transit Corporation dated July 25, 1923, agreeing that the Chief Engineer of the Transit Commission may render his Thirty-seventh Quarterly Determination of Cost in advance of his re-determinations of the Twentieth to the Thirty-sixth Quarterly Determinations and also agreeing that the Chief Engineer may render his Thirty-eighth, Thirty-ninth and Fortieth Quarterly Determinations at the time the Forty-first Quarterly Determination is rendered and that the Commission and the Company shall have thirty days after the time of the service of the Forty-first Quarterly Determination within which to file objections to all or any of the items in the Thirty-eighth to the Forty-first Quarterly Determinations, inclusive.

1084—R. T. 6506

Contract No. 4—Report by Depreciation Fund Board for Year Ended June 30, 1923—Referred to Chief Accountant

A report was presented from James B. Walker, Secretary to the Depreciation Fund Board, Contract No. 4 and related certificates showing the condition and amount of the depreciation funds for the fiscal year ended June 30, 1923, to be \$1,552,225.17.

The report was referred to the Chief Accountant.

1085—R. T. 2008**Contract No. 1—Resolution Cancelling Voucher No. 45 in Favor of Rapid Transit Subway Construction Company in the Sum of \$270,139 as Third Installment of Saratoga Award—Adopted**

The following resolution was adopted:

Resolved, That the contract voucher No. 45 in favor of Rapid Transit Subway Construction Co. for the sum of \$270,139 as a third installment of the Saratoga award chargeable to Code CCM 100-S be and the same hereby is in all respects annulled and cancelled and that the Auditor of this Commission be and hereby is authorized and directed to take the necessary action to effect the purpose of this resolution.

1086—Case 1379**Brooklyn Heights Railroad Company et Al.—Monthly Reports—Extension Order Adopted**

The Secretary presented a communication, dated July 31, 1923, from M. B. Hoffman, asking for an extension of time to October 1, 1923, within which to file monthly reports for June, 1923, as required by the Commission's Order in Case No. 1379, on behalf of The Brooklyn Heights Railroad Company, Brooklyn, Queens County and Suburban Railroad Company, Coney Island and Brooklyn Railroad Company, and Lindley M. Garrison, as Receiver of the Nassau Electric Railroad Company, New York Rapid Transit Corporation, Coney Island and Gravesend Railway Company and South Brooklyn Railway Company.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1379, granting an extension of time to the above mentioned companies and receivers to August 24, 1923, within which to file monthly reports for June, 1923.

1087—Case 1399**Brooklyn Heights Railroad Company et Al.—Quarterly Reports—Extension Order Adopted**

The Secretary presented a communication, dated July 31, 1923, from M. B. Hoffman, asking for an extension of time to October 1, 1923, within which to file quarterly reports for the quarter ended June 30, 1923, as required by the Commission's Order in Case No. 1399, on behalf of The Brooklyn Heights Railroad Company, Brooklyn, Queens County and Suburban Railroad Company, Coney Island and Brooklyn Railroad Company, and Lindley M. Garrison, as Receiver of the Nassau Electric Railroad Company, New York Rapid Transit Corporation, Coney Island and Gravesend Railway Company and South Brooklyn Railway Company.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1399, granting an extension of time to the above mentioned companies and receivers to August 24, 1923, within which to file quarterly reports for the quarter ended June 30, 1923.

1088—Case 1399**Interborough Rapid Transit Company—Quarterly Reports—Extension Order Adopted**

The Secretary presented a communication, dated August 2, 1923, from E. F. J. Gaynor, Auditor of the Interborough Rapid Transit Company, requesting an extension

of time of thirty (30) days from August 11, 1923, within which to file quarterly report as required by the Commission's Order in Case No. 1399.

The Secretary also presented a report, dated August 6, 1923, from John E. Cooper, Chief, Bureau of Accounting & Valuations, recommending granting of the application.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1399, granting the desired extension of time to September 10, 1923.

1089—Case 2631

Brooklyn City Railroad Company—Application of The City of New York for Relocation of Tracks in Fresh Pond Road Between Woodbine Street and Mount Olivet Avenue, in the Borough of Queens—Order Abrogating Order Of October 20, 1922, Directing Relocation of Tracks and Apportionment of Expense Adopted

The Commission again took under consideration the Resolution adopted by the Board of Estimate and Apportionment on June 29, 1923, relative to the proposed relocation of the tracks of the Brooklyn City Railroad Company, in Fresh Pond Road between Woodbine Street and Mount Olivet Avenue, in the Borough of Queens, and the apportionment of the expense thereof.

The Secretary presented a report, dated July 31, 1923, by George H. Stover, Assistant Counsel to the Commission, approved by George O. Redington, Counsel to the Commission, with respect to the matter and recommending the abrogation of the Order in Case No. 2631, adopted October 20, 1922, and requiring the company to proceed with the relocation of the tracks upon the payment by The City of New York of one-half the cost thereof.

The Secretary also presented a report, dated August 3, 1923, by Carleton S. Cooke, Assistant Counsel, advising that since Mr. Stover's report to the Commission was written, a conference was arranged with the attorney for the Brooklyn City Railroad Company who made no objection finally to the proposed order requiring the work to be done by the Company and the City to pay therefor one-half the cost thereof and further requiring the Board of Estimate to adopt a Resolution accepting the terms of the Order.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2631, in the following form:

Present:

GEORGE McANENY, Chairman, LEROY T. HARKNESS,	}	COMMISSIONERS.
--	---	----------------

IN THE MATTER
of the

Application of the Board of Estimate and Apportionment of the City of New York for an order directing The Brooklyn City Railroad Company to change the location of its tracks in Fresh Pond Road between Woodbine Street and Mount Olivet Avenue, in the Borough of Queens.

CASE No. 2631

Order Abrogating Order of October 20, 1922, and directing Relocation of Tracks and Apportionment of Expense.

The Board of Estimate and Apportionment of the City of New York, having, by resolution dated March 10, 1922, made application to the Commission, pursuant to Chap-

ter 699 of the Laws of 1921, for an order directing The Brooklyn City Railroad Company to change the location of its tracks in Fresh Pond Road between Woodbine Street and Mount Olivet Avenue in the Borough of Queens, and to determine the manner in which the cost and expense of such relocation should be imposed and borne; and the Commission having directed that a hearing on said application be held by Lincoln C. Andrews, Chief Executive Officer, and said hearing having been duly held and the report of the Chief Executive officer thereon having been approved by the Commission, and an order having been adopted by the Commission on May 11, 1922, directing The Brooklyn City Railroad Company to change the location of its railroad tracks in said road and estimating the expense of relocating said tracks and allocating the expense thereof; and the said Board of Estimate and Apportionment having, by resolution dated July 19, 1922, made application to the Commission for a rehearing of the matter; and the Commission having directed that a rehearing be held before Lincoln C. Andrews, Chief Executive Officer and said rehearing having been duly held and the report of the Chief Executive Officer thereon having been approved by the Commission; and the Commission having, on October 20, 1922, adopted an order which abrogated the order of May 11, 1922, fixed the cost of relocating said tracks at the sum of \$24,000 and directed that said cost of relocating the tracks be borne equally between The Brooklyn City Railroad Company and The City of New York and that upon the payment of \$12,000 by The City of New York to The Brooklyn City Railroad Company the said Brooklyn City Railroad Company should forthwith proceed with the relocation of said tracks; and the said Board of Estimate and Apportionment having, by resolution dated June 29, 1923, and by letter of its Secretary, dated July 10, 1923, notified the Commission that The City of New York will accept an order, providing that the City be not required to pay 50 per cent. of the cost in advance of the work, that the relocation of the tracks be paid for by the railroad company and that after the work has been completed there will be an accounting as between the railroad company and the City and that pending the accounting the City will agree to pay one-half of the amount deemed necessary, said one-half not to exceed \$12,000; and the Commission being of the opinion that said order of October 20, 1922, should be changed as and upon the conditions hereinafter set forth, it is

Ordered:

(1) That the order of the Commission herein, dated October 20, 1922, be and the same hereby is rescinded and abrogated.

(2) That The Brooklyn City Railroad Company be and it hereby is directed to change the location of its tracks in Fresh Pond Road between Woodbine Street and Mount Olivet Avenue, in the Borough of Queens, from their present location to the center of said Fresh Pond Road, and, upon the commencement of the paving of said Fresh Pond Road upon the part thereof last mentioned by the City of New York, to proceed forthwith with all diligence and expedition to carry out the said relocation of its said railroad tracks.

(3) That the cost and expense of the relocation of said railroad tracks estimated at the sum of \$24,000 shall be advanced and paid in the first instance by The Brooklyn City Railroad Company but, when actually fixed and determined on the accounting to be held before the Commission, shall be imposed and borne by The Brooklyn City Railroad Company and The City of New York in the proportion of 50 per cent. to each, provided that in no event shall the sum payable by The City of New York be in excess of \$12,000.

(4) That upon the completion of the work of relocating the said railroad tracks The Brooklyn City Railroad Company shall, at an accounting held before the Commission as between it and The City of New York, submit evidence and vouchers showing the amounts actually and necessarily expended by said company for the relocation of said tracks.

(5) That this order shall take effect upon the adoption of a resolution by the Board of Estimate and Apportionment of the City of New York, accepting the terms of this order and agreeing that The City of New York will pay to The Brooklyn City Railroad Company one-half of the sum fixed and determined by the Commission on the accounting as the amount actually and necessarily expended for the relocation of said tracks, said one-half not to exceed \$12,000.

(6) That a certified copy of this order shall be served upon The Brooklyn City Railroad Company and The City of New York in the manner prescribed by law, and that within ten (10) days after the receipt of the same The Brooklyn City Railroad

Company shall notify the Commission in writing whether the terms hereof are accepted and will be obeyed.

BY THE COMMISSION,
FRANK N. ROBINSON,
Acting Secretary.

1090—Case 2694

Third Avenue Railway System—Promulgation of Rules to Employees in Case of Accident—Extension Order Adopted

The Secretary presented fifteen (15) communications, dated August 1, 1923, from the companies comprising the Third Avenue Railway System, requesting an extension of time within which to notify the Commission whether the Order in Case No. 2694, adopted July 17, 1923, requiring the promulgation of rules by railroad and street railroad corporations to employees in case of accident, was accepted and would be obeyed.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2694, granting the desired extension of time of ten (10) days to August 17, 1923.

1091

Brooklyn City Railroad Company, South Brooklyn Railway Company and Nassau Electric Railroad Company—Operation of Sixteenth Avenue Line—Resolution Directing Counsel to Commence Mandamus Proceedings Approved

The Commission approved and ordered filed a Resolution in the following form:

Whereas, The Legislature of the State of New York by Chapter 698 of the Laws of 1923, which became a law on May 24, 1923, with the approval of the Governor, provided and required that the Brooklyn City Railroad Company, the receiver thereof or such other person as may have control of the operation of the street railway line commonly known as the Sixteenth Avenue Line, in the Borough of Brooklyn, New York, should, within thirty days after the time said act took effect, restore and extend the full service formerly maintained on such line, from the Borough Hall to Sixtieth Street in the Borough of Brooklyn; and

Whereas, Section 57 of the Public Service Commission Law provides that whenever this Commission shall be of opinion that a common carrier, railroad corporation or street railroad corporation subject to the supervision of this Commission is failing or omitting or about to fail or omit to do anything required of it by law or by order of this Commission, or is doing anything or about to do anything or permitting anything or about to permit anything to be done, contrary to or in violation of law or of any order of this Commission, this Commission shall direct Counsel to this Commission to commence an action or proceeding in the Supreme Court of the State of New York in the name of this Commission for the purpose of having such violations or threatened violations stopped and prevented either by mandamus or injunction; and

Whereas, More than thirty days have elapsed since said Chapter 698 of the Laws of 1923 took effect and became a law but the provisions of said Chapter 698 have not been complied with within such thirty day period nor thereafter and this Commission is of opinion that the Brooklyn City Railroad Company, the receiver thereof or such other person as may have control of the operation of said Sixteenth Avenue Line has, or have, failed or omitted, and is, or are, failing or omitting to restore and extend said service as required by law;

Resolved, That this Commission do, and hereby does, direct the Counsel to this Commission to commence an action or proceeding in the Supreme Court of the State of New York in the name of this Commission and against the Brooklyn City Railroad Company, the receiver thereof or such other person as may have control of the operation of said Sixteenth Avenue Line for the purpose of having such violation of law stopped and prevented either by mandamus or injunction.

1092

The Nassau Electric Railroad Company, Brooklyn City Railroad Company and Lindley M. Garrison, Receiver of Coney Island and Brooklyn Railroad Company—Operation of Park Slope Line—Resolution Directing Counsel to Commence Mandamus Proceedings Approved

The Commission approved and ordered filed a resolution in the following form:

Whereas, The Legislature of the State of New York by Chapter 704 of the Laws of 1923, which became a law on May 24, 1923, with the approval of the Governor, provided and required that the Coney Island and Brooklyn Railroad Company, the Brooklyn City Railroad Company and the Nassau Electric Railroad Company, or such other person as may have control of the operation of the street railway line commonly known as the Park Slope Line, in the Borough of Brooklyn, New York, should, within thirty days after the time said act took effect, restore the full service formerly maintained on such line, from the Borough Hall to Cortelyou Road in the Borough of Brooklyn; and

Whereas, Section 57 of the Public Service Commission Law provides that whenever this Commission shall be of opinion that a common carrier, railroad corporation or street railroad corporation subject to the supervision of this Commission is failing or omitting or about to fail or omit to do anything required of it by law or by order of this Commission, or is doing anything or about to do anything or permitting anything or about to permit anything to be done, contrary to or in violation of law or of any order of this Commission, this Commission shall direct Counsel to this Commission to commence an action or proceeding in the Supreme Court of the State of New York in the name of this Commission for the purpose of having such violations or threatened violations stopped and prevented either by mandamus or injunction; and

Whereas, More than thirty days have elapsed since said Chapter 704 of the Laws of 1923 took effect and became a law but the provisions of said Chapter 704 have not been complied with within such thirty day period nor thereafter and this Commission is of opinion that the Coney Island and Brooklyn Railroad Company, the Brooklyn City Railroad Company and the Nassau Electric Railroad Company, or such other person as may have control of the operation of said Park Slope Line has, or have, failed or omitted, and is, or are, failing or omitting, to restore said service as required by law;

Resolved, That this Commission do, and hereby does, direct the Counsel to this Commission to commence an action or proceeding in the Supreme Court of the State of New York in the name of this Commission and against the Coney Island and Brooklyn Railroad Company, the Brooklyn City Railroad Company and the Nassau Electric Railroad Company, or such other person as may have control of the operation of said Park Slope Line for the purpose of having such violation of law stopped and prevented either by mandamus or injunction.

1093

The Nassau Electric Railroad Company, Brooklyn City Railroad Company and South Brooklyn Railway Company—Operation of 39th Street Ferry Line—Resolution Directing Counsel to Commence Mandamus Proceedings Approved

The Commission approved and ordered filed a resolution in the following form:

Whereas, The Legislature of the State of New York by Chapter 751 of the Laws of 1923, which became a law on May 24, 1923 with the approval of the Governor, provided and required that the person, firm or corporation owning, operating or leasing the street railway line commonly known as the Thirty-ninth Street Ferry - Coney Island Line, in the Borough of Brooklyn, New York, should, within thirty days after the time said act took effect, restore the full service formerly maintained on such line, from the Brooklyn side of the Thirty-ninth Street Ferry to Coney Island in the Borough of Brooklyn, and provided and required that the fare to the public on such line for one continuous trip from one terminal thereof to the other should not exceed the sum of five cents; and

Whereas, Section 57 of the Public Service Commission Law provides that whenever this Commission shall be of opinion that a common carrier, railroad corporation

or street railroad corporation subject to the supervision of this Commission is failing or omitting or about to fail or omit to do anything required of it by law or by order of this Commission, or is doing anything or about to do anything or permitting anything or about to permit anything to be done, contrary to or in violation of law or of any order of this Commission, this Commission shall direct Counsel to this Commission to commence an action or proceeding in the Supreme Court of the State of New York in the name of this Commission for the purpose of having such violations or threatened violations stopped and prevented either by mandamus or injunction; and

Whereas, More than thirty days have elapsed since said Chapter 751 of the Laws of 1923 took effect and became a law but the provisions of said Chapter 751 have not been complied with within such thirty day period nor thereafter and this Commission is of opinion that the person, firm or corporation owning, operating or leasing said Thirty-ninth Street Ferry - Coney Island Line has, or have, failed or omitted, and is, or are, failing or omitting, to restore said service as required by law and for a fare not exceeding five cents as required by law;

Resolved, That this Commission do, and hereby does, direct the Counsel to this Commission to commence an action or proceeding in the Supreme Court of the State of New York in the name of this Commission and against the person, firm or corporation owning, operating or leasing said Thirty-ninth Street Ferry - Coney Island Line for the purpose of having such violation of law stopped and prevented either by mandamus or injunction.

1094

Brooklyn City Railroad Company, South Brooklyn Railway Company and the Nassau Electric Railroad Company—Operation of Tompkins-Culver Line—Resolution Directing Counsel to Commence Mandamus Proceedings Approved

The Commission adopted and ordered filed a resolution in the following form:

Whereas, The Legislature of the State of New York by Chapter 886 of the Laws of 1923, which became a law on June 1, 1923 with the approval of the Governor, provided and required that the Brooklyn Heights Railroad Company, the receiver thereof or such other person as may have control of the operation of the street railway line commonly known as the Tompkins-Culver Line, in the Borough of Brooklyn, City of New York, should, within thirty days after the time said act took effect, restore and extend the full service formerly maintained on such line, from Manhattan Avenue and Box Street, Greenpoint, Borough of Brooklyn, to Coney Island in such borough and city for a fare not exceeding five cents; and

Whereas, Section 57 of the Public Service Commission Law provides that whenever this Commission shall be of opinion that a common carrier, railroad corporation or street railroad corporation subject to the supervision of this Commission is failing or omitting or about to fail or omit to do anything required of it by law or by order of this Commission, or is doing anything or about to do anything or permitting anything or about to permit anything to be done, contrary to or in violation of law or of any order of this Commission, this Commission shall direct Counsel to this Commission to commence an action or proceeding in the Supreme Court of the State of New York in the name of this Commission for the purpose of having such violations or threatened violations stopped and prevented either by mandamus or injunction; and

Whereas, More than thirty days have elapsed since said Chapter 886 of the Laws of 1923 took effect and became a law but the provisions of said Chapter 886 have not been complied with within such thirty day period nor thereafter and this Commission is of opinion that the Brooklyn Heights Railroad Company, the receiver thereof or such other person as may have control of the operation of said Tompkins - Culver Line has, or have, failed or omitted, and is, or are, failing or omitting, to restore and extend said service as required by law and for a fare not exceeding five cents as required by law;

Resolved, That this Commission do, and hereby does, direct the Counsel to this Commission to commence an action or proceeding in the Supreme Court of the State of New York in the name of this Commission and against the Brooklyn Heights Railroad Company, the receiver thereof or such other person as may have control of the operation of said Tompkins - Culver Line for the purpose of having such violation of law stopped and prevented either by mandamus or injunction.

TRANSIT COMMISSION,
New York City.

Gentlemen: You are hereby advised that there has been transferred today from Code CCM 100—"Construction" the sum of \$217,000.00 to Code CCM 100-S—"Authorization pursuant to Saratoga Award for extra work and claims."

Yours truly,
HENRY SMITH,
Deputy Comptroller.

1096—R. T. 7591

Route No. 70-A—Communication from Board of Estimate and Apportionment Advising of Action in Failing to Approve Route and General Plan for Jackson Avenue, Newtown Creek and Manhattan Avenue Route—Filed

The following communication from the Board of Estimate and Apportionment was ordered filed:

August 3, 1923.

TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen: At the meeting of the Board of Estimate and Apportionment held this day, the resolution approving the plans and conclusions and consenting to the construction of a rapid transit railway in the Boroughs of Brooklyn and Queens, known as Jackson Avenue, Newton Creek and Manhattan Avenue Route, as transmitted to this Board for its approval and consent, as required by law, with a communication dated May 15, 1923, from your Commission, failed of adoption.

Respectfully,
PETER J. MCGOWAN,
Secretary.

1097—R. T. 7591

Route 70-A-1—Communication from Board of Estimate and Apportionment Fixing Date for Hearing on Route and General Plan for North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route—Filed

The following communication from the Board of Estimate and Apportionment was ordered filed:

August 3, 1923.

TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen: I transmit herewith certified copy of resolution this day adopted by the Board of Estimate and Apportionment, fixing August 10, 1923, as the date for consideration of the communication, dated July 31, 1923, from your Commission, transmitting resolutions adopting route and general plan of construction for a proposed rapid transit railway in the Boroughs of Queens and Brooklyn, known as North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route and requesting the approval and consent of this Board thereto.

After fixing August 10, 1923, as the date for consideration, the Board referred the matter to the Transit Conference Committee.

Very truly yours,
PETER J. MCGOWAN,
Secretary.

The resolution referred to above was as follows:

Resolved, That the communication be received and, in pursuance of law, this Board hereby fixes Friday, August 10, 1923, at 10:30 o'clock A. M., and Room 16, City Hall, Borough of Manhattan, as the time and place when and where such plans and conclusions will be considered; and be it further

Resolved, That the Secretary of this Board be and he is hereby directed to publish notice of such consideration in the City Record.

1098—R. T. 6989

Route No. 18, Section No. 1—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Proposed Agreement With Interborough Rapid Transit Company for Installation of Additional Tracks and Miscellaneous Work in 180th Street Yard—Communication from Acting Corporation Counsel Returning Agreement Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on July 13, 1923, was ordered filed.

(Cal. No. 415)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated July 10, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed agreement with the Interborough Rapid Transit Company for the installation of tracks and other miscellaneous work in the 180th street yard of the White Plains Road Line of the railroad, described in the contract known as Contract No. 3, at an estimated cost of twenty-four thousand and five hundred dollars (\$24,500), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty-four thousand five hundred dollars (\$24,500); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding twenty-four thousand five hundred dollars (\$24,500), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said agreement, said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, July 13, 1923.

JAMES MATTHEWS,
Assistant Secretary.

- A communication was also ordered filed from Arthur J. W. Hilly, Acting Corporation Counsel, dated July 25, 1923, returning the above-mentioned agreement approved as to form.

1099—R. T. 7665

Routes Nos. 36 and 37, Section No. 1—Statement as to Execution and Delivery of Original Contract for Installation of Switchback Track and Miscellaneous Work East of Queensboro Plaza Station—Contract Filed

The Commission ordered filed the original contract dated August 2, 1923, between The City of New York, acting by the Transit Commission and B. T. & J. J. Mack, Inc., for installing a switchback track and miscellaneous track work, east of the Queensboro Plaza station, which contract had been executed on behalf of both parties and delivered on August 3, 1923.

1100—R. T. 7647

Routes Nos. 4 and 38, Section No. 5—Statement as to Execution and Delivery of Original Agreement with Interborough Rapid Transit Company for Alterations in Subway Structure at Northeast Corner of Seventh Avenue and West 30th Street, in the Borough of Manhattan—Agreement Filed

The Commission ordered filed an original agreement dated May 31, 1923, between The City of New York, acting by the Transit Commission and the Interborough Rapid

Transit Company for making necessary alterations to the subway structure of the Seventh Avenue-Lexington Avenue Line at the northeast corner of Seventh Avenue and West 30th Street, Borough of Manhattan, made necessary by the rearrangement of the curb lines at that point, which agreement was executed on behalf of both parties and delivered on August 3, 1923.

1101—R. T. 7570

Route No. 5, Section No. 15—Statement as to Execution and Delivery of Original Agreement With Interborough Rapid Transit Company for Changes in Lavatories at 138th Street and Third Avenue and 149th Street and Mott Avenue Stations—Agreement Filed

The Commission ordered filed an original agreement dated April 12, 1923, between the City of New York, acting by the Transit Commission, and the Interborough Rapid Transit Company providing for certain changes in the lavatories at the 138th Street and Third Avenue and 149th Street and Mott Avenue Stations of the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Line, which agreement was duly executed on behalf of both parties and delivered on August 3, 1923.

1102—R. T. 6594

Route No. 48, Section No. 2—Statement as to Execution and Delivery of Original Agreement With Interborough Rapid Transit Company for Additional Station Facilities at Wall Street Station—Agreement Filed

The Commission ordered filed an original agreement dated April 18, 1923, between the City of New York, acting by the Transit Commission, and Interborough Rapid Transit Company providing for the construction of a new mezzanine, platform guard railings and rearrangement of stairways at the Wall Street Station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line, which agreement was executed on behalf of both parties and delivered on August 3, 1923.

1103—R. T. 7617

Route No. 16, Section No. 1—Statement as to Execution and Delivery of Original Agreement for Additional Facilities at 161st Street Station—Agreement Filed

The Commission ordered filed an original agreement dated May 18, 1923, between the City of New York, acting by the Transit Commission, Interborough Rapid Transit Company and American League Baseball Club of New York, Inc. for additional station facilities at the 161st Street Station and the Jerome Avenue Line, which agreement was executed on behalf of all parties and delivered on August 6, 1923.

1104—R. T. 7571

Route No. 48, Section No. 1—Statement as to Execution and Delivery of Original Agreement With Interborough Rapid Transit Company for Constructing Ventilating Manhole in Mail Street—Agreement Filed

The Commission ordered filed an original agreement dated July 10, 1923, between the City of New York, acting by the Transit Commission, and Interborough Rapid

Transit Company providing for the construction of the ventilating manhole in the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line passing under and along Mail Street, Borough of Manhattan, which agreement was executed on behalf of both parties and delivered on August 6, 1923.

1105—R. T. 7658

Contract No. 1—Statement as to Execution and Delivery of Original Agreement With Interborough Rapid Transit Company for Construction of Additional Stairway at 225th Street Station—Agreement Filed

The Commission ordered filed an original agreement dated July 10, 1923, between The City of New York, acting by the Transit Commission, and Interborough Rapid Transit Company providing for the construction of an additional stairway to the north-bound platform of the 225th Street Station of the Manhattan-Bronx Rapid Transit Railroad, which agreement was executed on behalf of both parties and delivered on August 6, 1923.

1106—R. T. 6685

Route No. 33, Section No. 3—Communication from New York Rapid Transit Corporation Stating That Necessary Plans Will Be Prepared and Prices Obtained for Escalator at Lawrence Street Station—Filed

A communication was ordered filed from the New York Rapid Transit Corporation dated August 1, 1923, advising that the necessary plans will be prepared and prices obtained for the installation of an escalator at the Lawrence Street Station as directed by the Commission at its meeting on July 24, 1923.

1107—R. T. 7118

Contract No. 3—Permit from War Department for Construction of Bulkhead Line Along Westerly Shore of Harlem River Between 145th and 150th Streets—Filed

A permit was ordered filed, issued from the War Department by Col. H. C. Newcomer, Corps of Engineers, dated August 4, 1923, for the construction of a bulkhead and fill along the westerly shore of the Harlem River, between 145th and 150th Streets, Borough of Manhattan.

1108

Lease—Resolution Approving Proposed Lease for Portion of Second Floor of Premises at No. 108 Main Street, Flushing—Adopted

The following resolution was adopted:

Resolved, That this Commission do and hereby does approve the proposed lease with Rose Tsitsera for the southeast portion of the second floor of the premises located at No. 108 Main Street, Flushing, N. Y. for the term of one year from the 3rd day of April, 1923, at the annual rental of \$600, payable in monthly installments of \$50 each for the purpose of maintaining a section office for the use of the Engineering Department of this Commission, and that the Chairman and Secretary of this Commission be and they hereby are authorized to execute the said proposed lease.

1109

Employees' Calendar No. 157

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Joseph J. Hein, transit inspector, at \$125.08 per month, to take effect August 6, 1923; Clarence Leader, draftsman, at \$150.08 per month, to take effect August 8, 1923; Aubrey L. McCaffrey, draftsman, at \$150.08 per month, to take effect August 8, 1923; Anthony T. Madden, accountant, at \$150.08 per month, to take effect August 6, 1923.

Appointments under Rule VIII: 4—Paul Haan, architectural draftsman, at \$150.08 per month, to take effect August 7, 1923; George I. King, draftsman, at \$150.08 per month, to take effect July 31, 1923; Roscoe E. Robins, junior assistant, at \$125.08 per month, to take effect August 1, 1923; Abraham Schiff, junior assistant, at \$125.08 per month, to take effect August 7, 1923; John R. Turner, junior assistant, at \$125.08 per month, to take effect August 1, 1923; Francis Weber, draftsman, at \$150.08 per month, to take effect August 7, 1923.

Reinstatement under Rule XVI: 1—George E. Tallman, junior assistant, at \$125.08 per month, to take effect August 1, 1923.

Dismissed—Roscoe E. Robins, laborer, at \$100.00 per month, to take effect July 31, 1923; John R. Turner, laborer, at \$100.00 per month, to take effect July 31, 1923.

Terminations of Appointments under Rule VIII: 4—Clarence Leader, draftsman, at \$150.08 per month, to take effect August 7, 1923; John H. Scott, draftsman, at \$150.08 per month, to take effect August 14, 1923; A. I. Shulman, draftsman, at \$150.08 per month, to take effect August 14, 1923.

Change of item in Resolution of July 31, 1923, concerning Benjamin Nelson, so as to read as follows: (Appointment)—Benjamin Nelson, draftsman, at \$150.08 per month, to take effect August 4, 1923.

Leave of absence with pay—Margaret J. Knott, file clerk, from July 1, 1923 to December 31, 1923; J. J. Quinn, assistant engineer, from June 19, 1923, to June 30, 1923.

Resignations—Frank Bennett, supervising transit inspector, at \$212.50 per month, to take effect August 1, 1923; Willis R. Cantrell, junior assistant, at \$125.08 per month, to take effect July 31, 1923; John Horn, engineering inspector, at \$180.00 per month, to take effect August 7, 1923; Isidor Mager, junior assistant, at \$125.08 per month, to take effect July 31, 1923.

1110

Employees—Recommendations by Chief Executive Officer as to Efficiency Ratings and Departmental Budgets—Approval Resolution

The Commission adopted a resolution approving certain recommendations by the Chief Executive Officer as to the establishment of various bureaus and departments and of regulations governing the preparation and keeping of efficiency ratings of employees of the Commission and for the establishment of a personnel budget for each department or bureau, and authorizing and directing the Chief Executive Officer to take all steps necessary to carry into effect such recommendations and to submit to the State Civil Service Commission, for its approval, such requirements as may be necessary in accordance with the law.

1111

Voucher Schedule No. 32

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them as enumerated below, and directs that the said vouchers be transmitted to the Comptroller of The City of New York for payment.

Vouchers Nos. 788-789, Open Market Orders, \$9; Vouchers Nos. 394 to 400, Miscellaneous Bills, \$9,459.85.

Estimates by Chief Engineer of Value of Work Done and Materials Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

- Voucher No. 199; Michael Del Balso; Approximate Estimate No. 7 for installation of tracks and construction of drainage system and concrete inspection pits at 239th Street Yard, from July 1, 1923 to July 31, 1923 (R. T. 7528), \$25,273.32.
- Voucher No. 200; Wagner Engineering Company, Inc.; Approximate Estimate No. 7 for construction of direction signs at stations from July 6, 1923 to August 5, 1923 (R. T. 7482), \$1,255.60.
- Voucher No. 201; Frederick L. Cranford, Inc.; Approximate Estimate No. 13 for the reconstruction of the Lawrence Street Station, Section No. 3 of Route No. 33 from July 1, 1923 to July 31, 1923 (R. T. 7454), \$9,142.74.
- Voucher No. 202; Rapid Transit Subway Construction Company, assignee, third installment under Saratoga Award, superseding Voucher No. 45, dated February 14, 1923 in the amount of \$270,139 which is cancelled. (R. T. 2008), \$200,000.
- Voucher No. 203; Fox Reynolds Company, Inc.; Approximate Estimate No. 2 for excavation and construction of retaining wall at Lenox Avenue Yard from July 1, 1923 to July 31, 1923 (R. T. 7642), \$13,776.30.
- Voucher No. 204; Slattery Engineering & Construction Company, Inc.; Approximate Estimate No. 9 for construction of additional approach track to Lenox Avenue Yard from July 1, 1923 to July 31, 1923 (R. T. 7366), \$9,384.80.
- Voucher No. 205; T. H. Reynolds Contracting Company, Inc.; Approximate Estimate No. 8 for installation of tracks in Sections Nos. 1 to 5 inclusive of Route No 8 from July 1, 1923 to July 31, 1923 (R. T. 7536), \$30,881.99.

1112

Hearings

The following hearings were held:

11:30 A. M., R. T. 7681. Draft form of contract for construction of enclosures to Third Addition to Shops at Lenox Avenue and 148th Street Yard. Commissioner Harkness presided. Hearing closed.

2:30 P. M., Case No. 2627. Hearing on Motion of the Commission upon the regulations, practices, equipment, appliances and service of the Interborough Rapid Transit Company. Chairman McAneny and Commissioners Harkness and O'Ryan presided. Adjourned tentatively to August 9, 1923, at 11:00 A. M.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Thursday, August 9, 1923

1113

Hearings

The following hearing was adjourned:

10:30 A. M.; R. T. 4007; Lengthening of platforms at local stations of Manhattan-Bronx Rapid Transit Railroad. Adjourned to August 16, 1923 at 10:30 A. M.

The following hearing was closed:

Case No. 2627; Hearing on motion of the Commission upon the regulations, practices, equipment, appliances and service of the Interborough Rapid Transit Company.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Friday, August 10, 1923

1114—R. T. 7684

Agreement "CO"—Receipt of Bids for Miscellaneous Drainage and Sewer Construction in Boroughs of Manhattan, Brooklyn and Queens—Referred to Chief Engineer

Chairman McAneny stated that the time within which to receive bids for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, Agreement "CO," had elapsed at 11:30 A. M. and directed the Acting Secretary to open the sealed box, which had been provided for the deposit of such bids and to read the bids received. The Acting Secretary presented the proper affidavits of publication and opened the box and read the three bids received. The bids were then referred to the Chief Engineer.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Tuesday, August 14, 1923

Present: LeRoy T. Harkness, Acting Chairman; John F. O'Ryan, Commissioner; Frank N. Robinson, Acting Secretary.

The following matters were presented and action taken as noted:

1115

The minutes of the proceedings for the month of May, 1923, were approved.

1116—R. T. 7684

Agreement "CO"—Resolution Authorizing Release of Checks to All But Lowest and Next to Lowest of Bidders for Miscellaneous Drainage and Sewer Construction in Boroughs of Manhattan, Brooklyn and Queens—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on August 10, 1923, for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, Agreement "CO," the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to the lowest of the bidders, the certified checks in the sum of Three hundred (\$300.) dollars deposited with their bids.

1117—R. T. 7612

Agreement "CG"—Certificate by Chief Engineer of Completion of Contract for Concreting Voids Under Platform of Eighth Street Station—Resolution Accepting Work and Directing That Certificate Be Filed With Comptroller

The following certificate was approved:

August 1, 1923.

To: TRANSIT COMMISSION.

Certificate of Completion: Concreting Voids—8th Street Station.

In connection with the contract dated April 2, 1923, between the City of New York, acting by the Transit Commission and Edwards and Flood, Inc., for concreting voids under platform of 8th Street Station, Borough of Manhattan, I hereby certify that all work was completed on July 14, 1923. The total cost of the work was \$852.20.

In accordance with the provisions of the contract, all work should have been completed by June 12, 1923. The time for completion, however, was extended to July 14, 1923, by resolution of the Transit Commission adopted on July 31, 1923. As all work was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended, That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The contract dated April 2, 1923, between The City of New York, acting by the Transit Commission, and Edwards & Flood, Inc., for concreting voids under the platform of the 8th Street Station of the Broadway-Fourth Avenue Rapid Transit Railroad, in the Borough of Manhattan, required the completion of all work thereunder on or before June 12, 1923, which time was, by resolution of this Commission adopted on July 31, 1923, extended to and including July 14, 1923; and

Whereas, The Chief Engineer of this Commission, by communication dated August 1, 1923, has reported that all the work required under said contract was in all respects completed on or before July 14, 1923; that the total amount due therefor was \$852.20 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

Resolved, That said report and recommendation be and the same hereby is approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York.

1118—R. T. 7368

Contract No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Establishment of Supplementary Unit Price for Concreting Wall under Contract for Second Addition to Shops at Lenox Avenue and 148th Street Yard—Resolution Approving Supplementary Unit Price

A certified copy of the following resolution adopted by the Board of Estimate and Apportionment on August 3, 1923, was ordered filed:

(Cal. No. 8)

Resolved, That, pursuant to the request of the Transit Commission to this Board, dated July 24, 1923, the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, does hereby consent and agree to the establishment of a supplementary unit price under Item 150 of the contract, dated August 3, 1922, with Jacob Schlesinger, Inc., for the construction of the Second Addition to Shops at the Lenox Avenue and 148th Street Yard, under Contract No. 3, as follows:

Schedule Item No. 9-W—For 8-inch concrete wall in place with a neat smooth-finished surface at \$25 per cubic yard.

—as more particularly set forth in said request of the Transit Commission to this Board, dated July 24, 1923, the cost of which exceeds the limitations fixed by Item 150 of the contract, namely, five thousand dollars (\$5,000), and therefore requires the consent of the Board of Estimate and Apportionment to the substitution.

A true copy of resolution adopted by the Board of Estimate and Apportionment, August 3, 1923.

JAMES MATTHEWS,
Assistant Secretary.

The following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated August 3, 1922 between the City of New York acting by the Transit Commission and Jacob Schlesinger, Inc. for the construction of the Second Addition to Shops at the Lenox Avenue Yard, under Contract No. 3, having subject to

the approval of the Commission, agreed with the said contractor on the following supplementary schedule item:

Item No. 9-W—For 8" concrete wall in place with a neat smooth finished surface at \$25.00 per cubic yard.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1119—R. T. 6567

Contract No. 3—Stipulation with Interborough Rapid Transit Company as to Rendition of Thirty-seventh to Forty-first Quarterly Determinations of Cost and as to Extensions of Time within Which to File Objections to Items Contained in the Thirty-eighth to Forty-first Quarterly Determinations and Redeterminations of First to Ninth Quarterly Determinations of Cost—Approved

The Commission approved the following stipulation with the Interborough Rapid Transit Company, dated July 25, 1923:

"It is hereby stipulated and agreed between the Interborough Rapid Transit Company and the Transit Commission that the Chief Engineer of the Transit Commission may render his thirty-seventh quarterly determination in advance of his redetermination of the tenth to the thirty-sixth quarterly determinations.

"It is further stipulated and agreed that the Chief Engineer of the Transit Commission may render his thirty-eighth, thirty-ninth and fortieth quarterly determinations at the time the forty-first quarterly determination is rendered, and the Transit Commission and Interborough Rapid Transit Company shall have thirty days after the date of the service of the forty-first quarterly determination to file their objections to all or any of the items of all or any of the said determinations from the thirty-eighth to the forty-first, quarterly determinations, both inclusive.

"It is further stipulated and agreed that the time of the said Transit Commission and of the said Interborough Rapid Transit Company within which to give written notice to the other that it requires the redetermination of the first to the ninth quarterly determinations, both inclusive, rendered by the said Chief Engineer to be submitted to arbitration be and the same hereby is extended until thirty days after the said Chief Engineer renders his redeterminations of the tenth to the thirty-seventh quarterly determinations."

1120—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Induced Draft Fan Motors for New Boilers at 59th Street Power House—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated July 23, 1923, requesting approval of a proposed purchasing agent's order directed to the General Electric Company for two sets of induction motors and accessories for induced draft fans to be used in the 59th Street Power Station at a total cost of \$17,600.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer dated August 2, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment for the Railroad to be performed under Work Order No. IBA-7 heretofore assigned.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922, the application of the Interborough Rapid Transit Company pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the

Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3, consisting of additional units of new equipment and appurtenances and cables to provide additional power, was approved; and

Whereas, By resolution adopted by this Commission on November 14, 1922, Work Order No. IBA-7 was assigned thereto; and

Whereas, By resolution adopted by this Commission on July 10, 1923, pursuant to the resolutions aforesaid, this Commission approved a proposed Contract between the Babcock & Wilcox Company for the manufacture, delivery and installation in the 59th Street Power House of four 1140 H. P. B. & W. Super Heaters complete and ready for operation; and

Whereas, By communication dated July 23, 1923, said Interborough Rapid Transit Company, pursuant to the resolutions of September 7, 1922 and November 14, 1922 aforesaid, has submitted, for the approval of this Commission, Proposed Purchasing Agent's Order dated July 23, 1923, directed to the General Electric Company for the following:

- "2 Sets of Motors, each set consisting of
 - 1-KT-422-12-350HP, 250 rpm, 440 volt, 3 phase, 25 cycle, squirrel cage motor complete with end shield bearings.
 - 1-350 HP compensator for floor mounting less switches, CR-1034, form E-5.
 - 1-KT-422-14-175-HP-187½ rpm, 440 volt, 3 phase, 25 cycle induction motor, complete with end shield bearings. The efficiency of this motor shall be approximately 89½% instead of 87%, at 84% power factor.
 - 1-Self contained starting compensator including switches, NR-5167-P-1.
 - 1-Coupling for between motors.

Motors are to be insulated for 2,200 volts and equipped with automatic remote control provided with an interlock between the two motors, so that only one could be run at a time. Price: \$8,800.00 each set.....\$17,600.00"

which proposed Purchasing Agent's Order has been caused to be designated "Approval No. 488"; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated August 4, 1922, reported that the following bids were received for said apparatus:

"B. F. Sturtevant Co.....	\$16,640.	(F. O. B. Readville, Mass.)
General Electric Co.	17,600.	(F. O. B. N. Y. C.)
Westinghouse Electric & Mfg. Co..	17,900.	(F. O. B. Pittsburgh, Pa.)"

; that the bid of B. F. Sturtevant Company was not considered because that company could not quote on remotely controlled motors which are essential for this class of work; that said motors are to be used to drive induced draft fans which are auxiliaries required for two of the new B. & W. Boilers purchased for said company and recommend the approval of said Proposed Purchasing Agent's Order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 8, 1923, has recommended that such apparatus be classified as Additional Equipment for the Railroad under Work Order No. IBA-7 heretofore assigned as aforesaid,

Resolved, That said Proposed Purchasing Agent's Order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said Purchasing Agent's Order for such material so to be purchased to be classified as Additional Equipment for the Railroad pursuant to Work Order No. IBA-7, assigned as aforesaid.

1121—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Stoker Drive Motors for New Boilers at 59th Street Power House—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated July 25, 1923, requesting approval of a proposed purchasing agent's order directed to the

Westinghouse Electric & Manufacturing company for three direct current motors and accessories for stoker drive to be used in the 59th Street Power Station, at a total cost of \$2,969.

A report was presented from the Acting Engineer of Equipment and Operation and Chief Engineer, dated August 4, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment for the Railroad, to be performed under Work Order No. IBA-7, heretofore assigned.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922, the application of the Interborough Rapid Transit Company, pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3, consisting of additional units of new equipment and appurtenances and cables to provide additional power, was approved; and

Whereas, By resolution adopted by this Commission November 14, 1922, Work Order No. IBA-7 was assigned thereto; and

Whereas, By resolution adopted by this Commission on July 10, 1923, pursuant to the resolutions aforesaid this Commission approved a proposed contract between the Babcock & Wilcox Company for the manufacture, delivery and installation in the 59th Street Power House of four 1140 H. P. B. & W. Boilers and three B. & W. Super Heaters complete and ready for operation; and

Whereas, By communication dated July 25, 1923, said Interborough Rapid Transit Company, pursuant to the resolutions of September 7, 1922 and November 14, 1922 aforesaid, has submitted, for the approval of this Commission, Proposed Purchasing Agent's Order dated July 25, 1923, directed to the Westinghouse Electric and Manufacturing Company for the following:

"3—14-7 H. P. Motors, type "SK," frame No. 140, adjustable speed by field control, continuous duty at 40° C rise, D. C. type "SK" 230 volts, 300-1200 RPM, two bearings, shunt wound, semi-enclosed with solid covers on top and grid covers below, horizontal, arranged for floor mountings, for chain drive to a mechanical stoker. With standard single ended shaft. Insulation will be special No. 2 to resist moisture and coal dust, each including:—

1 Set of slide rails

1 Type 245 drum controller, including separately mounted resistor.

Total Cost: \$2969.00"

which proposed Purchasing Agent's Order has been caused to be designated "Approval No. 497"; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated August 4, 1923, reported that the following bids were received, for said apparatus:

Westinghouse Electric & Mfg. Co.....	\$2,969.00
General Electric Co.....	3,209.40

; that the award is to the lowest bidder and the price of the apparatus proposed is reasonable; that such apparatus is necessary to drive the stokers for two of the boilers to be purchased as aforesaid and recommend the approval of said proposed Purchasing Agent's Order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 8, 1923, has recommended that such apparatus be classified as Additional Equipment for the Railroad under Work Order No. IBA-7 heretofore assigned as aforesaid.

Resolved, That said proposed Purchasing Agent's Order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said Purchasing Agent's Order for such material so to be purchased to be classified as Additional Equipment for the Railroad pursuant to Work Order No. IBA-7 assigned as aforesaid.

1122—R. T. 7224

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Transfer of Certain Cables from Contract No. 1 and Manhattan Elevated Railroad Ducts to Contract No. 3—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Report by Auditor of Rapid Transit Costs and Chief of Bureau of Accounting and Valuations as to Method of Accounting—Report by Counsel Submitting Proposed Stipulation as to Vesting of Title to Equipment—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated July 9, 1923, requesting approval to the transfer of certain cables from their present location in Contract No. 1 owned by the Interborough Rapid Transit Company as part of the property of Contract No. 1 and certain cables in the Manhattan Elevated Railroad Company to various portions of the Seventh Avenue-Lexington Avenue Line under Contract No. 3.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated July 21, 1923, stating that the transfer of such cables is necessary from an engineering standpoint, that the estimated cost of \$9,100. is reasonable and recommending that the application be approved.

A report was presented from the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuation dated August 1, 1923, recommending that the method of accounting for same be followed as described below.

A report was presented from Counsel, dated August 13, 1923, submitting a proposed stipulation with the Interborough Rapid Transit Company with respect to the vesting of title to the equipment installed under Contract No. 3.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting, by the Public Service Commission for the First District and Interborough Rapid Transit Company known as Contract No. 3, said Interborough Rapid Transit Company by communication dated July 9, 1923 has requested the approval of this Commission to the transfer of certain cables from their present location in the Manhattan-Bronx Rapid Transit Railroad (Contract No. 1) and Manhattan Elevated Railroad ducts to the ducts of the Railroad described in said Contract No. 3; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated July 21, 1923, reported that the following changes are contemplated by such application; to move 9,160 feet of 3 conductor 000 Manhattan Company cable from Spring Street between Lafayette Street and abandoned Manhattan Substation No. 2 and in 54th Street between Broadway and abandoned Manhattan Substation No. 3 on 53rd Street, and the installation of such cable in the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad described in said Contract No. 3; also, to remove approximately 17,840 feet of 3 conductor 000 cable from Lafayette Street and Fourth Avenue between Prince and East 19th Streets and also in the West Farms Branch of the Manhattan-Bronx Rapid Transit Railroad between 96th Street and Broadway and Simpson Street and Westchester Avenue and on Broadway between 58th Street and 96th Streets, all of which cable is to be installed in the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad, described in said Contract No. 3; and also to remove approximately 1,500 feet of Contract No. 1 cable of single conductor 00 cable from 42nd Street between Fifth Avenue and Broadway to the Lexington Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad described in

said Contract No. 3; that the estimated cost of such work is \$9,100; that the installation of such cable in the Railroad described in said Contract No. 3 is necessary from an engineering standpoint and that the estimated cost is reasonable; that an economy is effected in the utilization of this used cable, since the cost of new cable would be in excess of approximately \$40,000 and recommend the approval of said application; and

Whereas, Counsel to the Commission by communication dated August 13, 1923, has submitted for the approval of this Commission a proposed stipulation between Interborough Rapid Transit Company and this Commission, which if executed, will hold in abeyance the question of compliance with the provisions of Article XLIV of said Contract No. 3 in respect of the vesting of title to the equipment installed under said Contract No. 3 and has recommended the approval, execution and delivery thereof; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuation have, by communication dated August 1, 1923, recommended the following as the method of accounting to be followed upon the approval of such application:

a. The cost of disconnecting and removing old Contract No. 1 cable and reinstalling and connecting it for use in the ventilation feeder to the fan chamber at 53rd Street and Lexington Avenue, charge to "Operating Expenses" under Contract No. 3.

b. The cost of disconnecting and removing old Contract No. 1 cable and reinstalling and connecting it for use as a high tension feeder from the 59th Street power house to substation No. 21, charge to "Operating Expenses" under Contract No. 3.

c. The cost of disconnecting and removing old Manhattan Railway Co. cable and reinstalling and connecting it for use as a high tension feeder from the 59th Street power house to substation No. 21, charge 50% to "Operating Expenses" under Extensions Certificate and 50% to "Operating Expenses" under Contract No. 3."

Resolved, That the said reports and recommendations be and the same hereby are approved; that the application of Interborough Rapid Transit Company made as aforesaid be and the same hereby is approved upon the following conditions:

a. That the cost of disconnecting and removing old Contract No. 1 cable and reinstalling and connecting it for use in the ventilation feeder to the fan chamber at 53rd Street and Lexington Avenue, be charged to "Operating Expenses" under Contract No. 3.

b. That the cost of disconnecting and removing old Contract No. 1 cable and reinstalling and connecting it for use as a high tension feeder from the 59th Street power house to Substation No. 21, be charged to "Operating Expenses" under Contract No. 3.

c. That the cost of disconnecting and removing old Manhattan Railway Co. cable and reinstalling and connecting it for use as a high tension feeder from the 59th Street power house to Substation No. 21 be charged 50% to "Operating Expenses" under Extensions Certificate and 50% to "Operating Expenses" under Contract No. 3.

Further Resolved, That the stipulation so submitted by Counsel be and the same hereby is approved and adopted and that the Chairman of this Commission be and hereby is authorized and directed to execute and deliver the same for and on behalf of this Commission.

1123—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation Requesting Approval of Proposed Purchasing Agent's Order for Third Rail and Track Rail Bonding in Subway Portion of 14th Street-Eastern Line—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated August 3, 1923, requesting approval of a proposed purchasing agent's order directed to B. T. & J. J. Mack, Inc., for erection of third rail and for track rail bonding in the

subway portion of the 14th Street-Eastern Line at an approximate cost of \$119,296.40.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer, dated August 13, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as "Equipment of the Railroad".

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation known as Contract No. 4, New York Rapid Transit Corporation as successor to the rights and obligations under said Contract No. 4 has by communication dated August 3, 1923 submitted for the approval of this Commission a proposed purchasing agent's order dated August 2, 1923 directed to B. T. & J. J. Mack, Inc., for the following:

Erection of Third Rail and Appurtenances and Track Rail Bonding 14th Street-Eastern Line, from Sixth Avenue, Manhattan to Montrose Avenue, Brooklyn, in accordance with attached specifications and schedule of prices.

Payments to be made in accordance with Schedule of Prices.

Partial payments to be made on the 20th day of each month for 90% of the value of the work performed during the preceding month, provided the Contractor is making proper progress and payments by the Contractor to any Sub-Contractor for work done in connection with the work are being made consistent with payments by the Company to the Contractor.

Time of completion to be as specified under "Work to be Done" of the specifications.

together with the specifications made part thereof, which proposed purchasing agent's order has been caused to be designated as "Approval No. 366"; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated August 13, 1923 reported that the following is a recapitulation of bids taken for such work:

B. T. & J. J. Mack, Inc.....	Approximately...	\$119,296.40
Seymour Construction Co.....	Approximately...	130,628.55
McElroy & Kerwin.....	Approximately...	179,209.35
Thomas Crimmins Contracting Co....	Approximately...	215,349.10
T. H. Reynolds Contracting Co., Inc....	Approximately...	223,150.25
Edwards & Flood, Inc.....	Could not quote.	
Jobson-Gifford Co.	Could not quote.	
Terry & Tench Co.....	Could not quote.	
Ward & Tully.....	Did not reply.	
G. E. Engineering Co., Inc.....	Did not reply.	
Holbrook Cabot & Rollins Corp....	Did not reply.	

that the award is to the lowest bidder which is fully competent to perform the work; that the plans and specifications for such work have already been approved by the Chief Engineer and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 14, 1923 has recommended that such work be classified as "Equipment of the Railroad" as defined in said Contract No. 4,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order. The work to be performed pursuant thereto to be classified as "Equipment of the Railroad" as defined in said Contract No. 4.

1124

Richmond Light & Railroad Company, John J. Kuhn, Receiver—Notice from Receiver as to Turning Back of Property—Filed

The Acting Secretary presented a communication, dated August 3, 1923, from John J. Kuhn, transmitting copy of decree of the United States District Court for the

Eastern District of New York, directing the turning back of the properties by him as Receiver of the Richmond Light & Railroad Company and advising that said properties were turned back to the Company at midnight on July 31, 1923.

Thereupon the above mentioned papers were ordered filed.

1125

Nassau Bus Line, Inc.—Communication from Board of Estimate and Apportionment Transmitting Franchise Contract—Filed

The Acting Secretary presented a communication, dated August 6, 1923, from James Matthews, Assistant Secretary of the Board of Estimate & Apportionment, transmitting certified copy of contract, dated July 31, 1923, by and between The City of New York and the Nassau Bus Line, Inc., granting said bus line a franchise to operate buses on Central Avenue and other avenues, in the Borough of Queens.

Thereupon the above mentioned papers were ordered filed.

1126

Concourse Bus Line, Inc.—Communication from Board of Estimate and Apportionment Transmitting Franchise Contract—Filed

The Acting Secretary presented a communication, dated August 6, 1923, from James Matthews, Assistant Secretary of the Board of Estimate & Apportionment, transmitting certified copy of contract, dated July 31, 1923, by and between The City of New York and the Concourse Bus Line, Inc., granting said company a franchise to operate two bus routes in the Boroughs of Manhattan and The Bronx.

Thereupon the above mentioned papers were ordered filed.

1127—R. T. 6334

Contract No. 1—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Agreement for Reconstructing Additional Entrance to Dyckman Street Station and Authorizing Additional Appropriation of \$200 as Part of City's Share—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on August 3, 1923, was ordered filed:

(Cal. No. 7)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated July 17, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed agreement (subject to its approval, as to form, by the Corporation Counsel) with the Interborough Rapid Transit Company, as lessee, for all work required for reconstructing the entrance to the Dyckman Street Station of the Manhattan-Bronx Rapid Transit Railroad of the existing railroads passing over and along Broadway, in the Borough of Manhattan, as addition to construction under Contract No. 3, at a cost to The City of New York of eight hundred dollars (\$800), being one-half of the total estimated cost of such addition to construction, namely, sixteen hundred dollars (\$1,600); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be eight hundred dollars (\$800); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding two hundred dollars (\$200) in addition to the six hundred dollars (\$600) heretofore authorized for this purpose, at

[August 14, 1923]

such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said addition to construction, under said agreement; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriation subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment. August 3, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1128—R. T. 7590

Contract No. 3—Notice by Chief Engineer of Commencement of Work for Supply and Erection of Structural Steel for Third Addition to Shops at Lenox Avenue and 148th Street Yard—Filed

The Commission ordered filed a notice from the Chief Engineer, dated August 8, 1923, advising of the commencement of work by McClintic-Marshall Company on July 31, 1923, for the supply and erection of structural steel for the Third Addition to Shops at the Lenox Avenue and 148th Street Yard.

1129—R. T. 7230

Rapid Transit Railroads—Report by Chief Engineer Submitting List of Sub-Contracts Approved during Month of July, 1923—Filed

The following report by the Chief Engineer was ordered filed:

August 13, 1923.

To TRANSIT COMMISSION,

List of Sub-Contracts.

I submit, as follows, a list of sub-contracts, approved by this Department during the month of July.

Route No.	Section No.	Contractor.	Sub-Contractor	Date of Approval	Materials.
8	6A-1	Frederick L. Cranford, Inc.	Pennsylvania Cement Co.	7/23/23	Cement, T. C. Inspected.
16	Inspection Shed & Service Bldgs., Jerome Ave. Yard	Jacob Schlesinger, Inc.	S. L. Snyder Co., Inc.	7/ 6/23	Labor and material on plumbing work.
16	Inspection Shed & Service Bldgs., Jerome Ave. Yard	Jacob Schlesinger, Inc.	Goodwin-Gallagher Sand & Gravel Corp.	7/11/23	Sand, T. C. Inspected.
			Rosoff Sand & Gravel Corp.	7/11/23	Gravel, T. C. Inspected.
			N. Y. Trap Rock Corp.	7/11/23	Broken stone, T. C. inspected for use in foundations.
33 Sec. 3	Completion of Lawrence St. Station.	Frederick L. Cranford, Inc.	L. Mitchell Tappen Co. (in place of Korlow Steel Flooring Co., previously approved).	7/23/23	Gratings.
33 Sec. 3	Completion of Lawrence St. Station.	Frederick L. Cranford, Inc.	Clermont Sewer Pipe Co.	7/27/23	Single ducts.

Route No.	Section No.	Contractor.	Sub-Contractor	Date of Approval	Materials.
52	Sec. 3.	Oakdale Contracting Co.	Rosoff Sand & Gravel Corp. Tompkins Cove Stone Co. U. S. Cast Iron Pipe & Foundry Co.	7/25/23 7/25/23 7/25/23	Gravel, T. C. Inspected. Broken stone, T. C. Inspected. Cast-iron water pipe & specials, T. C. Inspected.
Agreement "CC"—	Changes in Subway Structure necessitated by widening of 60th St. bet. 2d and 5th Aves. Brooklyn.	Jacob Schlesinger, Inc.	Goodwin-Gallagher Sand & Gravel Corp. Rosoff Sand & Gravel Corp.	7/11/23 7/11/23	Sand, T. C. Inspected. Gravel, T. C. Inspected.
Agreement "CJ"—	Concrete & Steel Highway Bridge at 9th Ave. bet. 37th and 38th Sts. Brooklyn.	Con-M. A. Charles.	Phoenix Bridge Co.	7/ 5/23	Furnishing, erecting & painting structural steel.
Agreement "CK"—	Retaining Wall at Lenox Ave. Yard bet. 148th and 150th Streets.	Fox, Reynolds Co., Inc.	J. P. Duffy Co.	7/13/23	"Atlas" Portland Cement, T. C. Inspected.
Agreement "CK"—	Retaining Wall at Lenox Ave. Yard bet. 148th and 150th Streets.	Fox, Reynolds Co., Inc.	Gallagher-Shand Inc.	7/27/23	Sand & Gravel, T. C. Inspected. (Supplied by the Goodwin-Gallagher Sand & Gravel Corp.).
Second Addition to Shops, 148th St. and Lenox Ave. yard.		Jacob Schlesinger, Inc.	Goodwin-Gallagher Sand & Gravel Corp. Rosoff Sand & Gravel Corp.	7/11/23 7/11/23	Sand, T. C. Inspected. Gravel, T. C. Inspected.
Third Addition to Shops, 148th St. and Lenox Ave. yard—Constructing Foundations.		Rosenthal Eng. Contracting Co.	U. S. Cast Iron Pipe & Foundry Co.	7/ 3/23	Cast-iron sewer pipe.
Contract No. 1, 168th Street Station.		Holbrook, Cabot & Rollins Corp.	A. K. Michalakos Co.	7/ 2/23	Painting iron, steel, plaster, concrete, etc.
Completion of Built-in Newsstand Enclosures, Contracts 3 and 4.		Fox, Reynolds Co., Inc.	Benjamin Moore & Co.	7/13/23	Paint, T. C. Inspected.
Completion of Built-in Newsstand Enclosures, Contracts 3 and 4.		Fox, Reynolds Co., Inc.	Pittsburgh Plate Glass Co.	7/18/23	Polished wire plate glass.

ROBERT RIDGWAY,
Chief Engineer.

1130—R. T. 6761

Contract No. 3—Communication from Interborough Rapid Transit Company Transmitting Copy of Contract for Three Rotaries, Transformers, Etc., for Substation No. 27—Filed

The Commission ordered filed a communication dated August 7, 1923, from the Interborough Rapid Transit Company by H. M. Fisher, Secretary, transmitting a copy

of a contract dated February 28, 1923, with the General Electric Company for three 2,000 k. w. rotaries, transformers, etc., for Substation No. 27.

1131

Employees' Calendar No. 158

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—William J. Lodge, architectural draftsman, at \$150.08 per month, to take effect August 11, 1923; John P. Mulhern, architectural draftsman, at \$150.08 per month, to take effect August 11, 1923; Ethel H. Schneider, file clerk, at \$100.00 per month, to take effect August 16, 1923; Benjamin Silverman, architectural draftsman, at \$150.08 per month, to take effect August 11, 1923.

Appointments Under Rule VIII:4—Morris Bass, draftsman, at \$150.08 per month, to take effect August 13, 1923; John F. O'Heir, Jr., engineering inspector, at \$150.08 per month, to take effect August 9, 1923; Philip Perlstein, junior assistant, at \$125.08 per month, to take effect August 9, 1923; George M. Remson, draftsman, at \$150.08 per month, to take effect August 9, 1923; James M. Sterner, junior assistant, at \$125.08 per month, to take effect August 13, 1923.

Rescission of Appointment—Meyer Michalowicz, draftsman, at \$150.08 per month, to take effect August 17, 1923.

Rescission of Termination of Appointment Under Rule VIII:4—Meyer Michalowicz, engineering inspector, at \$150.08 per month, to take effect August 16, 1923.

Resignation (Exempt)—George O. Redington, counsel to the commission, at \$833.33 per month, to take effect August 31, 1923.

Resignations—J. S. Dougherty, junior clerk, at \$60 per month, to take effect August 11, 1923; William G. Fullen, assistant counsel, at \$541.66 per month, to take effect August 31, 1923; J. L. Lemke, junior assistant, at \$125.08 per month, to take effect July 31, 1923; Meyer Michalowicz, engineering inspector, at \$150.08 per month, to take effect August 15, 1923; I. Spahn, junior assistant, at \$125.08 per month, to take effect August 15, 1923; Augustine H. Thorogood, transit inspector, at \$137.50 per month, to take effect August 11, 1923.

Termination of Appointments Under Rule VIII:4—Alexander Charles, draftsman, at \$150.08 per month, to take effect August 14, 1923; William J. Lodge, architectural draftsman, at \$150.08 per month, to take effect August 10, 1923.

Termination of Appointments Under Rule VIII:9—Julio M. Conesa, architectural draftsman, at \$150.08 per month, to take effect August 10, 1923; John P. Mulhern, architectural draftsman, at \$150.08 per month, to take effect August 10, 1923; Benjamin Silverman, architectural draftsman, at \$150.08 per month, to take effect August 10, 1923; David Stone, architectural draftsman, at \$150.08 per month, to take effect August 17, 1923.

Appointment (Exempt)—William G. Fullen, counsel to the commission, at \$833.33 per month, to take effect September 1, 1923.

1132

Voucher Schedule No. 33

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted to the Comptroller of The City of New York for payment:

Vouchers Nos. 144 to 152, regular payrolls, \$87,775; Voucher No. CM-16, State payroll, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Materials Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

- Voucher No. 197; Edwards & Flood, Inc.; Approximate Estimate No. 1 for concreting voids under platform of Eighth Street Station, Route No. 5, Section No. 4, from April 12, 1923 to July 12, 1923 (R.T. 7612), \$700.74.
- Voucher No. 198; Edwards & Flood, Inc.; Final Estimate for concreting voids under platform of Eighth Street Station, Route No. 5, Section No. 4, to July 14, 1923 (R. T. 7612), \$151.46.
- Voucher No. 206; Rosenthal Engineering Contracting Company, Inc., Approximate Estimate No. 11 for construction of enclosure to inspection shed at 180th Street Yard from July 1, 1923 to July 31, 1923 (R.T. 7457), \$9,233.47.
- Voucher No. 207; New York Rapid Transit Corporation; Approximate Estimate No. 4 for lengthening of platform at Canal Street Station of Center Street Loop from June 1, 1923 to June 30, 1923 (R.T. 7431), \$12,731.14.
- Voucher No. 209; Gustin-Morris Contracting Corporation; Approximate Estimate No. 4 for construction of foundations for Route No. 52, Section No. 1, Flushing Line from July 1, 1923 to July 31, 1923 (R.T. 7670), \$11,588.21.
- Voucher No. 210; Oakdale Contracting Company, Inc.; Approximate Estimate No. 3 for the construction of Route No. 52, Section No. 3, Flushing Line from July 1, 1923 to July 31, 1923 (R.T. 7673), \$37,892.15.
- Voucher No. 211; Powers Kennedy Contracting Corporation; Approximate Estimate No. 14 for the construction of Routes Nos. 35 & 67, Queensboro Subway Extension from July 1, 1923 to July 31, 1923 (R.T. 7584), \$41,668.78.
- Voucher No. 212; Frederick L. Cranford, Inc.; Approximate Estimate No. 4 for the construction of Route No. 8, Section No. 6 A-1 of the Fourteenth Street-Eastern Line from July 1, 1923 to July 31, 1923 (R.T. 7667), \$40,403.65.
- Voucher No. 213; Holbrook, Cabot & Rollins Corporation; Approximate Estimate No. 14 for the construction of a new entrance to the 168th Street Station, Contract No. 1, from July 1, 1923 to July 31, 1923 (R. T. 6114), \$3,183.72.
- Voucher No. 214; George Colon & Company; Approximate Estimate No. 13 for the construction of a passageway at Union Square Station, Routes Nos. 5 & 8, from June 1, 1923 to July 31, 1923 (R.T. 7513), \$6,865.
- Voucher No. 215; Joslin Construction Company, Inc.; Approximate Estimate No. 12 for the reconstruction of the Jackson Avenue Station, Route No. 26, from July 1, 1923 to July 31, 1923 (R.T. 7556), \$9,272.31.
- Voucher No. 216; Jobson-Gifford Company; Approximate Estimate No. 2 for changes in steel work at easterly approach to Queensboro Plaza Station, Routes Nos. 36 & 37, Section No. 1 from July 1, 1923 to July 31, 1923 (R.T. 7573), \$15,062.53.
- Voucher No. 217; Philip J. Healey; Approximate Estimate No. 2 for making test borings at sites of proposed Coney Island and Westchester Storage Yards and extension of Broadway line under Central Park from July 1, 1923 to July 31, 1923 (R.T. 5006), \$1,562.96.

1133

Upon motion, duly seconded and adopted, the meeting was adjourned to Monday, August 20, 1923, at 11:00 A.M.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Wednesday, August 15, 1923

1134

Hearings

The following hearing was held:

10:30 A. M.; Cases Nos. 1264 and 1380; The Long Island Railroad Company; Hearing on the motion of the Commission on the question of alterations and changes in the following grade crossings with the tracks of the company: Hempstead and Jamaica Turnpike, Bennett or Baylis Avenue, Wertland Avenue, Creed Avenue and Madison Avenue. Carleton S. Cooke, Assistant Counsel, presided. Hearing closed.

The following hearing was adjourned:

2:30 P. M., Case No. 2695; Interborough Rapid Transit Company; Hearing on Motion of the Commission as to the alteration and reconstruction of the 33rd Street and Fourth Avenue Station, in the City of New York, from a local to an express station. Adjourned by direction of the Commission until September 5, 1923, at 2:30 P. M.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Thursday, August 16, 1923

1135

Hearing

The following hearing was adjourned:

10:30 A. M., R. T. 4007. Lengthening of platforms at local stations, Contract No. 1. Hearing adjourned to September 5, 1923, at 11:00 A. M.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Friday, August 17, 1923

Present: LeRoy T. Harkness, Acting Chairman; Frank N. Robinson, Acting Secretary.

The following matters were presented and action taken as noted:

1136—R. T. 7653

Agreement "CN"—Receipt of Bids for Changes in Subway Structure at West 32nd Street and Broadway Incidental to Widening of Street and for Construction of Ventilation Flue—Referred to Chief Engineer.

Commissioner Harkness stated that the time within which to receive bids for making changes in the subway structure at Broadway incidental to the widening of West 32nd Street and the construction of a ventilation flue at West 32nd Street and

Broadway, Routes Nos. 4 and 36, Section No. 2, had elapsed at 11:30 A. M., and directed the Acting Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received. The Acting Secretary presented the proper affidavits of publication and opened the box and read the seven bids received. The bids were then referred to the Chief Engineer.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Monday, August 20, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; Frank N. Robinson, Acting Secretary.

The following matters were presented and action taken as noted:

1137—R. T. 7653

Agreement "CN"—Resolution Authorizing Release of Checks to All But Lowest and Next to Lowest of Bidders for Changes in Subway Structure at West 32nd Street and Broadway Incidental to Widening of Street and for Construction of Ventilation Flue—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on August 17, 1923, for making changes in the subway structure at Broadway incidental to the widening of West 32nd Street and the construction of a ventilation flue at West 32nd Street and Broadway, Routes Nos. 4 & 36, Section No. 2, Borough of Manhattan, (Agreement "CN"), the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders, the certified checks in the sum of Three hundred (\$300) Dollars deposited with their bids.

1138—R. T. 7684

Agreement "CO"—Report by Chief Engineer Recommending Rejection of Bids for Miscellaneous Drainage and Sewer Construction in Boroughs of Manhattan, Brooklyn and Queens—Resolution Rejecting Bids and Directing That Bids Be Readvertised

A report was presented from the Chief Engineer dated August 20, 1923, as to the bids received on August 10, 1923, for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, and recommending that the bids be rejected and be again advertised.

The following resolution was adopted:

Whereas, This Commission, on August 10, 1923, pursuant to public advertisement duly had, received bids for the performance of the work pursuant to the proposed contract (Agreement "CO") for miscellaneous drainage and sewer construction in municipal rapid transit railroads in the Boroughs of Manhattan, Brooklyn and Queens, in the City of New York; and

Whereas, The Chief Engineer of this Commission, by communication dated August 20, 1923, has reported that the following bids were so received:

Frank Persicano	\$20,570.00
John Riches	23,875.00
Ward & Tully, Inc.....	34,034.00

; that the prices bid by the low bidder have been examined into and are believed to be too high and accordingly recommends that all bids received as aforesaid on August 10, 1923, for said proposed contract be rejected and that said proposed contract be readvertised.

Resolved, That said report and recommendation be and the same hereby is approved; that the bids received as aforesaid on August 10, 1923 for the performance of the work under said proposed Agreement "CO" be and the same hereby are in all respects rejected and that the Secretary of this Commission be and hereby is authorized and directed to return the security deposited with said bids and to take proper receipt therefor.

Further Resolved, That the Invitation to Contractors, forming part of said proposed Agreement "CO" for miscellaneous drainage and sewer construction in municipal rapid transit railroads in the Boroughs of Manhattan, Brooklyn and Queens, City of New York, as aforesaid, be published in the City Record continuously every day of publication from and including August 24, 1923 to and including September 10, 1923, and on August 28, 1923 and September 4, 1923, in The New York Times and the Evening Post, daily newspapers published in the City of New York, and that such bids as shall be received shall, on the 10th day of September, 1923, at 11:30 o'clock A. M. or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission or its Secretary, at the office of the Transit Commission, and read.

1139—R. T. 7681

Contract No. 3—Form of Contract, Specifications, Invitation to Contractors, Etc., for Construction of Enclosures to Third Addition to Shops at Lenox Avenue and 148th Street Yard—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the specifications and contract drawings for construction of enclosures of the Third Addition to Shops at the Lenox Avenue and 148th Street Yard (under Contract No. 3).

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contracts, Bond and Contractor's Proposal, together with the specifications and contract drawings, for the construction of enclosures of the Third Addition to Shops at the Lenox Avenue and 148th Street Yard (under Contract No. 3) be and hereby are approved and adopted and that said Invitation to Contractors be published in the City Record every day of publication continuously from and including August 22, 1923 to and including September 10, 1923 and on August 24, 1923 and August 31, 1923 in The New York Herald and The Evening Mail, daily newspapers published in the City of New York and that such bids as shall be received shall, on the 10th day of September, 1923 at eleven-thirty (11.30) o'clock, A. M., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission or its Secretary, at the office of the Transit Commission, and read.

1140—R. T. 7193

Route No. 12, Sections Nos. 1, 1A, 2 and 3—Communication from Deputy Comptroller Requesting Preparation of Requisition Upon Board of Estimate and Apportionment for \$29,537.23 for Settlement of Claim of Contractor for Station Finish—Report by Counsel Recommending Approval—Approval Resolution—Requisition Upon Board of Estimate and Apportionment

A communication was presented from Henry Smith, Deputy Comptroller, Department of Finance, dated August 8, 1923, requesting that a requisition be made upon the Board of Estimate and Apportionment for the appropriation of the sum of \$29,537.23 to effect the settlement of the claim of the Frederick Snare Corporation (present name of the Snare & Triest Company) growing out of the contract for station finish on Sections Nos. 1, 1A, 2 and 3 of Route No. 12, Eastern Parkway Line.

A report was presented from Counsel dated August 15, 1923, stating that the settlement is fair and proper and recommending that a requisition be made on the Board of Estimate and Apportionment for the necessary sum and that a voucher be transmitted to the Department of Finance.

The following resolution was adopted:

Whereas, The Deputy Comptroller of the City of New York by communication dated August 8, 1923, has requested the making of a requisition upon the Board of Estimate and Apportionment of the City of New York for the appropriation of the sum of twenty-nine thousand, five hundred thirty-seven dollars and twenty-three cents (\$29,537.23), to effect the settlement in that amount made with respect to the claim of Frederick Snare Corporation (present name of the Snare & Triest Company, as changed by law), growing out of the Contract between it and the City of New York, acting by the Public Service Commission for the First District for the construction of station finish for parts of the Broadway-Fourth Avenue and Eastern Parkway Rapid Transit Railroads, known as Route No. 12, Sections Nos. 1, 1-A, 2 and 3; and

Whereas, Counsel has prepared and submitted a proposed requisition for the sub-authorization of such amount under the appropriations heretofore made for Contract No. 3 and has recommended the adoption thereof and also the preparation and transmission of a voucher in the amount of such settlement to the Department of Finance coincidentally with the sending of such requisition,

Resolved, That said requisition so submitted be and the same hereby is approved and that it be transmitted to the Board of Estimate and Apportionment of the City of New York,

Further Resolved, That the Auditor of this Commission be and hereby is authorized and directed to prepare and transmit a proper voucher in said amount for the purposes of effecting the consummation of such settlement.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

August 20, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission is in receipt of the following communication dated August 8, 1923, from Hon. Henry Smith, Deputy Comptroller:

"A claim was filed against The City of New York on July 15, 1922 by the Frederick Snare Corporation (the present name of the Snare and Triest Company, as changed by law) for \$35,033.84 based upon alleged delay and obstruction caused to the claimant's work under a contract by and between The City of New York, acting by the Public Service Commission, and Snare and Triest Company for the construction of station finish for parts of the Broadway-Fourth Avenue and Eastern Parkway Rapid Transit Railroad, known as Route No. 12, Sections No. 1, 1-A, 2 and 3.

The contract in question (No. 47859) was authorized by the Board of Estimate and Apportionment on June 22, 1917, on requisition of the Public Service Commission, and the total appropriation of corporate stock made therefor under Contracts 3 and 4 aggregated \$467,147.60. The total expenditures for this contract aggregated \$452,978.25, and there was rescinded of the amount appropriated under Contract No. 3, \$10,600.36, and the amount rescinded from the authorizations under Contract No. 4 was \$3,568.99, making a total rescindment from the appropriations of corporate stock for said contract of \$14,169.35.

On August 30, 1922 Mr. George O. Redington, Counsel to the Transit Commission, sent a letter to Deputy Comptroller Henry Smith with respect to said claim and transmitted a copy of a report relating thereto of Chief Engineer Ridgway, the concluding paragraph of which states—

"All the figures of this claim have been checked and found correct, the contractor's books have been examined and the increase in prices of labor and materials during the periods in question have been checked as have also the interest charges. The claim is mathematically correct."

[August 20, 1923]

The claim has been reduced in the Department of Finance from the \$35,033.84 originally demanded by the claimant to \$29,537.23 which the latter by a letter to the Comptroller agrees to accept and to waive interest thereon, a full release to be given to the City.

The claim having been adjusted at the sum stated (being practically a reduction of \$5,500) and interest on the adjusted amount having been waived by the claimant, provision for the payment thereof should be made as speedily as possible. I would therefore request that a voucher be transmitted by your Commission for the amount stated, viz., \$29,537.23, divided as between Contracts 3 and 4 in such proportion or specific amounts as you may determine, and that such amounts be charged against code C. C. M. 322 and code C. C. M. 422, to be provided by transfer from the remaining unencumbered balances of appropriations of corporate stock for the purpose of Contract 3 and of Contract 4; or, that, you make a requisition on the Board of Estimate and Apportionment for subauthorizations from said remaining unencumbered balances of appropriations of corporate stock for Contract No. 3 and for Contract No. 4 in such amounts as in the aggregate would provide for the liquidation of the claim by the payment of the vouchers prepared and transmitted by your Commission."

The Transit Commission believes that the amount indicated as a basis of settlement is fair and proper and accordingly hereby requests your Honorable Board to set aside as a sub-authorization from the appropriations heretofore made for the purposes of carrying out the Contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and the Interborough Rapid Transit Company, known as Contract No. 3, the sum of twenty-nine thousand five hundred thirty-seven dollars and twenty-three cents (\$29,537.23) to be utilized in liquidation of such settlement.

A voucher in favor of the Frederick Snare Corporation (the present name of the Snare and Triest Company, as changed by law), for the sum of twenty-nine thousand five hundred thirty-seven dollars and twenty-three cents (\$29,537.23) will be transmitted to the Department of Finance co-incidentally with the transmission of this request to your Board.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1141—R. T. 7685

Rapid Transit Railroads—Communication from Committee on Transportation Facilities of Board of Estimate and Apportionment Requesting Access to Traffic and Service Records—Referred to Chairman

The following communication from the Committee on Transportation Facilities of the Board of Estimate and Apportionment was referred to the Chairman:

August 17, 1923.

THE TRANSIT COMMISSION,
49 Lafayette Street,
New York City.
Gentlemen:

Pursuant to the provisions of a Board of Estimate and Apportionment resolution, dated July 13, 1923, the Committee on Transportation Facilities is conducting observations of the traffic and service on the rapid transit and surface lines in New York City.

In connection with this work this Committee is desirous of obtaining certain information from the traffic and service records, periodically for a number of years past, on file in the Transit Commission relative to rapid transit operation.

This Committee has designated Mr. Frank Bennett as Chief Supervising Transit Inspector for the Committee and it is requested that your Transit Bureau cooperate with Mr. Bennett in providing him access to the required information.

Very truly yours,
ARTHUR S. TUTTLE,
Acting Chairman.

**Bus Line Operation—Communications to Mayor of The City of New York
and Board of Estimate and Apportionment Approved**

The Acting Secretary presented a copy of a communication, dated August 11, 1923, signed by the Chairman to the Mayor of the City of New York, reading as follows:

August 11th, 1923.

Hon. JOHN F. HYLAN,
Mayor, and Chairman of the
Board of Estimate and Apportionment,
City Hall,
New York City.
Sir:

There is an apparent certainty that the various bus lines affected by the recent judgment of the Court of Appeals, unless given legal permission to operate, will shortly be discontinued; and the large number of citizens who have been led to depend upon these lines for their daily transportation, put to great inconvenience. The Court of Appeals has held, as it has held before, that the use of the city streets for the operation of buses, without a franchise granted by the Board of Estimate and Apportionment and without the State's Certificate of Convenience and Necessity, is unlawful. It has held further, in the present case, that the use of City funds for the support of any system of supervision of private bus operation is unlawful.

These judgments are now part of the law of the State and are bound to be enforced. In the view of the Transit Commission too much stress has been laid upon the personal intention of the attorney for the plaintiff in the present matter, to serve or not to serve copies of the Court's order upon any of the parties to whom it is directed. It is clearly in the interest of that part of the traveling public affected by the decision to face the facts with greater frankness—to recognize that a judgment interpreting and fixing the law of the State, cannot be disregarded by any one bound by the law, and that the Court itself would be concerned in any agreement by whomsoever made to set aside or flout its action.

The Transit Commission finds, as a result of checks made by its inspectors, that the bus lines now in jeopardy carry an average of 120,000 single-fare passengers per day. Most passengers ride both ways, but allowing a fair margin for one-way rides, it is estimated that, in all, about 70,000 persons use the lines daily. Although, upon these figures, these passengers form but a sixtieth part of the city's daily transit traffic, they certainly are sufficient in number to be entitled to grave consideration. Deprivation, even for a brief while, of the riding privileges they now enjoy would be something of a calamity. As the ruling of the Court is not that these buses must stop running, but solely that they must stop running illegally, and as the means for putting them legally in operation are provided in existing law, there seems to be no reason why there should be a day's cessation in the service they give. There can be little doubt that a stay of the action of the order of the Court could be secured, if assurance were given that action will now be taken, and the formal machinery set in motion for the issuance of *bona fide* permits to the existing operators or, where by any chance they are no longer available, to other operators.

Assuming that in one way or another the ruling of the Court upon the law in the matter will, indeed, be enforced, the Transit Commission wishes to assure you, and, through you, the Board of Estimate, that if short-term franchises are now granted by your Board covering the lines in question, upon such terms and conditions as your Board may see fit to fix, appropriate Certificates of Convenience and Necessity will be issued by the Commission within the shortest time possible; that is, within approximately a week following the date or dates of your own final action.

The Commission assumes that your Board will prefer to limit the franchises it now grants to terms short enough to permit the early introduction of other methods of operation, if that proves practicable; or, in any event, to keep the ultimate disposition and control of the routes in question within your own hands.

The Commission suggests that, in order to avoid any danger whatever of the stoppage of the lines, or even of their temporary stoppage and, at the same time, to maintain the complete future liberty of action, both of the Board of Estimate and the

Mayor, each of the bus franchises granted contain, among other provisions, the following:

(1) That the right to operate be continued only during the pleasure of the Board of Estimate and Apportionment; that it be revocable upon thirty (30) days' notice by the Board to the operator, and that it shall in no event extend beyond a term of six (6) months.

(2) That the franchise in each case be non-exclusive; that is, that the Board of Estimate and Apportionment retain the right to grant to any other person or corporation a similar right and privilege, upon the same or other terms, and over the same streets or other public places.

(3) That every such franchise be non-assignable, without the consent of your Board; that is, that the grant be made only to the operator receiving it, without right to transfer, assign or sublet to any other person or corporation without such consent, and that no issues of the stock of any corporation or company receiving a franchise be transferred or sold without your consent.

(4) That the rate of fare be fixed at five cents.

(5) That the operator be required to pay to the City Treasurer, as compensation for his privileges, five (5%) per centum of the gross amount of his fare receipts, in each year.

(6) That the buses used in operation conform to whatever standards your Board may see fit to establish, with relation to carrying capacity, type of construction or equipment.

The Commission assumes that it is desirable that, at least for the limited periods such franchises would cover, the present operators of the buses be continued, provided they accept such terms. In the case of the Bronx Concourse Line, one of the most important of those affected by the recent litigation, this course has already been followed, a franchise having been given to the existing operator on April 24th, limited to three months and, later, extended for six. In this instance, the Transit Commission held the public hearing required by law, and issues its Certificate of Convenience and Necessity, in six days after the granting of the franchise and within two days of the separate approval of such franchise by the Mayor.

The operators of the lines still without franchises include some individuals of undoubtedly high financial standing; but in the majority of cases the buses are run by individual owners who have invested their savings in them, who know the routes and who are well qualified to continue at least as good service as has been given. These operators, we understand, have expressed their willingness to form a company or companies to take legal franchises, to pool their equipment, and to assume whatever financial or other conditions the Board of Estimate may impose upon them. We assume that there is no reason why these small owners should not be encouraged to combine their resources in this fashion and to make a fair business proposition to the City, or why the City, even upon a temporary or emergency basis, should not desire their continued service.

Action taken, under such a policy, to continue the running of the buses could, of course, in no way affect the future control or exercise by the Board of Estimate, of the franchise-granting power. Under the forms suggested the short-term franchises given would be, in a sense, self-revoking; they could run only for as brief a term as the Board of Estimate may grant, and would be subject to renewal only upon similar conditions. They would give the operators no exclusive rights in the street they use, and they could be transferred to no other operator. They would, however, save the existing situation.

The questions raised at the time of the publication of the decision of the Court of Appeals had to do entirely with the continued running of the buses. They concerned nothing else, in fact, for the reason that the decision changed or affected nothing else. The running of the buses continues to be the pressing question.

To establish and set up a different kind of operation, even if that effort were successful, would take some time. To get such a system into operation would take still longer. But it is obvious that while the City waited for decisions upon these questions the buses, under the order of the Court, would stop. Either to permit or to compel them to stop, while there is an abundance of law to keep them going, would impose a severe and unnecessary hardship upon the people who use them.

That this may be avoided, the Commission urges very earnestly that your Board give the existing bus operators, or such others as you may substitute, legal permission to continue.

With renewed assurance of the Commission's readiness to proceed immediately with the issuance of its own Certificates, I am,

Respectfully,
 GEORGE McANENY,
 Chairman.

The Acting Secretary also presented a copy of a proposed communication, dated August 20, 1923, to be signed by the Chairman and addressed to the Board of Estimate and Apportionment of the City of New York, reading as follows:

August 20th, 1923.

To the Honorable
 THE BOARD OF ESTIMATE AND APPORTIONMENT
 OF THE CITY OF NEW YORK
 Municipal Building
 New York City.

Sirs:

On behalf of the Transit Commission I am presenting herewith copy of a letter addressed to the Mayor, as Chairman of your Board, under date of August 11th, urging that your Board grant to the operators of the various bus lines affected by the recent decision of the Court of Appeals the necessary legal authority to continue their service. The Commission urges, as a matter of public necessity, that action be taken upon its suggestions at your next meeting.

The Transit Commission is charged by law—Section 5-a of Chapter 48 of the Consolidated Laws—"with jurisdiction and supervision over all * * * stage or omnibus lines or routes" lying within the city limits. Although the omnibus lines in question have not as yet been given a legal status, the Commission recognizes that, so far as they go, they are fulfilling a public need; and that they have contributed toward the relief of the generally congested transit situation with which it is dealing. It is part of the concern of the Commission, therefore, that the lines in question continue to give the service they are giving, without change or interruption, at least until something better is put in their place.

Under the law the Commission has the power to issue certificates of "Convenience and Necessity," permitting legal operation, and it is quite prepared to exercise such power. Its certificates, however, are of no value unless the Board of Estimate and Apportionment has previously granted a right for the use of the streets or other public places to be traversed, and until it has fixed terms upon which operation may proceed.

In the communication addressed to your Board through the Mayor it has pointed out that in some way or other the decision of the Court, forbidding the operation of the buses without legal authorization, is bound to be enforced and may be at any moment. The judgments in question are now part of the law of the State, binding upon public officials and private operators alike, and any effort to avoid them will be hazardous.

The provisions of the City Charter relating to buses give the Board of Estimate and Apportionment abundant authority to keep the present buses running and to limit their operating rights in whatever fashion the Board may elect. The Commission in its letter has, therefore, suggested that the present operators be permitted to continue for terms not to exceed six months and under rights revocable, at any time within such period, upon thirty days' notice. In order that your Board may retain complete control over the future use of the routes in question, reserving them either for municipal operation or otherwise, as it may see fit, it is also suggested that the rights granted the present operators be non-exclusive and non-assignable. It will be impossible under such terms for the present operators to continue to exercise their rights beyond the maximum period fixed, or to assign or transfer their privileges to any other owners or operators, corporate or individual.

The Commission finds that all the terms it proposes have already been incorporated in substance in the permission to operate granted by your Honorable Board to Emil Leindorf, the owner of the Bronx Concourse Line, under date of May 1st last. The Concourse line is one of the most important of those affected by the recent litigation. Its position at the time of the grant of the rights in question was exactly that of the other lines the decision of the Court of Appeals affects. The Commission granted its certificate in this case six days after your Board had acted, and two days after the requi-

site separate approval of the Mayor had been given. The Commission assumes that what was done for the benefit of the people served by the Concourse Line, and for the benefit of the operator, may be done with equal propriety in the case of any of the operators to whom necessary rights have not as yet been given. It understands that various applications for short-term rights, asked, presumptively, upon terms similar to those granted the Bronx Concourse Line, have been presented to your Board by the other operators, either as individuals or in groups, and that such applications, having been referred to your Bureau of Franchises, are still awaiting action. There seems to be no doubt that the present operators, practically without exception—all of whom have been operating under the informal authority heretofore given by your Board and under its encouragement—are willing and anxious to continue their service.

There has been apparently some official misunderstanding of the number of passengers the buses affected by the decision now carry. In a tabulation prepared, we understand, by the City Department that has had to do with the supervision of the lines in question, published on July 19th, the total of single-fare passengers carried is stated to be 225,800. Systematic counts and checks made by the Transit Bureau of the Commission show that instead 110,858 single-fare passengers are carried each day. Assuming that most of these represent two trips daily usually taken by each passenger—but allowing a margin of 5,000 to represent the one-way or casual riders—the total number of persons accommodated daily appears to be approximately 60,000.

The Commission submits for your information, attached hereto, comparative tables showing the results of the counts made by its inspectors during October, 1922, and during July and August, 1923, compared in detail with the published estimates to which reference has been made. It is, however, clear that, although the number of riders affected is less than one-half of the published figure, it represents a body of riders sufficiently great to command the considerate attention both of your Board and of the Transit Commission.

As there is no reason for interrupting the service upon which these riders have been led to depend, either during the discussion of proposed legislative measures or otherwise, and as the appropriate form of relief has already been fixed and recognized by your Board in the granting of temporary rights to the Bronx Concourse Line, the Commission trusts that your action upon its suggestions will be favorable. It repeats its assurance of prompt action, wherever necessary, upon its own part.

Respectfully Submitted,

TRANSIT COMMISSION

By GEORGE McANENY,
Chairman.

Thereupon the above-mentioned communications were approved and ordered filed.

1143—R. T. 7690

Routes Nos. 70-A-1 and 70-B—Report by Chief Engineer Submitting Tentative List of Proposed Stations for North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route and Manhattan Avenue-Roebing Street and Bedford Avenue Route—Resolution Directing Public Hearing

A report was presented from the Chief Engineer, dated August 13, 1923, submitting a tentative list of proposed stations for the North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route and Manhattan Avenue-Roebing Street and Bedford Avenue Route.

The following resolution was adopted:

Whereas, In connection with the proposed rapid transit railroads along the North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route, Route No. 70-A-1 and the Manhattan Avenue-Roebing Street and Bedford Avenue Route, Borough of Brooklyn, Route No. 70-B, the Chief Engineer of this Commission, in a communication dated August 13, 1923, has submitted for the consideration of this Commission a tentative list of proposed stations as follows:

Street Along Which Route Passes	Location of Station	Approximate Distance Center to Center
North Jane Street.....	The Boulevard to Marion St.....	1650 Ft.
	William St. to Prospect St.....	2700 Ft.
Jackson Ave.	Nott Ave. to Pearson St.....	2500 Ft.
	6th St. to 4th St.....	3400 Ft.
Manhattan Ave.	Dupont St. to Freeman St.....	2050 Ft.
	Greenpoint Ave. to Noble St.....	2400 Ft.
	Nassau Ave. to Driggs Ave.....	3200 Ft.
Roebling St., Wmsbg. Bridge Plaza & Crossing private property	No. 7th St. to N. 5th St.....	2250 Ft.
	Williamsburg Bridge Plaza.....	1700 Ft.
	Lee Ave. to Bedford Ave.....	2350 Ft.
	Bedford Ave. Lynch St. to Flushing Ave.	2000 Ft.
	Myrtle Ave. to Willoughby Ave.....	2100 Ft.
	Lexington Ave. to Lafayette Ave.....	1800 Ft.
	Putnam Ave. to Hancock St.....	

Resolved, That a public hearing upon such proposal be held by and before the Commission at its office No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 11th day of September, 1923 at eleven o'clock (11:00) A. M. and that the Secretary of this Commission take such steps as may be necessary to give notice to the general public of the said public hearing.

1144—R. T. 7691

Route No. 78—Report by Chief Engineer Submitting Tentative List of Proposed Stations for Central Park West, Manhattan Avenue and St. Nicholas Avenue Route—Resolution Directing Public Hearing

A report was presented from the Chief Engineer, dated August 13, 1923, submitting a tentative list of proposed stations for the Central Park West, Manhattan Avenue and St. Nicholas Avenue Route.

The following resolution was adopted:

Whereas, In connection with the proposed rapid transit railroad along the Central Park West-Manhattan Avenue-St. Nicholas Avenue Route, Route No. 78, the Chief Engineer of this Commission, in a communication dated August 13, 1923, has submitted for the consideration of this Commission a tentative list of proposed stations as follows:

Street Along Which Route Passes	Location of Station	Approximate Distance Center to Center
Central Park West.....	65th St. to 67th St.....	2000 Ft.
	72nd St. to 74th St.....	1900 Ft.
	79th St. to 81st St.....	1900 Ft.
	86th St. to 88th St.....	2600 Ft.
	96th St. to 98th St.....	2600 Ft.
	106th St. to 108th St.....	2750 Ft.
Manhattan and St. Nicholas Aves.	116th St. to 118th St.....	2400 Ft.
	125th St. to 127th St.....	2700 Ft.
	135th St. to 137th St.....	2700 Ft.
	145th St. to 147th St.....	2700 Ft.
	155th St. to 157th St.....	

[August 20, 1923]

Resolved, That a public hearing upon such proposal be held by and before the Commission at its office No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 11th day of September, 1923 at eleven o'clock (11:00) A. M. and that the Secretary of this Commission take such steps as may be necessary to give notice to the general public of the said public hearing.

1145—R. T. 7591

Routes Nos. 70-A-1 and 70-B—Report by Chief Engineer Recommending That Brooklyn Crosstown Line Be Constructed as Two-Track Route on Westerly Side of Street and That Structure Be Designed for Ten-Foot Type of Car—Approved

The following report by the Chief Engineer was approved:

August 20, 1923.

To the TRANSIT COMMISSION.

Routes Nos. 70-A-1 and 70-B—Brooklyn Crosstown Line.

Preliminary work is being done as rapidly as possible so that construction contracts for Routes Nos. 70-A-1 and 70-B may be gotten out at the earliest possible date. In connection therewith, it is important that a decision be had as to the exact location of stations, as without this, but little progress can be made.

I transmitted to you on August 13th plans showing a suggested location for the stations on this line. I respectfully urge that action be taken fixing the locations at the earliest possible moment.

It has been informally understood that only two tracks of these lines are to be built at once and that two tracks are to be constructed in the future. It is necessary, therefore, to decide as to which two of the four tracks are to be constructed at once. There are three principal alternatives for this:

- (1) The two westerly tracks.
- (2) The two easterly tracks.
- (3) The two center tracks.

There does not appear to be any advantage in constructing the two center tracks inasmuch as such a location does not lend itself so readily to the addition later of other tracks as very much more reconstruction would be involved therein. There remains, therefore, the choice of the easterly or westerly location. For immediate advantage, it appears desirable to construct the westerly tracks because of the better location of the station at the Williamsburg Bridge Plaza. I therefore believe that this location should be chosen. It is also necessary to decide on the type of car for which the new subway should be planned.

The present subways operated by the Interborough are designed for cars 9 feet wide and about 50 feet long. The subways operated by the B. M. T. have been designed for cars 10 feet wide and about 66 feet long. In order to permit of the greatest liberty of action in the future, it appears desirable to design the subways now contemplated so as to provide for the largest cars now in use. I therefore recommend that the subway be designed for the type of cars now operated by the B. M. T.

Summarizing, therefore, I respectfully Recommend, That you approve of

- (1) Construction of two tracks of Routes Nos. 70-A-1 and 70-B.
- (2) Construction of Routes Nos. 70-A-1 and 70-B on the westerly side of the street.
- (3) That the structure be designed for the 10-foot type of car now operated by the B. M. T.

ROBT. RIDGWAY,
Chief Engineer.

1146—R. T. 7661

Route No. 78—Report by Chief Engineer Recommending That Central Park West, Manhattan Avenue and St. Nicholas Avenue Route Be Constructed as Two Track Line on Westerly Side of Route and That Structure Be Designed for Ten Foot Type of Car—Approved

The following report by the Chief Engineer was approved:

August 20, 1923.

To the TRANSIT COMMISSION.

Route No. 78—Central Park West-St. Nicholas Avenue Line.

Preliminary work is being done as rapidly as possible so that construction contracts for Route No. 78 may be gotten out at the earliest possible date. In connection therewith, it is important that a decision be had as to the exact location of stations, as without this, but little progress can be made.

I transmitted to you on August 13th plans showing a suggested location for the stations on this line. I respectfully urge that action be taken fixing the locations at the earliest possible moment.

It has been informally understood that only two tracks of this line are to be built at once and that two tracks are to be constructed in the future. It is necessary, therefore, to decide as to which two of the four tracks are to be constructed at once. There are three principal alternatives for this:

- (1) The two westerly tracks.
- (2) The two easterly tracks.
- (3) The two center tracks.

It would appear desirable to construct the two westerly tracks for the following reasons: There is at present a battery of six 48-inch water mains located on the east side of Central Park West between 97th and 106th Streets, one such main between 62nd and 85th Streets and two between 85th and 90th Streets. On the west side, there is only one main varying from 20 to 36 inches, but mostly 30 inches. If the westerly tracks were constructed, the large water mains on the east side would be mostly beyond the limits of construction. Furthermore, along St. Nicholas Avenue, the structure between 130th and 141st Streets would be adjacent to St. Nicholas Park so that underpinning of buildings would be avoided for that distance.

A rock profile of Central Park West indicates that very little underpinning would be required even if the tracks were located on the west side of that street. It would be more objectionable to the adjacent inhabitants than if the easterly pair of tracks or the center tracks were constructed. There is, however, so great an advantage in avoiding the water mains that I recommend that the westerly tracks be constructed.

The location in the center of the street does not lend itself so readily to the addition later of other tracks, as very much more reconstruction would be involved thereunder. Furthermore, at least two of the large water mains would have to be supported. It should therefore not be considered.

The present subways operated by the Interborough are designed for cars 9 feet wide and about 50 feet long. The subways operated by the B. M. T. have been designed for cars 10 feet wide and about 66 feet long. In order to permit of the greatest liberty of action in the future, it appears desirable to design the subways now contemplated so as to provide for the largest cars now in use. I, therefore, recommend that the subway be designed for the type of cars now operated by the B. M. T.

Summarizing, therefore, I respectfully
Recommend, That you approve of

- (1) Construction of two tracks of Route No. 78.
- (2) Construction of Route No. 78 on the westerly side of the street.
- (3) That the structure be designed for the 10-foot type of car now operated by the B. M. T.

ROBERT RIDGWAY,
Chief Engineer.

1147—R. T. 7522

Agreement "CM"—Resolution Approving Sureties Upon Bond in Sum of \$4,000 Deposited by Contractor as Security for Changes in Railroad Structure to Permit Raising of Grade of North Jane Street, Borough of Queens—Adopted

The following resolution was adopted:

Resolved, that the Aetna Casualty and Surety Company of Hartford, Connecticut, and the National Surety Company of New York City, be and hereby are approved as sureties upon the bond in the sum of Four thousand (\$4,000) Dollars deposited by Hamme & Jackson, Inc., as security for the faithful performance of the contract for changes in the railroad structure east of the Boulevard so as to permit the raising of the grade of North Jane Street, Borough of Queens, Agreement "CM", each of said sureties being held and bound in the sum of Two thousand (\$2,000) Dollars.

1148—R. T. 7457

Route No. 18—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Changes in Vertical Leaders Under Contract for Construction of Inspection Shed Enclosure at 180th Street Yard—Approved.

A report was presented from the Chief Engineer, dated August 15, 1923, recommending the establishment of a supplementary schedule item as described below.

The following resolution was adopted:

Whereas, the Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated June 26, 1922 between the City of New York acting by the Transit Commission and Rosenthal Engineering Contracting Company, for the construction of the Inspection Shed Enclosure in the 180th Street Yard of the White Plains Rapid Transit Railroad, Route No. 18, having, subject to the approval of the Commission, agreed with the said contractor on the following schedule item:

Item No. 768-C For making changes in vertical leaders as shown by revision, dated July 10, 1923, of drawing No. 1019, file No. 2801-Y, the sum of Two thousand ninety-five Dollars (\$2095.00).

Resolved, that such action on the part of the Chief Engineer be and hereby is approved.

1149—R. T. 7368

Contract No. 3—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Installing Electric Conduit under Contract for Second Addition to Shops at Lenox Avenue and 148th Street Yard—Approved

A report was presented from the Chief Engineer, dated August 17, 1923, recommending the establishment of a supplementary schedule item as described below.

The following resolution was adopted:

Whereas, the Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated May 23, 1922 between the City of New York acting by the Transit Commission and Jacob Schlesinger, Inc., for the construction of the Second Addition to Shops, Lenox Avenue and 148th Street Yard, Contract No. 3, having, subject to the approval of the Commission, agreed with the said contractor on the following Schedule Item:

Item No. 32-(g) For furnishing and installing complete 2½" wrought iron or steel electric conduit, the sum of One and 70/100 Dollars (\$1.70) per linear foot.

Resolved, that such action on the part of the Chief Engineer be and hereby is approved.

1150—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchase and Installation of Additional Piping and Regulating Valves in Connection with Additional Boilers in 59th Street Power Station—Report by Consulting Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated July 31, 1923, requesting approval to the purchase and installation of additional piping and regulating valves between the bleeder connections on turbines Nos. 7, 8 and 12 and the auxiliary exhaust system in connection with the new boilers in the 59th Street Power Station at an estimated cost of \$2,000.

A report was presented from Consulting Engineer, Dr. Charles E. Lucke, dated August 11, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment for the Railroad to be performed under Work Order No. IBA-7 heretofore assigned.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922, the application of the Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3, consisting of additional units of new equipment and appurtenances and cables to provide additional power, was approved; and

Whereas, By resolution adopted by this Commission November 14, 1922, Work Order No. IBA-7 was assigned thereto; and

Whereas, By resolution adopted by this Commission on July 10, 1923, pursuant to the resolutions aforesaid this Commission approved a proposed contract with the Babcock & Wilcox Company for the manufacture, delivery and installation in the 59th Street Power House of four 1140 H.P. B. & W. Boilers and three B. & W. Super Heaters complete and ready for operation; and

Whereas, By communication dated July 31, 1923 said Interborough Rapid Transit Company pursuant to the resolutions of September 7, 1922 and November 14, 1922 aforesaid have submitted for the approval of this Commission to the purchasing and installation of additional piping and regulating valves between the bleeder connections on turbines 7, 8, 12 and the auxiliary exhaust system at an estimated cost of \$2,000; and

Whereas, The Consulting Engineer, Dr. Charles E. Lucke, by communication dated August 11, 1923 has reported that such work is necessary in connection in the installation of the additional new boilers in the 59th Street Power House; that the estimated cost is considered not excessive and recommend the approval of such proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 14, 1923 has recommended that such work be classified as "Additional Equipment" for the Railroad under work Order No. IBA-7 heretofore assigned as aforesaid.

Resolved, That said reports and recommendations be and the same hereby are approved and that the said proposal of Interborough Rapid Transit Company be and the same hereby is approved, such work to be classified as "Additional Equipment for the Railroad" as described in said Contract No. 3 pursuant to Work Order No. IBA-7 heretofore assigned.

1151—R. T. 6761, 7224

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Omission of Items for Suspension Straps and Bolts Under Contract for New Boilers and Superheaters in 59th Street Power Station—Report by Consulting Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated August 6, 1923, requesting the omission of items for suspension straps and boilers in the contract with Babcock and Wilcox Company, for the manufacture, delivery and installation of new boilers and superheaters in the 59th Street Power House, making a reduction in the contract of the sum of \$858.

A report was presented from Consulting Engineer, Dr. Charles E. Lucke, dated August 14, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922 the application of the Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3 consisting of additional units of new equipment and appurtenances and cables to provide additional power was approved and by resolution adopted November 14, 1922 this Commission assigned thereto Work Order No. IBA-7; and

Whereas, Pursuant to said authority this Commission by resolution adopted July 10, 1923, approved the proposed contract between the Interborough Rapid Transit Company and Babcock & Wilcox Company for the manufacture, delivery and installation in the 59th Street Power House of four 1140 H.P. B. & W. Boilers and three B. & W. superheaters complete ready for installation at the total cost of \$130,583; and

Whereas, Consulting Engineer Dr. Chas. E. Lucke, by communication dated August 14, 1923, has reported that the Interborough Rapid Transit Company by letter dated August 6, 1923 has requested that the items in said proposed contract, approved as aforesaid, covering suspension straps and bolts for said new boilers be omitted from said proposed contract reducing the cost under said proposed contract \$858.; that the structural changes made by the Interborough Company which were necessary for the installation of the boilers obviated the necessity of suspension straps and bolts since that could be more easily and readily installed by the Interborough Company and recommends the approval of said proposal.

Resolved, That the said report and recommendation be and the same hereby are approved and that said proposed contract as heretofore approved may be modified so as to omit items covering suspension straps and bolts for said four new boilers upon condition that the said total purchase price of \$130,583. shall be reduced by the sum of \$858.

1152—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Three Proposed Contracts for Fire Alarm Signal Service at 180th Street, Jerome Avenue and Pelham Inspection Barns—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated August 1, 1923, requesting approval of three proposed contracts with National District Telegraph Company for the renting of fire alarm signal service at the 180th

Street, Jerome Avenue and Pelham inspection barns for a period of five years at a total cost of \$1,395.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer, dated August 11, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs recommending that the cost be charged to operating expense.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company by communication dated August 1, 1923 has submitted for the approval of this Commission three identical proposed agreements each dated July 2, 1923 between said Interborough Rapid Transit Company and National District Telegraph Company for the renting of fire alarm signal service at three inspection barns of the Railroad as defined in said Contract No. 3 for a period of five years at a total cost of \$1,395 for the full period; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated August 11, 1923 reported that the details as to the proposed agreements are given in the following table:

Location	Annual Rental	Beginning of Term
180th St. White Plains Rd....	\$75	8/1/23
Jerome Ave.	75	7/1/23
Pelham	129	6/1/23

; that such agreements are substantial duplicates of the previous agreements for similar service at the same locations as approved by the Transit Construction Commissioner on July 17, 1919; that the availability of such service is considered by fire insurance companies to be of such value as to reduce the fire insurance premiums by an amount considerably in excess of the costs of the service and recommend the approval of said proposed agreements; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 15, 1923 has recommended that the cost of such service be charged to operating expense; and

Whereas, The Counsel to this Commission has examined said proposed agreements and finds no objection thereto.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed contracts so submitted be and the same hereby are approved upon condition that the cost of carrying out said proposed contracts shall be charged to operating expense.

1153—R. T. 7267

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Purchase of Fire Insurance on 59th Street and 74th Street Power Houses—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated August 1, 1923, requesting approval of the purchase of fire insurance in the sums of \$15,000,000 for the 59th Street Power House and \$9,700,000 for the 74th Street Power House for a period of five years at an approximate cost of \$126,780.

A report was presented from the Acting Engineer of Equipment and Operation

and the Chief Engineer dated August 20, 1923, stating that the amount is reasonable and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the cost as Operating Expense.

The following resolution was adopted, Commissioner Harkness not voting:

Whereas, pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, and pursuant also to the provisions of the Certificate dated March 19, 1913, granted to said Interborough Rapid Transit Company for elevated extensions, said Interborough Rapid Transit Company by communication dated August 1, 1923, has submitted to this Commission for approval its proposal to purchase the following insurance:

"\$15,000,000 insurance on the 59th Street Power House building and contents thereof, excluding storehouse; as a charge against Operation, Contract No. 3.

9,700,000 insurance on the 74th Street Power House building and contents thereof; as a charge against Operation, Elevated Extension Certificate. at a cost of not to exceed \$126,780 for five years insurance."

which proposal has been caused to be designated "Approval No. 499"; and

Whereas, the Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated August 20, 1923 reported that the amount of insurance is reasonable, the rate proper and recommend approval of said proposal; and

Whereas, the Auditor of Rapid Transit Costs by endorsement recommended that the cost of such proposals be classified as Operating Expense.

Resolved, that said reports and recommendations be and the same hereby are approved; that the said proposal so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized to execute the form of approval of this Commission made part of said proposal.

1154—R. T. 7103

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Extension of Floor Space for Mechanical Department at 148th Street Shops—Report by Assistant Chief Accountant and Chief Engineer Recommending Approval, Classifying Work and Assigning Work Order No. 1CqA-9—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated July 30, 1923, requesting approval to the expenditure of approximately \$1,860 for the proposed extension of the floor space for the mechanical department of the 148th Street Shops.

A report was presented from the Assistant Chief Accountant and the Chief Engineer dated August 18, 1923, recommending that the application be approved and classifying the work as Additions to Existing Equipment and assigning Work Order No. 1CqA-9 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company, by communication dated July 30, 1923, signed by Frank Hedley, President and General Manager, has requested the approval of this Commission to the expenditure of approximately \$1,860 for the proposed extension of floor space for the mechanical department of the 148th Street shops as a charge to Additional Equipment as defined in said Contract No. 3; and

Whereas, The Assistant Chief Accountant and the Chief Engineer of this Commission by communication dated August 18, 1923, have reported that the work proposed

is necessary in order to handle the increased amount of work passing through said shops and consists of (1) moving the carpenter shop from the extreme easterly end of the present machine shop to the easterly end of track No. 10 of the inspection shed to make available space for machine shop extension, (2) installation of approximately 48 feet of steel lattice work with hangers and shafting along the walls and ceiling of the machine shop and approximately 48 feet of counter shaft beams; that the estimated cost of \$1,860 is reasonable and recommend

- "(1) That the cost of installing the steel lattice work with necessary hangers, shafting and counter shaft beams be classified as Additions to Existing Equipment and that Work Order Number ICqA-9 be assigned thereto.
 (2) That the cost of removing the carpenter shop from its existing location to the easterly end of track No. 10 of the inspection shed be charged to Operating Expenses."

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company be and the same hereby is approved upon condition (1) that the cost of installing the steel lattice work with necessary hangers, shafting and counter shaft beams be classified as Additions to Existing Equipment and as to which this Commission assigns Work Order No. ICqA-9, and (2) that the cost of removing the carpenter shop from its existing location to the easterly end of track No. 10 of the inspection shed shall be charged to Operating Expenses.

1155—R. T. 6556

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Installation of Sewer Connections at Avenue U and Kings Highway Stations of Sea Beach Line—Report by Auditor of Rapid Transit Costs, Assistant Chief Accountant and Chief Engineer Recommending Approval, Classifying Work and Assigning Work Order No. MCR-19—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated August 2, 1923, requesting approval to the installation of sewer connections at the Avenue U and Kings Highway Stations of the Sea Beach Line at an estimated cost of \$319.91 and \$217.78 respectively.

A report was presented from the Auditor of Rapid Transit Costs, the Assistant Chief Accountant and the Chief Engineer dated August 14, 1923, recommending that the application be approved, that the work be classified as a Replacement and that Work Order No. MCR-19 be assigned thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract, dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has requested the approval of this Commission to the installation of sewer connections at the Avenue U and Kings Highway Stations of the Sea Beach Line of the Existing Railroads, as defined in said Contract No. 4 at an estimated cost of \$319.91 for the Avenue U Station and \$217.78 for the Kings Highway Station, and

Whereas, The Auditor of Rapid Transit Costs, the Assistant Chief Accountant and the Chief Engineer in a joint communication, dated August 14, 1923, have reported that the toilet rooms at said stations are now connected with cesspools, no sewers being available at the time the stations were constructed; that the proposed connections are considered desirable from an engineering standpoint; that the estimated costs are reasonable and recommend the approval of said proposal upon the following conditions:

- "(1) That the original cost of the cesspools (estimated at \$150) be retired from Fixed Capital and an amount equal to that original cost be held available in the Depreciation Fund for Existing Railroads for expenditures on new construction or new equipment as a replacement.

(2) That the cost of providing and installing the sewer connections at Avenue U and Kings Highway Stations on the Sea Beach Line be provided out of that portion of moneys of the "Depreciation Fund for Existing Railroads" which has been made available by Retirements from service; that it be classified as a Replacement and Work Order Number MCR-19 be assigned thereto."

Resolved, That said report and recommendations be and the same hereby are approved, that said proposal of the New York Rapid Transit Corporation be and the same hereby is approved upon the following conditions:

1. That the original cost of the cesspools (estimated at \$150) shall be retired from Fixed Capital and an amount equal to that original cost shall be held available in the Depreciation Fund for Existing Railroads for expenditures on new construction and new equipment as a replacement.

2. That the cost of providing and installing the sewer connections at said Avenue U and Kings Highway Stations of the Sea Beach Line of the Existing Railroads as defined in said Contract No. 4 shall be provided out of the portion of moneys of the "Depreciation Fund for Existing Railroads" which has been made available by retirements from service, which work is hereby classified as a Replacement and as to which this Commission assigns Work Order Number MCR-19.

1156—R. T. 7333

New York, Westchester and Boston Railroad Company—Application by Graham, McMahon, Buell and Knox for Approval of Drawing for Modification of Passageway Between New Station of New York, Westchester and Boston Railroad Company and the 133rd Street Station of Manhattan Elevated Railroad—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from Graham, McMahon, Buell and Knox dated August 7, 1923, requesting approval of a proposed drawing modifying the proposed passageway between the new station of the New York, Westchester and Boston Railroad Company and the 133rd Street Station of the Manhattan Elevated Railroad.

A report was presented from the Chief Engineer dated August 18, 1923, stating that the drawing is satisfactory and recommending that it be approved.

The following resolution was adopted:

Whereas, By resolution adopted December 24, 1918 the Public Service Commission for the First District, pursuant to the provisions of the certificate dated March 19, 1913 granted by said Commission to Manhattan Railway Company for additional tracks and facilities, approved a proposed contract between Manhattan Railway Company, Interborough Rapid Transit Company, Harlem River and Portchester Railroad Company, The New York, New Haven and Hartford Railroad company and New York, Westchester and Boston Railroad Company, providing for direct physical connection between the 133rd Street Station of the Manhattan Elevated Railroad Company in the Borough of The Bronx, City of New York; and

Whereas, By resolution adopted December 31, 1918 the said Public Service Commission for the First District approved Contract Drawing No. 5654 showing proposed walkway between the Willis Avenue Station of the New York, Westchester and Boston Railway Company and the 133rd Street Station of the Third Avenue Elevated Line submitted by Interborough Rapid Transit Company; and

Whereas, By communication dated August 7, 1923, Graham McMahon, Buell and Knox, as Attorneys for the New York, Westchester and Boston Railroad Company, have submitted for the approval of this Commission a proposed drawing entitled: N.Y.W. & B. Ry., N.Y.N.H. & H.R.R., Plan showing proposed 133rd Street Station, Harlem River, Borough of The Bronx, New York City, dated April 28, 1923 and revised July 6, 1923; and

Whereas, The Chief Engineer of this Commission, by communication dated August 18, 1923, reports that said plan indicates a relocation of the proposed new station of the New York, Westchester and Boston Railroad Company so as to be nearer to the

133rd Street Station of the elevated railroad and the shortening of the proposed passageway; that it is satisfactory from an engineering standpoint and recommends the approval of said drawing,

Resolved, That said report and recommendation aforesaid be and the same hereby is approved and that said drawing so submitted be and the same hereby is approved.

1157—R. T. 6694, Gen. 1772

Contract No. 3—Application by Interborough Rapid Transit Company for Extension of Time to November 15, 1923, within Which to Complete Plans, Specifications and Estimate of Cost for Installation of Complete Signal System on One Mile of Local Elevated Track—Motion Directing Company to Comply with Order, by September 1, 1923

An application was presented from the Interborough Rapid Transit Company, dated August 7, 1923, requesting an extension of time to and including November 15, 1923, within which to complete plans, specifications and estimate of cost for installing a complete speed control system of signals with automatic stops on one mile of local track on the elevated railroads.

Upon motion duly seconded, it was directed that the Company be notified to comply with the provisions of the order on or before September 1, 1923, otherwise steps will be taken to institute the necessary proceedings for the enforcement of the Order.

1158—R. T. 6695, Gen. 1772

Contract No. 4—Application by New York Rapid Transit Corporation for Extension of Time of Six Months from August 15, 1923, within Which to Complete Plans, Specifications and Estimate of Cost for Installation of Complete Signal System on One Mile of Local Elevated Track—Motion Directing Company to Comply with Order, by September 1, 1923

An application was presented from the New York Rapid Transit Corporation dated August 13, 1923, requesting an extension of time of at least six months from August 15, 1923, within which to complete plans, specifications and estimate of cost for installing a complete speed control system of signals with automatic stops on one mile of local track on the elevated railroads.

Upon motion, duly seconded, it was directed that the Company be notified to comply with the provisions of the order on or before September 1, 1923, otherwise steps will be taken to institute the necessary proceedings for the enforcement of the Order.

1159—Case 2694

Third Avenue Railway System—Promulgation of Rules to Employees in Case of Accident—Reports Approved—Letter to Company Approved

The Acting Secretary presented:

(1) Communications, dated August 17, 1923, from fifteen (15) companies of the Third Avenue Railway System making application for ten (10) days extension of time within which to notify the Commission whether the Order herein, dated July 17, 1923, was accepted and would be obeyed.

(2) Reports, dated August 8, 1923, by Assistant Counsel Fullen and Chief of

Transit Bureau Daggett, approved by Acting Chief Executive Officer Lucas, recommending that no modification of the Order be granted.

The Commission approved the said reports and directed the Acting Secretary to communicate with the companies advising them of the Commission's action.

1160—R. T. 7591

Route No. 70-B—Certified Copy of Resolution of Board of Estimate and Apportionment and Approval by Mayor Consenting to Construction of Manhattan Avenue, Roebling Street and Bedford Avenue Route—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on August 3, 1923 and approved by the Mayor on August 9, 1923, was ordered filed:

BOARD OF ESTIMATE AND APPORTIONMENT
City of New York

Consideration of the communication, dated May 15, 1923, from the Transit Commission, transmitting route and general plan of construction for an additional rapid transit railway in the Borough of Brooklyn, known as Manhattan Avenue, Roebling Street and Bedford Avenue Route, and requesting the approval and consent of this Board thereto.

See Minutes, May 25, 1923; June 1, 1923; June 8, 1923; June 22, 1923; June 29, 1923; July 13, 1923; August 3, 1923.

Whereas, The Transit Commission has duly determined upon a route or routes and general plan of construction of a rapid transit railway for the conveyance of persons and property, to be established in the City of New York in addition to the already existing lines, and did, by resolution adopted May 15, 1923, adopt such route or routes and general plan, being more particularly known as Manhattan Avenue, Roebling Street and Bedford Avenue Route; and

Whereas, Thereafter said Transit Commission did transmit to the Board of Estimate and Apportionment of the City of New York a copy of the plans and conclusions for such route or routes as adopted, which plans and conclusions were received by said Board of Estimate and Apportionment on the 25th day of May, 1923, at a meeting of said Board of Estimate and Apportionment duly held on said day; and

Whereas, Said Board of Estimate and Apportionment, by a resolution duly adopted at said meeting, did appoint a date not less than one week nor more than ten (10) days after the receipt thereof for the consideration of such plans and conclusions—to wit, the first day of June, 1923, at 2:30 o'clock P. M. and proceeded with and continued said consideration from time to time until August 3, 1923, when said consideration was concluded; and

Whereas, The Transit Commission and the Board of Estimate and Apportionment by resolutions adopted July 10 and July 13, 1923, respectively extended for sixty days from August 1, 1923, the time of the Board of Estimate and Apportionment for the consideration of said route and general plan; and

Whereas, The plans and conclusions are fully set forth in the resolution adopted by the Transit Commission on May 15, 1923, and which resolutions are as follows:

RESOLUTIONS ADOPTED BY THE TRANSIT COMMISSION MAY 15, 1923.

Manhattan Avenue, Roebling Street and Bedford Avenue Route

Borough of Brooklyn.

(Route No. 70-B.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

Route.

A route lying wholly within the Borough of Brooklyn, the center line of which shall begin at a point in Manhattan Avenue at or near Clay Street; thence extending southerly as a subway or tunnel along and under Manhattan Avenue to a point at or near Driggs Avenue; thence curving southwesterly across and under McCarren Park to a point in Roebling Street at or near Union Avenue; thence extending southwesterly, along and under Roebling Street to a point at or near North 4th Street; thence across and under North 4th Street, Metropolitan Avenue and private property to a point in Roebling Street at or near Hope Street; thence continuing southerly along and under Roebling Street to a point at or near the Williamsburg Bridge Plaza; thence along and under the Williamsburg Bridge Plaza to a point in Roebling Street at or near Broadway; thence along and under Roebling Street to a point at or near Lee Avenue; thence southeasterly crossing along and under private property, Wilson Street, private property, Ross Street, private property, Rodney Steet and private property to a point in Bedford Avenue at or near Keap Street; thence southeasterly along and under Bedford Avenue to a point at or near Halsey Street, where a connection can conveniently be made with other proposed rapid transit railroads.

General Plan of Construction.

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other, and substantially on the same level except that wherever required by surface or subsurface structures or other special or local necessities and at stations and curves and for the purpose of avoiding grade crossings and at or near all points of connections with existing or proposed rapid transit railroads, any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary. Generally, the tracks and track structures shall be within the street limits. Where the route changes direction, private property will be required as indicated in the foregoing descriptions.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to either side or both sides of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks where constructed in subway or tunnel may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half ($8\frac{1}{2}$) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional tracks for siding accommodations may be constructed not to exceed in length one-half a mile for each mile of railroad.

Stations and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

Mode of Operation.

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

Definitions.

The word "street" wherever used herein shall include an avenue or public place. The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

Maps or Drawings.

It Is Further Resolved, That the four (4) maps or drawings entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 70-B, Manhattan Avenue, Roebling Street and Bedford Avenue Route, Borough of Brooklyn," and further marked "Key Map," and "Sheet No. 1," "Sheet No. 2," and "Sheet No. 3," respectively, all dated May 12, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby are adopted as showing the foregoing route and general plan for convenience merely and that said maps or drawings are not to be

deemed a part of the description of the route or a part of the general plan for any purpose whatever.

TRANSIT COMMISSION,

By JAMES B. WALKER,

Secretary.

May 15th, 1923.

Now, Therefore, Be It Resolved, That the Board of Estimate and Apportionment of the City of New York, by a majority vote according to the number of votes by law pertaining to each member of the Board, hereby approves such plans and conclusions and consents to the construction of a railway or railways in accordance therewith.

A true copy of resolution adopted by the Board of Estimate and Apportionment August 3, 1923.

JAMES MATTHEWS,
Assistant Secretary.

The foregoing resolution is hereby approved.

JOHN F. HYLAN,
Mayor.

Dated, New York, Aug. 9th, 1923.

I hereby certify that the foregoing is a true copy of the original approved resolution as filed in this office.

PETER J. MCGOWAN,
Secretary.

1161—R. T. 7661

Route No. 78—Certified Copy of Resolution of Board of Estimate and Apportionment and Approval by Mayor Consenting to Construction of Central Park West, Manhattan Avenue and St. Nicholas Avenue Route—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on August 3, 1923 and approved by the Mayor on August 9, 1923, was ordered filed:

BOARD OF ESTIMATE AND APPORTIONMENT
City of New York

Consideration of communication, dated May 15, 1923, from the Transit Commission, transmitting route and general plan of construction of an additional rapid transit railway in the City of New York for the conveyance of persons and property, in addition to the already existing lines, being more particularly known as Central Park West, Manhattan Avenue and St. Nicholas Avenue Route, and requesting the approval and consent of this Board thereto.

See Minutes, May 25, 1923; June 1, 1923; June 8, 1923; June 22, 1923; June 29, 1923; July 13, 1923; August 3, 1923.

Whereas, The Transit Commission has duly determined upon a route or routes and general plan of construction of a rapid transit railway for the conveyance of persons and property, to be established in the City of New York in addition to the already existing lines, and did, by resolution adopted May 15, 1923, adopt such route or routes and general plan, being more particularly known as Central Park West, Manhattan Avenue and St. Nicholas Avenue Route and

Whereas, Thereafter said Transit Commission did transmit to the Board of Estimate and Apportionment of the City of New York a copy of the plans and conclusions for such route or routes as adopted, which plans and conclusions were received by said Board of Estimate and Apportionment on the 25th day of May, 1923, at a meeting of said Board of Estimate and Apportionment duly held on said day; and

Whereas, Said Board of Estimate and Apportionment, by resolution duly adopted at said meeting, did appoint a date not less than one week nor more than ten (10) days after the receipt thereof for the consideration of such plans and conclusions—to wit, the first day of June, 1923, at 2:30 o'clock P. M. and proceeded with and continued said consideration from time to time until August 3, 1923, when said consideration was concluded; and

Whereas, The Transit Commission and the Board of Estimate and Apportionment by resolutions adopted July 10 and July 13, 1923, respectively, extended for sixty days from August 1, 1923, the time of the Board of Estimate and Apportionment for the consideration of said route and general plan; and

Whereas, The plans and conclusions are fully set forth in the resolution adopted by the Transit Commission on May 15, 1923, and which resolutions are as follows:

RESOLUTIONS ADOPTED BY THE TRANSIT COMMISSION MAY 15, 1923.

Central Park West, Manhattan Avenue and St. Nicholas Avenue Route.

(Route No. 78.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, this Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

Route.

A route lying wholly within the Borough of Manhattan, the center line of which shall begin at a point in Seventh Avenue at or near West 59th Street where a connection can conveniently be made with the existing rapid transit railroad; thence curving northwesterly and extending across and under West 59th Street and Central Park as a subway or tunnel to a point in Central Park West at or near West 64th Street; thence extending northerly along and under Central Park West to a point in Central Park West at or near West 109th Street; thence curving northwesterly across and under private property, West 110th street and private property to a point in Manhattan Avenue at or about West 111th Street; thence extending northerly under and along Manhattan Avenue to West 124th Street and St. Nicholas Avenue and thence extending northerly under and along St. Nicholas Avenue to a point at or near West 162d Street, where a connection can conveniently be made with other proposed rapid transit railroads.

General Plan of Construction.

The general plan of construction hereby adopted for the foregoing route is as follows:

For that part of route extending from 7th Avenue and West 59th Street to Central Park West and West 64th Street there shall be two (2) tracks. For the remainder of the route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by special necessities of surface or subsurface structures or other special or local necessities, and at curves and for the purpose of avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads (and excepting also that along Central Park West, the structure may be constructed as a double-deck structure, for a part or the whole of the distance with two tracks above and two tracks below) any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable, except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to any part of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnel above mentioned shall be of iron or steel with brick

or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks where constructed in subway or tunnel may be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half ($8\frac{1}{2}$) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional track for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of roadway.

Station and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission, in cases of necessity and for such times as may be necessary, permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

Mode of Operation.

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

Definitions.

The word "street" wherever used herein shall include an avenue or public place. The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit

railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

Maps and Drawings.

It Is Further Resolved, That the five (5) maps or drawings entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 78, Central Park West, Manhattan Avenue and St. Nicholas Avenue Route, Borough of Manhattan," and further marked "Key Map," and "Sheet No. 1," "Sheet No. 2," "Sheet No. 3," and "Sheet No. 4," respectively, all dated May 14, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby are adopted as showing the foregoing route and general plan for convenience merely and that said maps or drawings are not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

TRANSIT COMMISSION,

By JAMES B. WALKER,
Secretary.

May 15, 1923.

Now, therefore, be it

Resolved, That the Board of Estimate and Apportionment of the City of New York, by a majority vote according to the number of votes by law pertaining to each member of the Board, hereby approves such plans and conclusions and consents to the construction of a railway or railways in accordance therewith.

A true copy of resolution adopted by the Board of Estimate and Apportionment August 3, 1923.

JAMES MATTHEWS,
Assistant Secretary.

The foregoing resolution is hereby approved.

JOHN F. HYLAN,
Mayor.

Dated, New York, Aug. 9th, 1923.

I hereby certify that the foregoing is a true copy of the original approved resolution as filed in this office.

PETER J. MCGOWAN,
Secretary.

1162—R. T. 7522

Agreement "CM"—Statement as to Execution and Delivery of Original Contract for Changes in Railroad Structure to Permit Raising of Grade of North Jane Street, Borough of Queens—Contract Filed

The Commission ordered filed an original contract dated August 14, 1923, between the City of New York, acting by the Transit Commission, and Hamme & Jackson, Inc., for changes in the railroad structure east of the Boulevard so as to permit the raising of the grade of North Jane Street, Borough of Queens, Agreement "CM", which contract had been executed on behalf of both parties and delivered on August 16, 1923.

1163—R. T. 7648

Agreement "CJ"—Notice by Chief Engineer of Commencement of Work for Construction of Concrete and Steel Highway Bridge at Ninth Avenue Between 37th and 38th Streets, Borough of Brooklyn—Filed

The Commission ordered filed a notice from the Chief Engineer, dated August 17, 1923, advising of the commencement of work on August 14, 1923, by M. A. Charles for the construction of a concrete and steel highway bridge over Ninth Avenue between 37th and 38th Streets, Borough of Brooklyn, Agreement "CJ".

1164—R. T. 6761

Contract No. 3—Communication from Interborough Rapid Transit Company Transmitting Copy of Contract for Removal of Ashes and Rubbish—Filed

The Commission ordered filed a communication dated August 11, 1923, from the Interborough Rapid Transit Company by H. M. Fisher, Secretary, transmitting a copy of a contract dated July 9, 1923, with the Bouker Contracting Company for the removal of ashes and rubbish from the 74th Street and 59th Street Power Houses and rubbish from the dumping stations at 129th Street and 159th Street and the Harlem River for a period of one year commencing July 9, 1923.

1165

Employees—Report by Acting Chief Executive Officer Recommending Establishment of Minimum Salary of \$2,101 for Draftsmen—Approved

A report was presented from George L. Lucas, Acting Chief Executive Officer, dated August 15, 1923, recommending the establishment of the minimum salary of \$2,101. per annum for draftsmen instead of \$1,801. Upon motion duly seconded and adopted the report and recommendation were approved.

1166

Employees' Calendar No. 159

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Promotions—Hyman J. Abramson, accountant, from \$187.50 per month to \$200.00 per month, to take effect July 1, 1923; Winifred L. Anderson, clerk, from \$80.00 per month to \$90.00 per month, to take effect July 1, 1923; Arthur Azzoni, inspector of equipment, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; William R. Barlow, assistant electrical engineer, from \$250.00 per month to \$262.50 per month, to take effect July 1, 1923; James Barmonde, inspector of painting, from \$180.00 per month to \$187.50 per month, to take effect July 1, 1923; Charlotte C. Beigh, stenographer, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Adolph R. Bergbom, file clerk, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Sol. E. Berkenblitt, assistant chemist, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Sybil R. Berman, stenographer, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; Rose B. Bernstein, stenographer, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; Richard A. Berry, assistant engineer, from \$237.50 per month to \$250.00 per month, to take effect July 1, 1923; Jaques Birkhahn, assistant engineer, from \$237.50 per month to \$250.00 per month, to take effect July 1, 1923; Louis Blatt, junior electrical engineer, from \$150.00 per month to \$162.50 per month, to take effect July 1, 1923; Olga B. Berger, file clerk, from \$109.83 per month to \$125.00 per month, to take effect July 1, 1923; Paul S. L. Bolger, engineer accountant, from \$266.66 per month to \$279.16 per month, to take effect July 1, 1923; Henry E. Bollbach, assistant electrical engineer, from \$187.50 per month to \$200.00 per month, to take effect July 1, 1923; Arthur C. Brockway, transit inspector to assistant supervising transit inspector, from \$137.50 per month to \$150.08 per month, to take effect July 1, 1923; Patrick Brown, transit inspector, from \$125.08 per month to \$137.50 per month, to take effect July 1, 1923; Caroline H. Bruhns, clerk, from \$80.00 per month to \$90.00 per month, to take effect July 1, 1923; Elizabeth A. Bruhns, clerk, from \$80.00 per month to \$90.00 per month, to take effect July 1, 1923; Robert Brushaber, engineer accountant, from \$266.66 per month to \$279.16 per month, to take effect July 1, 1923; Thomas R. Burke, supervising inspector of track, from \$240.00 per month to \$266.66 per month, to take effect July 1, 1923; Cecelia K. Byrne, senior clerk, from \$175.00 per month to \$187.50 per month, to take effect July 1, 1923; Mary T. Byrne, proofreader, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Allyn B. Calkins,

cement tester, from \$180.00 per month to \$187.50 per month, to take effect July 1, 1923; Cecelia F. Carr, file clerk, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; John J. Casey, junior assistant, from \$125.08 per month to \$137.50 per month, to take effect July 1, 1923; Daniel B. Cashion, inspector of track, from \$210.00 per month to \$225.00 per month, to take effect July 1, 1923; Anthony M. Catino, draftsman, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Charles M. Ciaccio, junior assistant, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Teresa V. Clark, stenographer, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; Mary E. Clifford, telephone operator, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Jacob J. Cohen, junior engineer, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Clara Cohen, stenographer, from \$122.00 per month to \$130.00 per month, to take effect July 1, 1923; Albert E. Comstock, assistant engineer, from \$266.66 per month to \$279.16 per month, to take effect July 1, 1923; Lawrence D. Connelly, junior engineer, from \$210.00 per month to \$225.00 per month, to take effect July 1, 1923; Arthur J. Connolly, stenographer, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; Joseph G. Connor, railway engineer, from \$220.83 per month to \$237.50 per month, to take effect July 1, 1923; Henry J. Cook, transit inspector, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Sidney Coombe, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Cecelia R. Corcoran, file clerk, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Michael J. Corcoran, supervising transit inspector, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; William Crepea, junior engineer, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Francis G. Daniell, assistant electrical engineer, from \$220.83 per month to \$240.00 per month, to take effect July 1, 1923; Abraham Daniels, junior engineer, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; Alvin C. DeBaer, junior electrical engineer, from \$150.08 per month to \$162.50 per month, to take effect July 1, 1923; William J. Degan, inspector of lumber, from \$180.00 per month to \$187.50 per month, to take effect July 1, 1923; Burson DeHart, transit inspector, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Roslyn Dertinger, clerk, from \$90.00 per month to \$100.00 per month, to take effect July 1, 1923; Mary C. Devine, clerk, from \$70.00 per month to \$75.00 per month, to take effect July 1, 1923; Helen G. Dixon, senior clerk, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; George Donnelly, transit inspector, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; John H. Dooley, junior engineer, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Alfred J. Doyle, assistant electrical engineer, from \$291.66 per month to \$304.16 per month, to take effect July 1, 1923; J. Dryshpel, designer, from \$237.50 per month to \$250.00 per month, to take effect July 1, 1923; John J. Duffy, draftsman, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Alexander F. Dugan, watchman, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; John J. Eagin, assistant electrical engineer, from \$205.83 per month to \$212.50 per month, to take effect July 1, 1923; Walter T. Edgerton, supervising transit inspector, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Joseph M. Egan, engineering inspector, from \$210.00 per month to \$225.00 per month, to take effect July 1, 1923; Yetta Eisenberg, clerk, from \$70.00 per month to \$80.00 per month, to take effect July 1, 1923; Nathan L. Elgovstein, file clerk, from \$109.83 per month to \$125.00 per month, to take effect July 1, 1923; Rachael Epstein, stenographer, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Thomas E. Farley, clerk, from \$90.00 per month to \$100.00 per month, to take effect July 1, 1923; George B. Faucett, junior electrical engineer, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Pauline Ferber, clerk, from \$70.00 per month to \$75.00 per month, to take effect July 1, 1923; Peter Ferreri, junior electrical engineer, from \$150.00 per month to \$162.50 per month, to take effect July 1, 1923; Ellen T. Finan, file clerk, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; Eleanor M. Finn, clerk, from \$90.00 per month to \$100.00 per month, to take effect July 1, 1923; Aaron D. Fleshler, junior electrical engineer, from \$125.08 per month to \$137.50 per month, to take effect July 1, 1923; Daniel J. R. Foley, transit inspector to assistant supervising transit inspector, from \$137.50 per month to \$150.08 per month, to take effect July 1, 1923; Robert Forfar, porter, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Earle L. Foskett, junior electrical

engineer, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; Frank J. Frank, inspector of equipment, from \$162.50 per month to \$175.08 per month, to take effect July 1, 1923; William H. Freeman, railway engineer, from \$287.50 per month to \$300.00 per month, to take effect July 1, 1923; Sidney Fuld, junior electrical engineer, from \$150.00 per month to \$162.50 per month, to take effect July 1, 1923; John F. Galvin, stenographer, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; Sidney W. Gay, assistant supervising transit inspector to supervising transit inspector, from \$162.50 per month to \$175.08 per month, to take effect July 1, 1923; Leroy Ghear, record clerk, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Leo Gilian, junior engineer, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; Bennett E. Glazer, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Henry R. Glockner, junior engineer, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; Samuel Goldman, proofreader, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Jacob L. Goldstone, junior engineer, from \$195.00 per month to \$212.50 per month, to take effect July 1, 1923; Nathan I. Goldstone, assistant chemist, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Bessie Greenberg, stenographer, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; Joseph J. Gunning, inspector of track, from \$210.00 per month to \$225.00 per month, to take effect July 1, 1923; Daniel R. Gwydir, inspector of equipment, from \$162.50 per month to \$175.08 per month, to take effect July 1, 1923; Selby Haar, electrical engineer (assistant), from \$266.66 per month to \$279.16 per month, to take effect July 1, 1923; Sadie Halperon, stenographer, from \$95.00 per month to \$112.50 per month, to take effect July 1, 1923; Reginald B. Hammond, junior assistant, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Joseph R. Hardenbergh, assistant electrical engineer, from \$187.50 per month to \$200.00 per month, to take effect July 1, 1923; Frederick W. Harris, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Fannie A. Hart, stenographer, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Pauline H. Hartzheim, librarian, from \$109.83 per month to \$120.00 per month, to take effect July 1, 1923; Francis V. Hayes, assistant engineer, from \$240.00 per month to \$250.00 per month, to take effect July 1, 1923; George A. Healey, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Mary E. Heeran, stenographer, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Max Heller, junior engineer, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; George N. Hellers, inspector of painting, from \$180.00 per month to \$187.50 per month, to take effect July 1, 1923; George E. Henry, laborer, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; William Heufner, stenographer, from \$128.08 per month to \$150.08 per month, to take effect July 1, 1923; Clara Herskowitz, stenographer, from \$112.50 per month to \$120.00 per month, to take effect July 1, 1923; Regina Herskowitz, clerk, from \$100.00 per month to \$112.50 per month, to take effect July 1, 1923; Norman A. Hill, engineer accountant, from \$266.66 per month to \$279.16 per month, to take effect July 1, 1923; W. Hille, transit inspector, from \$125.08 per month to \$137.50 per month, to take effect July 1, 1923; John W. Hilliard, assistant engineer, from \$237.50 per month to \$250.00 per month, to take effect July 1, 1923; Walter Hoffman, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Howard Holbrook, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Bella Hollander, clerk, from \$70.00 per month to \$75.00 per month, to take effect July 1, 1923; Joseph R. Holt, junior assistant, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Byron Houghtaling, assistant engineer, from \$237.50 per month to \$250.00 per month, to take effect July 1, 1923; Edward R. Howell, assistant engineer, from \$237.50 per month to \$250.00 per month, to take effect July 1, 1923; Henry O. Huntting, architectural designer, from \$250.00 per month to \$262.50 per month, to take effect July 1, 1923; Edgar T. Hurley, junior electrical engineer, from \$150.08 per month to \$162.50 per month, to take effect July 1, 1923; Edward D. Hutchinson, supervising transit inspector, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Florence D. Hyman, stenographer, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; George Jackowitz, junior assistant, from \$100.08 per month to \$125.08 per month, to take effect July 1, 1923; Miriam Jacobson, stenographer, from \$150.00 per month to \$162.50 per month, to take effect

July 1, 1923; Irene Jenkins, clerk, from \$70.00 per month to \$75.00 per month, to take effect July 1, 1923; Earl A. Johnson, junior electrical engineer, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; Jennie M. Joyce, tabulating machine operator, from \$122.00 per month to \$130.00 per month, to take effect July 1, 1923; Robert O. Jukes, junior engineer, from \$180.08 per month to \$187.50 per month, to take effect July 1, 1923; Louis Kahn, junior engineer, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Emanuel Kaslow, junior engineer, from \$180.00 per month to \$187.50 per month, to take effect July 1, 1923; Eva Katzin, clerk, from \$66.66 per month to \$75.00 per month, to take effect July 1, 1923; Anna Kaufman, stenographer, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Hillary E. Keffer, assistant electrical engineer, from \$175.08 per month to \$187.50 per month, to take effect July 1, 1923; Vincent A. Keffer, inspector of equipment, from \$142.33 per month to \$150.00 per month, to take effect July 1, 1923; Paul J. Keleti, clerk, from \$66.66 per month to \$75.00 per month, to take effect July 1, 1923; Henry Keller, inspector of equipment, from \$200.00 per month to \$212.50 per month, to take effect July 1, 1923; Joseph Keller, inspector of equipment, from \$150.08 per month to \$175.08 per month, to take effect July 1, 1923; William H. Kelly, laborer, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Gertrude G. Kennedy, bookkeeper, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; George N. Kerbey, supervising inspector of steel, from \$214.50 per month to \$225.00 per month, to take effect July 1, 1923; Grace Killen, clerk, from \$80.00 per month to \$90.00 per month, to take effect July 1, 1923; Frances Klein, stenographer, from \$109.83 per month to \$120.00 per month, to take effect July 1, 1923; Albert Kluger, junior electrical engineer, from \$150.00 per month to \$162.50 per month, to take effect July 1, 1923; Henry C. Kuehn, architectural draftsman, from \$150.08 per month to \$162.50 per month, to take effect July 1, 1923; Vincent L. Larkin, inspector of lumber, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; Elias Lavine, designer, from \$237.50 per month to \$250.00 per month, to take effect July 1, 1923; Dora Lehrner, stenographer, from \$100.00 per month to \$112.50 per month, to take effect July 1, 1923; August F. Leimbach, transit inspector to assistant supervising transit inspector, from \$137.50 per month to \$150.08 per month, to take effect July 1, 1923; Charles A. Lenck, junior engineer, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; Harry M. Leon, junior engineer, from \$175.00 per month to \$187.50 per month, to take effect July 1, 1923; Alfred Lennon, engineering inspector, from \$162.50 per month to \$180.00 per month, to take effect July 1, 1923; Margaret E. Lennon, statistician, from \$150.00 per month to \$162.50 per month, to take effect July 1, 1923; Sylvia B. Lerner, stenographer, from \$109.83 per month to \$120.00 per month, to take effect July 1, 1923; Abraham Levey, stenographer, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; Mary Levine, stenographer, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Anna F. Lichtenstein, stenographer, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; Simon Lipschitz, clerk, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; Helen A. Lynch, stenographer, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; Harriet Lynch, telephone operator, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Walter H. McClure, assistant supervising transit inspector to supervising transit inspector, from \$175.00 per month to \$187.50 per month, to take effect July 1, 1923; Agnes C. McCourt, telephone operator, from \$90.00 per month to \$100.00 per month, to take effect July 1, 1923; Elizabeth A. McDonnell, stenographer, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; James J. McNerny, transit inspector, from \$125.08 per month to \$137.50 per month, to take effect July 1, 1923; Walter C. McKinley, assistant supervising transit inspector to supervising transit inspector, from \$175.00 per month to \$187.50 per month, to take effect July 1, 1923; Edward McLaughlin, laborer, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; James J. McNicholas, transit inspector to assistant supervising transit inspector, from \$150.00 per month to \$162.50 per month, to take effect July 1, 1923; James L. MacCarthy, assistant supervising transit inspector to supervising transit inspector, from \$175.00 per month to \$187.50 per month, to take effect July 1, 1923; V. Harold Maddox, junior engineer, from \$180.08 per month to \$192.50 per month, to take effect July 1, 1923; Barbara A. Maloney, bookkeeper, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Carl W. Manzler, junior electrical engineer, from \$162.50 per month to \$175.00 per month, to take effect July

1, 1923; John J. Marron, transit inspector, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Paul Martin, junior electrical engineer, from \$152.50 per month to \$162.50 per month, to take effect July 1, 1923; Benjamin Maurice, supervising inspector of steel, from \$240.00 per month to \$250.00 per month, to take effect July 1, 1923; Benjamin Meltzer, clerk, from \$90.00 per month to \$100.00 per month, to take effect July 1, 1923; Meyer Messinger, stenographer, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Howard P. Michener, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; William D. Milligan, clerk, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; William H. Morris, assistant engineer, from \$266.66 per month to \$279.16 per month, to take effect July 1, 1923; John W. Mullin, transit inspector, from \$125.08 per month to \$137.50 per month, to take effect July 1, 1923; Katherine B. Mullins, senior clerk, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; Fred C. Munk, junior electrical engineer, from \$180.08 per month to \$200.00 per month, to take effect July 1, 1923; Stephen Murphy, transit inspector, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; William J. Murphy, transit inspector, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; John F. Murray, supervising transit inspector, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Oscar Musen, junior electrical engineer, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; Cora Naehner, bookkeeper, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Hugh J. Napier, transit inspector, from \$125.08 per month to \$137.50 per month, to take effect July 1, 1923; John M. Nason, engineering inspector, from \$170.00 per month to \$187.50 per month, to take effect July 1, 1923; Harry Nathan, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Lucille M. Newton, stenographer, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Olof A. Nilsson, designer, from \$266.66 per month to \$279.16 per month, to take effect July 1, 1923; Minnie Notkin, stenographer, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; Helen O'Donohue, junior clerk to clerk, from \$60.00 per month to \$70.00 per month, to take effect July 1, 1923; Thomas O'Hara, transit inspector to assistant supervising transit inspector, from \$137.50 per month to \$150.08 per month, to take effect July 1, 1923; Edward O'Keefe, transit inspector to assistant supervising transit inspector, from \$150.00 per month to \$162.50 per month, to take effect July 1, 1923; John O'Mara, transit inspector, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Adam J. O'Neil, locomotive boiler inspector, from \$208.33 per month to \$225.00 per month, to take effect July 1, 1923; Jeremiah J. O'Neill, junior electrical engineer, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Mollie Ornstein, stenographer, from \$128.08 per month to \$150.08 per month, to take effect July 1, 1923; Agnes M. O'Toole, clerk, from \$66.66 per month to \$75.00 per month, to take effect July 1, 1923; John S. Pahler, inspector of equipment, from \$180.00 per month to \$187.50 per month, to take effect July 1, 1923; Andrew A. Papps, inspector of equipment, from \$162.50 per month to \$175.08 per month, to take effect July 1, 1923; Lawrence Patterson, Assistant engineer, from \$240.00 per month to \$250.00 per month, to take effect July 1, 1923; T. H. Patterson, assistant electrical engineer, from \$187.50 per month to \$200.00 per month, to take effect July 1, 1923; Ruth Pennetto, clerk, from \$66.66 per month to \$70.00 per month, to take effect July 1, 1923; Arthur W. Pinkard, porter, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; Ferdinand J. Pletz, inspector of equipment, from \$165.00 per month to \$175.08 per month, to take effect July 1, 1923; David A. Plotkin, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Joseph F. Pohlen, inspector of equipment, from \$162.50 per month to \$175.08 per month, to take effect July 1, 1923; Charles J. Pommerer, supervising transit inspector, from \$212.50 per month to \$225.00 per month, to take effect July 1, 1923; Charles C. Puckhafer, junior engineer, from \$195.00 per month to \$212.50 per month, to take effect July 1, 1923; Isidor Rabiner, draftsman, from \$180.08 per month to \$200.00 per month, to take effect July 1, 1923; Louis Rehr, inspector of track, from \$170.08 per month to \$187.50 per month, to take effect July 1, 1923; Israel Reichel, junior assistant, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Margaret Reinwald, junior clerk to clerk, from \$60.00 per month to \$65.00 per month, to take effect July 1, 1923; Pincus Rizack, junior engineer from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; William Rode, junior electrical engineer, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Philip

Rodman, stenographer, from \$175.00 per month to \$175.08 per month, to take effect May 1, 1923; Philip Rodman, stenographer, from \$175.08 per month to \$200.00 per month, to take effect July 1, 1923; Anna B. Rosenbaum, stenographer, from \$109.83 per month to \$120.00 per month, to take effect July 1, 1923; Millie Rosenberg, stenographer, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; Sydney Rosmarin, accountant, from \$150.08 per month to \$162.50 per month, to take effect July 1, 1923; Jacob Rotgard, draftsman, from \$180.00 per month to \$200.00 per month, to take effect July 1, 1923; Francis G. Russell, assistant engineer, from \$240.00 per month to \$250.00 per month, to take effect July 1, 1923; Francis Ryan, architectural draftsman, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; John S. Ryan, assistant engineer, from \$237.50 per month to \$250.00 per month, to take effect July 1, 1923; David H. Sarfaty, engineering inspector, from \$180.00 per month to \$187.50 per month, to take effect July 1, 1923; Frank W. Sattler, clerk, from \$128.08 per month to \$145.00 per month, to take effect July 1, 1923; Leslie Saunders, transit inspector to assistant supervising transit inspector, from \$150.00 per month to \$162.50 per month, to take effect July 1, 1923; John Scheuring, engineer accountant, from \$266.66 per month to \$279.16 per month, to take effect July 1, 1923; Rebecca Schurr, stenographer, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Sander, Schwartz, assistant engineer, from \$200.00 per month to \$212.50 per month, to take effect July 1, 1923; Mildred Scully, clerk, from \$90.00 per month to \$100.00 per month, to take effect July 1, 1923; Allan D. Seale, inspector of equipment, from \$162.50 per month to \$175.08 per month, to take effect July 1, 1923; Joseph A. Shanahan, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Richard T. Sheahan, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Harry M. Sheldon, assistant engineer, from \$237.50 per month to \$250.00 per month, to take effect July 1, 1923; Frank A. Shelton, inspector of track, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Jacob J. Siegel, junior accountant, from \$125.08 per month to \$137.50 per month, to take effect July 1, 1923; Fanny B. Siegel, stenographer, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; Michael Silverman, stenographer, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; Lillian S. Silverstein, stenographer, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Antoinette Sirinek, stenographer, from \$128.08 per month to \$137.50 per month, to take effect July 1, 1923; Charles J. Slipper, assistant engineer, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; William O. Smith, supervising transit inspector, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Philip Spector, junior engineer, from \$162.50 per month to \$175.00 per month, to take effect July 1, 1923; Charles A. Standfast, supervising transit inspector, from \$225.00 per month to \$237.50 per month, to take effect July 1, 1923; Goldie Stern, stenographer, from \$90.00 per month to \$112.50 per month, to take effect July 1, 1923; Charles Steul, assistant supervising transit inspector to supervising transit inspector, from \$175.00 per month to \$187.50 per month, to take effect July 1, 1923; William Stroebel, assistant engineer, from \$273.50 per month to \$250.00 per month, to take effect July 1, 1923; William H. Stuart, junior engineer, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; Arthur E. Sundholm, transit inspector to assistant supervising transit inspector, from \$150.00 per month to \$162.50 per month, to take effect July 1, 1923; Cecelia W. Teale, stenographer, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; Reginald H. Thayer, assistant engineer, from \$240.00 per month to \$250.00 per month, to take effect July 1, 1923; Charles D. Thomas, assistant engineer, from \$266.66 per month to \$279.16 per month, to take effect July 1, 1923; Margaret Thornton, clerk, from \$80.00 per month to \$90.00 per month, to take effect July 1, 1923; Samuel Toporoff, draftsman, from \$165.00 per month to \$175.00 per month, to take effect July 1, 1923; Peter Traverso, transit inspector, from \$125.08 per month to \$137.50 per month, to take effect July 1, 1923; Anna A. Tuerk, accountant, from \$187.50 per month to \$200.00 per month, to take effect July 1, 1923; Frederick P. Volckman, assistant engineer, from \$266.66 per month to \$279.16 per month, to take effect July 1, 1923; Warren F. Wagner, junior assistant, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Max Warshofsky, clerk, from \$109.83 per month to \$125.00 per month, to take effect July 1, 1923; Harry W. Weber, junior assistant, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Bertha Weinberg, stenographer, from \$112.50 per month to \$120.00 per month, to take effect July 1, 1923; Edward E. White, engineering inspector, from \$170.00 per month

to \$180.00 per month, to take effect July 1, 1923; Wallace A. Wiegert, junior electrical engineer, from \$150.00 per month to \$162.50 per month, to take effect July 1, 1923; Gerald G. Wiggins, assistant electrical engineer, from \$237.50 per month to \$250.00 per month, to take effect July 1, 1923; Louise Wilson, file clerk, from \$109.83 per month to \$125.00 per month, to take effect July 1, 1923; Henry C. Wohlfrath, transit inspector, from \$137.50 per month to \$150.00 per month, to take effect July 1, 1923; Cecelia Wolf, stenographer, from \$90.00 per month to \$100.00 per month, to take effect July 1, 1923; Irving Wolff, bookkeeper, from \$112.50 per month to \$125.00 per month, to take effect July 1, 1923; Virginia Woods, clerk, from \$80.00 per month to \$90.00 per month, to take effect July 1, 1923; Nettie Zucker, stenographer, from \$122.00 per month to \$137.50 per month, to take effect July 1, 1923.

1167

Employees' Calendar No. 160

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Martin J. Brosman, transit inspector, at \$125.08 per month, to take effect August 20, 1923; Jacob S. Durben, architectural draftsman, at \$150.08 per month, to take effect August 16, 1923.

Appointment under Rule VIII:4—G. William Berg, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Gustav M. Blom, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Arnold Brauner, draftsman, at \$150.08 per month, to take effect August 17, 1923; Michael P. Conroy, junior assistant, at \$125.08 per month, to take effect August 20, 1923; James Conway, junior assistant, at \$125.08 per month, to take effect August 16, 1923; Juan A. Delgado, draftsman, at \$150.08 per month, to take effect August 20, 1923; Samuel Freeman, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Samuel N. Gerson, draftsman, at \$150.08 per month, to take effect August 20, 1923; Joseph G. Gotzen, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Victor H. Greenwald, architectural draftsman, at \$150.08 per month, to take effect August 20, 1923; George Iscol, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Samuel Kahn, draftsman, at \$150.08 per month, to take effect August 17, 1923; Alfred B. Kasten, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Walter R. Many, draftsman, at \$150.08 per month, to take effect August 20, 1923; Dominick C. Martocci, junior assistant, at \$125.08 per month, to take effect August 17, 1923; Walter A. Murphy, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Edwin A. O'Hanlon, architectural draftsman, at \$150.08 per month, to take effect August 20, 1923; William A. O. Leary, draftsman, at \$150.08 per month, to take effect August 20, 1923; William V. Power, junior assistant, at \$125.08 per month, to take effect August 20, 1923; J. Clinton Schafer, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Vincent Schiliro, draftsman, at \$150.08 per month, to take effect August 20, 1923; Walter E. Speck, junior assistant, at \$125.08 per month, to take effect August 14, 1923; John A. Teufer, Sr., junior assistant, at \$125.08 per month, to take effect August 20, 1923; Thomas Tracy, junior assistant, at \$125.08 per month, to take effect August 17, 1923; Claude M. Twombly, architectural draftsman, at \$150.08 per month, to take effect August 20, 1923; Herbert B. Walters, junior assistant, at \$125.08 per month, to take effect August 17, 1923; Hyman Zasky, junior assistant, at \$125.08 per month, to take effect August 14, 1923.

Reinstatement under Rule XVI:1—Roy K. Diamond, draftsman, at \$150.08 per month, to take effect August 20, 1923.

Resignations—Anna Friedberg, stenographer, at \$90.00 per month, to take effect August 15, 1923; Nan St. C. Hiney, stenographer, at \$112.50 per month, to take effect August 9, 1923; Simon Kurtz, draftsman, at \$150.08 per month, to take effect August 21, 1923; Marian C. Lynch, clerk, at \$70.00 per month, to take effect August 21, 1923; James L. MacCarthy, assistant supervising transit inspector, at \$175.00 per month, to take effect August 15, 1923; P. D. Palmer, junior assistant, at \$125.08 per month, to take effect August 20, 1923; Jessie Schenkler, stenographer, at \$90.00 per month, to take effect August 15, 1923; Abraham Schiff, junior assistant, at \$125.08 per month,

to take effect August 14, 1923; Samuel Weinberg, draftsman, at \$150.08 per month, to take effect August 14, 1923; Joseph P. Weismantel, junior assistant, at \$125.08 per month, to take effect August 20, 1923.

Change of Item in Resolution of July 31, 1923 Concerning David Stone so as to Read as Follows—(Appt. under Rule VIII:9) David Stone, architectural draftsman, at \$150.08 per month, to take effect August 17, 1923.

Change of Item in Resolution of July 31, 1923 Concerning David Stone so as to Read as Follows—(Term. of Appt. under Rule VIII:4) David Stone, architectural draftsman, at \$150.08 per month, to take effect August 16, 1923.

Change of Item in Resolution of August 7, 1923 Concerning Aubrey L. McCaffrey, so as to Read as Follows—(Appointment) Aubrey L. McCaffrey, draftsman, at \$150.08 per month, to take effect August 20, 1923.

Leave of Absence with Pay—Morris J. Chanin, correspondence clerk, from April 18, 1923, to June 30, 1923; Simon Kurtz, draftsman, from June 11, 1923, to July 6, 1923.

1168

Voucher Schedule No. 34

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

Vouchers Nos. 790 to 823, Open Market Orders, \$2,909.75; Vouchers Nos. 401 to 440, Miscellaneous Bills, \$4,355.87. Vouchers Nos. 19 and 20, Special Payroll, \$1,950.

Estimates by the Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 208; Jacob Schlesinger, Inc.; Approximate Estimate No. 2 for changes in subway structure to permit widening of East 60th Street between Second and Fifth Avenues from June 26, 1923 to July 25, 1923 (R. T. 7639), \$6,732.45.

Voucher No. 218; Benedetto & Saussez; Approximate Estimate No. 4 for changes in subway structure to permit widening of certain streets in Borough of Manhattan from July 1, 1923 to July 31, 1923 (R. T. 7635), \$2,546.41.

Voucher No. 219; Charles Brown & Son Corp.; Approximate Estimate No. 18 for construction of station finish on Sections Nos. 1 and 2 of Route No. 8 from July 16, 1923 to August 15, 1923 (R. T. 7539), \$7,514.13.

Voucher No. 220; Otis Elevator Company; Approximate Estimate No. 2 for furnishing and installing two elevators in new entrance at 168th Street Station from July 1, 1923 to July 31, 1923 (R. T. 7623), \$4,029.75.

Voucher No. 221; B. T. & J. J. Mack, Inc.; Approximate Estimate No. 5 for construction of transformer closets for emergency lighting in Boroughs of Manhattan and Queens from June 17, 1923 to August 17, 1923 (R. T. 7587), \$1,568.28.

Voucher No. 222; Jacob Schlesinger, Inc.; Approximate Estimate No. 2 for construction of inspection shed and service buildings at Jerome Avenue Yard from July 7, 1923 to August 6, 1923 (R. T. 7636), \$9,371.44.

Voucher No. 223; Frederick Snare Corp.; (Present name of Snare & Triest Company as changed by law); for settlement of claim growing out of contract for construction of station finish on Sections Nos. 1, 1A, 2 and 3 of Route No. 12 (R. T. 7193), \$29,537.23.

Voucher No. 224; Jacob Schlesinger, Inc.; Approximate Estimate No. 13 for construction of second addition to shop at Lenox Avenue and 148th Street Yard from July 16, 1923 to August 15, 1923 (R.T. 7368), \$6,138.45.

1169

Upon motion, duly seconded and adopted, the meeting was adjourned to Wednesday August 22, 1923.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Wednesday, August 22, 1923

Present: LeRoy T. Harkness, Acting Chairman; John F. O'Ryan, Commissioner; Frank N. Robinson, Acting Secretary.

The following matters were presented and action taken as noted:

1170—Case 2627

Interborough Rapid Transit Company—Service and Equipment—Opinion by Commissioner O'Ryan Approved—Order Denying Application for Modification of Service Order "A"—Order Amending Service Order "B" Adopted

The Acting Secretary presented an Opinion in Case No. 2627 by Commissioner O'Ryan, recommending a denial of the application of the Interborough Rapid Transit Company for a modification of Service Order "A", adopted May 2, 1922, and a modification of Service Order "L", adopted on the same day.

Thereupon the above mentioned Opinion in Case No. 2627 was approved and an Order adopted and ordered filed denying the application of the Interborough Rapid Transit Company for a modification of Service Order "A".

Further, an Order in Case No. 2627 was adopted and ordered filed amending Service Order "B" in the following form:

Present:

LE ROY T. HARKNESS	} Commissioners.
Acting Chairman,	
JOHN F. O'RYAN,	

IN THE MATTER
of the

Hearing on the motion of the Commission upon the regulations, practices, equipment, appliances and service of the Interborough Rapid Transit Company.

CASE No. 2627.
ORDER AMENDING SERVICE
ORDER "B" OF MAY 2, 1922.

Whereas, This Commission having by Order adopted on March 7, 1922, directed that a hearing be held to the end that the Commission might determine whether the regulations, practices, equipment, appliances or service of the Interborough Rapid Transit Company in respect to the transportation of persons or property in the City of New York are unjust, unreasonable, unsafe, improper or inadequate, and to determine the just, reasonable, safe, adequate and proper regulations, practices, equipment, appliances and service thereafter to be in force, to be observed, and to be used in such transportation of persons and property and to fix and prescribe the same by order to be made by the Transit Commission and served upon said Interborough Rapid Transit Company; and hearings having been duly held, and the said Interborough Rapid Transit Company and The City of New York and the Transit Commission having appeared at said hearings by counsel; and the Commission having duly considered the evidence adduced before it at the aforesaid hearings and being of the opinion that the equipment of said Interborough Rapid Transit Company in respect to the transportation of persons and property within the City of New York was inadequate, and that additional equipment was necessary in order to provide more adequate service for the public and ought thereafter to be used by said company in the transportation of persons and property, duly issued and served herein on May 2, 1922, Service Order "B", which Service Order "B" was thereafter duly accepted by said Interborough Rapid Transit Company; and

Whereas, By reason of the evidence adduced in hearings held by and before this Commission in respect of the application of Interborough Rapid Transit Company for a modification of Service Order "A" in said Case No. 2627, and having approved the

opinion of John F. O'Ryan, Commissioner, therein, this Commission is of the opinion that the time of procurement of the additional equipment of said Interborough Rapid Transit Company in respect to the transportation of persons or property within the City of New York as required by said original Service Order "B" herein should be changed in order to earlier provide for adequate service for the public and which ought hereafter to be used by said Company in the transportation of persons or property;

Ordered, That the following provisions of the original Service Order "B" herein

"(1) Order, equip, and have ready for operation, when and as hereinafter provided, three hundred and fifty (350) steel cars, for use on the Subway Division of said company.

(2) Order immediately, and equip and have ready for operation as soon as it is possible, and not later than for the 1922-1923 winter operation, one hundred (100) steel cars.

(3) Order on August 1st, 1922, fifty (50) new steel cars, and equip and have them ready for operation as soon thereafter as it is possible, provided that the Transit Commission reserved the right to order the purchase of said fifty (50) steel cars at any date earlier or later than August 1, 1922, if and when, in its judgment, conditions change with respect to yard and terminal facilities, or the ability of the company to equip and operate these additional cars is affected through no fault of its own.

(4) Order the remaining two hundred (200) steel cars for use on the subway division, within six (6) months after the final contracts have been delivered for the construction of the 180th Street Yard and the Jerome Avenue Yard and the third addition to the 148th Street Yard and Shops, and equip and have ready for operation such two hundred (200) additional cars, as soon thereafter as it is possible."

be amended so as to read as follows:

Ordered, That the Interborough Rapid Transit Company

(1) Order, equip and have ready for operation, when and as hereinafter provided, three hundred and fifty (350) steel cars, for use on the Subway Division of said company.

(2) Order immediately, equip and have ready for operation as soon as it is possible, and not later than for the 1922-1923 winter operation, one hundred (100) steel cars.

(3) Order immediately, as of the date of this order as hereby amended, and equip and have ready for operation as soon as it is possible and not later than for the beginning of fall operation in 1924, one hundred (100) steel cars upon specifications to be approved by the Commission.

(4) To order immediately after the delivery of all the contracts for the completion of the construction of the third addition to shops of the 148th Street Yard of the Interborough Company as now proposed, one hundred and fifty (150) new steel cars upon specifications to be approved by the Commission and equip and have them ready for operation as soon thereafter as it is possible, provided, however, that the Commission reserves the right to require the Interborough Company to order said one hundred and fifty (150) new steel cars at any time prior to the delivery of the Contract for the installation of lead tracks to said third addition to shops of the said 148th Street Yard.

Service Order "B" as herein amended, shall take effect immediately.

It is further Ordered, That the Suspension Order herein adopted December 29, 1922 be and the same hereby is in all respects abrogated.

This Order shall be served upon the Interborough Rapid Transit Company in the manner prescribed by law and within ten (10) days after such service the Interborough Rapid Transit Company shall notify the Commission in writing whether the terms of this Order are accepted and will be obeyed.

BY THE COMMISSION,
FRANK N. ROBINSON,
Acting Secretary.

1171—R. T. 7653

Agreement "CN"—Report by Chief Engineer as to Receipt of Bids for Making Changes in Subway Structure at Broadway Incidental to Widening of West 32d Street and for Construction of Ventilation Flue and Making Recommendation for Award of Contract to Slattery Engineering & Construction Company, Inc., at Bid Price of \$28,810—Approval Resolution—Requisition Upon Board of Estimate and Apportionment

The following report was approved:

August 21, 1923.

To the TRANSIT COMMISSION.

Award of Contract for work under Agreement "CN," Making Changes in the Subway Structure at Broadway Incidental to the Widening of West 32nd Street, and the Construction of a Ventilation Flue at West 32nd Street & Broadway, to Slattery Engr'g. & Constr. Co. Inc.

On August 17, 1923, the following bids were received for work under Agreement "CN," Making Changes in the Subway Structure at Broadway, Incidental to the Widening of West 32nd Street and the Construction of a Ventilation Flue at West 32nd Street and Broadway, Routes 4 & 36, Section 2, Borough of Manhattan:

Name	Address	Amount
Slattery Engr'g. & Const. Co. Inc.	10 East 43rd St. N. Y. C.	\$28,810.00
John Riches	23 Willow Place, Bklyn.	29,270.00
Lustig & Weil	103 Park Ave. N. Y. C.	33,825.00
Sunswick Const. Co.	64 Jackson Ave. L. I. C.	33,835.00
David Levy	303 Fifth Ave. N. Y. C.	33,836.50
D. C. Serber	451 West 16th St. N. Y. C.	34,600.00
Norman A. Deiser	390 Broadway, Bklyn.	34,980.00

Our estimate for this work is \$27,690.25

A contract under this Agreement "CN" was previously recommended to the Board of Estimate to be awarded to the second lowest bidder, D. C. Serber, as members of the firm of the lowest bidder had been in default in the execution and delivery of another contract. On July 13, 1923, the Board of Estimate and Apportionment referred back to the Commission the proposed contract with D. C. Serber with a request that the work under Agreement "CN" be readvertised.

The present lowest bidder, Slattery Engineering & Construction Company, Inc., has done considerable work for the Commission and has carried out this work to our satisfaction. At present, they are completing a contract for double tracking the lead to the 148th Street Yard, which contract amounts to about \$227,000. I find the bid prices of the Slattery Engineering & Construction Company, Inc. reasonable under present conditions and in accordance with our experience with this Company. I consider it qualified to carry out successfully the work under Agreement "CN."

Attached are copies of minutes of a conference held in this office on August 21st with the President of the Slattery Engineering & Construction Company, Inc., which contains a financial statement of that Company.

Recommendation: I respectfully recommend that the contract for work under Agreement "CN," Making Changes in the Subway Structure at Broadway, Incidental to the Widening of West 32nd Street, and the Construction of a Ventilation Flue at West 32nd Street and Broadway, Routes 4 & 36, Section 2, Borough of Manhattan, be awarded to the lowest bidder, Slattery Engineering & Construction Company, Inc. at its bid price of \$28,810 and that a request be made upon the Board of Estimate for an appropriation of this amount, \$900.00 to be taken from the appropriation of \$1,000.00 made by the Board of Estimate and Apportionment on April 6th for the changes in the subway structure incidental to the widening of West 32nd Street at the northeast corner of Broadway, Manhattan, under the jurisdiction of the President, Borough of Manhattan, said work to be performed under the supervision of the Transit Commission, the balance of the appropriation or \$27,910 to be charged to Contract No. 4.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, Pursuant to resolution adopted by this Commission on July 31, 1923 the Invitation to Contractors forming part of the proposed contract theretofore adopted by this Commission for making changes in the subway structure at Broadway, incidental to the widening of West 32nd Street and the construction of a ventilation flue at West 32nd Street and Broadway, Routes Nos. 4 & 36, Section No. 2, Borough of Manhattan (Agreement "CN") was duly readvertised and bids respectively totalling as follows were received on August 17, 1923:

Slattery Engr'g. & Const. Co., Inc.....	\$28,810.00
John Riches	29,270.00
Lustig & Weil.....	33,825.00
Sunswick Const. Co.....	33,835.00
David Levy	33,836.50
D. C. Serber.....	34,600.00
Norman A. Deiser.....	34,980.00

; and

Whereas, The Chief Engineer of this Commission, by communication dated August 21, 1923, has reported that the amount of said low bid is reasonable and that the said Slattery Engineering & Construction Co., Inc., the low bidder, is financially able and competent to perform the work under said proposed contract, and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$27,910, the estimated amount chargeable to rapid transit costs necessary to carry out said proposed contract and in addition the application of \$900 of the appropriation made by the Board of Estimate and Apportionment for roadway changes included in said proposed contract.

Resolved, That said report and recommendation of the Chief Engineer be and the same hereby is approved; that the said bid of Slattery Engineering & Construction Co., Inc., as aforesaid be and the same hereby is accepted and that the said proposed contract for making changes in the subway structure at Broadway, incidental to the widening of West 32nd Street and the construction of a ventilation flue at West 32nd Street and Broadway, in the Borough of Manhattan, City of New York (Agreement "CN") be and the same hereby is awarded to the said Slattery Engineering & Construction Co., Inc., subject to its being approved and consented to in form and substance as required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment, in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$28,810, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

August 22, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Slattery Engineering & Construction Co., Inc., (Agreement "CN"), for the making of changes in the subway structure at West 32nd Street and the construction of a ventilation flue at West 32nd Street and Broadway in the Broadway-Fourth Avenue Rapid Transit Railroad, Routes Nos. 4 & 36, Section No. 2, all in the Borough of Manhattan, together with a requisition upon your Honorable Board for the appropriation of the sum of Twenty-seven thousand nine hundred and ten dollars (\$27,910), as hereinafter more particularly indicated, and the application of Nine hundred dollars (\$900) of an appropriation of One thousand dollars (\$1,000), heretofore made by your Board as hereinafter set forth, being the total of Twenty-eight thousand eight hundred and ten dollars (\$28,810), which is the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Your Honorable Board, on a prior submission of this proposed agreement by resolution adopted on July 13, 1923 (Cal. No. 174), predicating your action on the

report of an Engineer of your Board, referred back to the Transit Commission said proposed contract for readvertising.

In accordance with such action the Commission has readvertised said proposed contract and pursuant thereto bids were received on August 17, 1923, respectively totalling as follows:

Slattery Engineering & Construction Co., Inc.....	\$28,810.00
John Riches	29,270.00
Lustig & Weil.....	33,825.00
Sunswick Const. Co.....	33,835.00
David Levy	33,836.50
D. C. Serber	34,600.00
Norman A. Deiser.....	34,980.00

The Chief Engineer of this Commission, in a communication dated August 21, 1923, reports that the bid of Slattery Engineering & Construction Co., Inc., the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said proposed contract, and the Transit Commission has accepted said bid and awarded said proposed contract to the said Slattery Engineering and Construction Co., Inc., subject to its being approved and consented to in form and substance as required by law.

On April 6, 1923 your Honorable Board adopted the following resolution:

"Resolved, By the Board of Estimate and Apportionment, that pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding one thousand dollars (\$1,000), which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which to the amount of the par value thereof to be used for the changes in the subway structure incidental to the widening of West 32nd Street at the northeast corner of Broadway, Manhattan, under the jurisdiction of the President, Borough of Manhattan, said work to be performed under the supervision of the Transit Commission, and said appropriation to be disbursed upon vouchers, prepared by the Transit Commission and certified by the Borough President."

The amount of the lump sum bid in the proposal of Slattery Engineering & Construction Co., Inc. for performance of the work included in the resolution of your Honorable Board herein set forth is Nine hundred dollars (\$900).

Your Honorable Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract in so far as it pertains to rapid transit construction, to wit, the sum of Twenty-seven thousand and nine hundred and ten dollars (\$27,910) and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract in so far as it applies to rapid transit construction, to wit, the sum of Twenty-seven thousand nine hundred and ten dollars (\$27,910).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount estimated to be necessary to pay the expense to the City of carrying out said proposed contract in so far as it applies to rapid transit construction.

This requisition, for the appropriation of Twenty-seven thousand nine hundred and ten dollars (\$27,910) is a subrequisition under and not in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4, and the appropriations made in consequence thereof by your Honorable Board.

Your Honorable Board is also requested to apply to the work included in said proposed contract herewith transmitted for making changes in the subway structure incidental to the widening of 32nd Street at the northeast corner of Broadway, Borough of Manhattan, the sum of Nine hundred dollars (\$900) from the appropriation of One thousand dollars (\$1,000), made by your Board pursuant to the resolution of April 6, 1923 herein set forth.

TRANSIT COMMISSION,
By LEROY T. HARKNESS,
Acting Chairman.

1172—R. T. 6594

Route No. 48—Application by Interborough Rapid Transit Company for Approval of Various Items of Equipment for New Entrance and Railing at Wall Street Station—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated August 2, 1923, requesting approval of various items of equipment for lighting, signs, automatic prepayment turnstiles and equipment for ticket booths in connection with the construction of a new entrance and protective railing at the Wall Street Station at an estimated cost of \$4,300.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer dated August 14, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment for the Railroad and assigning Work Order No. IBA-14 thereto.

The following resolution was adopted:

Whereas, By resolution adopted February 20, 1923 this Commission, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, directed said Interborough Rapid Transit Company, as Lessee under the provisions of said Contract No. 3 and particularly Articles LXX and LXXI thereof, to construct as an Addition to Construction a protective railing and additional stairway at the Wall Street Station of the Seventh Avenue Branch of the Seventh Avenue-Lexington Avenue Line of the Railroad as described in said Contract No. 3, all as more particularly set forth in said resolution aforesaid; and

Whereas, Interborough Rapid Transit Company, by communication dated August 2, 1923, has requested the approval of this Commission, pursuant to the provisions of said Contract No. 3 and said order of February 20, 1923 to the provision of various items of equipment made necessary by the construction of said new entrance and railing at the Wall Street Station aforesaid, at an estimated cost of \$4,300; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated August 14, 1923, reported that the kind and amount of equipment proposed is suitable and necessary for the purpose; that the estimated cost appears reasonable and recommend the approval of said proposal of Interborough Rapid Transit Company; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated August 20, 1923, recommends that the cost of the work so to be performed by Interborough Rapid Transit Company in the provision of various items of equipment at said Wall Street Station be classified as Additional Equipment for the Railroad and that Work Order No. IBA-14 be assigned thereto.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of August 2, 1923 of Interborough Rapid Transit Company be and the same hereby is approved, the cost of such work to be classified as Additional Equipment for the Railroad and as to which this Commission assigns Work Order No. IBA-14.

1173—R. T. 7224

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Installation of Additional Feeder Connections With Switches at Substation No. 40—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated August 2, 1923, requesting approval to the proposed expenditure of approximately \$1,615.

for the installation of two additional feeder connections with switches in Substation No. 40 for the purpose of supplying power to two New York Rapid Transit Corporation cables in the ducts in front of the building.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer dated August 16, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment for the Railroad and assigning Work Order No. IBA-15 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company by communication dated August 2, 1923, has requested the approval of this Commission to the proposed expenditure of approximately \$1,615, for the provision and installation of two additional feeder connections with switches at Substation No. 40, located on Murray Street west of West Broadway, Borough of Manhattan, for the purpose of supplying power to two New York Rapid Transit Corporation cables in the ducts outside of the said substation building; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated August 16, 1923, reported that said cable connections are necessary for supplying power to the Broadway-Fourth Avenue Line pursuant to the power agreement between the said Interborough Rapid Transit Company and a predecessor of New York Rapid Transit Corporation for the supply of power; that the installation of the cables by the New York Rapid Transit Corporation was approved by the Commission by resolution adopted October 10, 1922, to which this Commission assigned Work Order No. MBA-15 and to which will be charged the work to be performed by the Interborough Rapid Transit Company outside of the building and the building line; that the costs are reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 20, 1923, has recommended that the cost of the proposed work within the building and within the building line be classified as Additional Equipment for the Railroad as defined in said Contract No. 3 and that Work Order No. IBA-15 be assigned thereto,

Resolved, That said report and recommendations be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company be and the same hereby is approved upon condition that the cost of such work within the building and within the building line of the substation shall be classified as Additional Equipment for the Railroad as defined in said Contract No. 3 and as to which this Commission assigns Work Order No. IBA-15.

1174—R. T. 7675

Contract No. 4—Application by William P. O’Ryan for Approval of Addition of Name of “Manhattan College” to Name of 242nd Street-Van Cortlandt Park Station—Report by Commissioner O’Ryan Recommending Approval—Approval Resolution

An application was presented from William P. O’Ryan, an Alumnus of Manhattan College, dated June 23, 1923, requesting the addition of the words “Manhattan College” to the name of the 242nd Street-Van Cortlandt Park Station.

A report was presented from Commissioner O’Ryan dated July 25, 1923, recommending that the application be approved and that the expense therefor be borne by the Manhattan College.

The following resolution was adopted:

Whereas, William P. O'Ryan, Esq., an alumnus of Manhattan College, has made application to this Commission for approval of the change in the name of the 242nd Street-Van Cortlandt Park Station of the Manhattan-Bronx Rapid Transit Railroad to read *242nd Street-Van Cortlandt Park-Manhattan College*; and

Whereas, This Commission, after consideration of said application and the report of John F. O'Ryan, Commissioner, in respect thereto, is of the opinion that said application should be approved.

Resolved, That the said application aforesaid, to change the name of the said station of the Manhattan-Bronx Rapid Transit Railroad designated as 242nd Street-Van Cortlandt Park so as to read *242nd Street-Van Cortlandt Park-Manhattan College*, be and the same hereby is approved, such approval to take effect if and when and only when the said Manhattan College shall file with this Commission a duly executed agreement with Interborough Rapid Transit Company, as Lessee of said station of said rapid transit railroad, agreeing to the making of such change at the sole cost and expense of the said Manhattan College.

1175—R. T. 6989

Route No. 18, Section No. 1—Resolution Declaring Ready for Operation Certain Tracks and Inspection Facilities in 180th Street Yard—Adopted

The following resolution was adopted:—

Resolved, That, under and in pursuance of the provisions of the contract known as Contract No. 3 dated March 19, 1913, made between the City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, this Commission hereby declares the following tracks and inspection facilities in the East 180th Street Yard of the White Plains Road Line, located between East 180th Street, the White Plains Road Line and Bronx Park as described in said Contract No. 3 to be ready for operation and use at 6:00 o'clock A. M., on Monday, August 27, 1923.

Track A from a connection with the southbound local Track No. 2 of the White Plains Road Line (approximate general stationing W. 389 + 50) to the northerly end of yard (approximate general stationing 401 + 43).

Tracks Nos. 11, 12, 13, 14, 15, 16, 17 and 18 from their northerly connection with Track A (approximate general stationing 393 + 25) and with each other to their termini in the southerly end of the inspection shed.

All of the inspection shed, boiler room, coal bins, pump room, and oil house within the yard area.

The above tracks to include all special work, bumpers and appurtenances within the designated limits.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Thursday, August 23, 1923

Present: LeRoy T. Harkness, Acting Chairman; Frank N. Robinson, Acting Secretary.

The following matters were presented and action taken as noted:

1176—R. T. 7644

Agreement "CP"—Receipt of Bids for Making Changes in Railroad Structure to Provide for Crossover, Section No. 5 of Route No. 8—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for making changes in the railroad structure to provide for a crossover on Section No.

5, Route No. 8, Bushwick Avenue, Borough of Brooklyn, Agreement "CP," had elapsed at 11:30 A. M. and directed the Acting Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received. The Acting Secretary presented the proper affidavits of publication and opened the box and read the eight bids received. The bids were then referred to the Chief Engineer.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Tuesday, August 28, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; Frank N. Robinson, Acting Secretary.

The following matters were presented and action taken as noted:

1177—R. T. 7644

Agreement "CP"—Resolution Authorizing Release of Checks to All But Lowest and Next to Lowest of Bidders for Changes in Railroad Structure to Provide for Crossover on Section No. 5 of Route No. 8—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on August 23, 1923, for making changes in the railroad structure to provide for a crossover on Section No. 5 of Route No. 8, Agreement "CP", the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders the certified checks in the sum of One thousand dollars (\$1,000) deposited with their bids.

1178—R. T. 7644

Agreement "CP"—Report by Chief Engineer as to Receipt of Bids for Changes in Railroad Structure to Provide for Crossover on Section No. 5 of Route No. 8 and Recommendation for Award of Contract to David Levy at Bid Price of \$47,147.75—Approval Resolution—Requisition Upon Board of Estimate and Apportionment

The following report was approved:

August 25, 1923.

THE TRANSIT COMMISSION.

Award of Contract, Agreement "CP", Making Changes in the Railroad Structure to Provide for Crossover, Route 8, Section 5, Bushwick Avenue, Borough of Brooklyn, to Mr. David Levy.

On August 23, 1923, the following bids were received for work under Agreement "CP", Making Changes in the Railroad Structure to Provide for Crossover, Route 8, Section 5, Bushwick Avenue, Borough of Brooklyn:

Name	Address	Amount
David Levy	303 5th Ave., N.Y.C.....	\$47,147.75
D. C. Serber.....	451 West 16th St., N.Y.C.....	48,745.00
M. A. Charles.....	6831 Ridge Blvd., Brooklyn.....	52,444.50
Ward & Tully, Inc.....	189 Montague St., Brooklyn.....	57,610.00
Hitchcock & Groves.....	3914 Woolworth Bldg., N.Y.C.....	59,912.50
Lustig & Weil.....	103 Park Ave., N.Y.C.....	64,955.00
T. H. Reynolds Contr'g. Co., Inc....	50 Park Place, N.Y.C.....	68,750.00
Slattery Engr'g. & Constr. Co., Inc..	10 East 43rd St., N.Y.C.....	77,740.00

This work is needed to be able to turn trains at the Montrose Street Station of the 14th Street-Eastern Line, the last station in Brooklyn of the subway portion of this line, as soon as this portion is ready for operation. Our estimate for this work is \$60,225.00.

I have looked over the bids submitted and find the prices given by the lowest bidder reasonable.

David Levy, the lowest bidder, has not previously done any work for the Commission. He has, however, done work under his own name for the Board of Education, and as member of the firm of Barndave Corporation for different private concerns in New York City. The Deputy Superintendent of School Buildings in Queens, Board of Education, speaks of him in very high terms. Mr. Holland, Chief Engineer of the Interstate Vehicular Tunnel, for whom Mr. Levy has done work, also speaks of him in high terms and this applies also to a number of other parties with whom inquiries were made. Mr. Levy has associated with him as Superintendent of his work Mr. N. A. Ryan, whom I judge, from my interview with him in my office on August 24th, to be a man of wide experience in different classes of structural work.

Attached, I send you copy of minutes of a conference in my office on August 24th with Mr. David Levy and also copy of a financial statement furnished by him. In accordance with this statement, he has available in his own name a little more than \$4,200.00 for this work. Besides this, Mr. Levy has presented letters to the Commission from his father and sisters in which it is stated that they are willing to advance to Mr. David Levy, without security, an amount aggregating about \$40,000.00 which seems sufficient to carry through this work successfully.

Recommendation: I recommend that the contract for work under Agreement "CP", Making Changes in the Railroad Structure to Provide for Crossover, Route 8, Section 5, Bushwick Avenue, Borough of Brooklyn, be awarded to the lowest bidder, David Levy, at his bid figure of \$47,147.75 and that a request be made on the Board of Estimate and Apportionment for an appropriation of this amount to be charged to Contract No. 4.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed Invitation to Contractors and Form of Contract, Bond and Contractor's Proposal, for making changes in the railroad structure to provide for crossover in that portion of the Fourteenth Street-Eastern Line, known as Section No. 5 of Route No. 8, Bushwick Avenue, Borough of Brooklyn, (Agreement "CP") was heretofore finally adopted by this Commission and subsequent to advertisement duly made bids respectively totalling as follows were received on August 23, 1923:

David Levy	\$47,147.75
D. C. Serber.....	48,745.00
M. A. Charles.....	52,444.50
Ward & Tully, Inc.....	57,610.00
Hitchcock & Groves.....	59,912.50
Lustig & Weil.....	64,955.00
T. H. Reynolds Contr'g. Co., Inc.....	68,750.00
Slattery Engr'g. & Constr. Co., Inc.....	77,740.00

; and

Whereas, The Chief Engineer of this Commission, by communication dated August 25, 1923, has reported that the amount of the low bid is reasonable and that the said David Levy, the low bidder, is financially able and competent to perform the work under said proposed contract, and has recommended the award of said proposed contract to him and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$47,147.75, the amount estimated to be necessary to meet the obligations of the City under said proposed contract,

Resolved, that the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of David Levy submitted as aforesaid be and the same hereby is accepted and that the said proposed contract for the making of changes in the railroad structure to provide for a crossover in that portion of the Fourteenth Street-Eastern Line, Route No. 8, Section No. 5, Bushwick Avenue, Borough of Brooklyn, (Agreement "CP") be and the same hereby is awarded to said David Levy, subject to its being approved and consented to in form and substance as

required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel, for the consent of said Board and the appropriation of the sum of \$47,147.75, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

August 28, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract between The City of New York, acting by the Transit Commission, and David Levy for the making of changes in the railroad structure in the Fourteenth St.-Eastern Line to provide for a crossover, Route No. 8, Section No. 5, Bushwick Avenue, Borough of Brooklyn (Agreement "CP"), together with a requisition upon your Honorable Board for the appropriation of the sum of Forty-seven thousand one hundred forty-seven dollars and seventy-five cents (\$47,147.75), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on August 23, 1923, respectively totalling as follows:

David Levy	\$47,147.75
D. C. Serber	48,745.00
M. A. Charles	52,444.50
Ward & Tully, Inc.	57,610.00
Hitchcock & Groves	59,912.50
Lustig & Weil	64,955.00
T. H. Reynolds Contr'g. Co. Inc.	68,750.00
Slattery Engr. & Constr. Co. Inc.	77,740.00

The Chief Engineer of this Commission, in a communication dated August 25, 1923, reports that the bid of David Levy, the low bidder, is reasonable and that the said David Levy is competent and financially capable of carrying out the provisions of said proposed contract and the Transit Commission had accepted its said bid and awarded the said proposed contract to the said David Levy, subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Forty-seven thousand one hundred forty-seven dollars and seventy-five cents (\$47,147.75) and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund of said City may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Forty-seven thousand one hundred forty-seven dollars and seventy-five cents (\$47,147.75).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is a subrequisition under and not in addition to the requisitions heretofore made by your Board for the purpose of carrying out the provisions of the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation and the appropriations made thereunder by your Honorable Board.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1179—R. T. 7602

Route No. 52, Section No. 2—Draft Form of Contract for Construction of Column Foundation for Part of Flushing Route—Resolution Directing Public Hearing Be Held and That Notice Be Advertised

The following resolution was adopted:

Whereas, There is now submitted to this Commission a draft form of proposed contract for the construction of column foundations for Section No. 2 of Route No. 52 (Flushing Route).

Resolved, That before finally fixing the terms and conditions of said proposed contract for the construction of column foundations for Section No. 2 of Route No. 52 (Flushing Route) a public hearing upon the proposed terms and conditions thereof shall be held on the 14th day of September, 1923 at the office of the Transit Commission, No. 49 Lafayette Street, Borough of Manhattan, New York City at eleven-thirty (11:30) o'clock A. M., at which hearing citizens shall be entitled to appear and be heard and that notice of such hearing shall be published in the City Record every day of publication continuously from and including August 30, 1923 to and including September 14, 1923 and on August 31, 1923 and September 7, 1923 in The Morning Telegraph and Flushing Times, daily newspapers published in the City of New York and that such notice shall state that copies of said draft of proposed contract may be obtained at the said office of the Transit Commission on payment of the fee of One dollar (\$1.00) for each copy.

1180—R. T. 7702

Route No. 52, Section No. 2—Draft Form of Contract for Furnishing and Erecting Structural Steel for Part of Flushing Route—Resolution Directing Public Hearing Be Held and That Notice Be Advertised

Whereas, There is now submitted to this Commission a draft form of a proposed contract for furnishing and erecting structural steel for Section No. 2 of Route No. 52 (Flushing Route).

Resolved, That before finally fixing the terms and conditions of said proposed contract for furnishing and erecting structural steel for Section No. 2 of Route No. 52 (Flushing Route), a public hearing upon the proposed terms and conditions thereof shall be held on the 14th day of September, 1923, at the office of the Transit Commission No. 49 Lafayette Street, Borough of Manhattan, New York City, at eleven-thirty (11:30) o'clock A. M., at which hearing citizens shall be entitled to appear and be heard and that notice of such hearing shall be published in the City Record every day of publication continuously from and including August 30, 1923 to and including September 14, 1923 and on August 31, 1923 and September 7, 1923 in Long Island Daily Press and Daily Long Island Farmer and Flushing Journal, daily newspapers published in the City of New York and that such notice shall state that copies of said draft of proposed contract may be obtained at the said office of the Transit Commission upon payment of the fee of One Dollar (\$1.00) for each copy.

1181—R. T. 7664

Route No. 33, Section No. 3—Draft Form of Contract for Construction of Station Finish for Lawrence Street Station—Resolution Directing Public Hearing Be Held and That Notice Be Advertised—Adopted

The following resolution was adopted:

Whereas, There is now submitted to this Commission a draft form of proposed contract for station finish for Lawrence Street Station, Broadway-Fourth Avenue Rapid Transit Railroad, Section No. 3 of Route No. 33.

Resolved, That before finally fixing the terms and conditions of said proposed contract for station finish for Lawrence Street Station, Broadway-Fourth Avenue Rapid Transit Railroad, Section No. 3 of Route No. 33, a public hearing upon the proposed terms and conditions thereof shall be held on the 14th day of September, 1923 at the office of the Transit Commission, No. 49 Lafayette Street, Borough of Manhattan, City of New York, at eleven-thirty (11:30) o'clock A. M., at which hearing citizens shall be entitled to appear and be heard and that notice of such hearing shall be published in

the City Record every day of publication continuously from and including August 30, 1923 to and including September 14, 1923 and on August 31, 1923 and September 7, 1923 in the Brooklyn Daily Eagle and The Brooklyn Daily Times, daily newspapers published in the City of New York and that such notice shall state that copies of said draft of proposed contract may be obtained at the said office of the Transit Commission on payment of the fee of One dollar (\$1.00) for each copy.

1182—R. T. 6114

Contract No. 1—Application by Holbrook, Cabot & Rollins Corporation for Approval of Assignment of Retained Percentages in Sum of \$28,000 to First National Bank of City of Boston—Approval Resolution

An application was presented from Holbrook, Cabot & Rollins Corporation, dated August 28, 1923, requesting approval of a proposed assignment to the First National Bank, of the City of Boston, of retained percentages in the sum of \$28,000, held by the City as security for the completion of the contract for the construction of a new entrance to the 168th Street Station.

The following resolution was adopted:

Whereas, Holbrook, Cabot & Rollins Corporation, by instrument duly signed and acknowledged on the 28th day of August, 1923, has assigned, transferred and set over to the First National Bank of the City of Boston of the Commonwealth of Massachusetts, the sum of \$28,000 of the moneys deducted and retained as additional security pursuant to the provisions of a certain contract dated May 18, 1922 between The City of New York, acting by the Transit Commission and Holbrook, Cabot & Rollins Corporation for the construction of a new entrance to the 168th Street Station of the Manhattan-Bronx Rapid Transit Railroad; and

Whereas, The said Holbrook, Cabot & Rollins Corporation by communication dated August 28, 1923 has made application to this Commission for approval to said assignment; and

Whereas, Counsel to the Commission has examined said assignment and finds no objection thereto.

Resolved, That the said assignment so submitted be and the same hereby is approved, subject to all the terms and conditions in said contract and upon condition further;

FIRST: That said assignment and the consent of this Commission herein given shall in no respect defeat or impair such rights and remedies as subcontractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or service performed or material furnished if said assignment had never been made, such rights and remedies to remain in all respects the same as if said assignment had never been made.

SECOND: That said assignment and the consent of this Commission herein given shall in no respect effect the rights of The City of New York or of this Commission or of any board, officer, agent or employee acting for The City of New York or this Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to person or property) such rights as well as all other rights of The City of New York to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

THIRD: That this consent shall be of no force or effect unless and until there shall be delivered to this Commission an acceptance by said Holbrook, Cabot & Rollins Corporation, and said First National Bank of the City of Boston of the Commonwealth of Massachusetts in form to be approved by Counsel to this Commission and duly executed and acknowledged accepting the terms of this consent herein given, and unless and until it shall be consented to in writing in form to be approved by Counsel to this Commission by the sureties upon the bond deposited for the faithful performance of said contract.

1183—R. T. 6924

Route No. 33, Section No. 3—Application by New York Rapid Transit Corporation for Approval of Proposed Permit to Brooklyn Edison Company, Inc., to Install Service Pipe Through Subway Ventilator in Front of Premises at No. 56 Willoughby Street, Borough of Brooklyn—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated August 17, 1923, requesting approval of a proposed permit issued to the Brooklyn Edison Company, Inc., to install an electrical service pipe through the subway ventilator in front of the premises at No. 56 Willoughby Street, Borough of Brooklyn.

A report was presented from the Chief Engineer, dated August 24, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, W. S. Menden, as President of the New York Rapid Transit Corporation, successor to the rights and obligations under said Contract No. 4, has, by communication dated August 17, 1923, submitted for the approval of this Commission a proposed permit dated August 14, 1923, by New York Rapid Transit Corporation to Brooklyn Edison Company, Inc., granting the right to the latter company to install through the subway ventilator an electrical service pipe in front of the premises at No. 56 Willoughby Street, Brooklyn; and

Whereas, The Chief Engineer of this Commission, by communication dated August 24, 1923, has reported that said proposed permit has been examined by his office and found satisfactory from an engineering standpoint and recommends the approval thereof; and

Whereas, Counsel to this Commission has examined said proposed permit and finds no objection thereto;

Resolved, That said permit so submitted be and the same hereby is approved and that the Secretary of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed permit.

1184—R. T. 6924

Routes Nos. 36 and 37—Application by New York and Queens Electric Light and Power Company for Approval of a Proposed Permit to Attach Lighting Fixtures, Conduits and Wires to Elevated Structure on Roosevelt Avenue, Borough of Queens—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York and Queens Electric Light and Power Company by L. J. Montgomery, Assistant General Sales Manager, dated July 18, 1923, requesting approval of a proposed permit issued by the Interborough Rapid Transit Company for the attachment of street lighting fixtures, conduits and wires to the elevated structure of the Queensboro Subway Rapid Transit Railroad on Roosevelt Avenue, Borough of Queens.

A report was presented from the Chief Engineer dated August 22, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, L. J. Montgomery, Assistant General Sales Manager of New York and Queens Electric Light and Power Company, by communication dated July 18, 1923 has submitted for approval of this Commission a proposed permit dated May 3, 1923 issued

by Interborough Rapid Transit Company to said New York and Queens Electric Light and Power Company and accepted by said latter company May 3, 1923, subject to the approval of this commission, granting the right to attach certain street lighting fixtures, conduits and wires to the Queensboro Subway Rapid Transit Railroad on Roosevelt Avenue in the Borough of Queens; and

Whereas, The Chief Engineer of this Commission by communication dated August 22, 1923 has recommended that the said proposed permit be approved; and

Whereas, Counsel has examined said proposed permit and finds no objection thereto, Resolved, That the said recommendation be and the same hereby is approved; that the said proposed permit so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed permit.

1185—R. T. 6420, 7007

Additional Tracks—Application by Interborough Rapid Transit Company for Approval of Conversion of Five Elevated Passenger Cars Into Flat Cars—Report by Auditor of Rapid Transit Costs, Chief of Bureau of Accounting and Valuations and Chief Engineer Recommending Approval, Classifying Cost and Assigning Work Order No. IMR-1—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated July 30, 1923, requesting approval to the conversion of five old passenger elevated cars into flat cars.

A report was presented from the Auditor of Rapid Transit Costs, the Chief of the Bureau of Accounting and Valuations and the Chief Engineer dated August 21, 1923, recommending that the application be approved and classifying the cost as a Replacement of Existing Manhattan Railroad payable out of the portion of the Depreciation Fund made available by Retirements and assigning Work Order No. IMR-1 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the certificate dated March 19, 1913 granted by the Public Service Commission for the First District to Interborough Rapid Transit Company for certain elevated railroad extensions and pursuant also to the provisions of the certificate dated March 19, 1913 granted to Manhattan Railway Company by said Public Service Commission for the First District for additional tracks on existing elevated lines, Interborough Rapid Transit Company as Lessee of said Manhattan Railway Company by communication dated July 30, 1923 has requested the approval of this Commission to the conversion of five old open type Manhattan cars into flat cars, the cost to be charged as a displacement against the depreciation reserve; and

Whereas, The Auditor of Rapid Transit Costs, the Chief of the Bureau of Accounting and Valuations and the Chief Engineer of this Commission, have, by communication dated August 21, 1923, reported as follows:

"These cars are of the old open type trailer cars, built in 1902 at a cost of \$2,453.58 each and are no longer needed for passenger service. The original cost of that portion of the car body to be removed is estimated at \$700. each and the salvage on the parts retired is negligible. The cost of conversion into flat cars is estimated at \$675. each.

The following is a tentative list of Manhattan cars proposed for conversion:

Number	Builder
1221	Jewett Car Co.
1228	" " "
1240	" " "
1245	American Car and Foundry Co.
1247	" " "

The proposed work is desirable from an engineering standpoint and there will be made available in the Depreciation Fund by the retirement of the portion

of the cars mentioned more than sufficient to meet the cost of the proposed conversion.

It is recommended:

(1) That the proposed work be approved, the cost of new parts and incidental rearrangement of old parts to be classified as a Replacement of Existing Manhattan Railroad payable out of that portion of the moneys of the Depreciation Fund made available by Retirements due to the present work; and that Work Order Number IMR-1 be assigned thereto.

(2) That the Company account for the salvage, including the cost of removing all parts removed, the net final amount to be withdrawn from or paid into (as the case may be) the Depreciation Fund; and that the original cost of the parts displaced be retired from Fixed Capital, Manhattan Railway Company, and made available in the Depreciation Fund for expenditure on the present work."

Resolved, That said report and recommendation be and the same hereby are approved; that the application of Interborough Rapid Transit Company aforesaid be and the same hereby is approved and the Chief Engineer be and hereby is authorized and directed to approve of the substitution of any other car for any of the five mentioned in the foregoing tentative list, it being understood that the foregoing approval is upon the following conditions:

(1) That the proposed work be approved, the cost of new parts and incidental rearrangement of old parts to be classified as a Replacement of Existing Manhattan Railroad payable out of that portion of the moneys of the Depreciation Fund made available by Retirements due to the present work, and as to which this Commission assigns Work Order Number IMR-1.

(2) That the Company account for the salvage, including the cost of removing all parts removed, the net final amount to be withdrawn from or paid into (as the case may be) the Depreciation Fund; and that the original cost of the parts displaced be retired from Fixed Capital, Manhattan Railway Company, and made available in the Depreciation Fund for expenditure on the present work.

1186—R. T. 6420, 6761

Additional Tracks—Application by Interborough Rapid Transit Company for Approval of Purchase of Welding Machine for Installation in 129th Street and Third Avenue Construction Shop—Report by Acting Engineer of Equipment and Operation and Chief Engineer, Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated August 8, 1923, requesting approval to the purchase of one Alternarc Welding Machine, from the Electric Arc Welding and Cutting Company, for installation in the 129th Street and 3rd Avenue Construction Shop, at a total cost of \$1,000.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer, dated August 17, 1923, stating that the welding apparatus is necessary and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additions to Existing Manhattan Railroad, and assigning Work Order No. IMA-3 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the certificate dated March 19, 1913, granted by the Public Service Commission for the First District to Manhattan Railway Company for additional tracks on the Second Avenue, Third Avenue and Ninth Avenue Elevated Lines, Interborough Rapid Transit Company, as Lessee of said Manhattan Railway Company, by communication dated August 8, 1923, has submitted for the approval of this Commission its proposal to purchase one Alternarc Welding Machine from the Electric Arc Cutting and Welding Co. and the installation thereof in the

129th Street and Third Avenue Construction Shop at a total approximate cost of \$1,000; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated August 17, 1923, reported that no bids were taken on this apparatus; that the welding machine consists of a portable transformer, a carbon welding point and a shield for the operator; that the machine is already installed and in service; that the welding apparatus is necessary for construction work carried on in this shop; that the price of \$700 for the welding machine and the approximate cost of \$300 for its installation are reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated August 21, 1923, has recommended that the cost be classified as Additions to Existing Manhattan Railroad and that Work Order No. IMA-3 be assigned thereto; and

Whereas, A stipulation dated March 9, 1923, has been entered into between The City of New York, acting by the Transit Commission, and said Interborough Rapid Transit Company with respect to the proper interpretation and meaning of the provisions of said additional track certificate and the certificate for elevated extensions allied therewith in particular relation to betterments, improvements or additions to the existing Manhattan railroads,

Resolved, That said reports and recommendations be and the same hereby are approved; that pursuant to said additional track certificate and said stipulation of March 9, 1923, this Commission approves said proposal to install such Alternarc Welding Machine upon condition that the cost thereof shall be classified as Additions to Existing Manhattan Railroad and as to which this Commission assigns Work Order No. IMA-3.

1187—R. T. 6420, 6761

Additional Tracks—Application by Interborough Rapid Transit Company for Approval of Purchase of Power Punch Press for 98th Street Shop—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated August 3, 1923, requesting approval to the purchase of one power punch press from E. W. Bliss Company for installation in the 98th Street Shop at a total cost of \$1,300.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer dated August 20, 1923, stating that the cost is reasonable and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additions to Existing Manhattan Railroad and assigning Work Order No. IMA-4 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the certificate dated March 19, 1913 granted by the Public Service Commission for the First District to Manhattan Railway Company for additional tracks on the Second Avenue, Third Avenue and Ninth Avenue Elevated Lines, Interborough Rapid Transit Company, as Lessee of said Manhattan Railway Company, by communication dated August 3, 1923, has submitted for the approval of this Commission its proposal to purchase one power punch press from the E. W. Bliss Co. and the installation thereof in the 98th Street Shop, Manhattan Division, at a total approximate cost of \$1300; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated August 20, 1923, reported that the punch press has been installed and is in service in the 98th Street Shop, where it is needed for the manufacture of equipment repair parts; that the approximate cost of \$1300. is reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated August 21, 1923, has recommended that the cost be classified as Additions to Existing Manhattan Railroad and that Work Order Number IMA-4 be assigned thereto; and

Whereas, A stipulation dated March 9, 1923 has been entered into between The City of New York, acting by the Transit Commission, and said Interborough Rapid Transit Company with respect to the proper interpretation and meaning of the provisions of said additional track certificate and the certificate for elevated extensions allied therewith in particular relation to betterments, improvements or additions to the existing Manhattan railroads.

Resolved, That said reports and recommendations be and the same hereby are approved; that pursuant to said additional track certificate and said stipulation of March 9, 1923 this Commission approves said proposal to install such power punch press upon condition that the cost thereof shall be classified as Additions to Existing Manhattan Railroad and as to which this Commission assigns Work Order Number IMA-4.

1188—R. T. 6420, 6761

Additional Tracks—Application by Interborough Rapid Transit Company for Approval of Installation of Toilets in Inspection Barn at 128th Street and Second Avenue—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated August 6, 1923, requesting approval to the installation of three toilets in the inspection barn at 128th Street and Second Avenue at an estimated cost of \$1500.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer dated August 18, 1923, stating that the additional facilities are necessary and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additions to Existing Manhattan Railroad and assigning Work Order No. IBA-5.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the certificate dated March 19, 1913, granted by the Public Service Commission for the First District to Manhattan Railway Company for additional tracks on the Second Avenue, Third Avenue and Ninth Avenue Elevated Lines, Interborough Rapid Transit Company, as Lessee of said Manhattan Railway Company, by communication dated August 6, 1923, has submitted for the approval of this Commission its proposal to install three toilets in the inspection barn at 128th Street and Second Avenue, at an estimated total cost of \$1500; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated August 18, 1923, reported that the present toilet facilities at said barn are inadequate and that the additional facilities are necessary; that the estimated cost of \$1500 is reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated August 21, 1923, has recommended that the cost of such work, in so far as it is a betterment, be classified as Additions to Existing Manhattan Railroad and that Work Order No. IMA-5 be assigned thereto, the remainder of the cost of such work to be charged to Maintenance; and

Whereas, A stipulation dated March 9, 1923, has been entered into between The City of New York, acting by the Transit Commission, and said Interborough Rapid Transit Company with respect to the proper interpretation and meaning of the provisions of said additional track certificate and the certificate for elevated extensions allied therewith in particular relation to betterments, improvements or additions to the existing Manhattan railroads,

Resolved, That said reports and recommendations be and the same hereby are approved; that pursuant to said additional track certificate and said stipulation of March 9, 1923, this Commission approves said proposal to install such additional toilet facilities upon condition that the cost thereof, in so far as it is a betterment shall be classified as Additions to Existing Manhattan Railroad and as to which this Commission assigns Work Order No. IMA-5, the balance of the cost of such work to be charged to Maintenance.

1189—R. T. 6506

Contract No. 4—Resolution Approving Stipulation with New York Municipal Railway Corporation as to Amount and Classification of Depreciation for Year Ended June 30, 1923, and Agreeing Upon Tentative Amount for Year Ending June 30, 1924—Adopted

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, and particularly to the provisions of Section 5 of Article XLIX with respect to the determination of the classification and amount of depreciation and excess maintenance, the Transit Commission and the representative of the New York Rapid Transit Corporation (successor to New York Municipal Railway Corporation, New York Consolidated Railroad Company and Lindley M. Garrison, as Receiver of said New York Municipal Railway Corporation and New York Consolidated Railroad Company), have this day met and determined, in accordance with the provisions of said contract the amount of depreciation and excess maintenance, which agreement has been set forth in the following stipulation:

Stipulation entered into between The City of New York, acting by the Transit Commission (hereinafter referred to as the "Commission"); New York Rapid Transit Corporation (hereinafter referred to as the "Transit Corporation"), [successor to New York Municipal Railway Corporation (hereinafter referred to as the "Railway Corporation") and Lindley M. Garrison, as Receiver of the New York Municipal Railway Corporation (hereinafter referred to as the "Receiver of the Railway Corporation"); and New York Consolidated Railroad Company (hereinafter referred to as the "Railroad Company") and Lindley M. Garrison as Receiver of the New York Consolidated Railroad Company (hereinafter referred to as the "Receiver of the Railroad Company")]:

Whereas, The Contract dated March 19, 1913 (known and hereinafter referred to as "Contract No. 4") between The City of New York, acting by Public Service Commission for the First District and New York Municipal Railway Corporation, provides in Section 5 of Article XLIX thereof, in part as follows:

'Within thirty (30) days after the thirtieth day of June following the beginning of such temporary operation and annually thereafter the Commission and the Lessee shall determine the classification and amount of depreciation and excess maintenance not covered by the amount set aside under paragraph 4 of this Article, during the preceding fiscal year, and the deduction [from Revenue] for such year shall thereupon be adjusted to conform with such determination', and

Whereas, By agreement of assignment and lease, dated March 25, 1913, duly consented to by the said Public Service Commission, the Railway Corporation assigned to the Railroad Company its rights and obligations under Contract No. 4 with respect to operation and maintenance; and

Whereas, The Commission has succeeded to the rights and obligations of the Public Service Commission for the First District as described in said Contract No. 4; and

Whereas, Lindley M. Garrison was duly appointed and qualified as Receiver of the Railway Corporation and as Receiver of the Railroad Company; and

Whereas, On June 4, 1923, the Railway Corporation was merged into and with the Railroad Company; and

Whereas, The Transit Corporation has succeeded to all the rights and obligations of the Railway Corporation, the Railroad Company and of the Receiver of the Railway Corporation and of the Receiver of the Railroad Company, as described in said Contract No. 4 and otherwise; and

Whereas, The parties hereto have determined and agreed as to the amount of Depreciation and of Excess Maintenance for the fiscal year ending June 30, 1923, as the terms "Depreciation" and "Excess Maintenance" are used in Contract No. 4, and also determined and agreed as to the tentative amount of Depreciation to be paid into

the Depreciation Funds under Contract No. 4 for the fiscal year ending June 30, 1924. Now, therefore, the parties hereto, in order to clearly set forth the determination so made and the agreements reached, do hereby stipulate and agree as follows:

- (1) That for the fiscal year ended June 30, 1923:
- | | |
|--|-----------------------|
| (a) The amount of depreciation is determined to be..... | \$300,000.00 |
| (b) The amount of excess maintenance is determined to be, as shown by the books of the Lessee, subject, however, to subsequent audit and verification by the Commission... | 1,296,911.22 |
| (c) The total deduction, as defined in Article XLIX, Section 5 of Contract 4, is determined to be..... | <u>\$1,596,911.22</u> |
- (2) That the classification of the above total deduction shall be as follows:
- | | |
|--|-----------------------|
| Depreciation Fund for the Railroad and Equipment..... | \$766,517.39 |
| Depreciation Fund for the Plant and Property of the Extensions and Additional Tracks | 15,969.11 |
| Depreciation Fund for the Existing Railroads..... | 814,424.72 |
| Total..... | <u>\$1,596,911.22</u> |
- (3) That withdrawals of the said amount of excess maintenance for the fiscal year ended June 30, 1923, shall be made from the Depreciation Funds, in accordance with the provisions of Contract No. 4, on the following basis:
- | | |
|---|-----------------------|
| Depreciation Fund for the Railroad and Equipment..... | \$622,517.39 |
| Depreciation Fund for the Plant and Property of the Extensions and Additional Tracks..... | 12,969.11 |
| Depreciation Fund for the Existing Railroads..... | 661,424.72 |
| Total..... | <u>\$1,296,911.22</u> |
- (4) That the balance, representing depreciation for the fiscal year ended June 30, 1923, remaining in each of the funds, shall be as follows:
- | | |
|---|---------------------|
| Depreciation Fund for the Railroad and Equipment..... | \$144,000.00 |
| Depreciation Fund for the Plant and Property of the Extensions and Additional Tracks..... | 3,000.00 |
| Depreciation Fund for the Existing Railroads..... | 153,000.00 |
| Total..... | <u>\$300,000.00</u> |

It is further stipulated and agreed that for the purpose of accounting and reporting during the fiscal year ending June 30, 1924, the amount of depreciation shall be fixed tentatively at \$300,000 the sum of \$25,000 to be credited to the Depreciation Funds for each of the twelve months in the fiscal year, it being understood and agreed that if the Maintenance Fund of 12% of the Revenues in any month, shall either be in excess of or less than the actual maintenance charges, such excess or deficiency in the maintenance fund shall be deducted from or added to the monthly sum to be credited to the Depreciation Funds, so as to insure that the said Depreciation Funds shall be increased during the fiscal year ending June 30, 1924, by the sum of \$300,000.

That the classification of the said \$25,000, each month during the fiscal year ending June 30, 1924, shall be as follows:

Depreciation Fund for the Railroad and Equipment.....	48%
Depreciation Fund for the plant and Property of the Extensions and Additional Tracks	1%
Depreciation Fund for the Existing Railroads.....	51%

In Witness Whereof, The parties here herunto set their hands and official seals." Resolved, That said stipulation be and the same hereby is approved and that the Chairman and the Secretary of this Commission be and they hereby are authorized to execute and deliver said stipulation.

1190—Case 2679

Brooklyn Rapid Transit Company—Application of Stockholders' Committee for Approval of Reorganization Plan—Supplemental Application No. 3 of New York Rapid Transit Corporation for Approval of Issuance of Stock and Refunding Mortgages and Approval of Assignment of Contract No. 4—Hearing Order Adopted

The Acting Secretary presented Supplemental Application No. 3 in Case No. 2679, of the New York Rapid Transit Corporation, asking for the approval of the issuance of 189,000 shares of common stock without nominal or par value and the execution of mortgages to the Chase National Bank and the Central Union Trust Company of New York, and for the further approval of the assignment to itself of Contract No. 4.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2679, directing a hearing on August 30, 1923 at 11 A. M. with respect to the matter.

1191—Case 2696

South Brooklyn Railway Company—Petition for Approval of Purchase of Capital Stock of Prospect Park & South Brooklyn Railroad Company et Al. and Merger of Said Companies—Hearing Order With Notice Adopted

The Acting Secretary presented a petition, verified August 20, 1923, of the South Brooklyn Railway Company, by A. R. Piper, President, requesting permission to acquire the capital stock of the Prospect Park & South Brooklyn Railroad Company and of the New York & Coney Island Railroad Company and to merge said companies and the Prospect Park & Coney Island Railroad Company.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2696, directing a hearing on September 12, 1923 at 11 A. M., with respect to the above application and requiring the publication of notice thereof.

1192—S. P. 751

Richmond Light and Railroad Company—Application for Permission to Put Into Effect New Schedule Effective August 1, 1923, Showing Termination of Receivership and Return of Property to Company—Special Permission Approved

The Acting Secretary presented a communication, dated August 28, 1923, from the Richmond Light and Railroad Company, by R. L. Rand, General Manager, requesting permission to put into effect on August 1, 1923, nunc pro tunc, new tariff schedule providing for the change of its operator, the termination of the Receivership and the return of the property to the Company. The Acting Secretary also presented his report, dated August 28, 1923, recommending the granting of the application.

Thereupon the Commission approved and ordered filed Special Permission No. 751, granting the desired permission and providing that the same should take effect as of midnight July 31, 1923.

1193—Case 2693

Union Railway Company of New York City—Resumption of Service on Morris Park Avenue—Report and Opinion by Acting Chief Executive Officer Approved—Order Directing Resumption of Service Adopted

The Acting Secretary presented a report and opinion, dated August 27, 1923, by George L. Lucas, Acting Chief Executive Officer, recommending that the Order in

[August 28, 1923

Case No. 2158, adopted by the Public Service Commission for the First District on November 6, 1916, authorizing temporary discontinuance of operation on Morris Park Avenue be revoked and that the Union Railway Company of New York City be directed to realign and recondition its tracks and resume operation on said avenue.

Thereupon the Commission approved the above mentioned Report and Opinion in Case No. 2693, and adopted and ordered filed an Order in Case No. 2693 in the following form:

Present:

LEROY T. HARKNESS, Acting Chairman, JOHN F. O'RYAN,	}	Commissioners.
---	---	----------------

IN THE MATTER
of the
Investigation by the Transit Commission of the suspension of service by the Union Railway Company of New York City on Morris Park Avenue from Bronxdale Avenue to Williamsbridge Road.

CASE No. 2693
HEARING ORDER

The Public Service Commission for the First District having on November 6, 1916, adopted a Resolution in Case No. 2158 permitting the Union Railway Company of New York City to temporarily suspend service on a certain portion of its Morris Park Avenue Line, and it appearing that at the present time the company has not resumed said service but has ceased operation on the said line on Morris Park Avenue from Bronxdale Avenue to Williamsbridge Road in the Borough of The Bronx, City of New York, it is

Ordered, That a hearing be held herein before the Commission at its Hearing Rooms, No. 49 Lafayette Street, Borough of Manhattan, City of New York, on the 30th day of July, 1923 at 10:30 A. M. for the purpose of determining whether or not an order should be made directing a resumption of service on its Morris Park Avenue Line between Bronxdale Avenue and Williamsbridge Road.

Ordered, That notice of this hearing be given to the Union Railway Company of New York City, The Bronx Traction Company, and The City of New York, by service of a certified copy of this Order in the manner provided in Section 23 of the Public Service Commission Law.

And It Is Further Ordered and certified that George L. Lucas, Acting Chief Executive Officer of the Commission, be and he is hereby, pursuant to Sections 8 and 11 of the Public Service Commission Law, authorized and designated to conduct said hearing, to take the testimony therein and report the same to the Commission with his opinion thereon for its decision and determination.

By THE COMMISSION,
FRANK N. ROBINSON,
Acting Secretary.

1194—Case 1379

New York Rapid Transit Corporation—Monthly Reports—Extension Order Adopted

The Acting Secretary presented a communication, dated August 21, 1923, from M. B. Hoffman, Assistant Counsel of the New York Rapid Transit Corporation, requesting an extension of time to October 1, 1923, within which to file monthly report for June, 1923, as required by the Commission's Order in Case No. 1379. The Acting Secretary also presented a report, dated August 24, 1923, from Harry S. Fischer, Statistician, approved by John E. Cooper, Chief, Bureau of Accounting & Valuations, recommending the granting of an extension of time to September 10, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1379, extending the company's time to September 10, 1923.

1195—Case 1399**New York Rapid Transit Corporation et al.—Quarterly Reports—Extension Order Adopted**

The Acting Secretary presented a communication, dated August 21, 1923, from M. B. Hoffman, requesting on behalf of the New York Rapid Transit Corporation, New York Consolidated Railroad Company and Lindley M. Garrison, as Receiver, thereof, an extension of time to October 1, 1923, within which to file quarterly reports for the quarter ended June 30, 1923, pursuant to the Commission's Filing Order in Case No. 1399. The Acting Secretary also presented a report, dated August 24, 1923, from Harry S. Fischer, Statistician, approved by John E. Cooper, Chief, Bureau of Accounting & Valuations, recommending an extension of time to September 10, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1399, granting an extension of time to September 10, 1923.

1196—Case 2627**Interborough Rapid Transit Company—Service and Equipment—Extension Order Adopted**

The Acting Secretary presented a communication, dated August 27, 1923, from Frank Hedley, President & General Manager of the Interborough Rapid Transit Company, requesting an extension of time to September 12, 1923, within which to notify the Commission whether Service Order "B", as amended August 22, 1923, was accepted and would be obeyed.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2627, granting an extension of time to September 10, 1923.

1197—Case 2694**Third Avenue Railway System—Promulgation of Rules to Employees in Case of Accident—Communication from Company Transmitting Rules Promulgated to Employees—Filed**

The Acting Secretary presented a communication, dated August 23, 1923, from Garrow T. Geer, Secretary of the Third Avenue Railway System, transmitting copy of rules promulgated to employees of the companies comprising the Third Avenue Railway System, as required by the Commission's Order in Case No. 2694.

Thereupon the above mentioned papers were ordered filed.

1198—R. T. 6989**Route No. 18—Statement as to Execution and Delivery of Original Agreement for Installation of Additional Tracks and Miscellaneous Work in 180th Street Yard—Agreement Filed**

The Commission ordered filed, an original agreement, dated July 25, 1923, between the City of New York, acting by the Transit Commission and Interborough Rapid Transit Company, for the installation of additional tracks and other miscellaneous work in the 180th Street Yard of the White Plains Road—Rapid Transit Railroad, which agreement had been executed on behalf of both parties, and delivered on August 23, 1923.

1199—R. T. 7565

Routes Nos. 16 and 18—Statement as to Execution and Delivery of Original Agreement for Additional Waiting Rooms at 219th Street Station and Kingsbridge Road Station—Agreement Filed

The Commission ordered filed, an original agreement dated April 6, 1923, between the City of New York, acting by the Transit Commission and the Interborough Rapid Transit Company, for the construction of an additional waiting room on the northbound platform of the 219th Street Station of the White Plains Road Line—Route No. 18; and the construction of an additional waiting room on the northbound platform of the Kingsbridge Road Station of the Jerome Avenue Line, Route No. 16, which agreement had been executed on behalf of both parties, and delivered on August 23, 1923.

1200—R. T. 7522

Agreement "CM"—Notice by Chief Engineer of Commencement of Work for Changes in Structure so as to Permit Raising of Grade of North Jane Street—Filed

The Commission ordered filed, a notice from the Chief Engineer, dated August 22, 1923, advising of the commencement of work by Hamme & Jackson, Inc., on August 20, 1923, for making changes in the subway structure, so as to permit the raising of the grade in North Jane Street, Borough of Queens—Agreement "CM".

1201—R. T. 6761

Contract No. 3—Letter from Interborough Rapid Transit Company Submitting Copies of Three Agreements for Fire Alarm Service in Inspection Barns—Filed

The Commission ordered filed a letter from the Interborough Rapid Transit Company, dated August 16, 1923, submitting copies of three agreements, two dated July 2, 1923, and one dated July 19, 1923, with the National District Telegraph Company for fire alarm service in the inspection barns at 180th Street and Morris Park Avenue, Jerome and Van Cortlandt Avenues and 166th Street and Whitlock Avenue.

1202

Fees Received During July, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of July, 1923, fees, etc., to the amount of \$239.67 and refunds of rental from rapid transit real estate to the amount of \$4,450, had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$239.67 to be accredited to the General Fund of The City of New York and the sum of \$4,450 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as Rentals and proceeds of the sale of properties in the same proceeding and held available for the purposes of the Commission, as provided in the Rapid Transit Act.

1203

Employees' Calendar No. 161

On motion, duly seconded the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employes:

Appointment—John J. Casey, architectural draftsman, at \$150.08 per month, to take effect August 11, 1923; Nicholas Cohen, junior assistant, at \$125.08 per month, to take effect August 27, 1923; James A. Fitzpatrick, transit inspector, at \$125.08 per month, to take effect August 27, 1923.

Appointments under Rule VIII:4—Maurice Barrat, junior assistant, at \$125.08 per month, to take effect August 23, 1923; Frederick T. Brown, junior assistant, at \$125.08 per month, to take effect August 28, 1923; Sidney R. Brown, draftsman, at \$150.08 per month, to take effect August 24, 1923; James P. Carmody, inspector of steel, at \$175.00 per month, to take effect August 27, 1923; Sylvester Catalanatto, junior assistant, at \$125.08 per month, to take effect August 22, 1923; Stephen G. De Mahy, draftsman, at \$150.08 per month, to take effect August 22, 1923; Charles E. Downey, architectural draftsman, at \$150.08 per month, to take effect August 22, 1923; William Fierstein, draftsman, at \$150.08 per month, to take effect August 27, 1923; Justin D. Graves, junior assistant, at \$125.08 per month, to take effect August 28, 1923; William F. Johnson, draftsman, at \$150.08 per month, to take effect August 28, 1923; Edward V. Maitland, junior assistant, at \$125.08 per month, to take effect August 22, 1923; Henry Reich, junior assistant, at \$125.08 per month, to take effect August 16, 1923; James E. Sampson, draftsman, at \$150.08 per month, to take effect August 21, 1923; Samuel Steinfeld, draftsman, at \$150.08 per month, to take effect August 21, 1923; Setrag A. Sulahian, draftsman, at \$150.08 per month, to take effect August 22, 1923; Alfred M. Wyman, draftsman, at \$150.08 per month, to take effect August 21, 1923.

Resignations—Edmond G. Bouysson, junior clerk, at \$60.00 per month, to take effect August 31, 1923; John J. Casey, junior assistant, at \$125.08 per month, to take effect August 10, 1923; Stephen Frankel, junior clerk, at \$60.00 per month, to take effect September 4, 1923; Benjamin Friedenber, junior assistant, at \$125.08 per month, to take effect August 18, 1923; Robert Gilbert, junior clerk, at \$60.00 per month, to take effect August 31, 1923; Charles E. Marlor, inspector of steel, at \$175.00 per month, to take effect August 15, 1923; Edward Schmidt, junior assistant, at \$125.08 per month, to take effect August 31, 1923; Arthur G. Pennefather, junior engineer, at \$162.50 per month, to take effect August 28, 1923; Max Plentl, clerk, at \$70.00 per month, to take effect August 31, 1923.

Appointment under Rule V:4—Max A. Plentl, laborer, at \$100.00 per month, to take effect September 1, 1923.

Leave of Absence with Pay—Julia Mollahan, clerk, from September 1, 1923, to November 30, 1923.

1204

Voucher Schedule No. 35

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York, as the vouchers may direct.

Vouchers Nos. 153 to 161; Regular Payrolls; \$87,116.34; Voucher No. 18, Special Payroll, \$1,250; Voucher No. CM-17, State Payroll, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Materials Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 225; Fox Reynolds Co., Inc.; Approximate Estimate No. 4 for completion of newstand enclosures at stations; (R.T. 7419), \$2,088.09.

Voucher No. 226; Rosenthal Engineering Contracting Company, Inc.; Approximate Estimate No. 6 for construction of foundations for third addition to shops at Lenox Avenue and 148th Street Yard (R. T. 7589), \$11,996.92.

1205

Upon motion, duly seconded and adopted, the meeting was adjourned to Thursday, September 6, 1923.

FRANK N. ROBINSON,
Acting Secretary.

JAMES B. WALKER,
Secretary.

Proceedings for Thursday, September 6, 1923

Present: George McAney, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1208—R. T. 7689

Contract No. 1—Application by Interborough Rapid Transit Company for Approval of Installation of Additional Enamel Station Signs at Certain Stations—Report by Chief Engineer Recommending Approval—Approval Resolution—Requisition upon Board of Estimate and Apportionment for \$85 as City's Share—Work Order No. ICcA-6

An application was presented from the Interborough Rapid Transit Company dated August 16, 1923, requesting approval to the installation of additional station signs at the Jackson Avenue, Simpson Street, Freeman Street, 174th Street and 177th Street stations at an estimated cost of \$170.

A report was presented from the Chief Engineer dated August 21, 1923, stating that the additional signs are needed and recommending that a requisition be made upon

the Board of Estimate and Apportionment for the appropriation of \$85.00 as the City's share of the cost of the work, which report was endorsed by the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations, classifying the work as Construction of addition to Existing Railroads and assigning Work Order No. ICcA-6 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, and particularly Article LXX and LXXI, Frank Hedley, as President and General Manager of said Interborough Rapid Transit Company has by communication dated August 16, 1923, requested the approval of this Commission to the installation of additional standard enamelled station signs on the following stations of the Railroad and Existing Railroads as described in said Contract No. 3:

Station	Sign	Location
Jackson Avenue, Up	Two	Bet. station building and south end
Simpson Street, Up	One	At station building
Simpson Street, Down	One	At station building
Freeman Street, Up	One	At station building
Freeman Street, Down	One	At station building
174th Street, Up	One	At station building
174th Street, Down	One	At station building
177th Street, Up	One	At station building, north end

at an estimated cost of \$170; and

Whereas, By communication dated August 31, 1923, the Chief Engineer of this Commission has reported that the additional signs are needed; that the estimate is reasonable and recommends that said proposal be approved and that a requisition be made upon the Board of Estimate and Apportionment for the appropriation of the sum of eighty-five dollars (\$85), being one-half of the estimated cost of the nine signs; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have by endorsement dated September 5, 1923 recommended that the cost of such signs be classified as Construction of Additions to Existing Railroads and that Work Order No. ICcA-6 be assigned thereto; and

Whereas, Said Contract No. 3 provides in said Article LXX thereof that if the direction of this Commission with respect to the provision of Addition has reference to Construction the cost of complying therewith shall be shared equally by the City and by the Lessee; and

Whereas, Counsel has prepared and submitted a proposed requisition upon the Board of Estimate and Apportionment for the appropriation of one-half of said estimated cost for the performance of such work,

Resolved, That said reports and recommendations be and the same hereby are approved; that the proposal of Interborough Rapid Transit Company to install such additional standard enamelled signs at the points indicated be and the same hereby is approved, such work to be classified as Construction of Additions to Existing Railroads and as to which this Commission assigns Work Order No. ICcA-6 and that a requisition upon the Board of Estimate and Apportionment for the appropriation of eighty-five dollars (\$85) being one-half of the estimated cost of such work be transmitted to said Board in the form so submitted by Counsel.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

September 6, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and

Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company by communication dated August 16, 1923, has submitted for the approval of this Commission its proposal to install additional standard enamelled station signs on the following stations of the Railroad and Existing Railroads described in said Contract No. 3:

Station	Sign	Location
Jackson Avenue, Up	Two	Bet. station building and south end
Simpson Street, Up	One	At station building
Simpson Street, Down	One	At station building
Freeman Street, Up	One	At station building
Freeman Street, Down	One	At station building
174th Street, Up	One	At station building
174th Street, Down	One	At station building
177th Street, Up	One	At station building, north end

The Chief Engineer of this Commission in a communication dated August 31, 1923 has reported that the additional signs are necessary and has recommended that such proposal be approved and that a requisition for the appropriation of the sum of eighty-five dollars (\$85), being one-half of the estimated cost of such work be made.

The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations of this Commission have reported that such work is properly classifiable under and in accordance with the provisions of said Contract No. 3 as Construction of Additions to the Existing Railroads.

Article LXX of said Contract No. 3, provides in part as follows:

"Such construction or provision of Additions and such changes shall be made to the satisfaction of the Commission and, when necessary, under such forms of contracts, plans, specifications and directions as it may issue or approve. If the direction shall have reference to the Equipment or to operation the cost of complying therewith shall be borne by the Lessee. If the direction shall have reference to Construction the cost of complying therewith shall be shared equally by the City and by the Lessee (except in the case of Additions to the Extensions in which event the cost shall be borne wholly by the City) and the work necessary shall be done under the supervision and direction of the Commission and under contracts let by the Commission or directly by the Lessee as the Commission may elect."

The Transit Commission has accordingly approved such proposal of Interborough Rapid Transit Company to install such additional signs under the classification of Additions to Existing Railroads and inasmuch as the approval has reference to construction, one-half the cost thereof must be borne by the City.

Requisition is accordingly made upon your Honorable Board for the appropriation of the sum of eighty-five dollars (\$85), for the purposes of meeting the City's obligation in the performance of such work of construction of said addition, such requisition being a subrequisition under and not in addition to the requisitions heretofore made for the purposes of carrying out said Contract No. 3 and the appropriations made in accordance therewith.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1209—R. T. 6416

Routes Nos. 36 & 37—Report by Engineer of Equipment and Operation and Chief Engineer Recommending that Operating Companies Be Instructed to Enter Into Supplementary Agreement for Maintenance of Queens Structure—Approved

The Commission approved a report by the Engineer of Equipment and Operation and the Chief Engineer, dated September 5, 1923, recommending that the Interborough Rapid Transit Company, and the New York Rapid Transit Corporation be instructed

to enter into another supplementary agreement covering the maintenance of the Queens Elevated Structure between the west line of the Queens Plaza station and the points upon the Astoria and Corona Lines where dual operation begins, and that such agreement be submitted to the Commission for its approval within sixty days.

1210—R. T. 6698

Route No. 39, Section No. 2—Report by Real Estate Clerk as to Completion of Removal of Buildings at 1826-85th Street and 1845-86th Street and Recommendation for Return of Securities for Performance of Contracts—Approval Resolution

A report was presented from the Real Estate Clerk dated August 30, 1923, advising of the completion of the removal of the buildings at 1826-85th Street and 1845-86th Street, Borough of Brooklyn, to make way for the construction of the extension of New Utrecht Avenue between 81st Street and 86th Street, by Z. K. Berlin and M. Klotz and recommending the return of the securities deposited by the contractors for the faithful performance of the work.

The following resolution was adopted:

Whereas, The Commission by resolution dated June 13, 1923, authorized the Real Estate Clerk to advertise and sell at public auction on June 25, 1923, at 11:00 A. M., the buildings on the premises known as 1826-85th Street and 1845-86th Street, in the Borough of Brooklyn; and

Whereas, By resolution dated June 27, 1923, the Commission approved the bids of Z. K. Berlin and M. Klotz for the wrecking or removing of the said buildings, authorizing and directing the Secretary on its behalf to execute contracts with the said Z. K. Berlin and M. Klotz; and

Whereas, The Real Estate Clerk, under date of August 30, 1923, has reported that such contracts were executed and on the 30th day of June, 1923, duly delivered to the said Z. K. Berlin and M. Klotz, who were put in possession of the premises as of 12:00 o'clock noon on July 2, 1923, that the said Z. K. Berlin deposited \$100.00 as security for the faithful performance of his contract, that the said M. Klotz deposited \$25.00 as security for the faithful performance of his contract, that the said Z. K. Berlin and M. Klotz have fully performed their obligations under the said contracts and that thirty days have elapsed since the completion of said performance, recommending that the Real Estate Clerk be authorized to return the respective deposits to the said Z. K. Berlin and the said M. Klotz, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, authorize and direct the Real Estate Clerk to return the aforesaid respective deposits to the said Z. K. Berlin and the said M. Klotz, taking therefor the proper receipt.

1211—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Furnishing Conductor Cable—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated August 20, 1923, requesting approval of a proposed purchasing agent's order directed to the Kerite Insulated Wire and Cable Company for conductor cable for signal equipment to be installed in the Jerome Avenue Yard at a cost of \$4,769.02.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated August 31, 1923, recommending that the application be

approved, which report was endorsed by the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations classifying the work as Equipment of the Railroad and that any excess be charged to Operating Materials and Supplies Account.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company by communication dated August 20, 1923, has requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated August 20, 1923, directed to the Kerite Insulated Wire and Cable Company for the following:

"12,000 Ft. 5 conductor cable, each cond. to be No. 14 A. W. G. stranded copper wire, Kerite insulation, 5-64 inch tape and braid covered 1000 ft. to a reel. Price—\$186.96 per M. ft.....	\$2,243.52
10,000 Ft. No. 7, conductor cable each cond. to be No. 14 A. W. G. stranded copper wire, Kerite insulation, 5-64 inch wall, single braid on conductor tape and braid covered, one wire for marker, 1000 ft. to a reel. Price—\$252.55 per M. ft.....	2,525.50
Total	\$4,769.02"

which proposed purchasing agent's order has been caused to be designated "Approval No. 500;" and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated August 31, 1923, have reported that the wire is necessary as a part of the initial signal equipment to be installed in the Jerome Avenue Yard of the Railroad as defined in said Contract No. 3; that no other bids were taken since the company uses only Kerite insulation; that the prices are reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations by endorsement dated September 4, 1923, have recommended that the cost of such material to the extent necessary for original installation be classified as Equipment of the Railroad and that any excess be charged to Operating Materials and Supplies Account,

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved, and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of the material so to be purchased insofar as it is necessary for original installation to be charged as Equipment of the Railroad and any excess is to be charged to Operating Materials and Supplies Account.

1212—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation, for Approval of Installation of Two Shelters for Employees on Manhattan Bridge—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated August 4, 1923, requesting approval to the installation of two galvanized iron shelters to be installed on the Manhattan Bridge, for the use of employees stationed at the bridge approaches.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer, dated August 22, 1923, stating that the estimated cost of the

work is \$200; that the shelters are desirable; and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment for the Railroad, and assigning Work Order No. MBA-28 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation successor as to the rights and obligations under said Contract No. 4, has by communication dated August 4, 1923, requested the approval of this Commission to the provision and installation of two galvanized iron shelters each 4 feet by 5 feet, on the Manhattan Bridge, one at engineer's station mark 214+65 approximately on the Manhattan side and the other at station 271+00 approximately on the Brooklyn side; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated August 22, 1923, reported that such shelters are to be placed close to the fence between the northerly pair of subway tracks; they are to provide shelter in inclement weather for maintenance men who are stationed on the bridge approaches during rush hours to minimize delays due to equipment troubles; that the estimated cost of the work is \$200, which is reasonable; that such shelters are desirable from an operating standpoint and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 28, 1923, has recommended that the cost of such work be classified as Additional Equipment for the Railroad and that Work Order No. MBA-28 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said application of New York Rapid Transit Corporation aforesaid be and the same hereby is approved, the cost of such work to be classified as Additional Equipment for the Railroad and as to which this Commission assigns Work Order No. MBA-28.

1213—R. T. 6668, 6695

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Installation of Ten Time Release Contactors on Signal Levers in Eight Interlocking Stations—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated July 21, 1923, requesting approval to the installation of ten time release contactors on signal levers in the interlocking towers at eight stations at a total estimated cost of \$555.00.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated August 29, 1923, stating that the device is a safety measure and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations classifying the work and assigning Work Order Nos. MBA-29, MCA-28 and MDA-2 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation as successor to the rights and obligations under said Contract No. 4, has by communication dated July 21, 1923 requested the approval of this Commission to the installation of ten time release contactors on signal levers in the interlocking

towers at eight locations on the lines described in said Contract No. 4 at a total estimated cost of \$555.00; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated August 29, 1923, reported that the following are the locations for the installation proposed:

Tower	Line	Lever No.
57th Street	Broadway Subway	8
Bay Parkway	New Utrecht	5 and 20
Coney Island Creek.....	Coney Island Terminal.....	48
Stillwell Ave.	Coney Island Terminal.....	32
Brighton Beach	Coney Island Terminal.....	7
King's Highway	Culver	6
Prospect Park	Brighton Beach	24 and 25
Tower No. 3.....	East New York.....	34

that the contactors are devices which operate to delay the movement of the signal lever for a period of a few seconds, so that, after a stop signal has been displayed, a definite time must elapse before the route protected by the signal can be changed; that the installation of such device is justifiable as a safety measure; that the estimated cost of \$555.00 per contactor is reasonable and recommend the approval of such proposal; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have, by endorsement dated August 31, 1923, recommended that the cost under such proposal be classified and that Work Order Nos. be assigned as follows:

"Additional Equipment for the Railroad—Work Order Number MBA-29		
57th St. Broadway Subway.....	}	\$220.00
Bay Parkway—New Utrecht Ave. Line.....		
Kings Highway—Culver Line.....		
Additions to Existing Railroads—Work Order Number MCA-28		
Coney Island Creek—Coney Island Terminal.....	}	275.00
Stillwell Avenue—Coney Island Terminal.....		
Brighton Beach—Coney Island Terminal.....		
Prospect Park—Brighton Beach Line.....		
Additions to Additional Tracks—Work Order Number MDA-2		
Tower No. 3, East New York		55.00

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposals of New York Rapid Transit Corporation aforesaid, be and the same hereby are approved upon condition that the cost thereof be classified as indicated in the foregoing recommendation of the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations and that this Commission assigns to the respective groups of such work the Work Order Numbers indicated in said foregoing recommendation.

1214—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Remote Control Circuit Breakers for 14th Street—Eastern Line and Broadway Elevated Line—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated August 15, 1923, requesting approval of a proposed purchasing agent's order directed to Cutter Electric and Mfg. Co., for furnishing remote control circuit breakers for the 14th Street—Eastern Line and the Broadway Elevated Line, at a cost of \$16,488.00.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer, dated August 25, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the

work as a Replacement to be performed under work order No. MCR-8 heretofore assigned, and as Equipment under Contract No. 4.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation as successor to the rights and obligations under said Contract No. 4 has, by communication dated August 15, 1923, requested the approval of this Commission to the issuance of a proposed purchasing agent's order dated August 14, 1923, directed to Cutter Electric and Mfg. Co. for the following:

28	3000—Amp. Remote Control Circuit Breakers.....	\$594.00 Each
2	6000—Amp. Remote Control Circuit Breakers.....	844.00 Each

Both less 10% 30 days from date of delivery.

F. O. B. 40th St. Station So. Brooklyn Ry.

All in accordance with attached specifications dated June 23rd, 1923.

For 14th Street-Eastern and Broadway 'L.'

which proposed purchasing agent's order has been caused to be designated as "Approval No. 368"; and

Whereas, By resolution adopted October 10, 1922 this Commission, pursuant to the provisions of said Contract No. 4 approved of the installation of additional feeder system on the Broadway Line of the Existing Railroads as a Replacement and to which this Commission assigned Work Order No. MCR-8; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission, have, by communication dated August 25, 1923, reported the following bids were received for such work:

Cutter Electric & Mfg. Co.....	\$16,488.00
Westinghouse Electric & Mfg. Co.....	16,685.00
A. & J. M. Anderson Mfg. Co.....	16,910.00
General Electric Co.....	22,250.00

that the prices are the best obtainable and are reasonable; that the form of the order and specifications are satisfactory from an engineering standpoint, that the circuit breakers are necessary as part of the approved system of power supply to the railroad, as described in said Contract No. 4; that twelve 3,000 ampere circuit breakers costing \$6,415.20 are required in connection with such installation on the Broadway Elevated Line under Work Order No. MCR-8 assigned on October 10, 1922 as aforesaid and that the remaining eighteen circuit breakers costing \$10,072.80 are required as a part of Equipment of the Fourteenth Street Eastern Line of the Railroad, as defined in said Contract No. 4 and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 31, 1923, has recommended that the cost of such breakers be classified as follows:

12 circuit breakers (\$6,415.20) for the feeder equipment of the Broadway Elevated Line, Replacement, under Work Order Number MCR-8 heretofore assigned,

18 circuit breakers (\$10,072.80) for equipment of the 14th St.-Eastern Line, Equipment of the Railroad.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such approval being upon condition that twelve of the circuit breakers shall be classified as a Replacement under Work Order No. MCR-8 assigned as aforesaid and that eighteen of the circuit breakers shall be classified as Equipment of the railroad as defined in said Contract No. 4.

1215—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Installation of Drainage Equipment for Fourteenth Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated August 24, 1923, requesting approval of a proposed purchasing agent's order directed to

the Wagner Engineering Company, Inc., for the installation of drainage equipment for the Fourteenth Street-Eastern Line at a revised figure of \$46,244.25.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated August 31, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has by communication dated August 24, 1923, submitted for the approval of this Commission a proposed purchasing agent's order dated August 23, 1923, directed to Wagner Engineering Company, Inc., for the following:

"Furnish labor, material (except such items of material as will be furnished you by the Company) etc., for installing complete, ready for operation, emergency and seepage pumps, motors, controllers, conduit and wiring intake and discharge lines, valves and fittings, concrete and structural steel foundations and platforms for pumps and motors, and all other incidental work and materials necessary to complete the installation of drainage equipment at the following locations in the 14th Street-Eastern Line, as indicated upon our Drawings C-6125, C-6126, C-6133, C-6135, C-6137, C-6138, C-6165, C-6166, C-6167, A-1763, A-1764-2, A-1200, and as called for in our specifications dated July 14th, 1923 as per details on sheet attached forming part of this order."

which proposed purchasing agent's order has been caused to be designated as "Approval No. 369"; and

Whereas, By communication dated August 31, 1923, the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that such work involves the installation of drainage equipment for the 14th Street-Eastern Line of the Railroad as described in said Contract No. 4; that the following bids were received for such work:

"Wagner Engineering Co., Inc., Original Bid.....	\$45,900.00
Wagner Engineering Co., Inc., Revised Bid.....	46,244.25
Ranson and Anderson	49,950.00
V. S. Rittenhouse	50,422.00
Sanitary Mechanical	94,467.00"

that the bid of \$46,244.25 is reasonable; that the work is necessary as part of original Equipment of the Railroad under said Contract No. 4; that the form of order and specifications are satisfactory and recommend the approval of said proposed purchasing agent's order at the revised bid of \$46,244.25; and

Whereas, The Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations by endorsement dated September 4, 1923, have recommended that such work be classified as Equipment of the Railroad as defined in said Contract No. 4,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order together with the specifications made part thereof be and the same hereby are approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order; the cost of such work to be classified as Equipment of the Railroad as defined in said Contract No. 4.

1216—R. T. 6555

Route No. 52, Section No. 3—Resolution Approving Proposed Lease for Premises on North Side of Amity Street, Borough of Queens, For Storage of Steel—Adopted

The following resolution was adopted:

Resolved, That the proposed lease dated August 21, 1923 between the Oakdale Contracting Company, Inc. and The City of New York, acting by this Commission leasing

certain premises on the north side of Amity Street, Borough of Queens, City of New York for an indefinite period revocable upon thirty days' notice by either party and for the nominal rental of one dollar for the purpose of storing steel in connection with the construction of Section No. 3 of Route No. 52 be and the same hereby is approved and adopted and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed lease.

1217—Cases 1264, 1380

The Long Island Railroad Company—Alteration of Grade Crossings at Hempstead and Jamaica Turnpike, Bennett or Baylis Avenue, Wertland Avenue, Creed Avenue and Madison Avenue, Borough of Queens—Report and Opinion Approved—Resolution Authorizing Certificate of Partial Performance of Work and Payment on Account Adopted—Certificate Executed

The Secretary presented a Report and Opinion in Cases Nos. 1264 and 1380, dated August 22, 1923, by Carleton S. Cooke, Assistant Counsel, recommending that the Commission adopt a resolution authorizing the execution of a certificate of partial performance of work and payment on account to The Long Island Railroad Company by The City of New York and State of New York of \$70,000 each.

Thereupon the Commission approved the above mentioned Report and Opinion in Cases Nos. 1264 and 1380, and adopted and ordered filed a Resolution therein in the following form:

Present:

GEORGE McANENY, Chairman,	} Commissioners.
LE ROY T. HARKNESS.	

IN THE MATTER
of the

Hearing on the motion of the Commission on the question of alterations and changes in the following grade crossing with the tracks of THE LONG ISLAND RAILROAD COMPANY.

Hempstead and Jamaica Turnpike.

CASE No. 1264.

RESOLUTION AUTHORIZING
CERTIFICATE OF
PARTIAL PERFORMANCE
OF WORK AND PAYMENT
ON ACCOUNT.

IN THE MATTER
of the

Hearing on motion of the Commission on the question of alterations and changes in the following grade crossings with the Tracks of THE LONG ISLAND RAILROAD COMPANY.

Bennett or Baylis Avenue
Wertland Avenue
Creed Avenue
Madison Avenue.

CASE No. 1380.

Whereas, A final order and determination herein was made by the Public Service Commission for the First District on December 8th, 1911, and modified by the Order of the Transit Commission on December 7th, 1922, determining the manner in which the following grade crossings with the tracks of The Long Island Railroad Company should be altered or changed; Hempstead and Jamaica Turnpike, Bennett or Baylis Avenue, Wertland Avenue, Creed Avenue, Madison Avenue; and

Whereas, The Long Island Railroad Company has proceeded with the work of altering or changing said grade crossings substantially as required by said order and determination, and has made substantial progress in such work; and

Whereas, Said Long Island Railroad Company has submitted a verified intermediate or partial statement or account to the Commission showing certain expenditures by it in and about the work of carrying out the provisions of said order and determination; and

Whereas, After a hearing on partial accounting duly held on August 15th, 1923, before Carleton S. Cooke, Assistant Counsel to the Commission, designated and certified to conduct the hearing herein by resolution of the Commission, dated July 31, 1923, pursuant to Sections 8 and 11 of the Public Service Commission Law, the Commission after reading and filing the report and opinion, dated August 22, 1923, of said Assistant Counsel, is of the opinion that The Long Island Railroad Company has expended at least the sum of \$338,123.23 on account of the necessary work of carrying out the provisions of said order and determination aforesaid, provided, however, that the rights of the Commission and of The City of New York to object to or contest any of the items or expenditures in said partial accounting be reserved without prejudice to object to or contest any of such items or expenditures upon future partial or final accountings herein, and that no party shall upon future partial or final accountings herein be precluded from contesting any expenditures made or hereafter to be made during the entire performance of the work necessary to comply with said order as modified aforesaid;

Now, Therefore, It is

Resolved, That the Chairman and Secretary of the Commission be and they are hereby authorized to execute and file with the Comptroller of the State of New York, a certificate in the form attached hereto and made a part hereof, that work to the extent of at least \$338,123.23 has been properly performed by The Long Island Railroad Company on account of the necessary work of carrying out the provisions of said order and determination, subject to the proviso aforesaid.

Further Resolved, That pursuant to the provisions of the Railroad Law payment by the State of New York to The Long Island Railroad Company of \$70,000 being a proper and conservative payment on account of the balance due or to become due from the State of New York to The Long Island Railroad Company as its share of the cost of said work, is hereby directed;

Further Resolved, That pursuant to the provisions of the Railroad Law, payment by The City of New York to The Long Island Railroad Company of \$70,000 being a proper and conservative payment on account of the balance due or to become due from The City of New York to The Long Island Railroad Company as its share of the cost of said work, is hereby directed.

BY THE COMMISSION,
JAMES B. WALKER,
Secretary.

1218—Case 2662

Interborough Rapid Transit Company—Application for Approval of Issue of Gold Notes—Resolution Nominating Herman A. Metz, Director, Adopted

The Secretary presented a letter, dated August 24, 1923, from Stephen A. Van Ness, reading as follows:

VOTING TRUSTEES FOR STOCK OF
INTERBOROUGH RAPID TRANSIT COMPANY

Under Voting Trust Agreement dated as of October 1, 1922.

GRAYSON M.-P. MURPHY, Chairman,
FRANK L. POLK,
GUY E. TRIPP,
Voting Trustees.

STEPHEN A. VAN NESS, Secretary,
52 William Street.

New York, August 24, 1923.

Dear Sir:

I am instructed by the above named Voting Trustees to call to the attention of the Transit Commission the fact that a nomination by it of the successor to Mr. Herman

A. Metz as a director of Interborough Rapid Transit Company is, by the terms of the Voting Trust Agreement, required to be certified to the Voting Trustees not later than September 19, 1923. Will you kindly bring this matter to the attention of the Commission.

This certification should be accomplished by delivering to me as Secretary of said Voting Trustees on or before said date a certified copy of the order or resolution of the Transit Commission making such nomination.

Very truly yours,
STEPHEN A. VAN NESS.

JAMES B. WALKER, Esq.,
Secretary,
TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Thereupon the Commission adopted and ordered filed in Case No. 2662, a resolution in the following form:

Whereas, Under Voting Trust Agreement dated as of October 1, 1922 of the Voting Trustees of Stock of the Interborough Rapid Transit Company, the nomination by the Transit Commission of a successor to Herman A. Metz, as a director of the Interborough Rapid Transit Company, is by the terms of said Agreement, required to be certified to the Voting Trustees not later than September 19, 1923; and

Whereas, A communication dated August 24, 1923, has been received from Stephen A. Van Ness, Secretary of said Voting Trustees requesting a certification of such successor.

Resolved, In consideration of the premises, the Transit Commission hereby nominates as a Director and as a representative of the public of The City of New York, upon the Board of Directors of the Interborough Rapid Transit Company to succeed the said Herman A. Metz at the expiration of his term, the following:

Herman A. Metz, 38 West 74th Stret, Borough of Manhattan, New York City, for a term ending September, 1926.

Further Resolved, That the Secretary of the Transit Commission be and he hereby is authorized to notify said Herman A. Metz of his nomination and to advise the Interborough Rapid Transit Company and the Voting Trustees for stock of said company of said nomination.

1219—Case 2631

The Brooklyn City Railroad Company—Application of City of New York for Order Directing Company to Relocate Its Tracks in Fresh Pond Road, Borough of Queens—Resolution of Board of Estimate and Apportionment Relative to Apportionment of Cost Filed

The Secretary presented a communication, dated August 24, 1923, from James Matthews, Assistant Secretary, Board of Estimate and Apportionment, transmitting a certified copy of a resolution, adopted by said Board on August 17, 1923, reading as follows:

(Cal. No. 69)

Whereas, The Board of Estimate and Apportionment on March 10, 1922, adopted a resolution making application to the Transit Commission, pursuant to chapter 699 of the Laws of 1921, for an order directing the Brooklyn City Railroad Company (Brooklyn Heights Railroad Company, Lessee), to change the location of its tracks in Fresh Pond road between Woodbine street and Mount Olivet avenue, Borough of Queens, from their present location to the centre of said Fresh Pond road, and to determine the manner in which the cost and expense of such relocation of such railroad tracks should be imposed and borne, in order to provide for the improvement of said Fresh Pond road between said limits as authorized by the Board of Estimate and Apportionment on April 28, 1916; and

Whereas, Pursuant to said application, the Transit Commission by an order duly adopted on May 11, 1922, directed the Brooklyn City Railroad Company to change the location of its railroad tracks in Fresh Pond road between Woodbine street and Mount

Olivet avenue, in the Borough of Queens, from their present location to the centre of said Fresh Pond road, and provided that The City of New York should pay the estimated cost of removing the old tracks, changing the wires and poles and also the determined value of the unexpired life of such old tracks, amounting in the aggregate to \$11,420, subject to final adjustment; and

Whereas, The Transit Commission by an order duly adopted on October 20, 1922, abrogated said order, dated May 11, 1922, and determined that the cost and expense of the relocation of said tracks would be \$24,000, which sum should be borne equally between the Brooklyn City Railroad Company and The City of New York, and further directed that the payment of the share of such cost and expense to be borne and paid by The City of New York, namely \$12,000, should be paid by said City to the Brooklyn City Railroad Company before the latter should be required to commence the work of said relocation; and

Whereas, The Transit Commission by an order duly adopted on August 7, 1923, abrogated said order of October 20, 1922, and determined that the cost and expense of the relocation of said tracks, estimated at \$24,000, which sum should be advanced and paid in the first instance by the Brooklyn City Railroad Company, should be borne in the amount of 50 per cent. each by the Brooklyn City Railroad Company and The City of New York, and further directed that the payment of the share of such cost and expense to be borne by The City of New York, which in no event shall be in excess of \$12,000, should be paid by the City to the Brooklyn City Railroad Company after an accounting before the Transit Commission between the City and the Brooklyn City Railroad Company, as to the amount actually and necessarily expended for the relocation of the said tracks; and further be it

Resolved, That the Board of Estimate and Apportionment, without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void, hereby accepts the terms of the Order of the Transit Commission duly adopted on August 7, 1923, directing the Brooklyn City Railroad Company to change the location of its tracks in Fresh Pond road between Woodbine street and Mount Olivet avenue in the Borough of Queens, and agrees that The City of New York will pay 50 per cent. of the cost and expense of the said work, after the work has been completed and an accounting had before the Transit Commission between the City and the Brooklyn City Railroad Company, the share of the cost and expense to be borne by the City not to exceed \$12,000.

A true copy of resolution adopted by the Board of Estimate and Apportionment, August 24, 1923.

JAMES MATTHEWS,
Assistant Secretary.

Thereupon the above mentioned papers were ordered filed in Case No. 2631.

1220—R. T. 7591

Route No. 70-A-1—Certified Copy of Resolution of Board of Estimate and Apportionment and Approval by Mayor Consenting to Construction of North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on August 17, 1923, and approved by the Mayor on August 23, 1923, was ordered filed:

Whereas, The Transit Commission has duly determined upon a route or routes and general plan of construction of a rapid transit railway for the conveyance of persons and property, to be established in the City of New York in addition to the already existing lines, and did, by resolution adopted July 31, 1923, adopt such route or routes and general plan, being more particularly known as North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route; and

Whereas, Thereafter said Transit Commission did transmit to the Board of Estimate and Apportionment of the City of New York a copy of such plans and conclusions for such route or routes as adopted, which plans and conclusions were received by the Board of Estimate and Apportionment on the 3rd day of August, 1923, at a meeting of said Board of Estimate and Apportionment duly held on said day; and

Whereas, Said Board of Estimate and Apportionment, by a resolution duly adopted at said meeting, did appoint a date not less than one week nor more than ten days after the receipt thereof for the consideration of such plans and conclusions—to wit, the 10th day of August, 1923, at 10:30 o'clock A. M., and continued said consideration until August 17, 1923, when said consideration was concluded; and

Whereas, The plans and conclusions are fully set forth in the resolution adopted by the Transit Commission July 31, 1923, which resolutions are as follows:

Resolutions adopted by the Transit Commission July 31, 1923.

NORTH JANE STREET, JACKSON AVENUE, NEWTOWN CREEK AND MANHATTAN AVENUE ROUTE.

(Route No. 70-A-1)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE.

A route lying wholly within the Boroughs of Queens and Brooklyn, the center line of which shall begin at a point in the Borough of Queens at or near the intersection of Vernon Avenue and North Jane Street, where a connection can conveniently be made with the existing rapid transit railroad; thence extending easterly along and under North Jane Street and/or along, under and across Queensboro Bridge right-of-way and intervening streets to a point in North Jane Street and/or Queensboro Bridge right-of-way at or near Prospect Street; thence curving southwesterly across and under Queensboro Bridge right-of-way, South Jane Street, Hunter Avenue and private property to a point in Jackson Avenue at or near Henry Street; thence southwesterly along and under Jackson Avenue to a point at or near Vernon Avenue; thence southerly along and under Vernon Avenue to Newtown Creek; thence under Newtown Creek to Manhattan Avenue in the Borough of Brooklyn; thence southerly along and under Manhattan Avenue to a point at or near Clay Street where a connection can conveniently be made with other proposed rapid transit railroads.

GENERAL PLAN OF CONSTRUCTION.

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by surface or subsurface structures or other special or local necessities, and at stations and curves and for the purpose of avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be practicable except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches and, if necessary, for the pur-

pose of tunneling by the shield method, the tracks or any one or more of them may be diverted as far as necessary to either side of both sides of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, unless it shall be necessary to tunnel by the shield method, in which event the tracks may be placed in tubes which shall not exceed twenty (20) feet outside diameter; except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear or such diameter may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, unless it shall be necessary to tunnel by the shield method, in which event the tracks may be placed in tubes not exceeding twenty (20) feet outside diameter, as aforesaid; except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width or diameter may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks may be placed in the same subway or tunnel, or there may be separate subways or tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half (8½) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional track for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of railway.

Station and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction of the route shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission in cases of necessity and for such times as may be necessary permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION.

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors

or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS.

The word "street" wherever used herein shall include an avenue or public place. The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAP OR DRAWING.

It Is Further Resolved, That the map or drawing entitled "State of New York Transit Commission, Engineering Department, Route & General Plan, Route No. 70-A-1, North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route, Boroughs of Queens and Brooklyn," dated July 25, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

TRANSIT COMMISSION,

By JAMES B. WALKER,
Secretary.

July 31, 1923.

Now, Therefore, Be It Resolved, That the Board of Estimate and Apportionment of the City of New York, by a majority vote, according to the number of votes by law pertaining to each member of the Board, hereby approves such plans and conclusions and consents to the construction of a railway or railways in accordance therewith.

A true copy of resolution adopted by the Board of Estimate and Apportionment August 17, 1923.

PETER J. MCGOWAN,
Secretary.

The foregoing resolution is hereby approved.

JOHN F. HYLAN,
Mayor.

Dated, New York, August 23, 1923.

1221—R. T. 6334

Contract No. 1—Communication from Acting Corporation Counsel Returning, Approved as to Form, Proposed Agreement with Interborough Rapid Transit Company for Construction of Additional Entrance to Dyckman Street Station—Filed

The Commission ordered filed a communication dated August 22, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning, approved as to form, a proposed agreement with the Interborough Rapid Transit Company for the construction of an additional entrance to the Dyckman Street Station of the Manhattan-Bronx Rapid Transit Railroad.

1222—R. T. 7177

Route No. 52—Report by Chief Engineer as to Commencement of Work for Removal of Ash Fill from Site of Proposed Corona Yard—Filed

The Commission ordered filed the following report:

September 4, 1923.

To the TRANSIT COMMISSION:

Route No. 52—Removal of ash fill on site of Corona Yard.

At its meeting of June 29th, 1923, the Board of Estimate and Apportionment failed to approve the requisition of the Commission for the purchase from the Queens Sub-

way Apartment and Loft Building Corporation, at 30c per cu. yd. of the ash fill on the site of the proposed Corona Yard, but advised the Commission that the Board would "give favorable consideration to a proposition providing for the purchase of that portion of the stored material which is actually required for the construction of the Corona Yard up to a maximum of 250,000 cubic yards measured in place at a price not to exceed 10c per cu. yd. provided such offer is accepted by the owners of said material before July 13, 1923, and that in case the present owners are not prepared to accept payment on these terms, the Transit Commission immediately notify them to remove from the City property within the time limit fixed by the court such portion of the fill as, under the terms of the court decree, belongs to them, * * *

On July 3rd, and again on July 24th, the Secretary advised the Queens Subway Apartment and Loft Building Corporation of this action of the Board, and asked if it would be willing to accept the price of 10c per cu. yd. suggested by the Board, instructing the Corporation that in case it would not accept this price, to proceed immediately to remove the fill. On July 31st, the Corporation replied stating "we emphatically decline to accept the price suggested by the Chief Engineer of the Board of Estimate and Apportionment, and recommended by said Board," that is the price of 10c per cu. yd., and further stated that it would proceed at once to remove the fill.

This is to report that the Corporation actually started removing the fill from the site of the proposed Yard on August 15, 1923. One steam shovel is employed thus far.

When the ash fill is removed, it will be necessary to replace it with an equivalent fill of ashes or earth, and a contract will be prepared at the proper time to cover this work. At least six months time should be allowed for the work included in such a contract, and my investigations indicate that the cost per cu. yd. of replacing the fill will be very much in excess of 30c.

ROBT. RIDGWAY,
Chief Engineer.

1223

Employees' Calendar No. 162

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment—William H. Eberhardt, draftsman, at \$150.08 per month, to take effect September 4, 1923.

Appointments under Rule VIII:4—Charles C. Duffy, junior assistant, at \$125.08 per month, to take effect September 4, 1923; William S. Fanning, architectural draftsman, at \$150.08 per month, to take effect August 29, 1923; Samuel Fox, draftsman, at \$150.08 per month, to take effect September 5, 1923; Henry L. Rossire, draftsman, at \$150.08 per month, to take effect September 4, 1923; Emmett J. Scott, Jr., draftsman, at \$150.08 per month, to take effect September 4, 1923.

Reinstatement under Rule XVI:1—Martin C. Hunt, engineering inspector, at \$150.08 per month, to take effect August 22, 1923.

Resignations—Maurice Barrat, junior assistant, at \$125.08 per month, to take effect August 25, 1923; Joseph F. Daley, junior clerk, at \$60.00 per month, to take effect August 31, 1923; Edna Holmgren, stenographer, at \$90.00 per month, to take effect September 1, 1923; James Kaufman, junior clerk, at \$60.00 per month, to take effect September 8, 1923; Ellis Metzner, junior assistant, at \$125.08 per month, to take effect August 24, 1923; John J. Rooney, junior clerk, at \$60.00 per month, to take effect September 4, 1923; George M. Remsen, draftsman, at \$150.08 per month, to take effect August 31, 1923; Milton Sokolow, junior assistant, at \$125.08 per month, to take effect September 4, 1923; Dominic C. Spinelli, stenographer, at \$100.00 per month, to take effect September 24, 1923; Albert W. Scrivens, junior assistant, at \$125.08 per month, to take effect August 25, 1923.

Transferred to Office of Public Welfare Dept.—Irving Miller, junior accountant, at \$137.50 per month, to take effect September 1, 1923.

Change of Item in Resolution of August 7, concerning George I. King so as to read as follows: (Appointment)—George I. King, draftsman, at \$150.08 per month, to take effect July 31, 1923.

Change of Item in Resolution of August 20, concerning James L. McCarthy so as to read as follows: (Resignation)—James L. McCarthy, supervising transit inspector, at \$187.50 per month, to take effect August 15, 1923.

Leave of Absence with Pay—Rocco M. Carbone, stenographer, from August 25, 1923, to August 31, 1923.

Death—Charles P. Madden, assistant engineer, at \$266.66 per month, August 10, 1923.

Promotion—George H. Stover, assistant counsel, from \$500.00 per month to \$625 per month, to take effect September 1, 1923.

1224

Employees' Calendar No. 163

On motion, duly seconded, the following resolution was unanimously adopted:
Resolved, That this Commission takes the following action with reference to employees:

Promotion—James A. Walsh, secretary to Commissioner, from \$300.00 per month to \$350.00 per month, to take effect September 1, 1923.

1225

Voucher Schedule No. 36

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 824-848, open market orders, \$1,745.30; Vouchers Nos. 441-451, miscellaneous bills, \$3,195.00; Voucher No. 21, Special Payroll, \$700.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 229; Holbrook, Cabot & Rollins Corporation; approximate estimate No. 15, for the construction of a new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad, from August 1, 1923, to August 31, 1923 (R. T. 6114) \$9,051.15;

Voucher No. 227; Station Finish Corporation, Assignee; approximate estimate No. 13 for the construction of station finish on Sections Nos. 3, 4 and 5 of Route No. 8, from August 1, 1923 to August 31, 1923 (R. T. 7516) \$8,476.33;

Voucher No. 230; Michael Del Balso; approximate estimate No. 8 for the installation of tracks including furnishing part of the track materials and construction of drainage system and concrete inspection pits, for a portion of the White Plains Road Line, 239th Street Yard, from August 1, 1923 to August 31, 1923 (R. T. 7528) \$19,664.15.

1226

Upon motion duly seconded and adopted, the meeting was adjourned to Friday, September 7, 1923.

1227

Hearings

The following hearings were held:

11 A. M.; R. T. 4007; Lengthening of platforms at local stations, Contract No. 1, Chairman McAneny and Commissioner Harkness presided. Adjourned to September 20, 1923 at 11 A. M.

2:30 P. M.; Case No. 2695; Interborough Rapid Transit Company: Hearing on proposed reconstruction of 33rd Street station of the East Side Subway from local to express stop. Chairman McAneny and Commissioner O'Ryan presided. Adjourned subject to call.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, September 7, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1228—R. T. 7431

Fourth Avenue Subway—Report by Chief Engineer Recommending Extension of Platforms at DeKalb Avenue, Myrtle Avenue and Pacific Street Stations and That Requisition Be Made upon Board of Estimate and Apportionment for Appropriation of \$282,000—Approval Resolution—Requisition upon Board of Estimate and Apportionment—Work Orders Nos. MAA-5 and MBA-30.

A report was presented from the Chief Engineer dated September 5, 1923 recommending the extension of the platforms of the DeKalb Avenue, Myrtle Avenue and Pacific Street stations of the Fourth Avenue Subway, and that the work be performed by the New York Rapid Transit Corporation as Additions to Construction and Additional Equipment under Contract No. 4, and that a requisition be made upon the Board of Estimate and Apportionment for an appropriation of \$282,000, which report was endorsed by the Auditor of Rapid Transit Costs, assigning Work Order No. MAA-5 to such portion of the work as is properly classifiable as Additions to Construction, and assigning Work Order No. MBA-30 to such portion as is properly classifiable as Additional Equipment.

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission by communication dated September 5, 1923 reports that the increase of traffic on the Railroad described in the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, necessitates the lengthening of the platforms of the DeKalb Avenue Station at an estimated cost of \$140,000, the Myrtle Avenue Station at an estimated cost of \$56,000, and the Pacific Street Station at an estimated cost of \$86,000, of the Broadway-Fourth Avenue Line of the Railroad described in said Contract No. 4, and submits the following Contract Drawings entitled: "Broadway-Fourth Avenue Subway, Myrtle Avenue, DeKalb Avenue and Pacific Street Stations, Extension of Platforms, Contract Drawings Nos. C-1, C-2 to C-10 and F-1, F-2 to F-10" all dated September 6, 1923, signed by Robert Ridgway, Chief Engineer and recommends in view of the fact that the work of lengthening such stations will have to be done under operating conditions that the Commission direct the New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, to perform the work of lengthening the platforms of such stations as Additions to Construction together with such Additional Equipment as may be necessary as provided under and in accordance with the provisions of Articles LXVIII and LXIX of said Contract No. 4 and that a requisition be made upon the Board of Estimate and Apportionment of The City of New York for the appropriation of the estimated cost of such work; and

Whereas, Counsel has reported that such work may legally be directed to be performed as an Addition to Construction and as Additional Equipment by the Lessee as defined in said Contract No. 4 and that the total cost thereof is in accordance with the provisions of said Article LXVIII of said Contract wholly chargeable to The City of New York, in so far as it applies to Construction; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated September 6, 1923, has recommended that Work Order No. MAA-5 be assigned to such portion of such work as is properly classifiable as Additions to Construction and that Work Order No. MBA-30 be assigned to such portion of such work as is properly classifiable as Additional Equipment, all as defined and provided in said Contract No. 4.

Resolved, That said recommendations aforesaid be and the same hereby are approved; that the plans submitted as aforesaid showing the proposed lengthening of platforms of the said DeKalb Avenue, Myrtle Avenue and Pacific Street Stations of the Broadway-Fourth Avenue Line of the Railroad as described in said Contract No. 4 be and the same hereby are approved and adopted; that the New York Rapid Transit Corporation as successor to the rights and obligations under said Contract

No. 4 and as Lessee under the provisions thereof and particularly Article LXVIII thereof is hereby directed to perform, as Additions to Construction and Additional Equipment as the case may be under said Contract No. 4, the work of lengthening the platforms of said DeKalb Avenue, Myrtle Avenue and Pacific Street Stations of said Broadway-Fourth Avenue Line and as more particularly indicated on the said drawings entitled "Broadway-Fourth Avenue Subway, Myrtle Avenue, DeKalb Avenue and Pacific Street Stations—Extension of Platforms, Contract Drawings, C-1, C-2 to C-10 and F-1, F-2 to F-10," all dated September 6, 1923 and signed by Robert Ridgway, Chief Engineer, hereby approved, such work to be performed subject to the direction and approval of the Chief Engineer of this Commission; that this Commission assigns to such work as is properly classifiable as Additions to Construction in accordance with the provisions of said Contract No. 4, Work Order No. MAA-5 and assigns to such portion of such work as is properly classifiable as Additional Equipment as defined in said Contract No. 4, Work Order No. BMA-30; that requisition in the form now submitted by Counsel upon the Board of Estimate and Apportionment for the appropriation of the amount estimated to be necessary to meet the City's obligation in the performance of such work, in so far as it applies to Construction, be and the same hereby is approved and that it be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

September 7, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.
Gentlemen:

The contract dated March 19, 1923 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4, provides in Article LXVIII thereof that Additions may be ordered to be constructed or installed on the Railroad as defined in said contract and more particularly prescribes as follows:

"If the direction shall have reference to Equipment or operation or to the construction of Additions to the Existing Railroads the cost of complying therewith shall be borne by the Lessee. If the direction shall have reference to the construction of Additions to the Railroad the cost of complying therewith shall be borne by the City and the work necessary shall be done under the supervision and direction of the Commission and under contracts let by the Commission or directly by the Lessee as the Commission may elect. If the Lessee shall neglect or refuse to comply with such directions the Commission in addition to other remedies may cause such changes or Additions (other than Additions to the Railroad) to be made at the expense of the Lessee."

The Chief Engineer of this Commission, by communication dated September 5, 1923, has reported as follows:

"I send you herewith plans for the proposed lengthening of the following stations of the Broadway-Fourth Avenue Line of Contract No. 4, together with the estimated cost of lengthening set opposite the respective stations:

DeKalb Avenue Station.....	Amount \$140,000
Myrtle Avenue Station.....	56,000
Pacific Street Station.....	86,000
Total	\$282,000

As the work of lengthening these stations has to be done under operating conditions, it seems advisable that the work should be performed by the Operating Company.

Recommendation: I respectfully recommend that you approve of this work as an Addition under Contract No. 4 and that a requisition be made on the Board of Estimate and Apportionment for the appropriation of \$282,000 to cover this work to be charged to Contract No. 4."

This Commission has considered said report and has reached the conclusion that the changes therein recommended are desirable and has approved the same and has directed the New York Rapid Transit Corporation, as successor to the rights and

obligations under said Contract No. 4 to perform such work shown on the drawings referred to as an Addition to Construction as provided for in said Contract No. 4, such approval and direction being contained in a resolution adopted by this Commission on September 7, 1923, a certified copy of which is transmitted herewith.

Requisition is accordingly made upon your Honorable Board for an appropriation in the sum of Two hundred eighty-two thousand dollars (\$282,000) being the amount estimated to be necessary to meet the cost of performing the work of lengthening said DeKalb Avenue, Myrtle Avenue and Pacific Street Station platforms of the Broadway-Fourth Avenue Line, such requisition being a subrequisition under the authorizations heretofore made for the purpose of carrying out said Contract No. 4.

As the total cost of this work is, in accordance with the provisions of Contract No. 4, above quoted, borne solely by The City of New York, the work will not proceed until the appropriation therefor has been made.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1229—R. T. 7103

Contract No. 3—Report by Chief Engineer Advising of Request of Interborough Rapid Transit Company for Construction of Temporary Car Shed at Lenox Avenue and 148th Street Yard and Recommending that Company be Directed to Perform Work as Part of Contribution to Cost of Construction of Contract No. 3—Approval Resolution—Statement by Counsel

A report was presented from the Chief Engineer, dated September 5, 1923, advising of a request by the Interborough Rapid Transit Company for the construction of a temporary car shed at the Lenox Avenue and 148th Street Yard, so as to facilitate the inspection and repair of rolling stock and recommending that the Company be directed to perform the work as part of its contribution toward the cost of construction of Contract No. 3, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Construction of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, The City of New York in compliance with its obligations under said Contract No. 3 is constructing a railroad yard and shops and inspection sheds at 148th Street and Lenox Avenue in the Borough of Manhattan, City of New York, to form part of the Railroad as described in said Contract No. 3; and

Whereas, The Chief Engineer of this Commission by communication dated September 5, 1923 has reported that the Interborough Rapid Transit Company has requested the construction of a temporary shed as soon as possible to facilitate the inspection and repair of its rolling stock north of and contiguous to the original shed in said yard pending the construction of the complete facilities under said Contract No. 3; that the estimated cost of such temporary shed is \$22,000, and transmits a plan entitled, "Lenox Avenue Shops, Temporary Car Shed Contract Drawing No. C-1," dated August 28, 1923, signed by Robert Ridgway, Chief Engineer, with the recommendation that the request of Interborough Rapid Transit Company be approved and that said Company be directed to perform such work in accordance with the plan transmitted of constructing said temporary inspection and repair shop, the cost thereof to be charged to the contribution of said Interborough Rapid Transit Company to the Cost of Construction as more particularly provided for and defined in said Contract No. 3; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated September 6, 1923, concurs in the classification of such work as Construction of the Railroad as defined in said Contract No. 3,

Resolved, That said proposal and recommendation be and the same hereby are approved; that the Interborough Rapid Transit Company be and hereby is directed and

authorized to perform the work of constructing such temporary inspection and repair shed in 148th Street and Lenox Avenue Yard north of and contiguous to the original shed in said yard as more particularly indicated on the plan or drawing hereinbefore referred to and entitled "Lenox Avenue Shops, Temporary Car Shed Contract Drawing No. C-1," dated August 28, 1923, signed by Robert Ridgway, Chief Engineer, such work to be classified as Construction of Railroad and the cost thereof to be charged to the contribution of the Interborough Rapid Transit Company to the Cost of Construction under and in accordance with the provisions of said Contract No. 3.

The following statement was submitted by Counsel:

This matter was considered heretofore by the Commission, but in view of the unsettled condition of the exact amount of unexpended balance of the Interborough Company's contribution to the cost of construction under Contract No. 3 because of the difference between the reported costs and the determined costs and moreover in view of the fact that respective committees of the Interborough Rapid Transit Company and the Commission have been almost continuously, for over a period of one year, adjusting such difference, no action was taken.

There appears upon this calendar the stipulation effecting the agreement just recently reached and the Commission has taken the first opportunity of consummating this matter by formal action.

1230—R. T. 7267

Contract No. 3—Application by Interborough Rapid Transit Company for Extension of Fire Insurance on Steel Rolling Stock—Report by Acting Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated August 7, 1923, requesting an extension of insurance on steel rolling stock expiring on May 15, 1925, and January 2, 1928 for a term so as to make all such insurance expire on July 1, 1928.

A report was presented from the Acting Engineer of Equipment and Operation and the Chief Engineer dated August 28, 1923, stating that such extension will result in a saving of approximately \$1,300 and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the expense as an Operating Expense.

The following resolution was adopted, Commissioner Harkness not voting:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company by communication dated August 7, 1923, has requested the approval of this Commission to the extension of fire insurance expiring on May 15, 1925 and January 2, 1928, to the amount of \$11,345,000 on steel rolling stock under said Contract No. 3, for a term so as to make all such insurance expire July 1, 1928; and

Whereas, The Acting Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated August 24, 1923 report that the purpose of such extension is to obtain a reduction in the premium rate of 20 cents per 100 dollars for the unexpired period of the policies, which will result in a saving of approximately \$1,300; that such insurance also includes fire prevention and inspection service during the term of the policies without extra charge; that the amount of insurance is reasonable for the risk and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated August 28, 1923 has recommended that the expense of such insurance be classified as Operating Expense.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company dated August 7, 1923 and which has been caused to be designated "Approval No. 498" be and the same

hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of said proposal by this Commission made part of said proposal, it being understood that the cost of extending such insurance shall be classified as Operating Expense.

1231—R. T. 6567

Contract No. 3 and Certificates—Resolution Approving Report by Chief of Bureau of Accounting and Valuations, Auditor of Rapid Transit Costs and Assistant Counsel as Committee as to Agreement with Interborough Rapid Transit Company upon Various Objections and Disputed Items in Determinations of Cost to March 31, 1922—Adopted

The following resolution was adopted:

Whereas, The Chief Engineer of this Commission appointed a Committee of three, consisting of Assistant Chief of Accounts John E. Cooper, Auditor of Rapid Transit Costs Frederick Wilcock and Assistant Counsel William G. Fullen, to confer with a similar Committee appointed by the President of Interborough Rapid Transit Company to consider objections filed to the determinations of the said Chief Engineer under the contract dated March 19, 1913, between The City of New York and Interborough Rapid Transit Company, known as Contract No. 3, and the disputed items as to the costs under the certificates both dated March 19, 1913, one granted to the Manhattan Railway Company for additional tracks and the other granted to Interborough Rapid Transit Company for certain elevated extensions including therein the disputed items as to the cost of Manhattan Power Plant Improvement, and said Committees have met, conferred and agreed upon the various objections and disputed items as more particularly set forth in four separate stipulations approved simultaneously herewith, and the said Committee appointed by the said Chief Engineer, has rendered the following report:

August 28, 1923.

From: MESSRS. COOPER, WILCOCK AND FULLEN.

To: ROBERT RIDGWAY, Chief Engineer.

Reconsideration of Items Objected to in Contract No. 3 Determinations of Cost and of Questioned Items of Cost of the Manhattan Railroad Extensions and Additional Tracks

On July 28, 1922, you appointed Messrs. Cooper, Fullen and Wilcock, a committee, and requested Mr. Hedley to appoint a like committee for the following purposes:

(1) to discuss the several objections to the determinations under Contract No. 3 and the report of cost of Manhattan Railroad Extensions and Additional Tracks, and endeavor to arrive at a mutual understanding on the disputed items;

(2) to report the result of the discussions when completed;

(3) in the event that a mutual understanding is reached satisfactory to the parties, to prepare the necessary documents to establish the agreement.

Mr. Hedley appointed a committee consisting of Messrs. Berry, Norris and Mason. Mr. Watson took the place of Mr. Mason at the last few conferences.

Stipulations Are Submitted Reflecting the Agreement Reached between the Two Committees

Your committee has unanimously agreed with the Company committee on all of the disputed items, and herewith submits and recommends for approval by yourself and the Commission

FOUR STIPULATIONS

whereby agreement is expressed between the Interborough Rapid Transit Company and the Transit Commission and the Chief Engineer of the Transit Commission, on the costs of the following, to March 31, 1922:

(1) Construction and Equipment under Contract No. 3. The Commission and the Company agree to make no objection to a redetermination

rendered in accordance with this stipulation. The Chief Engineer agrees to render his redetermination in accordance with this stipulation.

(2) Manhattan Railroad Elevated Extensions.

(3) Manhattan Railroad Additional Tracks.

(4) Manhattan Power Plant improvements, reconstructions or changes, including replacements not due to wear and tear from operation; reserving to the Commission the right to object to a deduction from pooled revenues under the Extensions Certificate of interest on the cost of reconstructions or changes, including replacements not due to wear and tear from operation.

The Company committee reports that the stipulations as herewith submitted will be duly executed by the Company.

Total Costs to March 31, 1922, as Agreed to Between the Committees

The results, in total costs to March 31, 1922, of the agreement between the two committees, are the following:

	As Per Determination	As Agreed
City's Cost of Construction of The Railroad:		
Labor and materials.....	\$62,347,795.80	\$62,347,795.80
Real Estate	4,776,064.77	4,776,064.77
Superintendence	11,692,110.11	11,692,110.11
Interest	11,405,287.00	10,852,321.98
Total	\$90,221,257.68	\$89,668,292.66
City's Cost of Construction of Additions to the Railroad and Existing Railroads:		
Labor and materials.....	\$3,019.50	\$3,019.50
Superintendence	2,959.44	2,959.44
Total	\$5,978.94	\$5,978.94

	As Reported by the Company	As Per Determination	As Agreed
Company's Contribution to Cost of Construction of The Railroad:			
Labor and materials.....	\$40,671,133.74	\$40,662,408.51	\$40,662,472.11
Real estate	2,039,451.26	2,039,451.26	2,039,451.26
Debt discount	1,749,147.94	1,700,668.48	1,724,633.81
Superintendence	1,649,208.40	948,478.39	959,271.32
Taxes	294,587.53	294,587.53	294,587.53
Interest: (a) contributed to pay interest on City's funds.	677,953.15	677,953.15	677,953.15
(b) interest on Company's funds	11,223,450.46	10,365,401.95	11,129,424.61
Total	\$58,304,932.48	\$56,688,949.27	\$57,487,793.79
Cost of Construction of Additions to the Railroad and Existing Railroads:			
Labor and materials.....	\$8,577.07	\$8,577.07	\$8,577.07
Debt discount	193.61	193.61
Total	\$8,770.68	\$8,770.68	\$8,577.07

	As Reported by the Company	As Per Determination	As Agreed
Cost of Equipment Provided for Initial Operation:

Interest	2,819,977.78	2,819,977.78	2,819,977.78
Superintendence	2,303,955.44	2,238,383.77	2,546,816.32
Total	\$40,573,845.56	\$40,315,659.46	\$40,765,884.13

NOTE—Reservations made in respect of certain elements of the agreed costs are explained elsewhere in this report.

Schedules of Items Adjusted, and Tabulations of the Results

Appended hereto are six schedules wherein is listed each item which has been adjusted by agreement between the two committees, including a short statement explanatory of each item and of the disposition of the same as follows:

Schedule 1—Company Contribution to Construction of the Railroad, Contract No. 3 as at March 31, 1922—Items adjusted by the committees, with note as to resulting adjustment of City's cost.

Schedule 2—Cost of Equipment Provided for Initial Operation, Contract No. 3 as at March 31, 1922—Items adjusted by the committees.

Schedule 3—Cost of Equipment provided after Initial Operation, Contract No. 3 as at March 31, 1922—Items adjusted by the committees.

Schedule 4—Cost of Additional Tracks as at March 31, 1922—Items adjusted by the committees.

Schedule 5—Cost of Elevated Extensions as at March 31, 1922—Items adjusted by the committees.

Schedule 6—Cost of Manhattan Power Plant,—improvements, reconstructions or changes, including replacements not due to wear and tear from operation as at March 31, 1922—Items adjusted by committees.

Appended also are three tabulations, summarizing the results of the adjustments made by agreement between the two committees, as follows:

Table A—Statement of the Company's Cost for Superintendence to March 31, 1922, Contract No. 3 and the Related Certificates, Separately for each Group, (1) as Reported by the Company (2) as determined (or adjusted) heretofore, (3) as agreed by committee.

Table B—Allowance for Administrative and Legal and Stores Expenses, as Recommended by the Committee, Divided between the Period Prior to Pooled Operations and the Period Subsequent to Pooled Operations,—Compared with the Corresponding Amounts Reported by the Company.

Table C—Statement by Items of the definitions of cost, Separately for each Group of Company Cost to March 31, 1922, (1) as Reported by Company; (2) as determined (or adjusted) heretofore, (3) as Agreed by Committee.

Special Explanation of Important Items Adjusted by Agreement between the Committees

When passing judgment on the merits of the adjustments upon which agreement has been reached between the two committees, it is proper to have in mind the ultimate effect which does not always appear superficially. The disallowance of a charge to capital may mean merely a transfer of the charge to operating expense under the same contract. In another instance it may mean an absolute reduction of cost under the contract.

In the following paragraphs an explanation is provided of the more important items which have been adjusted by agreement between the two committees:

- (1) Services of watchmen during the construction of the "diagonal station"—Grand Central Station.
- (2) Replacement of old Substation No. 11.
- (3) Certain maintenance work in connection with the building of the Manhattan Railroad additional tracks and elevated extensions.
- (4) General administration (including stores expenses) and legal expenses of the Company.
- (5) Interest during construction, Contract No. 3.

1—Services of Watchmen during the Construction of the "Diagonal Station"—Grand Central Station

The charge for watching for the protection of the operation of subway trains, during the construction of Route 43 and 26, Section 1—the so-called diagonal station, was first made by the Rapid Transit Construction Company as an extra under the construction contract. The charge was disallowed by your Division Engineer. Thereafter the Interborough Company charged the item as Superintendence under Contract No. 3. It was again disallowed, in your determination. The two committees have agreed that the disallowance was proper, and that the item is an expense to the construction contractor. The item, amounting to \$18,620.67, is thus entirely eliminated from Contract No. 3.

2—Replacement of Old Substation No. 11

The old Substation No. 11 was provided by the Interborough Company as equipment under Contract No. 1. The property was taken by the City, through condemnation proceedings, to provide a site for the proposed court-house. The money received was placed with the Trustee under the Interborough mortgage.

The new Substation No. 11, of larger capacity than the old, was provided under Contract No. 3 and the entire cost thereof was charged as equipment under Contract No. 3. A credit to this amount was required by your determination in the amount of the award in condemnation proceedings for the old Substation.

The matter has been settled between the Commission and the Company during the period of the conferences between the two committees, by stipulation dated July 20, 1922, whereby the accounting of the \$323,691.00 award of October 5, 1916, for old Substation No. 11, was agreed upon as follows:

Replacement of Contract No. 1 Equipment.....	\$310,256.00
Cost of removing and transporting old apparatus and appurtenances to new site chargeable as Cost of Equipment, Contract No. 3	13,435.00
	<hr/>
Total	<u>\$323,691.00</u>

It is understood between the committees that an appropriate job number will be registered to which the credit will be made. The Trustee will release the funds.

3—Certain Maintenance Work in Connection with the Building of the Manhattan Railroad Additional Tracks and Elevated Extensions

In connection with the construction of the Manhattan Railroad additional tracks and elevated extensions, a considerable quantity of old structure was replaced. The cost of replacements, under the Uniform System of Accounts, may not be capitalized. The terms of the certificates permit the capitalization of the cost of replacements, provided, however, that the replacements were not due to wear and tear from operation and were necessitated by the new work authorized by the certificates.

The engineers of your department reported that certain replacement of ties and certain painting jobs were due to wear and tear from operation and were not necessitated by the new work. The two committees have agreed on certain disallowances of cost of such replacements, amounting to \$52,095.54. The amount disallowed becomes a charge against operations prior to pooled operations under the Extension Certificate.

4—General Administration (including Stores) and Legal Expenses of the Company

The dispute is of long standing as to the proper allowance to make to the Company as compensation for the use of its regular organization on the entire project of contributing to construction and equipping the Railroad, and constructing and equipping the Manhattan Railroad Additional Tracks and Elevated Extensions, including also the Manhattan Power Plant.

The matter is explained in the Thirty-second Quarterly Determination, Pages 6-8. As stated in the determination (pages 251, 252), in addition to certain specific items of expenditure, there was a General Allowance to the Interborough Rapid Transit Company of an amount identical with the allowance to the New York Municipal Railway Corporation in excess of certain specific items of expenditure, and in addition an allowance for Stores Expenses. The allowance agreed upon between the two committees is larger than in the determination, smaller than the amount charged by the Company. The figures are tabulated in Table A.

The changes from the amounts claimed by the Company to March 31, 1922 are as follows:

Contribution to cost of construction, reduction.....	\$667,670.69
Cost of equipment and additional equipment, addition.....	211,688.71

Total of Contract No. 3, reduction.....	\$455,981.98
---	--------------

By this reduction there is indicated a credit to operations under Contract No. 3 of.....	\$ 5,808.16
and a charge against operations under Contract No. 1 of.....	461,790.14

	<u>\$455,981.98</u>
--	---------------------

Manhattan Railroad Additional Tracks, Elevated Extensions, Manhattan Power Plant addition.....	<u>\$242,860.88</u>
--	---------------------

by which there is indicated:

a credit to operations under the Extensions Certificate of	\$ 87,642.55
and a credit to prior Manhattan Division Operation	155,218.33

	<u>\$242,860.88</u>
--	---------------------

The explanation given on pp. 6-8 of the Thirty-second Quarterly Determination is here incorporated by reference.

The increase now recommended over the amount heretofore allowed in the determinations, as a general allowance for administrative and legal expenses, is based on the fact that the Interborough Rapid Transit Company project is larger than the New York Municipal Railway Corporation project. The larger allowance for Stores Expenses is based on the fact of actual cost of handling stores. All allowances made in the Prior Determination are left undisturbed.

General Administrative and Legal Expenses (excluding stores)

The fact recognized by your committee that the I. R. T. project is substantially larger than the N. Y. M. project is not shown by the length of track miles of new railroad. The total new track miles are:

N. Y. M. system	175	
I. R. T. system	182	104%

The substantial difference between the two systems is in the power facilities, of which the Interborough Rapid Transit Company provided much, the New York Municipal Railway Corporation little. The respective total cost of labor and materials supervised by each company was assumed by your committee to be a fair basis for determining a General Allowance to the Interborough Rapid Transit Company on the basis of the ratio of such labor and material costs, one company to the other. Excluding that part of the contribution to cost of construction not supervised by Company, the labor and material costs of all groups to March 31, 1922, are approximately as follows:

N. Y. M.	\$53,000,000	
I. R. T.	66,000,000	125%

Inasmuch, however, as the expenditures of the Interborough Company were made at higher price levels than those of the Municipal, an adjustment was made to put them on an equivalent basis. (Details in Schedule 7.) The relation between the Municipal and the Interborough becomes, for general allowance for administrative (excluding stores) and legal expenses, as follows for the period from March 19, 1913 to March 31, 1922:

N. Y. M.	\$637,000	
I. R. T.	888,000	139%

This ratio is larger than that above stated for labor and materials supervised by Company because of the allowance to the Interborough Company for administrative and legal expenses of one-half percent. on that part of the contribution to cost of construction applied to labor and materials. The relation between the Municipal and the Interborough for all labor and materials paid for by Company, is the following:

N. Y. M.	\$53,000,000	
I. R. T.	106,000,000	200%

The legal basis for a general allowance for administrative and legal expenses received consideration. The informal opinion by former Chairman McCall, to the effect that only the increase in expenses of the Company because of the new projects might be charged to capital, was the basis for some of the earlier determinations. The rule applied is given in a discussion of the matter in the Thirty-second Quarterly Determination, hereinbefore referred to. A recent court decision (App. Div. Third Dept. July 6, 1922, *People of the State of New York ex rel. N. Y. State Railways v. Public Service Commission*, respondent) seems to be in point. The following is quoted from that decision:

"In fixing the rate base the Commission disallowed certain overhead expenses claimed by the relator to have been incurred in constructing, organizing and developing the sixty miles of trackage involved except as to the amount of \$40,000 allowed for organization and development. These expenses were itemized by the relator as preliminary, legal, administrative and engineering expenses. It has been customary to include in the rate base something for these expenses but the amount is largely theoretical and must be determined by the Commission with reference to the facts in each particular case. Generally speaking it is a question of fact for the Commission to determine. It is somewhat difficult to place pecuniary value on these ele-

ments. In this case the property of the relator was built up gradually and not as an entirety and the Commission states that the necessary engineering, legal and administration services in connection with the construction were furnished by the regular staff of the company whose salaries were charged to operating expenses. Undoubtedly this feature should receive due consideration but some portion of these expenses must necessarily have been incurred by reason of the organization, construction and development of the particular road in question.

We think, therefore, the Commission has proceeded on an erroneous principle in excluding these overhead expenses. As before stated, the amount which should be allowed may be problematical and the correct amount must be fixed by the Commission, but the amount heretofore fixed is the result of the application of an erroneous principle."

Stores Expenses

Stores Expenses are reported usually as a part of General Administration. In these discussions it has been found necessary to consider the item separately.

The Committee's allowance for Stores Expenses is derived from the Company's records of cost of the entire Stores Expenses of the Company (excluding coal), by apportioning the same annually to each feature on the basis of the ratio of the value of the stores disbursed for each purpose to the total value of the stores disbursed for all purposes for the several periods from April 1, 1913 to March 31, 1922.

The Stores Expenses as charged by the Interborough Company are generally divisible into the following two classes:

1. Wages of storekeepers, of clerical assistants who keep records of stores, and of tenders who handle stores at the store places. These amounts are shown on accompanying schedule. The total of this amount for the period from April 1, 1913 to March 31, 1922 is \$936,411.62.

2. Expense for trucking, wages of men from various departments called upon to assist in unloading freight on incoming stores, and wages and incidental expenses of workmen erecting bins and doing other special work at store places. The totals of these amounts are also shown on accompanying schedules. The total of this class for the period from April 1, 1913 to March 31, 1922 is \$714,846.14.

The Interborough Company charged all of the stores expenses under Class 1 above, whether for Contract No. 3 supplies, Elevated Extension Supplies, or General Operating Supplies, to the General Stores Expense Account Operation. Each month, however, the General Stores Account was credited with an amount which was charged to cost under Contract No. 3 and the related certificates as a general charge for stores expenses (in Jobs C-7, D-7, F-8, H-8, K-5 and L-37).

Tabulation of figures as given in the Company General Stores account showing amounts charged to Contract No. 3 and amounts charged to Related Certificates are as follows:

Period.	Contract 3.	Related Certificates.	Total.
April 1, 1913 to June 30, 1913
July 1, 1913 to June 30, 1914
July 1, 1914 to June 30, 1915	\$13,650.00	\$13,650.00	\$27,300.00
July 1, 1915 to June 30, 1916	13,384.85	13,384.90	26,769.75
July 1, 1916 to June 30, 1917	13,718.28	13,718.28	27,436.56
July 1, 1917 to June 30, 1918	16,461.84	16,461.96	32,923.80
July 1, 1918 to June 30, 1919	8,559.57	7,744.47	16,304.04
July 1, 1919 to June 30, 1920	10,227.00	6,818.04	17,045.04
July 1, 1920 to Dec. 31, 1920	5,780.52	3,853.62	9,634.14
	\$81,782.06	\$75,631.27	\$157,413.33

These amounts are the totals each year of the amounts credited each month to General Stores Expense as the permissible charges to Contract 3 and Related Certificates.

The Interborough Company charged the stores expense under class 2 above to the stores expense account for which the expense was incurred. Thus the cost for general stores expense was charged to General Stores Expense (operation); the cost for Contract No. 3 was charged to Cost of Equipment Contract No. 3 (Job D-31), and the cost for Elevated Extension supplies was charged to Cost of Elevated Extensions (Job K 25). The expenses for handling stores from the time of their leaving the store tenders' possession were charged to the particular job or group for which they were destined.

In the case of Contract No. 4, the New York Municipal Railway Corporation performed actual construction work for Construction and Equipment, and as a rule did no maintenance work, which was done by the New York Consolidated Company. Hence the expenses of the New York Municipal Railway Corporation were fully chargeable, except in isolated instances, to capital, and the charges of the various employees could be allocated in full to some particular capital cost. In cases where an allocation of general costs of stores was to be made, a method not as yet accepted by the Company however, was adopted, which is shown on page 270 of the 32nd Determination, Contract 4. Thus in the 38th St. Yards the costs of handling particular materials were kept segregated from the time that these particular materials were known to be destined for either Company's or City's construction, and on the basis of the separate costs for handling materials thus obtained, the total general costs for handling stores were allocated between City's and Company's construction.

The handling of stores by the Interborough Company presented a different condition. There was no separate company to carry out the provisions of Contract No. 3. The Interborough Company was in existence with an organization operating railroads before assuming the obligations of Contract No. 3 and among its departments there was a General Stores Department whose functions were to handle the general stores for operating purposes. The expenses of this department consisted, as stated before, of a storekeeper's monthly payroll for clerical work, a weekly payroll for tenders, and watchman, the portions of the payrolls of other departments that rendered services to the General Stores Department by furnishing labor for the unloading of shipments, making bins, shelving and partitioning etc., and expenses for stationery supplies, coal, computation machines and various incidentals.

The General Stores Department was called upon to assume the duties of caring for the supplies of Contract No. 3 and Related Certificates in addition to those of their Operating Stores. They used the same stores department organization augmented in force to meet changed conditions. The expenses for clerical work and tending on account of stores charged to Contract 3 and Related Certificates were a portion of what the Interborough Company interpreted as the amount allowed by the Commission for administration and stores expenses per month, and were correspondingly credited to General Stores Expense (Operating).

These charges were uniform over considerable periods of time, and were modified or ceased according as the different groups of the railroads went into operation. The Company records for General Stores show that they commenced in July 1, 1914 and ended December 31, 1920. Prior to July 1, 1914 there were the same total charges made for administration, but the General Stores Operation Account show no corresponding credits as they do subsequently.

The charges for handling Contract No. 3 and Elevated Extension Supplies other than expenses enumerated above for clerical work, etc., such as trucking, loading, and unloading, were charged direct to capital cost under Job Nos. D-31 and K-25.

5. Interest during Construction Charged to Cost of Construction, Contract No. 3

The interest during construction charged by the Company to Contribution to Cost of Construction, Contract No. 3 to March 31, 1922, was \$11,223,450.46. The amount allowed in the determination was \$10,365,401.95, the change being based on the formula explained under caption 11 on page 12 of the 32nd quarterly determination. By agreement between the committees it is recommended that the amount be fixed at \$11,129,424.61.

Interest on moneys provided, from the time of providing the money to the date when the property for which it was provided is placed in operation, is

chargeable to capital—in this case payable out of the proceeds of the bond issue; thereafter, it is chargeable to operations—payable out of the revenues.

As the Company was to contribute a limited sum to the cost of construction of the Railroad, the City providing the remainder, question was raised as to the method of determining when the respective shares of Company and City were placed in operation. It was observed that when the Company moneys were provided they were not provided for specific parts of the Railroad. Nor were they provided for the entire completed Railroad, as witnessed by the fact that they were provided under a schedule whereby they were to be expended prior to January 1, 1917, although it was not expected that the entire Railroad would be completed until long after that date.

In view of the above facts the formula used in your determination was established, in which it was assumed that the Interborough Company provided its contribution for the Railroad generally, to the limit of the then estimated cost. The method of apportioning the interest is given in the 32nd Quarterly determination (item 11, page 12) in the following words:

“The total cost of construction in operation is the sum of the City’s expenditures and the Lessee’s expenditures on the parts of the railroads operated. This total is divided between Lessee’s share and City’s share for the purpose of discontinuing the charges for interest thereon in the capital account and providing a basis for the respective deductions from revenue. Inasmuch as the Lessee’s contribution to cost of construction is deemed to be contributed generally to the Railroad, and the maximum limit to the contribution—\$58,000,000—was on the basis of an estimated total cost of construction of \$116,000,000, the Lessee’s share of the cost of construction in operation is deemed to be a pro rata part of the total cost of construction in operation limited to \$116,000,000, the ratio used being the relation between Lessee’s expenditures to date and the sum of City’s expenditures to date and Lessee’s expenditures to date each limited to \$58,000,000.”

The Company’s method of charging for interest during construction was predicated on the assumption that the moneys were provided for the parts of the Railroad on which they were ultimately expended.

Your Committee has agreed that the Company was justified in the method used, as being based upon a fair reading of the contract, up to the date when the Company was notified of the objection filed by the Commission to the inclusion in an earlier determination of the Company’s figures. That date was April 27, 1920.

In passing it may be said that a satisfactory understanding on the formula used in your determinations was reached with the Municipal Corporation in 1913, but there was of course no obligation on the Interborough Company to take notice of this fact.

The Interborough committee has deferred to the insistence of your committee on what it deems to be the reasonable interpretation of the contract—to be applied, however, only beginning with the date above given when the Company received notice.

The formula has been modified to the extent of substituting \$125,000,000 for \$116,000,000 as the actual preliminary estimated total cost of construction.

One result of the agreement is that the Company will not find it necessary to retain a part of the bond proceeds to pay interest in the future on any of the expenditures.

The Company’s charge for interest to March 31, 1922, as a part of its contribution to cost of construction, is reduced, by the application of the above stated procedure, in the amount of \$94,025.85. This reduction in interest during construction will be reflected by an increased charge against revenue under Contract No. 3. The Company cost for interest agreed upon by the committee is an increase in Company interest over the amount heretofore determined, of \$764,022.66. The resulting decrease in the City interest is \$552,965.02, this amount being charged against operations in the City’s account.

Interest in Cost of Equipment, Contract No. 3

The determined cost of interest in Cost of Equipment, Contract No. 3 is substantially larger than the amount reported by the Company. The determined

amount remains undisturbed by the committee. The increase was due to the fact that the cost of equipment ready for operation compiled by your assistants at the several dates involved was less than that reported by the Company, the Company's figures being overestimated. The addition to the interest charge to March 31, 1922, is \$391,178.64. This addition in the interest account will be reflected by a decreased charge against revenue under Contract No. 3.

Materials and Supplies, Contract No. 3

It was stated in your 32nd Quarterly Determination under Contract No. 3 that the Interborough Company had made an inventory of the Materials and Supplies on hand which had been purchased for Contract No. 3. We are informed by the Interborough committee that this was not so. They inform us, however, that an inventory has been made in the spring of the present year—1923, and have, by letter of President Hedley, agreed to send us a copy as soon as it is arranged and typed. It has not yet been received. The two committees understand that the stipulations submitted do not preclude the raising of any questions in connection with this account of Materials and Supplies.

Adjustments Without Alteration of Totals

Adjustments between accounts and job numbers are not precluded by the stipulations, and may be made from time to time as opportunity offers to eliminate inconsistencies and errors of classification if any.

City's Cost of Construction

The Commission and the Company, by the stipulation submitted, agree that the determined City's cost of construction is the City's cost of construction, except that it is reduced in the interest account by the amount hereinbefore stated, \$552,965.02 resulting from the adjustment in the Company's interest account.

Other Changes in City's Cost of Construction

It is understood between the committees that the indeterminate amounts referred to in the 32nd quarterly determination will as a matter of course be included in subsequent determinations:

Payments by City Comptroller to City Contractors without Commission's vouchers;

Credits upon recovery under defaulted contracts;

Rent of office building.

As to Objections filed on behalf of Corporation Counsel

The Commission has from time to time filed objections on behalf of the Corporation Counsel of the City of New York. The said objections, generally speaking, recite with approval the several disallowances from Company's reported costs as made in your determinations. Your acceptance of this report will effect a denial of the Corporation Counsel's recommendations. The Corporation Counsel also objected to the classification of the cost of certain work on equipment as cost of construction. On such items you had prior to the determination considered the arguments. Your committee has left these items as determined undisturbed.

Undoubtedly the most important of the Corporation Counsel's objections is one which was filed only in connection with the later determinations rendered, namely, the 33rd to the 36th quarterly determinations under Contract No. 3, but the objection is worded to apply to all determinations from the beginning. This objection is to the inclusion of the cost of replacements. Although no details are specified in the objections, there is no doubt that cost of replacements are included in the determinations under Contract No. 3. The job number descriptions in the determinations are very clear as to that. Each such job number was passed upon by the engineering department prior to your term of office as being in conformity with the contractual provisions, in particular as to the replacements made in connection with the expansion of the existing power facilities so as to furnish power for the railroads built under Contract No. 3. Contract No. 3, Article XXXVIII reads, in part, as follows:

"It is the expectation of the parties that through the utilization of the power house, substations and other electrical equipment forming part of the Existing Equipment adequate power will be afforded for the operation of the Railroad (including Additions) without the construction of additional power houses. In furtherance of this purpose the Lessee may improve, reconstruct, modify or change the power houses, substations and other electrical equipment forming part of the Existing Equipment and include such improvements, reconstructions, modifications or changes in Equipment to be furnished under this contract."

No change has been made as a result of the Corporation Counsel's objections.

The Corporation Counsel objected likewise to the inclusion of replacements in the cost of the Manhattan Railroad Additional Tracks and Elevated Extensions. The respective certificates clearly provided for such inclusion of replacements not due to wear and tear and necessitated by the new work. Your reports on the cost of these groups made clear that cost of replacements due to wear and tear had been excluded, and the two committees have agreed to maintain such exclusion. But the cost of replacements not due to wear and tear and necessitated by the construction of the additional tracks and elevated extensions has been included. This question has been arbitrated in the case of the "Existing Railroads"—elevated lines—under Contract No. 4. The decision of the arbitrators in that case has been applied here. An informal inquiry of the source of the objection disclosed that they deemed it possible that an arbitration of the same question on the Interborough lines might result differently.

As to replacements not due to wear and tear from operation in the Manhattan Power Plant, appropriate reservation of right to object has been made in the stipulation.

The Corporation Counsel objected to the inclusion of interest in excess of 6% on the 7% and 8% notes, urging as a reason "the profligate manner of handling its finances by the Interborough Rapid Transit Company. Also, a large part of the moneys raised by the note issue(s) were used to reimburse the treasury for past construction expenditures and not to finance new construction." Your committee, while feeling that a less liberal policy in the distribution of dividends from the earnings under Contract No. 1 would have eased the credit position of the Company is of the opinion that the necessity for the 7 and 8 percent notes was the World War, and is in no way, within the purview of Contract No. 3, attributable to the basis of the Corporation Counsel's objection.

PERIOD SUBSEQUENT TO THE PERIODS COVERED BY THE STIPULATIONS SUBMITTED

Memorandum of Points Agreed to Between the Committee Representing the Transit Commission and the Interborough Rapid Transit Company, in relation to the Computation of Cost to the Company under Contract No. 3 and the Allied Certificates from March 31, 1922 to June 30, 1923.

1. That the Commission paid, in connection with the sale of six percent. ten year notes applicable to the portion of those notes which were issued to provide additional moneys for additional equipment under Contract No. 3 be classified as debt discount and included in the determined cost under Equipment subject to apportionment if found necessary; such being accepted by the Commission's committee with the understanding that all the determined cost will remain in the Capital Account only so long as the proper application of the sinking fund provisions of Subdivisions 8 and 9 of Article XLIX of Contract No. 3 will permit.

2. That the general allowance for administration and legal expenses be computed at one-half of one per cent. upon the cost of labor and material for Construction under Contract No. 3 and at one per cent under Equipment. Contract No. 3, Manhattan Third Track Elevated Extensions and Manhattan Power Plant Improvements.

3. That the debt discount in connection with additions to third tracking and additions to existing Manhattan lines be stated at the rate of discount met by the Interborough Company upon the initial sale of securities issued to provide moneys for these purposes.

4. That the interest on the cost of 42 composite cars, not yet in use, shall cease to be charged to Elevated Extension Equipment at March 31st, 1922, and that it will be charged against the operations from that date.

5. That the charge made by the Company for general engineering, administration, legal and stores expenses in connection with the additions to third track and the additions to the existing Manhattan Lines be allowed to stand to June 30th, 1923, and that the rate of five per cent on cost of labor and material be applied after that date.

6. That the charge for general engineering, administration, legal and stores expenses in connection with Additions to Construction, Contract No. 3, be computed at five percent of the cost of labor and material on all jobs, final figures for which have not been computed and submitted to date.

JOHN E. COOPER,

Chief, Bureau of Accounting & Valuations.

FREDERICK WILCOCK,

Auditor of Rapid Transit Costs.

WILLIAM G. FULLEN,

Assistant Counsel.

Resolved, That the foregoing report be and the same hereby is approved.

1232—R. T. 6567

Contract No. 3—Proposed Stipulation with Interborough Rapid Transit Company as to Rights of City and Company in Event that Corporation Counsel Has Legal Right to File Objections to Determinations of Cost to March 31, 1922—Approval Resolution.

The following resolution was adopted:

Resolved, That the following stipulation relative to rights of City and Interborough Company in event Corporation Counsel is held to have legal right to file objections be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized to execute and deliver the same:

STIPULATION entered into this day of August, 1923, between the Transit Commission of the State of New York (hereinafter referred to as the "Commission"), acting for and on behalf of The City of New York, and Interborough Rapid Transit Company (hereinafter referred to as the "Company").

Whereas, The Commission and the Company have, by stipulation bearing even date, herewith agreed as to costs paid or accrued to March 31, 1922, and that redeterminations made in accordance therewith will not be objected to by either of said parties but will be accepted as such cost; and

Whereas, Certain objections were filed with the said Chief Engineer by the Corporation Counsel of The City of New York to certain of said quarterly determinations which the said Chief Engineer, while not conceding the right of the said Corporation Counsel to file said objections, has nevertheless considered and passed upon them; and

Whereas, For the purpose of expressing the mutual understanding of the parties hereto as to their respective rights under Contract No. 3 and this stipulation in the event that it be determined in a court of competent jurisdiction that said Corporation Counsel has and had the right to file objections on behalf of The City of New York to the Chief Engineer's determinations and to give notice of arbitration so as to confer jurisdiction upon arbitrators in accordance with said Contract No. 3, the parties hereto desire to enter into this stipulation.

Now Therefore, It Is Stipulated and Agreed:

1. In the event that it shall ultimately be held by a court of competent jurisdiction that the Corporation Counsel of the City of New York has and had the right to file objections to the Chief Engineer's determination and to give notice of arbitration so as to confer jurisdiction upon such arbitration, then and in that event, anything hereinbefore contained to the contrary notwithstanding, the time of the Commission and the Company, and each of them, to give written notice of arbitration under said contract, shall for all purposes

be deemed to have been extended until sixty days after such right of the said Corporation Counsel has been established, and either the Commission or the Company may bring up in such arbitration such questions with respect to the redeterminations of the Chief Engineer as they may deem expedient and advisable, it being distinctly understood, stipulated and agreed, any provision of Contract No. 3 to the contrary notwithstanding, that the right of the Commission or the Company in this stipulation provided shall not be limited to the submission to arbitration of items as to which they have heretofore filed objections, and which objections have been redetermined by the Chief Engineer but shall extend and apply to all, any and every item of cost, determined or redetermined by the Chief Engineer in accordance with a certain stipulation entered into between the parties hereto and bearing even date herewith with respect to determinations and redeterminations of cost under said Contract No. 3, with the same force and effect as if the Commission or the Company had filed an objection to each and every such item of cost and that the same had been redetermined by the Chief Engineer.

1233—R. T. 6567

Contract No. 3—Proposed Stipulation with Interborough Rapid Transit Company Providing for Adjustment of Items in Dispute in Determinations of Cost to March 31, 1922—Approval Resolution

The following resolution was adopted:

Resolved, That the following stipulation with respect to cost under Contract No. 3 be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized to execute and deliver the same:

STIPULATION entered into this day of August, 1923, between the Transit Commission of the State of New York, (hereinafter referred to as the "Commission") acting for and on behalf of The City of New York, the Interborough Rapid Transit Company, (hereinafter referred to as the "Company"), and the Chief Engineer of the Transit Commission (hereinafter referred to as the "Chief Engineer").

Whereas, At divers dates the Chief Engineer of the Public Service Commission for the First District, the Chief Engineer of the Transit Construction Commissioner and the Chief Engineer of the Transit Commission have rendered certain quarterly determinations of the cost paid or accrued under the provisions of Contract No. 3, the last of which determinations being the Thirty-sixth Quarterly determination of the said cost paid or accrued to March 31, 1922; and

Whereas, Certain objections to said quarterly determinations were filed with the Chief Engineer in respect to the cost so determined as aforesaid, and

Whereas, The Commission, the Chief Engineer and the Company have been conferring with a view to adjusting the costs paid or accrued to March 31, 1922, under said Contract No. 3, and for the purpose of expressing their mutual understanding and accord, they desire to enter into this stipulation.

Now, Therefore, it is hereby stipulated and agreed,

First: The Chief Engineer may withdraw the redeterminations of the first to the ninth quarterly determinations, both inclusive, bearing date the 23d day of February, 1921, such withdrawal to have the same force and effect as though such redeterminations had not been rendered.

Second: The Chief Engineer may render his redeterminations of the first to the ninth quarterly determinations at the time he renders his redeterminations of the tenth to the thirty-sixth quarterly determinations.

Third: The Chief Engineer may render a redetermination of the costs paid or accrued to March 31, 1922, under Contract No. 3, so as to include the item or items determined in the first to the thirty-sixth quarterly determinations, and in addition thereto, the following items:

Company's Contribution to Cost of Construction of the Railroad

(1) Labor and Material—		
Job C-S-9—Charges for power for operating pump at Murray Street	\$	63.60

Taxes	312,346.73
Interest	4,267,310.05
Total, Equipment for Initial Operation	<u>\$45,260,020.48</u>

Additional Equipment, Provided Subsequent to Initial Operation

Labor and Materials	\$239,193.01
Superintendence	18,216.88
Total, Additional Equipment	<u>\$257,409.89</u>

Fifth: The Commission and the Company agree to make no objection to the redetermination of the cost paid or accrued to March 31, 1922 under Contract No. 3 made in accordance with this stipulation.

Sixth: The Chief Engineer, in view of the accord between the Commission and the Company as expressed herein, hereby agrees to render his redetermination of the cost paid or accrued to March 31, 1922 under said Contract No. 3, in accordance with this stipulation.

Seventh: The Commission and the Company agree that the determined City cost to March 31, 1922, as determined by the Chief Engineer in the first to the

thirty-sixth quarterly determinations inclusive under Contract No. 3 is the cost of Construction to the City, except the reduction of \$572,965.02 in the amount of city's interest which results from the adjustment made in Company's Interest in accordance with this stipulation.

1234—R. T. 6567

Elevated Extension Certificate—Proposed Stipulation with Interborough Rapid Transit Company Providing for Adjustment of Items in Dispute in Determinations of Cost to March 31, 1922—Approval Resolution

The following resolution was adopted:

Resolved, That the following stipulation with respect to cost of Manhattan Railroad additional tracks, be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized to execute and deliver the same:

STIPULATION entered into this day of August, 1923, by and between the Transit Commission of the State of New York (hereinafter called the "Commission"), acting for and on behalf of The City of New York, and the Interborough Rapid Transit Company (hereinafter called the "Interborough Company").

Whereas, The Public Service Commission for the First District awarded to the Manhattan Railway Company, being the lessor of the Interborough Company, a certificate dated March 19, 1913, authorizing additional tracks on Second Avenue, Third Avenue, and Ninth Avenue, mainly in the Borough of Manhattan, City of New York; and

Whereas, It was provided in said Certificate that the Manhattan Company shall present a statement in writing in which shall be included the expenditures made by the Manhattan Company in or about the acquisition or construction of the plant and property of any of the railroads as defined in said Certificate, showing the actual cost of the plant and structure of each of the railroads or of such equipment or additions from time to time of the same, including any such modifications, reconstructions and improvements or betterments of such existing structures and in case of additions, the date of the making of the same; and

Whereas, The term "Manhattan Company" as defined in said Certificate means The Manhattan Railway Company, its successors, assigns, lessee, transferee or any corporation which may thereafter succeed by consolidation or merger to the rights of the said Manhattan Railway Company; and

Whereas, The Interborough Company was on the date of the awarding of said Certificate and has been at all times since the lessee of said Manhattan Railway Company; and

Whereas, The Chief Engineer of the Commission rendered certain reports to the Commission bearing date respectively, November 21, 1921, April 22, 1922, July 31, 1922, September 19, 1922, and December 27, 1922, wherein the said cost as at March 31, 1922, as reported by the Interborough Company and revised by the said Chief Engineer, is set forth; and

Whereas, The Commission and the Interborough Company have been conferring and adjusting items of cost under various contracts and certificates, including the items of cost under the aforesaid certificates; and

Whereas, The Commission and the Interborough Company are willing to consider and accept the aforesaid reports of said Chief Engineer as amended and supplemented by this stipulation, as the said statement of cost required to be filed under said Certificate.

Now, Therefore, It Is Hereby Stipulated and Agreed as Follows:

1. The aforesaid reports of the Chief Engineer reporting the cost of Additional tracks and Additions to Additional tracks as modified and supplemented herein be and the same are deemed to be the statement required to be filed by Article X of said certificate of the actual and necessary net cost as at March 31, 1922 of the plant and structure of each of the railroads and of the equipment and additions which have been made under said Certificate.

2. The said reports are supplemented so as to include the following amounts:

Plant and Structure:

(1) Labor and Material	\$112,775.55
Payments to the contractors for items previously considered as "Plant" and of 15% upon the cost of work done for the contractor by the Company.	
(2) Real Estate	33.75
15% upon the cost of work done for the contractor by the Company.	
(3) Debt Discount	8,747.70
(5) Superintendence	170,032.57
General Administration and Legal Expenses	\$89,568.14
Amounts paid to outside counsel.....	3,691.43
Stores Expense	76,773.00
	<hr/>
Total	\$291,589.57

Equipment:

(3) Debt Discount	\$75.05
(5) Superintendence	2,424.86
General Administration and Legal Expenses.	
	<hr/>
Total	\$2,499.91

3. The actual and necessary net cost as at March 31, 1922, resulting from said reports as amended and supplemented, by the items of the Definitions of cost under said certificate, is as follows:

Plant and Structure:

Labor and Materials	\$14,259,719.14
Real Estate	3,890,700.95
Debt Discount and Expense.....	638,974.56
Taxes	174,720.91
Interest	935,797.77
Superintendence	1,399,238.42
	<hr/>
Total Plant and Structure.....	\$21,299,151.75

Equipment:

Labor and Materials	\$219,299.45
Debt Discount and Expense.....	7,104.93
Superintendence	10,426.75
	<hr/>
Total Equipment	\$236,831.13

Additions: Plant and Structure:

Labor and Material	\$84,500.96
Superintendence	6,696.65
	<hr/>
Total Additions	\$91,197.61

4. The Commission and the Interborough Company approves the foregoing statement as the actual cost as at March 31, 1922, of the plant and structure of each of the railroads and of the equipment and additions as defined and which have been provided under said certificate.

1235—R. T. 6567

Additional Tracks Certificate—Proposed Stipulation with Interborough Rapid Transit Company Providing for Adjustment of Items in Dispute in Determinations of Cost to March 31, 1922—Approval Resolution

The following resolution was adopted:

Resolved, That the following stipulation with respect to cost of Manhattan Railroad Elevated Extensions be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized to execute and deliver the same:

STIPULATION entered into this day of August, 1923, by and between the Transit Commission of the State of New York (hereinafter called the "Commission"), acting for and on behalf of The City of New York, and the Interborough Rapid Transit Company (hereinafter called the "Interborough Company").

Whereas, The Public Service Commission for the First District awarded to the Interborough Company, a certificate dated March 19, 1913, authorizing extensions of elevated railroads therein designated as Webster Avenue Line, Eighth Avenue and 162nd Street Connection, Queensboro Bridge Line and the West Farms Subway Connection, in the City of New York; and

Whereas, It was provided in said Certificate that the Interborough Company shall present a statement in writing in which shall be included the expenditures made by the Interborough Company in or about the acquisition or construction of the plant and property of any of the railroads as defined in said Certificate, showing the actual cost of the plant and structure of each of the railroads or of such equipment or additions thereto from time to time of the same, and in case of additions, the date of the making of the same; and

Whereas, The Chief Engineer of the Commission rendered certain reports to the Commission bearing date respectively, November 21, 1921, April 22, 1922, July 31, 1922, September 19, 1922 and December 27, 1922, wherein the said cost as at March 31, 1922, as reported by the Interborough Company and revised by the said Chief Engineer is set forth; and

Whereas, The Commission and the Interborough Company have been conferring and adjusting items of cost under various contracts and certificates, including the items of cost under the aforesaid Certificate; and

Whereas, The Commission and the Interborough Company are willing to consider and accept the aforesaid reports of the said Chief Engineer as amended and supplemented by this stipulation as the said statement of cost required to be filed under said Certificate.

Now, therefore, it is hereby stipulated and agreed as follows:

1. The aforesaid reports of the Chief Engineer reporting the cost of Elevated Extensions as modified and supplemented herein be and the same are deemed to be the statement required to be filed by Article XI of said certificate of the actual and necessary net cost as at March 31, 1922 of the plant and structure of each of the railroads and of the equipment and additions which have been made under said Certificate.

2. The said reports are supplemented so as to include the following amounts:

Plant and Structure:

(1) Labor and Material.....	\$3,119.59
Payments to the Contractor for expenditures originally considered by the Chief Engineer as "Plant".....	\$1,966.89
Rental of dock at 146th Street, February and March 1916	412.00
Value of cable used.....	740.70
(3) Debt Discount.....	1,252.02
(5) Superintendence	37,362.21
General Administration and Legal Expenses.....	\$22,739.00
Amounts paid to outside counsel.....	1,347.51
Specific charges of Administration.....	100.20
Specific legal charges.....	112.50
Stores expenses	13,063.00
Total	\$41,733.82

Equipment:

(1) Labor and Material.....	\$14,035.84
Coal and Other Supplies used at 128th Street Yard in connection with equipping copper sheathed cars for Elevated Extension pur- poses.	
(3) Debt Discount	1,692.62
(5) Superintendence	40,691.87
General Administration and Legal Expenses.	\$33,464.00
Amounts paid to outside counsel.....	832.31
Stores Expenses	6,395.56
Total	\$56,420.33

3. The actual and necessary net cost as at March 31, 1922, resulting from said reports as amended and supplemented, by the items of the Definitions of cost under said certificate, is as follows:

Plant and Structure:

Labor and Materials.....	\$3,869,357.48
Real Estate	796,870.36
Debt Discount and Expense.....	194,316.15
Taxes	56,269.94
Interest	1,162,587.10
Superintendence	397,804.09
Total Plant and Structure.....	\$6,477,205.12

Equipment:

Labor and Materials.....	\$5,737,043.94
Debt Discount and Expense.....	200,970.29
Taxes	44,323.47
Interest	473,452.59
Superintendence	243,219.43
Total Equipment	\$6,699,009.72

4. The Commission and the Interborough Company approve the foregoing statement as the actual cost as at March 31, 1922, of the plant and structure of each of the railroads and of the equipment and additions as defined, and which have been provided under said certificate.

1236—R. T. 6567

Manhattan Power Plant—Proposed Stipulation with Interborough Rapid Transit Company Providing for Adjustment of Items in Dispute in Determinations of Cost to March 31, 1922—Approval Resolution

The following resolution was adopted:

Resolved, That the following stipulation with respect to cost of Manhattan Power Plant Improvement be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized to execute and deliver the same:

STIPULATION entered into this day of August, 1923, by and between the Transit Commission of the State of New York (hereinafter called the "Commission"), acting for and on behalf of The City of New York, and the Interborough Rapid Transit Company (hereinafter called the "Interborough Company").

Whereas, The Public Service Commission for the First District awarded to the Manhattan Railway Company, being the lessor of the Manhattan Railroad to the Interborough Company, a certificate, dated March 19, 1913, authorizing additional tracks on Second Avenue, Third Avenue and Ninth Avenue, in the City of New York, (hereinafter referred to as "Additional Track Certificate"); and

Whereas, The Public Service Commission for the First District awarded to the Interborough Company a certificate, dated March 19, 1913, authorizing extensions of elevated railroads in the City of New York therein designated as Webster Avenue Line, Eighth Avenue and 162nd Street Connection, Queensboro Bridge Line and the West Farms Subway Connection (hereinafter referred to as the "Extension Certificate"); and

Whereas, Under the provisions of Subdivision 7 of Article XII of the Extension Certificate, the Interborough Company is entitled to deduct quarterly from revenue from the Company Lines (as defined in said Certificate), an amount equal to one-quarter ($\frac{1}{4}$) of the interest actually and necessarily payable by the Interborough Company upon bonds issued by the Interborough Company with the approval of the Public Service Commission for the First District for improvements to power house, substations, transmission lines and electrical apparatus required in connection therewith, forming part of and supplying the Company Lines which shall be necessary to provide additional power for the operation of the extensions (including trackage rights) and the additional tracks authorized by the Additional Track and Extension Certificates; and

Whereas, The Public Service Commission of the First District, on March 20, 1913, under Case 1614, on July 27, 1917 under Case 2182, and on September 5, 1918, under Case 2306, approved the issue of bonds and notes by the Interborough Company to pay the cost of the improvements, reconstructions or changes to the power house, substations, transmission lines and electrical apparatus required in connection therewith, then forming part of and supplying the lines of the existing Manhattan Railroad (other than repairs, maintenance or replacements), necessary to provide additional power for the operation of the extensions (including trackage rights) and the additional tracks authorized by the Additional Track and Extension Certificate, but including replacements not due to wear and tear from operation and necessitated by the modification or reconstruction of said existing power house, substations, transmission lines or electrical apparatus to facilitate such purpose; and

Whereas, The Commission and the Interborough Company have been conferring and adjusting items of cost under various contracts and certificates including the items of cost for said improvements, reconstructions or changes to the said power house, substations, transmission lines and electrical apparatus; and

Whereas, The Chief Engineer of the Commission rendered certain reports to the Commission bearing dates respectively November 21, 1921, April 22, 1922, July 31, 1922, September 19, 1922 and December 27, 1922 wherein is set forth the cost of said improvements, reconstructions or changes as reported by the Interborough Company as at March 31, 1922, together with adjustments in certain items of cost as made by the Chief Engineer of the Commission; and

Whereas, The Commission and the Interborough Company are willing to consider and accept the aforesaid reports of said Chief Engineer as amended and supplemented by this Stipulation as a statement of the cost of said improvements, reconstructions or changes—it being understood that the term Power Plant Improvements as used in said reports includes reconstructions, changes or replacements.

Now, therefore, it is hereby stipulated and agreed as follows:

1. The aforesaid reports of the Chief Engineer reporting the cost of said improvements, as modified and supplemented herein be and the same is deemed to be a statement of the actual and necessary net cost as at March 31, 1922 of the said improvements, reconstructions or changes, including replacements not due to wear and tear from operation.

2. The said reports are supplemented so as to include the following amounts:

Labor and Material:		
Cost of one pump.....		\$60.00
Superintendence		57,921.04
General Administration and Legal Expenses.....	\$33,589.00	
Amounts paid to outside counsel.....	727.04	
Stores expenses	23,605.00	

Total		<u>\$57,981.04</u>
-------------	--	--------------------

3. The actual and necessary net cost as at March 31, 1922, resulting from said reports as amended and supplemented, of said Manhattan Power Plant including replacements not due to wear and tear from operation.

Improvements, Reconstructions or Changes, is as follows:

Labor and Materials.....	\$4,975,522.02
Superintendence	489,175.60
Interest	248,140.32

Total Manhattan Power Plant Improvements, Reconstructions or Changes	<u>\$5,712,837.94</u>
--	-----------------------

4. The Commission and the Interborough Company approve the foregoing statement as to the actual cost as at March 31, 1922, of the said improvements, reconstructions or changes, including replacements not due to wear and tear from operation, reserving, however, and without prejudice to the Commission, the right to object to a deduction from pooled revenues under the Extension Certificate (Article XII, subdivision 7) of interest on the cost of reconstruction or changes, including replacements not due to wear and tear from operation.

1237—Case 2697

Interborough Rapid Transit Company—Installation of Experimental One Mile of Block Signals on Local Tracks of Elevated Lines—Resolution Approved Directing Hearing and Authorizing James B. Walker, Secretary, to Conduct Same

1239—R. T. 6506

Contract No. 4—Communication from New York Rapid Transit Corporation Advising of Selection of W. S. Menden as Member of Depreciation Fund Board in Place of T. S. Williams and Agreeing to Appointment of Charles I. DeBoise as Third Member—Approved Resolution

A communication was presented from the New York Rapid Transit Corporation, dated August 31, 1923, transmitting a certified copy of a resolution of the Board of Directors naming W. S. Menden as a member of the Depreciation Fund Board under

Contract No. 4 in place of T. S. Williams, whose term expired on August 1, 1923, and agreeing to the appointment of Charles I. DeBevoise as the third member of the Board.

The following resolution was adopted:

Whereas, The contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, provides in Article LIII thereof as follows:

“*** Before the beginning of operation of any part of the Railroad the Commission and the Lessee shall each name an individual to be a member of such board. Within thirty (30) days thereafter the Commission and the Lessee shall agree upon the third member of such board.*** In the event of a vacancy in the office of any of the members of the board the successor shall be chosen in the same manner as above provided in case of the original nomination. Such Depreciation Fund Board shall administer the funds provided for in the paragraphs of Articles XLIX and LXX referred to and the members thereof shall receive as compensation for their services such amount and shall be appointed for such period as may from time to time be agreed upon by the Commission and the Lessee and such amount shall be included as part of the operating expenses referred to in paragraph 3 of Article XLIX.***”

; and

Whereas, By communication dated July 27, 1923 this Commission by its Secretary notified W. S. Menden, President New York Rapid Transit Corporation as follows:

“In connection with the personnel of the Depreciation Fund Board, under Contract No. 4, it is noted that the term of General Charles I. DeBevoise as a member, expires on August 1, 1923. Will you please advise the Commission as to the intention of your Company with respect to a selection for such membership.”

; and

Whereas, By communication dated August 31, 1923 W. S. Menden, President of New York Rapid Transit Corporation, notified this Commission as follows:

“I enclose herewith certified copy of the Resolution of our Board of Directors, naming me on behalf of this company, as a member of the Depreciation Fund Board, established by Article LIII of Contract No. 4 with the City of New York, in place of T. S. Williams whose term expired on August 1st, 1923.

I note from your letter of July 27th, that the term of General Charles I. DeBevoise, as member of the above Board, expires on August 1st, 1923. It will be agreeable to our company to have General DeBevoise continue as a member of this Board, and if this meets with the approval of the Commission, will you please arrange for the necessary formal action by the Commission.

I assume the appointment if made, will be made for the period of one year the same as previously.”

Resolved, That the Transit Commission hereby agrees to the appointment of Charles I. DeBevoise as the third member of the Depreciation Fund Board in accordance with the provisions of said Article LIII of said Contract No. 4 for a period of one year beginning on August 1, 1923 at the rate of \$2000 per annum.

1240—R. T. 7583

Contract No. 4—Report by Chief Engineer Recommending Acquisition of Property Necessary to Permit of Extension of Coney Island Storage Yard Site—Referred to Counsel

A report was presented from the Chief Engineer dated August 29, 1923, recommending approval of the acquisition of property needed to permit of the extension of the site of the proposed Coney Island Storage Yard, so that it may be bounded on the north by Avenue “X” and on the east by Shell Road. The matter was referred to Counsel for the preparation of the necessary condemnation proceedings.

1241—R. T. 7603

Route No. 52, Section No. 3—Report by Chief Engineer Submitting Copies of Letters from Oakdale Contracting Company, Inc., Relative to Delay in Removal of Buildings Along Amity Street—Letter to Acting Mayor

A report was presented from the Chief Engineer dated August 29, 1923, enclosing copies of five letters from the Oakdale Contracting Company, Inc., contractor for the construction of Section No. 3 of Route No. 52, Flushing Extension, relative to the removal of buildings along Amity Street necessary for the widening of the street and the construction of the subway.

The following letter was approved:

September 7, 1923.

HON. MURRAY HULBERT,
Acting Mayor,
City Hall, New York.

Dear Sir:

Under date of August 17, 1923, you are advised as President of the Board of Aldermen as follows:

"The contractor for the subway portion of the so-called Flushing Extension, the Oakdale Contracting Company, has been seriously delayed in the prosecution of its work under the contract with the City of New York because of the delay in the removal of buildings incidental to the widening of Amity Street in the Borough of Queens.

"Under date of June 21, 1923, the Secretary of the Transit Commission wrote identic letters to the Commissioners of the Sinking Fund of the City of New York, to the Comptroller of the City of New York and to the President of the Borough of Queens, as follows:

"The Chief Engineer of this Commission is in receipt of the following communication from the contractor, Oakdale Contracting Company, constructing under the supervision of the Transit Commission the subway portion of the Flushing Extension to the municipal rapid transit railroad system:

'TRANSIT COMMISSION,
Mr. ROBT. RIDGWAY,
Chief Engineer,
49 Lafayette Street,
New York City.

Re: Route 52—Section 3.

Gentlemen:

'On April 3rd, 1923, we wrote you as follows:

'In accordance with the provisions of Paragraph 20, Subdivision 2, General Clauses of our contract with the City of New York for the construction of Section 3, Route 52 of the Rapid Transit Railroad, we hereby notify you that we propose to begin the work of construction within ten days.

'In order to expedite this work we hereby request in accordance with Article LIII, Chapter VII of our contract, that possession be given us at once of all the private property which the City has already acquired or intends to acquire along Amity Street as required for the performance of this contract.

'Trusting that you will give this matter your prompt attention, we are'

'In your reply to our letter under date of April 10th, you state:

'You are advised that your letter is receiving attention.

'Up to the present time we have not been given possession of this property and we are creditably informed that prior to the 7th day of June no action whatever had been taken by the City in regard to this matter although the City has actually been receiving rent from a certain number of these properties for the past few months. We are also advised that

the owners and tenants of the buildings along Amity Street have had no notice from the City as to the date of sale of this property or as to the time it must be vacated by them.

'The provisions of our contract require that the City shall put us in possession of this property within sixty days after we have made the demand, and on the understanding that this would be done we have contracted for special plant and equipment and have planned to carry out our work following a certain sequence of operations as set forth in our letter to you under date of April 23rd, which schedule was laid out with the view of completing the work on contract time.

'Owing to the City's delay in giving us possession of this property we have already had to alter our plan of operation and have been put to considerable extra work and additional expense in connection with the work of by-passing, and unless summary action is taken to give us the necessary right of way at once the completion of this contract will be greatly delayed, and we will be put to a great deal of additional expense in carrying out our work.

'Under date of May 23rd we addressed a letter to the Sinking Fund Commission of the City of New York setting forth the above facts, and we are now advised that this Commission commenced proceedings on the 7th day of June to give us possession of this property, but we understand it will take approximately sixty days before we are able to proceed with this portion of our work.

'It would appear to us that the City has been very negligent in carrying out their part of the contract which negligence will result in considerable delay and additional expense to us in the performance of our contract, and we hereby protest the unreasonable delay in putting us in possession of this property and will hold the City responsible for any damages resulting therefrom.

'We would respectfully urge that every effort be now made so that we shall be given possession of this property without any further delay.

Yours very truly,

OAKDALE CONTRACTING COMPANY, INC.

(Sgd.) E. A. HERRICK,
General Manager.'

"The removal of these buildings is a part of the street widening proceeding and the Commission would appreciate any action that you may take to expedite the removal of the structures so as to permit of the continuation of subway construction so as to reduce to a minimum the basis of any claim that the subway contractor may have."

"The Commission would appreciate any action which would expedite the consummation of this aggravating matter which is not only delaying the completion of the public improvement but is affording a basis for substantial claims for damages by the contractor.

"I write this in view of the directions of his Honor, the Mayor, this morning, for a meeting of the Committee of the Sinking Fund to be held at 10:30 A. M., on Thursday, August 23, 1923, and for a meeting of the Sinking Fund Commission to be held at 11 A. M., on the same day."

At the meeting of the Sinking Fund Commission held pursuant to the direction of his Honor, the Mayor, on August 23, 1923, the Comptroller was not present and would not appear so that the meeting could not be held. The value of the buildings in comparison with the value and importance of the work being held up by their non-removal, seems to the Commission to justify some extraordinary means of ending a very embarrassing situation. The Commission therefore urgently requests that a special meeting of the Sinking Fund Commission be called at the earliest possible moment to finally dispose of the matter of the removal of the buildings in Amity Street as widened so as to permit of the prosecution of the work of completing the Flushing Subway Extension without further delay.

Very truly yours,

JAMES B. WALKER,
Secretary.

1242—Case 2627**Interborough Rapid Transit Company—Service and Equipment—Extension Order Adopted**

The Secretary presented a communication, dated September 6, 1923, from Frank Hedley, President & General Manager of the Interborough Rapid Transit Company, requesting an extension of time to September 20, 1923, within which to notify the Commission if Order in Case No. 2627, adopted August 22, 1923, amending Service Order "B," adopted May 2, 1922, was accepted and would be obeyed.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2627, granting the desired extension of time to September 20, 1923.

1243—R. T. 7591**Routes Nos. 70-A-1 and 70-B—Report by Chief Engineer Recommending Construction of Island Platforms at Not Less Than Eighteen Feet in Width and for Single Row of Columns on Platforms for North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue, Roebling Street and Bedford Avenue Routes—Approved**

The Commission approved a report by the Chief Engineer dated September 5, 1923, recommending the making of the island platforms proposed to be used on the North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue, Roebling Street and Bedford Avenue Routes at not less than eighteen feet in width unless conditions require a variation therefrom and for the construction of such island platforms with but a single row of columns on the platform and a series of narrow stairways where arrangements can be made.

1244—R. T. 7661**Route No. 78—Report by Chief Engineer Recommending Construction of Island Platforms at Not Less Than Eighteen Feet in Width and for Single Row of Columns on Platforms for Central Park West, Manhattan Avenue and St. Nicholas Avenue Line—Approved**

The Commission approved a report by the Chief Engineer dated September 5, 1923, recommending the making of the island platforms proposed to be used on the Central Park West, Manhattan Avenue and St. Nicholas Avenue Route at not less than eighteen feet in width unless conditions require a variation therefrom and for the construction of such island platforms with but a single row of columns on the platform and a series of narrow stairways where arrangements can be made.

1245

Upon motion duly seconded and adopted the meeting was adjourned to Wednesday, September 12, 1923.

JAMES B. WALKER,
Secretary.

Proceedings for Monday, September 10, 1923

Present: LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.
The following matters were presented and action taken as noted:

1246—R. T. 7681

Contract No. 3—Receipt of Bids for Construction of Enclosures of Third Addition to Shops at Lenox Avenue and 148th Street Yard—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for the construction of enclosures of third addition to the shops at Lenox Avenue and 148th Street Yard had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the five bids received. The bids were then referred to the Chief Engineer.

1247—R. T. 7684

Agreement "CO"—Receipt of Bids for Miscellaneous Drainage and Sewer Construction in Boroughs of Manhattan, Brooklyn and Queens—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the three bids received. The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

1248

Hearings

The following hearings were adjourned:

11:00 A. M. R. T. 7690—Proposed locations of stations on North Jane Street, Jackson Avenue and Newtown Creek, Route No. 70-A-1, and Manhattan Avenue, Roebing Street and Bedford Avenue, Route No. 70-B, Borough of Brooklyn. Adjourned to Thursday, September 13, 1923, at 11:00 A. M.

11:00 A. M. R. T. 7691—Proposed locations of stations on Central Park West, Manhattan Avenue and St. Nicholas Avenue, Route No. 78, Borough of Manhattan. Adjourned to Thursday, September 13, 1923, at 11:00 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Wednesday, September 12, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1249—R. T. 7681

Contract No. 3—Resolution Authorizing Release of Checks to All But Lowest and Next to Lowest of Bidders for Construction of Enclosures of the Third Addition to Shops at Lenox Avenue and 148th Street Yard—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on September 10, 1923, for the construction of enclosures of the Third Addition to Shops at the Lenox Avenue and 148th Street Yard, Contract No. 3, the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders, the certified checks in the sum of Ten thousand Dollars (\$10,000.) each deposited with their bids as security therefor.

1250—R. T. 7684

Agreement "CO"—Resolution Authorizing Release of Checks to All But Lowest and Next to Lowest of Bidders for Miscellaneous Drainage and Sewer Construction in Boroughs of Manhattan, Brooklyn and Queens—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on September 10, 1923, for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, Agreement "CO", the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders, the certified checks in the sum of Three hundred Dollars (\$300) each deposited with their bids as security therefor.

1251—R. T. 7681

Contract No. 3—Report by Chief Engineer as to Receipt of Bids for Enclosures of Third Addition to Shops at Lenox Avenue and 148th Street Yard and Recommendation for Award of Contract to D. C. Serber at Bid Price of \$948,773.10—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

September 11, 1923.

To the TRANSIT COMMISSION:

Third Addition to Shops, Lenox Avenue and 148th Street Yard, Contract No. 3.

On September 10th the following bids were received for Construction of Enclosures, 3rd Addition to Shops of the Lenox Avenue and 148th Street Yard, Contract No. 3, the bids being asked for on two alternatives, one for brick construction and one for concrete construction. The bid for the concrete alternative being the lowest.

	Concrete	Brick
D. C. Serber.....	\$948,773.10	\$1,006,573.10
McHarg-Barton Co.	951,159.60	997,359.60
P. J. Carlin Con. Co.....	1,009,474.70	1,056,024.70
Rosenthal Engr. Const. Co.....	1,018,778.80	1,085,678.80
John T. Brady & Co.....	1,152,119.33	1,177,959.33

Our estimate for this work is, for concrete \$1,176,209.80 and for brick \$1,220,609.80. The lowest bidder D. C. Serber, has done considerable work for the Commission or its predecessors either under his own name or as a member of Serber-Stander, Inc. At one time he had contracts carried on for the Commission for work costing between \$450,000 and \$500,000. All his previous contracts for the Commission amounts in the aggregate to about \$650,000. All this work he has carried out to our satisfaction.

Attached I transmit copy of minutes of a conference held in my office today with Mr. Serber and also copy of a financial statement handed to me by him.

The prices given in Mr. Serber's bid are reasonable under present conditions and from our previous experience with Mr. Serber I consider him capable to carry out successfully this contract.

Recommendation: I recommend that the contract for Construction of Enclosures, 3rd Addition to Shops of the Lenox Avenue and 148th Street Yard, Contract No. 3, be awarded to the lowest bidder, D. C. Serber, at his bid price of \$948,773.10 and that a requisition be made on the Board of Estimate and Apportionment for an appropriation of this amount to be charged to Contract No. 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the Construction of Enclosures of the Third Addition to Shops at the Lenox Avenue and 148th Street Yard (under Contract No. 3), was finally adopted on August 20, 1923, and subsequent to advertisement duly made, bids respectively totalling as follows were received on September 10, 1923:

	Concrete	Brick
D. C. Serber.....	\$948,773.10	\$1,006,573.10
McHarg-Barton Co.	951,159.60	997,359.60
P. J. Carlin Const. Co.....	1,009,474.70	1,056,024.70
Rosenthal Engr. Const. Co.....	1,018,778.80	1,085,678.80
John T. Brady & Co.....	1,152,119.33	1,177,959.33

; and

Whereas, The Chief Engineer of this Commission by communication dated September 11, 1923 has reported that the amount of the bid of D. C. Serber for concrete construction is reasonable and that the said D. C. Serber the low bidder for concrete construction under said proposed contract is financially able and competent to perform the work under said proposed contract and recommended the award of said proposed contract to him upon the basis of the alternative of concrete construction, and the making of a requisition upon the Board of Estimate and Apportionment for the sum of nine hundred forty-eight thousand seven hundred seventy-three dollars and ten cents (\$948,773.10), the amount estimated to be necessary to carry out said proposed contract upon the basis of concrete construction,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of D. C. Serber as aforesaid for the performance of the work under said proposed contract upon the basis of concrete construction be and the same hereby is accepted and the said proposed contract for the construction of Enclosures of the Third Addition to Shops at the Lenox Avenue and 148th Street Yard (under Contract No. 3), be and the same hereby is awarded to said D. C. Serber upon the basis of such concrete construction subject to its being approved and consented to in form and substance as required by law, and that said proposed contract together with requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent by said Board to the appropriation of the sum of nine hundred forty-eight thousand seven hundred seventy-three dollars and ten cents (\$948,773.10) estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

September 12, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission pursuant to the authority vested in it by Chapter 134 Laws of 1921 transmits for the consent of your Honorable Board as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and D. C. Serber, for the construction of Enclosure of the Third Addition to Shops at the Lenox Avenue and 148th Street Yard (under Contract No. 3), together with a requisition upon your Honorable Board for the appropriation of the sum of nine hundred forty-eight thousand seven hundred seventy-three dollars and ten cents (\$948,773.10), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals upon the alternative basis of concrete and brick construction for said proposed contract and bids were received on September 10, 1923 respectively totalling as follows:

	Concrete	Brick
D. C. Serber.....	\$948,773.10	\$1,006,573.10
McHarg-Barton Co.	951,159.60	997,359.60
P. J. Carlin Const. Co.....	1,009,474.70	1,056,024.70
Rosenthal Engr. Const. Co.....	1,018,778.80	1,085,678.80
John T. Brady & Co.....	1,152,119.33	1,177,959.33

The Chief Engineer of this Commission in a communication dated September 11, 1923 has reported that the bid of D. C. Serber, the low bidder, upon the basis of concrete construction is reasonable and that the said D. C. Serber is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid of D. C. Serber upon the alternative basis of concrete construction and awarded said proposed contract to the said D. C. Serber upon such basis, subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract upon the basis of such concrete construction, to wit, the sum of nine hundred forty-eight thousand seven hundred seventy-three dollars and ten cents (\$948,773.10); and also to direct the Comptroller of The City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of securing the amount necessary to meet the City's obligations under said proposed contract upon such basis, to wit, the sum of nine hundred forty-eight thousand seven hundred seventy-three dollars and ten cents (\$948,773.10). Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the Contract dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1252—R. T. 7684

Agreement "CO"—Report by Chief Engineer as to Receipt of Bids for Miscellaneous Drainage and Sewer Construction in Boroughs of Manhattan, Brooklyn and Queens and Recommendation for Award of Contract to Frank Persicano at Bid Price of \$16,579—Approval Resolution—Requisition upon Board of Estimate and Apportionment for Appropriation of \$17,700

The following report was approved:

September 11, 1923.

To the TRANSIT COMMISSION:

Award of Contract, Agreement "CO" to Frank Persicano.

On September 10th, the following bids were received under Agreement "CO." Miscellaneous Drainage & Sewer Construction in the Boroughs of Manhattan, Brooklyn and Queens:

Name	Amount
Frank Persicano	\$16,579.00
John Riches	17,170.00
Sunswick Const. Co.	22,390.00

On August 10th, bids were received for this work, but were all rejected by the Commission in accordance with my recommendation of August 20th because the bids were considered too high. At that time Frank Persicano was also the lowest bidder, his bid then amounted to \$20,570. In my letter I stated that after a careful estimate we found that we could not justify more than \$16,600 under this contract. In the present bidding Frank Persicano is again the lowest bidder and his bid in accordance with the above is very close to our estimate.

In my interview with his representative, he states that the reduction in his present bid is due to modification and improvement in his plan for doing the work as well as due to the fact that prices for labor and material are getting a little easier.

Mr. Persicano has not previously done any work for the Commission but he has done considerable work for the Borough President's Office in Brooklyn and Mr. Philip P. Farley, Consulting Engineer to the Borough President, states that his work has been satisfactory.

The financial statement of Frank Persicano was filed with the Commission some weeks ago at the time of his previous bid and the statement of his representative now is that his financial standing is about the same or a little better than at that time. I find the prices of the lowest bidder reasonable under present conditions.

Copy of minutes of a conference held in my office today with the representative of the lowest bidder is transmitted herewith.

In addition to the itemized prizes given in the bids, there will be some additional money needed for work to be paid for at cost plus a percentage, such as work in connection with converting a cesspool where a sewer is to be substituted for the same and for minor repairs to sewers and other work which cannot be accurately estimated at the present time; but about \$1,100, it is considered, will cover the cost of such work. Therefore an appropriation of \$17,700 should be requested from the Board of Estimate and Apportionment.

Recommendation: From an engineering standpoint I recommend that the contract for work under Agreement "CO," Miscellaneous Drainage & Sewer Construction in the Boroughs of Manhattan, Brooklyn and Queens, be awarded to the lowest bidder, Frank Persicano, at his bid figure of \$16,579 and that a requisition be made on the Board of Estimate and Apportionment for the appropriation of \$17,700, \$16,960 to be charged to Contract No. 3 and \$740 to be charged to Contract No. 4.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, Pursuant to the resolution adopted by this Commission on August 20, 1923, bids theretofore received for the performance of the work pursuant to the proposed contract (Agreement "CO") for miscellaneous drainage and sewer construction

in the Boroughs of Manhattan, Brooklyn and Queens, City of New York, were, in view of the report of the Chief Engineer of this Commission dated August 20, 1923, in all respects rejected and the invitation to contractors forming part of said proposed contract was directed to be readvertised; and

Whereas, Pursuant to such readvertisement duly made bids respectively totalling as follows were received on September 10, 1923:

	Amount
Frank Persicano	\$16,579
John Riches	17,170
Sunswick Const. Co.	22,390

; and

Whereas, The Chief Engineer of this Commission by communication dated September 11, 1923, has reported that the amount of the low bid is reasonable and that the said low bidder Frank Persicano is financially capable and competent to perform the work under said proposed contract and has recommended that award of said proposed contract to him, and to make a requisition upon the Board of Estimate and Apportionment for the sum of seventeen thousand seven hundred dollars (\$17,700), the amount estimated to be necessary to carry out said proposed contract.

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of Frank Persicano as aforesaid be and the same hereby is accepted and the said proposed contract (Agreement "CO") for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, City of New York, be and the same hereby is awarded to said Frank Persicano, subject to its being approved and consented to in form and substance as required by law, and that said proposed contract together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of seventeen thousand seven hundred dollars (\$17,700) estimated to be necessary to meet the City's obligations under said proposed contract be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

September 12, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission pursuant to the authority vested in it by Chapter 134 Laws of 1921, transmits herewith for the consent of your Honorable Board as required by law, a proposed contract to be entered into between The City of New York acting by the Transit Commission, and Frank Persicano, for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, City of New York (Agreement "CO"), in Municipal Rapid Transit Railroads; together with a requisition upon your Honorable Board for the appropriation of the sum of seventeen thousand seven hundred dollars (\$17,700), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on September 10, 1923, respectively totalling as follows:

	Amount
Frank Persicano	\$16,579
John Riches	17,170
Sunswick Const. Co.	22,390

The Chief Engineer of this Commission in a communication dated September 11, 1923, reports that the bid of Frank Persicano, the low bidder, is reasonable and that said Frank Persicano is competent and financially capable of carrying out the provisions

of said proposed contract and the Transit Commission has accepted said bid and awarded the said proposed contract to the said Frank Persicano subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herein transmitted and prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of seventeen thousand seven hundred dollars (\$17,700), the additional sum being requested for the reason that in addition to the itemized prices given in the bid there may be some additional money needed for work to be paid for at cost plus a percentage, as the work in connection with converting a cess pool where a sewer is to be substituted and for minor repairs to sewers and other work which cannot be accurately estimated at the present time, for which it is estimated eleven hundred dollars (\$1100) will be sufficient; and also to direct the Comptroller of The City of New York to issue the bonds of said City at such rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary amount for the City's obligations under said contract, to wit, the sum of Seventeen thousand seven hundred dollars (\$17,700).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount estimated to pay the expense to the city of carrying out said contract. This request to the extent of sixteen thousand nine hundred and sixty dollars (\$16,960), is a requisition in addition to the requisition heretofore made for the purpose of carrying out the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, and said requisition to the extent of seven hundred and forty dollars (\$740) is a subrequisition under and not in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1253—R. T. 7592

Route No. 11-B, Section No. 3—Resolution Directing Bids be Readvertised for Construction of Fourth Avenue Subway Extension from 86th Street to 95th Street—Adopted

The following resolution was adopted, Chairman McAneny, not voting:

Whereas, Heretofore on December 6, 1922, this Commission approved the invitation to contractors, information for contractors and forms of contract bond and contractors proposal, together with the specifications and contract drawings for the construction of a part of a rapid transit railroad, Route No. 11-B, Section No. 3 (4th Avenue, Brooklyn), and pursuant to advertisement duly made, received bids therefor on December 22, 1922; and

Whereas, By resolution adopted December 27, 1922, this Commission in said resolution more particularly set forth awarded said proposed contract to the low bidder T. A. Gillespie Company subject to its being approved and consented to in form and substance as required by law, and transmitted said proposed contract together with a requisition for the appropriation of the sum estimated to be necessary to carry it out to the Board of Estimate and Apportionment of the City of New York on December 27, 1922; and

Whereas, Pursuant to the provisions of law pertaining thereto said T. A. Gillespie Company, by communication dated March 5, 1923, withdrew its said bid and this Commission by communication dated March 6, 1923, notified the said Board of Estimate and Apportionment of such fact which Board by action taken at its meeting on March 16, 1923 returned said proposed contract and requisition to this Commission; and

Whereas, This Commission is of the opinion that the said rapid transit railroad as described in said contract aforesaid, being the extension of the Fourth Avenue Subway in the Borough of Brooklyn from 87th Street to 95th Street, should be constructed and that said proposed contract should be readvertised,

Resolved, That said invitation to contractors, forming part of the said proposed contract approved as aforesaid be published in the City Record every day of publication continuously from including September 15, 1923 to and including October 2, 1923 and

on September 17, 1923 and September 24, 1923 in The Brooklyn Daily Eagle and The Brooklyn Daily Times, daily newspapers published in the City of New York and that such bids as shall be received shall on the 2nd day of October 1923, at 11:30 o'clock in the forenoon or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission or its Secretary at the office of the Transit Commission and read.

1254—R. T. 7645

Agreement "CS"—Form of Contract, Specifications, Invitation to Contractors, etc., for Construction of Duct Line at 239th Street Yard—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the construction of a railroad duct line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Route 18, Borough of The Bronx (under Contract No. 3).

Resolved, That said Invitation to Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the construction of a railroad duct line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Route 18, Borough of The Bronx (under Contract No. 3) be and hereby are approved and adopted and that said Invitation to Contractors be published in the City Record every day of publication continuously from and including September 14, 1923 to and including September 28, 1923 and on September 17, 1923 and September 24, 1923 in The New York Tribune and The Evening World, daily newspapers published in The City of New York, and that such bids as shall be received shall, on the 28th day of September, 1923, at eleven-thirty (11:30) o'clock, A. M., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

1255—R. T. 7635

Agreement "CE"—Application by Contractor for Extension of Time within Which to Complete Changes in Structure at Various Locations to Permit Widening of Certain Streets in Borough of Manhattan—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from Benedetto and Saussez, dated August 28, 1923, requesting an extension of time to August 13, 1923, within which to complete work under their contract for changes in subway structure at various locations to permit the widening of certain streets in the Borough of Manhattan—Agreement "CE".

A report was presented from the Chief Engineer, dated September 7, 1923, recommending that the time be extended from July 21, 1923 to and including August 13, 1923.

The following resolution was adopted:

Whereas, The Contract dated March 14, 1923, between The City of New York, acting by the Transit Commission, and Benedetto and Saussez, for making alterations in the Broadway-Fourth Avenue Rapid Transit Railroad structure at various locations to permit widening of streets in the Borough of Manhattan, requires the completion of all work thereunder on or before the expiration of four (4) months from the date of the delivery of said contract, which contract was delivered on March 21, 1923, the last day for completion therefor being July 21, 1923; and

Whereas, By communication dated August 28, 1923, said Benedetto and Saussez made application for an extension of time under said contract to and including August 13, 1923 to complete same predicated upon circumstances as set forth in said communication; and

Whereas, The Chief Engineer of this Commission, by communication dated Sep-

tember 7, 1923, has reported that while the resultant time of all delays to which said contractor may be entitled to extended time cannot be accurately ascertained, it appears, however, that the resultant of the delays is sufficient to account for the delayed time in the completion of the work; that the work was prosecuted with diligence; that its several parts were completed at times which were in advance of the work of street widening by the Contractor for the City and recommends that the time of the contractor be extended to and including August 13, 1923.

Resolved, That the time of Benedetto and Saussez within which to complete the work pursuant to the contract as aforesaid be and the same hereby is extended to and including August 13, 1923, provided, however, that this extension of time shall not take effect unless and until it shall be consented to in writing by the sureties upon the bond deposited as security for the faithful performance of said contract.

1256—R. T. 7367

Routes Nos. 35 & 67—Letter from Counsel Submitting Proposed Agreement for Modification of Ventilator Chamber in Front of Premises at Nos. 102-106 West 41st Street, Borough of Manhattan—Approval Resolution

A letter was presented from Counsel dated September 7, 1923, submitting a proposed agreement with The Buckley-Newhall Company for the modification of the construction of a ventilator chamber in front of the premises at Nos. 102-106 West 41st Street, Borough of Manhattan.

The following resolution was adopted:

Whereas, Counsel, with his letter dated September 7, 1923, has submitted to this Commission a proposed agreement between The Buckley-Newhall Company and The City of New York, acting by the Transit Commission, for the modification of construction of a ventilator chamber located in front of the premises Nos. 102-106 West Forty-first Street, in the Borough of Manhattan, and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, This proposed agreement has been approved by the Chief Engineer,
Resolved, That said proposed agreement in the form submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they are hereby authorized to execute the same.

1257

Rapid Transit Routes—Report by Consulting Engineer Turner as to Proposed Manhattan-Brooklyn-Central Queens Parkway Rapid Transit Lines—Motion Directing Secretary to Publish Same

The Committee of the Whole reported out the following report by Consulting Engineer, Daniel L. Turner, and upon motion by Commissioner Harkness the Secretary was authorized to publish same.

PROPOSED MANHATTAN-BROOKLYN-CENTRAL QUEENS PARKWAY RAPID TRANSIT LINE.

To the TRANSIT COMMISSION:

Herewith is a report with respect to a proposed Parkway Rapid Transit Line to serve the Borough of Queens.

Queens contains 36% of the land area of the city, it has only about 8% of the population, and it is served by only about 8% of the total rapid transit route mileage of the City. Of the 108 sq. miles of land area in the Borough, 64 square miles or 59% is dependent for transit entirely upon the Long Island R. R. and surface lines; only 17 square miles, or 16%, is served by rapid transit facilities, and 27 square miles, or 25% of the total area of the Borough, has no transit facilities of any kind whatever.

The percentages of population and rapid transit route mileage are almost identical. The population follows transit; therefore Queens needs more rapid transit facilities in order to develop a larger population.

As the next step in its transit program Queens needs most and first, rapid transit facilities for that 27 square miles, or 25% of the Borough that now has no transit at all. This is the area about 4 miles wide between and paralleling the Corona Elevated Branch and the Jamaica Avenue Elevated Line, shown on Dwg. 170, File 51. It is proposed that the Parkway Line traverse this undeveloped area.

It has been suggested that a line be constructed between Jamaica and Manhattan. Jamaica already has important electric railroad facilities operated by the Long Island R. R. and has rapid transit facilities too. It would be a mistake to build more facilities for Jamaica when there is such a large area of Queens with no transit facilities of any kind. The effect of such a policy would be to still further concentrate the population, not diffuse it.

The proposed Manhattan-Brooklyn-Central Queens Parkway Rapid Transit Line is indicated on Dwg. 169, File 51. The plan shows the general location of the line and the several types of construction contemplated.

There will be 4.37 route miles of Subway, 1.1 miles of tunnel, 1.65 miles of elevated, and 9.88 miles of parkway line, or all together, 17 miles of routes.

The proposed route in detail is as follows: From 9th Avenue and 23d Street in Manhattan, via 23d Street, under East River, via Greenpoint Avenue, Jewell Street, private property, Winthrop Park, Driggs Avenue, private property, Vandervoort Avenue, private property, Metropolitan Avenue, private property between Penelope and Lowell Avenues to Woodhaven Avenue, private property to a point at or near Pilgrim Street, private property near or along Pilgrim Street, 69th Street, Jewell Avenue, and what is now known as Black Stump Road. From Metropolitan Avenue to the city limits the line runs through private property or through the new park that it is proposed to develop, for a distance of about 10 miles; this constitutes the Parkway Line.

Public parks in most cases, are not now ideally located. Why should one have to pay car fare and ride to get to some park in order to reach a playground or to obtain a breath of fresh air?—and have to wait for a holiday to afford the time to do this? Instead of scattered about in more or less inaccessible places, why not have our parks and playgrounds at our front doors, so that the children will not have to wait for holidays, but can play and breathe the fresh air every day. Parks should be within convenient walking distances of every home. So should rapid transit lines. Why not provide parks and transit as one project—thereby at the same time providing the home with a playground and breathing spaces and the transit facilities necessary for getting to and from work. Particularly this should be done when both parks and transit can be gotten practically for what we now pay for the one, and simply by the exercise of a little foresight. This the Parkway Line is designed to accomplish.

The proposed Parkway Line will cost for

Construction	\$49,200,000
Including Administration, Superintendence and Interest...	61,500,000
and, with Equipment	99,000,000

Built as a subway the same line would cost about \$120,000,000.

The advantages of such a Parkway Line are:

1. It will directly connect with each other a residential territory capable of giving, under a high standard of housing, homes to half a million people, the Manhattan Community Center, the Greenpoint Community Center, the Newtown Creek Industrial and Shipping Zone, and a recreation area partly within and partly outside the limits of the city.
2. It will by one transfer, via the proposed Brooklyn Crosstown Line, give its passengers access to the parts of Brooklyn and Queens traversed by the latter line, and by another transfer, to almost any other part of Brooklyn, Queens or Manhattan.
3. If the Brooklyn Crosstown Line is later extended via the Astoria Branch and across 125th Street in Manhattan, and if the Manhattan-Bronx-Queens Crosstown Line included in the Comprehensive Plan (also proposed to be constructed as a parkway line) is built, it will in the same manner give its passengers access to upper Manhattan, the Bronx and the Jamaica Bay area.
4. It will give to the Borough of Queens not only a rapid transit line, but also a park 9 to 10 miles long, with a park area of about 450 acres, immediately accessible to a population directly served by a rapid transit line, and at a relative construction cost of only 29 per cent more than an elevated line and 61 per cent less than a subway line.
5. It will give to the city 17 route miles and 50 single-track miles of rapid

transit lines at a lower cost than would be possible for any other line of equal utility in any part of the city.

6. It will bring the outlying section of Queens, now undeveloped, within about three-quarters of an hour or less of central Manhattan, and Central Queens within a half hour of central Manhattan.

7. It will, particularly if the territory it will open for home building can be subjected to some sort of regulation that will keep the apartment density within desirable limits, accomplish that for which rapid transit lines in the outlying districts have been built, but which they so far have accomplished only imperfectly—diffuse the population and eliminate congestion. Or, if the character of the housing cannot be controlled, and a dense apartment house development develops, the evil effects of such housing would be minimized by the park immediately accessible for the use of the population.

8. Finally, the Parkway Line provides both transit and parks in an ideal manner and at a minimum joint cost.

RECOMMENDATION: I recommend that the next step in providing transit facilities for Queens, after the present plans have been effected, should be the construction of the proposed Parkway Line.

A discussion of the project in detail follows:

Area and Population of the Borough of Queens.

The total area of the Borough of Queens is about 117 square miles. This is approximately 37% of the total area of the City. It is over five times the area of the Borough of Manhattan, one and one-half times the area of Brooklyn, nearly three times the area of the Bronx, and over twice the area of Richmond. A considerable portion of Queens Borough is under water. The land area is about 108 square miles, or about 36% of the total land area of the City.

In 1900 Queens Borough had a population of about 153,000. In 1910 this number had increased nearly 86 per cent.—or had increased to a population of about 284,000. In the 1920 census the borough again showed a very large growth. In this last decade the population increase was about 65 per cent. During the period from 1900 to 1920 the total increase was nearly 207%. In other words, during the last twenty years the Queens Borough population has more than trebled, until in 1920 it had a population of 469,042. This was a little over 8 per cent. of the population of the entire city. The population density per acre was 6.79 as compared with 162.6 per acre for Manhattan, 44.4 for Brooklyn, 27.6 for the Bronx and 3.2 for Richmond.

Trackage and Traffic.

There are approximately 217 miles of single track surface line trackage in Queens. The total surface car trackage maintained in the entire city is 1,169 miles, so that the Queens trackage amounts to approximately 19% of the total. There are about 17 miles of rapid transit route traversing the Borough of Queens. This is about 8.0 per cent. of the total rapid transit route mileage in the city. The rapid transit trackage serving the borough amounts to approximately 44 single track miles, which is about 7 per cent. of the 619 miles of rapid transit trackage serving the entire city.

For the fiscal year ended June 30, 1922, the Queens surface lines, exclusive of the B. R. T. companies, carried approximately 59,000,000 revenue passengers. It is impossible to separate out accurately the passengers carried on the B. R. T. Lines, but an approximate estimate has been made which gives a figure of about 28,000,000 carried on the lines in Queens, making a total of 87,000,000 revenue surface line passengers carried in the Borough. The total surface car traffic in the entire city during the same fiscal year was approximately 1,053,000,000 revenue passengers. The Queens surface car traffic therefore amounted to a little over 8 per cent. of the surface car traffic in the entire city. The rapid transit traffic on the Queens Branches, operated by the Interborough Company and at the Plaza Station by the N. Y. Municipal, amounted to 32,000,000 revenue passengers during the year. The traffic carried on the N. Y. M. lines amounted to 26,000,000 passengers, or a total for the year of 58,000,000 revenue passengers. The total rapid transit traffic in the entire city during the year was 1,438,000,000 passengers. The Queensboro rapid transit traffic therefore amounted to a little over 4 per cent. of the entire rapid transit traffic.

Summarizing these figures, it appears that the Borough of Queens

- Contains 36% of the land area of the City.
- Has over 8% of the population.
- Has nearly 19% of the surface car trackage.
- Has about 8% of the rapid transit route mileage.
- Has over 7% of the rapid transit trackage.
- Carries over 8% of the total surface car traffic, and
- Carries over 4% of the total rapid transit traffic.

It appears from these figures that the percentage of population and percentage of rapid transit route mileage is almost identical. Since the population follows transportation, what Queens needs to secure a larger population is more rapid transit routes.

Transportation Facilities Serving Queens.

In order to indicate how Queens Borough is now served by the various kinds of transportation facilities, a map has been prepared, indicating the different kinds of facilities traversing the Borough, including the L. I. R. R. and the rapid transit lines and the surface lines.

Assuming that the L. I. R. R. will serve all areas within a radius of 1 mile of the stations on its lines, that rapid transit lines will conveniently serve a strip of territory $\frac{1}{2}$ mile on each side of the line, and that surface lines will conveniently serve a strip of territory $\frac{1}{4}$ mile on each side of the line, the area served by the several types of facilities have been indicated by cross hatching on the map. A print of this map, Drawing No. 170, File 51, is transmitted herewith. It shows very plainly the manner in which the various transportation facilities serve the borough and overlap each other.

The following table indicates the area and the percentages served by the several facilities:

Facility	Area Served (sq. miles)	Approximate Percentages
Long Island Railroad.....	72	66
Rapid Transit Lines.....	17	16
Surface lines	43	40
Total area served by all facilities, including overlapping area		
	132	122
Area not served by any facilities.....	27	25
Total area unserved and area served, including the overlapping area		
	159	147
Area overlapped by various facilities.....	51	47
Subtracting, we have—		
Total Area of the Borough.....	108 sq. miles	100%

There has not been included in the surface line figures above, 4 miles of area, formerly served by surface lines, that are now abandoned.

The facilities that serve the borough can be set out in another way, as indicated in the following table:

	Square Miles	Approximate Percentages
Area not served by any facilities.....	27	25
Long Island Railroad only.....	35	32
Rapid Transit Lines only.....	1	1
Surface lines only.....	6	6
Total area served by 1 facility.....		
	42	39
Long Island Railroad and surface lines.....	23	21
Long Island Railroad and Rapid Transit lines.....	2	2
Rapid Transit lines and surface lines.....	2	2
Total area served by 2 facilities.....		
	27	25
By Long Island Railroad, Rapid Transit and surface lines all together	12	11
Total	108 sq. miles	100%

From the foregoing figures it appears that 64 square miles, or 59% of the total area of the Borough is entirely dependent for transportation on the Long Island Railroad and surface lines separately or together, and only 17 square miles or 16% of the area of the Borough is served by rapid transit lines. In other words, only 17 square miles out of 108 square miles in the Borough of Queens is conveniently served by rapid transit facilities.

There are 69 Long Island Railroad stations on the lines traversing the Borough and 41 rapid transit stations.

Twenty-seven square miles or 25% of the entire area of the Borough is not conveniently accessible to any kind of transit facility. An inspection of the map shows that this inaccessible area is largely that territory between the Corona Elevated Line and Long Island Railroad on the north, and the Jamaica Avenue Elevated Line on the south and east of Queens Boulevard, which has practically no service at all except that provided by these rapid transit lines and the Long Island Railroad. It is centrally through this area that the first new rapid transit line for Queens should be constructed.

Additional Rapid Transit Facilities Necessary for Queens.

From the foregoing it is obvious that in its next rapid transit building program the City should provide additional rapid transit facilities for Queens Borough. The questions are, where should these facilities be located and how should they be provided?

A large part of the Borough of Queens is wholly undeveloped and in most of this undeveloped area, although a street system has been laid out on the maps, the streets have not been located on the ground, so that the greatest freedom exists for developing the best possible type of rapid transit line. For this reason, in 1920 I began to study the open cut type of construction, or some modification of it, for use in these outlying sections of the City. Some of the results of these studies are indicated on two drawings which I had Mr. Weindorf prepare in 1921, illustrating the possibilities of open cut lines and depressed and elevated lines along private rights-of-way. Photographs of the two drawings which I had made illustrating these studies, are attached hereto. Generally, the idea there developed, was to acquire a strip of territory of a width depending upon how many tracks there were to be on the line, and utilize the central portion of it for the railroad, and on either side of the railroad, provide for narrow parking and planting spaces, then a roadway, and then sidewalks. Vehicular crossings over or under the line were only to be provided at about every $\frac{1}{3}$ or $\frac{1}{2}$ mile, or about at every station point. At the intermediate street crossings which would intersect the roadways on either side of the right of way, pedestrian bridges or tunnels could be provided, but not for vehicles. At the vehicular crossings at the station points, the streets would be carried over or under the right of way, depending upon the topographic conditions. On the remainder of the line the tracks could be constructed at grade, on an elevated structure or in cut, just as the topographic conditions made most desirable, the idea being to make the construction as cheap as possible. This was the simplest form which the development of this kind of a line took. I designated it as a "Parkway Line." The parkway I first had in mind was the simple planting space on either side of the right of way shown in these photographs.

A little later, early in 1921, the idea was conceived of developing what was actually a parkway line; not a parkway line in name only. This conception of such a line contemplated acquiring a strip of territory approximately 500 feet wide through the undeveloped section of the city and in the center of this strip, build the rapid transit railroad at grade, in cut or on an elevated structure as the conditions required, and providing for vehicular overhead or under crossings about every $\frac{1}{3}$ or $\frac{1}{2}$ mile, just as before, but instead of having only a narrow strip of parkway either side of the railroad, to provide a strip that would be capable of satisfactory park treatment, and that would constitute a real park or playground for the home developments which would grow up along the rapid transit line. With a 500-foot strip, probably 100 feet or a little over would be needed for the roadways and sidewalks on both sides. This would leave approximately 400 feet for the rapid transit line and the parkway treatment. Therefore, it would be practicable to get about 175 feet of parkway at each side of the railroad right of way, or a strip nearly as wide as one of our up and downtown blocks. Such a type of rapid transit line would accomplish two things. It would provide the best method of municipal transportation out into and through an area capable of intensive home development; and it would also furnish a parkway directly in front of the doors of these homes, following the line of this rapid transit route.

In other words, the parkways through the part of the city developed in this manner would not be isolated areas grouped about the City in spots, and requiring the people to take transit facilities to get to them, but the parkways and the rapid transit lines would follow along together and be brought directly to the doors of the people. The people would not be required to utilize their transit facilities to reach their parkways. It has seemed to me that this idea of furnishing park areas for the public has many advantages over the method generally in vogue of providing isolated park areas. If one of these parkway rapid transit lines were located about every mile through an undeveloped territory, and the ordinary street system developed in the spaces between them, the area thus developed would be furnished with about the correct proportion of parkway space, or approximately 10% of the area traversed by such line would be in parks. I subsequently talked this plan over with Mr. Charles D. Lay, formerly Landscape Architect for the Department of Parks, Manhattan, who seemed to think very favorably of it and made some sketches and studies of the possibilities of such a line. The outlying area of Queens, is peculiarly adapted to this type of rapid transit development.

The Advantages of a Parkway Line.

Elevated lines have many disadvantages. They obstruct the streets and are a monstrous eyesore. They cut off light and air from the abutting property and from the streets. They are open to the weather. They are noisy and they are generally a nuisance. A parkway line would have none of these disadvantages except that it would be open to the weather, which is not serious. On the other hand, from the passenger standpoint, an elevated line is superior to a subway line. The passenger travels in the light and in the open air. The stations are just as accessible as in the subway. A parkway line has all of these advantages that an elevated line has from the passenger's standpoint.

Subways have many advantages. They do not disfigure the streets. They do not interfere with the light, air and access of abutting property. They are not open to the weather. They are conveniently accessible to passengers by means of stairways. For all of these reasons, subways are most popular. All of these advantages a parkway line has, except that it is open to the weather. The chief disadvantage of a subway is from the standpoint of the passengers, who do not ride out in the open and therefore must be provided with artificial light and artificial ventilation. A parkway line does not have these disadvantages.

Therefore a parkway line has all of the advantages of both elevated and subway lines, and practically none of the disadvantages of either, and besides, it has another advantage not possessed by either an elevated line or a subway line. In addition to providing the population with rapid transit, a parkway line also provides the same population with a park, just as conveniently accessible to them as the rapid transit line itself is accessible. In other words, a playground and breathing space for the children is provided at the front door of the homes. This great advantage can be obtained for the people, as will subsequently appear, at a very little additional cost over an elevated line, and at a very much less cost than a subway line through the same territory.

Express Automobile Highway.

Another advantage of the Parkway Line is that it permits an express automobile highway to be developed at the same time at very little additional expense relatively.

Motor vehicle traffic is increasing at an enormous rate. From 1917 to 1922 the total number of motor vehicles of all kinds registered in New York City increased from about 125,000 to 301,000. This was an increase of nearly 141 per cent in 5 years. The average rate of increase during these five years has been about 19 per cent per year. If the same rate obtains for the next 5 years in 1927 there will be over 700,000 motor vehicles using the New York City streets. If there is congestion now, what will the congestion be 5 years from now with more than double the number of motor vehicles using the streets? It is only a question of a short time when heavy traffic motor highways crossing each other will have to have their grades separated, just as the grades of railroads and highways are now separated, and just as it is proposed to separate the grades of the Parkway Line where it crosses the transverse highways.

A Parkway Rapid Transit Line is admirably adapted to such an express automobile highway. Under the plan it is proposed that a 20 foot roadway be located on each side of and immediately adjoining the Parkway Line right-of-way, and running along

the inside edge of the parkway strip. In this location, when the transverse highway is carried under or over the Parkway Line, it can also at the same time be carried under or over the express highway paralleling the Parkway Line. In this way the grades of both will be separated from the transverse highway. A local traffic highway paralleling the Parkway Line will be provided along the outside edge of the parkway space, adjacent to the building line.

Such express highways are shown on the drawings accompanying the report.

Comprehensive Rapid Transit Development for Queens.

In my Comprehensive Report, dated July 29, 1920, I indicated an approximate routing for a comprehensive rapid transit development for Queens Borough. This proposed layout of lines is shown on Plan 168, File 51, print of which is transmitted herewith. The lines are those indicated by fine dash lines on the plan. The fine full lines on the same plan indicate the existing facilities. From a study of this map it seems apparent that the most economical way of developing a comprehensive system for Queens, which would provide rapid transit lines conveniently accessible to the whole borough area with a minimum duplication of facilities, was by a system of lines approximately paralleling the north, or Long Island Sound shore of Queens, or also paralleling the existing Corona branch constructed under Contract No. 3, and the existing Jamaica Avenue Line constructed under Contract 4 Certificate. I believe this way of locating the lines through Queens should be adhered to. That is, future lines traversing Queens should be laid out in a generally northeast and southwest direction paralleling these two existing transit lines which I have already referred to. Of course intersecting these approximately radial lines, crosstown lines, or northwesterly and southeasterly lines will also have to be provided to articulate the system together.

I believe it would be a mistake to develop lines with the sole idea of connecting already populated points in Queens, with Manhattan, without any regard to the development of such a comprehensive plan. The effect of such lines would but intensify the growth of already developed areas at the expense of the undeveloped land available. This would still further concentrate the population, not diffuse it. It would also mean a waste of facilities, for the simple reason that such lines located in response to the urge for immediate relief, would as likely as not cross in an undesirable manner, the routes of lines that would ultimately have to be built, in order that all of the borough might be properly served. This would result in an excess of facilities, and a waste of the public money. This is the condition that already obtains in Brooklyn to a certain extent, because, the lines originally provided were not laid down in conformity to any ultimate plan, but were merely built to satisfy the immediate demands without any regard to what the future might develop.

Following out this reasoning, a line directly connecting Jamaica with Manhattan should not be built. Jamaica is already served by the Long Island R. R. It is also served by the Jamaica Avenue Elevated Line. More transit facilities immediately serving Jamaica would not better conditions. They would only increase congestion. Just as we desire to diffuse the population, so we should diffuse the transit facilities.

Consequently, the new facilities that are furnished for Queens should traverse undeveloped areas and should conform to a general plan. The new parkway line now proposed does this.

Manhattan, Brooklyn, Central Queens Parkway Rapid Transit Line.

This line is indicated on Drawing No. 169, File 51, print of which is transmitted herewith. In general, it crosses Manhattan through 23rd Street, then traverses the Greenpoint Section of Brooklyn and Metropolitan Avenue for a short distance, and then traverses the open country as a parkway line about half the way between the Corona Line and the Jamaica Avenue Line, thereby opening up and developing a strip of territory about 4 miles wide between these lines referred to, and which is now not served by any transit facilities. In detail the route proposed is as follows: From 9th Avenue and 23rd Street, Manhattan, 23rd Street to East River, under East River to Greenpoint Avenue, Greenpoint Avenue to Jewell Street, Jewell Street to Nassau Avenue, across private property and Winthrop Park to Driggs Avenue, Driggs Avenue and private property to Vandervoort Avenue, Vandervoort Avenue and private property to Metropolitan Avenue, Metropolitan Avenue to Juniper Avenue, private property between Penelope and Lowell Avenues to Woodhaven Avenue, private property to a point north

of Queens Boulevard at or near Pilgrim Street. From this point the line will run to the city limits near or along Pilgrim Street, 69th Street, Jewel Avenue and what is now known as Black Stump Road.

The line is approximately 17 miles long. Twelve miles of it is located in Queens, mostly through entirely undeveloped or only partly developed territory. Two and a half miles is located in the Greenpoint Section of Brooklyn, one mile is river crossing, and 1½ miles is in Manhattan.

Starting at the outer end of the line in Queens, it will begin as a 2-track line, collecting and distributing traffic throughout the area traversed. This 2-track section will extend for about 7 miles to about Seminole Avenue on the edge of the Flushing River Valley. From this point the line will be a 4-track line, to where the line intersects the proposed Brooklyn Crosstown Line at Greenpoint and Manhattan Avenues. This 4-track portion will be 7 miles long at the outset. But later it may be desirable to extend the 4-track section out to within about four miles of the end of the route. From Manhattan Avenue, under the East River, and Manhattan, the line will consist of 2 single track tubes. In view of the fact that it will be a 4-track line down to the river crossing, and in view of the fact that the capacity of the 2 single-track river tunnels because of the long run without stops is somewhat greater than the capacity of a 2-track line with station stops, it is desirable to construct the line in Manhattan in part, if not entirely, as a 3-track line, in order to utilize the full capacity of the 2 single-track tubes under the river to develop as much of the capacity as possible of the 4-track section traversing Greenpoint and Queens. At some later date it may be desirable to provide additional tube crossings and additional distributing lines in Manhattan to utilize the remaining capacity of the 4-track system east of the river crossing.

About 4.25 miles, from 9th Avenue in Manhattan to Vandervoort Avenue and Richardson Street in Brooklyn, will be subway and under river tunnel. The next 1.50 miles, to a point about 1,000 feet east of Flushing Avenue, within which the line crosses English Kills and Newtown Creek, most of which has an elevation of only 6 to 12 feet above M. H. W., and which is, or will be a purely industrial and shipping district, is proposed to be constructed as a 4-track elevated line. For the remainder of the route on Metropolitan Avenue, about 1.3 miles, subway construction would be used.

Of the remaining 10 miles, nearly all is admirably adapted to a parkway line built in the manner already described. This whole region has an undulating surface, varying in elevation from a few feet above M. H. W. across Flushing and Little Neck Bays, to as high as 200 feet. In the deeper valleys, such as the one at the head of Flushing Bay, an elevated structure would be preferable, but outside of this, the open cut and embankment method of construction would undoubtedly be both most economical and most desirable from other points of view.

Cost of the Proposed Parkway Line.

The subway, tunnel and elevated portions of the line will be similar to the types of construction in vogue on our existing rapid transit lines. No special comments are necessary with respect to the costs of these portions of the lines, except to say that the approximate costs hereinafter set forth have been arrived at after a careful general study of the conditions. None of the costs, however, are based on detailed plans, and therefore, they are only approximate.

From Juniper Avenue, where open cut construction is to begin, to Woodhaven Avenue is a length of 1.2 miles. The blocks between Penelope and Lowell Avenues, in the center of which the line would be located, are 600 ft. wide. This entire strip should be transformed into a park. The total area between the four avenues is assessed at about \$230,000 for the land, and \$380,000 for land including improvements. The latter figure is about \$62 per lin. foot of road. This area could probably be acquired by condemnation for \$125 to \$150 per lin. foot of road, including all costs. If by the time the City is ready to acquire this property the improvement of the land has progressed to a point where it would seem undesirable to turn the entire area into a parkway, a strip in the center wide enough for 4 tracks and retaining walls, with driveways and footwalks on each side would be taken instead of the entire width of the block. This would reduce the cost of the land to \$25 or \$30 per lin. foot, but if possible, the whole full width required for complete parkway line should be taken.

Between Woodhaven Avenue and Queens Boulevard the line would pass under the Long Island Main Line and Glendale Cut-off tracks. A part of this section, from Woodhaven Avenue to east of Queens Boulevard, a distance of .9 miles, would therefore

have to be built as a subway, while the remainder could be either subway or open cut. The average cost of property required for this part of the line would probably be about the same as in the previous section.

From Queens Boulevard to the city limits the line has a length of nearly 8 miles. Most of the land throughout the entire distance is assessed at 5 cents or less per sq. ft. It is probable that a strip of land 500 ft. wide, from Queens Boulevard to the City Line, could be acquired by condemnation proceedings, at a cost, everything included, not exceeding 18 cents per sq. ft., equal to \$90 per lin. foot, or a total of \$3,700,000. But only 400 feet of this strip would be needed for the Parkway Line. The remaining 100 feet would be required for street purposes. The 400 foot strip could be acquired for about \$72 per lin. foot—or for a total of about \$3,000,000. These real estate costs have been arrived at after discussing the matter with Mr. Schermerhorn.

Utilizing the above figures, a rough estimate of the cost of the line is as follows:

1.	23rd Street from 9th Avenue to Avenue A, 3-track subway, 1.55 miles @ \$6,000,000	\$9,300,000
2.	Avenue A, to Franklin Avenue and Greenpoint Avenue—2 single-track river tunnels—1.1 miles @ \$7,500,000.....	8,250,000
3.	Franklin and Greenpoint Avenues to Vandervoort Avenue and Richardson Street—4-track subway—1.53 miles @ \$5,000,000.....	7,650,000
4.	Vandervoort Avenue and Richardson Street to Arnold Street and Metropolitan Avenue—4-track elevated R. R.—1.65 miles @ \$1,100,000	1,815,000
5.	Arnold Street and Metropolitan Avenue to Juniper Avenue—4-track subway—1.29 miles @ \$5,000,000.....	6,450,000
6.	Juniper Avenue—Woodhaven Avenue between Penelope and Lowell Avenues—4 tracks—open cut—1.19 miles @ \$900,000.....	1,071,000
7.	Woodhaven Avenue to east of Queens Boulevard at about Pilgrim Street crossing under the L. I. R. R. at some point east of the junction between the main line and the Glendale Cut-off—90 miles @ \$4,500,000	4,050,000
8.	Along or near Pilgrim Street from Queens Boulevard to Seminole Avenue—4-track subway approach—elevated and open cut—.52 miles @ \$1,200,000.....	624,000
9.	From Seminole Avenue and Occident Street to city line along or near 69th Street, Jewell Avenue, Black Stump Road and other streets to city line, 2-track line built either in open cut or on embankment—or as elevated railroad as best suited to topographical conditions—7.27 miles @ \$500,000.....	3,635,000
	Total for construction.....	\$42,845,000
	Say	43,000,000
10.	Real estate for parkway from Juniper Avenue to city limits, about 10 miles, say.....	4,200,000
11.	Real estate would also be required mostly in Brooklyn, where line turns from one street into another, for street widenings, and for approaches where line changes from subway to elevated, which will probably not exceed.....	2,000,000
	Total, including Real Estate.....	\$49,200,000

The Board of Estimate has the right to assess in part or in whole the cost of such a public improvement as a parkway on the property benefited. Since both the parkway and the rapid transit line would result in a very great enhancement of property values in the vicinity, it would seem entirely equitable, and should meet with no opposition, to assess the entire cost of acquiring the land as well as of landscaping the parkway, on adjacent property.

If distributed over a width of say 2,000 ft. each side of the parkway, or over an area within a 2,000 ft. or ½ mile radius of each station, and varying in amount conversely with the distance from parkway and stations until it disappears on the outer edge of the influence area, the assessment would in no case be more than a fraction of the enhanced value of each lot or parcel. This would reduce the estimated cost of the line by \$4,200,000, or to a total for construction and real estate of \$45,000,000.

While as a general matter I am in favor of general assessment for a rapid transit

line based upon the enhancement in land values throughout the city, the figures set forth are an indication of how such a local assessment could be carried out. No rapid transit line has yet been built under the assessment plan although the law provides for doing so. But the assessment for a parkway is a common procedure and should meet with no obstacles of any kind, particularly if the parkways are to be of the width and importance that a strip approximately 400 feet wide would permit to be developed, thereby bringing a parkway within $\frac{1}{2}$ mile of everybody living within the area developed in such a manner.

Another reason why it should be relatively easy to carry out such a project is that except for the old roads through the territory east of Queens Boulevard, most of the streets exist only on paper and have not been legalized. In conjunction with the laying out of the line and the parkway and the locating of the stations, opportunities would therefore arise of modifying the street system by the introduction of diagonal thoroughfares, enabling the passengers to reach the stations by short and direct routes. Since the distance along the diagonal is only 0.7 of that along the two sides of the square, it is easily realized that a rational street system with diagonals, and in which the rapid transit line is incorporated as an essential element, has great economic importance, not to mention the aesthetic gain that would result from varying the monotony of the grid-iron system.

Total Cost.

The foregoing figures give only the construction cost of the proposed line; cost of administration, superintendence and interest must be added. Taking these latter items as about 25% of the Construction cost, we get a total cost including Construction, Administration, Superintendence and Interest during Construction of \$61,500,000.

The Equipment of such a line would cost approximately \$37,500,000. This makes a final total for Construction and Equipment, including all the items, of \$99,000,000. Or, this Parkway Line as proposed, is really a hundred million dollar project. But if built as a subway line it would cost \$120,000,000.

Comparative Costs of Subway, Elevated and Parkway Lines.

The proposed Manhattan-Brooklyn-Central Queens Parkway Line was estimated to cost, including construction, track work and real estate, approximately \$49,200,000 (excluding Administration, Superintendence, and Interest). The line consisted of subway, tunnel and a small amount of elevated work, and open cut or parkway work.

For comparative purposes assume that Subdivisions 1 to 4 inclusive remain the same; that is, the line would remain as a subway line through Manhattan, the Green-point Section of Brooklyn, and would traverse the English Kills and Newtown Creek district as an elevated line, but instead of then continuing as a subway and parkway line, assume that it continued as an elevated line to the City line, but with the same number of tracks as indicated in the original line. Such a line would cost approximately, including construction, track work and real estate, \$39,000,000. In other words, by changing the subway and parkway sections beyond the English Kills and Newtown Creek District to an elevated line, approximately \$10,200,000 would be saved. On the other hand, if this same portion of the line were constructed all the way to the end as a subway line, the total estimated cost would be approximately \$65,000,000; or such a line would cost approximately \$15,800,000 more than the proposed parkway line. The latter line would be just like the original line insofar as subdivisions 1 to 4 inclusive are concerned; that is to say, a small elevated stretch of structure would be constructed through the English Kills and Newtown Creek District. All the remainder of the line would be subway or tunnel. These figures show that by the use of parkway construction instead of subway construction throughout, a very large amount of money could be saved—\$15,800,000. If all of the line beyond the English Kills and Newtown Creek District could be constructed as a parkway line, a considerable amount more could be saved, but the partial development of the territory traversed, makes this impossible; so that subway construction has to be substituted for a considerable portion of this distance. This is what makes the line as proposed cost very much more than if the outer portion of it were constructed as an elevated line.

The significant thing in the cost figures is the comparison between the parkway portion of the line built as a subway, elevated or as a parkway line. For example,

take subdivision 9, which consists of 7.27 miles of 2-track line. This portion of the line would cost, approximately

If constructed as an elevated line.....	\$5,100,000
If constructed as a subway line.....	16,700,000
If constructed as a parkway line with full parkway section	6,500,000
If constructed as a parkway line with the minimum amount of parkway.....	4,400,000

These figures show that the full parkway line for this portion of the route is obtained for only \$1,400,000 more than it would cost to provide an elevated line, and at the same time the rapid transit line is being provided, a continuous park would also be provided for the population located contiguous to the line. That is to say, the rapid transit line and the park together, through this part of the route, could be obtained for \$1,400,000 more than an elevated line would cost.

The unit price cost including land, of the different types of line, as 2-track structure, can be taken approximately as follows:

a. For a 2-track subway line.....	\$2,300,000 per mile
b. For a 2-track elevated line.....	700,000 per mile
c. For a parkway line through a 400' wide strip costing \$400,000	900,000 per mile
d. For a parkway line through a 100' wide strip costing \$100,000	600,000 per mile

The subway line would cost 156% more than the full width parkway line and 283% more than the narrow parkway line. Or a full width parkway line would cost 61% less than a subway line and a narrow parkway line 74% less. Whereas an elevated line would cost about 78% of the cost of a full width parkway line and would cost 17% more than a narrow width parkway line. That is to say, a full width parkway line, or the most desirable type of rapid transit line and a continuous park both together, would only cost 29% more than an elevated line. From these figures, the conclusion seems inevitable that through undeveloped country, instead of building elevated lines as we have done in the past, a parkway line should be built, a wide parkway line if possible, but in any event, a narrow parkway line, and that the land necessary for such parkway lines should be obtained in advance and held until the building of the rapid transit line becomes necessary.

Population That Could Be Served.

Assuming that the influence area of a rapid transit line extends for $\frac{1}{2}$ mile on each side of the line, the proposed rapid transit line would give rapid transit to about 12 square miles in Queens. Of this area, $6\frac{1}{2}$ square miles have at present no transit facilities of any kind, $\frac{1}{2}$ square mile is served only by a crosstown surface line, and the remainder, with the exception of a small portion, a part of the so-called Ridgewood section, between the Borough line and Lutheran Cemetery, which comes within the influence area of 2 or 3 stations on the Metropolitan-Myrtle Avenue Line, is served either by the Long Island R. R. only or by some surface line in addition to the railroad.

These 12 square miles had in 1920 less than 40,000 population. About 30,000 to 35,000 lived between the Borough Line and Lutheran Cemetery. Between the Cemetery and Queens Boulevard, 2,000 or 3,000 lived, and probably less than 1,000 in the entire area east of Queens Boulevard.

Given rapid transit, the area east of Queens Boulevard alone, even if restricted to an average population of about 60 per acre gross, which would mean a suburban type of development, with for the most part detached one or two-family dwellings, could house 300,000 people. Assuming for the remaining area to the borough line a denser type of development, resulting in say an average population density of 150 per acre, this area could comfortably house 200,000 people. This would mean an apartment house development, but of a semi-suburban type, houses 4 to 5 stories high, and covering not over 50% of the lot. The area made accessible by these 12 miles of rapid transit in Queens, would therefore, under housing conditions far superior to those of people living in the present rapid transit areas of the Bronx and Brooklyn, give homes to half a million people.

Even if a more intensive apartment house development were to result along practically the entire parkway line, the objections to such a type of development would

be greatly minimized by reason of the fact that these apartments would have in front of their doors a parkway following the rapid transit line. In other words, simply by crossing the street, there would be ample playground and breathing space for the children.

Leaving Queens and entering Brooklyn, the line first passes through the unrestricted zone around Newtown Creek. Being unrestricted, and having waterfront facilities, that area will develop as an industrial and commercial center.

From Driggs Avenue to Franklin Avenue the line passes through the center of Greenpoint, restricted either to residences, or to residence and business use. In conjunction with the proposed Brooklyn Crosstown Line, which it crosses at Manhattan Avenue, the line will tend to develop this area as a business and community center.

The Brooklyn area within ½ mile of the proposed line had in 1920 a population of about 85,000.

The easterly end of the line will be adjacent to a large proposed public city park, and it will be within comparatively short bus travel of Little Neck and Manhasset Bays as well as of woodland areas in Nassau County. The line would develop considerable Sunday and holiday traffic in giving New York City access to these places, suitable for popular recreation.

Speed.

Assuming express service from the beginning of the 4-track portion, with stops for express trains at two stations in Greenpoint and at all Manhattan stations, and with equipment similar to that in the Dual System, the train time between various points on the line would be about as follows:

From	To Manhattan Ave., Greenpoint	To Broadway, Manhattan
City Limits	43'	49'
The center of the 2-track portions (3½ miles from city limits)	29'	35'
Manhattan Ave., Greenpoint.....	..	6'

In other words, from Broadway Manhattan the outer limits of Queens could be reached in a little over ¼ of an hour's ride, and central Queens, a territory now almost entirely without transit facilities, would be brought to within a little over ½ hour from Manhattan.

Suggested Manhattan-Jamaica Line.

It has been suggested that a line be constructed between Jamaica and Manhattan. Jamaica already has important electric railroad facilities operated by the Long Island Railroad and has rapid transit facilities too. It would be a mistake to build more facilities for Jamaica when there is such a large area in Queens without any transit facilities of any kind. The effect of such a policy would be to still further concentrate the population, not diffuse it. This has already been explained at greater length.

Although such a line is not favored, two alternatives have been indicated on Dwg. 168, File 51. One is a proposed 23d St. Manhattan-Greenpoint-Jamaica Line and the other is a proposed 34th St. Manhattan-Long Island City-Queens Boulevard-Jamaica Line. The first one of these lines is identical with the Parkway Line from Manhattan as far as the intersection of Juniper and Metropolitan Avenues, just east of the Lutheran Cemetery, where the Parkway Line turns to the northeast away from Metropolitan Avenue. From this point this Jamaica line continues as a subway under Metropolitan and Hillside Avenues, until it intersects Queens Boulevard, and then connects with the existing Jamaica Avenue Elevated Line.

Without going into details, such a line would be approximately 11 miles long and would cost for construction, including Real Estate, Administration, Superintendence, and Interest, or all elements of construction cost, approximately \$71,000,000.

The other Jamaica Line would cross Manhattan through 34th Street, pass under the East River to and through Borden Avenue in Long Island City and thence via Laurel Hill Boulevard and Queens Boulevard to a point where connection could be made with

the existing Jamaica Avenue Elevated Line. It would also be approximately 11 miles long and would cost to construct, including all elements, about \$80,000,000.

In other words, these two alternative routes planned to serve Jamaica and the territory between Jamaica, Manhattan and through Greenpoint and along Metropolitan Avenue in the one plan, and through Long Island City and along Queens Boulevard in the other case, would each be 6 miles shorter than the proposed Parkway Line, and the first, the Metropolitan Avenue alternative, would cost about \$9,500,000 more than the Parkway Line, and the second, the Queens Boulevard Route, would cost about \$18,500,000 more than the Parkway Line. That is to say, by spending $9\frac{1}{2}$ million dollars or $18\frac{1}{2}$ million dollars more as the case may be, we would provide an additional rapid transit line for Queens which would still further tend to concentrate the population instead of opening up the areas in Queens at present unavailable for housing on account of lack of transit facilities.

The only advantage that either one of these alternatives would have is, that it would temporarily relieve the pressure on the Long Island Railroad. But all past experience demonstrates that bringing into this territory another means of mass transportation would, unless some restrictive agency could be supplied, lead to a boom in apartment house building, bringing another section of the population under congested living conditions and in this way congesting the new as well as previous means of transit to a point where still more transit for this section would be demanded before facilities were provided for the undeveloped areas.

For these reasons, and for other reasons already set forth, I am opposed to both of these alternatives.

The Advantages of the Proposed Parkway Line as a Whole.

Summarizing the situation, the advantages of the proposed line as a whole are as follows:

1. It will directly connect with each other, a residential territory capable of giving, under a high standard of housing, homes to half a million people, the Manhattan Community center, the Greenpoint Community center, the Newtown Creek Industrial and Shipping zone, and a Recreation area partly within and partly outside of the limits of the city.

2. It will by one transfer, via the proposed Brooklyn Crosstown Line, give its passengers access to the parts of Brooklyn and Queens traversed by the latter line, and by another transfer, to almost any other part of Brooklyn, Queens, or Manhattan.

3. If the Brooklyn Crosstown Line is later extended via the Astoria Branch and across 125th Street in Manhattan, and if the Manhattan-Bronx-Queens Crosstown Line included in the Comprehensive Plan (also proposed to be constructed as a parkway line) is built, it will in the same manner give its passengers access to upper Manhattan, the Bronx and the Jamaica Bay area.

4. It will give to the Borough of Queens, not only a rapid transit line, but also a Park 9 to 10 miles long, with a park area of about 450 acres, immediately accessible to a population directly served by a rapid transit line, and at a relative construction cost of only 29% more than an elevated line and 61% less than a subway line.

5. It will give to the city 17 route miles and 50 single track miles of rapid transit line at a lower cost than would be possible for any other line of equal utility in any part of the city.

6. It will bring the outlying section of Queens, now undeveloped, within about $\frac{3}{4}$ of an hour or less of central Manhattan—and central Queens within a half-hour of central Manhattan.

7. It will, particularly if the territory it will open for home building can be subjected to some sort of regulation that will keep the apartment density within desirable limits, accomplish that for which rapid transit lines in the outlying districts have been built, but which they so far have accomplished only imperfectly—diffuse the population and eliminate congestion. Or, if the character of the housing cannot be controlled, and a dense apartment house development develops, the evil effects of such housing would be minimized by the park immediately accessible for the use of the population.

8. Finally, the Parkway Line provides both Transit and Parks in an ideal manner and at a minimum joint cost.

D. L. TURNER,
Consulting Engineer.

1258—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Transformer Room and Switching Equipment for Emergency Lighting—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated August 30, 1923, requesting approval of a proposed purchasing agent's order directed to Isidor Fajans Company, Inc., for furnishing and installing transformer room and switching equipment for emergency lighting in the Broadway-Fourth Avenue Line at a cost of \$31,978.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated September 6, 1923, recommending approval, which report was endorsed by the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations, classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has by communication dated August 30, 1923, submitted for the approval of this Commission proposed purchasing agent's order dated August 15, 1923, directed to Isidor Fajans, Inc., for the following:

"Install and furnish (except as furnished by the Company) Transformer Room and Switching Equipment for Emergency Lighting, Broadway-4th Avenue Line, in accordance with attached specifications dated June 15, 1923.

Payments to be made in accordance with attached Schedule of Prices.

Partial payments to be made on the 20th day of each month for 90% of the value of the work performed during the preceding month, provided the Contractor is making proper progress and payments by the Contractor to any sub-contractor for work done in connection with the work are being made consistent with payments by the Company to the Contractor.

Time of Completion—Six (6) weeks from date of order."

which proposed purchasing agent's order has been caused to be designated as "Approval No. 367"; and

Whereas, By communication dated September 6, 1923, the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that the price of the low bidder as corrected is reasonable and the best attainable; that the work consists of furnishing and installing transformer-room and switching equipment for emergency lighting at seventeen (17) stations of the Broadway-4th Avenue Line in Manhattan, at the Vernon Avenue shaft in Queens and in the switch room at Canal Street, including completion of the room at Canal Street in the Borough of Manhattan; that the specifications covering such work were approved by the Chief Engineer of this Commission on June 27, 1923; that the said contractor is competent to perform the work and recommend the approval of said proposed purchasing agent's order; and

Whereas, By endorsement dated September 11, 1923, the Auditor of Rapid Transit Costs approved by the Chief of the Bureau of Accounting and Valuations has recommended that such work be classified as Equipment of the Railroad as described in Contract No. 4.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order.

Commission may determine whether or not, in its opinion, the car or cars to be acquired and/or the proposed reconstruction or rearrangement of car equipment is safe, adequate and proper to be used for or in connection with the transportation of persons or property; and it is

Further Ordered, That this order shall take effect immediately and shall continue in force until changed or abrogated.

Further Ordered, That the order adopted by the Public Service Commission for the First District on September 11, 1914 in Case No. 1867 with respect to the subject hereof be and the same hereby is in all respects abrogated and annulled upon the adoption of this order.

BY THE COMMISSION,
JAMES B. WALKER,
Secretary.

1261—Case 2158

The Bronx Traction Company—Application for Approval of Declaration of Abandonment of Route on Morris Park Avenue—Order Denying Application to Re-open Case Adopted.

The Commission again took under consideration the petition, dated July 23, 1923, of The Bronx Traction Company, asking for the re-opening of the case for the purpose of introducing further evidence in support of its application for approval of declaration of abandonment. The Secretary presented an Opinion, dated September 10, 1923, by George H. Stover, Assistant Counsel, approved by Counsel to the Commission, recommending that the petition to re-open be denied in view of the recent order in Case No. 2693, directing a resumption of service on the Morris Park Avenue line, sought to be abandoned, which order had been accepted by the company.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2158, denying the petition of The Bronx Traction Company to re-open the case.

1262—Case 2693

Union Railway Company of New York City—Resumption of Operation of Morris Park Avenue Line—Notices from Companies Accepting Order Filed—Letter from Union Railway Company of New York City Requesting Modification of Order—Motion Denying Application Adopted

The Secretary presented two notices, dated September 7, 1923, of the Union Railway Company of New York City and The Bronx Traction Company, accepting the Order in Case No. 2693, adopted August 28, 1923, directing a resumption of operation on the Morris Park Avenue line, which notices were thereupon ordered filed. The Secretary also presented a letter, dated September 7, 1923, from Garrow T. Geer, Secretary, Union Railway Company of New York City, requesting a modification of the Order of August 28, 1923, so as to have the work of realignment of tracks carried out in connection with the City's paving work.

Thereupon the Commission denied said application and authorized a communication to the company that if compliance with the terms could not be accomplished within the limitation set forth in the Order, the Commission would entertain an application for an extension of time.

1263—Case 2699

Manhattan Bus Corporation—Application for Certificate of Public Convenience and Necessity for Operation of State Routes on 79th, 86th and 96th Streets, Manhattan—Hearing Order with Notice Adopted

The Secretary presented a petition, dated August 30, 1923, from the Manhattan Bus Corporation by Martin H. O'Neil, President, asking for a certificate of public convenience and necessity for the operation of stage routes by auto buses on certain streets in the Borough of Manhattan, City of New York. The Secretary also presented a copy of the company's application to the Board of Estimate and Apportionment, dated August 4, 1923, for a franchise, together with a copy of agreement, dated July 27, 1923, with The New York & Harlem Railroad Company, providing for the exchange of transfers with additional cost.

Thereupon an order in Case No. 2699 was adopted and ordered filed directing a hearing on September 25, 1923, at 11 A. M., in the following form:

Present:

GEORGE McANENY,	} Commissioners.
Chairman,	
LE ROY T. HARKNESS,	
JOHN F. O'RYAN,	

<p>IN THE MATTER of the Application of the MANHATTAN BUS CORPORATION for a certificate of public convenience and necessity for the operation of a stage route by auto buses on certain streets in the Borough of Manhattan, City of New York.</p>

Case No. 2699.
HEARING ORDER WITH
NOTICE.

A petition, dated August 30, 1923, having been presented to the Commission by the Manhattan Bus Corporation, for a certificate of public convenience and necessity for the operation of a stage route by auto buses on the following routes in the Borough of Manhattan, New York City:

(a) 79th Street line: From East River through 79th Street and Transverse Road to Central Park West; north on Central Park West to 81st Street; west on 81st Street to Columbus Avenue; south on Columbus Avenue to 79th Street; west on 79th Street to Broadway; north on Broadway to 80th Street; west on 80th Street to West End Avenue; south on West End Avenue to 79th Street. Then eastbound on 79th Street to Columbus Avenue; north on Columbus Avenue to 81st Street; east on 81st Street to Central Park West; south on Central Park West to 79th Street and Transverse Road and east on Transverse Road and 79th Street to East River.

(b) 86th Street line: From 92nd Street Ferry south on Avenue "A" to 86th Street; west on 86th Street to Fifth Avenue; south on Fifth Avenue to 85th Street; west on 85th Street through Transverse Road to Central Park West and 86th Street; west on 86th Street to Broadway; north on Broadway to 87th Street; west on 87th Street to West End Avenue and south on West End Avenue to 86th Street. Then eastbound on 86th Street through Transverse Road to Fifth Avenue and 85th Street; north on Fifth Avenue to 86th Street; east on 86th Street to Avenue "A" and north on Avenue "A" to 92nd Street Ferry.

(c) 96th Street line: From 92nd Street Ferry west on 92nd Street to First Avenue; north on First Avenue to 96th Street; west on 96th Street to Fifth Avenue; north on Fifth Avenue to 97th Street; west through Transverse Road to Central Park West; south on Central Park West to 96th Street; west on 96th Street to Broadway; north on Broadway to 97th Street; west on 97th Street to West End

Avenue; south on West End Avenue to 96th Street. Then eastbound on 96th Street to Central Park West; north on Central Park West to 97th Street; east through Transverse Road to Fifth Avenue; south on Fifth Avenue to 96th Street; east on 96th Street to First Avenue; south on First Avenue to 92nd Street and east on 92nd Street to Astoria Ferry,

and it appearing that petitioner has made application to the Board of Estimate and Apportionment for its consent or franchise as required by law.

Ordered, That a hearing be held before the Commission on the petition presented to this Commission on September 25, 1923 at 11 o'clock in the forenoon, in the hearing room of the Commission, No. 49 Lafayette Street, Borough of Manhattan, New York City, for the purpose of determining whether, in the event of a consent or franchise being granted to the petitioner by the Board of Estimate and Apportionment, a certificate of public convenience and necessity should be granted by this Commission to petitioner.

Further Ordered, That notice of the hearing on this application should be published once before the date of said hearing by the petitioner in two (2) newspapers published in the City of New York; viz. The World and The Evening Telegram.

Further Ordered, That notice of this hearing be given to the Manhattan Bus Corporation, the New York & Harlem Railroad Company and The City of New York, by service of a certified copy of this order in the manner provided by law.

BY THE COMMISSION,
JAMES B. WALKER,
Secretary.

TRANSIT COMMISSION—STATE OF NEW YORK

IN THE MATTER
of the

Application of the MANHATTAN BUS CORPORATION for a certificate of public convenience and necessity for the operation of a stage route by auto buses on certain streets in the Borough of Manhattan, City of New York.

Case No. 2699.

PUBLISHED
NOTICE OF HEARING.

A petition, dated August 30, 1923, having been presented to this Commission by the Manhattan Bus Corporation, asking for a certificate of public convenience and necessity for the operation of a stage route by auto buses over the following routes:

(a) 79th Street line: From East River through 79th Street and Transverse Road to Central Park West; north on Central Park West to 81st Street; west on 81st Street to Columbus Avenue; south on Columbus Avenue to 79th Street; west on 79th Street to Broadway; north on Broadway to 80th Street; west on 80th Street to West End Avenue; south on West End Avenue to 79th Street. Then eastbound on 79th Street to Columbus Avenue; north on Columbus Avenue to 81st Street; east on 81st Street to Central Park West; south on Central Park West to 79th Street and Transverse Road and east on Transverse Road and 79th Street to East River.

(b) 86th Street line: From 92nd Street Ferry south on Avenue "A" to 86th Street; west on 86th Street to Fifth Avenue; south on Fifth Avenue to 85th Street; west on 85th Street through Transverse Road to Central Park West and 86th Street; west on 86th Street to Broadway; north on Broadway to 87th Street; west on 87th Street to West End Avenue and south on West End Avenue to 86th Street. Then eastbound on 86th Street through Transverse Road to Fifth Avenue and 85th Street; north on Fifth Avenue to 86th Street; east on 86th Street to Avenue "A" and north on Avenue "A" to 92nd Street Ferry.

(c) 96th Street line: From 92nd Street Ferry west on 92nd Street to First Avenue; north on First Avenue to 96th Street; west on 96th Street to Fifth Avenue; north on Fifth Avenue to 97th Street; west through Transverse Road to Central Park West; south on Central Park West to 96th Street; west on 96th Street to Broadway; north on Broadway to 97th Street; west on 97th Street to West End Avenue; south on West End Avenue to 96th Street. Then eastbound on 96th Street to Central Park West; north on Central Park West to 97th Street; east through Transverse Road to Fifth Avenue; south on Fifth Avenue to 96th Street; east on 96th Street to First Avenue; south on First Avenue to 92nd Street and east on 92nd Street to Astoria Ferry.

Take Notice that a hearing will be held by and before the Transit Commission on said application in the hearing room of the Commission, No. 49 Lafayette Street, Borough of Manhattan, New York City, on September 25, 1923 at 11 o'clock in the forenoon, for the purpose of determining whether, in the event of a consent or franchise being granted to the petitioner by the Board of Estimate and Apportionment, a certificate of convenience and necessity should be granted by the Commission to petitioner.

Dated: New York, September 12, 1923.

TRANSIT COMMISSION,
By JAMES B. WALKER,
Secretary.

1264—Case 2700

The Staten Island Rapid Transit Railway Company and the Staten Island Railway Company—Service and Equipment—Hearing Resolution Approved

On motion, duly seconded, a Resolution in Case No. 2700 was unanimously approved and ordered filed, directing a hearing on September 27, 1923, at 11 A. M., with respect to the above matter.

1265—Case 1867

Brooklyn City Railroad Company—Notice of Reconstruction of Fifty-four Centre Entrance Trailer Cars—Letter to Company Authorized

The Secretary presented a communication, dated September 8, 1923, from C. E. Morgan, Vice-President & General Manager of Brooklyn City Railroad Company, transmitting specifications and blueprints showing proposed reconstruction of fifty-four (54) centre entrance trailer cars. The Secretary also presented a report, dated September 11, 1923, by W. C. Whiston, Electrical Engineer, approved by H. N. Latey, Engineer of Equipment & Operation, advising that the plans and specifications had been found satisfactory.

Thereupon the Secretary was authorized to transmit a letter to the Brooklyn City Railroad Company advising that the Commission had no adverse criticism to make with respect to said plans and specifications.

1266—Case 2496-A

New York Central Railroad Company—Application of City of New York for Determination as to Manner in Which Bridge Across Morris Avenue Shall be Altered or Changed—Order Adopted Approving Completed Work

The Secretary presented a communication, dated September 5, 1923, from George W. Kittredge, Chief Engineer of the New York Central Railroad Company, advising that the work of altering the bridge carrying Morris Avenue over the company's tracks, pursuant to the Commission's Order in Case No. 2496-A, had been completed and asking the Commission's approval of same. The Secretary also presented a report, dated September 10, 1923, by W. L. Selmer, Engineer of Structures, approved by H. N. Latey, Engineer of Equipment & Operation, recommending approval of work, together with a report, dated September 12, 1923, from George H. Stover, Assistant Counsel, approved by Counsel to the Commission, recommending approval of work.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2496-A, approving the completed work.

1267—Case 2662

Interborough Rapid Transit Company—Application for Authority to Issue Gold Notes—Notice from H. A. Metz, Accepting Renomination as Director under Voting Trust Agreement—Filed

The Secretary presented a letter dated September 11, 1923, from H. A. Metz, acknowledging receipt of resolution of Commission renominating him as a representative of the Public of The City of New York, as a Director of Interborough Rapid Transit Company under the Voting Trust Agreement, for a term ending September, 1926, which was thereupon filed.

1268—R. T. 7654

Routes Nos. 19 & 22—Section No. 2—Communication from Acting Corporation Counsel Advising of Vesting of Title to Property Acquired for the Westchester Yard—Filed

The Commission ordered filed a communication dated September 7, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, advising that the order of the Special Term of the Supreme Court, Bronx County, granting the petition of the Transit Commission, relative to the acquisition of an estate in fee simple absolute, in and to certain premises, between Westchester and Blondell Avenues, Eastchester Road, Haswell Street and Waters Avenue, in the Borough of The Bronx, for the construction, maintenance and operation of the Westchester Yard, had been filed in the office of the Clerk of the County of The Bronx, on the 20th day of August, 1923, and that pursuant to the provisions of Section 47 of the Rapid Transit Act (Chapter 4 of the Laws of 1891 as amended), title to the property vested in the City of New York, on that date.

1269

Employees' Calendar No. 164

On motion duly seconded the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—Edward W. Coe, junior assistant, at \$125.08 per month, to take effect September 10, 1923; Thomas A. McDermott, junior assistant, at \$125.08 per month, to take effect September 10, 1923; Abraham M. Morris, draftsman, at \$150.08 per month, to take effect September 10, 1923; Francis J. Murphy, junior assistant, at \$125.08 per month, to take effect September 10, 1923; Eugene J. Sullivan, junior clerk, at \$60.00 per month, to take effect September 10, 1923.

Appointments under Rule VIII:9—Thomas A. Anderson, engineering inspector, at \$150.08 per month, to take effect September 14, 1923; Amedeo Carmina, engineering inspector, at \$150.08 per month, to take effect September 22, 1923; Roland J. McAuliffe, engineering inspector, at \$150.08 per month, to take effect September 29, 1923; Jacob D. Mednick, draftsman, at \$150.08 per month, to take effect September 21, 1923; Morris Nagin, junior assistant, at \$125.08 per month, to take effect September 21, 1923; Granville W. Pullis, assistant photographer, at \$125.00 per month, to take effect September 28, 1923; Edward Schafer, engineering inspector, at \$150.08 per month, to take effect, September 14, 1923; William H. Snow, engineering inspector, at \$150.08 per month, to take effect September 10, 1923.

Resignations—Philip Perlstein, junior assistant, at \$125.08 per month, to take effect September 6, 1923; Walter Widstrand, junior assistant, at \$125.08 per month, to take effect September 5, 1923.

Terminations of Appointments under Rule VIII:4—Thomas A. Anderson, engineering inspector, at \$150.08 per month, to take effect September 13, 1923; Amedeo Carmina, engineering inspector, at \$150.08 per month, to take effect September 21, 1923; Roland J. McAuliffe, engineering inspector, at \$150.08, per month, to take effect September 28, 1923; Jacob D. Mednick, draftsman, at \$150.08 per month, to take effect September 20, 1923; Morris Nagin, junior assistant, at \$125.08 per month, to take effect September 20, 1923; Granville W. Pullis, assistant photographer, at \$125.00 per month, to take effect September 27, 1923; Edward Schafer, engineering inspector, at \$150.08 per month, to take effect September 13, 1923; William H. Snow, engineering inspector, at \$150.08 per month, to take effect September 9, 1923.

Leave of Absence with Pay—Edward C. Bergman, correspondence clerk, from July 21, 1923, to August 11, 1923; C. M. Cornelius, junior engineer, from June 25, 1923, to July 31, 1923; Charles Lahr, junior engineer, from July 4, 1923, to July 11, 1923; from August 4, 1923, to August 11, 1923; from September 4, 1923, to September 11, 1923; from October 4, 1923, to October 11, 1923; from November 4, 1923, to November 11, 1923; from December 4, 1923, to December 11, 1923; Ruth Pennetto, clerk, from August 6, 1923, to August 11, 1923.

Leaves of Absence without Pay—Charles Lahr, junior engineer, from July 12, 1923, to August 3, 1923; from August 12, 1923, to September 3, 1923; from September 12, 1923, to October 3, 1923; from October 12, 1923, to November 3, 1923; from November 12, 1923, to December 3, 1923; from December 12, 1923, to January 3, 1924; Israel Reichel, junior assistant, from September 1, 1923, to October 15, 1923.

1270

Voucher Schedule No. 37

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that said vouchers be transmitted for payment to the Comptroller of The City of New York, to the Comptroller of The State of New York, to the Brooklyn Manhattan Transit Corporation, or to The South Brooklyn Railway Company, as the vouchers may direct:

Secretary.

Proceedings for Friday, September 14, 1923

Present: George McAney, Chairman; LeRoy T. Harkness, Commissioner; Frank N. Robinson, Acting Secretary.

The following matters were presented and action taken as noted:

1274—Case 1379**New York Rapid Transit Corporation—Monthly Reports—Extension Order Adopted**

The Acting Secretary presented a communication, dated September 4, 1923, from M. B. Hoffman, Assistant Counsel for the New York Rapid Transit Corporation, requesting on behalf of said company, an extension of time to November 1, 1923, to file June, 1923, report. The Acting Secretary also presented a report, dated September 10, 1923, by H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting & Valuations, recommending an extension to October 15, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1379, granting New York Rapid Transit Corporation an extension of time to October 15, 1923, within which to file monthly report for June, 1923.

1275—Case 1399**New York Rapid Transit Corporation et al.—Quarterly Reports—Extension Order Adopted**

The Acting Secretary presented a communication, dated September 4, 1923, from M. B. Hoffman, Assistant Counsel for the New York Rapid Transit Corporation, New York Consolidated Railroad Company and Lindley M. Garrison, as Receiver thereof, asking for a further extension of time to November 1, 1923, to file reports for the quarter ended June 30, 1923. The Acting Secretary also presented a report, dated September 10, 1923, by H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting & Valuations, recommending an extension of time to October 15, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1399, granting the above mentioned companies and Receiver, an extension of time to October 15, 1923.

1276—Case 2690**Interborough Rapid Transit Company—Form of Annual Report for Year Ending June 30, 1923—Extension Order Adopted**

The Acting Secretary presented a communication, dated September 7, 1923, from E. F. J. Gaynor, Auditor, Interborough Rapid Transit Company, requesting an extension of time to October 30, 1923, within which to file annual report for the year ended June 30, 1923, as required by the Commission's Order in Case No. 2690. The Acting Secretary also presented a report, dated September 12, 1923, by H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting & Valuations, recommending the granting of the application.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2690, granting the desired extension of time to October 30, 1923.

1277—Case 2696

South Brooklyn Railway Company—Petition for Approval of Purchase of Capital Stock of Prospect Park and South Brooklyn Railroad Company et al. and Merger of Said Companies—Opinion by Commissioner Harkness Approved—Order Granting Application Adopted

The Acting Secretary presented an Opinion in Case No. 2696, by Commissioner Harkness, recommending the granting of the application of the South Brooklyn Railway Company as set forth in its petition, dated August 20, 1923.

Thereupon the above mentioned Opinion in Case No. 2696 was approved and an Order in Case No. 2696 was adopted and ordered filed in the following form:

Present:

GEORGE McANENY, Chairman, LeROY T. HARKNESS,	}	Commissioners.
--	---	----------------

IN THE MATTER OF THE PETITION
of

SOUTH BROOKLYN RAILWAY COMPANY for authorization to purchase and acquire capital stock of PROSPECT PARK AND SOUTH BROOKLYN RAILROAD COMPANY and of THE NEW YORK AND CONEY ISLAND RAILROAD COMPANY and to merge said companies and PROSPECT PARK AND CONEY ISLAND RAILROAD COMPANY into the petitioner.

Case No. 2696.

ORDER APPROVING ACQUISITION OF STOCK AND MERGER.

South Brooklyn Railway Company having heretofore acquired, pursuant to due authority from the Public Service Commission for the First District of the State of New York, the entire capital stock of Prospect Park and Coney Island Railroad Company, 495 shares of the total of 500 shares of the capital stock of the Prospect Park and South Brooklyn Railroad Company and 820 shares of the total of 1000 shares of the capital stock of The New York and Coney Island Railroad Company, and having applied to the Commission by petition dated and verified August 20th, 1923 for authority to purchase and acquire the remaining capital stock of Prospect Park and South Brooklyn Railroad Company and The New York and Coney Island Railroad Company, not heretofore acquired and not now owned by it, and for permission and approval of the merger, after it shall have purchased and acquired all of the stock of said Companies, of Prospect Park and Coney Island Railroad Company, The New York and Coney Island Railroad Company and Prospect Park and South Brooklyn Railroad Company into South Brooklyn Railway Company, and a hearing having been duly had on said application, and due deliberation having been had, it is

Ordered, That, pursuant to authority conferred upon it by Chapter 48 of the Consolidated Laws of the State of New York and by the acts amendatory thereof and supplemental thereto, the Commission hereby

(1) authorizes South Brooklyn Railway Company to purchase and acquire all of the capital stock of The New York and Coney Island Railroad Company and of Prospect Park and South Brooklyn Railroad Company, not heretofore acquired and not now owned by it, at a price not to exceed \$112.00 per share.

(2) permits and approves the merger, when all of said capital stock of said companies shall have been so acquired, of Prospect Park and Coney Island Railroad Company, The New York and Coney Island Railroad Company and Prospect Park and South Brooklyn Railroad Company into South Brooklyn Railway Company in accordance with the provisions of the statutes in such case made and provided;

Further Ordered, that the Chairman and the Secretary of the Commission be and they hereby are authorized and directed, upon the presentation to them of a certificate of merger in due form and duly executed by the South Brooklyn Railway Company, certifying that it has acquired and owns all of the capital stock of said Prospect

Park and Coney Island Railroad Company, The New York and Coney Island Railroad Company and Prospect Park and South Brooklyn Railroad Company, and that appropriate resolutions have been adopted by the board of directors of South Brooklyn Railway Company merging said corporations into South Brooklyn Railway Company, to make and execute under the official seal of the Commission a certificate of its permission and approval of such merger in substantially the following form:

“PERMISSION AND APPROVAL OF
TRANSIT COMMISSION

Pursuant to authority upon it conferred by Chapter 48 of the Consolidated Laws of the State of New York, and the acts amendatory thereof and supplemental thereto, the Transit Commission of the State of New York, by order duly made and adopted at a meeting held September 14, 1923, has permitted and approved and does hereby permit and approve the merger of Prospect Park and Coney Island Railroad Company, The New York and Coney Island Railroad Company and Prospect Park and South Brooklyn Railroad Company into South Brooklyn Railway Company, the certificate for which merger is hereto annexed, upon the terms and conditions of such merger and the mode of carrying the same into effect as prescribed in said certificate.

In Witness Whereof, the said Transit Commission of the State of New York has caused these presents to be executed by its Chairman and its Secretary, under its official seal, this _____ day of _____, 1923.

TRANSIT COMMISSION OF THE STATE OF
NEW YORK,

[SEAL]

By.....
Chairman.

Attest:

.....
Secretary.”

BY THE TRANSIT COMMISSION
FRANK N. ROBINSON,
Acting Secretary.

1278—Case 2679

Brooklyn Rapid Transit Company—Application of Stockholders’ Committee for Approval of Plan of Reorganization—Order Adopted Permitting New York Rapid Transit Corporation to Intervene and to Issue, Execute and Deliver Mortgages, Bonds and Stock

The Acting Secretary presented the following:

1. Proposed First and Refunding Mortgage, dated as of July 2, 1923, made by the New York Rapid Transit Corporation to the Central Union Trust Company of New York, which was thereupon approved and ordered filed in Case No. 2679.
2. Proposed Refunding Mortgage, dated as of July 2, 1923, made by the New York Rapid Transit Corporation to The Chase National Bank of The City of New York, which was thereupon approved and ordered filed in Case No. 2679.
3. Consent, dated September 4, 1923, of the National Surety Company et al., as sureties on the continuing bond of the New York Municipal Railway Corporation to The City of New York, under Contract No. 4, to the transfer and assignment of said contract to the New York Rapid Transit Corporation, which was thereupon ordered filed in Case No. 2679.

The Acting Secretary also presented three photostatic copies of three checks each dated June 15, 1923, made by Committee under Plan of Readjustment, dated

April 25, 1923, by Otis Everett, Secretary, countersigned by Alfred E. Mudge, and payable to the order of New York Rapid Transit Corporation at The Chase National Bank of The City of New York, numbered 1, 2 and 3, respectively, and drawn for the following sums: \$500,000; \$250,000 and \$250,000, which said photostatic copies were thereupon ordered filed in Case No. 2679.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2679, in the following form:

Present:

GEORGE McANENY,
Chairman, } Commissioners.
LE ROY T. HARKNESS, }

IN THE MATTER

of the

Application of the Committee under the Reorganization Plan for the approval of Plan and Agreement for the Reorganization of BROOKLYN RAPID TRANSIT COMPANY and RAPID TRANSIT RAILROAD and SURFACE RAILROAD SUBSIDIARY COMPANIES.

Case No. 2679.

SUPPLEMENTAL APPLICATION No. 3—Application of New York Rapid Transit Corporation for leave to intervene and for authority to issue, execute and deliver mortgages, bonds and stock.

ORDER PERMITTING NEW YORK RAPID TRANSIT CORPORATION TO INTERVENE AND TO ISSUE, EXECUTE AND DELIVER MORTGAGES, BONDS AND STOCK.

The Transit Commission having heretofore on June 4, 1923, by order duly made and granted herein on said date, on the application dated March 23, 1923, and filed herein on said date by the Committee acting under the Plan and Agreement dated March 15, 1923, for the Reorganization of Brooklyn Rapid Transit Company, and on the supplemental application dated April 30, 1923, and filed herein on said date by said Committee acting under the Plan of Readjustment dated April 26, 1923, for the Reorganization of New York Municipal Railway Corporation (hereinafter called the Railway Corporation) and New York Consolidated Railroad Company (hereinafter called the Consolidated Company), (1) authorized the reorganization of Brooklyn Rapid Transit Company, and the capitalization of the new company formed or intended to be formed upon such reorganization, as provided in said Plan and Agreement of Reorganization; (2) authorized the reorganization of the Railway Corporation and the Consolidated Company, and the capitalization of the new company intended to be formed upon such reorganization, as provided in said Plan of Readjustment, and (3) continued this proceeding to hear and consider the intervening petition or petitions of the new company intended to be formed upon the reorganization of the Railway Corporation and the Consolidated Company, in respect of the issuance by it of stock, mortgages and bonds as provided in said Plan of Readjustment; and

New York Rapid Transit Corporation (hereinafter called the Petitioner), as the new company formed upon the reorganization of the Railway Corporation and the Consolidated Company, having made and filed application herein (Supplemental Application

No. 3 dated and verified August 25, 1923) for leave to intervene in this proceeding and become a party thereto, and for an order or orders of the Commission

(a) authorizing the Petitioner to issue and deliver as provided in said Plan of Readjustment, not to exceed 189,000 shares of its common stock, without nominal or par value;

(b) authorizing and consenting to the execution and delivery by the Petitioner to the Central Union Trust Company of New York, as Trustee, of its First and Refunding Mortgage dated as of July 2, 1923, to secure an authorized issue of First and Refunding Mortgage Bonds limited to the aggregate principal amount of not to exceed \$73,000,000 at any one time outstanding;

(c) authorizing and consenting to the execution and delivery by the Petitioner to The Chase National Bank of the City of New York, as Trustee, of its Refunding Mortgage dated as of July 2, 1923, to secure an authorized issue of Refunding Mortgage Gold Bonds limited to the aggregate principal amount of not to exceed \$350,000,000 at any one time outstanding, and authorizing and consenting to the issuance and delivery by the Petitioner under said Refunding Mortgage as provided for in said Plan of Readjustment, of not to exceed \$93,508,500 principal amount of Refunding Mortgage Five Per Cent Sinking Fund Gold Bonds, Series A, to be dated as of July 2, 1923, to mature July 1, 1968, to be redeemable on any interest payment date at 107½% of the principal amount thereof and accrued interest and to be otherwise as provided in said Refunding Mortgage;

(d) authorizing and consenting, pursuant to Section 54 of the Public Service Commission Law, and pursuant to the provisions of the contract dated March 19, 1913, entered into between The City of New York, acting by the Public Service Commission for the First District of the State of New York, and said Railway Corporation, as heretofore modified or supplemented, known as Contract No. 4, and the provisions of the certificates of the same date, granted by said Public Service Commission for the First District to and accepted by said Railway Corporation, for additional tracks and for extensions, to the assignment and transfer of said contract and said certificates to the Petitioner, and to the mortgage of said contract and said certificates by including the same in said First and Refunding Mortgage and said Refunding Mortgage of the Petitioner; and

(e) granting to the Petitioner such other and further relief as may be just and proper;

And a hearing having been duly had on said application of the Petitioner, counsel for the Petitioner and for said Committee being heard in support thereof, and the Corporation Counsel of the City of New York appearing and reaffirming his previous opposition to said Plan and Agreement of Reorganization and said Plan of Readjustment, and due deliberation having been had, it appearing:

(1) that the Consolidated Company, being the lessee of the road of the Railway Corporation and lawfully owning all of its capital stock, by resolutions of its board of directors adopted May 25, 1923 and with the permission and approval of the Commission given in the manner required by law by order made and granted herein on June 4, 1923, merged the Railway Corporation on June 4, 1923, by certificate of merger filed on said date in the office of the Secretary of State of the State of New York and in the office of the Clerk of Kings County, pursuant to Section 15 of the Stock Corporation Law and Section 149 of the Railroad Law of the State of New York, and thereby acquired and became possessed of all of the estate, property, rights, privileges and franchises of the Railway Corporation;

(2) that, pursuant to the final decree of the District Court of the United States for the Southern District of New York, dated and filed in the office of the Clerk of said Court on April 5, 1923, the property and franchises of or belonging to the Railway Corporation, the Consolidated Company and Lindley M. Garrison, as Receiver of said corporations, were duly sold on June 7, 1923 by E. Henry Lacombe, Esq., Special Master appointed by said Court in and by said final decree, to Albert H. Wiggin, Gerhard M. Dahl and Frederick Strauss as joint tenants (hereinafter referred to as the Purchasers), constituted and acting as a Purchasing Committee under and by virtue of an agreement dated June 4, 1923, between said Committee acting under said Plan of Readjustment and the

Purchasers, which sale was duly confirmed by said Court on June 7, 1923, by decree dated and filed on said date, and said property and franchises were thereupon duly granted, assigned and conveyed by said Special Master to the Purchasers, by deed dated June 7, 1923, and the Purchasers thereby acquired title to said property and franchises in the manner prescribed by law;

(3) that the Purchasers and additional persons associated with them, by certificate of incorporation dated June 7, 1923 and filed and recorded as required by law in the office of the Secretary of State of the State of New York and in the office of the Clerk of Kings County on June 8, 1923, formed the Petitioner under and pursuant to Sections 9 and 10 of the Stock Corporation Law of the State of New York, for the purpose of carrying out and performing said Plan of Readjustment and of taking and possessing said property and franchises formerly of or belonging to the Railway Corporation, the Consolidated Company or their Receiver so sold to and acquired by the Purchasers, and that the Petitioner is the new company intended to be formed upon the reorganization of the Railway Corporation and the Consolidated Company as provided in said plan of Readjustment;

(4) that under and pursuant to an Agreement of Sale dated June 14, 1923 between said Committee acting under and as provided for in said Plan of Readjustment, the Purchasers and the Petitioner, and by deed of the same date from the Purchasers to the Petitioner, the Purchasers assigned, transferred and conveyed to the Petitioner all their and each of their right, title and interest in and to said property and franchises formerly of or belonging to the Railway Corporation, the Consolidated Company or their Receiver, and the Petitioner thereby acquired title to said property and franchises in the manner prescribed by law;

(5) that, in consideration of and in payment for said property and franchises, and in readjustment of the respective interests therein of the mortgagees and stockholders of and holders of claims against the Railway Corporation and the Consolidated Company, and in further consideration of the sum of \$1,000,000 in cash paid to the Petitioner for working capital and for its other corporate purposes as provided in said Agreement of Sale dated June 14, 1923, and of the further sum of \$5,000,350 in cash (being the proceeds of \$5,155,000 principal amount of Refunding Mortgage Five Per Cent. Sinking Fund Gold Bonds, Series A, at 97% of the principal amount thereof) which said Committee has agreed to cause to be paid to or deposited with the Trustee under the Refunding Mortgage hereinafter described for account of the Petitioner, the Petitioner has agreed in and by said Agreement of Sale and is obligated to issue and cause to be delivered to Brooklyn-Manhattan Transit Corporation (the corporation organized under Sections 9 and 10 of the Stock Corporation Law of the State of New York by said Committee acting under said Plan and Agreement dated March 15, 1923, for the Reorganization of Brooklyn Rapid Transit Company, as the successor to said company) and to such other persons as shall be entitled to receive the same in accordance with said Plan of Readjustment, bonds and shares of stock of the Petitioner, as follows:

\$93,508,500 principal amount of Refunding Mortgage Five Per Cent. Sinking Fund Gold Bonds, Series A, of the Petitioner, dated as of July 2, 1923, payable July 1, 1968, and otherwise as provided in the proposed Refunding Mortgage of the Petitioner submitted to the Commission, under which said bonds are to be issued and by which they are to be secured, and 189,000 shares of the capital stock of the Petitioner, without nominal or par value; and

(6) that the First and Refunding Mortgage and the Refunding Mortgage submitted to the Commission, and the said \$93,508,500 principal amount of Refunding Mortgage Five Per Cent. Sinking Fund Gold Bonds, Series A, and the said 189,000 shares of capital stock without nominal or par value, proposed to be issued, executed and delivered by the Petitioner, are the mortgages, bonds and stock contemplated and provided for in said Plan of Readjustment dated April 26, 1923, for the Reorganization of the Railway Corporation and the Consolidated Company, and are in accordance with the capitalization of the new company intended to be formed upon such reorganization, as authorized by

the order of the Commission made and granted herein on June 4, 1923, as aforesaid;

And it further appearing, and the Commission being of the opinion and finding that the execution and delivery by the Petitioner of said First and Refunding Mortgage and said Refunding Mortgage, and the issuance and delivery by the Petitioner of (1) \$93,508,500 principal amount of Refunding Mortgage Five Per Cent. Sinking Fund Gold Bonds, Series A, under said Refunding Mortgage payable at a period of more than twelve months after the date thereof, and (2) 189,000 shares of its capital stock, without nominal or par value, and the money or proceeds to be procured by the issuance and delivery of said bonds and said stock, are necessary to and reasonably required by the Petitioner for the acquisition of property or for the construction, completion, extension or improvement of its facilities or for the discharge of its obligations, and particularly for the purposes herein stated; and that, except as to \$154,650 principal amount of said bonds necessary to make up discount in connection with the sale and purchase of \$5,155,000 principal amount thereof at 97% of the principal amount thereof as provided in the aforesaid Agreement of Sale dated June 14, 1923, said purposes are not in whole or in part reasonably chargeable to operating expenses or to income;

SECTION I.

Ordered, That the Petitioner be, and it hereby is, authorized and permitted to intervene in and become a party to the above-entitled proceeding, with the same force and effect as though originally named therein as one of the parties thereto.

SECTION II.

Further Ordered, That the Commission does hereby consent to and authorize the Petitioner, in consideration of and part payment for the property and franchises formerly of or belonging to the Railway Corporation, the Consolidated Company or their Receiver sold to and acquired by the Petitioner as aforesaid, and in readjustment of the respective interests therein of the mortgagees and stockholders of and holders of claims against said Railway Corporation and said Consolidated Company as provided in said Plan of Readjustment dated April 26, 1923, to issue and deliver to Brooklyn-Manhattan Transit Corporation and to such other persons as shall be entitled to receive the same in accordance with the provisions of said Plan of Readjustment, 189,000 shares of its capital stock (constituting its entire authorized stock), without nominal or par value.

SECTION III.

Further Ordered, That, upon the Petitioner duly obtaining the consent of the stockholders owning its capital stock to an amount at least equal to that required by law, and not otherwise, the Commission does hereby consent to and authorize the issuance, execution and delivery by the Petitioner to Central Union Trust Company of New York, as Trustee, of a mortgage and deed of trust of its property and franchises, to be known as its First and Refunding Mortgage, to be dated as of July 2, 1923, to secure an authorized issue of First and Refunding Mortgage Gold Bonds limited to the principal amount of not to exceed \$73,000,000 at any one time outstanding and to be in the form of the proposed First and Refunding Mortgage submitted to the Commission, which is hereby approved and ordered filed and properly identified by reference thereon to this order; provided, however, that nothing contained in this order is intended or shall be deemed to constitute the consent by the Commission to or the authorization by it of the present issuance of any bonds under or secured by said First and Refunding Mortgage.

SECTION IV.

Further Ordered, That, upon the Petitioner duly obtaining the consent of the stockholders owing its capital stock to an amount at least equal to that required by law, and not otherwise, the Commission does hereby consent to and authorize the issuance, execution and delivery by the Petitioner to The Chase National Bank of the City of New York, as Trustee, of a mortgage and deed of trust of its property and franchises, to be known as its Refunding Mortgage, to be dated as of July 2, 1923, to secure an authorized issue of Refunding Mortgage Gold Bonds limited to the principal amount of not to exceed \$350,000,000 at any one time outstanding and to be in the form of the proposed Refunding Mortgage submitted to the Commission, which is hereby approved and ordered filed and properly identified by reference thereon

to this order; provided, however, that nothing contained in this order is intended or shall be deemed to constitute the consent by the Commission to or the authorization by it of the present issuance of any bonds under or secured by said Refunding Mortgage, except \$93,508,500 principal amount of Refunding Mortgage Five Per Cent. Sinking Fund Gold Bonds, Series A.

SECTION V.

Further Ordered, That the Petitioner be and it is hereby authorized, in consideration of and part payment for the property and franchises formerly of or belonging to the Railway Corporation, the Consolidated Company or their Receiver sold to and acquired by the Petitioner as aforesaid, and in readjustment of the respective interests therein of the mortgagees and stockholders of and holders of claims against said corporations, and in further consideration of the cash amounts paid and to be paid to or deposited for account of the Petitioner as provided in said Agreement of Sale dated June 14, 1923, to issue and deliver, under and pursuant to the terms of said Refunding Mortgage of the Petitioner, to said Brooklyn-Manhattan Transit Corporation and to such other persons as shall be entitled to receive the same in accordance with the provisions of said Plan of Readjustment dated April 26, 1923 and said Agreement of Sale dated June 14, 1923, \$93,508,500 principal amount of Refunding Mortgage Five Per Cent. Sinking Fund Gold Bonds, Series A, dated as of July 2, 1923, payable July 1, 1968, redeemable on any semi-annual interest payment date at 107½% of the principal amount thereof and accrued interest and bearing interest at 5% per annum payable semi-annually and otherwise as provided in said Refunding Mortgage.

SECTION VI.

Further Ordered, That the issuance and delivery by the Petitioner of said \$93,508,500 principal amount of Refunding Mortgage Five Per Cent. Sinking Fund Gold Bonds, Series A, are authorized upon the following conditions and not otherwise, which conditions the Petitioner undertakes to perform as evidenced by the acceptance of this order and which may be enforced against the Petitioner by appropriate legal proceedings, to wit:

First: That at or prior to the time of the issuance and delivery of said \$93,508,500 principal amount of Refunding Mortgage Five Per Cent. Sinking Fund Gold Bonds, Series A, there shall be deposited with The Chase National Bank of the City of New York, as Trustee under said Refunding Mortgage and in accordance with the provisions of Section 1 of Article Two thereof, the sum of \$5,000,350 in cash, to be held and applied by said Trustee from time to time to some one or more of the purposes to which, under and subject to the provisions and restrictions of said Refunding Mortgage, moneys on deposit with the Trustee as Deposited Cash (as such term is defined in Section 5 of Article Two thereof) may be applied.

Second: That the authority hereby given to issue said \$93,508,500 principal amount of Refunding Mortgage Five Per Cent. Sinking Fund Gold Bonds, Series A, shall apply only to bonds issued by the Petitioner on or before July 1, 1924.

SECTION VII.

Further Ordered, That the Petitioner keep separate, true and accurate accounts showing the receipt and application in detail of the proceeds of the sale or sales or disposal of the bonds and stock hereby authorized to be issued and on or before the 10th day of each month the Petitioner shall make verified reports to the Commission stating the sale or disposition of said bonds and stock during the previous month, the terms and conditions of such sale or disposal, the moneys realized therefrom and the use and application of such moneys; and said accounts, vouchers and records shall be open to audit and may be audited from time to time by accountants and examiners designated for such purpose by the Commission. So much of said bonds and stock issued as shall not be required to carry out said Plan of Readjustment and said Agreement of Sale dated June 14, 1923, shall be returned to the Petitioner and cancelled.

SECTION VIII.

Further Ordered, That an executed counterpart original of said First and Refunding Mortgage and an executed counterpart original of said Refunding Mortgage hereby consented to and authorized, each having endorsed thereon or annexed thereto a certifi-

cate executed by the President or a Vice-President of the Petitioner, under its corporate seal, attested by its Secretary or an Assistant Secretary, showing the consent of the stockholders owning the capital stock of the Petitioner to the execution and delivery of each of said mortgages, to an amount at least equal to that required by law, shall be filed by the Petitioner with the Secretary of the Commission upon the execution and delivery of said respective mortgages.

SECTION IX.

Further Ordered, That the Commission, pursuant to the provisions of Section 54 of the Public Service Commission Law, does hereby consent to and approve the conveyance, assignment and transfer to the Petitioner of the property and franchises formerly of or belonging to the Railway Corporation, the Consolidated Company or their Receiver sold to and acquired by the Petitioner as aforesaid, and that, pursuant to the provisions of said Section of the Public Service Commission Law and pursuant to the provisions contained in the contracts and certificates described as follows:

(a) Contract dated March 19, 1913, entered into between The City of New York, acting by the Public Service Commission for the First District of the State of New York, and New York Municipal Railway Corporation, as heretofore modified or supplemented, known as Contract No. 4;

(b) Certificate dated March 19, 1913, granted by said Public Service Commission to and accepted by said New York Municipal Railway Corporation, providing for extensions of elevated railroads; and

(c) Certificate dated March 19, 1913, granted by said Public Service Commission to and accepted by said New York Municipal Railway Corporation, providing for additional tracks;

the Commission does hereby consent to and approve the assignment and transfer of said contract and certificates to the Petitioner, and does hereby consent to and approve the mortgage of said property, franchises, contracts and certificates by including the same in the aforesaid First and Refunding Mortgage and in the aforesaid Refunding Mortgage of the Petitioner.

SECTION X.

Further Ordered, That this order is made, and the findings, consents, approvals and authorizations herein contained are respectively made or given and granted, without prejudice to any rights, claims or defenses, whether accrued or to accrue, of The City of New York or of the Petitioner, under or in connection with the aforesaid contract dated March 19, 1913, as heretofore modified or supplemented, known as Contract No. 4, or under or in connection with either of the aforesaid certificates of the same date for extensions of elevated railroads and for additional tracks, respectively.

SECTION XI.

Further Ordered, That this order is made and the findings, approvals, consents and authorizations herein contained are respectively made or given and granted by the Commission in the exercise of all of the powers in that behalf in it vested under the Public Service Commission Law of the State of New York and Chapter 4 of the Laws of 1891 of said State, entitled "An Act to Provide for rapid transit railways in cities of over one million inhabitants," and the acts amendatory thereof and supplemental thereto, and under the provisions of the contract and certificates hereinbefore in Section IX described, notwithstanding any reference herein to any particular provision of any thereof; subject, however, to the provisions of Section X of this order.

SECTION XII.

Further Ordered, That this order take effect upon its date, and, except as provided in Subdivision Second of Section VI limiting the duration of the authority to issue the said \$93,508,500 principal amount of Refunding Mortgage Five Per Cent. Sinking Fund Gold Bonds, Series A, continue in force until otherwise ordered by the Commission, and that within ten days after service upon it of a copy of this order the Petitioner, and said Committee acting under said Plan of Readjustment dated April 26, 1923, notify this Commission whether the terms of this order are accepted and will be obeyed.

BY THE COMMISSION,
FRANK N. ROBINSON,
Acting Secretary.

Hearings

The following hearings were held:

11:30 A. M.; R. T. 7602; Draft form of contract for construction of column foundations for Section No. 2 of Route No. 52, Flushing Line. Chairman McAneny presided. Hearing closed.

11:30 A. M.; R. T. 7702; Draft form of contract for furnishing and erecting structural steel for Section No. 2 of Route No. 52, Flushing Line. Chairman McAneny presided. Hearing closed.

11:30 A. M.; R. T. 7664; Draft form of contract for construction of station finish at Lawrence Street Station of the Broadway-Fourth Avenue Rapid Transit Railroad, Borough of Brooklyn. Chairman McAneny presided. Hearing closed.

FRANK N. ROBINSON,
Acting Secretary.

Proceedings for Tuesday, September 18, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

1280

The Minutes of the Proceedings for the month of June, 1923, were approved.

1281—R. T. 7536

Route No. 8, Sections Nos. 1 to 5—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Furnishing and Placing in Storage Broken Stone under Contract for Installation of Tracks—Approval Resolution

A report was presented from the Chief Engineer dated September 15, 1923, recommending the establishment of a supplementary schedule item, as described below, and the following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission, in pursuance of Item No. 3000 of the contract dated October 25, 1922, between The City of New York, acting by the Commission, and the T. H. Reynolds Contracting Company, Inc., for the installation of tracks for the 14th Street-Eastern Line, Route No. 8, Sections 1 to 5 inclusive, having, subject to the approval of the Commission, agreed with the said contractor upon the following schedule item:

Item No. 2-X For furnishing and placing in storage on the North 7th Street Pier, Brooklyn, as directed by the Engineer, approximately 350 cubic yards of broken stone "Class A" ballast, at a price of \$3.75 per cubic yard.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1282—R. T. 7690

Routes Nos. 70-A-1 and 70-B—Report by Chief Engineer Recommending Location of Stations on North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue and Manhattan Avenue, Roebling Street and Bedford Avenue Routes—Approval Resolution

A report was presented from the Chief Engineer dated September 15, 1923, recommending the approval of the location of stations on the Brooklyn Crosstown Line, Routes Nos. 70-A-1 and 70-B, as described below.

The following resolution was adopted:

Whereas, By communication dated August 13, 1923 the Chief Engineer of this Commission reported with respect to the tentative locations of stations on the North Jane Street, Jackson Avenue, Newtown Creek and Manhattan Avenue Route, Route No. 70-A-1 and the Manhattan Avenue, Roebling Street and Bedford Avenue Route, Route No. 70-B; and

Whereas, Thereafter and on September 13, 1923 this Commission held a public hearing upon the question of the locations of stations on the said foregoing rapid transit routes constituting parts of the so-called Brooklyn Crosstown Line; and

Whereas, By communication dated September 15, 1923 as supplemented by the following communication of September 15, 1923:

“This supplements my letter of even date in reference to proposed location of stations on Routes Nos. 70-A-1 and 70-B of the Brooklyn Crosstown Line.

“After due consideration of the various suggestions made at the public hearing held on September 13, 1923 as to location of stations, I respectfully

“Recommend that the location of stations on the Brooklyn Crosstown Line be as follows:

Street Along Which Route Passes

North Jane Street

Jackson Avenue

Manhattan Avenue

Roebling Street

Williamsburgh Bridge Plaza
and Roebling Street
Bedford Avenue

Location of Stations

Hancock Street to Sherman Avenue

William Street to Prospect Street

Mott Avenue to Pearson Street

Sixth Street to Fourth Street

Dupont Street to Freeman Street

Greenpoint Avenue to Noble Street

Nassau Avenue to Driggs Avenue

North 9th Street to North 7th Street

Centered on Grand Street

Centered on Broadway

Keap Street to Hewes Street

Lynch Street to Flushing Avenue

Myrtle Avenue to Willoughby Avenue

Clifton Place to Lexington Avenue

Putnam Avenue to Hancock Street.”

the Chief Engineer has recommended the permanent location of stations as hereinbefore set forth.

Resolved, That the said report of September 15, 1923 aforesaid be and the same hereby is approved and that the locations of stations on said Routes Nos. 70-A-1 and 70-B as therein indicated be and the same hereby are approved.

1283—R. T. 6924

Contract No. 1—Application by President of Borough of Manhattan for Approval of Proposed Permit for Raising of Ventilating Grating and Emergency Exit Covers at Broadway and Seventh Avenue, 46th to 47th Streets, Borough of Manhattan—Report by Chief Engineer Stating Same Is Satisfactory—Approval Resolution

An application was presented from Hon. Julius Miller, President of the Borough of Manhattan, dated September 10, 1923, requesting approval of a proposed permit

issued by the Interborough Rapid Transit Company for raising of the ventilating grating and emergency exit covers of the Manhattan-Bronx Rapid Transit Railroad at Broadway and Seventh Avenue, 46th to 47th Streets, Borough of Manhattan.

A report was presented from the Chief Engineer dated September 17, 1923, stating that the proposed permit is satisfactory from an engineering standpoint.

The following resolution was adopted:

Whereas, The President of the Borough of Manhattan by communication dated September 10, 1923, has requested approval of this Commission of a proposed permit dated August 20, 1923, to be issued by Interborough Rapid Transit Company granting permission to raise the ventilating grating and emergency exit covers of the Manhattan-Bronx Rapid Transit Railroad, at the intersection of Broadway and Seventh Avenue, 46th to 47th Streets, in the Borough of Manhattan, City of New York, as more particularly indicated upon the plan or drawing attached to and made part of said proposed permit, which proposed permit has been accepted by the President of the Borough of Manhattan; and

Whereas, The Chief Engineer of this Commission, by communication dated September 17, 1923 addressed to Counsel to the Commission, reports that said proposed permit has been examined and found satisfactory from an engineering standpoint; and

Whereas, Counsel has examined said proposed permit and finds no objection thereto,

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed permit so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed permit.

1284—R. T. 6924

Route No. 31—Application by Interborough Rapid Transit Company for Approval of Proposed Permit to New York Telephone Company to Install Bond on Elevated Column at Sutter Avenue and East 98th Street—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated August 31, 1923, requesting approval of a proposed permit to be issued to the New York Telephone Company, to install a bond on Elevated Column No. 15-E, at Sutter Avenue and East 98th Street, Borough of Brooklyn.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated September 15, 1923, stating that the proposed permit is satisfactory from an engineering standpoint.

The following resolution was adopted:

Whereas, By communication dated August 31, 1923, Frank Hedley as President and General Manager of Interborough Rapid Transit Company, has submitted for the approval of this Commission a proposed permit dated July 18, 1923 to be issued to New York Telephone Company and accepted by said New York Telephone Company on August 14, 1923 granting the permission to install and maintain with its cable system a bond to be located at Column No. 15-E at Sutter Avenue and East 98th Street of the Livonia Avenue Line of the Eastern Parkway Rapid Transit Railroad, upon the terms and conditions as more particularly set forth in said proposed permit; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated September 15, 1923 have reported that the proposed bond will involve no risk of injury to the railroad structure; that the form

of permit is satisfactory from an engineering standpoint and recommend the approval thereof; and

Whereas, Counsel has examined the said proposed permit and finds no objection thereto,

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed permit so submitted be and the same hereby is approved, and that the Chairman and Secretary of this Commission be and they hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed permit.

1285—R. T. 6924

Routes Nos. 4 & 38, Section No. 3—Application by Pure Oil Company for Approval of Proposed Permit Issued by Interborough Rapid Transit Company for Substitution of Heavier Type of Ventilating Gratings in Front of Premises at West Side of Seventh Avenue, North of Morton Street, Borough of Manhattan—Report by Chief Engineer Stating Same Is Satisfactory—Approval Resolution

An application was presented from the Pure Oil Company, dated September 12, 1923, requesting approval of a proposed permit issued by the Interborough Rapid Transit Company, for the approval of the substitution of a heavier type of ventilating grating in front of premises at west side of Seventh Avenue, North of Morton Street, Borough of Manhattan.

A report was presented from the Chief Engineer dated September 17, 1923, stating that the proposed permit is satisfactory from an engineering standpoint.

The following resolution was adopted:

Whereas, The Pure Oil Company has by communication dated September 12, 1923 submitted for the approval of this Commission a proposed permit dated July 24, 1923, to be issued by Interborough Rapid Transit Company, granting the right to said Pure Oil Company to remove certain sections of the ventilator gratings forming part of the Municipal Rapid Transit Railroad, extending under and along Seventh Avenue in the Borough of Manhattan and in front of the premises located on the west side of Seventh Avenue just north of the intersection of Seventh Avenue and Morton Street and to substitute therefor a heavier type of grating and concrete slabs as more particularly shown upon the plan or drawing made part of said proposed permit for the purpose of providing two driveways across the sidewalk to the said premises, and which said proposed permit has been accepted under date of August 29, 1923 by the said Pure Oil Company and by the Wendell & Evans Company of New York City, the owner of said premises; and

Whereas, The Chief Engineer of this Commission by communication dated September 17, 1923 has reported that the said proposed permit is satisfactory from an engineering standpoint with the exception hereinafter noted; and

Whereas, Counsel to the Commission has examined said proposed permit and finds no objection thereto,

Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed permit so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed permit, the approval of the Transit Commission being upon condition that the said permit shall before delivery thereof be changed in the following respects:

Page 3, Line 5, take out the first "of" and substitute therefor "to."

1286—R. T. 6924

Routes Nos. 19 & 22, Section No. 1-A—Application by Pure Oil Company, for Approval of Proposed Permit Issued by Interborough Rapid Transit Company for Substitution of Heavier Type of Ventilating Gratings in Front of Premises at Southeast Corner of Southern Boulevard and East 163rd Street, Borough of The Bronx—Report by Chief Engineer Stating Same Is Satisfactory—Approval Resolution

An application was presented from the Pure Oil Company, dated September 12, 1923, requesting approval of a proposed permit issued by the Interborough Rapid Transit Company, for the substitution of a heavier type of ventilating grating in front of the premises at the southeast corner of Southern Boulevard and East 163rd Street, Borough of The Bronx.

A report was presented from the Chief Engineer dated September 17, 1923, stating that the proposed permit is satisfactory from an engineering standpoint.

The following resolution was adopted:

Whereas, The Pure Oil Company by communication dated September 12, 1923 has submitted for the approval of this Commission a proposed permit dated August 3, 1923, to be issued by Interborough Rapid Transit Company, granting the right to remove certain sections of the ventilator gratings installed as part of the municipal rapid transit railroad extending under and along Southern Boulevard in the Borough of The Bronx, City of New York, in front of the premises located on the east side of Southern Boulevard, at the intersection of East 163rd Street, in said Borough and to substitute therefor a heavier type of gratings to provide a driveway across the sidewalk to said premises, which said proposed permit has been accepted by said Pure Oil Company and by D. & D. Land & Improvement Company, Inc., the owner of said premises; and

Whereas, The Chief Engineer of this Commission by communication dated September 17, 1923, reports that the said proposed permit is satisfactory from an engineering standpoint; and

Whereas, Counsel has examined said proposed permit and finds no objection thereto, Resolved, That said report and recommendation be and the same hereby are approved; that the said proposed permit so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed permit.

1287—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Signal Air Line at 239th Street Yard—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated August 30, 1923, requesting approval of a proposed purchasing agent's order directed to M. O'Neil Supply Company for furnishing pipe for a signal air line for the 239th Street Yard at a total cost of \$2,675.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated September 11, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District,

and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company, by communication dated August 30, 1923, has submitted for the approval of this Commission a proposed purchasing agent's order dated August 30, 1923, directed to M. O'Neil Supply Company for the following:

5,000 Ft. 2" Galv. iron pipe, extra heavy good quality coupling at one end and protector sleeve at the other end.

Price: \$0.53½ per ft..... \$2,675.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 501"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated September 11, 1923, reported that such material is to be used for a signal air line for the 239th Street Yard of the White Plains Road Line of the Railroad, as described in said Contract No. 3; that the following bids were received for such material:

	Price per ft.
M. O'Neil Supply Co.....	\$0.535
R. J. Donovan Co.....	0.57065
Cornell and Underhill.....	0.601
McMann and Taylor Co.....	0.6565
Crane Co.	Did not quote
John Simmons Co.....	Did not quote

; that the award is to the lowest bidder which is competent to supply the material required; that the quantity ordered is necessary and the price reasonable, and recommend the approval of said proposed purchasing agent's order so submitted; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated September 18, 1923, has recommended that the cost of such material utilized for original installation be classified as Equipment of the Railroad, and that the excess of such material, if any, be classified as Operating Materials and Supplies Account,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such material, in so far as it is utilized for original installation, shall be classified as Equipment of the Railroad and any excess shall be classified as Operating Materials and Supplies Account.

1288—R. T. 6761

Manhattan Division—Application by Interborough Rapid Transit Company for Approval of Proposed Purchase of Scoop Conveyor for Use in 159th Street Yard—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated September 4, 1923, requesting approval of the proposed purchase from the Portable Machinery Company of a scoop conveyor equipped with a motor, starter and switch for use in the 159th Street Yard, at an approximate cost of \$680.

A report was presented from the Engineer of Equipment and Operation, and the Chief Engineer, dated September 12, 1923, stating that the conveyor is necessary and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the cost as Additions to Existing Manhattan Railroads and assigning Work Order No. IMA-6 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Certificate dated March 19, 1913, granted by the Public Service Commission for the First District to Manhattan Railway Company for additional tracks on Second Avenue, Third Avenue and Ninth Avenue Lines, the Interborough Rapid Transit Company as lessee of said Manhattan Railway Company

by communication dated September 4, 1923 has submitted for the approval of this Commission, its proposal to purchase a scoop conveyor for use in the 159th Street Yard of the Manhattan Division at a total approximate cost of six hundred and eighty dollars (\$680); and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated September 12, 1923, have reported that the conveyor is necessary to facilitate the loading of trucks or cars with sand, ashes or coal and will reduce the cost of this operation; that no bids were taken as this particular type of conveyor was desired; that the price is reasonable and recommended the approval of the proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated September 17, 1923, has recommended that the cost of such conveyor be classified as Additions to Existing Manhattan Railroads and that Work Order #IMA-6 be assigned thereto; and

Whereas, A stipulation dated March 19, 1923, has been entered into between The City of New York, acting by the Transit Commission and said Interborough Rapid Transit Company with respect to the proper interpretation and meaning of the provisions of said Additional Track Certificate and the Certificate for Elevated Extensions allied therewith in particular relation to betterments, improvements or additions to the Existing Manhattan Railroads,

Resolved, That the said reports and recommendations be and the same hereby are approved; that pursuant to said Additional Track Certificate and said stipulation of March 9, 1923, this Commission approves said proposal to install such scoop conveyor in the 159th Street Yard of the Manhattan Division of said Company upon condition that the cost thereof shall be classified as Additions to Existing Manhattan Railroads and as to which this Commission assigns Work Order #IMA-6.

1289—R. T. 6694

Routes Nos. 19 & 22—Application by Interborough Rapid Transit Company for Approval of Installation of Additional Signal North of Longwood Avenue Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated August 29, 1923, requesting approval to the installation of an automatic signal on the southbound local track No. 2 about 300 feet north of the Longwood Avenue Station of the Pelham Line at an estimated cost of \$1800.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer stating that the additional signal will give necessary protection to a train standing in the station and recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Additional Equipment for the Railroad and assigning Work Order No. IBA-13 thereto.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company has, by communication dated August 29, 1923, submitted for the approval of this Commission its proposal to install an additional signal on the southbound local track of the Pelham Line of the Railroad as described in said Contract No. 3, approximately 300 feet north of the Longwood Avenue Station of said line, at an approximate cost of \$1800; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have, by communication dated September 12, 1923, reported that the additional signal is recommended, because at the present time a train standing in the said Longwood Avenue Station cannot be seen by the motorman of a following train on account of the grade; that such additional signal will give the necessary protection to a train standing in said station; that the estimated cost is reasonable and recommend the approval of such proposal; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated September 18, 1923, has recommended that the cost of such additional signal be classified as Additional Equipment for the Railroad and that Work Order No. IBA-13 be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company to install such additional signal at the location indicated be and the same hereby is approved, the cost of such installation to be classified as Additional Equipment for the Railroad and as to which this Commission assigns Work Order No. IBA-13.

1290—R. T. 6449

Contract No. 4—Application by New York Consolidated Railroad Company for Approval of Contract between New York Rapid Transit Corporation and William S. Jacobs, for Sale of Premises at Northwesterly Corner of 64th Street and 15th Avenue, Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the New York Consolidated Railroad Company, dated August 2, 1923, requesting approval of a proposed contract between the New York Rapid Transit Corporation and William S. Jacobs, covering the sale of certain premises at the northwesterly corner of 64th Street and 15th Avenue, Borough of Brooklyn, at the selling price of \$15,000.

A report was presented from the Real Estate Clerk, dated September 15, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, J. H. Bennington, Real Estate & Tax Agent for New York Consolidated Railroad Company, under date of August 2, 1923, has made request for approval of a contract between New York Rapid Transit Corporation, as Vendor, and William S. Jacobs, as Vendee, covering the sale of certain premises at the northwesterly corner of 64th Street and 15th Avenue, Borough of Brooklyn, said premises having been originally acquired as part of a larger parcel, a portion of which has been used in connection with the construction of the Sea Beach Line and being assessed at \$8,200., the agreed selling price being \$15,000., payable \$1,500. on the signing of the contract, \$3,500. on the delivery of the deed and the balance, \$10,000., by a purchase money bond and mortgage due on or before three years with interest thereon at the rate of 6% per annum, and upon certain other terms more particularly set forth in said contract; and

Whereas, The Real Estate Clerk under date of September 15, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid contract, and that the Secretary be, and he hereby is, authorized and directed to transmit a copy of this resolution to the said J. H. Bennington.

1291—R. T. 6449

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Contract with Lester H. Davis, for Sale of Premises on Easterly Side of Puntine Street, South of Jamaica Avenue, Borough of Queens—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated August 21, 1923, requesting approval of a proposed contract with Lester H. Davis, covering the sale of certain premises on the easterly side of Puntine Street, south of Jamaica Avenue, Borough of Queens, at the selling price of \$2,500.

A report was presented from the Real Estate Clerk, dated September 17, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, J. H. Bennington, Real Estate & Tax Agent for New York Rapid Transit Corporation, has under date of August 21, 1923, pursuant to the provisions of Contract No. 4, made application for the approval of a contract between New York Rapid Transit Corporation, as Vendor, and Lester H. Davis, as Vendee, covering the sale of a certain strip of vacant land on the easterly side of Puntine Street distant 177.67 feet southerly from the southerly line of Jamaica Avenue, Borough of Queens, for the selling price of \$2,500, upon certain terms as more particularly set forth in said contract, a copy of which is attached to said application; and

Whereas, The Real Estate Clerk, under date of September 17, 1923, has reported recommending that this contract be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid contract, and that the Secretary be, and he hereby is, authorized and directed to transmit a copy of this resolution to the said J. H. Bennington.

1292—R. T. 6554

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Agreement Terminating Lease for Premises at Ocean and Parkside Avenues, Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated July 23, 1923, requesting approval of a proposed agreement terminating the lease dated October 9, 1922, between The New York Consolidated Railroad Company and M. H. Levin, as of January 15, 1923, for the premises at Ocean and Parkside Avenues, Borough of Brooklyn.

A report was presented from the Real Estate Clerk dated September 12, 1923, stating that the Lessee was unable to secure the consent of the local authorities to the establishment of a gasoline station, and that physical possession was not taken of the premises, and recommending that the application be approved:

The following resolution was adopted:

Whereas, The Commission on October 18, 1922, approved the application of J. H. Bennington, In Charge of Real Estate for Lindley M. Garrison, Receiver, New York Consolidated Railroad Company, dated October 10, 1922, for the approval of a lease to M. H. Levin of premises at the above location at an annual rental of \$2,500, for a period of five years beginning the first day of November, 1922, for a gasoline station, and upon certain other conditions; and

Whereas, J. H. Bennington, Real Estate & Tax Agent for New York Rapid Transit Corporation, by communication dated July 23, 1923, has submitted for approval an agreement terminating a certain lease dated October 9, 1922, which is the lease above referred to between New York Consolidated Railroad Company and the said M. H. Levin, as of January 15, 1923, upon certain terms and conditions more particularly set forth in the proposed form of agreement, because of the inability of the lessee to secure the requisite authorization of public authorities to maintain a gasoline station at the above location; and

Whereas, The Real Estate Clerk under date of September 13, 1923, has reported upon this proposed form of agreement terminating the said lease, recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid proposed form of agreement terminating the said lease, and that the Secretary be and he hereby is, authorized and directed to transmit a copy of this resolution to the said J. H. Bennington.

1293—R. T. 6597, 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Installation of Automatic Low Type Turnstile Control at 36th Street, Whitehall Street, DeKalb Avenue and Queens Plaza Stations—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated August 31, 1923, requesting approval of a proposed Purchasing Agent's Order, directed to the Whale Creek Iron Works, for the installation of automatic entrance and exit turnstiles at the 36th Street, Whitehall Street, DeKalb Avenue and Queens Plaza Stations, at a total cost of \$4,136.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated September 12, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment for the Railroad, to be performed under Work Order No. MBA-21, heretofore assigned.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4 and pursuant also to the provisions of the Certificates for Elevated Extensions and Additional Tracks allied with said Contract No. 4, the Transit Commission by resolution adopted April 25, 1923, approved of the installation of automatic low type turnstile control on the stations of the Railroad, the Existing Railroads and Elevated Extensions as said terms are defined in said Contract No. 4 and said Certificates and classified such work on the Railroad as Additional Equipment for the Railroad, and assigned thereto Work Order No. MBA-21; and

Whereas, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4 and said Certificates, by communication dated August 31, 1923, has submitted for the approval of this Commission, a proposed purchasing agent's order dated August 30, 1923, directed to Whale Creek Iron Works, for the following:

Furnish and deliver to the Stations indicated below, complete ready for installation by others, materials as required for the installation of automatic prepayment passimeters, entrance and exit turnstiles, railings, guards, grilles, posts, extensions to railings, etc., all as indicated upon our drawings C-5649, C5647, C-5656, C-5655, C-5691-1, C-5673, C-5588-3, C-5586, C-5646-1, as called for in our specifications dated August 9, 1923, amount to be paid account of each station being as follows:

36th St. Station	\$464.00
Whitehall St.—South	452.00
Whitehall St.—North	598.00
DeKalb Ave.	463.00
Queens Plaza	2,159.00

; which proposed purchasing agent's order has been caused to be designated as "Approval No. 370"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated September 12, 1923, reported that the following bids were received for such work:

	Total Bid for
	4 Stations.
Whale Creek Iron Works.....	\$4,136.00
Albee and Godfrey	5,200.00
Vulcan Rail and Construction Co.....	5,841.00
H. H. Uris Iron Works.....	5,942.00

that the award is to the lowest bidder, who is fully competent to perform the work; that the plans for the installation of such materials and turnstiles have already been approved by the Chief Engineer of this Commission; that the specifications forming part of said proposed purchasing agent's order are satisfactory and recommended the approval thereof in accordance with the Commission's action of April 25, 1923, aforesaid; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated September 17, 1923, has recommended that the work included in said proposed purchasing agent's order be classified as Additional Equipment for the Railroad under Work Order No. MBA-21, assigned, as aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved; that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of the work under such order hereby approved to be classified as Additional Equipment for the Railroad as defined in said Contract No. 4, under Work Order No. MBA-21, heretofore assigned as aforesaid.

1294—Case 2628

New York Consolidated Railroad Company—Service and Equipment—Order Modifying Service Order "A" of July 13, 1922, Adopted

The Secretary presented a report, dated September 13, 1923, by George F. Daggett, Chief of Transit Bureau, approved by the Acting Chief Executive Officer, recommending that Service Order "A" in Case No. 2628, adopted July 13, 1922, be amended by adding a clause to the effect that on all holidays not classed as Legal Holidays, the New York Rapid Transit Corporation should submit to the Commission at least ten days before such holiday an outline of the service to be operated on such line.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2628, in the following form:

Present:

GEORGE McANENY, Chairman,	}	COMMISSIONERS.
LEROY T. HARKNESS,		

IN THE MATTER
of the

Hearing on the motion of the Commission upon the regulations, practices, equipment, appliances and service of the NEW YORK CONSOLIDATED RAILROAD COMPANY, the NEW YORK MUNICIPAL RAILWAY CORPORATION, and LINDLEY M. GARRISON, as Receiver of said NEW YORK CONSOLIDATED RAILROAD COMPANY and NEW YORK MUNICIPAL RAILWAY CORPORATION.

Case No. 2628.

ORDER MODIFYING SERVICE
ORDER "A" OF JULY 13, 1922.

Whereas, The Transit Commission by Order adopted herein on July 13, 1922, required certain service to be rendered as therein more particularly set forth; and

Whereas, This Commission is of the opinion that certain modifications should now be made in said Order for the purpose of making more clear its application in respect to service to be rendered on other than normal days.

Ordered, That the said Order of July 13, 1922 be modified in the following respect: Subdivision (6) of said Order, reading as follows,

"(6) The New York Consolidated Railroad Company and Lindley M. Garrison, as Receiver for said New York Consolidated Railroad Company, may apply to the Commission on or before the first Tuesday of each month, or at other times if sufficient cause be shown, for changes or modifications of any existing schedule due to variations in traffic."

be and the same hereby is modified so as to read as follows:

(6) The New York Consolidated Railroad Company and Lindley M. Garrison as Receiver for said New York Consolidated Railroad Company and/or their successors or assigns, may apply to the Commission on or before the first Tuesday of each month, or at other times, if sufficient cause is shown, for changes or modifications of any existing schedule, due to variations in traffic and the said company and its Receiver or their successors or assigns shall procure from the Commission the prior approval to any change in such schedule before placing any changed schedule in effect.

Further Ordered, That except as herein specifically modified, the Order of July 13, 1922 shall remain in all respects unchanged and in full force and effect.

BY THE COMMISSION,
JAMES B. WALKER,
Secretary.

1295—Case 2627

Interborough Rapid Transit Company—Service and Equipment—Extension Order Adopted

The Secretary presented a communication, dated September 17, 1923, from Frank Hedley, President and General Manager, Interborough Rapid Transit Company, requesting a further extension of time to October 1, 1923, within which to notify the Commission whether the Order in Case No. 2627, amending Service Order "B," was accepted and would be obeyed.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2627, granting extension of time to and including September 30, 1923.

1296—R. T. 6114

Contract No. 1—Consents by Assignee, Contractor and Sureties upon Bond to Assignment of \$28,000 Retained Percentages under Contract for Construction of New Entrance at 168th Street Station—Filed

The Commission ordered filed consents of The First National Bank of the City of Boston, Holbrook, Cabot & Rollins Corporation and sureties upon the bond deposited by the contractor to the assignment dated August 28, 1923, made by Holbrook, Cabot & Rollins Corporation, to The First National Bank of the City of Boston, of the sum of \$28,000 retained percentages held by the City as additional security under the contract for the construction of a new entrance to the 168th Street Station of the Manhattan-Bronx Rapid Transit Railroad.

1297—R. T. 7230

Rapid Transit Railroads—Communication from Chief Engineer Submitting List of Sub-contracts Approved during Month of August, 1923—Filed

The following report by the Chief Engineer was ordered filed:

September 10, 1923.

To the TRANSIT COMMISSION:

List of Sub-Contracts.

I submit, as follows, a list of sub-contracts, approved by this Department during the month of August.

Route No.	Section No.	Contractor	Sub-Contractor	Date of Approval	Materials
148th St. & Lenox Ave. Yard, Second Addition to Shops.		Jacob Schlesinger, Inc.	World Fireproof Door Corporation	8/15/23	Kalamein doors.
180th St. Yard, Inspection Shed Enclosure.		Rosenthal Engineering Contracting Co., Inc.	J. I. Hase, Inc.	8/ 3/23	Work of painting.
Jerome Ave. Yard, Inspection Shed Enclosure.		Jacob Schlesinger, Inc.	Levgar Structural Co.	8/ 8/23	Structural Steel.
Agreement "CJ"—Concrete and Steel Highway Bridge at 9th Ave. bet. 37th and 38th Sts., Brooklyn.		M. A. Charles	Buoniello Contracting Co.	8/ 7/23	Sand from pit of McVeigh & McCrodden, and broken stone from stock.
Agreement "CJ"—Concrete and steel Highway Bridge at 9th Ave. bet. 37th and 38th Sts., Brooklyn.		M. A. Charles	Concrete Steel Co.	8/24/23	Reinforcing Rods.
Agreement "CM"—Reconstructing retaining wall at North Jane St., Queens Borough, Rt. 61.		Hamme & Jackson	Hunterspoint Lumber & Supply Co.	8/20/23	Sand, gravel and "Lehigh" Portland Cement T. C. Inspected.

ROBERT RIDGWAY,
Chief Engineer.

1298

Employees' Calendar No. 165

On motion duly seconded the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Thomas A. Anderson, engineering inspector, at \$150.08 per month, to take effect September 24, 1923; William J. Broderick, engineering inspector, at \$150.08 per month, to take effect September 24, 1923; Amedeo Carmina, engineering inspector, at \$150.08 per month, to take effect September 24, 1923; Abraham Kaufman, engineering inspector, at \$150.08 per month, to take effect September 24, 1923; Percival P. Little, engineering inspector, at \$150.08 per month, to take effect September 24, 1923; Roland J. McAuliffe, engineering inspector, at \$150.08 per month, to take effect September 24, 1923; John L. McGowan, engineering inspector, at \$150.08 per month, to take effect September 24, 1923; Granville W. Pullis, assistant photographer, at \$125.00 per month, to take effect September 24, 1923; William Russell, engineering inspector, at \$150.08 per month, to take effect September 24, 1923; William H. Snow, engineering inspector, at \$150.08 per month, to take effect September 24, 1923; Alexander Zigmund, file clerk, at \$90.00 per month, to take effect October 1, 1923.

Appointments under Rule VIII:4—William Barasch, junior assistant, at \$125.08 per month, to take effect September 13, 1923; Anthony Barranco, junior clerk, at \$60.00 per month, to take effect September 12, 1923; Irving Eimerman, junior assistant, at \$125.08 per month, to take effect September 17, 1923; James J. Foley, junior assistant, at \$125.08 per month, to take effect September 12, 1923; Eli Frankle, draftsman, at \$150.08 per month, to take effect September 14, 1923; Murray M. Fass, Jr., junior assistant, at \$125.08 per month, to take effect September 17, 1923; Joseph P. Gowan, junior assistant, at \$125.08 per month, to take effect September 14, 1923; Sigmund G. Jax, junior assistant, at \$125.08 per month, to take effect September 17, 1923; Max Steinman, junior clerk, at \$60.00 per month, to take effect September 17, 1923; Charles A. Zollo, junior assistant, at \$125.08 per month, to take effect September 17, 1923.

Reinstatements under Rule XVI:1—Jacob Drapkin, junior engineer, at \$175.00 per month, to take effect September 24, 1923; Belle Wolf, stenographer, at \$150.00 per month, to take effect March 20, 1923.

Resignations—Christopher F. Adler, junior clerk, at \$60.00 per month, to take effect September 10, 1923; Jacob Delbourgo, junior assistant, at \$125.08 per month, to take effect September 22, 1923; Philip Kass, junior assistant, at \$125.08 per month, to take effect September 17, 1923; Belle Wolf, stenographer, at \$150.00 per month, to take effect March 20, 1923; Alexander Zigmund, clerk, at \$70.00 per month, to take effect September 30, 1923.

Termination of Appointments under Rule VIII:4—William J. Broderick, junior assistant, at \$125.08 per month, to take effect September 23, 1923; Ernest H. Cooper, engineering inspector, at \$150.08 per month, to take effect September 21, 1923; Abraham Kaufman, engineering inspector, at \$150.08 per month, to take effect September 23, 1923; Percival P. Little, engineering inspector, at \$150.08 per month, to take effect September 23, 1923; Roland J. McAuliffe, engineering inspector, at \$150.08 per month, to take effect September 23, 1923; John L. McGowan, engineering inspector, at \$150.08 per month, to take effect September 23, 1923; William Russell, engineering inspector, at \$150.08 per month, to take effect September 23, 1923; Granville W. Pullis, assistant photographer, at \$125.00 per month, to take effect September 23, 1923.

Termination of Appointments under Rule VIII:9—Thomas A. Anderson, engineering inspector, at \$150.08 per month, to take effect September 23, 1923; James W. Carew, engineering inspector, at \$150.08 per month, to take effect September 21, 1923; Amedeo Carmina, engineering inspector, at \$150.08 per month, to take effect September 23, 1923; Edward Schafer, engineering inspector, at \$150.08 per month, to take effect September 21, 1923; William H. Snow, engineering inspector, at \$150.08 per month, to take effect September 23, 1923.

Rescission of Appointment under Rule VIII:9—Roland J. McAuliffe, engineering inspector, at \$150.08 per month, to take effect September 29, 1923.

Leaves of Absence with Pay—P. H. Agramonte, draftsman, from July 24, 1923, to September 15, 1923; Miriam Jacobson, stenographer, from July 9, 1923, to August 26, 1923; Mae E. Maxwell, stenographer, from August 1, 1923, to August 31, 1923; L. Seymour Schneider, junior assistant, from August 28, 1923, to October 27, 1923.

1299

Voucher Schedule No. 38

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

Vouchers Nos. 871-894, open market orders, \$1,094.13; Vouchers Nos. 467-488, miscellaneous bills, \$3,239.14.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 240; Oakdale Contracting Co., Inc.; approximate estimate No. 4 for the construction of Route No. 52, Section No. 3, Flushing Line, from August 1, 1923 to August 31, 1923; (R. T. 7673) \$45,241.85;

Voucher No. 241; Otis Elevator Co.; approximate estimate No. 3 for furnishing and installing two electric passenger elevators in the new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad, from August 1, 1923 to August 31, 1923 (R. T. 7623) \$24,178.50;

Voucher No. 242; Gustin-Morris Contracting Corporation; approximate estimate No. 5, for the construction of foundations, Route No. 52, Section 1, Flushing Route, from August 1, 1923 to August 31, 1923 (R. T. 7670) \$7,488.14;

Voucher No. 243; Charles H. Brown & Son Corporation, Assignee; approximate estimate No. 19, for the construction of station finish on Sections Nos. 1 and 2 of Route No. 8, from August 16, 1923 to September 15, 1923 (R. T. 7539) \$7,806.99;

Voucher No. 244; Slattery Engineering and Construction Co., Inc.; approximate estimate No. 10 for the construction of additional approach track to the Lenox Avenue and 148th Street Yard, under Contract No. 3, from August 1, 1923 to August 31, 1923 (R. T. 7366) \$15,560.25;

Voucher No. 245; Joslin Construction Co., Inc.; approximate estimate No. 13, for the construction of a part of the Queensboro Subway Rapid Transit Railroad, Route No. 26, from August 1, 1923 to August 31, 1923 (R. T. 7556) \$8,117.77;
 Voucher No. 246; Jacob Schlesinger, Inc.; approximate estimate No. 3, for the construction of inspection shed and service building, Route No. 16, from August 7, 1923 to September 6, 1923 (R. T. 7636) \$13,319.39.

 JAMES B. WALKER,
 Secretary.

Proceedings for Thursday, September 20, 1923

1300

Hearing

The following hearing was adjourned:

11 A. M.; R. T. 4007; Lengthening of platforms at local stations, Contract No. 1.
 Adjourned to September 27, 1923 at 11 A. M.

 JAMES B. WALKER,
 Secretary.

Proceedings for Tuesday, September 25, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1301—R. T. 7591

Route No. 70-C—Resolution Extending Time Thirty Days from September 30, 1923, to Board of Estimate and Apportionment for Consideration of Route and General Plan for Bedford Avenue, Fulton Street and Livingston Street Route—Adopted

The following resolution was adopted:

Whereas, This Commission by resolution adopted May 15, 1923, adopted a route and general plan for a proposed rapid transit railroad in the Borough of Brooklyn in the City of New York, known as the Bedford Avenue, Fulton Street and Livingston Street Route, Route No. 70-C, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment for its consideration pursuant to the provisions of the Rapid Transit Act, which by the provisions of Section 5 thereof requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time as extended by resolution of this Commission adopted July 10, 1923, expires on September 30, 1923; and

Whereas, The said route and general plan is now being considered by committees of the said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said committees,

Resolved, That the time within which a final vote shall be taken upon the said route and general plan by the Board of Estimate and Apportionment, in accordance with the provisions of the Rapid Transit Act, be and the same hereby is extended thirty (30) days from September 30, 1923.

1302—R. T. 7591

Route No. 70-D—Resolution Extending Time Thirty Days from September 30, 1923, to Board of Estimate and Apportionment for Consideration of Route and General Plan for Bedford Avenue-Brighton Beach Railway Connection—Adopted

The following resolution was adopted:

Whereas, This Commission by resolution adopted May 15, 1923, adopted a route and general plan for a proposed rapid transit railroad in the Borough of Brooklyn in the City of New York, known as the Bedford Avenue-Brighton Beach Railway Connection, Route No. 70-D, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment for its consideration pursuant to the provisions of the Rapid Transit Act, which by the provisions of Section 5 thereof requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time as extended by resolution of this Commission adopted July 10, 1923, expires on September 30, 1923; and

Whereas, The said route and general plan is now being considered by committees of the said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said committees,

Resolved, That the time within which a final vote shall be taken upon the said route and general plan by the Board of Estimate and Apportionment, in accordance with the provisions of the Rapid Transit Act, be and the same hereby is extended thirty (30) days from September 30, 1923.

1303—R. T. 7661

Route No. 78—Communication from Broadway Association Requesting that Central Park West, Manhattan Avenue and St. Nicholas Avenue Route Be Constructed within Limits of Central Park—Referred to Counsel

A communication was presented from the Broadway Association dated September 17, 1923, requesting that the Central Park West, Manhattan Avenue and St. Nicholas Avenue Route, Route No. 78, be constructed within the limits of Central Park from West 64th Street to 110th Street so as to avoid expense of disturbing water pipes, service mains, sewers, gas mains and other sub-surface structures along Central Park West. The matter was referred to Counsel.

1304—R. T. 7431

Fourth Avenue Subway—Proposed Agreement with New York Rapid Transit Corporation for Lengthening Platforms of DeKalb Avenue, Myrtle Avenue and Pacific Street Stations—Approval Resolution

The following resolution was adopted:

Whereas, This Commission, by resolution adopted September 7, 1923, ordered, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, the New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, to perform the work of lengthening the platforms of the DeKalb Avenue, Myrtle Avenue and Pacific Street Stations of the Broadway-Fourth Avenue Line of the Railroad as described in said Contract No. 4, as Additions to Construction as defined in said Contract No. 4, and on September 7, 1923 made requisition upon the Board of Estimate and Apportionment for the appropriation of the sum of \$282,000 for the purposes of carrying out the work in accordance with the provisions of said Contract No. 4; and

Whereas, Counsel has prepared and submitted a proposed agreement between The City of New York, acting by this Commission, and said New York Rapid Transit Cor-

poration, providing for the performance of the work as ordered by said resolution of September 7, 1923 aforesaid, and has recommended the approval of said proposed agreement, which proposed agreement is in form heretofore approved by the Corporation Counsel of the City of New York,

Resolved, That said proposed agreement so submitted be and the same hereby is approved and that it be transmitted to the Board of Estimate and Apportionment.

Further Resolved, That if and when said appropriation of \$282,000 aforesaid is made by the Board of Estimate and Apportionment, the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed agreement in the form hereby approved.

1305—R. T. 7536

Route No. 8, Sections Nos. 1 to 5—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Cutting Chases in Concrete Floor, under Contract for Installation of Tracks—Approval Resolution

A report was presented from the Chief Engineer, dated September 15, 1923, recommending the establishment of a supplementary schedule item as described below, and the following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission, in pursuance of Item No. 3000 of the contract dated October 25, 1922 between the City of New York acting by the Commission and the T. H. Reynolds Contracting Company, Inc., for the installation of tracks for the 14th Street-Eastern Line, Route No. 8, Sections 1 to 5 inclusive, having subject to the approval of the Commission agreed with the said contractor upon the following lump sum price:

Item No. 3-X For cutting five chases in the concrete floor in the area in which the concreting of tracks will be omitted due to the decision to reconstruct the subway structure in order to install a cross-over, the lump sum of \$250.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1306—R. T. 7681

Contract No. 3—Application by McHarg-Barton Company for Permission to Substitute Bond in Place of Certified Check Deposited with Bid for Enclosures to Third Addition to Shops at Lenox Avenue and 148th Street Yard—Report by Counsel Recommending that Check Be Returned to Contractor—Approval Resolution

An application was presented from McHarg-Barton Company dated September 20, 1923, requesting permission to substitute a surety bond in place of the certified check in the sum of \$10,000 deposited with its bid on September 10, 1923, for construction of Enclosure to the Third Addition to Shops at the Lenox Avenue and 148th Street Yard.

A report was presented from Counsel dated September 21, 1923, recommending that the certified check be returned to the Contractor without requiring it to incur an additional expense in substituting a bond therefor.

The following resolution was adopted:

Resolved, That the Secretary of this Commission be and hereby is authorized and directed to return to McHarg-Barton & Co. its certified check deposited with its bid for the construction of enclosures, third addition to shops at the Lenox Avenue and 148th Street Yard (Contract No. 3) and to take proper receipt therefor.

1307—R. T. 7684, 7653

Agreement "CN" and "CO"—Application by John Riches, Second Lowest Bidder, for Return of Certified Checks Deposited with Bids for Changes in Structure at Broadway and 32nd Street and for Miscellaneous Drainage and Sewer Construction—Approved

An application was presented from John Riches dated September 22, 1923, requesting the return of the certified checks in the sum of \$300. each, deposited with his bids on August 17, 1923 for changes in the subway structure at Broadway and 32nd Street and for the construction of a ventilation flue, Agreement "CN," and on September 10, 1923, for miscellaneous drainage and sewer construction, Agreement "CO". Upon motion duly seconded and adopted the application was approved.

1308—R. T. 7583

Contract No. 4—Report by Chief Engineer as to Receipt of Bid of Charles S. Voorhies for Making Surveys for Coney Island Storage Yard and Recommendation for Acceptance of Same—Approved

A report was presented from the Chief Engineer dated September 21, 1923, advising of the receipt of a bid on September 20, 1923, from Charles S. Voorhies, in the sum of \$275, which was the only bid received, for making surveys for the proposed Coney Island Storage Yard, and recommending that his bid be accepted and that he be instructed to make the survey in the vicinity of Shell Road and Avenue "X", Borough of Brooklyn.

Upon motion duly seconded and adopted, the report was approved, and the matter was referred to the Chief Clerk, for the issuance of a purchasing agent's order for the performance of the work.

1309—R. T. 6243

Fourth Avenue Subway—Report by Real Estate Clerk Recommending Acceptance of Adjustment by Insurance Companies for Damage to Property at No. 77 Rockwell Place, Borough of Brooklyn, and for Acceptance of Proposal for Repairs to Premises—Approval Resolution

A report was presented from the Real Estate Clerk, dated September 24, 1923, recommending acceptance of the adjustment made by the insurance companies in the sum of \$1,823.90, for damage due to fire in premises at No. 77 Rockwell Place, Borough of Brooklyn, and recommending also the acceptance of the bid of Kreps & Nezold, Inc., in the sum of \$1,098, for making repairs to the premises.

The following resolution was adopted:

Whereas, The Commission by resolution dated February 27, 1923, authorized the Real Estate Clerk, subject to approval of Counsel, to adjust with the several insurance companies the amount of damage due to a fire which occurred at No. 77 Rockwell Place, Borough of Brooklyn, on February 25, 1923; and

Whereas, The Real Estate Clerk by report dated September 24, 1923, states that an estimate of the damage done to the premises was made by himself and R. H. Peppmuller, Assistant Designing Architect of the Commission's staff, in the net total amount of \$1611.00, to which was added for omissions, contingencies, etc., \$241.65, making a total estimated cost of repairs amounting to \$1,852.65; that he has adjusted the damages as follows:

The Home Insurance Company of New York.....	\$280.60
Union Assurance Society, Ltd., of London, England.....	701.50
North British & Mercantile Insurance Company, Ltd.....	841.80

Total \$1,823.90

and that the aforementioned insurance companies have presented in payment of damages drafts to the order of The City of New York or the Transit Commission in the amounts aforesaid, recommending that the proposed settlements with the several insurance companies be approved and that the proper endorsements constituting releases of the several claims against the said insurance companies be authorized, in which recommendations Counsel has concurred; and

Whereas, The Real Estate Clerk in the aforesaid report advises that the premises at No. 77 Rockwell Place, Borough of Brooklyn, may be seriously damaged by the elements; that he has received a number of bids for the work of restoring the premises to as good condition as existed before the occurrence of the fire, as aforesaid, the lowest of which was by Kreps & Nezold, Inc., of 47 Wooster Street, New York City, in the sum of \$1,098.00, recommending that the Secretary be authorized to execute a contract with the said Kreps & Nezold, Inc., to contain specifications and other terms satisfactory to Counsel, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid adjustments or settlements with the aforesaid insurance companies and authorize endorsements of the drafts offered by the said insurance companies, as aforesaid, in form to constitute releases to the said insurance companies; and it is further

Resolved, That the Secretary be, and he hereby is, authorized and directed to execute a contract with the aforesaid Kreps & Nezold, Inc., to repair all damages done by the said fire, for the sum of \$1,098.00, such contract to contain such specifications and other terms and conditions as shall be approved by Counsel.

1310—R. T. 6761, 7103

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Telephone Cable for 148th Street and Lenox Avenue Yard—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated September 11, 1923, requesting approval of a proposed purchasing agent's order directed to the Standard Underground Cable Company for 20,000 feet of paper insulated lead covered telephone cable to be used for the service and administration buildings at the 148th Street and Lenox Avenue Yard, at a total cost of \$10,500.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated September 17, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment of the Railroad and any excess to be charged to Operating Materials and Supplies Account.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company by communication dated September 11, 1923, has requested the approval of this Commission to the placing of a purchasing agent's order dated September 11, 1923, directed to the Standard Underground Cable Company, for the following:

“20,000 feet 100 pair, No. 19 B & S gauge, paper insulated, lead covered, telephone cable, W. E. Co. type T. B.
 Price—\$525 per thousand feet, f. o. b. cars, Lehigh Valley Railroad, Perth Amboy, N. J., including car-load freight allowance to 128th Street and Second Avenue Total \$10,500
 To be delivered January 1, 1924.

which proposed purchasing agent's order has been caused to be designated as “Approval No. 491”; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated September 17, 1923, have reported that the telephone cable is to be used for the service and administration buildings of the 148th Street and Lenox Avenue Yard of the Railroad as described in said Contract No. 3, and that the following bids were received for such material:

	Price per 1000 Ft.
Standard Underground Cable Co.....	\$525.00
Western Electric Co.	548.00

that the award is to the lowest bidder; that the quality of cable proposed to be purchased is necessary for the purpose; that the price is reasonable and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated September 22, 1923, has recommended that the cost of such material, in so far as it is necessary for original installation, be charged to Equipment of the Railroad and that the excess, if any, be charged to Operating Materials and Supplies Account.

Resolved, That the said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved; and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order; the cost of the material, under said proposed purchasing agent's order hereby approved to be charged, in so far as it is used for original installation, to Equipment of the Railroad, and the excess, if any, shall be charged to Operating Materials and Supplies Account.

1311—R. T. 6449

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Contract for Sale of Premises at Broadway and Eastern Parkway, Borough of Brooklyn—Reports of Real Estate Clerk and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated July 26, 1923, requesting approval of a proposed contract with the Tram Realty Company, Inc., covering the sale of certain premises at the intersection of Broadway and Eastern Parkway, Borough of Brooklyn, the company reserving an easement across the property, at the sale price of \$35,000.

A report was presented from the Real Estate Clerk, dated September 17, 1923, recommending that the application be approved.

A report was presented from the Chief Engineer, dated September 20, 1923, stating that the contract is satisfactory from an engineering standpoint.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, by J. H. Bennington, Real Estate and Tax Agent, with communication dated July 26, 1923, has submitted for the approval of this Commission a copy of an executed contract of sale dated July 17, 1923, between said New York

Rapid Transit Corporation and the Tram Realty Co., Inc., agreeing to convey certain premises at the intersection of Broadway and Eastern Parkway in the Borough of Brooklyn, City of New York, reserving an easement across said property as in said contract more particularly set forth, the selling price being \$35,000, payable, \$2,500 on the signing of the contract, \$8,000 in cash on the delivery of the deed and three separate purchase money bonds and mortgages aggregating the sum of \$24,500, payable on or before three years, with interest thereon at the rate of 6% per annum semi-annually; and

Whereas, The Real Estate Clerk of this Commission, by communication dated September 17, 1923, has, for the reasons therein more particularly set forth, recommended the approval of said proposed contract; and

Whereas, The Chief Engineer of this Commission, by communication dated September 20, 1923, has advised this Commission that said contract is satisfactory from an engineering standpoint; and

Whereas, Counsel to this Commission has examined said contract and finds no objection thereto,

Resolved, That said contract as submitted aforesaid be and the same hereby is approved.

1312—R. T. 6449

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Contract for Sale of Premises Adjoining Right of Way of Sea Beach Line, between 62nd Street and 15th Avenue, Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated August 4, 1923, requesting approval of a proposed contract with Frank Colucci, covering the sale of certain vacant property adjoining the right of way of the Sea Beach Line, between 62nd Street and 15th Avenue, Borough of Brooklyn, at the selling price of \$10,500.

A report was presented from the Real Estate Clerk, dated September 17, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, J. H. Bennington, Real Estate & Tax Agent for New York Rapid Transit Corporation, has made application under date of August 4, 1923, for approval pursuant to the provisions of Contract No. 4 of a contract between the New York Rapid Transit Corporation, as Vendor, and Frank Colucci, as Vendee, covering the sale of certain vacant property originally acquired for purposes of the Sea Beach Line right of way located adjoining the easterly side of that right of way between 62nd Street and 15th Avenue, Borough of Brooklyn, for the sum of \$10,500 upon certain terms as set forth in a form of contract accompanying said application; and

Whereas, The Real Estate Clerk has reported under date of September 17, 1923, that the assessed valuation for the said vacant premises aggregates \$3,725 and that in his judgment the property is worth about \$8,000, recommending that the said contract be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid contract, and that the Secretary be, and he hereby is, authorized and directed to transmit a copy of this resolution to the said J. H. Bennington.

1313—R. T. 6555

Rapid Transit Railroads—Proposed Agreement with Pennsylvania Railroad Company Extending Term of Lease for Greenville Yard for Period of One Year from September 30, 1923—Approval Resolution

The following resolution was adopted:

Whereas, Counsel has submitted to this Commission a proposed form of agreement between The City of New York, acting by the Transit Commission, and the Penn-

sylvania Railroad Company, extending for a period of one year from September 30, 1923, a certain Indenture of Lease dated September 9, 1913, between the New York Bay Railroad Company and the City of New York, acting by the Public Service Commission, for a certain parcel of land situate in Jersey City, Hudson County, State of New Jersey; and

Whereas, The said proposed agreement has been approved by the Chief Engineer of the Commission,

Resolved, That said proposed agreement so submitted be and the same hereby is approved and that the Chairman and Secretary of the Commission be and they are hereby authorized and directed to execute the same.

1314—Case 2203

New York and Long Island Traction Company—Service on Brooklyn-Mineola Division—Suspension Order Adopted

The Secretary presented a communication, dated September 19, 1923, from L. C. Andrews, General Manager of the New York and Long Island Traction Company, requesting a rescission of the Commission's Order in Case No. 2203, adopted May 16, 1917, requiring certain service on the Brooklyn-Mineola Line of the New York and Long Island Traction Company.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2203, denying the application of the New York and Long Island Traction Company to rescind the Order therein adopted May 16, 1917, and suspending said Order of May 16, 1917, until further order of the Commission.

1315—Case 2690

New York and Queens County Railway Company et al.—Annual Reports—Extension Order Adopted

The Secretary presented a communication, dated September 24, 1923, from L. C. Andrews, Receiver of the New York and Queens County Railway Company and General Manager of the New York and Long Island Traction Company and the Long Island Electric Railway Company, requesting an extension of time of sixty days within which to file annual reports as required by the Commission's Order in Case No. 2690.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2690, extending the time of said Receiver of the New York and Queens County Railway Company to November 29, 1923; and said General Manager of the New York and Long Island Traction Company to November 14, 1923, and to said General Manager of the Long Island Electric Railway Company to October 30, 1923.

1316—Case 2690

Richmond Light & Railroad Company—Annual Reports—Extension Order Adopted

The Secretary presented a communication, dated September 21, 1923, from James E. Phillips, Assistant Treasurer of the Richmond Light & Railroad Company, requesting an extension of time of sixty days within which to file company's annual report as required by the Commission's Order in Case No. 2690.

The Secretary also presented a report, dated September 25, 1923, from H. S.

Fischer, Statistician, approved by Chief, Bureau of Accounting & Valuations, recommending an extension of time to October 30, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2690, granting the Richmond Light & Railroad Company an extension of time to October 30, 1923, within which to file its annual report.

1317—Case 2628

New York Rapid Transit Corporation—Service and Equipment—Order Approving Train Schedules on West End and Brighton Beach Lines Adopted

The Secretary presented a communication, dated September 21, 1923, from W. S. Menden, President of the New York Rapid Transit Corporation, submitting among other schedules, schedules for the operation of the West End and Brighton Beach Lines as required by the Commission's Order "A" in Case No. 2628, adopted July 13, 1922. The Acting Chief Executive Officer stated that he had approved the West End and Brighton Beach schedules.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2628, approving train schedules Nos. 3 and 4, affecting the West End and Brighton Beach Lines of the New York Rapid Transit Corporation, effective as of September 24, 1923, and directing that said corporation shall on and after said date furnish and operate the service on said lines pursuant to the said train schedules and further directing that said Order shall take effect nunc pro tunc as of September 24, 1923.

1318—Case 2693

Union Railway Company of New York City—Resumption of Operation of Morris Park Avenue Line—Order Extending Company's Time to Realign Tracks Adopted

The Secretary presented a communication, dated September 20, 1923, from Garrow T. Geer, Secretary of the Union Railway Company of New York City, requesting an extension of time of two months within which to realign tracks on its Morris Park Avenue Line as required by the Commission's Order in Case No. 2693, adopted August 28, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2693, extending the time of the Union Railway Company of New York City within which to complete the realignment of its tracks on Morris Park Avenue as required by Paragraph 2 of the Order therein adopted August 28, 1923.

1319—Case 2696

South Brooklyn Railway Company—Application for Permission to Purchase Stock of Prospect Park and South Brooklyn Railroad Company et al. and for Approval of Merger—Statement by Secretary of Execution of Certificate of Merger—Motion Adopted Directing that Statement Be Spread on the Minutes

The Secretary stated that on September 19, 1923, Acting Chairman Harkness and the Secretary had executed the Certificate of Merger of the South Brooklyn Railway

Company, the Prospect Park and South Brooklyn Railroad Company, The New York & Coney Island Railroad Company and the Prospect Park & Coney Island Railroad Company, as authorized by the Commission's Order in Case No. 2696, adopted September 14, 1923.

Thereupon on motion duly seconded and unanimously carried the foregoing statement of the Secretary was directed to be spread on the minutes of the Commission.

1320—S. P. 752

Union Railway Company of New York City—Application for Permission to File on Short Notice New Tariff Providing for the Resumption of Service on Its Boston Road-Morris Park Avenue Line—Special Permission Approved

The Secretary presented a communication, dated September 20, 1923, from the Union Railway Company of New York City requesting permission to put into effect immediately after publication new tariff providing for the resumption of service on its Boston Road-Morris Park Avenue Line effective September 24, 1923.

The Secretary also presented his report, dated September 22, 1923, recommending the granting of the application.

Thereupon the Commission approved and ordered filed Special Permission No. 752, granting the desired permission.

1321—R. T. 7367

Routes Nos. 35 & 67—Receipt from Department of Finance for Check in Sum of \$6,500 Deposited by Buckley-Newhall Company as Payment for Changes in Ventilating Grating in Front of the Premises at No. 102 West 41st Street, Borough of Manhattan—Filed

Particulars

Estimated cost of a subway ventilating chamber in front of premises No. 102 West 41st Street, Manhattan.

To be credited to account known as S 915B—*Deposited by the Buckley-Newhall Co. to provide for payment to Powers-Kennedy Contracting Corporation of the cost of constructing a subway ventilating chamber in front of premises No. 102 West 41st Street, Borough of Manhattan, located on Routes Nos. 35 & 67 of the Queensboro Subway—Contract No. 3—pursuant to agreement dated September 12, 1923.*

For Comptroller,

H. H. RATHYEN,
Auditor of Receipts.

1322—R. T. 6761

Contract No. 3—Letter from Interborough Rapid Transit Company Transmitting Copy of Contract for Rotaries and Transformers for Substations Nos. 11 and 12—Filed

The Commission ordered filed a letter from the Interborough Rapid Transit Company dated September 13, 1923, transmitting a copy of a contract dated

February 28, 1923, with the Westinghouse Electric & Manufacturing Company for two 4,000 K.W. rotaries and transformers for Substations Nos. 11 and 12.

1323—R. T. 6761

Contract No. 3—Letter from Interborough Rapid Transit Company Transmitting Copy of Contract for Four Boilers and Three Superheaters for 59th Street Power Station—Filed

The Commission ordered filed a letter from the Interborough Rapid Transit Company dated September 13, 1923, transmitting a copy of a contract dated January 11, 1923, with Babcock & Wilcox Company for four 1140 H.P. boilers and three superheaters for the 59th Street Power Station.

1324—R. T. 6761

Contract No. 3—Letter from Interborough Rapid Transit Company Transmitting Copy of Contract for Four Stokers for 59th Street Power Station—Filed

The Commission ordered filed a letter from the Interborough Rapid Transit Company dated September 14, 1923, transmitting a copy of a contract dated December 13, 1922, with the American Engineering Company for four stokers for the 59th Street Power Station.

1325—R. T. 7618

Routes Nos. 18 and 31—Letter from Interborough Rapid Transit Company, Transmitting Copies of Contracts for Steam Heating Systems for the Inspection Shed and Oil House in the 180th Street Yard and in the Livonia Avenue Yard—Filed

The Commission ordered filed a letter from the Interborough Rapid Transit Company, dated September 20, 1923, transmitting copies of two contracts dated June 11, 1923, with Almirall & Company, Inc., for steam heating systems for the inspection shed and oil house in the 180th Street Yard—Route No. 18, and in the Livonia Avenue Yard—Route No. 31.

1326

Lease—Proposed Lease with United Cigar Stores Company for Three Rooms on Second Floor of Premises at No. 441 East Tremont Avenue, Borough of The Bronx—Approval Resolution

The following resolution was adopted:

Resolved, That the proposed lease dated the 7th day of September, 1923, from the United Cigar Stores Company of America, to this Commission of three (3) connecting rooms at the northwest corner of the second floor of the building known as No. 441 East Tremont Avenue, in the Borough of The Bronx, City of New York, to be occupied as an office of the Commission for a term commencing October 1, 1923 and ending September 30, 1924, at the annual rental of nine hundred dollars (\$900) payable in equal monthly payments in advance on the first day of each and every month during the said term and subject to the terms and conditions as are more particularly set forth in said proposed lease, be and the same hereby is approved; and that the Chairman and Secretary of this Commission be and they hereby are authorized and directed for and on behalf of the Commission to execute and deliver the same.

1327

Fees Received during August, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of August, 1923, fees, etc., to the amount of \$127.56 and refunds of rental from rapid transit real estate to the amount of \$4,025, had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$127.56 to be accredited to the General Fund of The City of New York and the sum of \$4,025 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as rentals and proceeds of the sale of properties in the same proceeding and held available for the purposes of the Commission, as provided in the Rapid Transit Act.

1328

Employees' Calendar No. 166

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointment—John P. Byrne, engineering inspector, at \$150.08 per month, to take effect September 24, 1923.

Appointment under Rule VIII:4—Frank Brancato, junior assistant, at \$125.08 per month, to take effect September 24, 1923; George D. Chittick, junior assistant, at \$125.08 per month, to take effect September 24, 1923; Frederick H. Cornell, junior assistant, at \$125.08 per month, to take effect September 20, 1923; Benjamin Wang, junior clerk, at \$60.00 per month, to take effect September 18, 1923; John G. Yoerges, architectural draftsman, at \$150.08 per month, to take effect September 18, 1923.

Reinstatement under Rule XVI:1—Joseph J. Garlan, inspector of lumber, at \$165.00 per month, to take effect September 24, 1923.

Transferred from State Commission of Highways—George D. Fraser, Jr., junior assistant, at \$125.08 per month, to take effect October 15, 1923.

Resignations—John P. Byrne, junior assistant, at \$152.50 per month, to take effect September 23, 1923; Willard J. Carmel, draftsman, at \$150.08 per month, to take effect September 22, 1923; Americus D'Atri, junior assistant, at \$125.08 per month, to take effect September 26, 1923; Stephen G. DeMahy, draftsman, at \$150.08 per month, to take effect September 22, 1923; R. K. Diamond, draftsman, at \$150.08 per month, to take effect September 19, 1923; Arthur K. Drake, junior assistant, at \$125.08 per month, to take effect September 22, 1923; George Jacknowitz, junior assistant, at \$125.08 per month, to take effect September 17, 1923; Samuel Kahn, draftsman, at \$150.08 per month, to take effect September 15, 1923; Harry Lee, junior assistant, at \$125.08 per month, to take effect September 22, 1923; Solomon Michels, draftsman, at \$180.00 per month, to take effect October 10, 1923; Rafael Pacheco, junior assistant, at \$125.08 per month, to take effect September 22, 1923; Roscoe E. Robins, junior assistant, at \$125.08 per month, to take effect September 26, 1923; Maxwell Schantz, draftsman, at \$150.08 per month, to take effect September 24, 1923; I. C. Shafer, junior assistant, at \$125.08 per month, to take effect September 26, 1923; John R. Turner, junior assistant, at \$125.08 per month, to take effect September 24, 1923.

Rescission of Appointment under Rule VIII:9—Granville W. Pullis, assistant photographer, at \$125.00 per month, to take effect September 28, 1923.

Rescission of Termination of Appointment under Rule VIII:4—Roland I. McAuliffe, engineering inspector, at \$150.08 per month, to take effect September 28, 1923; Granville W. Pullis, assistant photographer, at \$125.00 per month, to take effect September 27, 1923.

Change of Item in Resolution of September 18, 1923, Concerning Wm. J. Broderick so as to Read as Follows—(Resignation)—Wm. J. Broderick, junior assistant, at \$125.00 per month, to take effect September 23, 1923.

Leave of Absence with Pay—Edgar T. Hurley, junior electrical engineer, from September 4, 1923, to September 17, 1923.

Leave of Absence without Pay—Grace M. Miller, accountant, from July 1, 1923, to September 12, 1923.

1329

Voucher Schedule No. 39

The following resolution was adopted:

Resolved. That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

Vouchers Nos. 895-936, open market orders, \$2,046.21; Vouchers Nos. 489-500, miscellaneous bills, \$1,618.33; Vouchers Nos. 22-23, special payroll, \$2,050.00.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Railroads for the Periods Indicated Below:

Voucher No. 247; Jobson-Gifford Company; approximate estimate No. 3 for making changes in steel work at the easterly approach to the Queensboro Plaza Station, Routes Nos. 36 and 37, Section No. 1, from August 1, 1923 to August 31, 1923 (R. T. 6431) \$15,729.32;

Voucher No. 248; McClintic Marshall Company; approximate estimate No. 1 for furnishing and erecting structural steel for third addition to shops, Lenox Avenue and 148th Street Yard, under Contract No. 3, from March 14, 1923 to September 15, 1923 (R. T. 7590) \$11,032.42;

Voucher No. 249; Jacob Schlesinger, Inc.; approximate estimate No. 14 for construction of a second addition to shops at Lenox Avenue and 148th Street Yard, under Contract No. 3, from August 16, 1923 to September 15, 1923 (R. T. 7368) \$6,638.95.

1330

Upon motion duly seconded and adopted, the meeting was adjourned to Friday, September 28, 1923, at 11:00 A. M.

1331

Hearing

The following hearing was held:

11:30 A. M.: Case No. 2699; Manhattan Bus Corporation; Application for certificate of public convenience and necessity for the operation of a stage route by auto buses on certain streets in the Borough of Manhattan, City of New York. Chairman McAneny and Commissioner O'Ryan presided. Adjourned to October 2, 1923, at 10:30 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Wednesday, September 26, 1923

1332

Hearing

The following hearing was adjourned:

Cases Nos. 2697 and 2698; Interborough Rapid Transit Company and New York Rapid Transit Corporation; Hearing on Motion of the Commission as to the con-

struction, apparatus, equipment, facilities or devices used or to be used in connection with the transportation of passengers and property with particular reference to the installation of an experimental one mile of block signals on the local tracks of the elevated portions of the lines of said companies. Hearing adjourned by direction of the Commission to October 3, 1923, at 2:30 P. M.

JAMES B. WALKER,
Secretary.

Proceedings for Thursday, September 27, 1923

1333

Hearings

The following hearing was adjourned:

11 A. M.; R. T. 4007; Lengthening of platforms at local stations, Contract No. 1. Adjourned to October 29, 1923, at 11 A. M.

The following hearing was held:

11:10 A. M.; Case No. 2700; The Staten Island Rapid Transit Railway Company and The Staten Island Railway Company; Hearing on Motion of the Commission as to the regulations, practices, equipment, appliances and service of said companies in respect to the transportation of persons and property within the City of New York. Chairman McAneny presided. Adjourned subject to call.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, September 28, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1334—R. T. 7645

Agreement "CS"—Receipt of Bids for Construction of Duct Line at 239th Street Yard—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for the construction of a railroad duct line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Agreement "CS," had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the nine bids received. The bids were then referred to the Chief Engineer.

1335—R. T. 7645

Agreement "CS"—Resolution Authorizing Release of Checks to All But Lowest and Next to Lowest of Bidders for Construction of Duct Line at 239th Street Yard—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer, as to the bids received on September 28, 1923, for the construction of a railroad duct line at the 239th Street Yard, Agreement "CS", the Secretary be and he hereby is, authorized and directed to return to all except the lowest and next to lowest of the bidders, the certified checks in the sum of Three Hundred (\$300.00) Dollars, each, deposited with their bids.

1336—R. T. 7684

Agreement "CO"—Report by Chief Engineer Explaining Reasons for Inclusion of Cost-plus Items in Proposed Contract for Miscellaneous Drainage and Sewer Construction—Approval Resolution—Communication to Board of Estimate and Apportionment

A report was presented from the Chief Engineer dated September 25, 1923, reporting in detail as to reasons for inclusion of cost-plus items in the proposed contract with Frank Persicano, for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, so as to give the Board of Estimate and Apportionment additional information in connection with the requisition submitted to the Board of Estimate and Apportionment on September 12, 1923.

The following resolution was adopted:

Whereas, This Commission by communication dated September 12, 1923 submitted to the Board of Estimate and Apportionment, for its consent, proposed contract to be entered into between The City of New York, acting by the Transit Commission and Frank Persicano, (Agreement "CO"), for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, City of New York, and also made requisition upon the Board of Estimate and Apportionment for the sum of seventeen thousand seven hundred (\$17,700) dollars, estimated to be necessary to meet the obligations of the City under said proposed contract, included in which sum was the item of eleven hundred and twenty-one (\$1121) dollars, for work to be performed on a cost-plus basis, and as to which the Representative of the Board of Estimate and Apportionment has requested more detailed information; and

Whereas, The Chief Engineer of this Commission by communication dated September 25, 1923, has reported in complete detail the necessity for the performance of such work on a cost-plus basis and the basis of the estimate of eleven hundred and twenty-one (\$1121) dollars; and

Whereas, Counsel has prepared and submitted a communication to the Board of Estimate and Apportionment, supplementing the requisition of September 12, 1923, so as to give to said Board the additional information so requested and has recommended its adoption and transmission to the said Board of Estimate and Apportionment,

Resolved, That the said detailed report of the Chief Engineer dated September 25, 1923, addressed to Commissioner Harkness with respect to the said eleven hundred and twenty-one (\$1121) dollars, and the reason therefor, be and the same hereby is approved and that the form of communication so submitted by Counsel be and the same hereby is approved and that it be transmitted to the said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment as authorized by the above resolution, was as follows:

September 28, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Under date of September 12, 1923, the Transit Commission transmitted to your Honorable Board for its consent, proposed contract to be entered into between The City

of New York, acting by the Transit Commission, and Frank Persicano, for miscellaneous drainage and sewer construction in the Boroughs of Manhattan, Brooklyn and Queens, City of New York, (Agreement "CO"), in municipal rapid transit railroads, and in said communication made requisition upon your Honorable Board for the appropriation of the sum of seventeen thousand seven hundred (\$17,700) dollars, being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

The amount of such requisition was the sum total of sixteen thousand five hundred and seventy-nine (\$16,579) dollars, being the amount of the low bid, plus the additional sum of eleven hundred and twenty-one (\$1,121) dollars, estimated to be necessary for work to be performed on the basis of cost plus a percentage, including the work of converting a cesspool where a sewer is to be substituted and other minor repairs to sewers and other work, which cannot be accurately estimated.

Request has been made for a more detailed explanation as to how the said sum of eleven hundred and twenty-one (\$1121) dollars, was arrived at.

In a letter dated September 25, 1923, the Chief Engineer of this Commission has reported to Commissioner Harkness, which report has been approved by this Commission, as follows:

"The purpose of this memorandum is to explain how the amount of \$1121 for Item No. 150 work requested of the Board of Estimate in connection with Agreement "CO" was arrived at. Mr. Read, Assistant Engineer of the Board of Estimate, recently discussed this with you.

A total of \$17,700 was requested of the Board of Estimate by this Commission on September 12, 1923, for the performance of all the work included in Agreement "CO." Of this amount \$16,579 was the summation of the low bidders figures. In addition it was estimated that \$1121 might be required for Item No. 150 work as follows:

(a) work and materials required in connection with converting the existing cesspool at Hunters Point Avenue Inspection Shed into an ejector pit \$300.

(b) Miscellaneous minor repairs to sewers on Sections 1 and 1B, Route 12, Flatbush Avenue, Brooklyn, \$500.

(c) Unforeseen contingencies, \$321, being about 2% of the bid prices.

(a) It was estimated that \$300 might be required to clean out the existing cesspool at Hunters Point Avenue Inspection Shed to determine whether it is in good condition, and if so to convert such cesspool into an ejector pit for the installation of ejectors by the Operating Company to pump the sewage into a nearby sewer. At present the pit is used as a cesspool to receive sewage from the station toilets and the contents of the pit are emptied by the Operating Company's scavengers as often as may be required. This is unsanitary and unsatisfactory.

The use of the existing pit for the installation of ejectors would be a considerable saving to the City as against the construction of a new pit. Since the amount of the work and materials required to convert the existing pit cannot be ascertained definitely until the pit is cleaned out, it was deemed advisable to do this work at cost-plus.

(b) The term "repairs to sewers" used in this connection may give a wrong impression. "Completion of sewers" might have been preferable. Various pieces of work, estimated to cost about \$500, are contemplated to be done under this heading, consisting of approximately eighteen minor jobs which were never originally done. In connection with the subway contracts, Sections 1 and 1B, Route 12, Flatbush Avenue, Brooklyn, considerable sewer work was done by this Commission, and after these contracts were completed and the subway contractors paid for the work, an investigation conducted by the Bureau of Sewers revealed a number of small incompleting construction items, such as, a few missing bricks, a projecting pipe within the sewer, forms and scaffolding not removed and other minor defects. The largest item of this group is completion of an unfinished manhole.

The Commissioner of Public Works of Brooklyn refused to accept these sewers for future maintenance unless the foregoing defects were remedied. This Commission stated that it would endeavor to do so in a future "Odds and Ends"

contract. Accordingly we have included the correction of these defects in Agreement "CO," to be done at cost-plus under Item No. 150, as the nature of the work is such that any unit or lump sum bid price would probably be excessive and the work could be done more cheaply at cost-plus.

The title of Subdivision 15 on page 56 of Agreement "CO" is "Repairs to Sewers." It was explained to Mr. Read, and it should be clear from the text, though not specifically mentioned in the Agreement, that the work included under this heading was the correction of defects left in the sewers upon the completion of subway work.

(c) \$321 was estimated as required to perform work of an unforeseen nature which amount represents about 2% of the bid prices. This is desirable as the bid is made up of a number of lump sum items and hence made no allowance for contingencies."

It is believed that the foregoing data will supply the information desired. If not, the Commission will gladly supply such further detail as may be necessary.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1337—R. T. 6896

Route No. 8, Section No. 6—Communication from Board of Estimate and Apportionment Requesting Expedition of Plans for Extension of Fourteenth Street-Eastern Line as Subway from Meserole Street to East New York—Referred to Chairman

The following communication from the Board of Estimate and Apportionment was referred to the Chairman:

September 26, 1923.

The TRANSIT COMMISSION,
49 Lafayette Street,
New York, N. Y.
Sirs:

At the meeting of the Committee of the Whole of this Board on September 17, 1923 (Cal. No. T-5), the Secretary was directed to request the Transit Commission to expedite their plans for the extension of the 14th street line as a subway from Meserole Street, Brooklyn, to East New York.

Respectfully,
JAMES MATTHEWS,
Assistant Secretary.

1338—R. T. 7592

Route No. 11-B, Section No. 3—Report by Chief Engineer Advising of Request of New York Rapid Transit Corporation for Inclusion of Three Additional Storage Tracks in Proposed Extension of Fourth Avenue Subway and Recommending that Request Be Not Considered—Approved

A report was presented from the Chief Engineer dated July 21, 1923, advising of a request from the New York Rapid Transit Corporation dated June 20, 1923, for the inclusion of three additional storage tracks in the proposed extension of the Fourth Avenue Subway from 85th Street to 95th Street, Borough of Brooklyn, and recommending that he be authorized to advise the New York Rapid Transit Corporation that the three additional storage tracks will not be considered and that the extension will be constructed in accordance with the contract drawings already approved.

Upon motion, duly seconded and adopted, the report was approved.

1339

Lease—Report by Real Estate Clerk as to Proposed Lease of Seventh Floor of Building at No. 54-60 Lafayette Street, Borough of Manhattan—Approved

A report was presented from the Real Estate Clerk dated September 27, 1923, as to his investigation of additional space required for the Division of Designs and stating that a five-year lease of the seventh floor of the building at No. 54-60 Lafayette Street, Borough of Manhattan, at an annual rental of \$10,000, is most desirable, which report was endorsed by the Chief Clerk stating that such lease would be advisable. On motion duly seconded and adopted it was directed that a lease be entered into and a provision be made if possible for the privilege of cancellation at the termination of the fourth year.

1340—R. T. 6960, 7235, 7354

Contract No. 3 and Elevated Extension Certificate—Proposed Stipulation with Interborough Rapid Transit Company Extending Time to October 31, 1923, within Which to Agree upon Successor to Hon. Luke D. Stapleton as Third Arbitrator in Proceedings with Respect to Operating Expenses and Classification and Amount of Depreciation—Approved

The Commission approved a proposed stipulation with the Interborough Rapid Transit Company extending to October 31, 1923, the time of the Commission and the Interborough Rapid Transit Company within which to agree upon a successor to the late Hon. Luke D. Stapleton as the third member in the two pending proceedings, the first having to do with objections dated November 24, 1920, and January 28, 1921, of the Transit Construction Commissioner with respect to certain operating expenses and the second having to do with the classification and amount of depreciation and excess maintenance under Contract No. 3 and the extension certificate from January 1, 1919, to June 30, 1920.

1341—Case 2690

Eighth Avenue Railroad Company et al.—Annual Reports—Extension Orders Adopted

The Secretary presented a communication, dated September 24, 1923, from the Fifth Avenue Coach Company asking for an extension of time to October 7, 1923, within which to file its annual report as required by the Commission's Order in Case No. 2690. The Secretary also presented a report, dated September 26, 1923, by H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting & Valuations, recommending the granting of said application.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2690, granting the desired extension of time to October 7, 1923.

The Secretary also presented a communication, dated September 25, 1923, from the Eighth Avenue Railroad Company requesting an extension of time of thirty days within which to file its annual report as required by the Commission's Order in Case No. 2690. The Secretary also presented a report, dated September 27, 1923, by

H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting & Valuations, recommending an extension of time to October 15, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2690, granting the Eighth Avenue Railroad Company an extension of time to October 15, 1923, within which to file annual report.

The Secretary also presented a communication, dated September 24, 1923, from Lindley M. Garrison, as Receiver of the New York Consolidated Railroad Company and the New York Municipal Railway Corporation, and by the New York Rapid Transit Corporation requesting an extension of time to November 1, 1923, within which to file annual reports as required by the Commission's Order in Case No. 2690. The Secretary also presented a report, dated September 28, 1923, by H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting and Valuations, recommending the granting of the aforesaid application.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2690, granting the above mentioned Receiver and Company an extension of time to November 1, 1923, within which to file said annual reports.

1342—Case 2695

Interborough Rapid Transit Company—Alteration and Reconstruction of 33rd Street Station on Lexington-Fourth Avenue Line from a Local to Express Station—Opinion by Commissioner O'Ryan Approved, Concurring Memoranda by Chairman McAneny and Commissioner Harkness Approved—Motion Adopted Postponing Further Action for One Year from October 1, 1923

The Secretary presented an Opinion in Case No. 2695, by Commissioner O'Ryan and concurring memoranda by Chairman McAneny and Commissioner Harkness, reading as follows:

September 23, 1923.

To the TRANSIT COMMISSION:

Case No. 2695.

This case presents the question whether the Commission should modify the subway station at 33rd Street and Fourth Avenue so as to make it an express stop in the operation of the East Side Subway. Public hearings were held in relation to this matter, beginning on July 10, 1923, terminating on September 6, 1923, during which opportunity was accorded all interested parties, including the Interborough Rapid Transit Company, to record their views in relation to the project.

As shown in the Minutes (page 12), the question presented in this case was at one time referred to me for consideration by the Commission. This was in the summer of 1922. After studying it in conference with the Engineers of the Commission, and based upon a knowledge of the physical conditions at the station, I concluded and recommended to the Commission that the station at 33rd Street should be remodelled as an express station (Minutes, pp. 11 and 12). The cost at that time was estimated to be \$1,000,000. The grounds for this recommendation were:

(a) That the change would be a logical development by concluding the quadrilateral of express stops provided for the heart of Manhattan Island by the Pennsylvania Station and the Times Square Station on the West Side and the Grand Central and the 33rd Street Stations on the East Side.

(b) The station as remodelled would add to the convenience of passengers coming from all sections of the city to the East 34th Street district.

(c) It would materially relieve the pressure at the Grand Central Station, particularly in relation to the numbers of people transferring between local and

express trains at that point, who would find it more convenient to effect the change at 33rd Street if the latter were an express stop.

Consideration of this report by the Transit Commission indicated a favorable attitude toward the project, but in view of the important operating questions involved, of some differences of technical opinion that might develop in relation to the probable results of the change upon the flow of transferring passengers across the platforms at the Grand Central Station, of the considerable sum of money involved in the work of remodelling, and of the legal rights of the operating company in relation to the imposition of its share of such expense, the Commission determined, before making a final decision in the matter, to hold the public hearings referred to.

The hearings developed the fact that business firms, corporations, and individuals in the 34th Street District strongly favored the proposal. Its advantages were stressed by Mr. Daniel Turner, Consulting Engineer of the Transit Commission. The Interborough Company objected to the proposed change upon the ground that from a passenger handling standpoint, the introduction of an express station at 33rd Street would create an almost impossible traffic situation (Minutes, page 17). This conclusion was based upon the argument that express trains during the rush hours are now heavily loaded leaving 14th Street northbound, and that if these trains were required to stop at 33rd Street to take on passengers from local trains who had boarded such local trains at 18th, 23rd and 28th Streets, as well as express passengers coming from the street to the 33rd Street Station, prior to an opportunity to discharge the substantial number of passengers on such express trains who would leave the same at the Grand Central Station, it would create an impossible situation at 33rd Street. Similarly, it was argued that conditions at the Grand Central during the morning rush hours in relation to southbound trains would be intolerable, and as well the conditions at 33rd Street, because of the fact that the passengers who now change from the express to the local at Grand Central would continue to 33rd Street. It was argued that by thus remaining on the express trains, they would prevent, to the extent of their number, passengers from the local trains boarding such southbound express trains at Grand Central. When such express trains reached the 33rd Street Station, it was claimed that the transfers at that point would develop an undesirable condition which would not in any way ameliorate the conditions at the Grand Central.

As I, and indeed the other members of the Commission, have been favorable to the project of remodelling 33rd Street as an express station, I shall not refer in detail to the numerous reasons advanced at the hearings by those interested in the proposal, but shall consider the merits of the objections made by the Interborough Company. Until the explanation made by the witness, Mr. Hedley (Minutes, pp. 315-323), it seemed to me that to whatever extent the transfer of passengers which now takes place at Grand Central Station could be made elsewhere, just to that extent would the conditions at the Grand Central Station be improved; and to improve the conditions in relation to crowding at the Grand Central Station is a most important objective, for that station constitutes the neck of the bottle in the operation of the East Side Subway. Trains cannot be operated on that line in any greater number per hour than they can be operated past the Grand Central Station. The delay is greater there than at any other station, due mainly to the fact that the track approaching the station is curved, and as well to the very much greater number of passengers making transfers there than at any other station on the line.

Mr. Hedley, in his testimony in support of the attitude of the Interborough Company, relied largely upon his experienced conclusions concerning the manner in which traffic would be affected if the change were made (Minutes, p. 313). He stated he was opposed to the change "because it will make the condition worse than it is now." Later, in examination by the Commissioner, Mr. Hedley's view was clearly brought out (Minutes, pp. 315-323). The witness pointed out that statistics show that the passengers transferring at 42nd Street from local to express trains balance in number the passengers transferring from express to locals. Mr. Hedley points out that this balance would no longer obtain if an express stop were provided at 33rd Street. His point is that during rush hours, passengers from local trains are enabled to board express trains at that point, and passengers from express trains are enabled to board local trains at that point, only because one group balances approximately the others. He is certain that if an express stop were provided at 33rd Street the local northbound passengers who now transfer to express trains at 42nd Street, would attempt to make the transfer at 33rd Street, but would be unsuccessful in their attempts to do so because a corresponding

number of the passengers who normally transfer from the expresses to the locals at Grand Central northbound, would not change their habits and transfer at 33rd Street, but would remain on the express trains in accordance with a fixed policy that express passengers in the City of New York do not transfer to locals until they have reached the last express stop preceding their local destination. Mr. Hedley also testified that the number of people who leave cars at the Grand Central Station and who do not transfer to other subway cars, but who go to the Grand Central Depot and to Times Square and to the street, far exceed in number those who change between express and local trains at that station (Minutes, p. 325; also Mr. Keegan's testimony, Minutes, pp. 89-92). Mr. Hedley claimed that it was this extraordinary feature of the transfers occurring at Grand Central Station which made for the balanced exchange of passengers at that point between local and express trains, and that this balanced condition would not obtain at 33rd Street if that were made an express stop (Minutes, p. 326).

Mr. Pegram, Chief Engineer of the Interborough Rapid Transit Company, testified that the proposed express station was impractical because the distance from the surface of the street to the tracks would be greater than at any other downtown station, this because the plans call for lowering the local tracks four feet, which would make a distance of 40 feet from the platform as proposed to the street surface at 34th Street. He gave it as his opinion that the cost of construction would be greater than for any work of its kind yet undertaken in subway construction (Minutes, pp. 331-33). The cost of reconstruction, he said, would be at least \$1,500,000 without reference to accidents. He advised against the project (Minutes, p. 339). Aside from fundamental objections, he also objected to some details of the plan as proposed (Minutes, pp. 350-55). Finally he characterized the proposal as "the worst that could be proposed" (Minutes, p. 364).

Colonel Murphy, Chairman of the Board of Directors of the Interborough Company, testified in relation to the financial side of the proposal as it would affect the lessee company. He pointed out (Minutes, p. 371) that the Transit Commission had recently ordered the Company to increase service in such a manner that a substantial increase in operating costs had resulted; that additional expense had been incurred in improving the elevated service; that the Commission had ordered the Company to purchase 250 new steel cars for the subway service, and that this item alone would involve an expenditure of \$6,000,000; that the Commission had further recently required power-house improvements and developments involving additional expense. He testified that in meeting these several demands, exclusive of the cost of the steel cars, the Company had appropriated all the money available for capital expenses during the current year and for the next year to come (Minutes, pp. 371-3).

In opposition to the representations and views made and expressed on behalf of the Interborough Company, members of the staff of the Transit Commission expressed the view that an express stop at 33rd Street would improve conditions not only at the Grand Central, but generally in relation to the operation of the East Side Line, their opinions being given in relation to charts and traffic counts which indicated the flow of passengers at the Grand Central Station and 33rd Street.

The Fifth Avenue Association, represented by Colonel Friedsam, Mr. Cooke, and Mr. Koehler, the 34th Street Board of Trade, represented by former Commissioner Maltbie, and other associations similarly represented, urged the general advantages which would flow from the change proposed and which were wholly aside from the improvement in operating conditions claimed by Mr. Turner. The great shopping center, made up of the area about East 34th Street, is permanently fixed by the present location of the two great railroad terminals, the Pennsylvania Station and the Grand Central Station, and as well by the type of high-class building development at the present time going on. At the present time, this center cannot be reached on the East Side Subway without a transfer at the Grand Central, where there is great congestion, or at 14th Street. An examination of the testimony taken at the hearings indicates that the discussion and views of the witnesses of the Transit Commission and of the Company largely related to the effect upon passenger transfer and road operation by the change, if made. A relatively small part of the testimony taken relates to the effect of the change, if made, upon the great shopping and hotel district which would be directly affected.

Mr. Turner, Consulting Engineer of the Transit Commission, testified (Minutes, p. 256) that his judgment was directly opposed to the view expressed by Mr. Keegan. Mr. Turner's point is that the express station at 33rd Street would lessen the time that express trains are now required to stop at the Grand Central, and that as the

Grand Central is the throttling point of the East Side line, the relief of pressure at that point would enable more trains to be operated per hour on the East Side Line. The issue presented in relation to the effects upon operation of the construction of an express station at 33rd Street, largely relates to the probable action of passengers on the northbound express trains approaching Grand Central who normally transfer at that station to local trains for the purpose of leaving at local stations between Grand Central and 86th Street. Would these passengers act in conformity with the prediction of Mr. Hedley and Mr. Keegan, that is to say, refuse to make their transfer to the locals at 33rd Street and continue, as they now do, to make their transfer at the Grand Central? If so, when the expresses stop at 33rd Street and the people from the local trains try to board the expresses, they will be endeavoring to board cars carrying their maximum load of passengers, few of whom will leave the trains to make way for the local passengers. Or would such passengers on the northbound express trains, as predicted by Mr. Turner, make transfer to the locals at 33rd Street in order to avoid the greater crowding, the effects of which they are so familiar with, at the Grand Central?

Theoretically, the answer would seem to be that they would make the transfer at 33rd Street because it would be in the interest of their comfort to do so. On the other hand, we know from experience that crowd psychology is complex. Passengers on the transit lines of this city day in and day out do things that are not in the interest of their own comfort and convenience, and they do these things in great numbers. I believe, however, through proper publicity a very large proportion of the class of passengers referred to could be persuaded in their own interest to make the change at 33rd Street rather than to await arrival at the Grand Central. There is, however, no certainty of this. Some doubt, at least, exists as to what they would do. This doubt in my mind is raised by the facts testified to by Mr. Hedley and Mr. Keegan, which were not available at the time I made the original recommendation.

There being at least some doubt concerning the probable action of this class of passengers, there is to be considered the cost of carrying out the project, the completion of which would of course definitely resolve the doubt, one way or the other. This cost is estimated at from \$1,250,000 to \$1,500,000, irrespective of possible damages. One-half of this cost, if the expenditure were authorized, would be borne by the City of New York and one-half by the operating company. I have considered this item of cost in relation to the uncertainty of the action of the class of passengers referred to, and as well in relation to the present financial ability of both the City and the Interborough Company to make such an outlay when other obligations, many of them more pressing and more in the interest of the people of the City as a whole, exist.

In relation to the finances of the City, the Comptroller of the City recently reported the debt-incurring capacity of the City to be \$76,000,000. The City has undertaken to construct a tunnel to Staten Island at a cost of \$60,000,000. If this project is developed into actual contracts for such construction, the City's debt-incurring capacity will be lowered by \$60,000,000, leaving available but \$16,000,000. Against this balance, numerous other tentative obligations are pending. These include construction of the Crosstown Line in Brooklyn and the Washington Heights extension of the subway in Manhattan. Another project in the interest of the traveling public, obviously more important than the project at 33rd Street, is the lengthening of local stations so as to permit the operation of 10-car local trains. Aside from any other consideration, it would not seem justifiable at this time for the City to incur transit obligations involving the expenditure of considerable sums of money unless such projects are of greater importance to the public than others under consideration. There is to be considered also that the Interborough Company has been committed, largely through action of the Transit Commission, to the expenditure of very considerable capital sums, as indicated above. The Interborough Company, like the City, is limited in its capacity to borrow money, not by law, but by financial circumstances.

In view of what has been indicated, I am forced to the opinion that the Commission would not be warranted at this time in approving and directing the carrying out of this project at 33rd Street. I believe, however, that additional studies and traffic observations will justify the judgment of Mr. Turner in his approval of this project.

I recommend that such additional studies be made, and that this case either be adjourned for six months or a year, not only to enable such studies and observations to be completed and considered, but also for the purpose of further considering the

[September 28, 1923]

matter in the light of possible changed financial conditions as they will affect both the City and the Interborough Company; or, as an alternative, I recommend that the project be disapproved at this time on the ground that the expense involved is not warranted at this time under all the circumstances.

JOHN F. O'RYAN,
Transit Commissioner.

September 26th, 1923.

McANENY, Chairman:

Case No. 2695.

I am in agreement with Commissioner O'Ryan's opinion in this matter and I concur in his suggestion that the case be adjourned for from six months to a year—preferably for a year—before the Commission undertakes to determine whether the existing local station at Fourth Avenue and 33rd Street should be reconstructed as an express station.

In my judgment the financial consideration should at this time be accepted as controlling. Within a year the Commission, as well as the City authorities, will be in a much better position to determine what public funds will be applicable, either to new subway facilities or the improvement of the present subway plant. It will then be practicable to determine as well the comparative importance of the specific measures of traffic relief proposed and to determine whether the expenditure this particular improvement would involve would be justified. The postponement of final decision will also permit the Commission to observe with greater care the actual flow of traffic, both express and local, on the Fourth Avenue-Lexington Subway under existing conditions and to pass more satisfactorily upon the merits of the arguments submitted under this head both by its own representatives and those of the Interborough Company.

GEORGE McANENY.

MEMORANDUM FOR GENERAL O'RYAN.

September 25th, 1923

Mr. Harkness

33rd Street Station.

I have read your opinion (returned herewith) and agree with it. If you have no objection I would like to add the following brief concurring statement:

I concur in General O'Ryan's conclusions. The strong impression made on my mind by the testimony is that the advantages claimed for the changed stations are not proved sufficiently to justify spending the large amount required, especially in view of the limited city and company funds available and the demonstrated need of other transit improvements.

LE ROY T. HARKNESS,
Commissioner.

Thereupon the foregoing Opinion in Case No. 2695, and the concurring memoranda by Chairman McAneny and Commissioner Harkness were approved and a motion adopted postponing further action for one year from October 1, 1923.

1343—R. T. 6506

Contract No. 4—Resolution Designating James B. Walker as Member of Depreciation Fund Board—Adopted

The following resolution was adopted:

Resolved, That pursuant to the provisions of Article LIII of Contract No. 4, dated March 19, 1913, between The City of New York and New York Municipal Railway Corporation, and the Elevated Extension Certificate and the Additional Track Certificate allied therewith, James B. Walker be and he hereby is designated to be a member of the Depreciation Fund Board to succeed himself, effective August 1, 1923.

JAMES B. WALKER,
Secretary.

PROCEEDINGS OF
TRANSIT COMMISSION

49 Lafayette Street,
Borough of Manhattan, City of New York.

Proceedings for Tuesday, October 2, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1344—R. T. 7592

Route No. 11-B, Section No. 3—Receipt of Bids for Construction of Extension of Fourth Avenue Subway from 87th Street to 95th Street, Borough of Brooklyn—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for the construction of the extension of the Fourth Avenue Subway, from 87th Street to 95th Street, Borough of Brooklyn, Section No. 3, Route No. 11-B, had elapsed at 11:30 A. M., and directed the Secretary to open the sealed box which had been provided for the deposit of such bids, and to read the bids received.

The Secretary presented the proper affidavits of publication, and opened the box and read the six bids received. The bids were then referred to the Chief Engineer.

1345—R. T. 7592

Route No. 11-B, Section No. 3—Resolution Authorizing Release of Checks to all but Lowest and Next to Lowest of Bidders for Construction of Extension of Fourth Avenue Subway—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer, as to the bids received on October 2, 1923, for the construction of the Fourth Avenue Extension, from 87th Street to 95th Street, Borough of Brooklyn, Section No. 3 of Route No. 11-B, the Secretary be and he hereby is authorized and directed to return to all except the lowest and next to lowest of the bidders, the certified checks in the sum of Twenty Five Thousand (\$25,000) Dollars, each, deposited with their bids.

1346—R. T. 7695

Agreement "CQ"—Form of Contract, Specifications, Invitation to Contractors, etc., for Construction of Station Finish at Queensboro Plaza Station—Resolution Directing Advertising for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for

Agreement "CQ"—Form of Contract, Specifications, Invitation to Contractors, etc., for Construction of Station Finish at Queensboro Plaza Station—Resolution Directing Advertising for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for

the construction of Station Finish Work at the Queensboro Plaza Station in the Borough of Queens, Agreement "CQ",

Resolved, That said Invitation to Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings, for the construction of Station Finish Work at the Queensboro Plaza Station in the Borough of Queens, be and hereby are approved and adopted and that said Invitation to Contractors be published in the City Record every day of publication continuously from and including October 4, 1923 to and including October 11, 1923 and on October 8, 1923 in The Brooklyn Citizen and The Standard Union, daily newspapers published in The City of New York, and that such bids as shall be received shall, on the 11th day of October, 1923, at eleven-thirty (11:30) o'clock, A. M., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

1347—R. T. 6326, 6327

Route No. 11-B, Sections 1 and 2—Communication from Department of Finance Requesting Preparation of Vouchers for Payment of Judgment and Costs with Interest Growing Out of Claims of Degnon Contracting Company—Approval Resolution—Requisition upon Board of Estimate and Apportionment for Appropriation of \$40,641.44

A communication was presented from Deputy Comptroller F. J. Prial of the Department of Finance dated September 18, 1923, requesting the preparation and transmission of vouchers covering the judgment obtained by the Degnon Contracting Company with respect to claims growing out of work under the contracts for the construction of Section Nos. 1 and 2 of Route No. 11-B, totalling the sum of \$39,053.23, together with costs amounting to \$575.46, and interest on said sums from May 7, 1923.

The following resolution was adopted:

Whereas, The Deputy Comptroller Hon. F. J. Prial, of the Department of Finance of The City of New York, has by communication dated September 18, 1923, requested transmission of vouchers to the Department of Finance covering the judgments obtained by the Degnon Contracting Company in respect of claims arising out of the performance of work under contracts between the said company and The City of New York, for the construction of Sections Nos. 1 and 2 of Route 11-B of the so-called Fourth Avenue Rapid Transit Railroad totalling the sum of \$39,053.23; together with costs amounting to \$575.46 and interest on said sums from May 7, 1923 to the date of payment; and

Whereas, The Auditor of this Commission has recommended the making of a requisition for the sub-authorization of such amount under the appropriations heretofore made for Contract No. 4, two vouchers in compliance with the Deputy Comptroller's request to be transmitted to the Department of Finance coincidentally with the sending of such requisition; and

Whereas, Counsel has prepared proposed requisitions which will effect such recommendation.

Resolved, That the said requisition so submitted be and the same hereby is approved and that it be transmitted to the Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

October 2, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission is in receipt of the following communication dated September 18, 1923, from Hon. F. J. Prial, Deputy Comptroller of the Department of Finance:

"A judgment was obtained against the City and filed in the office of the Clerk of the County of New York on May 7, 1923 in favor of Degnon Contract-

ing Company, or Parker and Aaron, attorneys, for the sum of \$39,053.23 together with costs amounting to \$575.46, and interest on these sums from May 7, 1923.

This judgment was predicated upon claims arising out of the performance of work on contracts by and between the Degnon Contracting Company and the City of New York, acting by the Public Service Commission for the First District, for the construction of certain parts of the Fourth Avenue Rapid Transit Railroad, viz.: Route 11-B, Section No. 1, Contract No. 34604, and Route 11-B, Sec. 2, Cont. No. 34603, which contracts were approved by the Board of Estimate and Apportionment and appropriations of corporate stock provided therefor on Sept. 19, 1912 and additional appropriations were subsequently made, all of which were expended and paid to the contractors under vouchers transmitted by the Public Service Commission.

The Corporation Counsel, to whom said judgment was referred on the question of whether such had been properly obtained and should be paid and also whether the City should apply the judgment as an offset to pending actions against the contractors predicated upon abandoned contracts, advised the Comptroller that—

'The principle of offset applies to pending actions and is governed by the rules respecting the allowance of counterclaims. The City's claim was not and could not have been set up as a counterclaim when the action was commenced in which the judgments herein were recovered. Therefore, under the facts above set forth, I am of the opinion that the payment of the judgment recovered by the Degnon Contracting Company cannot be withheld by reason of the fact that the City has a claim against the Degnon Contracting Company because of its default under another contract with the City.'

The segregation of the items comprised within the judgment of the Degnon Contracting Company shows that of the total aggregating \$39,628.69 (\$39,053.23, judgment, plus \$575.46, costs on appeal), \$29,505.33 is apportionable against Sec. 1, Contract 34604, and \$10,123.36 against Sec. 2, Contract 34603. The further interest on the judgment which will date from May 7, 1923 to the date of payment may be divided on the basis of seventy-five per cent as against Sec. 1, and twenty-five per cent. as against Sec. 2.

Will you, therefore, direct that vouchers for the necessary amounts be transmitted to this department charging \$29,505.33 plus interest thereon from May 7, 1923 against Section 1, Contract 34604, Code CCM-126, and \$10,123.36, plus interest thereon from May 7, 1923, against Section 2, Contract 34603, Code CCM-127, on receipt of which vouchers the sums necessary will be transferred from the unencumbered remainder of the general appropriation, Code CCM-400, of Corporate stock provided by the City for the purposes of the contract known as Rapid Transit Contract No. 4.

Yours truly,
F. J. PRIAL,
Deputy Comptroller.

Transmitted herewith are copies of correspondence with the Corporation Counsel's office anent the judgment and copies of the judgments.

Your Honorable Board is therefore requested to set aside as a subauthorization from the appropriations heretofore made for the purposes of carrying out the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and the New York Municipal Railway Corporation, known as Contract No. 4, the sum of forty thousand six hundred fifty-one dollars and forty-four cents (\$40,651.44), which is made up as follows, the interest being computed to October 11, 1923, the anticipated date of payment:

Route No. 11-B, Sec. No. 1 (CCM 126).....	\$29,505.33	
Interest May 7, 1923 to October 11, 1923.....	761.48	
	<hr/>	\$30,266.81
Route No. 11-B, Sec. No. 2 (CCM 127).....	\$10,123.36	
Interest May 7, 1923 to October 11, 1923.....	261.67	
	<hr/>	\$10,384.63

The vouchers as requested by the Deputy Comptroller in his communication will be transmitted to the Department of Finance coincidentally with the transmission of this requisition.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1348—R. T. 7368

Contract No. 3—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Kalamein Doors, under the Contract for the Construction of Second Addition to Shops at the Lenox Avenue and 148th Street Yard—Approval Resolution

A report was presented from the Chief Engineer dated September 22, 1923, recommending the establishment of a supplementary schedule item as described below, and the following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated August 3, 1922 between the City of New York acting by the Transit Commission and Jacob Schlesinger, Inc., for the construction of the Second Addition to Shops, Lenox Avenue and 148th Street Yard, Contract No. 3, having, subject to the approval of the Commission, agreed with the said contractor on the following Schedule Item:

Item No. 532-R—For kalamein doors of types other than those provided for under Schedule Item No. 532-C in place, the sum of four dollars and forty cents (\$4.40) per square foot, as further explained in the following paragraph:

Payment for kalamein doors of types other than those provided for under *Schedule Item No. 532-C*, will be made at the price stipulated in *Schedule Item No. 532-R*, which price shall include the cost of bucks, frame, trim, hardware (including tracks, guides, stops, carriages and other appurtenances, for the sliding doors) glazing, painting, all cutting, fitting, drilling and all other work, labor and material necessary for or incidental to the completion of the kalamein doors in place, except such hardware as may be paid for under *Schedule Item No. 534*.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1349—R. T. 7590

Contract No. 3—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Girder Beams under Contract for Furnishing and Erection of Steel for Third Addition to Shops at 149th Street and Lenox Avenue Yard—Approval Resolution

A report was presented from the Chief Engineer dated September 28, 1923, recommending the approval of a supplementary schedule item, as described below, and the following resolution was adopted:

Whereas, The Chief Engineer in accordance with Item 150 of the contract dated March 14, 1923, between the City of New York, acting by the Transit Commission, and McClintic-Marshall Company, Contractor for the Furnishing and Erection of the Steel Work for the Third Addition to Shops, 148th Street and Lenox Avenue Yard, having, subject to the approval of the Commission, agreed with the said Contractor upon the following supplementary schedule item:

Item No. 19-WW—For furnishing and erecting sixteen 30-inch 190 lb. Bethlehem girder beams, 21 feet 6 inches long, with the necessary stiffeners and gas pipe separators for use in Service Building No. 1, Third Addition to Shops, Lenox Avenue Yard, at a price of \$110.00 per ton.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1350—R. T. 6924

Routes Nos. 4 & 38, Section No. 4—Application by Gulf Refining Company for Approval of Proposed Permit to Substitute Ventilator Gratings in Front of Premises at No. 21 Charles Street, Borough of Manhattan—Report by Chief Engineer Stating Same Is Satisfactory—Approval Resolution

An application was presented from the Gulf Refining Company, dated September 21, 1923, requesting approval of a proposed permit issued by the Interborough Rapid Transit Company, for the substitution of a heavier type of ventilator grating in front of the premises at No. 21 Charles Street, Borough of Manhattan.

A report was presented from the Chief Engineer dated September 26, 1923, stating that the permit is satisfactory from an engineering standpoint.

The following resolution was adopted:

Whereas, By communication dated September 21, 1923 Gordon H. O'Hara, Assistant District Sales Manager of Gulf Refining Company has submitted to this Commission for approval, a proposed permit dated September 4, 1923 and accepted by Gulf Refining Company September 4, 1923, to be issued by Interborough Rapid Transit Company granting the right to remove certain sections of the ventilator gratings forming part of the municipal rapid transit railroad extending under and along Seventh Avenue between Waverly Place and Perry Street, in front of the premises known as No. 21 Charles Street, and to substitute therefor a heavier type of grating for the purpose of providing a driveway across the sidewalk to said premises; and

Whereas, The Chief Engineer of this Commission, by communication dated September 26, 1923, reports that said proposed permit has been examined and found satisfactory from an engineering standpoint; and

Whereas, Counsel has examined said proposed permit and finds no objection thereto,

Resolved, That the said proposed permit so submitted be and the same hereby is approved, and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute the form of approval of this Commission made part of said proposed permit.

1351—R. T. 6080

Route No. 48—Report by Real Estate Clerk Recommending Cancellation of Concession to James F. McLaughlin for Premises at Southerly Side of Beekman Street near William Street, Borough of Manhattan—Approval Resolution

A report was presented from the Real Estate Clerk, dated September 25, 1923, recommending the cancellation as of May 1, 1923, of the concession granted to James F. McLaughlin, to occupy a small space for a trucking stand on the southerly side of Beekman Street near William Street, Borough of Manhattan, for the reason that no possession was taken of the concession.

The following resolution was adopted:

Whereas, James F. McLaughlin of 554-44th Street, Borough of Brooklyn, by application dated April 2, 1923, duly approved by the Commission April 10, 1923, was granted a concession on the southerly side of Beekman Street near William Street, Borough of Manhattan, to be used as a trucking stand, at the rental of \$30.00 per month beginning April 1, 1923, and did deposit the sum of \$30.00 as payment of rent for the first month of occupancy; and

Whereas, The Real Estate Clerk, under date of September 25, 1923, has reported that this tenant did not take possession of the concession, has paid no further rental and has ignored communications from this office, recommending that the first month's rental deposited with the aforesaid application be retained by the Commission and that the concession be terminated as of the end of the month of April, 1923, in which recommendations Counsel has concurred;

Resolved, That the Commission do, and it hereby does, terminate the aforesaid concession and that the deposit of the first month's rental referred to be retained as rental properly due The City of New York.

Contract No. 3—Communication from Interborough Rapid Transit Company, Accepting Resolution Directing Construction of Temporary Inspection Shed at Lenox Avenue Yard and Calling Attention to Financial Condition of Company in Connection with Tripartite Contracts—Referred to Counsel

A communication was presented from the Interborough Rapid Transit Company, dated September 24, 1923, accepting the resolution of the Commission dated September 7, 1923, directing the Interborough Rapid Transit Company to perform the work of constructing a temporary inspection shed at Lenox Avenue and 148th Street Yard as a charge to the cost of its contribution toward the cost of construction, under contract No. 3, but stating that it will be impossible to accede to any further similar requests as the Company has a free balance of only \$30,000 with contingent liabilities aggregating over \$1,000,000, under tripartite construction contracts.

The communication was referred to Counsel.

1353—R. T. 7224

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Drawing for Bleeder Connection from Turbines 7 and 8 to Auxiliary Exhaust at 59th Street Power Station—Report by Consulting Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated September 20, 1923 requesting approval of drawing No. I-10297—B showing a six inch bleeder connection in Turbines 7 and 8 to the auxiliary exhaust at the 59th Street Power Station.

A report was presented from Consulting Engineer, Dr. Charles E. Lucke, dated September 27, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922 the application of the Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3 consisting of additional units of new equipment and appurtenances and cables to provide additional power was approved and by resolution adopted November 14, 1922 this Commission assigned thereto Work Order No. IBA-7; and

Whereas, By communication dated September 20, 1923 Frank Hedley as President and General Manager of Interborough Rapid Transit Company has submitted for the approval of this Commission original tracing entitled "Master Drawing 6" bleeder line from Turbines Nos. 7 & 8 to Auxiliary Exhaust. 59th St. P. H. Interborough Rapid Transit Co. Motive Power Dept. Sheet No. 1—10297—B (1)"; and

Whereas, Consulting Engineer Dr. Charles E. Lucke has recommended the approval of said tracing as more particularly set forth in his communication dated September 27, 1923 addressed to this Commission,

Resolved, That the said report and recommendation be and the same hereby are approved and that the tracing so submitted be and the same hereby is approved.

1354—R. T. 6449

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Contract for Sale of Premises at Ditmars Street and Myrtle Avenue, Borough of Brooklyn—Reports by Real Estate Clerk and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated August 31, 1923, requesting approval of a proposed contract with Fay Koenig and Frieda Koenig for the sale of certain premises at Ditmars Street and Myrtle Avenue, Borough of Brooklyn, at the selling price of \$9,000.

Reports were presented from the Real Estate Clerk dated September 26, 1923, recommending that the application be approved and from the Chief Engineer dated October 1, 1923, stating that the proposed contract is satisfactory from an engineering standpoint.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, by J. H. Bennington, its Real Estate and Tax Agent, has, by communication dated August 31, 1923, submitted to this Commission for its approval a proposed contract dated August 23, 1923 between said New York Rapid Transit Corporation and Fay Koenig and Frieda Koenig, for the sale of certain premises at Ditmars Street and Myrtle Avenue, in the Borough of Brooklyn, as in said agreement more particularly set forth, the proposed purchase price being \$9,000, payable \$500 on the signing of the contract, \$2,000 on the delivery of the deed and by purchase money bond the mortgage for \$6,500 for three years with interest at 6% per annum, payable semi-annually; and

Whereas, The Real Estate Clerk of this Commission, by communication dated September 26, 1923, has reported with respect to said application and has recommended that it be approved; and

Whereas, The Chief Engineer of this Commission, by communication dated October 1, 1923, addressed to Counsel to this Commission, reports that said proposed contract is satisfactory from an engineering standpoint; and

Whereas, Counsel has examined said contract of sale and finds no objection thereto, Resolved, That the said application so submitted be and the same hereby is approved.

1355

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Employment of Engineering Services for Shop Layout at Coney Island Yard—Report by Chief Engineer Submitting Form of Reply Approving Application—Reply Approved

An application was presented from the New York Rapid Transit Corporation dated September 11, 1923, together with a supplementary communication dated September 15, 1923, requesting approval of the employment of Dwight P. Robinson, Inc., as Consulting Engineers to assist in the shop layout for the Coney Island Yard at a cost as shown by the actual payroll plus 100% plus actual expenses.

A report was presented from the Chief Engineer dated September 25, 1923, stating that such method of charge is not unusual nor unreasonable and submitting a proposed reply approving the application.

Upon motion, duly seconded and adopted, the reply was approved on condition that the expenditure for such engineering services would not exceed the sum of \$10,000.

1356—Case 2341**New York Rapid Transit Corporation—Equipment and Appliances—Order Approving Instruction Bulletin Adopted**

The Secretary presented a communication, dated September 24, 1923, from W. S. Menden, President of the New York Rapid Transit Corporation, submitting Instruction Bulletin, N. Y. R. T. 1, dated September 1, 1923, as an addition and modification of schedules theretofore filed with the Commission and also submitting forms of inspection cards.

The Secretary also presented a report, dated September 26, 1923, by W. C. Whiston, Electrical Engineer, approved by the Engineer of Equipment & Operation, recommending the approval of the bulletin and cards, as required by Paragraph 4 of the Final Order in Case No. 2341.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2341, approving the above mentioned instruction bulletin and inspection cards.

1357—Case 2672**The Long Island Railroad Company—Application of the Board of Estimate and Apportionment for a Determination as to the Method by Which 216th Street (Fourth Street) Shall Be Carried Across the Tracks of the Flushing and North Side Division, in the Borough of Queens—Resolution Approving Blueprint Drawing of Foot Bridge**

The Secretary presented a communication, dated September 24, 1923, from L. V. Morris, Chief Engineer of The Long Island Railroad Company, submitting for approval blueprint drawing showing plans and details of foot bridge over 216th Street (Fourth Street) on the Company's Flushing and North Side Division.

The Secretary also presented a report, dated September 28, 1923, by W. L. Selmer, Engineer of Structures, approved by the Engineer of Equipment & Operation, recommending the approval of the above mentioned drawing.

Thereupon the Commission approved and ordered filed a resolution in Case No. 2672, approving the above mentioned drawing.

1358—Case 2690**Hudson & Manhattan Railroad Company—Annual Reports—Extension Order Adopted**

The Secretary presented a communication, dated September 27, 1923, from the Hudson and Manhattan Railroad Company requesting an extension of time of thirty days to file annual report as required by the Commission's Order in Case No. 2690.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2690, granting the desired extension of time to October 30, 1923.

1359—Case 2253

The New York Central Railroad Company et al.—Application of The City of New York for Determination as to Manner in Which East 238th Street Shall Be Carried Across Companies' Tracks—Communication from Alexander S. Lyman, General Attorney for Company—Report by Counsel—Filed

The Secretary presented a communication, dated September 24, 1923, from Alexander S. Lyman, General Attorney for The New York Central Railroad Company, advising that the railroad company's engineers were working in preparation of revised detailed plans and specifications of the East 238th Street bridge.

The Secretary also presented a report, dated September 25, 1923, by Carleton S. Cooke, Assistant Counsel, approved by Counsel to the Commission, advising that the stay asked for by the railroad companies had been refused by the Appellate Division of the Supreme Court and that plans approved in 1920 or 1921 might have become obsolete and in need of revision and that the action taken by the railroads was sufficient compliance pending appeal to the Court of Appeals which should be argued at an early date.

Thereupon the Commission ordered the above mentioned papers filed.

1360—R. T. 7345, 6243

Routes Nos. 48 and 11—Receipt from Department of Finance for Checks as Payment for Interest on Sale of Property at Clark Street and Columbia Heights and for Fire Damages to Premises at No. 77 Rockwell Place, Borough of Brooklyn—Filed

1361

Employees' Resolution No. 167

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Percy S. Palmer, engineering inspector, at \$150.08 per month, to take effect September 24, 1923; Samuel M. Rudesill, engineering inspector, at \$150.08 per month, to take effect October 1, 1923.

Appointments under Rule VIII:4—Hyman Cranberg, draftsman, at \$175.08 per month, to take effect October 2, 1923; Nathan Deutschman, draftsman, at \$175.08 per month, to take effect October 1, 1923; Hyman Firman, junior clerk, at \$60.00 per month, to take effect October 1, 1923; James J. Frawley, junior clerk, at \$60.00 per month, to take effect October 1, 1923; Henry Greenberg, junior assistant, at \$125.08 per month, to take effect October 2, 1923; Abraham Josefson, draftsman, at \$175.08 per month, to take effect October 1, 1923; Abraham Klein, junior assistant, at \$125.08 per month, to take effect September 26, 1923; Daniel H. Lamke, engineering inspector, at \$150.08 per month, to take effect October 2, 1923; Nicholas S. Mogavero, junior assistant, at \$125.08 per month, to take effect October 1, 1923; Walter J. Mulligan, junior assistant, at \$125.08 per month, to take effect September 26, 1923; Ernest Springer, junior assistant, at \$125.08 per month, to take effect September 27, 1923; Julius Sunshine, junior assistant, at \$125.08 per month, to take effect September 26, 1923.

Resignations—Herman Ginsberg, junior assistant, at \$125.08 per month, to take effect September 29, 1923; Jacob D. Mednick, draftsman, at \$150.08 per month, to take effect October 1, 1923; George S. Meister, accountant, at \$150.08 per month, to take effect October 1, 1923; Harry Nathan, assistant engineer, at \$237.50 per month, to take effect September 29, 1923; James O'Connor, engineering inspector, at \$150.08 per month, to take effect September 27, 1923; Percy S. Palmer, junior assistant, at \$125.08 per month, to take effect September 23, 1923.

Change of Rate—Morris Bass, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Arnold Brauer, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Sidney R. Brown, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Juan A. Delgado, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Anthony J. Donargo, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; William Fierstein, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Samuel Fox, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Eli Frankle, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Samuel N. Gerson, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; William F. Johnson, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Louis S. Kirjassoff, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Walter R. Many, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Abraham M. Morris, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; William R. Nugent, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; William A. O'Leary, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Henry L. Rossire, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Reuben Rubin, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; James E. Sampson, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Vincent Schilior, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Emmett J. Scott, Jr., draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Herbert W. Steinbeck, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Samuel Steinfeld, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Francis J. Weber, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Alfred M. Wyman, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923.

Promotions—Pedro H. Agramonte, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; George M. Biales, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Joseph Bunin, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Francis M. Carman, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Anthony M. Catino, draftsman, from \$175.00 to \$175.08, to take effect October

1, 1923; John J. Duffy, draftsman, from \$175.00 to \$175.08, to take effect October 1, 1923; Jacob Drapkin, junior engineer, from \$175.00 to \$180.08, to take effect September 26, 1923; William H. Eberhardt, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Harry Garfinkel, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Joseph I. Garfunkel, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Paul A. Gourtoff, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; John C. Judge, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Aaron Kahn, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; George I. King, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Selig Kunofsky, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Clarence Leader, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Harry Lebedun, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Morris Levy, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Noah London, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Harvey Malcolm, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Israel Malin, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Aubrey L. McCaffrey, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Benjamin I. Nelson, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Stephen M. Pourtier, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Nathan Raboy, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Theodore Regenstreich, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Morris Roberts, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Samuel Rothbard, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Mortimer Schoener, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Nathan A. Shayness, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Benjamin Silver, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Morris E. Spaet, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Nathan B. Sparer, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Joshua B. Steinsapir, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Louis Steinwolf, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Jones A. Stewart, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Jacob Sumter, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Adolph D. Sussman, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Samuel Toporoff, draftsman, from \$175.00 to \$175.08, to take effect October 1, 1923; Lazarus Trommer, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923; Simon Weiner, draftsman, from \$150.08 to \$175.08, to take effect October 1, 1923.

Change of Name—Viola V. Moran from Viola Schmitzler, statistical clerk, at \$112.50 per month, to take effect October 15, 1923.

Change of Item in Resolution of August 28, 1923 Concerning Setrag A. Sulahian so as to Read as Follows: (Appointment under Rule VIII:4)—Setrag A. Sulahian, junior assistant, at \$125.08 per month, to take effect August 22, 1923.

Change of Item in Resolution of September 18, 1923, concerning Jacob Drapkin so as to Read as Follows: (Reinstatement)—Jacob Drapkin, junior engineer, at \$175.00 per month, to take effect September 26, 1923.

Leave of Absence with Pay—Patrick Brown, transit inspector, from September 10, 1923 to September 24, 1923.

1362

Employees' Calendar No. 168

On motion duly seconded and unanimously adopted, the Commission took action retaining William H. Burr, as consulting engineer at \$15,000 per annum, effective October 2, 1923, for such period as the Commission may determine; and

On motion, duly seconded and unanimously adopted, the Commission took action retaining William J. Wilgus, as consulting engineer at \$15,000 per annum, effective October 2, 1923, for such period as the Commission may determine.

Voucher Schedule No. 40

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Vouchers Nos. 937-953, open market orders, \$395.29; Vouchers Nos. 501-514, miscellaneous bills, \$4,375.49.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for Construction of Rapid Transit Railroads for Periods Indicated Below:

Voucher No. 250; Philip J. Healey, approximate estimate No. 3 for making test borings in the proposed Coney Island line in the Borough of Brooklyn; Westchester Line in the Borough of The Bronx, and the extension of the Broadway-Fourth Avenue Line in the Borough of Manhattan, Agreement "CI," from August 1, 1923 to August 31, 1923 (R. T. 5006) \$1,259.15;

Voucher No. 251; Fox, Reynolds Co., Inc., approximate estimate No. 5 for the completion of newsstand enclosure at stations of the Municipal Rapid Transit Railroads, under Contracts Nos. 3 and 4, from August 26, 1923 to September 25, 1923 (R. T. 7419) \$3,679.29;

Voucher No. 252; Rosenthal Engineering Contracting Co., Inc., approximate estimate No. 7 for the construction of foundations for Third Addition to Shops, Lenox Avenue and 148th Street Yard, Contract No. 3, from August 21, 1923 to September 20, 1923 (R. T. 7589) \$15,851.48;

Voucher No. 253; Station Finish Corporation, Assignee, approximate estimate No. 14 for the construction of station finish on Sections Nos. 3, 4 and 5 of Route No. 8, from September 1, 1923 to September 30, 1923, (R. T. 7539) \$6,652.99;

Voucher No. 254; Alfred R. Saxe Lumber Co., approximate estimate No. 1 for the supply of ties and timber, Order No. 8, from May 11, 1923 to September 20, 1923 (R. T. 7640) \$18,929.72;

Voucher No. 255; Degnon Contracting Company, or Parker & Aaron, Attorneys, in full payment of judgment in the action of Degnon Contracting Company vs. The City of New York, entered in the office of the Clerk of the County of New York on May 7, 1923, in connection with the contract dated October 4, 1912, for the construction of Sections Nos. 1 and 2 of Route No. 11-B, (R. T. 6351, 6352) \$40,651.44.

1364

Upon motion duly made and adopted, the meeting was adjourned to Wednesday, October 10, 1923.

6.	Frederick L. Cranford, Inc.....	2,288,207.50

Our estimate for this work amounted to \$1,706,370.

This is the same contract for which bids were received on December 22, 1922, but as the Board of Estimate and Apportionment up to March 5, 1923 had not taken any action on this contract the low bidder on that date withdrew its bid and on March 6, 1923 the Commission in consequence thereof rejected all the bids received for this work.

The lowest bidder for this contract on December 22nd was the same T. A. Gillespie Company, that now again is the lowest bidder, the bid at that time, however, amounted to \$1,485,151, which is \$240,733.10 lower than the present bid. It is interesting to note that the ratio between the present bid and the bid of December 22, 1922 is the same as the ratio between the cost index given in the Engineering News-Record of the cost of work of the same dates.

The prices given in T. A. Gillespie Co.'s bid are reasonable under present conditions although higher than the bid of December 22, 1922, as our estimate is higher now than it was last December.

T. A. Gillespie Company, as stated in my letter of December 26, 1922, is a contracting firm of the highest standing. It has done a great deal of work for the Board of Water Supply of the City of New York and had charge of the reconstruction of the Manhattan Elevated Railroad for addition of a third track to the Second, Third and Ninth Avenue Elevated Lines, which work has all been carried out satisfactorily. This Company has also done considerable subway work in Boston.

Attached I send you copy of minutes of a conference held in my office today with representatives of the T. A. Gillespie Company.

Recommendation: In accordance with the above, I recommend that the contract for Construction of Route 11-B, Section No. 3, Extension of Fourth Avenue Subway to 95th Street in Brooklyn be awarded to the lowest bidder, T. A. Gillespie Company, at its bid figure of \$1,725,884.10, and that a requisition be made on the Board of Estimate and Apportionment for an appropriation of this amount to be charged to Contract No. 4.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the construction of a part of a rapid transit railroad Route No. 11-B, Section No. 3 (Fourth Avenue, Brooklyn) was heretofore finally adopted by this Commission on December 6, 1922 and subsequent to advertisement duly made, bids were received on December 22, 1922; and

Whereas, This Commission by resolution adopted December 27, 1922 awarded said proposed contract subject to its being consented to in form and substance as required by law to the low bidder, T. A. Gillespie Co. and thereafter transmitted said proposed contract to the Board of Estimate and Apportionment for its consent and the appropriation in accordance with the requisition of the Commission of the amount estimated to be necessary to meet the obligations of the city thereunder; and

Whereas, Prior to action by the Board of Estimate and Apportionment on said proposed contract and requisition, the said T. A. Gillespie Co. by communication dated March 5, 1923 formally withdrew its said bid as permitted by the provisions of the general municipal law and this Commission by resolution adopted March 6, 1923, upon advice of its Counsel rejected all bids received on December 22, 1922 as aforesaid because of such withdrawal by the said low bidder; and

Whereas, This Commission has readvertised said proposed contract adopted as aforesaid and subsequent to notice duly published, bids respectively totaling as follows were received on October 2, 1923:

T. A. Gillespie Co.....	\$1,725,884.10
Godwin Construction Co.....	1,745,730.00
Oakdale Contracting Co., Inc.....	1,841,092.09
Rosoff Eng'g. Co., Inc.....	1,892,780.50
Patrick McGovern, Inc.....	1,967,036.00
Frederick L. Cranford, Inc.....	2,288,207.50

; and

Whereas, The Chief Engineer of this Commission by communication dated October 3, 1923 has reported that the amount of said low bid is reasonable and that the said T. A. Gillespie Co. is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the appropriation of the sum of \$1,725,884.10, the amount estimated to be necessary to carry out said proposed contract on the part of the city,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby are approved; that the bid of T. A. Gillespie Co. submitted on October 2, 1923 be and the same hereby is accepted and that the said proposed contract for the construction of a part of a rapid transit railroad, Route No. 11-B, Section No. 3 (Fourth Avenue, Brooklyn) be and hereby is awarded to said T. A. Gillespie Co., subject to its being consented to in form and substance as required by law and that said proposed contract together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$1,725,884.10 estimated to be necessary to meet the City's obligations under said proposed contract be transmitted to said Board of Estimate and Apportionment.

TRANSIT COMMISSION.
By JAMES B. WALKER,
Secretary.

The communication to the Board of Estimate and Apportionment as authorized by the above resolution, was as follows:

October 10, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

On December 27, 1922 the Transit Commission transmitted to you, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, for the consent of your Honorable Board as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission and T. A. Gillespie Co. for the construction of a part of a rapid transit railroad, Route No. 11-B, Section No. 3 (Fourth Avenue, Brooklyn) together with a requisition upon your Honorable Board for the appropriation of a sum estimated to be necessary to meet the City's obligations under said proposed contract upon the basis of the low bid received after public advertisement by the Commission on December 22, 1922. Said proposed contract and requisition were thereafter transmitted to the Committee of the Whole of your Board, but prior to final action thereon, the low bidder, T. A. Gillespie Co., pursuant to the provisions of the General Municipal Law, by communication dated March 5, 1923, withdrew its bid, and there being no alternative this Commission by resolution adopted March 6, 1923 rejected all bids for said proposed contract received as aforesaid on December 22, 1922.

Your Honorable Board then at its meeting of March 16, 1923 (Cal. No. 67) as indicated in the communication dated March 16, 1923 addressed to this Commission by the Assistant Secretary of your Board referred back to this Commission said proposed contract for the reason that the contractor had withdrawn its bid.

The Commission has readvertised said proposed contract and resubmits said proposed contract for the consent of your Honorable Board as required by law, together with a requisition upon your Honorable Board for the appropriation of the sum of One million, seven hundred twenty-five thousand, eight hundred eighty-four dollars and 10/100 (\$1,725,884.10), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract pursuant to the low bid upon such readvertisement. Proposals for said proposed contract pursuant to such readvertisement were received by this Commission on October 2, 1923 respectively totalling as follows:

T. A. Gillespie Company.....	\$1,725,884.10
Godwin Construction Company	1,745,730.00
Oakdale Contracting Company, Inc.....	1,841,092.00
Rosoff Engineering Company, Inc.....	1,892,780.50
Patrick McGovern, Inc.	1,967,036.00
Frederick L. Cranford, Inc.....	2,288,207.50

The Chief Engineer of this Commission, in a communication dated October 3, 1923, reports that the bid of T. A. Gillespie Co., the low bidder is reasonable and that said company is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to said T. A. Gillespie Co. subject to its being consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith

transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of One million, seven hundred twenty-five thousand, eight hundred eighty-four dollars and 10/100 (\$1,725,884.10) and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of One million, seven hundred twenty-five thousand, eight hundred eighty-four dollars and 10/100 (\$1,725,884.10).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4.

TRANSIT COMMISSION,
By LE ROY T. HARKNESS,
Acting Chairman.

1368—R. T. 7635

Agreement "CE"—Certificate by Chief Engineer of Completion of Contract for Changes in Subway Structures so as to Permit Widening of Certain Streets in Borough of Manhattan—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

October 1, 1923.

To TRANSIT COMMISSION:

Certificate of Completion: Agreement "CE"—Making Alterations in the Broadway-Fourth Avenue Rapid Transit Structures at various Locations to permit Widening of Streets, Borough of Manhattan.

In connection with the contract dated March 14, 1923 between the City of New York, acting by the Transit Commission and Benedetto and Saussez for making alterations in the Broadway-Fourth Avenue Rapid Transit structures at various locations to permit the widening of streets in the Borough of Manhattan, I hereby certify that all work was completed on August 13, 1923. The total cost of the work was \$9,037.55.

In accordance with the provisions of the contract, all work should have been completed by July 21, 1923. The time for completion, however, was extended to August 13, 1923 by resolution of the Transit Commission adopted on September 12, 1923. As all work was completed within the contract time, as extended, there are no liquidated damages to be assessed.

Recommended: That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer,
TRANSIT COMMISSION.

The following resolution was adopted:

Whereas, The Contract dated March 14, 1923, between The City of New York acting by the Transit Commission, and Benedetto & Saussez, for making alterations in the Broadway-Fourth Avenue Rapid Transit structures at various locations, to permit of the widening of streets in the Borough of Manhattan (Agreement "CE"), required the completion of all work thereunder on or before July 21, 1923, which time was extended to and including August 13, 1923, by resolution of the Transit Commission adopted on September 12, 1923; and

Whereas, The Chief Engineer of this Commission by communication dated October 1, 1923, has reported that all the work required under said contract was in all respects completed on or before August 13, 1923; that the total cost thereof was \$9,037.55 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York,

Resolved, That the said report and recommendation be and the same hereby are approved, that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

1369

Voucher Schedule No. 41

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, the Comptroller of the State of New York, the Brooklyn-Manhattan Transit Corporation, or The South Brooklyn Railway Company, as the vouchers may direct.

Vouchers Nos. 954-984, open market orders, \$1,745.91; Vouchers Nos. 515-532, miscellaneous bills, \$2,596.20; Vouchers Nos. 24-26, special payroll, \$3,750.00; Vouchers Nos. 171-179, regular city payroll, \$90,831.41; Voucher No. CM-19, regular State payroll, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Materials Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 256; George Colon & Company, supplementary approximate estimate No. 2-A, for the construction of Union Square passageway connection station, Routes Nos. 5 and 8, from April 27, 1923 to July 31, 1923 (R. T. 7513) \$3,326.65;

Voucher No. 257; Michael DelBalso, approximate estimate No. 9 for the installation of tracks, including furnishing of part of the track materials and the construction of drainage system and concrete inspection pits, Route No. 18, 239th Street Yard, from September 1, 1923 to September 30, 1923 (R. T. 7528) \$12,594.78;

Voucher No. 259; Wagner Engineering Co., Inc.; approximate estimate No. 8 for the construction of direction signs at stations of rapid transit railroads, from August 6, 1923 to October 5, 1923 (R. T. 7482) \$1,796.54;

Voucher No. 260; Philip J. Healey; approximate estimate No. 4, for making test borings, proposed Coney Island Line in Borough of Brooklyn, proposed Westchester Line in Borough of The Bronx, and along proposed extension of Broadway-Fourth Avenue Line in Central Park, Agreement "CI", from September 1, 1923 to September 30, 1923 (R. T. 5006) \$446.53;

Voucher No. 261; New York Rapid Transit Corporation, approximate estimate No. 3 for distributing and installing covers, frames and asbestos lumber panels for low bench duct manholes, Contract No. 4, from June 1, 1923 to July 31, 1923 (R. T. 7495) \$1,706.64;

Voucher No. 262; Frederick L. Cranford, Inc.; approximate estimate No. 15, for the reconstruction of a part of Section No. 3 of Route No. 33, Completion of the Lawrence Street station, from September 1, 1923 to September 30, 1923 (R. T. 7454) \$10,681.67;

Voucher No. 263; Hamme & Jackson, Inc., approximate estimate No. 2 for reconstructing retaining wall on both sides of 60th Street Tunnel, at North Jane Street, Borough of Queens, from September 1, 1923 to September 30, 1923 (R. T. 7522) \$4,638.33;

Voucher No. 264; M. A. Charles, approximate estimate No. 2 for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets, in the Borough of Brooklyn, Agreement "CJ", from September 1, 1923 to September 30, 1923 (R. T. 7648) \$553.09;

Voucher No. 264-BMT; M. A. Charles, approximate estimate No. 2 for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets, in the Borough of Brooklyn, Agreement "CJ", from September 1, 1923 to September 30, 1923 (R. T. 7648) \$276.55;

Voucher No. 264-SBR; M. A. Charles, approximate estimate No. 2 for the construction of a concrete and steel highway bridge at Ninth Avenue between 37th and 38th Streets, in the Borough of Brooklyn, Agreement "CJ", from September 1, 1923 to September 30, 1923 (R. T. 7648) \$276.55;

- Voucher No. 265; Gustin Morris Contracting Corporation, approximate estimate No. 6 for the construction of foundations, Route No. 52, Section No. 1, from September 1, 1923 to September 30, 1923 (R. T. 7670) \$6,082.60;
- Voucher No. 266; Rosenthal Engineering Contracting Co., Inc., approximate estimate No. 13, for the construction of inspection shed enclosure for Route No. 18, 180th Street Yard, from September 1, 1923 to September 30, 1923 (R. T. 7457) \$8,220.08;
- Voucher No. 267, Oakdale Contracting Co., Inc., approximate estimate No. 5, for the construction of Route No. 52, Section No. 3, a part of the Flushing Route (R. T. 7673) \$43,986.65;
- Voucher No. 268; T. H. Reynolds Contracting Company, approximate estimate No. 10, for the installation of tracks in Section Nos. 1 to 5, inclusive, Route No. 8, from September 1, 1923 to September 30, 1923 (R. T. 7536) \$6,074.91;
- Voucher No. 269; Slattery Engineering & Construction Co., Inc.; approximate estimate No. 11 for the construction of additional approach track to the Lenox Avenue and 148th Street Yard, under Contract No. 3, from September 1, 1923 to September 30, 1923 (R. T. 7366) \$4,465.68;
- Voucher No. 270; Fox, Reynolds Co. Inc.; approximate estimate No. 4, for the excavation and construction of a retaining wall at the Lenox Avenue and 148th Street Yard, Borough of Manhattan, from September 1, 1923 to September 30, 1923 (R. T. 7642) \$2,394.00;
- Voucher No. 271; Frederick L. Cranford, Inc.; approximate estimate No. 6, for the construction of Section 6-A-1 of Route No. 8 of the Fourteenth Street-Eastern Line, from September 1, 1923 to September 30, 1923 (R. T. 7667) \$26,944.36;
- Voucher No. 258; Benedetto & Saussez; final estimate for making alterations in the structure Broadway-Fourth Avenue Line, at various locations, to permit the widening of streets in the Borough of Manhattan, to August 13, 1923 (R. T. 7635) \$1,390.48.

1370

Voucher Schedule No. 42

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Railroads for the Periods Indicated Below:

- Voucher No. 272; Jacob Schlesinger, Inc.; approximate estimate No. 4 for making changes in subway structures necessitated by the widening of 60th Street, between Second and Fifth Avenues, Borough of Manhattan, from August 26, 1923 to September 25, 1923 (R. T. 7639) \$9,666.54;
- Voucher No. 273; Powers-Kennedy Contracting Corporation; approximate estimate No. 16, for the construction of a part of the Queensboro Subway Rapid Transit Railroad, Routes Nos. 35 and 67, from September 1, 1923 to September 30, 1923 (R. T. 7584) \$56,973.67.

1371

Upon motion duly seconded and adopted, the meeting was adjourned to Thursday, October 11, 1923.

JAMES B. WALKER,
Secretary.

Proceedings for Thursday, October 11, 1923

Present: LeRoy T. Harkness, Acting Chairman; John F. O'Ryan, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1372—R. T. 7695

Agreement "CQ"—Receipt of Bids for Construction of Station Finish at Queensboro Plaza Station—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for the construction of station finish work at the Queensboro Plaza Station, Agreement "CQ," had elapsed at 11:30 A. M. and directed the Secretary to open the sealed box which had been provided for the deposit of such bids and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the four bids received. The bids were then referred to the Chief Engineer.

1373—R. T. 7695

Agreement "CQ"—Resolution Authorizing Release of Checks to All But Lowest Bidder for Construction of Station Finish Work on Queensboro Plaza Station—Adopted

The following resolution was adopted:

Resolved, That upon receipt of the report by the Chief Engineer as to the bids received on October 11, 1923, for the construction of station finish work at the Queensboro Plaza Station, Agreement "CQ," the Secretary be and he hereby is authorized and directed to return to all except the lowest bidder the certified check in the sum of \$300 each deposited with their bids.

1374—R. T. 7664

Route No. 33, Section No. 3—Form of Contract, Specifications, Invitation to Contractors, etc., for Construction of Station Finish at Lawrence Street Station—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal for construction of Station Finish for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 33, Section No. 3, Lawrence Street Station,

Resolved, That said Invitation to Contractors, Information for Contractors, Forms of Contract, Bond and Contractor's Proposal for construction of Station Finish for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 33, Section No. 3, Lawrence Street Station be and are hereby approved and adopted and that said Invitation to Contractors be published in The City Record every day of publication continuously from and including October 13, 1923 to and including October 26, 1923 and on October 15, 1923 and October 22, 1923 in The Brooklyn Citizen and the Standard Union, daily newspapers published in The City of New York and that such bids as shall be received shall on the 26th day of October, 1923 at eleven-thirty (11:30) o'clock a. m. or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission at the office of the Transit Commission and read.

1375—R. T. 7645

Agreement "CS"—Report by Chief Engineer as to Receipt of Bids for Construction of Duct Line at 239th Street Yard and Recommendation for Award of Contract to Felix Hanratty at Bid Price of \$9,663—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

October 2, 1923.

To TRANSIT COMMISSION:

Agreement "CS"—Award of Contract.

On September 28th the following bids were received for work under Agreement "CS", Construction of a Railroad Duct Line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Route No. 18, Borough of The Bronx:

No.	Name	Amount
1.	Felix Hanratty	\$9,663.00
2.	John Riches	11,636.00
3.	Thos. Crimmins Contracting Co.....	12,502.00
4.	Slattery Eng'g. & Const. Co.....	12,850.00
5.	Frank Persicano	13,673.50
6.	Michael Del Balso.....	14,380.00
7.	M. A. Charles.....	15,294.75
8.	N. W. Ryan.....	15,316.50
9.	T. H. Reynolds Contr. Co., Inc.....	15,445.00

Our estimate for this work amounts to \$10,077.

The lowest bidder, Felix Hanratty, has not previously done any work for the Commission. He has, however, done considerable work for the Borough of The Bronx and the engineers of that office, in answer to our inquiry, say that his work has been satisfactory. The prices offered by the lowest bidder seem reasonable.

Enclosed I send you copy of minutes of a conference with the lowest bidder held in my office on October 2nd, in which he makes a statement of his financial standing which seems satisfactory.

Recommendation: From an engineering standpoint I recommend that the contract for work under Agreement "CS," Construction of a Railroad Duct Line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Route No. 18, Borough of The Bronx, be awarded to the lowest bidder, Felix Hanratty, at his bid figure of \$9,663 and that a requisition be made on the Board of Estimate and Apportionment for an appropriation of this amount to be charged to Contract No 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the construction of a railroad duct line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad (Route No. 18), Borough of The Bronx, Agreement "CS," was heretofore finally adopted and subsequent to advertisement duly made bids respectively totalling as follows were received on September 28, 1923:

Felix Hanratty	\$9,663.00
John Riches	11,636.00
Thos. Crimmins Contracting Co.....	12,502.00
Slattery Eng'g & Construction Co.....	12,850.00
Frank Persicano	13,673.50
Michael Del Balso.....	14,380.00
M. A. Charles.....	15,294.75
N. W. Ryan.....	15,316.50
F. H. Reynolds Contracting Co., Inc.....	15,445.00

; and

Whereas, The Chief Engineer of this Commission, by communication dated October 2, 1923, has reported that the amount of said low bid is reasonable and that the said

Felix Hanratty, the low bidder, is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$9,663, the amount estimated to be necessary to carry out said proposed contract.

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of Felix Hanratty, submitted as aforesaid, be and the same hereby is accepted and that the said proposed contract for the construction of a railroad duct line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad (Route No. 18), Borough of The Bronx, Agreement "CS," be and the same hereby is awarded to said Felix Hanratty, subject to its being approved and consented to in form and substance, as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment, in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$9,663, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment as authorized by the above resolution was as follows:

October 11, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Felix Hanratty, for the construction of a railroad duct line at the 239th Street Yard of the White Plains Road Rapid Transit Railroad (Route No. 18), Borough of The Bronx, Agreement "CS," together with a requisition upon your Honorable Board for the appropriation of the sum of Nine thousand six hundred sixty-three dollars (\$9,663), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on September 28, 1923, respectively totalling as follows:

Felix Hanratty	\$9,663.00
John Riches	11,636.00
Thos. Crimmins Contracting Co.....	12,502.00
Slattery Engr. & Constr. Co.....	12,850.00
Frank Persicano	13,673.50
Michael Del Balso.....	14,380.00
M. A. Charles.....	15,294.75
N. W. Ryan.....	15,316.50
F. H. Reynolds Contr. Co., Inc.....	15,445.00

The Chief Engineer of this Commission, in a communication dated October 2, 1923, reports that the bid of Felix Hanratty, the low bidder, is reasonable and that the said Felix Hanratty is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to the said Felix Hanratty, subject to its being consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Nine thousand six hundred sixty-three dollars (\$9,663), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund of said City may prescribe for the purposes of providing the necessary means for meeting the City's obligations under said proposed contract, to wit, the sum of Nine thousand six hundred sixty-three dollars (\$9,663).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION,
By LEROY T. HARKNESS,
Acting Chairman.

1376—R. T. 7661

Route No. 78-A—Resolution Adopting Route and General Plan for St. Nicholas Avenue, Broadway and Fort Washington Avenue Route—Communication to Board of Estimate and Apportionment—Adopted

The following resolution was adopted:

ST. NICHOLAS AVENUE, BROADWAY AND FORT WASHINGTON AVENUE ROUTE.
(Route No. 78-A.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Manhattan, the center line of which shall begin at a point in St. Nicholas Avenue at or near West 162nd Street where a connection can conveniently be made with other proposed rapid transit railroads; thence extending northerly as a subway or tunnel along and under St. Nicholas Avenue to a point in St. Nicholas Avenue at or near Broadway and West 169th Street; thence extending northerly along and under Broadway to a point in Broadway at or near West 173d Street; thence curving northwesterly across and under private property to a point in Fort Washington Avenue at or near West 174th Street; thence extending northerly under and along Fort Washington Avenue to a point in Fort Washington Avenue at or near West 175th Street, where a connection can conveniently be made with other proposed rapid transit railroads.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

For the entire route there shall be four (4) tracks.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by special necessities of surface or subsurface structures or other special or local necessities, and at curves and for the purpose of avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street so far as may be found convenient and practicable, except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to any part of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purpose of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks may be placed in one tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half ($8\frac{1}{2}$) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional track for siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of roadway.

Station and station entrances and exits may be built under the streets or through private property to be acquired for the purpose or both under streets and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission, in cases of necessity and for such times as may be necessary, permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street" wherever used herein shall include an avenue or public place. The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAPS OR DRAWINGS

It is Further Resolved, That the map or drawing entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 78-A, St. Nicholas Avenue, Broadway and Fort Washington Avenue Route, Borough of Manhattan," dated October 9, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby is adopted as showing the foregoing route and general plan for convenience merely and that said map or drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment was as follows:

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on October 11, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Manhattan, City of New York, to be known as St. Nicholas Avenue, Broadway and Fort Washington Avenue Route (Route No. 78-A).

This route begins at a point in St. Nicholas Avenue at or near West 162d Street, in the Borough of Manhattan, where a connection can conveniently be made with other proposed rapid transit railroads and extends thence northerly under and along St. Nicholas Avenue to Broadway, thence continuing northerly under and along Broadway to West 173d Street; thence curving northwesterly across and under private property to a point in Fort Washington Avenue at or near West 174th Street; thence northerly under and along Fort Washington Avenue to West 175th Street, where a connection can conveniently be made with other proposed rapid transit railroads.

Dated October 11, 1923.

Attest:

JAMES B. WALKER,
Secretary.

TRANSIT COMMISSION,

By LEROY T. HARKNESS,
Acting Chairman.

1377—R. T. 7661

Route No. 78-B—Resolution Adopting Route and General Plan for Central Park, Eighth Avenue and St. Nicholas Avenue Route—Communication to Board of Estimate and Apportionment—Adopted

The following resolution was adopted:

CENTRAL PARK, EIGHTH AVENUE AND ST. NICHOLAS AVENUE ROUTE.
(Route No. 78-B.)

Whereas, The Transit Commission has determined that a rapid transit railroad for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of the City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination,

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railroad in the City of New York and does hereby determine and establish the said additional route thereof as follows and does hereby adopt a general plan of construction of the said railroad, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such

details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission, in adopting the said route and general plan, expressly reserves all the powers in relation to the construction of the said route which are conferred upon it by the Rapid Transit Act.

ROUTE

A route lying wholly within the Borough of Manhattan, the center line of which shall begin at a point in Central Park at or near Central Park West opposite West 63d Street, where a connection can conveniently be made with other proposed rapid transit railroads; and extends thence as a subway or tunnel under and along Central Park northerly parallel and adjacent to Central Park West to a point in Central Park opposite West 107th Street; thence curving slightly westerly under the park and under and along Central Park West and Eighth Avenue to St. Nicholas Avenue and West 121st Street and thence extending northwesterly and northerly under and along St. Nicholas Avenue to a point at or near West 125th Street, where a connection can conveniently be made with other proposed rapid transit railroads.

GENERAL PLAN OF CONSTRUCTION

The general plan of construction hereby adopted for the foregoing route is as follows:

There shall be four (4) tracks for the entire route.

The tracks shall be substantially parallel with each other and on substantially the same level; except that wherever required by special necessities of surface or sub-surface structures or other special or local necessities, and at curves and for the purpose of avoiding grade crossings and at and near all points of connection with existing or proposed rapid transit railroads any of the tracks may be elevated above or depressed below the level of the other track or tracks or separated from the other tracks to the extent that may be necessary.

The tracks shall be in subway or tunnel throughout.

The tracks shall be placed in general under the central part of the street or near the westerly line of the park so far as may be found convenient and practicable, except that wherever required by special or local necessities or conditions and at curves and at stations and station approaches, the tracks or any one or more of them may be diverted as far as necessary to any part of said streets or any of them. Any part of the longitudinal streets of the route may be occupied so far as the purposes of this general plan require.

The roof of the said tunnels above mentioned shall be of iron or steel with brick or concrete arches, supported by iron or steel or masonry columns or resting upon masonry walls; or the roof may be a masonry structure; or the whole of the lining may be of metal.

The said tunnels shall in no case be more than sixteen (16) feet in height in the clear, except that at stations, station approaches, fan chambers, emergency exits, duct manholes and at other points where special or local necessities or conditions or special methods of tunneling may require, such height in the clear may be increased so far as necessary.

There shall be a width in the said tunnels not exceeding fifteen (15) feet for each track, in addition to the thickness of the supporting walls, except that at stations, station approaches, fan chambers, emergency exits, duct manholes, switches, turnouts, curves and crossovers, and at other points where special construction shall so require, such width may be increased so far as necessary.

The roof of the tunnels when under the street shall be as near the surface of the street as street conditions, subsurface structures, grades and connections with other routes will conveniently permit, except that where any of the tracks may be depressed below the other track or tracks as above provided, the lower track or tracks may be depressed to the extent that may be necessary as aforesaid.

The tracks may be placed in one tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

The tracks shall be of standard gauge, that is to say, of the width of four (4) feet and eight and one-half (8½) inches between the gauge lines.

The tracks may be connected by necessary and suitable switches and connections for which purposes additional tracks may be constructed and additional track for

siding accommodations may be constructed not to exceed in length one-half of a mile for each mile of roadway.

Station and station entrances and exits may be built under the streets, under the park, or through private property to be acquired for the purpose or both under streets, under the park and through private property as aforesaid. The streets under which stations or station entrances or exits may be built may include cross streets, but no part of any cross street shall be used for a station or station entrance or exit at a distance greater than seventy-five (75) feet from the exterior line or side of the longitudinal streets of the route.

Pipes, wires, sewers, street railroad tracks, poles for electric wires and other surface and subsurface structures at any part of the said route shall be removed or disturbed only when necessary for the construction or operation of the railroad above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling, trench excavation under cover or open excavation, except that under any street of the route construction shall be only by tunneling or trench excavation under cover unless the Commission, in cases of necessity and for such times as may be necessary, permits construction of such portions by open excavation.

In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall, so far as possible, be replaced under the direction and to the satisfaction of the said Department.

MODE OF OPERATION

The general mode of operation of the route above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors or other means of transmitting power shall be capable of moving conveyances at a speed of not less than thirty-five (35) miles per hour for long distances, exclusive of stops.

DEFINITIONS

The word "street," wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean Chapter 4 of the Laws of 1891, entitled "An Act to provide for rapid transit railways in cities of over one million inhabitants," as amended by Chapter 752 of the Laws of 1894, and other Acts of the Legislature.

MAPS OR DRAWINGS

It is Further Resolved, That the four (4) maps or drawings entitled "State of New York, Transit Commission, Engineering Department, Route and General Plan, Route No. 78-B, Central Park, Eighth Avenue and St. Nicholas Avenue Route, Borough of Manhattan," and further marked "Key Map," and "Sheet No. 1," "Sheet No. 2," and "Sheet No. 3," respectively, all dated October 9, 1923, and signed by Robt. Ridgway, Chief Engineer, be and hereby are adopted as showing the foregoing route and general plan for convenience merely and that said maps or drawings are not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

The communication to the Board of Estimate and Apportionment was as follows:

TO THE BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission herewith transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of a resolution adopted by it on October 11, 1923, determining and establishing a route and general plan of construction for an additional rapid transit railroad in the Borough of Manhattan, City of New York, to be known as Central Park, Eighth Avenue and St. Nicholas Avenue Route (Route No. 78-B).

This route begins at a point in Central Park at or near Central Park West opposite West 63d Street in the Borough of Manhattan, where a connection can conveniently be made with other proposed rapid transit railroads and extends thence northerly along and under Central Park, parallel and adjacent to Central Park West to a point opposite West 107th Street; thence curving slightly westerly and extending northerly along and under Central Park West and Eighth Avenue to St. Nicholas Avenue and West 121st Street; thence northwesterly and northerly along and under St. Nicholas Avenue to West 125th Street, where a connection can conveniently be made with other proposed rapid transit railroads.

Dated October 11, 1923.

Secretary.

1378—R. T. 6989

Route No. 18—Resolution Declaring Ready for Operation Additional Tracks at 180th Street Yard—Adopted

The following resolution was adopted:

Resolved, That, under and in pursuance of the provisions of the contract known as Contract No. 3 dated March 19, 1913, made between the City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, this Commission hereby declares the following additional tracks in the East 180th Street Yard of the White Plains Road Line, located between East 180th Street, the White Plains Road Line and Bronx Park as described in said Contract No. 3 to be ready for operation at 10:30 o'clock A. M. on Thursday, October 11, 1923.

Track B from a connection with the middle Track M of White Plains Road Line (approximate general stationing 390+00) to the northerly end of yard (approximate general stationing 400+63).

The above tracks to include all special work, bumpers and appurtenances within the designated limits.

1379—R. T. 7643

Contract No. 1—Communication from Board of Estimate and Apportionment Transmitting Report of President of Borough of Manhattan as to Suggestion for Opening to Public Traffic of Mezzanine Platform between Hotel Belmont and Grand Central Station—Communication to Interborough Rapid Transit Company—Approved

A communication was presented from the Board of Estimate and Apportionment dated March 9, 1923, submitting a copy of a report by the President of the Borough of Manhattan, relative to a suggestion from the 42nd Street Property Owners and Merchants Association, for the opening to public traffic, of the mezzanine platform across the tracks of the Grand Central Subway Station, between the Hotel Belmont and the Grand Central Station.

Upon motion duly seconded and adopted, the following communication to the Interborough Rapid Transit Company, was approved:

October 11, 1923.

MR. FRANK HEDLEY, Pres. & Gen. Mgr.,
INTERBOROUGH RAPID TRANSIT COMPANY,
165 Broadway, New York City.

Grand Central Station—Contract No. 1, Provision for Free Passageway at the Vanderbilt Avenue Mezzanine.

Dear Sir:

A request has been received from the Board of Estimate and Apportionment by letter dated March 9th, that studies be made relative to a suggestion that the mezzanine

platform across the tracks of the old Grand Central Subway Station between Hotel Belmont and the Grand Central Station, be opened as a thoroughfare, so as to provide a safe crossing for the public under 42nd Street.

The present arrangement of controls is such that this is not possible.

Suggestion has been made to you at various times to have the under-passageway between the diagonal station and the shuttle platforms widened for two-way traffic, so that it should not be necessary for the passengers transferring to use the passageway under the north side of 42nd Street. As pointed out to you on December 7, 1922, this will be advantageous to the Company in that it would save a change booth and would permit of the use of one less turnstile.

A proposed agreement for the construction of this widened passageway was transmitted to you recently. If this were constructed it would be possible for the public to cross under 42nd Street through this mezzanine without passing through the controls.

Will you kindly advise me whether the Interborough Rapid Transit Company would be willing to permit the mezzanine at Vanderbilt Avenue and 42nd Street to serve as a public thoroughfare, if the above connecting passageway between the shuttle platform and the diagonal station of the Lexington Avenue Line is widened, as shown on drawing No. 1005, File No. 47 print of which is transmitted herewith.

You will note that if the arrangement of controls is changed to permit of this, there will be a possible free thoroughfare which would permit the public to cross under the street similar to the conditions at the Chambers Street Station of the West Side Subway, the Times Square Station, the 14th Street Station of the West Side Subway and at other points. An early reply will be greatly appreciated.

Very truly yours,

JAMES B. WALKER,
Secretary.

1380—R. T. 7592

Route No. 11-B, Section No. 3—Form of Communication to New York Rapid Transit Corporation Requesting Notification of Acquiescence to Extension of Fourth Avenue Subway from 86th Street to 95th Street as an Extension—Approved

The following form of communication was approved:

October , 1923

W. S. MENDEN, Esq., President,
NEW YORK RAPID TRANSIT CORPORATION,
85 Clinton Street,
Brooklyn, N. Y.

Contract No. 4—Extension Fourth Avenue, 86th Street and 95th Street.

Dear Sir:

Article LXX of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, provides in part as follows:

"If the Commission shall determine to add any Extension to the Railroad it shall so inform the Lessee at least six months in advance of the time when the Lessee is to begin providing Additional Equipment for such Extension. *Within three months after the receipt of such notice the Lessee shall in writing inform the Commission whether it acquiesces in the addition of such Extension.*"

Under date of December 8, 1922 the Chairman of this Commission, in accordance with the provisions of said contract as aforesaid, notified Lindley M. Garrison, as Receiver of New York Municipal Railway Corporation, of the determination of this Commission to add to the present southerly terminus of Subdivision VII of the Broadway-Fourth Avenue Line of the Railroad as described in said Contract No. 4, the following Extension:

A two and three track underground railroad, beginning at a point in Fourth Avenue, in the Borough of Brooklyn, near 87th Street where a connection can be made with subdivision VII of the Railroad, and extending thence southerly under and along Fourth Avenue to a point in Fourth Avenue between 95th and 96th Streets, as more particularly shown on Drawing entitled "Route No. 11-B,

Section No. 3, Contract Drawing No. A1," dated December 1, 1922 and signed by Robt. Ridgway, Chief Engineer.

The Transit Commission has considered your letter of October 6, 1923 addressed to the Chief Engineer of the Commission referring to studies as to various details in the construction of such Extension and wherein you state "and it should be further understood that in making any recommendations as to arrangement * * * that this is being done informally and should in no way be construed as a consent by the lessee under Contract No. 4 to this extension."

The Commission is informed that the provision of the contract referred to imposes upon your company a contractual obligation with respect to notification to this Commission of acquiescence or non-acquiescence in the matter of adding an Extension to the Railroad under Contract No. 4 and that the contractual limitation of three months in respect to this Fourth Avenue Extension has long since expired. It is the opinion of the Commission that the said provision of Contract No. 4 was not intended and should not be used as a basis for discussion as to the very numerous details of the construction of a rapid transit railroad but that the unit of any Extension as a whole only should be considered. Moreover it is not believed that such provision should be used as a lever or vantage point to endeavor to force the construction of a type or character of any Extension thought preferable by the Lessee.

The Commission therefore requests that, without further delay, the New York Rapid Transit Corporation, in compliance with its obligation under Contract No. 4, notify this Commission as requested in the notice of December 8, 1922 aforesaid.

Very truly yours,

Secretary.

1381—R. T. 6334

Contract No. 3—Proposed Agreement and Stipulation with Interborough Rapid Transit Company for Reconstruction of Entrance to Dyckman Street Station—Approval Resolution

The following resolution was adopted:

Whereas, The City of New York acting by the Transit Commission and Interborough Rapid Transit Company are about to enter into an agreement dated August 24, 1923 providing for the reconstruction of the entrance to the Dyckman Street station of the Manhattan-Bronx Rapid Transit Railroad of the Existing Railroads as described in the contract dated March 19, 1913 known as Contract No. 3, as an Addition to Construction as defined in said Contract No. 3; and

Whereas, Interborough Rapid Transit Company has submitted in connection therewith a proposed stipulation dated August 30, 1923 between The City of New York, acting by the Transit Commission and said Interborough Rapid Transit Company wherein it is agreed that the execution of the proposed agreement as aforesaid shall be without prejudice and should not be construed as a precedent in respect of any future work of a similar nature; and

Whereas, Counsel has examined said proposed stipulation and recommends that it be approved, executed and delivered,

Resolved, That said proposed stipulation so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said proposed stipulation for and on behalf of this Commission.

1382—R. T. 7367

Routes Nos. 35 & 67—Letter from Counsel Submitting Proposed Agreement for Modification of Ventilator Chamber in Front of Premises at Nos. 119-127 West 41st Street, Borough of Manhattan—Approval Resolution

A letter was presented from Counsel dated October 4, 1923, transmitting a proposed agreement with the Rudolph Wurlitzer Company, for the modification of the construction of the ventilator chamber located in front of the premises Nos. 119-127 West 41st Street, Borough of Manhattan, and advising of the deposit by the owner of a certified

check in the sum of \$3,000 payable to the City of New York, in full satisfaction of its obligations under the proposed agreement.

The following resolution was adopted:

Whereas, Counsel, with his letter dated October 4, 1923, has submitted to this Commission a proposed agreement between The Rudolph Wurlitzer Company and The City of New York, acting by the Transit Commission, for the modification of construction of a ventilator chamber located in front of the premises Nos. 119-127 West Forty-first Street, in the Borough of Manhattan, and has recommended that such proposed agreement be approved and executed by the Transit Commission on behalf of The City of New York; and

Whereas, Said proposed agreement has been approved by the Chief Engineer,

Resolved, That said proposed agreement in the form submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they are hereby authorized to execute the same.

1383—R. T. 7536

Route No. 8, Sections Nos. 1-5—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Additional Broken Stone Ballast under Contract for Installation of Tracks—Approval Resolution

A report was presented from the Chief Engineer, dated October 5, 1923, recommending the establishment of a supplementary schedule item, as described below.

The following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission, in pursuance of Item No. 3000 of the contract dated October 25, 1922, between The City of New York acting by the Commission and the T. H. Reynolds Contracting Company, Inc. for the installation of tracks for the 14th Street-Eastern Line, Route No. 8, Sections 1 to 5 inclusive, having subject to the approval of the Commission agreed with the said contractor upon the following supplementary schedule item:

Item 4-X—For furnishing and placing in the Works additional Class "A" broken stone ballast outside of the net lines for payment, covered by the regular unit prices of the contract, exclusive of Item 1-X, the sum of \$4.25 per cubic yard.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1384—R. T. 7457

Route No. 18—Application by Rosenthal Engineering Contracting Company, Inc., for Approval of Assignment of \$23,608.56 under Contract for Construction of Inspection Shed Enclosure in 180th Street Yard—Approval Resolution

An application was presented from Rosenthal Engineering Contracting Company, Inc., dated October 6, 1923, requesting approval of a proposed assignment to the First National Bank of Brooklyn of retained percentages amounting to \$23,608.56, under the contract for the construction of an inspection shed enclosure in the 180th Street Yard.

The following resolution was adopted:

Whereas, On or about the 26th day of June, 1922, The City of New York, acting by the Transit Commission, entered into a contract with Rosenthal Engineering Contracting Company, Inc., for construction of inspection shed enclosure in the 180th Street Yard of the White Plains Road Rapid Transit Railroad, (Route No. 18) in the Borough of Bronx, City of New York; and

Whereas, Said Rosenthal Engineering Contracting Company, Inc., has submitted to the Transit Commission a proposed assignment dated the 6th day of October, 1923, assigning Twenty-three thousand, six hundred and eight 56/100 dollars (\$23,608.56) moneys due or to grow due under or on account of said contract to the First National

Bank of Brooklyn and in accordance with the provisions of said contract and the requirements of law have requested this Commission to consent to said proposed assignment,

Resolved, That said assignment aforesaid now submitted to the Transit Commission be and the same hereby is approved subject to the terms and conditions in said contract contained and upon the conditions following:

First: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no way defeat or impair such rights and remedies as sub-contractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or services performed or materials furnished if said assignment had never been made, such rights and remedies to remain in all respects the same as if said assignment had never been made.

Second: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no respect affect the right of The City of New York or of the Transit Commission or of any Board, Officer, agent or employee acting for or on behalf of The City of New York or of the Transit Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to persons or property) such rights as well as all other rights of The City of New York and the Transit Commission to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third: The consent of the Transit Commission to said assignment herein given shall take effect if, when and only when the sureties upon the bond deposited as security for the faithful performance on the part of the contractor of its obligations under said contract shall consent in writing to said assignment and the conditions of this resolution in form to be approved by Counsel to the Commission and further until the assignee under said assignment, the First National Bank of Brooklyn shall consent and accept the terms and conditions of this resolution, in form to be approved by Counsel to this Commission.

1385—R. T. 7589

Contract No. 3—Application by Rosenthal Engineering Contracting Company, Inc., for Approval of Assignment of \$26,786.17 under Contract for Foundations for Third Addition to Shops at Lenox Avenue and 148th Street Yard—Approval Resolution

An application was presented from Rosenthal Engineering Contracting Company, Inc., dated October 6, 1923, requesting approval of a proposed assignment to the First National Bank of Brooklyn of retained percentages amounting to \$26,786.17 under the contract for the construction of foundations for the Third Addition to Shops at the Lenox Avenue and 148th Street Yard.

The following resolution was adopted:

Whereas, On or about the 26th day of December, 1922, The City of New York, acting by the Transit Commission, entered into a contract with Rosenthal Engineering Contracting Company, Inc., for construction of foundations for third addition to shops at the Lenox Avenue and 148th Street Yard in the Borough of Manhattan, City of New York; and

Whereas, Said Rosenthal Engineering Contracting Company, Inc., has submitted to the Transit Commission a proposed assignment dated the 6th day of October, 1923, assigning Twenty-six thousand, seven hundred eighty-six dollars and seventeen cents (\$26,786.17) moneys due and to grow due under or on account of said contract to the First National Bank of Brooklyn and in accordance with the provisions of said contract and the requirements of law have requested this Commission to consent to said proposed assignment.

Resolved, That said assignment aforesaid now submitted to the Transit Commission be and the same hereby is approved subject to the terms and conditions in said contract contained and upon the conditions following:

First: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no way defeat or impair such rights and remedies as sub-

contractors or other persons or corporations would have had against such moneys assigned as aforesaid or any portion thereof on account of work, labor or services performed or material furnished if said assignment had never been made, such rights and remedies to remain in all respects the same as if said assignment had never been made.

Second: That said assignment hereby approved and the consent of the Transit Commission herein given shall in no respect affect the rights of The City of New York or of the Transit Commission or of any Board, Officer, agent or employee acting for or on behalf of The City of New York or the Transit Commission to deduct, reserve, retain, withhold, apply, use or pay moneys or to withhold certification or estimates for payment of moneys pursuant to the terms and conditions of said contract (including but not limited to the right to satisfy or discharge liens, with interest and costs, and to pay the amount of any judgment obtained on account of injuries or alleged injuries to person or property) such rights as well as all other rights of The City of New York and the Transit Commission to remain unchanged and in full force and effect in all respects as if said assignment had never been made.

Third: The consent of the Transit Commission to said assignment herein given shall take effect if, when and only when the sureties upon the bond deposited as security for the faithful performance on the part of the contractor of its obligations under said contract shall consent in writing to said assignment and the conditions of this resolution in form to be approved by Counsel to the Commission and further until the assignee under said assignment. The First National Bank of Brooklyn shall consent and accept the terms and conditions of this resolution, in form to be approved by Counsel to this Commission.

1386—R. T. 7103, 6423

Contract No. 3—Report by Auditor of Rapid Transit Costs Making Recommendations as to Available Unexpended Balance of Contribution to Cost of Construction by Interborough Rapid Transit Company—Letter from Counsel Suggesting Copies Be Sent to Department of Finance, Board of Estimate and Apportionment and Corporation Counsel—Approved

The following report by the Auditor of Rapid Transit Costs was approved:

October 3, 1923.

FROM: FREDERICK WILCOCK, Auditor of Rapid Transit Costs.

TO: WILLIAM G. FULLEN, Counsel.

SUBJECT: *Balance of I. R. T. Co. Contribution to Construction under Contract No. 3.*

In a communication to the Transit Commission dated September 24, 1923, which you have referred to me, Mr. Frank Hedley, President and General Manager of the Interborough Rapid Transit Company, defines the Company's position in regard to the cash balance of the contribution to the cost of construction under Contract No. 3.

The figures given by Mr. Hedley are in agreement with our record. The balance of the contribution can be made available, in my opinion, by the following procedure:

1. The Commission should certify to the Comptroller, in accordance with Article XVII of Contract No. 3, that the Interborough Rapid Transit Company, having substantially completed its contribution, with the exception of the amount now on deposit with the Comptroller to secure the performance of the construction features of the contract, is entitled to the return of the Liberty Bonds costing \$180,842.19, in order that the proceeds of the sale of these bonds may be expended on construction.

2. The Interborough Rapid Transit Company should be given the definite assurance that there will be no further liabilities against it on account of any of the tripartite construction contracts under which it states there are contingent liabilities totaling \$1,163,308.52. It would appear by the provisions of the several tripartite construction contracts (Article XXXVIII) that no further vouchers are to be drawn against the Interborough Rapid Transit Company for the reason that the final voucher against the Interborough Rapid Transit Company under a tripartite contract is for the final estimate, and the settlement of claims would be subsequent to the final estimate. Furthermore, by Article XII of Contract No. 3, should such claims accrue against the Interborough Rapid Transit Company, "the City shall on demand of the Lessee properly settle and pay such claim or claims." If you agree that the assurance may properly be given, it is

suggested, in view of the possibility that the City authorities will dispute the amount of the contribution as determined by the Chief Engineer of the Commission and accepted by the Commission, that the Corporation Counsel join with the Commission in giving the assurance requested by the Interborough Rapid Transit Company.

If the two actions above recommended are taken, the balance stated at \$210,521.50 in excess of the known obligations, would be released immediately for new construction.

Under the head of known obligations Mr. Hedley lists amounts aggregating \$142,494.93 on account of payments due under construction contracts on estimates approved by the Transit Commission. In the cases of the Rapid Transit Subway Construction Company, and Booth and Flinn, Assignee, payment of the amounts was refused by the contractors in connection with their final estimates in order to prevent the operation of the waiver which is effected by the acceptance of the final estimate under the construction contracts. The amount of \$137,946.71 unpaid to the Rapid Transit Subway Construction Co., could be reduced to a nominal amount if the Comptroller would enter into a stipulation with the contractor permitting the payment of substantially the entire final estimate, without a waiver of the contractor's rights to sue for claims for extra work. The amount of \$4,500.00 reserved from estimates of the Inter-Continental Construction Corp. was retained on account of a lien of Realty Associates served June 14, 1920. Inasmuch as the Inter-Continental Construction Corporation has been declared in default under its construction contract, it would seem advisable for the Commission to make efforts to have the lien discharged.

FREDERICK WILCOCK,
Auditor of Rapid Transit Costs.

The communication from the Interborough Rapid Transit Company was as follows:

September 24, 1923.

TRANSIT COMMISSION,
49 Lafayette Street,
New York City.
Gentlemen:

Under date of September 7, 1923, Mr. James B. Walker, Secretary of your Commission, transmitted to me certified copy of a resolution adopted by your Commission, which directs and authorizes this Company to perform the work of constructing a temporary inspection shed, north of and contiguous to the original shop at 148th Street and Lenox Avenue, and charge the cost thereof to its contribution towards the cost of Construction under and in accordance with the provisions of Contract No. 3.

I wish to advise you that this Company will perform the work as directed and authorized and charge the cost thereof as a part of its contribution towards the cost of Construction under Contract No. 3, upon the distinct understanding, however, that the acceptance of this charge against our Construction Contribution shall in no way be construed as a precedent and that the work is undertaken by the company because of the urgent need for the shops.

It seems only proper for me to point out at this time the situation with respect to the Construction Contribution Account, in view of the various requests which we have received from your Commission for further expenditures.

The agreed amount of the Company's contribution to Construction to March 31st, 1922 as evidenced by the recent stipulations was \$57,487,793.79. This has, however, been increased to June 30th, 1923 by \$125,591.34, making a total to the latter date of \$57,613,385.13. The difference between this last amount and \$58,000,000.00 less additional debt discount—\$11,598.44—is yet to be contributed by the Company.

The cash contribution to be made as of June 30th, 1923, is \$375,016.43.

Deduct the known obligations—

Payments due under construction contracts on estimates approved by
the Transit Commission:

Rapid Transit Subway Cons. Co.....	\$137,946.71
Booth & Flinn, Assignee.....	48.22
Inter-Continental Constr. Cor.....	4,500.00

	<u>\$142,494.93</u>	
Temporary inspection shed in 148th Street Yard.....	22,000.00	<u>\$164,494.93</u>

Remainder of the cash expenditures to complete the \$58,000,000 contribution \$210,521.50

The Company's contingent liability under the tripartite construction contracts is as follows:

Rapid Transit Subway Cons. Co.....	\$79,623.96	
Booth & Flinn, Assignee.....	195,119.51	
Inter-Continental Con. Corp.....	288,962.37	
Newman & Carey Subway Cons. Co.....	293,543.78	
Dock Contractor Company.....	306,058.90	\$1,163,308.52

There is on deposit with the City of New York, securing the performance of the construction features of the contract, Liberty Bonds costing \$180,842.19, which should be released by the City before the Company is called upon to expend that amount for construction. In other words, the free balance of the Company's contribution to construction at June 30th, 1923 was approximately \$30,000 against which there are contingent liabilities under the tripartite construction contracts aggregating well over \$1,000,000.

In view of the foregoing, I reluctantly state that it will be impossible for the company to accede to any further requests for the expenditure of any moneys from the Construction Contribution Account until the company is definitely assured that there will be no further liabilities against it on account of the tripartite construction contracts.

Yours very truly,
FRANK HEDLEY,
President & General Manager.

A report was presented from Counsel dated October 8, 1923 suggesting that copies of the above report and communication be sent to the Department of Finance, Board of Estimate and Apportionment and Corporation Counsel, which letters of transmittal were as follows:

"I transmit herewith, a copy of a letter dated September 24, 1923, addressed to the Commission by the Interborough Rapid Transit Company, relative to the subject of its contribution toward the cost of construction required by Contract No. 3 and also a copy of a report dated October 3, 1923, from the Auditor of Rapid Transit Costs to me on the same matter.

I would appreciate it if you would examine these letters and advise me if, in your opinion, in so far as they may effect your department, any of the recommendations could be carried out.

Sincerely yours,

Counsel."

1387—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Contract for Flues, Dampers, Boiler Sheeting and Ash and Sifting Hoppers for New Boilers at 59th Street Power House—Report by Consulting Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated September 24, 1923, requesting approval of a proposed contract with the Bergen Point Iron Works for the manufacture, delivery and installation of flues, dampers, boiler sheeting and ash and sifting hoppers for the two new boilers to be installed at the 59th Street Power Station at a total cost of \$29,700.

A report was presented from Consulting Engineer, Dr. Charles E. Lucke, dated September 26, 1923, stating that the drawings and specifications are satisfactory and recommending that the proposed contract be approved, which report was endorsed by the

Auditor of Rapid Transit Costs classifying the work as Additional Equipment for the Railroad and assigning Work Order No. D-11-A.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922 the application of the Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3 consisting of additional units of new equipment and appurtenances and cables to provide additional power was approved and by resolution adopted November 14, 1922 this Commission assigned thereto Work Order No. IBA-7; and

Whereas, Pursuant to said authority this Commission by resolution adopted July 10, 1923, approved the proposed contract between the Interborough Rapid Transit Company and Babcock & Wilcox Company for the manufacture, delivery and installation in the 59th Street Power House of four 1140 H. P. B. & W. Boilers and three B. & W. superheaters complete ready for installation at the total cost of \$130,583; and

Whereas, The Consulting Engineer, Dr. Charles E. Lucke, by communication dated September 26, 1923 has reported that the Interborough Rapid Transit Company by letter dated September 24, 1923 has requested the approval of this Commission to the proposed contract between said Interborough Rapid Transit Company and Bergen Point Iron Works for the manufacture, delivery and installation of flues, dampers, boiler sheeting, and ash and sifting hoppers for the two new boilers to be installed as aforesaid, at a total cost of \$29,700; that the following bids were received for such work:

The Bergen Point Iron Works.....	\$29,700
Shevlin Engineering Co.....	31,260
M. H. Treadwell Co., Inc.....	39,020
C. B. Nicholson & Co. Representing Connery & Co., Inc.....	35,365
Lasker & Minch and the Allen-Sherman-Hoff Co. declined to bid.	

that the drawings and specifications have been examined into by the engineers of the Commission and found satisfactory and recommends the approval of said proposed contract; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated October 6, 1923 has recommended that the cost under said proposed contract be classified as Additional Equipment for the Railroad and that Work Order No. D-11-A be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed contract so submitted be and the same hereby is approved; the cost of such work to be classified as Additional Equipment for the Railroad as described in said Contract No. 3 and as to which this Commission assigns Work Order No. D-11-A.

1388—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Contract for 8 Cast Steel Gate Valves for 59th Street Power House—Report by Consulting Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated September 12, 1923, requesting approval of a proposed contract with the Chapman Valve Manufacturing Company, for the manufacture and delivery of 8 cast steel gate valves with 1 extra control station for installation at the 59th Street Power House, at a cost of \$3,806.

A report was presented from Consulting Engineer, Dr. Charles E. Lucke, dated October 6, 1923, recommending that the application be approved, which report was

endorsed by the Auditor of Rapid Transit Costs, classifying the work as **Additional Equipment** for the Railroad, and assigning Work Order No. D-17-A thereto.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922, the application of the Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3 consisting of additional units of new equipment and appurtenances and cables to provide additional power was approved and by resolution adopted November 14, 1922 this Commission assigned thereto Work Order No. IBA-7; and

Whereas, Pursuant to said authority this Commission by resolution adopted July 10, 1923, approved the proposed contract between the Interborough Rapid Transit Company and Babcock & Wilcox Company for the manufacture, delivery and installation in the 59th Street Power House of four 1140 H.P. B. & W. Boilers and three B. & W. superheaters complete ready for installation at the total cost of \$130,583; and

Whereas, The Consulting Engineer, Dr. Charles E. Lucke, by communication dated October 6, 1923 has reported that the Interborough Rapid Transit Company by letter dated September 12, 1923, as supplemented by letter dated September 26, 1923 has requested the approval of this Commission to a proposed contract between said Interborough Rapid Transit Company and Chapman Valve Mfg. Co. for the manufacture and delivery of eight cast steel gate valves, together with one extra control station for closing only, the total cost of such valves being \$3,806.00; that the following bids were received for such work:

Chapman Valve Mfg. Co.....	\$3,806.00
Pittsburgh Valve & Foundry Co.....	6,233.00
Reading Steel Casting Co.....	4,947.36

that the form of contract, bids and specifications are satisfactory and recommend the approval of said proposed contract; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated October 9, 1923 has recommended that the cost under said proposed contract be classified as **Additional Equipment** for the Railroad under said Contract No. 3 and that Work Order No. D-17-A be assigned thereto,

Resolved, That said reports and recommendations be and the same hereby are approved; that said proposed contract so submitted be and the same hereby is approved, the cost of such work to be classified as **Additional Equipment** for the Railroad as described in said Contract No. 3 and as to which this Commission assigns Work Order No. D-17-A.

1389—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Contract for Twenty Cast Steel High Pressure Valves for New Boilers at 59th Street Power House—Report by Consulting Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated September 29, 1923, requesting approval of the proposed contract with the Nelson Valve Company for the manufacture and delivery of twenty cast steel high pressure valves for the two new boilers to be installed at the 59th Street Power House at a cost of \$3,305.80.

A report was presented from Consulting Engineer Dr. Charles E. Lucke recommending that the application be approved, which report was endorsed by the Auditor

of Rapid Transit Costs classifying the work as Additional Equipment for the Railroad and assigning Work Order No. D-17-A thereto.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922 the application of the Interborough Rapid Transit Company pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the installation of Additional Equipment as described in said Contract No. 3 consisting of additional units of new equipment and appurtenances and cables to provide additional power was approved and by resolution adopted November 14, 1922 this Commission assigned thereto Work Order No. IBA-7; and

Whereas, Pursuant to said authority this Commission by resolution adopted July 10, 1923, approved the proposed contract between the Interborough Rapid Transit Company and Babcock & Wilcox for the manufacture, delivery and installation in the 59th Street Power House of four 1140 H. P. B. & W. Boilers and three B. & W. superheaters complete ready for installation at the total cost of \$130,583; and

Whereas, The Consulting Engineer, Dr. Charles E. Lucke, by communication dated October 6, 1923 has reported that Interborough Rapid Transit Company by letter dated September 29, 1923 has submitted for the approval of this Commission a proposed contract between said Interborough Rapid Transit Company and Nelson Valve Co. for the manufacture and delivery of twenty cast steel high pressure valves for the two new boilers to be installed in the 59th Street Power House as aforesaid, the total cost of such valves being \$3,305.80; that the following bids were received for such work:

Nelson Valve Co.....	\$3,305.80	Contract Items 1-2-3
Crane Company	4,050.20	Contract Items 1-2-3
The Edward Valve Mfg. Co. Bid...	4,350.00	Contract Items 1-2-3
Alternate Bid	4,813.76	Contract Items 1-2-3

The following named companies bid on one or two items of the contract, as shown, but did not bid on all three items.

The Hancock Inspirator Co.....	\$474.00	Contract Item 2 Only
Foster Engineering Co.....	1,800.00	Contract Item 1 Only

that the form of contract, bids and specifications are satisfactory and recommend the approval of said proposed contract; and

Whereas, Counsel has examined said proposed contract and finds no objection thereto; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated October 9, 1923 has recommended that the cost under said proposed contract be classified as Additional Equipment for the Railroad under said Contract No. 3 and that Work Order No. D-17-A be assigned thereto.

Resolved, That said reports and recommendations be and the same hereby are approved; that said proposed contract so submitted be and the same hereby is approved, the cost of such work to be classified as Additional Equipment for the Railroad as described in said Contract No. 3 and as to which this Commission assigns Work Order No. D-17-A.

1390—R. T. 7333

Manhattan Elevated Lines—Application by Interborough Rapid Transit Company for Approval of Drawings for Walkway Connection between 133rd Street Station and Willis Avenue Station of New York, Westchester and Boston Railway Company—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated September 14, 1923, requesting approval of Drawings Nos. 22924 and 22925, being the general plan and foundation plan of the proposed walkway connection between the

133rd Street Station of the Manhattan Elevated Railroad and the Willis Avenue Station of the New York, Westchester and Boston Railway Company.

A report was presented from the Chief Engineer dated October 5, 1923, stating that the drawings are satisfactory from an engineering standpoint and recommending that the application be approved.

- The following resolution was adopted:

Whereas, By resolution adopted December 24, 1918 the Public Service Commission for the First District, pursuant to the provisions of the certificate dated March 19, 1913 granted by said Commission to Manhattan Railway Company for additional tracks and facilities, approved a proposed contract between Manhattan Railway Company, Interborough Rapid Transit Company, Harlem River and Portchester Railroad Company, The New York, New Haven and Hartford Railroad Company and New York, Westchester and Boston Railroad Company, providing for direct physical connection between the 133rd Street Station of the Manhattan Elevated Railroad Company in the Borough of The Bronx, City of New York; and

Whereas, By resolution adopted December 31, 1918 the said Public Service Commission for the First District approved Contract Drawing No. 5654 showing proposed walkway between the Willis Avenue Station of the New York, Westchester and Boston Railway Company and the 133rd Street Station of the Third Avenue Elevated Line submitted by Interborough Rapid Transit Company; and

Whereas, By resolution adopted August 20, 1923 the Transit Commission approved a proposed drawing, submitted by Graham, McMahon, Buell and Knox, as Attorneys for the New York, Westchester and Boston Railway Company, entitled: N. Y. W. & B. Ry., N. Y. N. H. & H. R. R., Plan showing proposed 133rd Street Station, Harlem River, Borough of The Bronx, New York City, dated April 28, 1923 and revised July 6, 1923; and

Whereas, By communication dated September 14, 1923 Interborough Rapid Transit Company has submitted for the approval of this Commission duplicate tracings of its Drawings Nos. 22924 and 22925, being general plan and foundation plan respectively of the walkway connection between the 133rd Street Station of the Manhattan Elevated Railroad Company, in the Borough of The Bronx, City of New York, and the Willis Avenue Station of the New York, Westchester and Boston Railway Company, which said drawings amplify the drawing submitted by the Attorneys for the New York, Westchester and Boston Railway Company and approved by this Commission on August 20, 1923 as aforesaid; and

Whereas, The Chief Engineer of this Commission, by communication dated October 5, 1923, has reported that said drawings so submitted by the Interborough Rapid Transit Company are satisfactory from an engineering standpoint and recommends that they be approved,

Resolved, That the said report and recommendation be and the same hereby is approved and that the said Drawings Nos. 22924 and 22925, submitted by the Interborough Rapid Transit Company as aforesaid, be and the same hereby are approved.

1391—R. T. 6481

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Price for Car Brake Shoes for Fourth Quarter of Year 1923—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated October 1, 1923, requesting approval of the price of \$65.00 per net ton, F. O. B. Mahwah, N. J., to be paid in the Fourth Quarter of the year 1923, under the contract with the American Brake Shoe and Foundry Company, for car brake shoes.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated October 5, 1923, recommending that the application be approved,

which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Operating Materials and Supplies.

The following resolution was adopted:

Whereas, This Commission, by resolution adopted on November 9, 1921, as amended by resolution adopted on November 22, 1921, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation consented to a proposed contract to be entered into between The Receiver of the New York Consolidated Railroad Company (assignee of New York Municipal Railway Corporation of the maintenance and operating provisions of said Contract No. 4) with American Brake Shoe and Foundry Company for the purchase of car brake shoes in connection with the operation of the Railroad and Existing Railroads under said Contract No. 4 "the price of said shoes varying," provisions being made in said proposed contract for revising the prices on the first day of January, April, July and October, the revised price to prevail for the succeeding three months, which resolution further provides that each new price fixed in accordance with the provisions of said proposed contract shall be submitted to this Commission for approval; and

Whereas, By communication dated October 1, 1923 New York Rapid Transit Corporation as successor to all the rights and obligations under said Contract No. 4 has requested the approval of this Commission to a price of \$65.00 per net ton, F. O. B. Mahwah, N. J., to be paid in the Fourth Quarter of 1923; and

Whereas, By communication dated October 5, 1923 the Engineer of Equipment and Operation and the Chief Engineer of this Commission have reported that the said price of \$65.00 for the Fourth Quarter of the year 1923 in view of the present material and labor costs is reasonable and recommend that said application be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated October 8, 1923 has recommended that the cost of such material be classified as operating materials and supplies,

Resolved, That the fixation of \$65.00 per net ton, F. O. B. Mahwah, N. J. as of October 1, 1923 for the supply of car brake shoes under said Contract with American Brake Shoe and Foundry Company approved as aforesaid to prevail during the Fourth Quarter of the year 1923 be and the same hereby is approved.

1392—R. T. 7367

Routes Nos. 35 & 67—Reports by Chief Engineer Recommending Construction of Westerly End of Queensboro Subway Extension without Consideration of Connection for a Future Eighth Avenue Subway—Approved

The Commission approved reports by the Chief Engineer dated September 6, 1923, and October 1, 1923, recommending approval of the construction of the westerly end of the Queensboro Subway Extension—Routes Nos. 35 & 67, as indicated on the contract drawings, without consideration for a connection to a future Eighth Avenue Subway.

1393—R. T. 6080

Contract No. 3—Report by Real Estate Clerk Recommending Cancellation of Concession to Daly Brothers on North Side of West 145th Street and Harlem River and that Negotiations Be Made for Separate Rental Arrangements with Sub-tenants—Approval Resolution

A report was presented from the Real Estate Clerk dated October 8, 1923, recommending that the present rental agreement with Daly Brothers affecting the premises on the northerly side of West 145th Street and the Harlem River, Borough of Manhattan, be cancelled as of October 31, 1923; and that he be authorized to negotiate sepa-

rate rental arrangements with the sub-tenants, for permission to occupy portions of the property.

The following resolution was adopted:

Whereas, The Real Estate Clerk, under date of October 8, 1923, has reported that Daly Brothers Company, a temporary tenant on property of The City of New York, under the jurisdiction of this Commission, originally acquired for the purpose of the Lenox Avenue Yard, at West 145th Street and the Harlem River, Borough of Manhattan, by virtue of an application to the Commission, dated August 5, 1921, duly approved by the Commission August 9, 1921, has been persistently remiss in the payment of the rental provided for in its rental agreement with the Commission, is endeavoring to secure an undue rental profit from subletting and has been otherwise at fault, recommending that its rental agreement with the Transit Commission be cancelled as of the end of the month of October, 1923, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, cancel the existing rental arrangement with Daly Brothers Company as provided for in the said application dated August 5, 1921, approved by resolution of the Commission dated August 9, 1921, constituting the rental agreement with the Transit Commission, acting for The City of New York, and Daly Brothers Company, effective as of the end of the month of October, 1923, and that the Secretary be, and he hereby is, authorized and directed to advise the said Daly Brothers Company of this action, without prejudice, however, against Daly Brothers Company applying anew to the Commission for permission to occupy such part (or any portion thereof) of its original concession as it shall not have sublet.

1394—R. T. 6080

Route No. 5, Section No. 15—Application by Peter Schneider for Permission to Continue in Occupancy of Premises on South Side of East 157th Street between River and Gerard Avenues, Borough of The Bronx—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Peter Schneider, dated October 8, 1923, requesting permission to continue in occupancy of the premises on the southerly side of East 157th Street between River and Gerard Avenues, Borough of The Bronx, for a period of one year from October 16, 1923.

A report was presented from the Real Estate Clerk dated October 8, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Peter Schneider of No. 371 East 165th Street, Borough of The Bronx, New York City, has made application under date of October 8, 1923, for permission to continue in occupancy of the concession now held by him on the southerly side of East 157th Street between River and Gerard Avenues, Borough of The Bronx, for a period terminating October 16, 1923, agreeing to pay rental for the balance of the present season—that is, from October 16th to October 31st, inclusive, 1923, at the rate of \$400.00 per month to carry the concession over the winter months at the rate of \$100.00 per month and to pay \$300.00 per month for the period beginning April 16, 1924, and ending October 16, 1924, and also agreeing to vacate on thirty (30) days' notice if the property is required for any public purpose, or is sold, or on fifteen (15) days' notice for failure to pay rental promptly or for breach of terms and to remove the non-fireproof structures now on the premises and to certain other terms as more particularly set forth in the said application; and

Whereas, The Real Estate Clerk, under date of October 8, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the said application of Peter Schneider, dated October 8, 1923, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission upon said application.

1395—R. T. 6284

Fourth Avenue Subway—Memorandum from Real Estate Clerk Submitting Proposed Reply to Offer of Frank A. Slocum for Purchase of Property at Flatbush Avenue and Fulton Street, Borough of Brooklyn—Approved

A memorandum was presented from the Real Estate Clerk, dated October 9, 1923, submitting a proposed reply to the offer of Frank A. Slocum, dated September 21, 1923, for the purchase of the property at the corner of Flatbush Avenue Extension and Fulton Street, Borough of Brooklyn, for the sum of \$750,000.

The following reply was approved:

October 11, 1923.

Mr. FRANK A. SLOCUM,
188 Montague Street,
Brooklyn, N. Y.
Dear Sir:

Referring to your letter of September 21, 1923, addressed to Mr. Schermerhorn of the Real Estate Bureau of this Commission, in which you state that you have an offer of \$750,000. for the property under the jurisdiction of this Commission at the corner of Flatbush Avenue Extension and Fulton Street, Borough of Brooklyn:

Please be advised that this property is withheld from the market at the present time because of its contemplated partial use for rapid transit purposes. It is not possible at this time to determine just how much of the property will be required for such purposes and for that reason no conveyance could be made which would set forth accurately the rights to be retained by the City.

As you are probably aware, this property could not be sold by the Transit Commission without the express separate approval of the Commissioners of the Sinking Fund of The City of New York, and then it is practically a settled policy that such property shall be offered at public auction at least once before its sale by private purchase will be considered by the public authorities.

We thank you for your offer and will keep you advised of any developments contemplating the sale of this property.

Very truly yours,
JAMES B. WALKER,
Secretary.

1396—Case 1379

New York Rapid Transit Corporation—Monthly Reports—Extension Order Adopted

The Secretary presented a communication, dated August 29, 1923, from M. B. Hoffman, Assistant Counsel, The New York Rapid Transit Corporation requesting an extension of time to November 1, 1923, within which to file monthly report for July.

The Secretary also presented a report, dated October 3, 1923, from H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting & Valuations, recommending the granting of the application.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1379, granting the desired extension of time.

1397—Case 1379

The Brooklyn Heights Railroad Company et al.—Monthly Reports—Extension Order Adopted

The Secretary presented a communication, dated August 29, 1923, from M. B. Hoffman, Assistant Counsel, requesting on behalf of The Brooklyn Heights Railroad

Company, Brooklyn, Queens County & Suburban Railroad Company, Coney Island and Brooklyn Railroad Company, and Lindley M. Garrison, as Receiver of said Company, The Nassau Electric Railroad Company, Coney Island and Gravesend Railway Company, and South Brooklyn Railway Company, an extension of time to September 15, 1923, to file monthly report for July, 1923.

The Secretary also presented a report, dated October 3, 1923, from H. S. Fischer, Statistician, approved by Chief, Bureau of Accounting & Valuations, recommending granting of the application and stating reports already filed.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1379, granting the desired extension of time and providing that the order take effect nunc pro tunc as of September 4, 1923.

1398—Case 2676

Fifth Avenue Coach Company—Monthly and Quarterly Reports—Extension Order Adopted

The Secretary presented a communication dated October 2, 1923, from the Fifth Avenue Coach Company, requesting an extension of time to October 15, 1923 to file monthly report for July 1923, to October 31, 1923, to file monthly report for August 1923, and to October 15, 1923, to file quarterly report for quarter ended June 30, 1923.

The Secretary also presented a report dated October 3, 1923, by H. S. Fischer, Statistician, approved by Chief of Bureau of Accounts and Valuations, recommending granting of application.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2676 granting the desired extensions of time.

1399—Case 2690

Street Railroad Corporations—Form of Annual Report—Report by Statistician Relative to Failure of Certain Companies to File Records—Referred to Counsel

The Secretary presented a report, dated October 9, 1923, by H. S. Fischer, Statistician, approved by Frederick Wilcock, Acting Chief, Bureau of Accounting & Valuations, advising that Brooklyn-Manhattan Transit Corporation, Marine Railway Company, Receivers of New York and North Shore Traction Company, Second Avenue Railroad Company, Southfield Beach Railroad Company, Williamsburg Power Plant Corporation, Concourse Bus Line, Inc. and Nassau Bus Line, Inc. had not filed their annual reports and had not requested extensions of time to file same.

Thereupon the above mentioned report was referred to Counsel to the Commission.

1400

Open Cases—Motion Designating Committee to Examine Into Pending Open Cases and to Report—Adopted

On motion duly seconded and carried the Commission designated the Counsel to the Commission, the Secretary and the Acting Chief Executive Officer to examine into pending open cases and to report their recommendation as to the disposition thereof.

1401—Case 2679

New York Rapid Transit Corporation—Reorganization—Communication from Company Transmitting Counterpart Originals of Mortgages and Trust Indenture—Filed

The Secretary presented a communication dated October 5, 1923 from the New York Rapid Transit Corporation by Otis Everett, Assistant Secretary, transmitting for filing pursuant to Section VIII of the Order in Case No. 2679 adopted September 14, 1923, the following documents:

- (1) First and Refunding Mortgage of the New York Rapid Transit Corporation to Central Union Trust Company as Trustee, dated as of July 2, 1923, to which was attached counterpart original of stockholders' consent to mortgage and certificate of such consent,
- (2) Refunding Mortgage of New York Rapid Transit Corporation to The Chase National Bank of The City of New York, dated as of July 2, 1923, with counterpart original of stockholders' consent to such mortgage and certificate of such consent,
- (3) Trust Indenture between Brooklyn-Manhattan Transit Corporation and The Chase National Bank of The City of New York as Trustee, dated as of July 2, 1923,
- (4) Trust Mortgage of Williamsburgh Power Plant Corporation to Central Union Trust Company of New York, as Trustee, and
- (5) General Mortgage of Williamsburgh Power Plant Corporation to The Chase National Bank of The City of New York as Trustee.

Thereupon the above mentioned papers were ordered filed.

1402

Transit Commission vs. the Brooklyn City Railroad Company et al.—Mandamus Actions to Compel Resumption of Service—Communication to Attorney General—Filed

The Secretary presented a communication dated October 3, 1923, to the Attorney General of the State of New York, advising that the four mandamus proceedings begun by the Commission against The Brooklyn City Railroad Company et al. to compel resumption of service on the Park Slope Line, the 39th Street-Coney Island Line, the Tompkins-Culver Line and the Sixteenth Avenue Line would be heard on October 8, 1923 in Special Term, Part I, Kings County Supreme Court.

Thereupon the above mentioned communication was ordered filed.

1403—R. T. 6578

Route No. 12, Section No. 2—Report by Chief Engineer Transmitting Certificate of Expense Incurred by City in Completion of Contract as Result of Default by Inter-Continental Construction Corporation—Report by Counsel Suggesting that Certificate Be Filed and that Certified Copies Be Sent to Corporation Counsel, Comptroller and Contractors—Approved and Ordered Filed

The Commission approved and ordered filed the following certificate by the Chief Engineer:

October 6, 1923.

TO: TRANSIT COMMISSION.

Subject: *Route 12, Section 2, Certificate of Expense Incurred by City in the Completion of Construction.*

Pursuant to the provisions of Article LXIII of the contract dated June 3, 1915 with the Inter-Continental Construction Corporation for the construction of Route 12,

Section 2, Eastern Parkway Rapid Transit Railroad, I hereby certify that the amount of the expense incurred by the City in the completion of the Works is as follows:

Payments Prior to Default

Amount certified for payment to Inter-Continental Constr. Corporation by Interborough Rapid Transit Co.....	\$2,054,913.17
Amount certified for payment to Inter-Continental Constr. Corporation by City	108,153.10

Payments by Interborough Rapid Transit Company Subsequent to Default

Amount certified for payment under construction payrolls.....	188,327.57
Amount certified for payment for materials, supplies, and miscellaneous expenditures (net)	74,846.69

Payments by the City Subsequent to Default

Amount certified for payment to A. E. Henderson under Agreement "BD" for grading (Final Est.).....	15,821.73
Amount certified for payment to Holbrook, Cabot & Rollins Corp. and Geo. W. McNulty, under contract for completion of construction of Route 31 in reimbursement for expenses incurred due to material dumped by the Inter-Continental Constr. Corp. under the elevated railroad structure, Route 31.....	280.40
Amount certified for payment to Holbrook, Cabot & Rollins Corp. and Geo. W. McNulty, under contract for track installation, for furnishing and installing hand rails, MH doors, pump chamber doors, emergency exit ladders and doors, etc.....	22,481.76
Amount certified for payment to William J. Zartman under Agreement "BG" for furnishing and planting trees, (Final Est.).....	17,976.20
Amount certified for payment to Murphy Bros. under Agreement "BO" for restoration of gas mains (Final Est.).....	8,344.44
Amount certified for payment to M J. O'Hara under contract for completion of restoration of street and park surfaces (Final Est.)....	150,597.54
Amount certified for payment to Snare & Triest under contract for construction of station finish for construction of vault lights.....	3,779.52
Amount certified for payment under labor payrolls.....	73,536.75
Amount certified for payment under emergency orders for material, supplies, etc.	76,548.21
Amount transferred from rapid transit funds to Park Dept. for restoration of pavement by Park Department.....	53.66

Total Cost of Construction..... \$2,795,660.74

Credits

Proceeds of sale of corporate stock deposited with the Comptroller by the contractor on account of withdrawal of retained percentages.....	\$95,659.95
Amount of cash receipts transferred to Comptroller on account of return of cement bags and sale of excess material	5,236.48
Amount certified for payment by J. Muldoon on account of privilege of backfilling (paid).....	501.89
Amount certified as due from J. Muldoon on account of privilege of backfilling.....	2,141.59*
Total Credits	103,539.91
Net cost of construction.....	2,692,120.83
Total estimated amount at the schedule unit prices and under Art. XII of the contract that would have been payable to the Inter-Continental Constr. Corp. upon the completion of the work had there been no default	2,349,059.45
Cost of completing the work in excess of the amount that would have been payable to the Inter-Continental Constr. Corp. had there been no default	343,061.38

ROBT. RIDGWAY,
Chief Engineer.

*If this sum or any portion thereof is not paid, there will result a corresponding increase in the excess cost of the work due to the default.

A report was presented from Counsel dated October 8, 1923, suggesting that the certificate be filed and that certified copies thereof be transmitted to the Corporation Counsel, Comptroller of the City of New York and to the contractors or its representative or assignee, to their last known address.

1404—R. T. 7591, 7661

Routes Nos. 70-A-1, 70-B and 78—Communication from Counsel Transmitting Memorandum from Real Estate Clerk Stating Necessary Consents Have Been Received to Validate North Jane Street, Manhattan Avenue; Brooklyn Crosstown and Central Park West Routes—Motion Commending Real Estate Clerk—Report Filed and Motion Adopted

The Commission ordered filed a communication from Counsel dated October 4, 1923, transmitting a memorandum from the Real Estate Clerk as to the necessary consents received for the validation of the North Jane Street, Manhattan Avenue; Brooklyn Crosstown and Central Park West Routes, which memorandum was as follows:

October 3, 1923.

Re: Validation by consents of property owners of Routes Nos. 70-A-1, 70-B and 78.

I give below the status of the canvass for consents of property owners abutting on these routes as of 12:00 o'clock noon today:

Route No. 70-A-1 (1)

Street	Total Assessed Value Year 1923	Assessed Value Represented by Consents	Percentage of Consents to Total Assessed Value
Manhattan Avenue	\$2,048,000	\$1,314,600	64.2
Vernon Avenue (South)	964,600	936,000	97.0
Jackson Avenue	4,725,600	3,421,900	72.4
Jane Street and South Jane Street.....	300,500	260,000	86.5 (2)
Hunter Avenue	324,000	266,000	82.0
North Jane Street	4,460,400	4,404,600	98.7
Vernon Avenue (North)	2,288,000	2,243,000	98.0

(1) I have not listed separately the streets traversed by the southerly track of this route beneath the Queensboro Bridge, for the reason that this property is owned entirely by The City of New York, and each street would have the ratio of 100% of consents to assessed value.

(2) Whether Jane and South Jane Streets for the purpose of rapid transit consents are considered as one street or separate streets, as the route traverses their intersection, the percentage results would be the same.

The final consent necessary to determine the validation of this route was dated September 21, 1923, and was received September 24, 1923.

Route No. 70-B

Street	Total Assessed Value Year 1923	Assessed Value Represented by Consents	Percentage of Consents to Total Assessed Value
Manhattan Avenue	\$9,827,800	\$8,231,000	83.7
Driggs Avenue	1,374,000	1,359,000	98.9
Lorimer Street	1,320,000	1,320,000	100.0

Street	Total Assessed Value Year 1923	Assessed Value Represented by Consents	Percentage of Consents to Total Assessed Value
Union Avenue	\$1,348,100	\$1,327,000	98.4
Roebing Street	7,790,600	6,299,600	80.9
Lee Avenue	338,500	174,500	51.6
Wilson Street	584,300	354,500	60.7
Ross Street	179,900	112,500	62.5
Rodney Street	75,000	40,000	53.3
Bedford Avenue	8,649,600	5,090,600	58.9

The final consent necessary to determine the validation of this route was dated and received today.

Route No. 78

Street	Total Assessed Value Year 1923	Assessed Value Represented by Consents	Percentage of Consents to Total Assessed Value
Central Park South or West 59th Street.....	\$481,165,000	\$480,000,000	99.8
Central Park West	535,467,000	513,760,000	95.9
West 110th Street	485,622,000	484,870,000	99.9
Manhattan Avenue	10,403,000	7,056,000	67.8
St. Nicholas Avenue	19,712,000	14,060,000	71.3

The final consent necessary to determine the validation of this route was dated August 24, 1923, and was received August 25, 1923.

You will observe that of all of the streets involved in the three routes there is a percentage of less than 55% on Lee Avenue and Rodney Street only. On Rodney Street there are but two ownerships coming within the canvass, one representing an assessed value of \$35,000 and the other of \$40,000. The consents on Lee Avenue have not been in any case varied as to form and in every case unquestionably represent the property as actually owned.

The canvass for consents will be continued with a diminished number of canvassers and the percentages pushed up wherever practicable.

It is, therefore, apparent that we have obtained consents representing more than 50% of the aggregate assessed value for the year 1923 as based upon the tax roll confirmed last, before due approval of the several routes by the public authorities as provided by the Rapid Transit Act, for every street or thoroughfare traversed by each of these three routes, and the routes are accordingly validated and appeal to the Appellate Division of the Supreme Court will not be necessary.

AVERY M. SCHERMERHORN,
Real Estate Clerk.

Upon motion by Commissioner Harkness, which was duly adopted, it was directed that a Minute be inserted in the personal record of the Real Estate Clerk as to the appreciation by the Commission of the efficient services rendered in securing the consents.

1405—R. T. 7661

Route No. 78—Report by Counsel Stating that Suggestion of Broadway Association for Construction of Central Park West, Manhattan Avenue and St. Nicholas Avenue Route Within the Limits of Central Park Is to Be Taken Up in Conference with Board of Estimate and Apportionment—Filed

The Commission ordered filed a communication from Counsel dated September 26, 1923, stating that suggestion of the Broadway Association, dated September 17,

1923, for the construction of the Central Park West, Manhattan Avenue and St. Nicholas Avenue Route within the limits of Central Park, in order to avoid the additional expense necessitated by the disturbance of subsurface structures along Central Park West, is to be taken up in conference with the Transportation Committee of the Board of Estimate and Apportionment.

1406—R. T. 7622

Contract No. 2—Notice from Chief Engineer of Completion of Entrance to Hoyt Street Station Through Premises at No. 501 Fulton Street, Borough of Brooklyn—Filed

The Commission ordered filed a notice from the Chief Engineer, dated October 3, 1923, advising of the completion of an entrance from the Hoyt Street Station of the Brooklyn-Manhattan Rapid Transit Railroad, through Martins' store at 501 Fulton Street, Borough of Brooklyn; and that the entrance was opened for the use of the public, on September 28, 1923.

1407—R. T. 6416

Routes Nos. 36 & 37—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Proposed Agreement with Interborough Rapid Transit Company for Rearrangement of Signals and Interlocking at Queens Plaza Station, and Authorizing Appropriation of \$23,500—Communication from Acting Corporation Counsel Returning Agreement Approved as to Form—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on September 28, 1923, was ordered filed:

(Cal. No. 33)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated August 7, 1923, the Board of Estimate and Apportionment does hereby consent to the proposed agreement with the Interborough Rapid Transit Company for the rearrangement of signals and interlocking East of Queens Plaza Station on the Queensboro Subway Rapid Transit Railroad, at an estimated cost of twenty-three thousand five hundred dollars (\$23,500), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty-three thousand five hundred dollars (\$23,500); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding twenty-three thousand five hundred dollars (\$23,500), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purpose of said agreement; said issue of corporate stock to be charged as a subauthorization against the general appropriation of twenty-eight million, two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, September 28, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication from Arthur J. W. Hilly, Acting Corporation Counsel, dated October 6, 1923, returning the proposed agreement approved as to form, was also ordered filed.

1408—R. T. 6506

Contract No. 4—Report by Chief of Bureau of Accounting and Valuations Submitting Report of Annual Audit of Accounts of Depreciation Fund Board—Filed

The Commission ordered filed, a report from the Chief of the Bureau of Accounting and Valuations, dated October 4, 1923, upon the audit of the accounts of the Depreciation Fund Board, under Contract No. 4, and Allied Certificates for the fiscal year ended June 30, 1923.

The Secretary was directed to send copies of the report to the members of the said Board, and to recommend that the Board take up with the New York Rapid Transit Corporation the desirability of making more prompt remittances of the quarterly installments to the Depreciation Fund Board, so that the pooled revenues will not lose interest thereon.

1409—R. T. 6506

Contract No. 4—Copy of Communication to New York Rapid Transit Corporation Suggesting Change in Compensation of Secretary of Depreciation Fund Board—Letter from Company Approving—Filed

The Commission ordered filed a communication from LeRoy T. Harkness, Acting Chairman, to the New York Rapid Transit Corporation dated October 4, 1923, suggesting that the compensation of the Secretary of the Depreciation Fund Board under Contract No. 4 be made \$1,000 per annum, together with a letter from the New York Rapid Transit Corporation by W. S. Menden dated October 5, 1923, approving same.

1410

Employees' Calendar No. 169

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—Harry Beller, draftsman, at \$175.08 per month, to take effect October 4, 1923; Walter M. Brown, draftsman, at \$175.08 per month, to take effect October 8, 1923; Morris C. Comar, draftsman, at \$175.08 per month, to take effect October 4, 1923; Daniel C. Corwin, draftsman, at \$175.08 per month, to take effect October 8, 1923; Harold L. Davis, junior assistant, at \$125.08 per month, to take effect October 4, 1923; Stanley DuBucke, draftsman, at \$175.08 per month, to take effect October 3, 1923; Daniel C. Dunne, junior clerk, at \$60.00 per month, to take effect October 8, 1923; Andrew Haldane, watchman, at \$3.00 per day, to take effect October 16, 1923; Julius Jacobs, watchman, at \$3.00 per day, to take effect October 16, 1923; Louis Jones, junior assistant, at \$125.08 per month, to take effect October 3, 1923; Robert Marra, junior assistant, at \$125.08 per month, to take effect October 8, 1923; Sidney Popplewell, draftsman, at \$175.08 per month, to take effect October 8, 1923; Charles Shilowitz, junior assistant, at \$125.08 per month, to take effect October 4, 1923; Laurence T. Scott-Smith, junior assistant, at \$125.08 per month, to take effect October 4, 1923; Peter Weiner, draftsman, at \$175.08 per month, to take effect October 3, 1923.

Appointments under Rule VIII:9—Barnett M. Bass, junior assistant, at \$125.08 per month, to take effect October 11, 1923; Arthur T. Demeroto, junior assistant, at \$125.08 per month, to take effect October 7, 1923; William R. Nugent, draftsman, at \$175.08 per month, to take effect October 25, 1923; Gustave Reinberg, junior assistant, at \$125.08 per month, to take effect October 6, 1923; Charles F. Rittel, Jr., architectural draftsman, at \$175.08 per month, to take effect October 18, 1923; Reuben Rubin,

draftsman, at \$175.08 per month, to take effect October 1, 1923; Carl J. Speer, junior assistant, at \$125.08 per month, to take effect October 20, 1923; Bernard J. Sullivan, junior assistant, at \$125.08 per month, to take effect October 5, 1923; William H. Young, junior assistant, at \$125.08 per month, to take effect October 25, 1923.

Reinstatement under Rule XVI:1—John J. Macaluso, junior assistant, at \$125.08 per month, to take effect October 3, 1923; Belle Wolf, stenographer, at \$150.00 per month, to take effect October 15, 1923.

Resignation—Frederick T. Brown, junior assistant, at \$125.08 per month, to take effect October 15, 1923; Henry L. Rossire, draftsman, at \$150.08 per month, to take effect October 6, 1923.

Terminations of Appointment under Rule VIII:4—Barnett M. Bass, junior assistant, at \$125.08 per month, to take effect October 10, 1923; Arthur T. Demeroto, junior assistant, at \$125.08 per month, to take effect October 6, 1923; William R. Nugent, draftsman, at \$175.08 per month, to take effect October 24, 1923; Gustave Reinberg, junior assistant, at \$125.08 per month, to take effect October 5, 1923; Charles F. Rittle, Jr., architectural draftsman, at \$175.08 per month, to take effect October 17, 1923; Reuben Rubin, draftsman, at \$175.08 per month, to take effect September 30, 1923; Carl J. Speer, junior assistant, at \$125.08 per month, to take effect October 19, 1923; Bernard J. Sullivan, junior assistant, at \$125.08 per month, to take effect October 4, 1923; William H. Young, junior assistant, at \$125.08 per month, to take effect October 24, 1923.

Terminations of Appointment under Rule V:4—Simon Salvesen, machinist, at \$125.00 per month, to take effect October 15, 1923; Jacob Thorkelsen, machinist, at \$125.00 per month, to take effect October 15, 1923.

Termination of Appointment under Rule VIII:9—Julius Jacobs, watchman, at \$3.00 per day, to take effect October 15, 1923.

Termination of Appointment under Rule XIII:4—Andrew Haldane, watchman, at \$3.00 per day, to take effect October 15, 1923.

Rescission of Appointment under Rule VIII:4—Francis J. Murphy, junior assistant, at \$125.08 per month, to take effect September 10, 1923.

Rescission of Change of Rate—Henry L. Rossire, draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923.

Promotions—John J. Casey, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; Jacob S. Durben, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; Helen Italiener, stenographer, from \$125.00 per month to \$137.50 per month, to take effect July 1, 1923; William C. Kentzer, architectural draftsman, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Henry C. Kuehn, architectural draftsman, from \$162.50 per month, to \$175.08 per month, to take effect October 1, 1923; William J. Lodge, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; Melchiorre Mbrasca, architectural draftsman, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; John P. Mulhearn, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; Francis Ryan, architectural draftsman, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Benjamin Silverman, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; Russell A. Smith, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923.

Change of Rate—Charles E. Downey, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; William S. Fanning, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; Victor H. Greenwald, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; Paul Haan, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; Edwin A. O'Hanlon, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; Charles F. Rittel, Jr., architectural draftsman, from \$150.08 per month, to \$175.08 per month, to take effect October 1, 1923; Claude M. Twombly, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923; John G. Yoerges, architectural draftsman, from \$150.08 per month to \$175.08 per month, to take effect October 1, 1923.

Change of Item in Resolution of 9/18/23 Concerning L. Seymour Schneider so as to Read as Follows: (Leave with pay)—L. Seymour Schneider, junior assistant, from August 28, 1923, to September 30, 1923.

Leaves of Absence without Pay—Frederick C. Cannon, engineering inspector, from October 1, 1923, to December 31, 1923; Elsie E. Shapiro, clerk, from July 16, 1923, to August 12, 1923.

1411

Employees' Resolution No. 170

On motion, duly seconded and unanimously adopted, Sverre Dahm, Engineer of Designs, is designated as Acting Chief Engineer during the absence of the Chief Engineer for the period from October 14, 1923 to October 20, 1923, both inclusive.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, October 16, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1412—R. T. 7602

Route No. 52, Section No. 2—Form of Contract, Specifications, Invitation to Contractors, etc., for Construction of Column Foundations for Part of Flushing Line—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the construction of column foundations for a part of a rapid transit railroad, Flushing Route, Route No. 52, Section 2, Roosevelt Avenue-Riverside Avenue to Willets Point Boulevard, Borough of Queens,

Resolved, That the said Invitation to Contractors, Information for Contractors, and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the construction of column foundations for a part of a rapid transit railroad, Flushing Route, Route No. 52, Section 2, Roosevelt Avenue-Riverside Avenue to Willets Point Boulevard, Borough of Queens, be and are hereby approved and adopted and that said Invitation to Contractors be published in the City Record every day of publication from and including October 19, 1923 to and including November 2, 1923 and on October 22, 1923 in The Flushing Journal and The New York Times, daily newspapers published in The City of New York and that such bids as shall be received shall, on the 2nd day of November, 1923 at eleven-thirty (11:30) o'clock a. m. or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission at the office of the Transit Commission and read.

1413—R. T. 7702

Route No. 52, Section No. 2—Form of Contract, Specifications, Invitation to Contractors, etc., for Furnishing and Erecting Structural Steel for Part of Flushing Line—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and

Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the furnishing and erecting of structural steel for a part of a rapid transit railroad, Flushing Route, Route No. 52, Section No. 2, Roosevelt Avenue-Riverside Avenue to Willets Point Boulevard, Borough of Queens.

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the furnishing and erecting of structural steel for a part of a rapid transit railroad, Flushing Route, Route No. 52, Section No. 2, Roosevelt Avenue-Riverside Avenue to Willets Point Boulevard, Borough of Queens, be and hereby are approved and adopted and that said Invitation to Contractors be published in the City Record every day of publication from and including October 19, 1923 to and including November 2, 1923 and on October 22, 1923 and October 29, 1923 in The Long Island Daily Press and The Long Island Farmer and The Flushing Times, daily newspapers published in The City of New York and that such bids as shall be received shall, on the 2nd day of November, 1923 at eleven-thirty (11:30) o'clock a. m. or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission at the office of the Transit Commission and read.

1414—R. T. 3013

Agreement "CR"—Form of Contract, Specifications, Invitation to Contractors, etc., for Relocation of Entrances to 157th Street Station—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the relocation of entrances to the 157th Street station of the Manhattan-Bronx Rapid Transit Railroad, Borough of Manhattan,

Resolved, That said Invitation to Contractors, Information for Contractors, and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the relocation of entrances to the 157th Street Station of the Manhattan-Bronx Rapid Transit Railroad, Borough of Manhattan, be and are hereby approved and adopted and that said Invitation to Contractors be published in the City Record every day of publication from and including October 19, 1923 to and including November 2, 1923 and on October 22, 1923 and October 29, 1923 in The New York Herald and The Evening Post, daily newspapers published in The City of New York and that such bids as shall be received shall, on the 2nd day of November, 1923 at eleven-thirty (11:30) o'clock a. m. or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission at the office of the Transit Commission and read.

1415—R. T. 7701

Route No. 18—Form of Contract, Specifications, Invitation to Contractors, etc., for Installation of Frogs, Switches, Tracks, etc., at 180th Street Yard—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings, for installation of frogs, switches and tracks and preparation of tracks for storage of cars at the 180th Street Yard, White Plains Road Line, Route No. 18,

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for installation of frogs, switches and tracks and preparation of tracks for storage of cars at the 180th Street Yard, White Plains Road Line, Route No. 18, be and hereby are approved and adopted and that said Invitation to Contractors be published in the City Record every day of publication continuously from and including October 19, 1923 to and including November 2, 1923 and on October 22, 1923 and

October 29, 1923 in The Journal of Commerce and The Evening Mail, daily newspapers published in The City of New York, and that such bids as shall be received shall, on the 2nd day of November, 1923, at eleven-thirty (11:30) o'clock a. m. or at a later date to be fixed by the Transit Commission be opened publicly by the Transit Commission at the office of the Transit Commission and read.

1416—R. T. 7695

Agreement "CQ"—Report by Chief Engineer as to Receipt of Bids for Construction of Station Finish at Queensboro Plaza Station and Recommendation for Award of Contract to Pattelli and Wilson, at Bid Price of \$4,969—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

October 13, 1923.

To TRANSIT COMMISSION:

Award of Contract for Agreement "CQ," to Pattelli & Wilson.

On October 11, 1923, the following bids were received for work under Agreement "CQ," Construction of Station Finish Work on Queensboro Plaza Station:

No.	Name of Bidder	Amount
1.	Pattelli & Wilson	\$4,969.00
2.	John Pollock	5,647.00
3.	J. B. Rohrer & Co., Inc.....	5,650.00
4.	Edward Balaban & Co.....	6,340.00

This work includes temporary inspection enclosure, waiting room and car cleaner and oil house. Our estimate for this work amounts to \$7,000.

The prices offered by Pattelli & Wilson, the lowest bidder, are reasonable and not improperly balanced.

Pattelli & Wilson have not previously done any work as contractors for the City. Both, however, have previously been employed on subway work in different capacities. The latest work in which they were engaged in connection with subway work was on track installation for the 239th Street Yard of the White Plains Road Line. Mr. Wilson was General Superintendent and Mr. Pattelli was Foreman for Michael Del Balso who had the contract for this work.

Mr. Wilson was engaged for about 17 years in the Engineering Department of the Commission. Mr. Pattelli is a carpenter by trade and refers to Mr. Pegram who speaks highly of him, as also does Mr. Fred Cranford for whom he also has worked.

For your information I send you herewith twelve (12) copies of summation of bids.

Enclosed I send you copy of minutes of a conference held in my office today with Pattelli & Wilson, copy of their financial statement, copy of their incorporation paper as a co-partnership and a copy of letter from Michael Del Balso.

Recommendation: From an engineering standpoint I recommend that the contract for work under Agreement "CQ," Construction of Station Finish Work on Queensboro Plaza Station be awarded to the lowest bidder, Pattelli & Wilson at their bid figure of \$4,969 and that a request be made on the Board of Estimate and Apportionment for the appropriation of this amount to be charged to Contract No. 4.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract (Agreement "CQ") for the construction of station finish at the Queensboro Plaza Station of the municipal rapid transit railroad in the Borough of Queens, was heretofore finally adopted and subsequent to advertisement duly made bids respectively totalling as follows were received on October 11, 1923:

Pattelli & Wilson	\$4,969.00
John Pollock	5,647.00
J. B. Rohrer & Co., Inc.....	5,650.00
Edward Balaban & Co.....	6,340.00

; and

Whereas, The Chief Engineer of this Commission, by communication dated October 13, 1923, has reported that the amount of said low bid is reasonable and that the said Pattelli & Wilson (a general partnership), the low bidders, are financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to them and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$4,969, the amount estimated to be necessary to carry out said proposed contract on behalf of the City.

Resolved, That said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of Pattelli & Wilson, submitted as aforesaid, be and the same hereby is accepted and the said proposed contract (Agreement "CQ"), for the construction of station finish work at the Queensboro Plaza Station of the municipal rapid transit railroad, in the Borough of Queens, be and the same hereby is awarded to said Pattelli & Wilson, subject to its being approved and consented to in form and substance, as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment, in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$4,969, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

October 16, 1923:

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Pattelli & Wilson (Agreement "CQ") for the construction of station finish work at the Queensboro Plaza Station of the municipal rapid transit railroad, in the Borough of Queens, together with a requisition upon your Honorable Board for the appropriation of the sum of Four thousand nine hundred sixty-nine dollars (\$4,969), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been made for proposals for said proposed contract and bids were received on October 11, 1923, respectively totalling as follows:

Pattelli & Wilson	\$4,969.00
John Pollock	5,647.00
J. B. Rohrer & Co., Inc.....	5,650.00
Edward Balaban & Co.....	6,340.00

The Chief Engineer of this Commission, in a communication dated October 13, 1923, reports that the bid of Pattelli & Wilson (a general partnership), the low bidders, is reasonable and that the said firm is competent and financially capable of carrying out the provisions of said proposed contract, and the Transit Commission has accepted said bid and awarded said proposed contract to the said Pattelli & Wilson, subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Four thousand nine hundred sixty-nine dollars (\$4,969), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund of said City may prescribe for the purpose of meeting the City's obligations under said proposed contract, to wit, the sum of Four thousand nine hundred sixty-nine dollars. (\$4,969).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is a subrequisition under and not in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York and New York Municipal Railway Corporation, known as Contract No. 4, and the appropriations made thereunder by your Honorable Board.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1417—R. T. 7572

Agreement "BV"—Communication from Board of Estimate and Apportionment Referring Back Proposed Contract with D. C. Serber for Miscellaneous Construction and Station Finish—Report by Chief Engineer Recommending that Request Be Made to Board of Estimate and Apportionment for Reconsideration of Action—Approval Resolution—Communication to Board of Estimate and Apportionment

A communication was presented from the Board of Estimate and Apportionment dated July 3, 1923, advising of its action on June 29, 1923, referring back to this Commission a proposed contract with D. C. Serber, for Miscellaneous Construction and Station Finish in the Boroughs of Manhattan, Bronx, Brooklyn and Queens—Agreement "BV," and submitting a copy of a report by its Assistant Engineers, giving reasons why the contract should not be approved.

A report was presented from the Chief Engineer dated June 3, 1923, recommending that a request be made to the Board of Estimate and Apportionment for reconsideration of its action as no way exists for performance of the necessary work.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment by action taken at its meeting of June 29, 1923 referred back to this Commission the proposed contract between The City of New York and D. C. Serber for Miscellaneous Construction and Station Finish (Agreement "BV") in municipal rapid transit railroads, as evidenced by the letter dated July 3, 1923 addressed to this Commission by the Assistant Secretary of said Board, which letter also transmitted a copy of the report dated June 27, 1923 of an Assistant Engineer of said Board and upon which action of said Board was predicated; and

Whereas, The Chief Engineer of this Commission by communication dated July 3, 1923 has reported in detail as to such action of said Board and stated "Unless the Board reconsiders its adverse action, I do not know what steps to take to accomplish the necessary work covered by the contract in question," and Counsel recommends the re-submission of said proposed contract, together with a copy of the said report of the Chief Engineer of this Commission for reconsideration by the Board of Estimate and Apportionment in the light of such report,

Resolved, That the said report and recommendation be and the same hereby are approved; that the said proposed contract, together with the requisition for the appropriation of the necessary money and the consent of the Board thereto dated June 5, 1923 be resubmitted to said Board with the request that it reconsider its action of June 29, 1923 with respect thereto, in the form now submitted by Counsel to this Commission.

[October 16, 1923

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution was as follows:

October 16, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission is in receipt of the following communication dated July 3, 1923 from James Matthews, Assistant Secretary to your Board:

(Cal. No. 204)

July 3, 1923.

To the TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen:

Enclosed please find copy of a report prepared in this office relative to the request of the Transit Commission dated June 5, 1923, for consent of this Board to proposed contract with D. C. Serber for miscellaneous construction and station finish for rapid transit railroads in the Boroughs of Manhattan, Bronx, Brooklyn and Queens.

At the meeting of the Board of Estimate and Apportionment on June 29, 1923, this matter was referred back to the Transit Commission.

Respectfully,

JAMES MATTHEWS,
Assistant Secretary.

The Chief Engineer of this Commission under date of July 3, 1923 has reported with respect to the subject of such action as follows:

"On June 5, 1923, a request was made by the Commission on the Board of Estimate and Apportionment for approval of work under Agreement "BV," Miscellaneous Construction and Station Finish for Rapid Transit Railroads in the Boroughs of Manhattan, Bronx, Brooklyn and Queens, and the appropriation of \$15,020 to meet the City's obligation under said proposed contract, \$12,270 to be charged to Contract No. 3 and \$2,750 to be charged to Contract No. 4. The two bids received were from D. C. Serber, \$15,020; and Hamme & Jackson, Inc., \$19,265. The Board of Estimate disapproved the Commission's request on June 29, 1923.

An Assistant Engineer of the Board of Estimate made an unfavorable report on this proposed contract. He stated in his report that the work is substantially that which the Commission included in a proposed contract which was submitted to the Board on July 6, 1922 and disapproved on July 19, 1922 excepting that from the contract now under consideration, the Commission has omitted the blue-stone curb in The Bronx, sidewalks at Lexington Avenue and 129th Street, and a wall at the escalator of the Park Place Station. This is substantially correct.

The blue-stone curb in The Bronx was omitted from the draft last submitted for bidding on account of exception taken thereto by said Assistant Engineer. The sidewalk at the car barns at Lexington Avenue and 129th Street was omitted because after the first bids were received, this work was done by the surface railroad company. The wall at the escalator of the Park Place Station was omitted because the Interborough agreed to build it.

Said Assistant Engineer says further, 'I have examined the bidding sheet with some care and I find irregular bidding as evidenced by the following items:

Station entrances, 161st Street.....	\$500	\$3,200
Sewer connections, Buhre Avenue.....	950	550
Repair of drain pipe.....	75	200
Ladders, etc., 125th Street Station.....	400	700
Excavation	12	25
Waterproofing	3	10

To my mind irregularities like these warrant the rejection of all the bids received.'

Such differences as these exist in many of the contracts which have been approved by the Board of Estimate and are not, in my opinion, a sufficient cause for the rejection of the contract. In all of such contracts, the bidder must distribute his estimated cost of plant, administration and other overhead expenses over the various items of the contract. Some do it one way and some another and it is largely a question of judgment how it should be done. The above comparison is between the prices of the two bidders but the second bidder's figures do not concern us, since we did not recommend the acceptance of his bid. Our figures for the same items compared with those of the low bidder are as follows:

	D. C. Serber	Engr's. Est.
Station entrances, 161st Street—Lump sum....	\$500	\$1,800
Sewer Connections, Buhre Avenue—Lump sum.	950	400
Repair of drain pipe—Lump sum.....	75	200
Ladders, etc., 125th Street Station—Lump sum.	400	500
Excavation	12 Cu. Yd.	10 Cu. Yd.
Waterproofing	3 Sq. Yd.	2 Sq. Yd.

Regarding Serber's bid of \$500 for "Station Entrances at 161st Street": this figure is probably below the cost of doing the work. The bidder's attention was called to this when he was examined prior to the award of the contract and he then stated that his bid for this item was based on a misunderstanding of what work the item included but that he was prepared to go ahead and take whatever loss was entailed.

Said Assistant Engineer further says, 'there are other reasons why I think the Board should withhold its consent to this contract, one of which is the inclusion therein of the steps, railings, etc., in the drift near Old Slip. If this work is done under this proposed contract, access to the drift for men and materials must be through a shaft of limited dimensions. The work is not urgently necessary but should be done in connection with the lower section of the Nassau Street Line, the south end of which will be in such proximity to the work proposed under this contract that the cost thereof will be very much reduced.'

This work in the interest of safety is urgent. It is aimed to provide a more convenient means of exit from the river tubes of the Whitehall Street-Montague Street route than now exists.

Some time ago, trains were stalled in the Montague Street tubes under the river and the passengers left the trains, and some walked towards Manhattan. The Company then complained that a continuous passageway raised above the trackways had not been provided by which the emergency exit near South Street could be reached. As a result, this item of work was included in the contract. The suggestion of the Assistant Engineer that this work be done under the contract for Section 2 of Route 45 should not be accepted since there is no certainty that the Board will approve this contract, and furthermore, the work is not within the limits of that section as now defined.

This Assistant Engineer says further, 'I also take exception to the manner in which the plumbing repairs have been specified and bid upon. Such a scheme, I think to be wholly indefensible and alone should warrant the rejection of the contract.'

The original contract as submitted to the Board of Estimate on July 6, 1922, called for the same plumbing work to be done on the basis of cost. This is considered the best way of doing this work which involved the tearing out and replacing of existing work, the amount of which is impossible to prognosticate before a thorough investigation has been made, the existing work being mostly imbedded in masonry. Inasmuch as we have no means for making such an investigation that had to be part of the proposed contract. This method, however, was objected to by said Assistant Engineer after the first contract was awarded, notwithstanding the fact that it was explained to him that the Contractor would be paid only for such work as was necessary and that he would be ordered to do. In an effort to meet his objection, contract was revised for

the second bidding and the present method of paying for the work under bid prices was provided, which method we recognize as not being as good as the first one. Now he objects to this method but suggests no alternative as to how the work should be done. If it is not to be done by either of these methods, I do not see how it can be done by contract.

Meanwhile the major portion of the toilet facilities at the seven stations of the Lexington Avenue Line referred to are out of commission and have been since before the line was placed in operation in 1918, due to the damage sustained principally from frost between the dates of completion of construction and the beginning of operation. The public is thus denied the use of them and the conditions have been the subject of complaint by the Board of Health. It is unfortunate that the efforts of the Commission to remedy these conditions have been unsuccessful.

I am bringing these facts to the Commission's attention for such action as it may think best to take. Unless the Board reconsiders its adverse action, I do not know what steps to take to accomplish the necessary work covered by the contract in question."

The Transit Commission accordingly resubmits said proposed contract to your Honorable Board for its consideration in the light of the statements of the Chief Engineer of this Commission and the attention of your Honorable Board is particularly directed to the fact that the Engineers of the Commission are of the opinion that there is no other practical way of doing the work included in said proposed contract and that the completion of these much needed improvements in the municipal rapid transit railroad system are being consequently delayed.

The Transit Commission resubmits the said proposed contract, together with its requisition of June 5, 1923 and requests your Honorable Board to consent thereto and to appropriate the necessary money to carry out the obligations of the City thereunder all in accordance with said requisition of June 5, 1923.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1418—R. T. 4039

Brooklyn Loop Line—Communication from Counsel Submitting Proposed form of Agreement with New York Rapid Transit Corporation and Atlas Industrial Corporation for Alteration of Subway Entrance and Exchange of Easements in Property at Westerly Side of Centre Street between Howard and Canal Streets, Borough of Manhattan—Approval Resolution—Communication to Commissioners of Sinking Fund

A communication was presented from Counsel dated October 15, 1923, transmitting a proposed form of deed between The City of New York, acting by the Transit Commission, the New York Rapid Transit Corporation and the Atlas Industrial Corporation for the alteration and rearrangement of subway entrance control areas together with two deeds to effect an exchange of easements in the property on the westerly side of Centre Street between Howard Street and Canal Street, Borough of Manhattan.

The following resolution was adopted:

Whereas, The Public Service Commission for the First District, a predecessor of the Transit Commission, heretofore acquired in fee simple, free and clear of all incumbrances, for rapid transit purposes, a parcel of land situated on the westerly side of Centre Street between Howard Street and Canal Street, in the Borough of Manhattan, City of New York, known as Lot 19, in Block 208, Section 1, on the Land Map of the County of New York; and

Whereas, Said parcel of real property having become unnecessary for rapid transit purposes except certain permanent and perpetual easements therein, this Commission did with the approval of the Commissioners of the Sinking Fund on January 16, 1923,

sell said parcel, subject to certain easements at public auction to the highest bidder, Herbert Fisher, who assigned all his rights, title and interest in said parcel to the Atlas Industrial Corporation, a domestic corporation, and this Commission conveyed said property subject to such reserved easements to the Atlas Industrial Corporation for the sum of \$37,250 and a bond and mortgage for the sum of \$111,500 maturing in five years on the 18th day of June, 1928, at the rate of five per cent (5%) per annum; and

Whereas, By the published notices advertising the public auction sale of the said parcel of real property, it was stated as follows:

In the case of Plot II (the parcel here under consideration) the subway structure may be altered, at the purchaser's expense, with respect to the location of the present entrance facilities; providing such entrance facilities are not reduced in capacity or their safety impaired, and provided the approval of the Chief Engineer is secured.

and also that:

The present subway entrance and adjacent construction may be altered by the purchaser with the approval of the public authorities having jurisdiction so as to permit the location of stores on the portion of the plot at the northwest corner of Canal and Centre Streets.

; and

Whereas, The Vendee, Atlas Industrial Corporation, has submitted plans and made an application, to this Commission and to the Lessee of the Railroad, for a proposed alteration and rearrangement of the subway entrance control areas, so as to permit of the location of stores on the southeast corner of the plot, at the northwest corner of Canal and Centre Streets; and

Whereas, It will be necessary to effect such proposed alteration and rearrangement of the subway entrance control areas, for this Commission on behalf of The City of New York to convey a portion of certain easements retained in the conveyance of said property to the Atlas Industrial Corporation, comprising the present entrance control area to the station, and to take in exchange, easements in property conveyed as aforesaid, in which the City retained no easements for railroad purposes; and

Whereas, The Atlas Industrial Corporation has agreed to make all the necessary physical changes necessary to transfer the station entrance and controls from the retained easement to the easements to be conveyed to the City under such arrangement, at its sole cost and expense; and

Whereas, The Atlas Industrial Corporation has agreed to pay Five Thousand (\$5,000) dollars, as the agreed salvage value for toilet rooms and other facilities, not needed, and to be removed from the entrance control area surrendered; and

Whereas, The Real Estate Clerk of this Commission has advised that such exchange of easements represents in value a fair transfer of real estate; and

Whereas, The Chief Engineer of this Commission has approved the proposed plans submitted for the rearrangement of controls both as to engineering and operating features; and

Whereas, Counsel with his letter dated October 15th, 1923, has submitted to this Commission for approval, a proposed form of agreement between The City of New York, acting by the Transit Commission, New York Rapid Transit Corporation and the Atlas Industrial Corporation for the alteration and rearrangement of said subway entrance control areas; two Deeds, to effect an exchange of easements; and a communication to the Sinking Fund Commission of The City of New York for transmission to said Commission for its approval,

Resolved, That the proposal of the Atlas Industrial Corporation as aforesaid be and hereby is approved; that the said instruments so submitted be and the same hereby are approved and adopted and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute said instruments upon receipt of a certified copy of the resolution of the Commissioners of the Sinking Fund approving the same,

Further Resolved, That Counsel to this Commission be and hereby is authorized and directed to take such action as may be necessary and proper to consummate such transaction if and when the Commissioners of the Sinking Fund have consented thereto.

The communication to the Commissioners of the Sinking Fund was as follows:

October 16, 1923.

To the SINKING FUND OF THE CITY OF NEW YORK.

Gentlemen:

Your Commission by resolution adopted October 5, 1922, upon the application of the Transit Commission pursuant to Subdivision 2 of Section 39 of the Rapid Transit Act, approved of the sale at public auction by the Transit Commission of the parcel of land located on the westerly side of Centre Street between Canal and Howard Streets in the Borough of Manhattan, and known as Lot 19 in Block 208 in Section 1 on the Land Map of the City of New York for the Borough of Manhattan and bounded and described as follows:

Beginning at the point formed by the intersection of the westerly side of Centre Street with the northerly side of Canal Street; running thence westerly along the northerly side of Canal street, thirty-seven (37) feet eleven and three-sixteenths (11-3/16) inches; thence northerly one hundred and fifteen (115) feet ten (10) inches, to a point thirty-one (31) feet four and nine-sixteenths (4-9/16) inches from the westerly side of Centre street, on a line at right angles thereto; thence westerly along a line at right angles to the westerly side of Centre street forty-six (46) feet seven and seven-sixteenths (7-7/16) inches to the land now or late of Shearith Israel; thence northerly along the land of Shearith Israel seventy-five (75) feet to the land now or late of Harriet Barthal; thence easterly along said land and along the land now or formerly belonging to John C. Butler and John J. Palmer, thirty-six (36) feet; thence northerly along the land now or late of Thomas C. Butler, one hundred (100) feet eight and one-half (8½) inches to the southerly side of Howard street; thence easterly along said southerly side of Howard street, thirty-six (36) feet two and three-sixteenths (2-3/16) inches to the westerly side of Centre street; thence southerly along said westerly side of Centre street, two hundred and ninety-nine (299) feet and five-eighths (⅝) inches, to the point or place of beginning, be said several dimensions more or less; containing 13,551 square feet.

at an upset price of \$148,750, subject to such permanent and perpetual easements as were required for maintenance and operation in perpetuity, free of interference and right of interference of the rapid transit railroad, being part of the Railroad described in the contract dated March 19, 1913, known as Contract No. 4, including the subway or structure and the station entrance thereon, and upon such terms as would safeguard such maintenance and operation through and under the entire area of such property and upon such other terms and conditions as the Transit Commission should deem necessary and proper.

Thereafter pursuant to such authority the Transit Commission after due notice on January 16, 1923 sold at public auction to the highest bidder, Herbert Fisher, the said property subject to the conditions referred to in the resolution of your Commission and by deed dated June 9, 1923 and delivered the 18th day of June, 1923, conveyed said property subject to such conditions to the assignee of said Herbert Fisher, the Atlas Industrial Corporation, the purchase price being the fixed upset price of \$148,750. The purchase price was paid by the delivery to the representatives of the City of cash in the sum of \$37,250, and a bond and mortgage for the sum of \$111,500, maturing in five years on the 18th day of June, 1928, at the rate of five per cent. (5%) per annum.

In the published notice advertising the proposed sale by the Transit Commission of said property pursuant to the authority of your Commission it was stated:

In the case of Plot II (being the property here under consideration) the subway structure may be altered, at the purchaser's expense, with respect to the location of the present entrance facilities, providing such entrance facilities are not reduced in capacity or their safety impaired, and provided the approval of the Chief Engineer is secured.

It was also stated in respect to the general information given out in respect to said Plot II that:

The present subway entrance and adjacent construction may be altered by the purchaser with the approval of the public authorities having jurisdiction so as to permit the location of stores on the portion of the plot at the northwest corner of Canal and Centre Streets.

The foregoing statements, of course, invested the purchaser with no legal right

but was merely indicative of a possible rearrangement of the property with the approval and consent of the public authorities and more especially the Lessee of the Railroad, to more adequately adopt such property to be sold to remunerative commercial uses. The vendee, the Atlas Industrial Corporation, has made application and submitted plans to the Transit Commission for a proposed alteration and rearrangement of the subway entrance control areas at said location so as to permit of the location of stores on the southeast corner of the plot, at the northwest corner of Canal and Centre Streets. To effect this it will be necessary for the City, acting by the Transit Commission, to convey certain of the easements retained in the conveyance of this property to the Atlas Industrial Corporation comprising the present entrance control area to the station and to take in exchange easements in property conveyed as aforesaid but in which the City retained no easements for railroad purposes. The Atlas Industrial Corporation has agreed to make, at its sole cost and expense, all physical changes necessary to transfer the station entrance and controls from the retained easement to the easements to be conveyed to the City under such arrangement. The New York Rapid Transit Corporation, as Lessee of the Railroad, agrees to this proposal and the engineers of both the company and the commission have approved of the plans prepared to this end. Moreover, the Real Estate Clerk of the Commission has advised it that the exchange of easements represents in value a fair transfer of real estate, since in his opinion, the value of the portion of the easements retained under the original deed and now to be conveyed to the City are worth no more than the easements which are to be conveyed to the City pursuant to this plan.

Accordingly, the Transit Commission has prepared and transmits herewith a proposed agreement between The City of New York acting by the Transit Commission, New York Rapid Transit Corporation and Atlas Industrial Corporation providing for the performance of the work of making such alterations, reconstruction and construction at the sole cost of the Atlas Industrial Corporation, which proposed agreement has been approved by all parties interested. The said proposed agreement provides for the interchange of the easements in question by the coincident delivery of two deeds which are attached to and form part of said proposed agreement.

The Commission is convinced that this proposed arrangement and exchange of easements will result in the substitution of an entrance and control area to the said rapid transit railroad, in all respects equal, if not better than the existing facilities both as to real estate value and operating convenience and moreover, it will carry out the tentative proffer to make such changes in this property as to make it more adaptable for commercial purposes.

The Transit Commission, therefore, requests your Honorable Commission, pursuant to the provisions of the Rapid Transit Act, to consent to said proposed agreement and exchange of easements in said property and to the proposed deeds submitted to effect such transfer.

It is specifically provided in the proposed deeds that such transfer or reconstruction shall in no way effect the existing mortgage of The City of New York upon the property as a whole, sold as aforesaid.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1419—R. T. 7366

Contract No. 3—Report by Chief Engineer Recommending Acceptance of Offer of Contractor to Pay \$800 to City in Lieu of Placing Timber Decking on East Side of Lenox Avenue South of 147th Street under Contract for Additional Approach Track to Lenox Avenue and 148th Street Yard—Approval Resolution

A report was presented from the Chief Engineer dated October 8, 1923, recommending the acceptance of the offer of the Slattery Engineering and Construction Company, Inc., to pay \$800 to the City in lieu of placing timber decking on the east side of Lenox Avenue south of 147th street, the cost of which decking was included in the contractor's unit price for excavation under the contract for the construction of an additional approach track to the Lenox Avenue and 148th Street Yard.

The following resolution was adopted:

Whereas, The contract dated October 25, 1922 between The City of New York, acting by the Transit Commission, and Slattery Engineering and Construction Co., Inc., for the construction of an additional approach track to the Lenox Avenue and 148th Street Yard (Contract No. 3), includes in the schedule unit price for excavation the cost of decking; and

Whereas, The Chief Engineer of this Commission, by communication dated October 8, 1923, reports that the said contract required that the excavation for the structure should be kept decked south of the center line of 147th Street and the street kept open for traffic at all times; that during the progress of the work it developed that a portion of the decking required by said contract was not essential; that the contractor proposed to omit such unnecessary decking and that an agreement was reached whereby such unnecessary decking should be omitted upon the payment to the City by the contractor of the sum of \$800 which the Chief Engineer recommends be accepted in lieu of placing the timber decking on the east side of Lenox Avenue south of 147th Street,

Resolved, That said report and recommendation be and the same hereby is approved.

1420—R. T. 7007, Case 2627

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Plans and Specifications of Bodies and Trucks for One Hundred Steel Motor Cars—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Approval Resolution

An application was presented from Interborough Rapid Transit Company dated October 10, 1923, requesting approval of plans and specifications of bodies and trucks for one hundred steel motor subway cars.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer stating that the plans and specifications are satisfactory and recommending that the application be approved.

The following resolution was adopted:

Whereas, This Commission by order adopted August 22, 1923, in Case No. 2627, amending Service Order "B" of May 2, 1922 in said proceeding, required among other things that the Interborough Rapid Transit Company:

"(3) Order immediately, as of the date of this order as hereby amended, and equip and have ready for operation as soon as it is possible and not later than for the beginning of fall operation in 1924, one hundred (100) steel cars upon specifications to be approved by the Commission."

; and

Whereas, Pursuant to said directions and order Interborough Rapid Transit Company by communication dated October 10, 1923, has submitted to this Commission for its approval, plans and specifications of bodies and trucks for 100 steel motor cars; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission, by communication dated October 16, 1923, have reported that said plans and specifications so submitted are satisfactory and recommend from an engineering standpoint that said plans and specifications so submitted be approved,

Resolved, That said report and recommendation be and the same hereby is adopted and that said plans and specifications so submitted be and the same hereby are approved.

1421—R. T. 7007

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agents' Orders for Car Wheels—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated September 7, 1923, requesting approval of proposed purchasing agents' orders directed

to the Carnegie Steel Company and Bethlehem Steel Company, for furnishing car wheels for replacement purposes on subway cars at a total cost of \$109,796.50.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations, classifying the work as an Operating Expense.

The following resolutions were adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, Interborough Rapid Transit Company has by communication dated September 7, 1923, submitted for the approval of this Commission a proposed purchasing agent's order dated September 7, 1923, directed to Carnegie Steel Company for the following:

Item No.

- | | | | |
|----|--|---------------------------|-------------|
| 1. | 476 Wheels, 3¼" rolled steel, 6 13/16" rough bore, motor truck, B/P 9380-B. Spec. 48-E. | Price: \$49.75 each..... | \$23,681.00 |
| 2. | 838 Wheels, 3¼" rolled steel, 5 9/16" rough bore, Trailer Truck, B/P 4524-K. Spec. 48-E. | Price: \$41.50 each | 34,777.00 |

Total \$58,458.00

which proposed purchasing agent's order has been caused to be designated as "Approval No. 504"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission, have by communication dated October 16, 1923, reported that the following bids were received for such work:

	Motor Truck Wheels	Trailer Truck Wheels
Carnegie Steel Co.	\$49.75 each	\$41.50 each
Bethlehem Steel Co.....	49.75 each	41.50 each
Standard Steel Works.....	49.75 each	41.50 each
Edgewater Steel Co.....	49.75 each	41.50 each

that the Carnegie Steel Company are reliable manufacturers; that the price is reasonable and the best obtainable; that the wheels are necessary for maintenance purposes and the specifications have been passed by the Department of Materials Inspection and recommends that the said proposed purchasing agent's order so submitted be approved; and

Whereas, By endorsement dated October 17, 1923, the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have recommended that such work be classified as Operating Expense as described in said Contract No. 3.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such work to be classified as Operating Expense as described in said Contract No. 3.

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, Interborough Rapid Transit Company has by communication dated September 7, 1923 submitted for the approval of this Commission a proposed purchasing agent's order dated September 7, 1923 directed to Bethlehem Steel Company for the following:

Item No.

1. 438 Wheels, 3¼" rolled steel, 6 13/16" rough bore, motor truck,
B/P 9380-B Spec. 48-E.
Price: \$49.75 each..... \$21,790.50
2. 712 Wheels, 3¼" rolled steel, 5 9/16" rough bore, Trailer
Truck, B/P 4524-K Spec. 48-E.
Price: \$41.50 each..... 29,548.00

F. O. B. New York..... \$51,338.50

which proposed purchasing agent's order has been caused to be designated as "Approval No. 505"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission have by communication dated October 16, 1923, reported that the following bids were received for such work:

	Motor Truck Wheels	Trailer Truck Wheels
Carnegie Steel Co.	\$49.75 each	\$41.50 each
Bethlehem Steel Co.....	49.75 each	41.50 each
Standard Steel Works.....	49.75 each	41.50 each
Edgewater Steel Co.....	49.75 each	41.50 each

that the Bethlehem Steel Company are reliable manufacturers; that the price is reasonable and the best obtainable; that the wheels are necessary for maintenance purposes and the specifications have been passed by the Department of Materials Inspection and recommends that the said proposed purchasing agent's order so submitted be approved; and

Whereas, By endorsement dated October 17, 1923 the Auditor of Rapid Transit Costs and the Chief of the Bureau of Accounting and Valuations have recommended that such work be classified as Operating Expense as described in said Contract No. 3,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such work to be classified as Operating Expense as described in said Contract No. 3.

1422—R. T. 6668, 7529

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Cast Iron Smoke Flues in Stations on Culver and West End Lines—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated September 28, 1923, requesting approval of a proposed purchasing agent's order directed to the Empire Pipe Corporation for thirty-two cast iron smoke flues for stations on the Culver and West End Lines at a total cost of \$6,410.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated October 10, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work insofar as it is a betterment as Additions to the Railroad and assigning Work Order No. MAA-6 thereto, the remainder of the cost to be charged to Maintenance.

The following resolution was adopted:

Whereas, The Transit Commission pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4 and particularly Article LXVIII thereof by resolutions adopted July 12,

1921 and May 23, 1923 directed the Lessee under said Contract No. 4 to install as Additions to Construction under said contract the direct type of smoke flue at the stations of the Culver Line and the New Utrecht Avenue portion of the Broadway-Fourth Avenue Line described in said Contract No. 4 and as more particularly set forth in said resolutions; and

Whereas, The Board of Estimate and Apportionment of The City of New York, by resolution adopted June 29, 1923, appropriated the sum of \$3,240, being the estimated cost to the City of having such work performed in accordance with the provisions of said Contract No. 4; and

Whereas, New York Rapid Transit Corporation as successor to the rights and obligations under said Contract No. 4, has by communication dated September 28, 1923 submitted to this Commission for approval a proposed purchasing agent's order dated September 28, 1923 directed to Empire Pipe Corporation for the following:

Empire Pipe Corporation.....	\$6,410
W. G. Creamer and Co.....	6,560
John Fox	10,384
Edwin Burborn	10,650
Staten Island Shipbuilding Co.....	Could not quote.

which proposed purchasing agent's order has been caused to be designated as Approval No. 371; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated October 10, 1923 reported that the plans for the installation of such flues have already been approved by the Chief Engineer of this Commission; that the price proposed to be paid for the smoke flues is reasonable and recommends that the said proposed purchasing agent's order so submitted be approved; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated October 11, 1923 has recommended that the cost of such work in so far as it is a betterment be classified as Construction of Additions to the Railroad and that Work Order No. MAA-6 be assigned thereto, the remainder of the cost to be charged to Maintenance,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost thereunder in so far as it is a betterment, to be classified as Construction of Additions to the Railroad and as to which this Commission assigns Work Order No. MAA-6, the remainder of cost to be charged to Maintenance.

1423—R. T. 5006

Route No. 70—Application to Secretary of War for Permit to Make Borings for Proposed Brooklyn Crosstown Line—Approved

The Commission approved a request to the Secretary of War for a permit to make test borings along the proposed Jackson Avenue, Newtown Creek, Manhattan Avenue, Roebling Street and Bedford Avenue Route, Route No. 70.

1424—Cases Nos. 1264, 1380

The Long Island Railroad Company—Queens Grade Crossing Eliminations—Communication to Company Relative to Removal of Poles and Wires of New York and Queens Electric Light and Power Company—Filed

The Secretary presented a copy of a communication dated October 8, 1923, signed by Counsel to the Commission, and addressed to The Long Island Railroad Company, relative to the removal of poles and wires by the New York and Queens Electric Light and Power Company in connection with the grade crossing eliminations directed by the Commission's Order in Cases No. 1264 and 1380, and calling attention

to the Opinion of Counsel dated June 18, 1923 and that no steps had been taken as suggested therein to compel the latter company to remove and relocate its poles and wires and advising that the Commission would not be disposed to allow in the final accounting any charge for such removal and relocation as an item of expense of the elimination.

Thereupon the above mentioned communication was approved.

1425

New York Rapid Transit Corporation—Communication from Kings County District Attorney Transmitting Presentment of June Grand Jury Concerning Derailment of Elevated Train at Flatbush and Atlantic Avenues, Brooklyn—Recommendations by Chairman Approved

The Secretary presented a communication dated September 11, 1923, from Charles J. Dodd, District Attorney of Kings County, transmitting a presentment of the June Grand Jury of Kings County in relation to its inquiry into the accident of June 25, 1923, on the Fifth Avenue Elevated Line of the New York Rapid Transit Corporation, which said presentment read as follows:

To the COUNTY COURT OF KINGS COUNTY:

The Kings County Grand Jury for June, 1923, Submits to You the Following Presentment:

REPORT OF THE INQUIRY INTO THE ELEVATED RAILROAD ACCIDENT OF JUNE 25, 1923, IN WHICH A NUMBER OF PERSONS WERE KILLED AND INJURED.

By direction of the Court this Grand Jury, drawn for the June Term, was continued in service to inquire into this disaster and ascertain whether culpable negligence caused it and to indict in a proper case, if such negligence was found to exist.

On the afternoon of June 25, 1923, this community was visited by a most shocking and distressing accident when a train of the Fifth Avenue Line, running westerly on Flatbush Avenue, fell from the structure at a point where Flatbush and Atlantic Avenues intersect. The train carried two cars in which were from seventy-five to one hundred passengers. Of these eight were killed and scores painfully injured. Instantly and spontaneously, the sympathy of the entire community was aroused for the persons thus bereaved and injured. In common with all our fellow citizens, we deprecate the calamity and commiserate with those thus visited by misfortune, and we avail ourselves of this opportunity to make public an official expression of sympathy, inadequate though it be.

We respectfully report to the Court that, after listening to the sworn testimony of over one hundred witnesses, among whom were several engineers of exceptional ability and experience, and after making an exhaustive study of the case from every conceivable angle, we have been unable to discover evidence sufficient to warrant an indictment against any person for culpable, or as is sometimes called, criminal negligence. We have, however, gathered from our study of the case facts and information which we believe should be availed of, to the end that the possibility of a recurrence of such a dreadful accident will be greatly minimized, if not entirely removed. Predicated upon such facts and information, we, therefore, offer the following recommendations for the careful consideration of those charged with the care of passengers traveling on elevated structures:

Track Walkers:

These men should be of a more intelligent grade, thoroughly able to read, write and speak the English language, and their routes should be shortened to one-half of the present length, so that more frequent inspections of the roadbed can be made.

Inspections:

For the safety of the public at large a more stringent inspection of all vital parts of rolling stock and structures should be given in greater detail throughout

the entire system. To this end we suggest that the bonus given to inspectors on the discovery of defects which might cause accidents be doubled. This would serve as an incentive to the inspectors to make their inspections more complete.

Repairs to Structure and Roadbed:

A complete system of indexing short and long ties, inner and outer guard timbers, by means of plates numerically arranged, should at once be adopted, so as to expedite repairs and renewals on a sectional basis, all steel running rails, guard rails, frogs, switches, switch stands, fish plates and special steel work; we recommend that a sectional system also be adopted, and that each and every part of the aforesaid steel parts be stamped numerically with steel dies. By adopting this system the entire road, including all wood and steel work, would be sub-divided into sections, from station to station. We suggest the installation of inside steel guard rails at switches to the limit of practicability, so as to lighten the thrust imposed upon outside guard timbers in case of derailment. We also suggest that rules be promulgated and rigidly enforced regarding the speed with which trains may approach frogs and switches. We further recommend that steel girders, extending upward at least three and one-half feet above the roadbed, be installed at all curves and at special work where the running rails are interrupted by frogs and switches. At these points experience teaches that derailments most frequently occur. These girders would serve to prevent derailed trains from running off the structure.

Transit Commission:

We strongly recommend that all orders of the Transit Commission for repairs and renewals be more promptly complied with than is done under the present lax system. We understand that this Commission is authorized by law to see that their orders are promptly carried out and that such orders are to be regarded as mandatory rather than as mere suggestions. That a closer relationship, if possible, should be established between the Transit Commission and the railroads to the end that the safety of the traveling public will be first, last and at all times in the minds of those charged with this duty.

We wish to particularly compliment the District Attorney, Honorable Charles J. Dodd and his able staff of assistants for their thoroughly efficient manner of presenting cases and for the generally efficient method by which his office is conducted, and we are convinced that the people of Kings County have in these men a fearless, just and loyal body. We particularly commend the Assistant District Attorneys Mr. Joseph V. Gallagher and Mr. Edward Wynne for their high standards in presenting cases to us.

Thereafter the Engineer of Equipment and Operation of this Commission, under date of September 18, 1923, reported with respect to the recommendations of the said Grand Jury as follows:

"In reply to your request for comments on the recommendations contained in the report of the Grand Jury investigating the accident at Atlantic and Flatbush Avenues, Brooklyn, on June 25, 1923, I hand you the following, the headings of which are those contained in the report of the Grand Jury.

Track Walkers:

The suggestion that the track walkers be of a more intelligent grade would probably give a better inspection but it will be very difficult to maintain a sufficient force of particularly intelligent men on this class of work. I think perhaps, that this suggestion is based on the results of the examination of these men by the Grand Jury, in which examination some of the men were not able to properly answer questions. It may be that some of these men are of an inefficient type and should be replaced, but from our contact with the track walkers we are not able to call particular attention to anyone in this force. On this point I would suggest that the company's attention be called to the recommendation of the Grand Jury with a request that a real effort be made to eliminate any incompetent men.

Regarding the suggestion that the track walkers be able to read, write and speak the English language. While I believe this requirement is desirable I question whether it is advisable under existing conditions of the labor market. Some of the best track walkers I have seen were Italians who could barely speak English and undoubtedly could not read or write English but who thoroughly knew the requirements of their particular job.

Regarding the shortening of the routes to one-half of the present length, I believe that this recommendation should be made to the company. The present territory covered by the New York Rapid Transit Corporation seems to be larger than can be efficiently taken care of by one man, and based on information in hand is considerably greater than in the case of the Interborough Rapid Transit lines.

Inspections:

The suggestion that more stringent inspection of all vital parts be made is approved. However, the doubling of the bonus for the discovery of defects does not appear to be the proper way to attack this question. It is my understanding that most of the bonuses allowed for the discovery of defects have not been paid during the period of receivership. I believe that these bonuses should be restored and that the list of defects upon which bonuses are paid should include all serious possibilities and that the amount of the bonus should be sufficient to justify the men making a particular effort to discover such defects. I do not believe that the arbitrary doubling of the bonuses would effect a material improvement in this matter.

Repairs to Structure and Roadbed:

I can see no useful purpose in the indexing and numbering of all of the details of the structure. Such a record which involves a vast amount of work has been used on some roads but abandoned in favor of renewal upon direct inspection. In this work the material to be replaced depends almost entirely upon its condition regardless whether it has been installed one year or twenty years. Except in the case of an investigation like that made in connection with this accident at which inquiry is made as to the age of some individual tie or other part I cannot see that the card indexing of each part is of any value and I question whether the ability to answer questions as to age would warrant the labor involved.

The use of inside guard rails at switches to the limit of practicability is approved. The suggestion regarding regulation of speeds through frogs and switches is also advisable, if this is not already taken care of.

The use of steel girders extending upward $3\frac{1}{2}$ ft. above the road bed at all curves and at special work might sometimes prevent a train leaving the structure but this possibility is so remote that we do not think the great expense would be justified. In this connection attention is called to the fact that if these girders had been provided at the special work involved in the accident under investigation they would probably not have kept the train on the structure, as the first truck actually left the structure about 125 ft. west of the special work. I have an idea that this suggestion comes from someone who has noticed the through girder construction in use on some elevated roads particularly in Philadelphia in which the side girders extend up above the track. This type of structure under certain conditions is somewhat safer in case of derailment than the deck structure used in New York City. It is, however, much more expensive and I question whether the additional safety warrants the cost. If this question is to receive further consideration it should be referred to the engineering department.

Transit Commission:

Notwithstanding a lengthy explanation which I gave to the Grand Jury regarding the purpose of the reports and orders covering inspection of the railroads and equipment there seems to be a misunderstanding in this matter. So far as I am informed all 'orders' of the Transit Commission for repairs and renewals have been promptly, if not immediately, complied with. The present 'lax' system to which they refer apparently has reference to our inspection reports, which, under instructions from the Commission, are sent to the companies for their information. Such reports covering the car equipment are not sent to the company and there is no particular reason under the law as it has been explained to me why we should send the reports covering the track and structure which the Grand Jury has apparently assumed to be an order.

In the case of track, structure, car equipment and any other equipment or construction which we inspect, dangerous conditions are immediately called to the attention of the official in charge of such defects, and as noted above there has

never been a case where prompt attention has not been given. Some of the defects noted in our reports which are sent to the company and also in the car reports which are not sent to the company are of sufficient importance to warrant our close attention and in such a case subsequent check inspections are made to see whether the company is making repairs and whether the situation is developing into a condition which might be considered dangerous, the assumption being that all of these repairs will be taken in hand in the routine maintenance work. As I understand the instructions under which we are working it must be assumed that the company is doing its own inspection in a proper manner and the responsibility for failure rests on the company.

The inspection we are making is for our own information to assure ourselves that the company is safely maintaining its road and the sending of results of our inspection for the information of the company could not be construed as an order without the responsibility for the safe condition of the railroads resting on the Commission or at least on its engineering department. I will be glad to have you advise me if anything in this understanding is not correct.

Regarding the suggestion of a closer relationship between the Transit Commission and the railroads: Our inspection force is in continuous contact with the maintenance forces of the railroad and most of our requests are handled through this contact. In addition there is continuous contact between the Commission's staff and the operating heads of the companies. I do not see how a closer relationship can be established."

The Secretary then presented the communication dated October 4, 1923 from the Chairman of the Commission as follows:

"I am attaching hereto Mr. Latey's report upon the recommendations of the Kings County Grand Jury made apropos of the derailment at Atlantic and Flatbush Avenues on June 25th, 1923. I would suggest:

(1) that some formal note be taken at a meeting of the Commission of the receipt of the copy of the Grand Jury's recommendations and of the tenor of Mr. Latey's comments and report upon them;

(2) that the New York Rapid Transit Corporation be advised of the judgment and the wishes of the Commission with relation to action upon such of the recommendations as have the Commission's approval; and

(3) that some minute be adopted by the Commission to the effect that any public inquiry, upon its part, in the matter of the accident in question was, as we announced at the time, deferred pending the completion of the investigation by the Grand Jury; and that in view of the thorough attention given the matter by the Grand Jury and its resultant recommendations, no separate investigation on our part need now be undertaken."

On motion duly seconded it was resolved that the suggestions of the Chairman as above set forth be approved and adopted and that the Counsel to the Commission prepare a proper communication to New York Rapid Transit Corporation directing it to carry into effect those recommendations of the Engineer of Equipment and Operation which are deemed by him to be practicable as evidenced by his said report.

Ayes—Chairman McAneny, Commissioners Harkness and O'Ryan.

Nays—None.

Carried.

1426

The Long Island Railroad Company—Elimination of Grade Crossings—Petition of Residents of Corona and Elmhurst Referred to Engineer of Structures

The Secretary presented petitions of THE STAR of Long Island City and residents of Corona and Elmhurst, requesting a hearing with respect to elimination of grade crossings of The Long Island Railroad Company at Corona and Elmhurst.

Thereupon the above mentioned petitions were referred to the Engineer of Structures.

1427—Case No. 2631

The Brooklyn City Railroad Company—Relocation of Tracks in Fresh Pond Road—Communication from President of Borough of Queens—Letter to Borough President—Filed

The Secretary presented a communication dated October 1, 1923, from the President of the Borough of Queens, advising that The Brooklyn City Railroad Company had refused to accept the type of pavement and had requested modification of paving order but that no modification would be made, and requesting the Commission to take the necessary steps to enforce its order in Case No. 2631 requiring the relocation of the company's tracks in Fresh Pond Road.

The Secretary also presented a copy of a communication dated October 4, 1923, transmitted to the Borough President of Queens, stating that the matter had been taken up with the company which advised that the work will begin October 5, 1923 and that there would be no delay in the construction.

Thereupon the above mentioned papers were ordered filed.

1428—R. T. 7038

Route No. 50—Communication from Acting Corporation Counsel Transmitting Original Deed of Release for Easements in Front of Premises at No. 4 and 6 Ely Avenue, Borough of Queens—Filed

The Commission ordered filed a communication dated October 8, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, transmitting an original deed of release dated January 12, 1923, from J. Harvey Smedley and Alvan T. Payne, conveying to the City of New York certain easements in front of the premises at Nos. 4 and 6 Ely Avenue, Borough of Queens,—which deed was recorded in the office of the Clerk of the County of Queens, in Liber 2510, page 111 of Conveyances and is indexed under Section 2, Block 396, on the land map of the County of Queens.

1429—R. T. 7038

Route No. 50—Communication from Acting Corporation Counsel Transmitting Original Deed of Release for Easements in Front of Premises at No. 40 Ely Avenue, Borough of Queens—Filed

The Commission ordered filed a communication dated October 9, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, transmitting an original deed of release dated February 27, 1923, from Louisa Freelan, Emily Freeman, Josephine Blint, et al., conveying to the City of New York certain easements in front of the premises at No. 40 Ely Avenue, Borough of Queens,—which deed was recorded in the office of the Clerk of the County of Queens, in Liber 2511, page 18 of Conveyances, and is indexed under Section 2, Block 400, on the land map of the County of Queens.

1430

Employees' Calendar No. 171

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments under Rule VIII:4—Leland V. Matheis, junior assistant, at \$125.08 per month, to take effect October 15, 1923; Nicholas G. Pagler, junior assistant, at \$125.08 per month, to take effect October 16, 1923; Edward Wegmann, draftsman, at \$175.08 per month, to take effect October 10, 1923.

Reinstatement—William N. Niles, junior engineer, at \$175.00 per month, to take effect November 1, 1923.

Resignations—Nathan I. Goldstone, assistant chemist, at \$175.00 per month, to take effect October 19, 1923; C. John Judge, draftsman, at \$175.08 per month, to take effect October 17, 1923; William N. Niles, junior engineer, at \$175.00 per month, to take effect November 1, 1923.

Termination of Appointment under Rule VIII:4—Nicholas S. Mogavero, junior assistant, at \$125.08 per month, to take effect October 16, 1923.

Retired under Chapter 741—Laws of 1920—James E. Ramsey, transit inspector, at \$137.50 per month, to take effect October 15, 1923.

Change of Item in Resolution of October 11, 1923, so as to Read as follows: (Reinstatement under Rule XVI:1)—Belle Wolf, stenographer, at \$150.00 per month, to take effect October 22, 1923.

Leaves of Absence with Pay—Hyman J. Abramson, accountant, from September 10, 1923, to October 3, 1923; Sybil R. Berman, stenographer, from September 11, 1923, to October 1, 1923; Stephen L. Bower, architectural designer, from September 17, 1923, to October 18, 1923.

1431

Voucher Schedule No. 43

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York:

Vouchers Nos. 985-989, open market orders, \$285.62; Vouchers Nos. 533-537, miscellaneous bills, \$168.69.

Estimates by Chief Engineer of Value of Work Done and Materials Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 274; Joslin Construction Company, Inc., approximate estimate No. 14 for the reconstruction of a part of the Queensboro Subway Rapid Transit Railroad, Route No. 26, Jackson Avenue Station, from September 1, 1923 to September 30, 1923 (R. T. 7556) \$8,637.66;

Voucher No. 275; Holbrook, Cabot & Rollins Corporation, approximate estimate No. 16 for the construction of a new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad, from September 1, 1923 to September 30, 1923 (R. T. 6114) \$5,478.58;

Voucher No. 276; Otis Elevator Company, approximate estimate No. 4 for furnishing and installing two electric passenger elevators in the new entrance to the 168th Street station of the Manhattan-Bronx Rapid Transit Railroad, from September 1, 1923 to September 30, 1923 (R. T. 7623) \$10,477.35;

Voucher No. 277; Jacob Schlesinger, Inc., approximate estimate No. 4 for the construction of inspection shed and service buildings at the Jerome Avenue Yard, Route No. 16, from September 7, 1923 to October 6, 1923 (R. T. 7636) \$7,778.12.

1432

Upon motion duly seconded and adopted, the meeting was adjourned to Thursday, October 25, 1923.

1433

Hearing

The following hearing was adjourned:

Case No. 2699; Manhattan Bus Corporation; Application for a certificate of public convenience and necessity for the operation of a stage route by auto buses on certain streets in the Borough of Manhattan. Adjourned to October 30, 1923, at 10:30 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Wednesday, October 24, 1923

1434

Hearings

The following hearings were held:

10:45 A. M.; Case No. 2657; The Long Island Railroad Company; Application of the Board of Estimate and Apportionment of The City of New York, for a determination as to the manner in which a temporary crossing for pedestrians should be carried across the tracks of the Flushing and Northside Division at 192nd Street (Lancaster Avenue) in the Borough of Queens. George L. Lucas, Acting Chief Executive Officer, designated to conduct this hearing, presided. Hearing closed.

11:15 A. M.; Case No. 2670; The Long Island Railroad Company and New York Consolidated Railroad Company; Application of the Board of Estimate and Apportionment of The City of New York, for a determination as to the method by which 6th Avenue between 63rd and 64th Streets, in the Borough of Brooklyn, should be carried across the tracks of the companies. George L. Lucas, Acting Chief Executive Officer, designated to conduct this hearing, presided. Hearing adjourned subject to call.

JAMES B. WALKER,
Secretary.

Proceedings for Thursday, October 25, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness and John F. O'Ryan, Commissioners; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1435—R. T. 7703

Route No. 16—Form of Contract, Specifications, Invitation to Contractors, etc., for Installation of Tracks in Part of Jerome Avenue Yard—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors and Forms

of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the installation of tracks in a part of the Jerome Avenue Yard of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, Line S, Route No. 16,

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the installation of tracks in a part of the Jerome Avenue Yard of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, Line S, Route No. 16, be and they are hereby approved and adopted and that said Invitation to Contractors be published in the CITY RECORD every day of publication continuously from and including October 29, 1923 to and including November 13, 1923 and on October 29, 1923 and November 5, 1923 in NEW YORK COMMERCIAL and THE SUN AND GLOBE, daily newspapers published in The City of New York and that such bids as shall be received shall on the 13th day of November, 1923 at eleven-thirty (11:30) o'clock a. m. or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission at the office of the Transit Commission, and read.

Continental Casualty Company.....	33,333.33

1439—R. T. 7591

Route No. 70-D—Resolution Extending Time Thirty Days from October 30, 1923, to Board of Estimate and Apportionment for Consideration of Bedford Avenue-Brighton Beach Railway Connection—Adopted

The following resolution was adopted:

Whereas, This Commission by resolution adopted May 15, 1923, adopted a route and general plan for a proposed rapid transit railroad in the Borough of Brooklyn in the City of New York, known as the Bedford Avenue-Brighton Beach, Railway Connection, Route No. 70-D, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment for its consideration pursuant to the provisions of the Rapid Transit Act, which by the provisions of Section 5 thereof requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time as extended by resolution of this Commission adopted September 25, 1923, expires on October 30, 1923; and

Whereas, The said route and general plan is now being considered by committees of the said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said Committees,

Resolved, That the time within which a final vote shall be taken upon the said route and general plan by the Board of Estimate and Apportionment, in accordance with the provisions of the Rapid Transit Act, be and the same hereby is extended thirty (30) days from October 30, 1923.

1440—R. T. 7591

Route No. 70-C—Resolution Extending Time Thirty Days from October 30, 1923, to Board of Estimate and Apportionment for Consideration of Bedford Avenue, Fulton Street and Livingston Street Route—Adopted

The following resolution was adopted:

Whereas, This Commission by resolution adopted May 15, 1923, adopted a route and general plan for a proposed rapid transit railroad in the Borough of Brooklyn in the City of New York, known as the Bedford Avenue, Fulton Street and Livingston Street Route, Route No. 70-C, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment for its consideration pursuant to the provisions of the Rapid Transit Act, which by the provisions of Section 5 thereof requires a vote to be taken on said route and general plan by the said Board within sixty days after it shall have been first received by said Board, which time as extended by resolution adopted September 25, 1923, expires on October 30, 1923; and

Whereas, The said route and general plan is now being considered by committees of the said Board of Estimate and Apportionment and this Commission and additional time will be required for the deliberation thereon by said committees,

Resolved; That the time within which a final vote shall be taken upon the said route and general plan by the Board of Estimate and Apportionment, in accordance with the provisions of the Rapid Transit Act, be and the same hereby is extended thirty (30) days from October 30, 1923.

1441—R. T. 6423

Contract No. 3—Resolution Directing Requisition upon Board of Estimate and Apportionment for Appropriation of Seven Hundred Fifty Thousand Dollars for Interest Charges—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

Whereas, The Department of Finance, by Duncan MacInnes, its Chief Accountant, has informed the Transit Commission that the interest charges on bonds and notes issued and to be issued for the contract dated March 19, 1913, known as Contract No. 3

will require the additional appropriation of Seven hundred fifty thousand dollars (\$750,000),

Resolved, That pursuant to the provisions of the Rapid Transit Act and Section 45 of the Greater New York Charter requisition be made upon the Board of Estimate and Apportionment for the appropriation of corporate stock for the amount of Seven hundred fifty thousand dollars (\$750,000), to pay interest upon bonds and notes issued and to be issued for said Contract No. 3, such requisition to be in addition to all other authorizations heretofore made by said Board of Estimate and Apportionment for the purposes of said Contract No. 3,

Further Resolved, That a requisition in the form now submitted by Counsel be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

October 25, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Requisition is hereby made upon your Honorable Board for the authorization of corporate stock in the amount of Seven hundred fifty thousand dollars (\$750,000) said amount to be applied to meet charges of interest upon bonds and notes issued and to be issued for the purposes of the contract dated March 19, 1913, known as Contract No. 3. This Commission is advised by the Department of Finance that this sum is now required.

This requisition is in addition to the requisitions submitted to and authorizations heretofore made by your Board for the purposes of carrying out said Contract No. 3.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1442—R. T. 6424

Contract No. 4—Resolution Directing Requisition upon Board of Estimate and Apportionment for Appropriation of One Million Dollars for Interest Charges—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

Whereas, The Department of Finance, by Duncan MacInnes, its Chief Accountant, has informed the Transit Commission that the interest charges on bonds and notes issued and to be issued for the contract dated March 19, 1913, known as Contract No. 4, will require the additional appropriation of One million dollars (\$1,000,000),

Resolved, That pursuant to the provisions of the Rapid Transit Act and Section 45 of the Greater New York Charter requisition be made upon the Board of Estimate and Apportionment for the appropriation of corporate stock for the amount of One million dollars (\$1,000,000) to pay interest upon bonds and notes issued and to be issued for said Contract No. 4, such requisition to be in addition to all other authorizations heretofore made by said Board of Estimate and Apportionment for the purposes of said Contract No. 4,

Further Resolved, That a requisition in the form now submitted by Counsel be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

October 25, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Requisition is hereby made upon your Honorable Board for the authorization of corporate stock in the amount of One million dollars (\$1,000,000), said amount to be applied to meet charges of interest upon bonds and notes issued and to be issued for the purposes of the contract dated March 19, 1913, known as Contract No. 4. This Commission is advised by the Department of Finance that this sum is now required.

This requisition is in addition to the requisitions submitted to and authorizations heretofore made by your Board for the purposes of carrying out said Contract No. 4.

TRANSIT COMMISSION.

By GEORGE McANENY,
Chairman.

1443—R. T. 7345

Route No. 48—Report by Real Estate Clerk Recommending Resubmission of Request to Commissioners of Sinking Fund for Sale of Parcel of Property on Columbia Heights, Borough of Brooklyn, to Joseph Parascandola for \$3,600, and that Balance of Plot Be Sold at Upset Price of \$16,400—Approval Resolution—Communication to Commissioners of Sinking Fund

A report was presented from the Real Estate Clerk dated October 15, 1923, recommending the resubmission of a request to the Commissioners of the Sinking Fund for the approval of the sale of a parcel of property on Columbia Heights, north of Clark Street, Borough of Brooklyn, to Joseph Parascandola, for the sum of \$3,600; and that the balance of the plot be sold at public auction at the upset price of \$16,400.

The following resolution was adopted:

Whereas, The Commissioners of the Sinking Fund of The City of New York at their meeting on September 27, 1923, referred back to the Commission for further consideration and action in accordance with law the request of the Commission dated December 29, 1922, for approval of the sale to Joseph Parascandola of a certain parcel of ground having a frontage of 6 feet on Columbia Heights and a depth of 150 feet, located 32 feet 2 inches north of the northerly line of Clark Street produced, in the Borough of Brooklyn, subject to certain easements of light, air and access to be retained by the City, for the sum of \$3,600, and of the sale at public auction of a parcel of land between the aforesaid parcel of land and the said northerly line of Clark Street produced, at the upset price of \$16,400, both said parcels having been submitted in one plot for sale at public auction at the upset price of \$20,000, without any bids having been received therefor; and

Whereas, The action of the Commissioners of the Sinking Fund of The City of New York, above referred to, was predicated upon a report of the Comptroller of The City of New York which reads in part as follows:

"The Commissioners of the Sinking Fund may authorize sales of real property only at public auction.

The Transit Commission has no power to settle and adjust claims for or against The City of New York; nor can judgment for or against the City be permitted or consented to by the Transit Commission or the Commissioners of the Sinking Fund. Such action must proceed upon the recommendation of the Corporation Counsel and the approval of the Comptroller."

and

Whereas, The Real Estate Clerk, under date of October 15, 1923, has reported upon this matter that the Commissioners of the Sinking Fund have at various times authorized the sale privately of property of similar character, that there is no provision of the Rapid Transit Act requiring the sale at public auction and that the fact that the proposed sale to the said Joseph Parascandola would automatically dispose of pending litigation did not enter as an element of real estate value in fixing the upset price, submitting a form of communication to the Sinking Fund Commission again requesting the approval of the proposed sale privately to the said Joseph Parascandola at the price of \$3,600, and of the sale at public auction of the other parcel referred to at the upset price of \$16,400, upon the following terms:

The highest bidder at the time and place of sale shall sign a memorandum of his purchase and shall deposit a sum equivalent to 10% of the upset price, shall at the time of the delivery of the deed make a further payment equivalent to the difference between 10% of the upset price and 25% of his bid and execute a purchase money bond and mortgage for the balance of the purchase price for a term not to exceed five (5) years payable entirely upon the due date, or in

installments at a rate of interest not to be less than 5% per annum; the deed to be delivered not later than sixty (60) days after the date of the sale, any adjournment or adjournments of the delivery of the deed at the request of the purchaser, except where such adjournment or adjournments shall be necessitated by conditions for which the purchaser shall not have been responsible, to be only upon stipulation that the purchaser shall pay the maximum legal rate of interest for the period of such adjournment or adjournments upon the unpaid balance of the purchase price; the purchaser to pay all conveyance taxes, including the mortgage recording tax of the State of New York;

which said report and proposed form of communication have been approved by Counsel;

Resolved, That the Commission do, and it hereby does, approve the aforesaid report of the Real Estate Clerk, and that the proposed form of communication, as approved by Counsel, be, and the same hereby is, approved, and that the Chairman be, and he hereby is, authorized and directed, on behalf of the Commission, to sign the said form of communication.

The communication to the Commissioners of the Sinking Fund, as authorized by the above resolution, was as follows:

October 25, 1923.

COMMISSIONERS OF THE SINKING FUND
of The City of New York,
Municipal Building,
New York City, N. Y.
Sirs:

Your Honorable Board on September 27, 1923, (Item No. 226 of the printed calendar) referred back to this Commission for further consideration and action in accordance with law the matter of the proposed sale to Joseph Parascandola of a certain plot of vacant land having a frontage of 6 feet on Columbia Heights and a depth of 150 feet near the foot of Clark Street, in the Borough of Brooklyn, subject to certain rights of light, air and access to be retained by the City, for the sum of \$3,600, and corollary thereto the matter of the sale at public auction of the remainder plot of land having a frontage of 32 feet 6 inches and a depth of 150 feet, located between the parcel above referred to and the northerly line of Clark Street produced, the City to retain certain easements for rapid transit purposes, at a minimum or upset price of \$16,400. This action of your Honorable Board was predicated upon an adverse report of the Comptroller of The City of New York, which was in part as follows:

"The Commissioners of the Sinking Fund may authorize sales of real property only at public auction.

The Transit Commission has no power to settle and adjust claims for or against The City of New York; nor can judgment for or against the City be permitted or consented to by the Transit Commission or the Commissioners of the Sinking Fund. Such action must proceed upon the recommendation of the Corporation Counsel and the approval of the Comptroller."

The disposition of surplus property originally acquired for rapid transit purposes is governed by the express provisions of the Rapid Transit Act (being Chapter 4 of the Laws of 1891 as amended). There is no provision in this Act limiting the Commissioners of the Sinking Fund of The City of New York or the Transit Commission to sales at public auction only, and, in the opinion of this Commission, such a limitation is not even implied. The Commissioners of the Sinking Fund of The City of New York have from time to time authorized the sale of property, such as this, at private sale, and the Commissioners of the Sinking Fund of The City of New York, among whom was the present Comptroller of The City of New York, authorized the sale of the largest parcel of such property ever sold by The City of New York, to wit, the site of what was known as the Grand Union Hotel, at the price of \$2,900,000, after the plot had failed of a sale at public auction at the upset price of \$2,800,000, and conveyance was completed under such authorization by Transit Construction Commissioner John H. Delaney, and a reputable title company issued a title insurance policy, the authority of the Commissioners of the Sinking Fund of The City of New York and of the Transit Construction Commissioner in the matter not having been questioned.

As to the second objection in the Comptroller's report above quoted that the Transit Commission and the Commissioners of the Sinking Fund of The City of New York are

limited with respect to the settlement and adjustment of claims for or against The City of New York, it should be understood that the fact that the proposed sale to Joseph Parascandola would accomplish an end to litigation was not considered an element entering into the value of the land to be sold. The proposed sale was judged solely on its merits as a real estate proposition by parties of requisite knowledge and experience in such matters. It is the duty of the Transit Commission, with the consent of your Honorable Board, to dispose of such property and the fact that the proposed disposition of this particular property would result in an end of pending litigation with an apparent saving to The City of New York was, and is, a strong reason for severing the plot proposed to be sold to Joseph Parascandola and selling it separately from the balance of the parcel, the whole of which was put up at public auction and failed of sale.

The Commission, therefore, is of the opinion that its action with regard to this property has been strictly in accordance with law and again respectfully requests that your Honorable Board approve the sale of the parcel to Joseph Parascandola upon the terms and at the upset price set forth in its communication of December 29, 1922, referred to on the printed calendar of the meeting of your Honorable Board of September 27, 1923, in Item No. 226.

With regard to the remainder parcel, the sale of which at public auction at an upset price of \$16,400 your Honorable Board was requested to approve in the aforesaid communication of December 29, 1922, please be advised that this Commission has approved and submits for the consideration and approval of your Honorable Board the following general terms of sale, to wit:

The highest bidder at the time and place of sale shall sign a memorandum of his purchase and shall deposit a sum equivalent to 10% of the upset price; shall at the time of the delivery of the deed make a further payment equivalent to the difference between 10% of the upset price and 25% of his bid and execute a purchase money bond and mortgage for the balance of the purchase price for a term not to exceed five (5) years payable entirely upon the due date, or in installments at a rate of interest not to be less than 5% per annum; the deed to be delivered not later than sixty (60) days after the date of the sale, any adjournment or adjournments of the delivery of the deed at the request of the purchaser, except where such adjournment or adjournments shall be necessitated by conditions for which the purchaser shall not have been responsible, to be only upon stipulation that the purchaser shall pay the maximum legal rate of interest for the period of such adjournment or adjournments upon the unpaid balance of the purchase price; the purchaser to pay all conveyance taxes, including the mortgage recording tax of the State of New York.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1444—R. T. 7489

Route No. 31—Report by Real Estate Clerk Recommending Resubmission of Request to Commissioners of Sinking Fund for Sale of Surplus Property on Westerly Side of Linwood Street, between New Lots and Hegeman Avenues, Borough of Brooklyn, at Upset Price of \$12,000—Approval Resolution—Communication to Commissioners of Sinking Fund

A report was presented from the Real Estate Clerk, dated October 15, 1923, recommending the resubmission of a request to the Commissioners of the Sinking Fund for the sale at public auction of surplus property on the westerly side of Linwood Street, between New Lots and Hegeman Avenues, Borough of Brooklyn, at the upset price of \$12,000.

The following resolution was adopted:

Whereas, The Transit Commission, under date of July 13, 1922, requested the approval of the Commissioners of the Sinking Fund of The City of New York of the sale of a parcel of vacant land located on the westerly side of Linwood Street between New Lots and Hegeman Avenues, Borough of Brooklyn, at the upset price of \$12,000 upon such conditions otherwise as the Transit Commission should deem to be in the interest of The City of New York; and

Whereas, The Commissioners of the Sinking Fund at their meeting on September 27, 1923 (See Item No. 224 on the printed calendar for that date) referred back to the Commission this matter with the suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter might again be submitted to the Commissioners of the Sinking Fund of The City of New York for their approval; and

Whereas, The Real Estate Clerk, under date of October 15, 1923, has reported upon this matter, stating that in his opinion the course suggested by the Commissioners of the Sinking Fund of The City of New York, even though not required by the provisions of the Rapid Transit Act, should be approved for the reasons (1) that terms of sale may be, and frequently are, elements in the determination of a fair upset price and (2) that joint approval of identical essential terms by the Commissioners of the Sinking Fund of The City of New York and by the Transit Commission should have the effect of strengthening the chain of title as between The City of New York and the purchaser of property of this character, in which opinion Counsel has concurred; submitting a form of communication to the Commissioners of the Sinking Fund;

Resolved, That the Commission do, and it hereby does, approve the suggestion of the Commissioners of the Sinking Fund of The City of New York and that it do, and hereby does, approve the following essential terms of sale for the sale at public auction of the parcel of vacant land above referred to, the communication of the Commission to the Commissioners of the Sinking Fund of The City of New York of July 13, 1922, being in all other respects reaffirmed:

The highest bidder at the time and place of sale shall sign a memorandum of his purchase and shall deposit a sum equivalent to 10% of the upset price, shall at the time of the delivery of the deed make a further payment equivalent to the difference between 10% of the upset price and 25% of his bid and execute a purchase money bond and mortgage for the balance of the purchase price for a term not to exceed five (5) years payable entirely upon the due date, or in installments at a rate of interest not to be less than 5% per annum; the deed to be delivered not later than sixty (60) days after the date of the sale, any adjournment or adjournments of the delivery of the deed at the request of the purchaser, except where such adjournment or adjournments shall be necessitated by conditions for which the purchaser shall not have been responsible, to be only upon stipulation that the purchaser shall pay the maximum legal rate of interest for the period of such adjournment or adjournments upon the unpaid balance of the purchase price; the purchaser to pay all conveyance taxes, including the mortgage recording tax of the State of New York;

that the form of communication to the Commissioners of the Sinking Fund of The City of New York, as approved by Counsel, be, and the same hereby is, approved, and that the Chairman be, and he hereby is, authorized and directed to sign the said form of communication in its behalf.

The communication to the Commissioners of the Sinking Fund, as authorized by the above resolution, was as follows:

October 25, 1923.

COMMISSIONERS OF THE SINKING FUND,
of The City of New York,
Municipal Building,
New York City, N. Y.
Sirs:

Your Honorable Board at its meeting on September 27, 1923, (See Item No. 224 on the printed calendar for that date) referred back to this Commission the matter of the proposed sale at public auction of a certain parcel of vacant land on the westerly side of Linwood Street between New Lots and Hegeman Avenues, Borough of Brooklyn, at not less than the upset price of \$12,000, with the suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter may be again submitted to your Honorable Board for its approval. While such a course is apparently not required by the provisions of the Rapid Transit Act, which govern matters of this character, and while such a course has not heretofore been in practice, it is nevertheless good public policy for the reasons principally that such terms may, and quite frequently do, enter as elements in the determination of a fair upset price and joint approval of identical

essential terms by your Honorable Board and this Commission should have the effect of strengthening the chain of title as between The City of New York and the purchase of property of this character. The Commission has, therefore, by resolution of this date adopted the following terms of sale to govern the sale at public auction of the property above referred to, reaffirming in other respects the substance of its communication to your Honorable Board, dated July 13, 1922:

The highest bidder at the time and place of sale shall sign a memorandum of his purchase and shall deposit a sum equivalent to 10% of the upset price, shall at the time of the delivery of the deed make a further payment equivalent to the difference between 10% of the upset price and 25% of his bid and execute a purchase money bond and mortgage for the balance of the purchase price for a term not to exceed five (5) years payable entirely upon the due date, or in installments at a rate of interest not to be less than 5% per annum; the deed to be delivered not later than sixty (60) days after the date of the sale, any adjournment or adjournments of the delivery of the deed at the request of the purchaser, except where such adjournment or adjournments shall be necessitated by conditions for which the purchaser shall not have been responsible, to be only upon stipulation that the purchaser shall pay the maximum legal rate of interest for the period of such adjournment or adjournments upon the unpaid balance of the purchase price; the purchaser to pay all conveyance taxes, including the mortgage recording tax of the State of New York.

The Commission requests that your Honorable Board reconsider this matter and authorize the sale of the parcel of land in question at not less than the upset price of \$12,000 upon the terms set forth in the communication of July 13, 1922, as supplemented by the foregoing terms. A certified copy of the resolution of the Commission of this date with regard to this matter is transmitted herewith.

Very truly yours,
 GEORGE McANENY,
 Chairman.

1445—R. T. 7489

Route No. 31—Report by Real Estate Clerk Recommending Resubmission of Request to Commissioners of Sinking Fund for Sale of Surplus Property on Easterly Side of Elton Street, between New Lots and Hegeman Avenues, Borough of Brooklyn, at Upset Price of \$9,900—Approval Resolution—Communication to Commissioners of Sinking Fund

A report was presented from the Real Estate Clerk, dated October 15, 1923, recommending the resubmission of a request to the Commissioners of the Sinking Fund, for the sale at public auction of surplus property on the easterly side of Elton Street, between New Lots and Hegeman Avenues, Borough of Brooklyn, at the upset price of \$9,900.

The following resolution was adopted:

Whereas, The Transit Commission, under date of July 13, 1922, requested the approval of the Commissioners of the Sinking Fund of The City of New York of the sale of a parcel of vacant land located on the easterly side of Elton Street between New Lots and Hegeman Avenues, Borough of Brooklyn, at the upset price of \$9,900 upon such conditions otherwise as the Transit Commission should deem to be in the interests of The City of New York; and

Whereas, The Commissioners of the Sinking Fund at their meeting on September 27, 1923 (See Item No. 225 on the printed calendar for that date) referred back to the Commission this matter with the suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter might again be submitted to the Commissioners of the Sinking Fund of The City of New York for their approval; and

Whereas, The Real Estate Clerk, under date of October 15, 1923, has reported upon this matter, stating that in his opinion the course suggested by the Commissioners of the Sinking Fund of The City of New York, even though not required by the provisions of the Rapid Transit Act, should be approved for the reasons (1) that terms of sale may be, and frequently are, elements in the determination of a fair upset price and

(2) that joint approval of identical essential terms by the Commissioners of the Sinking Fund of The City of New York and by the Transit Commission should have the effect of strengthening the chain of title as between The City of New York and the purchaser of property of this character, in which opinion Counsel has concurred, submitting a form of communication to the Commissioners of the Sinking Fund;

Resolved, That the Commission do, and it hereby does, approve the suggestion of the Commissioners of the Sinking Fund of The City of New York and that it do, and hereby does, approve the following essential terms of sale for the sale at public auction of the parcel of vacant land above referred to, the communication of the Commission to the Commissioners of the Sinking Fund of The City of New York of July 13, 1922, being in all other respects reaffirmed:

The highest bidder at the time and place of sale shall sign a memorandum of his purchase and shall deposit a sum equivalent to 10% of the upset price, shall at the time of delivery of the deed make a further payment equivalent to the difference between 10% of the upset price and 25% of his bid and execute a purchase money bond and mortgage for the balance of the purchase price for a term not to exceed five (5) years payable entirely upon the due date, or in installments at a rate of interest not to be less than 5% per annum; the deed to be delivered not later than sixty (60) days after the date of the sale, any adjournment or adjournments of the delivery of the deed at the request of the purchaser, except where such adjournment or adjournments shall be necessitated by conditions for which the purchaser shall not have been responsible, to be only upon stipulation that the purchaser shall pay the maximum legal rate of interest for the period of such adjournment or adjournments upon the unpaid balance of the purchase price; the purchaser to pay all conveyance taxes, including the mortgage recording tax of the State of New York;

that the form of communication to the Commissioners of the Sinking Fund of The City of New York, as approved by Counsel, be, and the same hereby is, approved, and that the Chairman be, and he hereby is, authorized and directed to sign the said form of communication in its behalf.

The communication to the Commissioners of the Sinking Fund, as authorized by the above resolution, was as follows:

October 25, 1923.

COMMISSIONERS OF THE SINKING FUND,
of The City of New York,
Municipal Building,
New York City, N. Y.
Sirs:

Your Honorable Board at its meeting on September 27, 1923, (See Item No. 225 on the printed calendar for that date) referred back to this Commission the matter of the proposed sale at public auction of a certain parcel of vacant land on the easterly side of Elton Street between New Lots and Hegeman Avenues, Borough of Brooklyn, at not less than the upset price of \$9,900, with the suggestion that whatever terms and conditions are to be attached to the sale should be the subject of specification in the action of the Transit Commission, whereupon the matter may be again submitted to your Honorable Board for its approval. While such a course is apparently not required by the provisions of the Rapid Transit Act, which govern matters of this character, and while such a course has not heretofore been in practice, it is nevertheless good public policy for the reasons principally that such terms may, and quite frequently do, enter as elements in the determination of a fair upset price and joint approval of identical essential terms by your Honorable Board and this Commission should have the effect of strengthening the chains of title as between The City of New York and the purchaser of property of this character. The Commission has, therefore, by resolution of this date adopted the following terms of sale to govern the sale at public auction of the property above referred to, reaffirming in other respects the substance of its communication to your Honorable Board, dated July 13, 1922.

The highest bidder at the time and place of sale shall sign a memorandum of his purchase and shall deposit a sum equivalent to 10% of the upset price, shall at the time of the delivery of the deed make a further payment equivalent to the difference between 10% of the upset price and 25% of his bid and execute a purchase money bond and mortgage for the balance of the purchase price for a term not to exceed five (5) years

payable entirely upon the due date, or in installments at a rate of interest not to be less than 5% per annum; the deed to be delivered not later than sixty (60) days after the date of the sale, any adjournment or adjournments of the delivery of the deed at the request of the purchaser, except where such adjournment or adjournments shall be necessitated by conditions for which the purchaser shall not have been responsible, to be only upon stipulation that the purchaser shall pay the maximum legal rate of interest for the period of such adjournment or adjournments upon the unpaid balance of the purchase price; the purchaser to pay all conveyance taxes, including the mortgage recording tax of the State of New York.

The Commission requests that your Honorable Board reconsider this matter and authorize the sale of the parcel of land in question at not less than the upset price of \$9,900 upon the terms set forth in the communication of July 13, 1922, as supplemented by the foregoing terms. A certified copy of the resolution of the Commission of this date with regard to this matter is transmitted herewith.

Very truly yours,
 GEORGE McANENY,
 Chairman.

Contract No. 3 and Elevated Extension Certificate—Proposed Agreement with Interborough Rapid Transit Company for Selection of Hon. Abel E. Blackmar to Succeed Late Hon. Luke D. Stapleton as Third Arbitrator in Proceedings with Respect to Operating Expenses and Classification and Amount of Depreciation—Approval Resolution

The following resolution was adopted:

Counsel presented the following proposed agreement between the Transit Commission, acting for and on behalf of The City of New York, and Interborough Rapid Transit Company:

Agreement made this _____ day of _____, 1923, between the Transit Commission, acting for and on behalf of The City of New York, party of the first part, and Interborough Rapid Transit Company, a domestic corporation in The State of New York, party of the second part.

Whereas, Heretofore and on or about the 5th day of April, 1921, the parties hereto, pursuant to the provisions of Articles XXVII and XXX of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company, known as Contract No. 3, did agree upon and select Honorable Luke D. Stapleton of New York City, New York, as Third Arbitrator to act in the Arbitration in regard to certain matters in controversy between the parties hereto arising upon the objections dated November 24, 1920 and January 28, 1921 of the Transit Construction Commissioner (predecessor of the Transit Commission) in and by the notice given by the said Transit Construction Commissioner to said Interborough Rapid Transit Company dated March 3, 1921; and

Whereas, By agreement dated June 13, 1922, pursuant to the provisions of Article XXX of said Contract No. 3 and pursuant also to the provisions of Article XVI of the certificate dated March 19, 1913 for Elevated Extensions granted to said Interborough Rapid Transit Company by the Public Service Commission for the First District, the parties hereto did agree upon and select Honorable Luke D. Stapleton of New York City, New York, as Third Arbitrator to act in the Arbitration with regard to certain matters in controversy between the parties hereto arising upon the failure of the parties to determine and agree upon the classification and amount of depreciation and excess maintenance in accordance with subdivisions 4 and 5 of Article XLIX of said Contract No. 3 and subdivisions 4 and 5 of Article XII of said Elevated Extension Certificate as submitted to Arbitration in and by the notice given by the said Transit Construction Commissioner to said Interborough Rapid Transit Company by letter dated March 12, 1921; and

Whereas, It is provided in said Article XXX of said Contract No. 3 and said Article XVI of said Elevated Extension Certificate that in case any vacancy shall at any time occur by reason of the death, resignation or inability to serve

of any Arbitrator, his successor shall be nominated in the same manner and within the same times as therein provided for in case of the original nomination of such Arbitrator; and

Whereas, The position of Third Arbitrator in said pending Arbitration proceedings hereinbefore enumerated has become vacant by the death of the said Honorable Luke D. Stapleton and the time within which the parties hereto shall agree upon the successor to the said Honorable Luke D. Stapleton as such Third Arbitrator in said Arbitration proceedings has been extended by stipulation from time to time to and including October 31, 1923,

Now, Therefore, The parties hereto pursuant to the provisions of Articles XXVII and XXX of Contract No. 3 and pursuant also to the provisions of Article XVI of said Elevated Extension Certificate have selected and agreed upon and do hereby select and agree upon Honorable Abel E. Blackmar of the Borough of Brooklyn, City and State of New York, as successor to the said Honorable Luke D. Stapleton, deceased, as Third Arbitrator in the said Arbitration proceedings hereinbefore enumerated.

In Witness Whereof, This agreement has been executed by the Transit Commission and its official seal has been hereto affixed and attested by its Secretary and these presents signed by its Chairman all the day and year first above written.

Resolved, That said proposed agreement so submitted be and the same hereby is approved and that the Chairman and Secretary of this Commission be and they hereby are authorized and directed to execute and deliver said proposed agreement hereby approved.

1447—R. T. 6080

Fourth Avenue Subway—Application by Isidor Kupfershmid for Permission to Occupy Two Small Areas in the Concession Held by Barnett Budoff in the Property on the South Side of Fulton Street between Rockwell Place and Ashland Place, Borough of Brooklyn—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Isidor Kupfershmid, dated October 13, 1923, requesting permission to occupy two small areas in the concession now held by Barnett Budoff in the property on the south side of Fulton Street between Rockwell Place and Ashland Place, Borough of Brooklyn, so as to comply with the requirements of the Fire Department for fire exits to the premises at Nos. 77-81 Rockwell Place.

A report was presented from the Real Estate Clerk, dated October 18, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Isidor Kupfershmid having a place of business at No. 118 Delancey Street, Borough of Manhattan, has by application dated October 13, 1923, requested permission to occupy the following space now contained in the concession let by the Commission to Barnett Budoff in the property on the southerly side of Fulton Street between Rockwell Place and Ashland Place, Borough of Brooklyn, to wit: (A) A rectangular space having a common center with a fire exit door on the easterly wall of the main room of the restaurant building known as Nos. 77-81 Rockwell Place, eight (8) feet wide and twenty (20) feet long measured from east to west. (D) Approximately 170 square feet of floor space in the small one-story building on the rear of what was originally known as Lot No. 20 or No. 592 Fulton Street; agreeing to pay \$37.00 per month rental beginning October 1, 1923, to vacate on fifteen (15) days' notice and to other terms such as are usually contained in similar applications; and

Whereas, The said Barnett Budoff has agreed to this variation in the space occupied by his concession, upon the understanding that his rental shall be reduced by an amount corresponding to the rental to be paid by the said Isidor Kupfershmid beginning November 1, 1923; and

Whereas, The Real Estate Clerk, under date of October 18, 1923, has reported

upon this application stating that the main purpose of this application is to comply with a requirement of the Fire Department, recommending that this application be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do and it hereby does, approve the aforesaid application, and that the Secretary be, and he hereby is, authorized and directed to subscribe such approval on said application; and it is further

Resolved, That the adjustment of rental with the said Barnett Budoff be, and the same hereby is, approved.

1448—R. T. 6080

Contract No. 3—Application by A. Z. Zandman for Permission to Maintain Lunch Wagon at the Northeasterly Corner of West 145th Street and Lenox Avenue, Borough of Manhattan—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from A. Z. Zandman, dated October 1, 1923, requesting permission to maintain a lunch wagon at the northeasterly corner of West 145th Street and Lenox Avenue, Borough of Manhattan, at a rental of \$35.00 per month beginning November 1, 1923, \$40.00 per month beginning May 1, 1924, and \$50.00 per month beginning November 1, 1924.

A report was presented from the Real Estate Clerk dated October 18, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, A. Z. Zandman of No. 366 East 161st Street, Borough of The Bronx, has by application dated October 1, 1923, requested permission to maintain a lunch wagon at the northeasterly corner of West 145th Street and Lenox Avenue, Borough of Manhattan, agreeing to pay \$35.00 per month rental beginning November 1, 1923, \$40.00 per month rental beginning May 1, 1924, and \$50.00 per month rental beginning November 1, 1924, to vacate on fifteen (15) days' notice and to the other usual terms contained in similar applications; and

Whereas, The Real Estate Clerk, under date of October 18, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Secretary be and he hereby is, authorized and directed to subscribe its approval upon said application.

1449—R. T. 7528

Route No. 18—Report by Acting Chief Engineer Recommending Establishment of Lump Sum Price for Removal of Switch and Crossing under Contract for Installation of Tracks at 239th Street Yard—Approval Resolution

A report was presented from the Acting Chief Engineer dated October 19, 1923, recommending the establishment of a lump sum price as described below, and the following resolution was adopted:

Whereas, The Acting Chief Engineer of the Transit Commission, in pursuance of Item No. 3000 of the contract dated November 24, 1922 between the City of New York, acting by the Commission, and Michael Del Balso, for the installation of tracks for the 239th Street Yard, Route No. 18, having, subject to the approval of the Commission, agreed with said contractor upon the following schedule item:

Item No. 3-X. For changes in track in the vicinity of portion No. 223 as follows:

- (a) Removal of double curved crossing, turnout connecting track 4A to 4B, all track on track 4A up to P. T. of curve, approximate station 610+85.
- (b) Reconstruction and readjustment of superelevation on main line track 4 and yard lead 4B so as to give 3 inches full elevation for entire length of curve, allowing 100 feet for run-off at each end.

- (c) Reconstruction and readjustment of superelevation on track 1B from existing turnout to 3 inches at P. T. of curve and 100 feet for run-off.
 - (d) Installation of new guard timber where necessary, and all other work necessary to bring finished track up to Commission's standards and specifications.
 - (e) Manufacture from City's materials now at 239th Street Yard, all additional bevel blocks required.
 - (f) Transportation of one 5-ton truckload of miscellaneous materials from Jerome Avenue Yard and one 5-ton truckload of miscellaneous materials from 38th Street Storeyard, Brooklyn, to the site of the work.
 - (g) Piling of special work and appurtenances on the structure as directed by the engineer.
- Existing timber deck to remain and recovered material to be used as far as practicable.

Resolved, That such action on the part of the Acting Chief Engineer be and hereby is approved.

1450—R. T. 7704

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Installation of Covers on Pipe Manholes between Upper and Lower Levels of Eastern Parkway Line—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated October 15, 1923, requesting approval to the installation of covers on pull pipe manholes between the upper and lower levels of the Eastern Parkway Rapid Transit Railroad, between Bergen Street and Utica Avenue, at an estimated cost of \$600.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer, dated October 20, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Construction of the Railroad, to be paid by the Interborough Rapid Transit Company as part of its contribution toward the cost of construction under Contract No. 3.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, Interborough Rapid Transit Company, by communication dated October 15, 1923, has submitted for the approval of this Commission its proposal to install covers on the ten inch and twelve inch pull pipe manholes between the upper and lower levels of the Eastern Parkway Rapid Transit Railroad between Bergen Street and Utica Avenue in the Borough of Brooklyn, and to charge the cost thereof as a part of its contribution toward the cost of Construction under said Contract No. 3; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission by communication dated October 20, 1923, have reported that the proposal involves the provision of 40 circular covers of various sizes and their installation in the floor on the upper level of the double deck duct manholes; that such manhole covers were inadvertently omitted in the original construction of this line; that the covers are necessary to insure safety in the operation of the railroad; that the estimated cost of \$600 is not unreasonable and recommend the approval of the proposal of Interborough Rapid Transit Company so submitted as aforesaid; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated October 22, 1923, recommends that the cost thereof be classified as Construction of the Railroad, payable by said Interborough Rapid Transit Company as part of its contribution toward the cost of construction under said Contract No. 3,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposal of Interborough Rapid Transit Company so submitted be and the same hereby is approved, the cost of such work to be performed as aforesaid to be charged to the contribution of said Interborough Rapid Transit Company toward the cost of construction as defined and provided in said Contract No. 3.

1451—R. T. 7565

Routes Nos. 16 & 18—Application by Interborough Rapid Transit Company for Approval of Installation of Heating and Lighting Equipment in Kingsbridge Road Station and 219th Street Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated September 26, 1923, requesting approval to the installation of heating and lighting equipment in the waiting rooms at the Kingsbridge Road Station of the Jerome Avenue Line—Route No. 16, and the 219th Street Station of the White Plains Road Line—Route No. 18, at an estimated cost of \$450.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated October 10, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment for the Railroad and assigning Work Order No. DL-5-A to the Kingsbridge Road Station and Work Order No. DW-1-A to the 219th Street Station.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, and particularly Articles LXX and LXXI thereof, this Commission by resolution adopted February 27, 1923, directed said Interborough Rapid Transit Company, as Lessee under said contract to construct additional waiting rooms on the northbound platform of the 219th Street Station of the White Plains Road Line of the Railroad described in said Contract No. 3 and the northbound platform of the Kingsbridge Road Station of the Jerome Avenue Line of said Railroad, such work to be performed in accordance with an agreement thereafter entered into by this Commission, acting for The City of New York, and said Interborough Rapid Transit Company; and

Whereas, By communication dated September 26, 1923, Interborough Rapid Transit Company has requested the approval of this Commission to the installation of the following heating and lighting equipment in said two waiting rooms:

<i>219th Street Station</i>	Estimated Cost
3 sets 3 coil car heaters.....	\$75.00
6 lighting fixtures	30.00
60 ft. conduit and wiring.....	10.00
Track fuse switch clamp.....	10.00
Labor	125.00
	\$250.00
<i>Kingsbridge Road Station</i>	
2 sets 3 coil heaters.....	\$50.00
4 lighting fixtures	20.00
60 ft. conduit and wiring.....	10.00
Track fuse switch clamp.....	10.00
Labor	110.00
	\$200.00

; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated October 10, 1923, reported that the said equipment is necessary and the estimated cost is reasonable and recommend the approval of said proposal; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated October 11, 1923, has recommended that the cost of such work be classified as Additional Equipment for the Railroad and that Work Order No. DL-5-A be assigned to the Kingsbridge Road Station of the Jerome Avenue Line and Work Order No. DW-1-A be assigned to the 219th Street Station of the White Plains Road Line,

Resolved, That said reports and recommendations be and the same hereby are approved, that the said proposal of Interborough Rapid Transit Company of September 26, 1923 as aforesaid be and the same hereby is approved, the cost of such work to be classified as Additional Equipment for the Railroad as described in said Contract No. 3, and as to which this Commission assigns in so far as it applies to the work on the Kingsbridge Road Station of the Jerome Avenue Line Work Order No. DL-5-A and as to which this Commission assigns in so far as it applies to the 219th Street Station of the White Plains Road Line aforesaid Work Order No. DW-1-A.

1452—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Lockers and Shelving for 180th Street Inspection Barn—Report by Engineer of Equipment and Operation and Acting Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated October 5, 1923, requesting approval of a proposed purchasing agent's order directed to Lyon Metallic Manufacturing Company for furnishing lockers and shelving for use in the 180th Street Inspection Barn at a total cost of \$3,518.63.

A report was presented from the Engineer of Equipment and Operation and the Acting Chief Engineer dated October 17, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and Interborough Rapid Transit Company, known as Contract No. 3, said Interborough Rapid Transit Company, by communication dated October 5, 1923 has submitted for the approval of this Commission a proposed purchasing agent's order dated October 5, 1923 directed to Lyon Metallic Manufacturing Company for the following:

- 15 Racks, No. 1 each, 9' 1¼" long, consisting of three 36" units.
- 7 Racks, No. 2 each, 6' 1¼" long, consisting of two 36" units.
- 6 Racks, No. 3 each, 5' 1¼" long, consisting of one 36" unit and one 24" unit.
- 3 Racks, No. 3 each, 5' 1¼" long, consisting of one 36" unit and one 24" unit, each unit equipped with double doors locking at the center, having 48" high doors above the counter level and 36" high doors below the counter level.
- 3 Racks, No. 4 each, 9' 1¼" long, consisting of three 36" units.
- 1 Rack, No. 6 each, 5' 1¼" long, consisting of one 36" unit and one 24" unit, each unit equipped with double doors locking at the center.

1 Rack, No. 7 Glass

1 Rack, No. 8 Sign

145 Lockers, 18" x 18" x 72" "Durand" type L. S. in rows of four or similar type.

Total Cost: \$3,518.63, delivered and erected.

Shipment: three to four weeks.

Terms: 1% ten days.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 503"; and

Whereas, The Engineer of Equipment and Operation and the Acting Chief Engineer of this Commission, by communication dated October 17, 1923 has reported the following bids were received for such material

Lyon Metallic Manufacturing Co.....	\$3,518.63
Durand Steel Locker Co.....	3,860.50

that the award is to the lowest bidder whose materials are satisfactory and have been used before by Interborough Company in similar installations; that the price is reasonable; that the quantities ordered are necessary for the present requirements of the 180th Street inspection barn of the White Plains Road Line and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated October 19, 1923 has recommended that such material be classified as Equipment of the Railroad as described in said Contract No. 3.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved, and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of the Commission made part of said proposed purchasing agent's order, such material to be classified as Equipment of the Railroad as described in said Contract No. 3.

1453—R. T. 7109

Contract No. 3—Application by Interborough Rapid Transit Company for Extension of Lease of Premises beneath Structure of Third Avenue Elevated Line between 137th and 138th Streets, Borough of The Bronx—Reports by Engineer of Equipment and Operation and Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated September 13, 1923, requesting approval to the extension of the lease to David Rosenbaum of the premises beneath the structure of the Third Avenue Elevated Line between 137th and 138th Streets, Borough of The Bronx, for a period of five years from January 1, 1927, at a rental of \$4,000 per annum.

Reports were presented from the Engineer of Equipment and Operation dated October 5, 1923, and from the Real Estate Clerk dated October 23, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Interborough Rapid Transit Company by application dated September 13, 1923, has requested approval of an extension for five years from January 1, 1927, of a lease to David Rosenbaum, which lease is now held by assignment by David Kaplan, of a certain plot of land beneath the structure of the Third Avenue Railroad of the Manhattan Railway Company, between 137th and 138th Streets, Borough of The Bronx, upon the same terms and conditions as are contained in the existing lease, except that the annual rental is increased from \$3,500 per annum to \$4,000 per annum; such rental to be credited to Revenue under the Interborough Certificate; and

Whereas, The Real Estate Clerk, under date of October 23, 1923, has reported that the purpose of this extension is to assure a reasonable term of possession to the tenant who contemplates costly alterations on the premises, recommending that the lease be approved, in which recommendation Counsel has concurred; and

Whereas, The Engineer of Equipment and Operation, under date of October 5, 1923, has reported upon this application recommending that it be approved, which recommendation has also been approved by the Chief Engineer;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Chairman be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said application.

1454—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Ventilating Equipment in Shafts of Fourteenth Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 3, 1923, requesting approval of a proposed purchasing agent's order directed to the Wagner Engineering Company, Inc., for installing subway ventilating equipment in the Brooklyn and Manhattan Shafts of the Fourteenth Street-Eastern Line at a total cost of \$92,975.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated October 13, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission for the First District and New York Municipal Railway Corporation known as Contract No. 4, New York Rapid Transit Corporation as successor to the rights and obligations under said Contract No. 4, has by communication dated October 3, 1923, submitted for the approval of this Commission a proposed purchasing agent's order dated October 2, 1923 directed to Wagner Engineering Co., Inc., for the following:

Furnish labor, material, etc. necessary to make a complete installation of Subway Ventilating Equipment, in running order, in both the Brooklyn and Manhattan Shafts of the Sub-River Tunnels of the 14th Street-Eastern Line, as indicated upon our Drawings C-5682, C-5683, C-5684, C-5685, C-5686, C-5687, C-5325, C-5369, C-5370, C-5371, C-5372, C-5373, A-1200, A-1763, A-2259, A-2471, and as called for in our specifications dated August 9th, 1923, for the following lump sum prices, in accordance with your proposal dated August 24th, 1923.

Complete Installation in the Manhattan Shaft for the sum of \$43,125.00
 Complete Installation in the Brooklyn Shaft for the sum of 49,850.00
 Faithful Performance Bond in the sum of \$25,000.00 required.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 372"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission have by communication dated October 13, 1923, reported that the following bids were received for such work:

	Manhattan Shaft	Brooklyn Shaft	Total
Wagner Engineering Co. Inc.....	\$43,125	\$49,850	\$92,975
Metal Products Corp.....	54,620	59,000	113,620
Hatzel and Buehler Co. Inc.....	52,373	64,890	117,263
Charles Hartman Company	Could not bid		
York Heating and Ventilating Corp.....	Could not bid		
Lustbader Construction Company.....	Could not bid		
Buffalo Forge Company	Could not bid		

that the equipment is necessary for the safe operation of the Railroad; that the plans have been approved and the specifications are satisfactory; that the cost is the best obtainable; that the said Wagner Engineering Co., Inc. is capable of doing the work

and recommends that the said proposed purchasing agent's order so submitted be approved; and

Whereas, By endorsement dated October 17, 1923 the Auditor of Rapid Transit Costs has recommended that such work be classified as Equipment of the Railroad as described in said Contract No. 4;

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, such work to be classified as Equipment of the Railroad as described in said Contract No. 4.

1455—R. T. 7661

Route No. 78—Report by Chief Engineer Recommending Construction of One Emergency Footwalk for Central Park West Route—Approved

A report was presented from the Chief Engineer dated October 13, 1923, recommending approval of the construction of only one emergency footwalk for Route No. 78 and that the footwalk be constructed on the westerly side of the subway. Upon motion duly seconded and adopted the report was approved.

1456—R. T. 6998

Broadway Elevated Line—Report by Acting Chief Engineer Recommending Designation of Station at Williamsburg Bridge Plaza—Approved

A report was presented from the Acting Chief Engineer dated October 16, 1923, recommending that the station of the Broadway Elevated Line to be located at the Williamsburg Bridge Plaza be designated as the Williamsburg Bridge Plaza Station.

Upon motion duly seconded and adopted the report was approved.

1457—R. T. 7668

Contracts Nos. 3 and 4—Reports by Real Estate Clerk as to Fire Risks under Elevated Structures of Interborough Rapid Transit Company and New York Rapid Transit Corporation Systems—Memorandum by Chairman Suggesting Examination Be Made and Conditions Be Corrected—Referred to Acting Chief Executive Officer

Reports were presented from the Real Estate Clerk dated May 28, 1923 and June 27, 1923, as to conditions under the elevated structures of the Interborough Rapid Transit Company and New York Rapid Transit Corporation Systems with relation to fire risks.

A memorandum was presented from the Chairman dated October 4, 1923, suggesting that an examination be made by representatives from the Commission, the railroad companies and Fire Department with a view toward determining where actual danger exists either from fire or smoke risks and that the Commission undertake to correct any conditions so far as may be within its power on the receipt of the report of the results of such investigation.

The matter was referred to the Acting Chief Executive Officer.

1458—R. T. 6595

Contract No. 4—Statements from New York Rapid Transit Corporation of Results of Operations for Months of June, July and August, 1923, and Status of Maintenance and Depreciation Funds—Referred to Chief Accountant

The Commission referred to the Chief Accountant three communications dated October 23, 1923, from the New York Rapid Transit Corporation by Howard Abel, Comptroller, submitting statements of Results of Operation for the months of June, July and August, 1923, and the status of the Maintenance and Depreciation Funds, under Contract No. 4.

1459—R. T. 3003

Contracts Nos. 1 and 2—Communication from Department of Finance Requesting Statement of Rental Due City from Interborough Rapid Transit Company, for Quarter Ended September 30, 1923—Copy of Reply Approved

A communication was presented from the Department of Finance by Arthur J. Philbin, Deputy Comptroller, dated October 10, 1923, requesting a statement of rental due the City from the Interborough Rapid Transit Company, for the quarter ended September 30, 1923, under the contracts for the Manhattan-Bronx and Brooklyn-Manhattan Rapid Transit Railroads.

A copy of the following reply was approved:

October 23, 1923.

HON. CHARLES L. CRAIG, Comptroller,
Department of Finance,
Municipal Building,
New York City.

Rentals under Contracts Nos. 1 and 2 for Quarterly Period Ended September 30, 1923

Dear Sir:

Receipt is acknowledged of a communication dated October 10, 1923, from Mr. A. J. Philbin, Deputy Comptroller, (Reference "Accountancy") transmitting "copies of statements and letter sent to the Interborough Rapid Transit Company with respect to the amount of rental payable by said Lessee Company for the quarterly period ended September 30, 1923, under the provisions of the contracts for operation of the Manhattan-Bronx and the Brooklyn-Manhattan Rapid Transit Railroads (Contracts Nos. 1 and 2)", and requesting that your Department be furnished with the usual statements for said quarterly period, containing the information classified and arranged as in the quarterly statements heretofore prepared.

The statements are reported by our Bureau of Accounting and Valuations to be correct except in the particulars to which the attention of your office has been directed in previous communications on this subject. In the tabulation given below comparison is made between the rental as computed by your Department and as adjusted to conform with the records of the Transit Commission. The comparison shows your rental figures for Contract No. 1 to be excessive in the amount of \$971.11.

	Department of Finance		Transit Commission

If you desire, I shall be pleased to designate a representative of the Transit Commission to confer with your Department, with a view to bringing this matter to a conclusion.

Very truly yours,
JAMES B. WALKER,
Secretary.

1460—Case No. 2416

Manhattan and Queens Traction Corporation—Zone Fares—Order Modifying Order of December 7, 1920 and Granting Special Permission Adopted

The Secretary presented two communications dated October 18, 1923 and October 20, 1923 from B. Waller Duncan, General Manager for the Receivers of the Manhattan and Queens Traction Corporation, requesting a modification of the Order in Case No. 2416 so as to extend Zone No. 1 from Grand Street, Elmhurst, to Old Mill Road, and put same into effect on November 1, 1923.

The Secretary also presented a report dated October 22, 1923, from the Chief of the Transit Bureau recommending the granting of the application.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2416 in the following form:

Present:

GEORGE McANENY,	} Commissioners.
Chairman,	
LEROY T. HARKNESS,	
JOHN F. O'RYAN,	

IN THE MATTER
of the
Application of William R. Begg and Arthur C. Hume,
as receivers of Manhattan and Queens Traction Corporation for an order under Section 49 of the Public Service Commission Law increasing the rate of fare.

CASE No. 2416.
ORDER MODIFYING ORDER OF
DECEMBER 7, 1920.
SPECIAL PERMISSION
No. 753.

William R. Begg and Arthur C. Hume, as receivers of Manhattan and Queens Traction Corporation, by B. Waller Duncan, General Manager, having made application to the Commission under date of October 18 and October 20, 1923 for permission to extend Zone 1 as described in the Order herein adopted December 7, 1920, and the Commission being of the opinion that said application should be granted, it is

Ordered, That said Order of December 7, 1920 be and it hereby is modified as to Paragraph I thereof so as to read as follows:

I. That zones shall be established by the said Manhattan and Queens Traction Corporation and William R. Begg and Arthur C. Hume as receivers of said Manhattan and Queens Traction Corporation, as follows:

Zone No. 1 shall extend from the Manhattan Terminal of said Manhattan and Queens Traction Corporation's lines to Old Mill Road, Elmhurst;

Zone No. 2 shall extend from Grand Street, Elmhurst, to the present terminal of said Manhattan and Queens Traction Corporation's lines at Jamaica, New York; and it is

Further Ordered, That permission be and hereby is granted to said receivers to put such new or supplementary or amendatory schedules showing the foregoing modifications into effect on November 1, 1923, two days after the filing of the same with the Commission as provided in Paragraph III of said Order of December 7, 1920.

Further Ordered, That this Order shall take effect at once.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1461—R. T. 7661

Routes Nos. 78-A and 78-B—Communication from Board of Estimate and Apportionment Fixing Date for Consideration of St. Nicholas Avenue and Central Park Routes—Filed

The following communication from the Board of Estimate and Apportionment was approved and ordered filed :

Franchises

October 19, 1923.

TRANSIT COMMISSION,
49 Lafayette Street,
New York City.

Gentlemen :

Your communications dated October 11, 1923, transmitting, for the approval and consent of this Board, resolutions adopted by your Commission determining and establishing routes and general plans of construction for two additional rapid transit railways in the Borough of Manhattan, known as—

(a) St. Nicholas Avenue, Broadway and Fort Washington Avenue Route.

(b) Central Park, Eighth Avenue and St. Nicholas Avenue Route.

were this day presented to the Board and, by resolutions duly adopted, October 26, 1923, was fixed as the date for consideration.

The communications were also referred to the Transit Conference Committee for report.

Respectfully,

JAMES MATTHEWS,
Assistant Secretary.

1462—R. T. 7681

Contract No. 3—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Contract for Enclosures to Third Addition to Shops at Lenox Avenue and 148th Street Yard and Authorizing Appropriation of \$948,773.10—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Statement as to Execution and Delivery of Original Contract—Communication and Contract Ordered Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on October 5, 1923, was ordered filed :

(Cal. No. 83)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated September 12, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with D. C. Serber for the construction of enclosure of the third addition to shops at the Lenox avenue and 148th street yard (under Contract No. 3), at an estimated cost of nine hundred and forty-eight thousand seven hundred and seventy-three dollars and ten cents (\$948,773.10); without waiving the contention of the City that chapter 134 of the Laws of 1921, is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be nine hundred and forty-eight thousand seven hundred and seventy-three dollars and ten cents (\$948,773.10), and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter and the requisition of the Transit Commission, dated September 12, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of The City of New York to an amount not exceeding nine hundred and forty-eight thousand seven hundred and seventy-three dollars and ten cents (\$948,773.10), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract with D. C. Serber; said issue of corporate stock to be in addition to the general appro-

apropriation of twenty-eight million two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1923, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3.

A true copy of resolution adopted by the Board of Estimate and Apportionment, October 5, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication from Arthur J. W. Hilly, Acting Corporation Counsel, dated October 22, 1923, returning the above mentioned contract, approved as to form, was also ordered filed. An original contract dated October 22, 1923, between the City of New York, acting by the Transit Commission and D. C. Serber, which had been executed on behalf of both parties and delivered on October 24, 1923, was also ordered filed.

1463—R. T. 7653

Agreement "CN"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Proposed Contract for Changes in Subway Structure and Construction of Ventilation Flue at West 32nd Street and Broadway and Authorizing Appropriation of \$28,810—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Statement as to Execution and Delivery of Original Contract—Communications and Contract Ordered Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on October 5, 1923, was ordered filed:

(Cal. No. 82)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated August 22, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with Slattery Engineering and Construction Company, Inc. (Agreement "CN"), for the making of changes in the subway structure at West 32d street and the construction of a ventilation flue at West 32d street and Broadway in the Broadway-Fourth Avenue Rapid Transit Railroad, Routes Nos. 4 and 36, Section No. 2, Borough of Manhattan, at a total estimated cost of twenty-eight thousand eight hundred and ten dollars (\$28,810), of which amount the sum of twenty-seven thousand nine hundred and ten dollars (\$27,910) is properly chargeable to corporate stock funds authorized for Rapid Transit Contract No. 4; without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty-seven thousand nine hundred and ten dollars (\$27,910); and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of the City of New York to an amount not exceeding twenty-seven thousand nine hundred and ten dollars (\$27,910), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract, said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000), made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4, and be it further

Resolved, That the Comptroller be and is hereby authorized to charge the balance of the estimated cost of said contract, namely, the sum of nine hundred dollars (\$900), against the tax notes appropriation authorized by the Board of Estimate and Apportionment on April 6, 1923, in the sum of one thousand dollars (\$1,000), for the changes in the subway incidental to the widening of West 32d street at the northeast corner of

Broadway, under the jurisdiction of the President, Borough of Manhattan (Code NTTC-6).

A true copy of resolution adopted by the Board of Estimate and Apportionment, October 5, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated October 15, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract approved as to form, was also ordered filed.

An original contract dated October 17, 1923, between the City of New York acting by the Transit Commission and Slattery Engineering and Construction Company, Inc., which contract had been executed on behalf of both parties and delivered on October 22, 1923, was also ordered filed.

1464—R. T. 7644

Agreement "CP"—Certified Copy of Resolution of Board of Estimate and Apportionment Consenting to Proposed Contract for Changes in Railroad Structure to Provide for Crossover on Section No. 5 of Route No. 8 and Authorizing Appropriation of \$47,147.75—Communication from Acting Corporation Counsel Returning Contract Approved as to Form—Statement as to Execution and Delivery of Original Contract—Communications and Contract Ordered Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on October 5, 1923, was ordered filed:

(Cal. No. 81)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated August 28, 1923, the Board of Estimate and Apportionment does hereby consent to the contract with David Levy for the making of changes in the railroad structure to provide for a crossover in that portion of the Fourteenth Street-Eastern Line, Route No. 8, Section No. 5, Bushwick avenue, Borough of Brooklyn (Agreement "CP"), at an estimated cost of forty-seven thousand one hundred and forty-seven dollars and seventy-five cents (\$47,147.75), without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be forty-seven thousand one hundred and forty-seven dollars and seventy-five cents (\$47,147.75), and be it further

Resolved, That the Comptroller be and he is hereby authorized to issue corporate stock of the City of New York to an amount not exceeding forty-seven thousand one hundred and forty-seven dollars and seventy-five cents (\$47,147.75), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the purposes of said contract; said issue of corporate stock to be charged as a subauthorization against the general appropriation of sixty million dollars (\$60,000,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 4.

A true copy of resolution adopted by the Board of Estimate and Apportionment, October 5, 1923.

JAMES MATTHEWS,
Assistant Secretary.

A communication dated October 15, 1923, from Arthur J. W. Hilly, Acting Corporation Counsel, returning the above mentioned contract, approved as to form, was also ordered filed.

An original contract dated October 17, 1923, between the City of New York, acting by the Transit Commission and David Levy, which contract had been executed on behalf of both parties and delivered on October 18, 1923, was also ordered filed.

Route No. 12, Sections Nos. 1, 1-A, 2 and 3—Certified Copy of Resolution of Board of Estimate and Apportionment Authorizing Appropriation of \$29,537.23 for Payment of Claim of Frederick Snare Corporation under Contract for Construction of Station Finish—Filed

The following certified copy of the resolution adopted by the Board of Estimate and Apportionment on October 5, 1923, was ordered filed:

(Cal. No. 80)

Resolved, That, pursuant to the requisition of the Transit Commission to this Board, dated August 20, 1923, the Board of Estimate and Apportionment does hereby consent to an appropriation of corporate stock in the sum of twenty-nine thousand five hundred and thirty-seven dollars and twenty-three cents (\$29,537.23), to provide for the payment of a claim of the Frederick Snare Corporation (the present name of the Snare and Triest Company, as changed by law), based upon alleged delay and obstruction caused to the claimant's work, under the contract of the said Snare and Triest Company for the construction of station finish for parts of the Broadway-Fourth avenue and Eastern Parkway Rapid Transit Railroad, known as Route No. 12, sections No. 1, 1-A, 2 and 3, which claim has been adjusted and approved in the Department of Finance in the said amount of twenty-nine thousand five hundred and thirty-seven dollars and twenty-three cents (\$29,537.23); without waiving the contention of the City that chapter 134 of the Laws of 1921 is unconstitutional and void; and be it further

Resolved, That the Board of Estimate and Apportionment does hereby prescribe that the limit to the proceeds of corporate stock available for said purpose shall be twenty-nine thousand five hundred and thirty-seven dollars and twenty-three cents (\$29,537.23), and be it further

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act, being chapter 4 of the Laws of 1891, as amended, the provisions of section 45 of the Greater New York Charter, and the requisition of the Transit Commission, dated August 20, 1923, the Comptroller be and he is hereby authorized to issue corporate stock of the City of New York to an amount not exceeding twenty-nine thousand five hundred and thirty-seven dollars and twenty-three cents (\$29,537.23), at such rate of interest as the Commissioners of the Sinking Fund shall prescribe, the proceeds to the amount of the par value thereof to be applied to the payment of said claim; said issue of corporate stock to be in addition to the general appropriation of twenty-eight million, two hundred thousand dollars (\$28,200,000) made by the Board of Estimate and Apportionment on March 18, 1913, and the additional general appropriations subsequently made thereto, for the purpose of providing funds to meet the City's obligations under Rapid Transit Contract No. 3, and to be credited to the fund entitled "CCM-322, Rapid Transit Construction Fund—Eastern Parkway, Sections 1, 1-A, 2 and 3."

A true copy of resolution adopted by the Board of Estimate and Apportionment, October 5, 1923.

JAMES MATTHEWS,
Assistant Secretary.

1466—R. T. 7666

Contract No. 1—Communication from Harlem Board of Commerce Requesting New Entrances and Exits at Broadway and 125th Street, Borough of Manhattan—Filed

A communication was presented from the Harlem Board of Commerce, dated October 19, 1923, submitting resolutions with respect to the construction of new

entrances and exits to the subway station about 100 feet south of 125th Street and Broadway.

The communication was ordered filed.

1467—R. T. 7661

Route No. 78—Communication from Parks and Playground Association Submitting Resolutions with Respect to Construction of Central Park West Route under Central Park—Filed

The Commission ordered filed a communication dated October 19, 1923, from the Parks and Playground Association, by Lulu Morton, Secretary, submitting resolutions favoring the construction of the Central Park West Route under Central Park, providing that the construction thereof will not interfere with the surface or use of the park, and opposing any construction which will encroach upon the park area or damage any of the trees and shrubbery.

For Comptroller,
E. BLUMENTHAL,
Auditor of Receipts.

1469

Fees Received During September, 1923—Transmitted to City Chamberlain

The Secretary stated that during the month of September, 1923, fees, etc., to the amount of \$217.10 and refunds of rental from rapid transit real estate to the amount of \$4,025, had been received. The Secretary was directed to transmit the same to the Chamberlain of The City of New York, said sum of \$217.10 to be accredited to the

General Fund of The City of New York and the sum of \$4,025 to be accredited to a Suspense Account (Real Estate and Rentals of the Transit Commission) in conjunction with other funds collected as rentals and proceeds of the sale of properties in the same proceeding and held available for the purposes of the Commission, as provided in the Rapid Transit Act.

1470

Employees' Calendar No. 172

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees:

Appointments—Barnett M. Bass, junior assistant, at \$125.08 per month, to take effect October 27, 1923; James J. Foley, junior assistant, at \$125.08 per month, to take effect October 27, 1923; William Harwetel, junior assistant, at \$125.08 per month, to take effect October 27, 1923; Morris Nagin, junior assistant, at \$125.08 per month, to take effect October 27, 1923; Gustave Reinberg, junior assistant, at \$125.08 per month, to take effect October 27, 1923; Carl J. Speer, Jr., junior assistant, at \$125.08 per month, to take effect October 27, 1923; Bernard J. Sullivan, junior assistant, at \$125.08 per month, to take effect October 27, 1923; William H. Young, junior assistant, at \$125.08 per month, to take effect October 27, 1923; August J. Zimmerman, junior assistant, at \$125.08 per month, to take effect October 27, 1923.

Appointments under Rule VIII:4—Benjamin Harris, draftsman, at \$175.08 per month, to take effect October 17, 1923; Reuben Lishinsky, draftsman, at \$175.08 per month, to take effect October 22, 1923.

Resignations—Abraham Cohen, accountant, at \$180.08 per month, to take effect September 13, 1923; Thomas Tracy, junior assistant, at \$125.08 per month, to take effect October 11, 1923; George Iscol, junior assistant, at \$125.08 per month, to take effect October 20, 1923.

Terminations of Appointments under Rule VIII:4—James J. Foley, junior assistant, at \$125.08 per month, to take effect October 26, 1923; Joseph P. Gowan, junior assistant, at \$125.08 per month, to take effect October 26, 1923; William Harwetel, junior assistant, at \$125.08 per month, to take effect October 26, 1923; James M. Sterner, junior assistant, at \$125.08 per month, to take effect October 26, 1923; August J. Zimmerman, junior assistant, at \$125.08 per month, to take effect October 26, 1923.

Terminations of Appointments under Rule VIII:9—Barnett M. Bass, junior assistant, at \$125.08 per month, to take effect October 26, 1923; Arthur T. Demeroto, junior assistant, at \$125.08 per month, to take effect October 26, 1923; Morris Nagin, junior assistant, at \$125.08 per month, to take effect October 26, 1923; Gustave Reinberg, junior assistant, at \$125.08 per month, to take effect October 26, 1923; Carl J. Speer, Jr., junior assistant, at \$125.08 per month, to take effect October 26, 1923; Bernard J. Sullivan, junior assistant, at \$125.08 per month, to take effect October 26, 1923; William H. Young, junior assistant, at \$125.08 per month, to take effect October 26, 1923; James P. O'Shea, junior assistant, at \$125.08 per month, to take effect October 26, 1923.

Termination of Appointment under Rule XVIII—Thomas F. McDonough, chauffeur, at \$5.00 per diem, to take effect October 16, 1923.

Leave of Absence with Pay—Loretta Hayes, accountant, from September 18, 1923 to September 29, 1923.

Leave of Absence without Pay—Abraham Cohen, accountant, from September 14, 1922 to September 13, 1923.

Promotions—Charles M. Anderson, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Jacob J. Cohen, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Peter A. Connolly, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; William Crepea, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Abraham Daniels, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; John H.

Dooley, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Leo Gilien, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Henry R. Glockner, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; George Gundolff, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Max Heller, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Jacob Hodosh, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Harry T. Holmes, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Arthur A. Jacobson, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Louis Kahn, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Charles A. Lenck, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Philip Liberman, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Leon G. Lord, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Charles H. Norchi, junior engineer, from \$152.50 per month to \$175.08 per month, to take effect October 1, 1923; Clarence E. Noska, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Pincus Rizack, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Louis Rubenstein, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Morris M. Salzberg, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Isidor Silver-smith, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; Philip Spector, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Murray H. Stevens, junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923; William H. Stuart, junior engineer, from \$175.00 per month to \$175.08 per month, to take effect October 1, 1923; Frederick Stubenvoll, Jr., junior engineer, from \$162.50 per month to \$175.08 per month, to take effect October 1, 1923.

1471

Voucher Schedule No. 44

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York, as the vouchers may direct:

Vouchers Nos. 980-1001, open market orders, \$275.58; Vouchers Nos. 538-539, miscellaneous bills, \$154.34; Vouchers Nos. 27-28, special payrolls, \$1,900.00; Vouchers Nos. 180-188, City payrolls, \$90,544.29; Voucher No. CM-20, State payrolls, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 278; New York Rapid Transit Corporation, approximate estimate No. 6 for lengthening platforms at the Canal Street station of the Centre Street Loop, from August 1, 1923 to August 31, 1923 (R. T. 7431) \$7,776.40;

Voucher No. 279; Jobson-Gifford Co., approximate estimate No. 4 for making changes in steel work at the easterly approach to the Queensboro Plaza station, Routes Nos. 36 & 37, Section No. 1, from September 1, 1923 to September 30, 1923 (R. T. 7573) \$17,612.71;

Voucher No. 280; Railway Switch & Crossing Corporation, approximate estimate No. 1, for the supply of special work and track fittings, Order No. 22, from May 10, 1923 to October 15, 1923 (R. T. 7638) \$17,931.42;

Voucher No. 281; Charles H. Brown & Son Corporation, Assignee, approximate estimate No. 20 for the construction of station finish on Sections Nos. 1 and 2 of Route No. 8, from September 16, 1923 to October 15, 1923 (R. T. 7539) \$8,744.28;

Voucher No. 282; Jacob Schlesinger, Inc., approximate estimate No. 15 for the construction of a second addition to shops at the Lenox Avenue and 148th Street Yard, under Contract No. 3, from September 16, 1923 to October 15, 1923 (R. T. 7368) \$25,070.63;

Voucher No. 283; McClintic-Marshall Company, approximate estimate No. 2 for furnishing and erecting structural steel for third addition to shops, Lenox Avenue and 148th Street Yard, Manhattan, under Contract No. 3, from September 16, 1923 to October 15, 1923 (R. T. 7590) \$23,869.44.

JAMES B. WALKER,
Secretary.

Proceedings for Friday, October 26, 1923

Present: LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.
The following matter was presented and action taken as noted:

1472—R. T. 7664

Route No. 33, Section No. 3—Receipt of Bids for Construction of Station Finish at Lawrence Street Station—Referred to Chief Engineer

Commissioner Harkness stated that the time within which to receive bids for the construction of Station Finish at the Lawrence Street Station of the Broadway-Fourth Avenue Rapid Transit Railroad, Section No. 3 of Route No. 33, had elapsed at 11:30 A. M., and directed the Secretary to open the sealed box which had been provided for the deposit of such bids, and to read the bids received. The Secretary presented the proper affidavits of publication, and opened the box and read the four bids received. The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

Proceedings for Monday, October 29, 1923

1473

Hearing

The following hearing was adjourned:

11:00 A. M.; R. T. 4007; Lengthening of platforms at local stations; Contract No. 1; adjourned to November 12, 1923, at 11:00 A. M.

JAMES B. WALKER,
Secretary.

Proceedings for Tuesday, October 30, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1474

Upon motion, duly seconded and adopted, the Minutes of the Proceedings for the month of July, 1923, were approved.

1475—R. T. 7664

Route No. 33, Section No. 3—Resolution Authorizing Release of Checks to All but Lowest Bidder for Construction of Station Finish at Lawrence Street Station—Adopted

The following resolution was adopted:

Resolved, That upon receipt of the report by the Chief Engineer as to the bids received on October 26, 1923, for the construction of Station Finish at the Lawrence Street Station of the Broadway-Fourth Avenue Rapid Transit Railroad, the Secretary be, and he hereby is, authorized and directed to return to all but the lowest bidder, the certified checks, in the sum of One Thousand (\$1,000) Dollars, deposited with their bids.

1476—R. T. 7664

Route No. 33, Section No. 3—Report by Chief Engineer as to Receipt of Bids for Construction of Station Finish at Lawrence Street Station and Recommendation for Award of Contract to Station Finish Corporation at Bid Price of \$51,076.65—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

October 29, 1923.

To the TRANSIT COMMISSION:

Award of Contract for Station Finish Work, Lawrence St. Sta., Route No. 33, Section No. 3, to Station Finish Corporation.

On October 26, 1923 the following bids were received for construction of station finish for part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 33, Section No. 3, Lawrence Street Station:

No.	Name	Amount
1.	Station Finish Corporation.....	\$51,073.65
2.	John Pollock	58,692.75
3.	John B. Roberts & Co.....	60,903.35
4.	Norman A. Deiser.....	61,020.50

Our estimate for this work was \$61,300.

The prices quoted by the lowest bidder, Station Finish Corporation, are satisfactory. It has done and is doing considerable similar work for the Commission. It is the assignee of the station finish contract for Route Nos. 8, Sections Nos. 3, 4 and 5, 14th Street-Eastern Line in Brooklyn amounting to about \$207,000. Charles H. Brown is the president of this Corporation and is also the president of Charles H. Brown & Son Corporation, the assignee of the station finish contract for Route No. 8, Sections No. 1 and No. 2, 14th Street-Eastern Line in Manhattan. This contract amounts to about \$289,000. The work on these two contracts has been satisfactory but the progress of the work has been slow.

The station finish work on the Manhattan portion should have been completed in accordance with the contract on October 27, 1922. Part of this delay is attributed to the uncompleted state of a portion of the construction contract, which interfered with the work of this contractor. For the greater part of the work however this condition does not apply.

The station finish work of the Brooklyn section for 14th Street-Eastern Line should have been completed in accordance with the contract on January 17, 1923 so that in this case as well as in the other one, the time limit called for in the contract is greatly exceeded.

The work of the contract for the station finish for the Manhattan portion, Route No. 8, Sections Nos. 1 and 2 is about 75% completed and for the Brooklyn portion of Route No. 8, Sections Nos. 3, 4 and 5 about 94% completed.

Notwithstanding the slow progress of work on previous contracts held by this Corporation, I consider it advisable that this contract for station finish work of Lawrence Street Station be awarded to it because readvertising of the contract would cause great delay with no assurance that a more acceptable bidder could be secured

and also because residents of Brooklyn interested in this neighborhood are clamoring for the opening of this station as speedily as possible.

Attached I send you copy of minutes of a conference held in my office today with Mr. Charles H. Brown, representing the Corporation, and also copy of its financial statement.

Recommendation: From an engineering standpoint I respectfully recommend that the contract for construction of station finish work, part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 33, Section No. 3, Lawrence Street Station, be awarded to the lowest bidder, Station Finish Corporation, at its bid price of \$51,073.65 and that a request be made on the Board of Estimate and Apportionment for the appropriation of this amount to be charged to Contract No. 4.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the construction of station finish for part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 33, Section No. 3, Lawrence Street Station, was heretofore finally adopted on October 11, 1923, and subsequent to advertisement duly made, bids respectively totalling as follows were received on October 26, 1923:

Name	Amount
1. Station Finish Corp.....	\$51,073.65
2. John Pollock	58,692.75
3. John B. Roberts & Co.....	60,903.35
4. Norman A. Deiser.....	61,020.50

; and

Whereas, The Chief Engineer of this Commission by communication dated October 29, 1923, has reported that the amount of said bid is reasonable and that the said Station Finish Corporation, the low bidder, is financially able and competent to perform the work under said proposed contract and has recommended the award of said contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of fifty-one thousand seventy-three dollars and sixty-five cents (\$51,073.65), the amount estimated to be necessary to carry out said proposed contract,

Resolved, That said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of Station Finish Corporation, submitted as aforesaid, be and the same hereby is accepted and the said proposed contract for station finish for part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 33, Section No. 3, Lawrence Street Station, be and the same hereby is awarded to said Station Finish Corporation, subject to its being approved and consented to in form and substance as required by law and said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted for the consent of said Board and the appropriation of the sum of fifty-one thousand seventy-three dollars and sixty-five cents (\$51,073.65), the amount estimated to be necessary to meet the obligations of the City under said proposed contract be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment, as authorized by the above resolution, was as follows:

October 30, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and Station Finish Corporation, for the construction of station finish for part of the Broadway-Fourth Avenue Rapid Transit Railroad, Route No. 33, Section No. 3, Lawrence Street Station, together with a requisition upon your Honorable Board for the appropriation of the sum of fifty-one thousand seventy-three dollars and sixty-five cents (\$51,073.65), being the amount estimated to be necessary to meet the obligations of the city under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on October 26, 1923, respectively totalling as follows:

Name	Amount
1. Station Finish Corporation.....	\$51,073.65
2. John Pollock	58,692.75
3. John B. Roberts & Co.....	60,903.35
4. Norman A. Deiser.....	61,020.50

The Chief Engineer of this Commission in a communication dated October 29, 1923, reports that the bid of Station Finish Corporation, the low bidder, is reasonable, and that said corporation is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to the said Station Finish Corporation, subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet said contract, to wit, the sum of Fifty-one thousand seventy-three dollars and sixty-five cents (\$51,073.65), and also to direct the Comptroller of The City of New York to issue the bonds of said city at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of appropriating the necessary moneys to meet the City's obligations under said contract, to wit the sum of Fifty-one thousand seventy-three dollars and sixty-five cents (\$51,073.65).

Your Board is also requested to authorize pursuant to Section 45 of the Greater New York Charter, the issue of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is a sub-requisition under and not in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4 and the appropriations made thereunder by your Honorable Board.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1477

Expenses—Resolution Authorizing Requisition upon Board of Estimate and Apportionment for Appropriation of \$400,000 for Expenses for Year Ending December 31, 1923—Communication to Board of Estimate and Apportionment

The following resolution was adopted:

Resolved, That the Chairman and the Secretary of the Transit Commission be, and they hereby are, authorized in the name and in behalf of said Commission to make a certificate to and a requisition on the Board of Estimate and Apportionment for the sum of Four Hundred Thousand Dollars (\$400,000), in the following form to wit:

"Requisition is hereby made upon you, pursuant to the provisions of Chapter 134 of the Laws of 1921, by the Transit Commission, for the sum of Four Hundred Thousand Dollars (\$400,000), which sum said Transit Commission hereby certifies as necessary, on account, to properly enable it to do and perform or cause to be done and performed, for the year ending December 31, 1923, the duties imposed upon said Commission by said law.

"Appended hereto is a certified copy of the resolution of the Commission authorizing the execution of the certificate and requisition.

"In witness whereof, the Transit Commission has caused this requisition to be signed by its Chairman and its Secretary and its official seal to be hereto affixed this 30th day of October, 1923."

TRANSIT COMMISSION,
GEORGE McANENY,
Chairman.

Attest:

JAMES B. WALKER,
Secretary.

October 30, 1923]

1092

The requisition was as follows:

October 30, 1923.

To the BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Requisition is hereby made upon you, pursuant to the provisions of Chapter 134 of the Laws of 1921, by the Transit Commission, for the sum of Four Hundred Thousand Dollars (\$400,000), which sum said Transit Commission hereby certifies as necessary, on account, to properly enable it to do and perform or cause to be done and performed, for the year ending December 31, 1923, the duties imposed upon said Commission by said law.

Appended hereto is a certified copy of the resolution of the Commission authorizing the execution of the certificate and requisition.

In witness whereof, the Transit Commission has caused this requisition to be signed by its Chairman and its Secretary and its official seal to be hereto affixed this 30th day of October, 1923.

Yours very truly,
TRANSIT COMMISSION,
GEORGE McANENY,
Chairman.

Attest:

JAMES B. WALKER,
Secretary.

The communication transmitting the requisition to the Board of Estimate and Apportionment was as follows:

October 30, 1923.

To the BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, in pursuance of a resolution adopted at its meeting on October 30, 1923, transmits to you herewith, and as a part hereof, a requisition in the sum of Four Hundred Thousand Dollars (\$400,000), which is the amount necessary and requisite, on account, to enable the said Transit Commission to do and perform or cause to be done and performed, the duties prescribed for it by Chapter 134 of the Laws of 1921, and to provide, on account, for the expenses and compensation of the employees of the said Commission for the year ending December 31, 1923, and which the Commission believes will approximately cover its complete need to such date.

Such funds are necessary for the carrying on of the supervision of outstanding construction contracts and of contracts now before your Board for approval, the preparation of contract and detailed plans preliminary to the letting of contracts for the construction of the remaining portions of the lines embraced in the Dual Rapid Transit System, the legalization of additional rapid transit routes, the supervision of plans and contracts of the operating companies under the Dual System, the acquisition of real estate and other rights incident to rapid transit construction, the preparation, negotiation and installation of the statutory plan for the rehabilitation of transit facilities within the City, including the valuation and appraisal of all transit properties, the regulation of transit operation within the City and the performance of other duties imposed on the Commission by statute.

While the duties imposed upon the Commission by statute are so varied that a precise determination of its financial need for the balance of the year cannot now be made, nor an exact division of the amount now requisitioned as between construction, regulation and the development of the statutory plan of reorganization attempted, an approximation, figured as closely as possible, shows that of the amount requisitioned 80% will be expended upon the work incident to construction, 10% upon regulation and the duties incident thereto, and the remaining 10% on account of the plan of reorganization, including the appraisal and valuation of properties, legal expense, etc. The accounts of the Commission are kept in such manner that an exact distribution of expenditure as between the three divisions of its work referred to will be made and recorded as the year proceeds.

Yours very truly,
TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1478—R. T. 7706

Agreement "CU"—Form of Contract, Specifications, Invitation to Contractors, etc., for Construction of Signal Tower at 239th Street Yard—Resolution Directing Advertisement for Bids

The following resolution was adopted:

Whereas, The Chief Engineer and Counsel have submitted to this Commission for adoption the proposed Invitation to Contractors, Information for Contractors, together with forms of Contract, Bond and Contractor's Proposal, with the Specifications and Contract Drawings for construction of a signal tower in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Route No. 18, Section No. 2, Borough of The Bronx (Agreement "CU")

Resolved, That said Invitation to Contractors, Information for Contractors and Forms of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for construction of a signal tower in the 239th Street Yard of the White Plains Road Rapid Transit Railroad, Route No. 18, Section No. 2, Borough of the Bronx (Agreement "CU") be and are hereby approved and adopted and that said Invitation to Contractors be published in the CITY RECORD every day of publication continuously from and including November 1, 1923 to and including November 9, 1923 and on November 5, 1923 in THE MORNING TELEGRAPH and THE EVENING WORLD, daily newspapers published in the City of New York and that such bids as shall be received, shall, on the 9th day of November, 1923, at eleven-thirty (11.30) o'clock, A. M., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

1479—R. T. 7368

Contract No. 3—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Wrought Iron Leaders under Contract for Second Addition to Shops at Lenox Avenue and 148th Street Yard—Approval Resolution

A report was presented from the Chief Engineer dated October 27, 1923, recommending the establishment of a supplementary schedule item, as described below, and the following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission, in pursuance of Item 150 of the contract dated August 3, 1922 between The City of New York, acting by the Transit Commission, and Jacob Schlesinger, Inc., for the Construction of Second Addition to Shops, Lenox Avenue and 148th Street Yard, having, subject to the approval of the Commission, agreed with said Contractor upon the following supplementary schedule item:

Item No. 768 (c)—For furnishing and placing 3-inch wrought iron leaders in the Second Addition to Shops, Lenox Avenue at 148th Street, the sum of \$2.25 per linear foot.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1480—R. T. 7513

Routes Nos. 5 and 8—Application by George Colon & Company for Extension of Time within Which to Complete Construction of Passageway at Union Square—Report by Chief Engineer Recommending Extension of Time to and Including August 2, 1923—Approval Resolution

An application was presented from George Colon & Company, dated September 29, 1923, requesting an extension of time within which to complete work under the contract for the construction of a passageway at Union Square—Routes Nos. 5 and 8.

A report was presented from the Chief Engineer dated October 23, 1923, recommending that an extension of time be granted to and including August 2, 1923, within which to complete the work.

The following resolution was adopted:

Whereas, The contract dated May 17, 1922, between The City of New York, acting by the Transit Commission and George Colon & Co., for construction of Union Square passageway connecting stations on Broadway-Fourth Avenue and 14th Street-Eastern Rapid Transit Railroads, Routes Nos. 5 and 8, provides in Article LIV thereof that the contractor shall within six (6) months from the date of delivery of said contract complete the work, as therein more particularly set forth; and

Whereas, Said George Colon & Co., contractor, has by communication dated September 29, 1923, made application to this Commission for an extension of time within which to complete the work as in said contract provided; and

Whereas, The Chief Engineer has by communication dated October 23, 1923, advised the Commission that the performance of said contract was substantially completed on August 2, 1923 with the exception of repairing certain tiling in the Union Square Station of the Broadway-Fourth Avenue Line, which was injured in the course of the work, and has recommended in said communication for the reasons therein stated, that the time of the said George Colon & Co., contractor, within which to complete the work as in said contract set forth be extended to and including August 2, 1923,

Resolved, That the report and recommendation of the Chief Engineer as aforesaid, be and the same hereby is approved; that the time of George Colon & Co., contractor, within which to complete the work required to be performed within six (6) months after the delivery of said contract as in Article LIV thereof provided, be and the same hereby is extended to and including August 2, 1923, provided, however, that this extension of time will not take effect unless and until it shall be consented to in writing by the sureties upon the bond deposited by the contractor as security for the faithful performance of said contract.

1481—R. T. 7587

Agreement "CA"—Applications by B. T. & J. J. Mack, Inc., for Extension of Time within Which to Complete Contract for Construction of Transformer Closets for Emergency Lighting—Report by Chief Engineer Recommending Extension of Time to October 8, 1923—Approval Resolution

Applications were presented from B. T. & J. J. Mack, Inc., dated October 8, 1923, and October 22, 1923, requesting an extension of time to and including October 9, 1923, within which to complete work under their contract for the construction of transformer closets for emergency lighting, Agreement "CA".

A report was presented from the Chief Engineer dated October 25, 1923, recommending that the time be extended to and including October 8, 1923.

The following resolution was adopted:

Whereas, The contract dated February 15, 1923, between The City of New York, acting by the Transit Commission, and B. T. & J. J. Mack, Inc., for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Railroad, Borough of Manhattan (Agreement "CA"), requires the completion of all work thereunder on or before the expiration of four (4) months from the date of the delivery of said contract, which contract was delivered on February 16, 1923, the last day for completion therefor being June 16, 1923; and

Whereas, By communications dated October 8 and October 22, 1923, said B. T. and J. J. Mack, Inc., made application for an extension of time under said contract to and including October 9, 1923 to complete same, predicated upon circumstances as set forth in said communications; and

Whereas, The Chief Engineer of this Commission, by communication dated October 25, 1923, has reported that at the end of the four month period required for the entire completion of the contract, about 85% of the work had been finished; that what remained to be performed was principally the installation of white glazed tile and mosaic tile on the exterior walls of the closets which were the last items of work completed on this contract; that the principal delay on this work was due to the extraordinary conditions prevailing among the manufacturers of white glazed tile and mosaic as these materials were in great demand for building construction work and the small amount of different types of tile and mosaic required at the various stations on this contract were difficult to secure from the factories as scant attention was paid to orders of this size; that at no time was the operating company delayed in installing its equipment and recommends that the time of the contractor be extended to and including October 8, 1923.

Resolved, That the time of B. T. & J. J. Mack, Inc., within which to complete the work pursuant to the contract as aforesaid be and the same hereby is extended to and including October 8, 1923, provided, however, that this extension of time shall not take effect unless and until it shall be consented to in writing by the sureties upon the bond deposited as security for the faithful performance of said contract.

Further resolved, That as a condition precedent to the taking effect of the extension of time as herein granted, the contractor shall file with this Commission in form to be approved by its Counsel, a release of all claims against the City of New York by reason of the delay on the part of the City or any of its agents under said contract.

1482—R. T. 7587

Agreement "CA"—Certificate by Chief Engineer of Completion of Contract for Construction of Transformer Closets for Emergency Lighting—Resolution Accepting Work and Directing that Certificate Be Filed with Comptroller

The following certificate was approved:

October 29, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion—Construction of Transformer Closets for Emergency Lighting for a Part of the Broadway-Fourth Avenue Rapid Transit Railroad—Agreement "CA."

In connection with the contract dated February 15, 1923 between the City of New York, acting by the Transit Commission and B. T. & J. J. Mack, Inc., for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Railroad in the Boroughs of Manhattan and Queens, I hereby certify that all work was completed on October 8, 1923. The total cost of the work was \$12,540.23.

In accordance with the provisions of the contract, all work should have been completed by June 16, 1923. The time for completion, however, was extended to October 8, 1923 by resolution of the Transit Commission adopted on October 30, 1923. As all work was completed within the contract time, as extended, there are no liquidated damages to be assessed.

Recommended: That the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The contract dated February 15, 1923 between The City of New York acting by the Transit Commission and B. T. & J. J. Mack, Inc., for the construction of transformer closets for emergency lighting for a part of the Broadway-Fourth Avenue Rapid Transit Railroad in the Boroughs of Manhattan and Queens, required the completion of all work thereunder on or before June 16, 1923 which time was extended to and including October 8, 1923 by resolution of the Transit Commission adopted on October 30, 1923; and

Whereas, The Chief Engineer of this Commission by communication dated October 29, 1923 has reported that all the work required under said contract was in all respects

completed on or before October 8, 1923; that the total amount due therefor was \$12,540.23 and recommends that the work so performed be accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York,

Resolved, That the said report and recommendation be and the same hereby are approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of The City of New York.

1483—R. T. 7109

Contract No. 3—Application by Interborough Rapid Transit Company for Modification of Lease of Premises at Nos. 367-373 East 143rd Street, Borough of The Bronx—Reports by Real Estate Clerk and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated September 6, 1923, requesting approval of the modification of the lease to Hirsch Schleimowitz, covering premises at Nos. 367-373 East 143rd Street, Borough of The Bronx, so as to eliminate the provision for the termination of the lease on September 15, 1926 by giving the tenant six months previous notice and for an increase in the rental of \$200 per year beginning September 15, 1923.

Reports were presented from the Real Estate Clerk dated October 23, 1923, and the Chief Engineer dated October 26, 1923, stating that there is no objection and recommending that the application be approved.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the certificate dated March 19, 1913 granted to Interborough Rapid Transit Company by the Public Service Commission for the First District for certain elevated extensions, Interborough Rapid Transit Company, under date of September 6, 1923, has made the following application to this Commission:

"The Interborough Rapid Transit Company requests approval to modify its lease dated September 19, 1916 to Hirsch Schleimowitz, covering premises Nos. 367-373 East 143rd Street, Bronx, for a term of twenty-one years from September 15, 1916 at an annual rental of \$1,100.00, to eliminate the provisions therein contained granting the landlord the privilege of cancelling the lease on September 15, 1926 by giving the tenant six months' previous notice, in consideration of the tenant paying an increase in rental of \$200.00 per year beginning September 15, 1923."

; and

Whereas, The Real Estate Clerk of this Commission, by communication dated October 23, 1923, approved by Counsel, has, for the reasons therein more particularly set forth, recommended the approval of said proposed modification; and

Whereas, The Chief Engineer of this Commission, by communication dated October 26, 1923, addressed to Counsel, has reported that there is no objection from an engineering standpoint to the approval of such application,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said application aforesaid of Interborough Rapid Transit Company, hereinbefore set forth, be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said application.

1484—R. T. 7224

Contract No. 3—Communication from Interborough Rapid Transit Company Requesting Approval of Changes in Power System so as to Provide Sufficient Power for Anticipated Increase—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Reports by Auditor of Rapid Transit Costs and Counsel Suggesting Papers Be Filed and that Company Be Informed that Additions Will Be Approved as Work Develops—Communication Ordered Filed and Letter to Company Approved

A communication was presented from Interborough Rapid Transit Company dated August 14, 1923, requesting approval of changes in power house substations and distribution system of subway division so as to provide sufficient power for increased demand anticipated in the near future at a total approximated expenditure of \$2,170,347, which work is expected to be performed during the years 1923, 1924 and 1925.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated September 14, 1923, recommending that the company be authorized to proceed with the rearrangement of and additions to the power system.

Reports were presented from the Auditor of Rapid Transit Costs and Counsel dated October 27, 1923, and October 29, 1923, recommending that the papers be filed and that the company be informed that the additions to and modifications of power and distribution systems on account of increased loads will be subject to consideration and approval or order by the Commission of each item as the development of the program indicates the necessity of starting the work.

Upon motion duly seconded and adopted the papers were ordered filed and the Secretary was directed to advise the Interborough Rapid Transit Company that approval will be given to each item of the work as the necessity therefor is indicated.

1485—R. T. 6761

Contract No. 3—Application by Interborough Rapid Transit Company for Approval of Proposed Purchasing Agent's Order for Furnishing Ash Gates for 59th Street Power Station—Report by Consulting Engineer Dr. Charles E. Lucke, Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company, dated October 5, 1923, requesting approval of a proposed purchasing agent's order directed to Baker-Dunbar-Allen Sales Company, for furnishing ash gates complete for installation at the 59th Street Power Station, at a cost of \$2,300.

A report was presented from Consulting Engineer Dr. Charles E. Lucke, dated October 19, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment, to be performed under Work Order No. D-11-A, heretofore assigned.

The following resolution was adopted:

Whereas, By resolution adopted by the Transit Commission on September 7, 1922, the application of the Interborough Rapid Transit Company, pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and said Interborough Rapid Transit Company (known as Contract No. 3) for the approval of an expenditure for the instal-

lation of Additional Equipment as described in said Contract No. 3 consisting of additional units of new equipment and appurtenances and cables to provide additional power was approved and by resolution adopted November 14, 1922 this Commission assigned thereto Work Order No. IBA-7; and

Whereas, Pursuant to said authority this Commission by resolution adopted July 10, 1923, approved the proposed contract between the Interborough Rapid Transit Company and Babcock & Wilcox Company for the manufacture, delivery and installation in the 59th Street Power House of four 1140 H. P. B. & W. Boilers and three B. & W. superheaters complete ready for installation at the total cost of \$130,583; and

Whereas, Pursuant to said Contract No. 3 and said approval as heretofore given, Interborough Rapid Transit Company by communication dated October 5, 1923, has submitted for the approval of this Commission, proposed purchasing agent's order dated October 5, 1923, directed to Baker-Dunbar-Allen Sales Company for the following:

"4 Type 'S' 4'0" x 4'0" 'Arrow' ash gates, complete with all cast iron frame, all cast iron gate, cylinders, with complete operating mechanism and structural tracks.

Price: \$2,300.00 for lot.

Delivery: To be delivered to our 59th St. and 11th Avenue Power Station, within sixty days from date of Order."

; which proposed purchasing agent's order has been caused to be designated as "Approval No. 506"; and

Whereas, Dr. Charles E. Lucke, Consulting Engineer of the Commission, has by communication dated October 19, 1923, reported that the following bids were received for such ash gates:

Baker-Dunbar-Allen Sales Co.....	\$2,300 for the lot,
Beaumont Manufacturing Co.....	2,650 for the lot,

; that investigation has been made by him as to such equipment and it is believed that such type of ash gate and the low bid therefor are satisfactory and recommends the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated October 27, 1923 has recommended that such material be classified as Additional Equipment for the Railroad under Work Order No. D-11-A heretofore assigned,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and he hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order; such material to be classified as Additional Equipment for the Railroad as defined in said Contract No. 3 and under Work Order No. D-11-A as heretofore assigned by resolution adopted October 11, 1923.

1486—R. T. 6481

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Air Compressors for Fifty Subway Trailer Cars—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation, dated October 9, 1923, requesting approval of a proposed purchasing agent's order directed to the Westinghouse Traction Brake Company, for furnishing air compressors for fifty new steel trailer subway cars.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated October 24, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Additional Equipment, to be performed under Work Order No. MBA-25, heretofore assigned.

The following resolution was adopted:

Whereas, This Commission by resolution adopted July 17, 1923 as therein more particularly set forth, approved the proposed contract to be entered into between New York Rapid Transit Corporation as successor to the rights and obligations under the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District and New York Municipal Railway Corporation, known as Contract No. 4, and Pressed Steel Car Company for the manufacture and delivery of bodies and trucks for fifty (50) steel passenger cars, Series 4000-4049 together with the plans and specifications therefor and classified such material as Additional Equipment of the Railroad as more particularly defined in said Contract No. 4, and assigned thereto Work Order No. MBA-25; and

Whereas, Pursuant to the provisions of said Contract No. 4 and said proposed contract so approved as aforesaid, New York Rapid Transit Corporation, by communication dated October 9, 1923 has submitted for the approval of this Commission proposed purchasing agent's order dated October 5, 1923 directed to Westinghouse Traction Brake Co. for the following:

"For Equipping Subway Trailer Cars 4000 to 4049 incl. Parts for Westinghouse Traction Brake Company's Type D-3-F Compressors

50 Pc. 68311 Compressor Complete with 8" Strainers....	\$640.00 each net
50 Pc. 68321 Compressor Suspensions Complete with Brackets, etc.	24.00 each
50 Pc. 53741 A-6 Comp. Switch	78.00 each
200 Pc. 51833 Terminal Sleeve10 each
50 Pc. 9053 $\frac{3}{8}$ " Cut Out Cock	2.70 each
50 Pc. 54567 1" Choke Fitting60 each
50 Pc. 24107 El Safety Valve	12.00 each

All 6 items less 50-5-2- $\frac{1}{2}$ %

All F. O. B. point of shipment".

which proposed purchasing agent's order has been caused to be designated as "Approval No. 373"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated October 24, 1923 have reported that no competitive bids were taken since the Westinghouse compressors are standard equipment on the New York Rapid Transit Corporation's lines; that the cost is reasonable and that the equipment is necessary, and recommend the approval of said proposed purchasing agent's order; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated October 26, 1923 has recommended that the cost under said proposed purchasing agent's order be classified as Additional Equipment for the Railroad under Work Order No. MBA-25 assigned as aforesaid,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of material under said proposed purchasing agent's order hereby approved to be classified as Additional Equipment of the Railroad as defined in said Contract No. 4 under and pursuant to Work Order No. MBA-25 heretofore assigned as aforesaid.

1487—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Ejector Equipment for Fourteenth Street-Eastern Line and Lawrence Street Station—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 9, 1923 requesting approval of a proposed purchasing agent's order

directed to the Westinghouse Traction Brake Company for eight air compressors and fittings for ejector equipment for the Fourteenth Street-Eastern Line and the Lawrence Street Station.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated October 24, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said contract No. 4, has submitted for the approval of this Commission a proposed purchasing agent's order dated October 5, 1923, directed to Westinghouse Traction Brake Company for the following:

<i>Ejector Equipment 14th St. Line and Lawrence Street Station Broadway-Fourth Ave. Line</i>	
8 West. Type D-3-F Compressors No. 68311.....	\$640.00 each net
Complete with 8" Strainers	
8 West. Type S-6-A Governors No. 52112.....	84.00 each
Less 50-5-2-1/2%	
8-26 1/2" x 60" Main Reservoirs Enameled inside and out....	42.21 each net
8-3-1/2" Single Pointer Air Gauges.....	1.80 each net
8 1/2" Reservoir Drain Cocks No. 7716.....	2.70 each
Less 50-5-2-1/2%	
8 El Safety Valves No. 24107.....	12.00 each
Less 50-5-2-1/2%	

All F. O. B. point of shipment.

which proposed purchasing agent's order has been caused to be designated as "Approval No. 374"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission, by communication dated October 24, 1923, have reported that no competitive bids were taken for such equipment, since the Westinghouse compressors are standard equipment on the lines of the New York Rapid Transit Corporation; that the cost is reasonable; that the equipment is necessary and recommend the approval of said proposed purchasing agent's order so submitted; and

Whereas, The Auditor of Rapid Transit Costs, by endorsement dated October 26, 1923, has recommended that the cost of such material be classified as Equipment of the Railroad as defined in said Contract No. 4,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such material under said proposed purchasing agent's order hereby approved to be classified as Equipment of the Railroad as defined in said Contract No. 4.

1488—Case 2362

**Interborough Rapid Transit Company and The Long Island Railroad Company—
Improvements and Additions to Atlantic Avenue Station—Discontinuance
Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2362, discontinuing the proceeding, it appearing that the improvements sought had been completed.

1489—Case 2419**New York Railways Company, Eighth Avenue Railroad Company and the Ninth Avenue Railroad Company—Transfers on Companies' Lines—Discontinuance Order Adopted**

The Secretary presented a report, dated October 11, 1923, by George H. Stover, Assistant Counsel, approved by Counsel, recommending a discontinuance of the proceeding in Case No. 2419.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2419, discontinuing the proceeding with respect to the above matter.

1490—Case 2420**Brooklyn & North River Railroad Company—Discontinuance of Service over Manhattan Bridge—Discontinuance Order Adopted**

The Secretary presented a report, dated October 11, 1923, by George H. Stover, Assistant Counsel, approved by Counsel, recommending the discontinuance of the proceeding in Case No. 2420, as the Brooklyn & North River Railroad Company had no franchise for a portion of the route over which it had discontinued service and operated under trackage agreements and the Commission had no power to compel a resumption of service.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2420, discontinuing the proceeding with respect to the above matter.

1491—Case 2455**The Staten Island Rapid Transit Railway Company and the Staten Island Railway Company—Equipment and Service—Discontinuance Order Adopted**

The Secretary presented a report, dated October 11, 1923, by George H. Stover, Assistant Counsel, approved by Counsel, recommending a discontinuance of the proceeding in Case No. 2455, as the subject matter was covered by the proceeding in Case No. 2700, recently instituted.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2455, discontinuing the proceeding with respect to the above matter.

1492—Case 2510**Eighth Avenue Railroad Company et al.—Form of Annual Report for Year Ended June 30, 1920—Order Adopted Closing Case on Records**

The Commission adopted and ordered filed an Order in Case No. 2510, closing the case on the records of the Commission.

1493—Case 2525**The Long Island Railroad Company—Additional Passenger Cars—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2525, discontinuing the proceeding with respect to the above matter.

1494—Case 2543

The Long Island Railroad Company—Complaint of Chamber of Commerce of Borough of Queens as to Discrimination in Passenger Rates—Order Closing Case on Records Adopted

The Commission adopted and ordered filed an Order in Case No. 2543 in the following form:

Present:

GEORGE McANENY, }
Chairman, } Commissioners.
LEROY T. HARKNESS, }

CHAMBER OF COMMERCE OF THE BOROUGH OF QUEENS,
Complainant,
against
THE LONG ISLAND RAILROAD COMPANY, as to Discrimination in Passenger Fares.

CASE No. 2543.
ORDER CLOSING CASE ON
RECORD.

A complaint, dated October 11, 1920, having been filed with the Public Service Commission for the First District, by the Chamber of Commerce of the Borough of Queens, alleging discrimination in passenger fares charged by The Long Island Railroad Company, and said complaint having been referred by said Commission to its Counsel on October 22, 1920, and no further action having been taken thereon, and Counsel to the Transit Commission, having now advised that the subject matter of the proceeding had been disposed of by rulings of the Interstate Commerce Commission in ex parte 74 and decisions of the United States Supreme Court, restricting the power of State Commissions in the regulation of rates on steam railroads, to commuters, school and trip family tickets, and recommending that the case be closed, it is

Ordered, That the above entitled case be and the same hereby is closed on the records of the Commission, without prejudice, however, to the making of any Order or Orders concerning the same subject matter.

By the COMMISSION,
JAMES B WALKER,
Secretary.

1495—Case 2571

The Brooklyn City Railroad Company—Failure to Operate Cars on Vernon Avenue Bridge—Discontinuance Order Adopted

The Commission adopted and ordered filed an Order in Case No. 2571, discontinuing the proceeding with respect to the above matter, it appearing that service over the Vernon Avenue Bridge had been resumed.

1496—Case 2579

The Long Island Railroad Company—Use and Operation of Steam Locomotives—Discontinuance Order Adopted

The Commission adopted and ordered filed an Order in Case No. 2579, discontinuing the proceeding with respect to the above matter.

1497—Case 2598

The New York Central Railroad Company—Station Facilities at 149th Street—Discontinuance Order Adopted

The Commission adopted and ordered filed an Order in Case No. 2598, discontinuing the proceeding with respect to the above matter, it appearing that the improvement sought had been completed.

1498—Case 2600**New York Railways Company—Application of Job E. Hedges, Receiver, for Permission to Discontinue Through Service on Seventh Avenue-Delancey Street Line—Denial Order Adopted**

The Secretary presented a report, dated October 10, 1923, by George H. Stover, Assistant Counsel, approved by Counsel, recommending a denial of the application of Job E. Hedges, Receiver of the New York Railways Company, for permission to discontinue through service on the Seventh Avenue-Delancey Street Line and for further permission to charge two cents for transfers at Eighth Street and Sixth Avenue, between the Seventh Avenue Line and the Eighth Street Crosstown Line.

Thereupon the above mentioned report was approved and an Order in Case No. 2600 adopted denying the above mentioned application.

1499—Case 2609**Marine Railway Company—Complaint of Manhattan Beach Restrictions Society Inc. as to Service and Equipment—Dismissal Order Adopted**

The Secretary presented a report, dated October 11, 1923, by George H. Stover, Assistant Counsel, approved by Counsel, recommending a dismissal of the complaint in the above case.

Thereupon the above mentioned report was approved and an Order in Case No. 2609 adopted and ordered filed dismissing the complaint therein and discontinuing the proceeding.

1500—Case 2614**Dyckman Street Transportation Corporation—Application for Authorization to Issue \$500 Capital Stock Nunc Pro Tunc as of July 29, 1920—Denial Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2614, denying the application of the Dyckman Street Transportation Corporation for authorization to issue \$500 capital stock nunc pro tunc as of July 29, 1920, for failure of proof.

1501—Case No. 2615**Concourse Transportation Corporation—Application for Authority to Issue \$500 Capital Stock Nunc Pro Tunc as of July 29, 1920—Denial Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2615, denying the application of the Concourse Transportation Corporation for authorization to issue \$500 capital stock nunc pro tunc as of July 29, 1920, for failure of proof.

1502—Case No. 2616**Third Avenue Railway Company—Application for Authorization to Acquire and Hold \$500 Capital Stock of Dyckman Street Transportation Corporation—Denial Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2616, denying the application of the Third Avenue Railway Company for authorization to acquire and hold \$500 capital stock of the Dyckman Street Transportation Corporation, for failure of proof.

1503—Case No. 2617**Third Avenue Railway Company—Application for Authorization to Acquire and Hold \$500 Capital Stock of the Concourse Transportation Corporation—Denial Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2617 denying the application of the Third Avenue Railway Company for authorization to acquire and hold \$500 capital stock of the Concourse Transportation Corporation, for failure of proof.

1504—Case No. 2639**Van Brunt Street and Erie Basin Railroad Company—Service and Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2639 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1505—Case No. 2641**New York Railways Company, Job E. Hedges, Receiver—Service and Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2641 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1506—Case No. 2642**Third Avenue Railway Company et al.—Service and Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2642 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1507—Case No. 2643**The Brooklyn City Railroad Company—Service and Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2643 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1508—Case No. 2644**The Brooklyn Heights Railroad Company et al.—Service and Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2644 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1509—Case No. 2645**The New York and Harlem Railroad Company—Service and Equipment—
Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2645 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1510—Case No. 2646**Eighth Avenue Railroad Company—Service and Equipment—Discontinuance
Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2646 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1511—Case No. 2647**Ninth Avenue Railroad Company—Service and Equipment—Discontinuance
Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2647 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1512—Case No. 2648**Second Avenue Railroad Company, Charles E. Chalmers, Receiver—Service and
Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2648 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1513—Case No. 2649**Long Island Electric Railway Company—Service and Equipment—Discontinuance
Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2649 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1514—Case No. 2650**Manhattan and Queens Traction Corporation, Receivers—Service and Equipment
—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2650 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1515—Case No. 2651**New York and Long Island Traction Corporation—Service and Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2651 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1516—Case No. 2653**Manhattan Bridge Three Cent Line—Service and Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2653 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1517—Case No. 2654**Ocean Electric Railway Company—Service and Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2654 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1518—Case No. 2655**Richmond Light and Railroad Company—Service and Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2655 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1519—Case No. 2656**Staten Island Midland Railway Company—Service and Equipment—Discontinuance Order Adopted**

The Commission adopted and ordered filed an Order in Case No. 2656 discontinuing the proceeding with respect to the above matter, without prejudice to the making of any order or orders, at any time, concerning the subject matter of the proceeding.

1520—Case No. 2667**Interborough Rapid Transit Company—Application of Merchants and Taxpayers' Alliance for Change of Name of 210th Street-Williamsbridge and Gun Hill Road Stations on Webster Avenue Extension—Dismissal Order Adopted**

The Secretary presented a report dated October 23, 1923, by Carleton S. Cooke, Assistant Counsel, approved by Counsel, recommending a dismissal of the above proceeding as the applicant did not appear at the hearing.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2667 dismissing the proceeding with respect to the above matter.

1521—Case No. 2701

Grade Crossings in New York—Report by Commissioner Harkness Approved and Hearing Directed

The Secretary presented a report by Commissioner Harkness, dated October 25, 1923, with respect to the Grade Crossing Problem in New York City, reading as follows:

October 25, 1923.

To the TRANSIT COMMISSION:

By reference at the Commission's meeting on July 17, 1923, I was designated to investigate and report on the grade crossing situation and particularly as to the allocation of the \$500,000 appropriated at the last session of the Legislature for grade crossing elimination in this City. This investigation has been conducted through Mr. W. L. Selmer, Engineer of Structures, who has been in charge of grade crossing work for the Commission and its predecessors for a number of years past. Mr. Selmer and his staff have carefully surveyed the whole situation and have furnished me with results of that survey and with studies and estimates of the several elimination projects.

The grade crossing problem in New York City may be expressed in this wise: Over 400 existing grade crossings. Killed during the period between July 1, 1907 and January 1, 1923—221; injured—390. Cost of total elimination in excess of \$50,000,000, which, however, does not include the New York Central West Side Improvement.

The number of casualties at grade crossings is the greatest single element in the situation, but there must also be kept in mind the factor of arrested development of important districts because of the presence of dangerous crossings and railroad operation at grade. This sort of operation is a blight on large areas contiguous to the railroad.

Grade crossings, besides resulting in death and injury, impede street traffic and greatly retard movement of trains. Satisfactory urban or suburban rapid transit service is impossible where numerous grade crossings exist. There is constantly increasing danger in the City on account of the large street traffic, everywhere rapidly growing, which is further complicated by increasing railroad travel.

By crossing protection installed by the companies on their own initiative or ordered by the Commission and its predecessors the toll of deaths and injuries has been kept down. Through these measures the ratio of casualties has decreased as the population and traffic have heavily increased. Grade crossing protection, however, is merely a palliative—the only solution is elimination.

Grade Crossing Law.—Grade crossing eliminations are carried out under the Railroad Law which provides that the expense shall be apportioned between the State, the City and the railroad company in the proportion of one-quarter each by the State and City and one-half by the Railroad Company. No action can be taken by the Commission toward ordering an elimination until the Legislature has appropriated the State's share. Thereafter the contribution by the City and the railroad company can be enforced.

Grade Crossing Appropriations.—Prior to 1910 appropriations under the Railroad Law for grade crossing elimination amounted to a total of \$1,625,000, of which the insignificant sum of \$9,720 was spent in New York City. This statement, however, is apt to be misleading unless it is remembered that prior to 1910 important elimination work was done under separate laws and special commissions with city and company participation. Notable instances of such separate treatment are the Atlantic Avenue and Bay Ridge Improvements.

It was not until 1910, and then by aggressive action of the Public Service Commission, that the Railroad Law was effectively applied to grade crossing elimination in New York City. Since 1909 the following appropriations have been made:

1910.....	\$250,000.00
1911.....	250,000.00
1913.....	699,696.50
1915.....	200,000.00
1917.....	250,000.00
1923.....	500,000.00

Total \$2,149,696.50

To avoid misunderstanding it is here stated that the appropriations listed are only those affecting New York City and do not include those for the rest of the State.

The increased figure in 1913 was due to the Legislature making available for grade crossing elimination one-half of the moneys received as mortgage recording tax upon mortgages made by the Interborough Rapid Transit Company and New York Municipal Railway Corporation to finance their part of the Dual Subway plan. This substantial help to grade crossing elimination as an incident of the dual system subway contracts is not generally known. In this connection attention might be drawn to the fact that the Reorganization Committee of the B. R. T. recently paid \$556,970.50 as mortgage recording tax upon certain mortgages involved in the reorganization. Following the precedent of 1913 the Legislature might well be asked to appropriate part or all of this amount in addition to any other sums appropriated for grade crossing elimination next year.

With the ever increasing growth of population and traffic, there should not be a grade crossing in New York City 20 years hence over which high speed trains operate frequently. The total cost of eliminating all the grade crossings in the City over which there is frequent and high speed railroad operation, is around \$50,000,000. To effect these eliminations within the period suggested would therefore require an appropriation by the Legislature each year for the next 20 years of at least \$600,000 to cover the State's one-quarter share of the cost.

Until this year appropriations averaged only about \$100,000 a year. At that rate it would require 125 years to complete the elimination of these grade crossings.

The appropriation of nearly \$700,000 in 1913 and of \$500,000 this year are important exceptions to the totally inadequate provision of the past. As will be set forth in discussing particular elimination projects, largely increased appropriations should be made in some years so that major eliminations can be put under way.

GRADE CROSSING ELIMINATIONS COMPLETED AND ORDERED.

The following grade crossing eliminations have been completed and paid for:

Case No. 1270—Huguenot Elim. (S. I. Ry.).....	1 crossing
Case No. 1272—Great Kills Elim. (S. I. Ry.).....	1 crossing
Case No. 1266—Flushing Elim. (L. I. RR.).....	10 crossings
Case No. 1261—Bushwick Jctn. Elim. (L. I. RR.).....	2 crossings
Case No. 1672—Railroad Av. Foot Subway constructed (L. I. RR.)	
Case No. 1262—Hollis Elim. (L. I. RR.).....	2 crossings
Cases No. 1756 & 1797—Pa. Ave. Elim. (S. I. R. T. Ry.).....	3 crossings
Case No. 2006—Gun Hill Rd. Bridge—(N. Y. Cen. RR.) Change in existing structure	

Final orders have been issued on the following grade crossing eliminations:

Case No. 2652—Jamaica Elim. (L. I. RR.).....	6 crossings
Cases Nos. 1264 & 1390—Queens Elim. (L. I. RR.).....	3 crossings
Cases Nos. 1780 & 1811—Pleasant Plains Elim. (S. I. Ry.).....	6 crossings
Case No. 1929—East 241st St. Wakefield—Change in existing structure (N. Y. Cen. RR.).....	1 crossing
Case No. 2130—Virginia Ave.—Change in existing structure (S. I. Ry.)	1 crossing
Case No. 2496A—Morris Ave. Change in Existing Structure (N. Y. Cen. RR.) (Finished)	1 crossing

These eliminations exhaust the State's appropriations except the one of \$500,000 made at the last session of the Legislature.

Grade crossing work was necessarily held up during the war and for some time thereafter. When the Transit Commission came into office it endeavored to accelerate the carrying out of projects previously authorized so that the money appropriated and not used would be expended without further delay. These endeavors have resulted in The Long Island Railroad Company going ahead with the Queens elimination (Cases 1264 and 1380). Through modification of other orders and re-allocation of funds it has also secured the agreement of The Long Island Railroad Company to go ahead with the elimination of grade crossings on the main line between Jamaica and Hollis (Case 2652). When the work under these three orders is completed, the Long Island Railroad will have a 4-track road equipped for intensive electric operation with all grade crossings eliminated from the Jamaica Station east to the City Line. This not only clears

dangerous grade crossings out of this district but enables the company to give greatly improved train service.

Plans are being prepared for the elimination in Staten Island with the promise on the part of the railroad company involved to begin work in the field in the spring.

The Wakefield change has been resisted by the New York Central Railroad Company and the 238th Street change which is closely related, is in the courts. The decisions have uniformly been in favor of the Commission and the company is now endeavoring to get permission to appeal to the Court of Appeals. It is expected that this litigation will shortly be ended and the work pressed forward.

In all, 39 grade crossings have been or will be eliminated under appropriations made by the State since 1909.

EXISTING GRADE CROSSINGS.

In order to get a general picture of the problem it will be helpful, before taking up particular elimination projects, to consider the existing situation by boroughs.

Borough of Manhattan.

There are still 106 grade crossings in the Borough of Manhattan, all of which are on the West Side. The elimination of these crossings constitutes what is known as the West Side Improvement, which has been under discussion for so many years and as to which there has unfortunately been such bitter controversy. Various laws have been passed and plans prepared looking to the carrying out of this improvement. It is manifestly too big a proposition to be handled piece meal under the strict application of the grade crossing law and with the minor state appropriations that are made from time to time.

The carrying out of this improvement has generally been left for direct action between the City authorities and the railroad company. Under the Mitchel Administration plans for carrying out the West Side Improvement were developed in great detail, but at the last the proposed arrangement failed of approval. During the present administration recourse has been had to litigation, but there seems to have been an utter absence of real progress.

The present lay-out of the railroad on the West Side is archaic and reminiscent of Civil War days. It was just about the close of the Civil War when a committee of the State Senate recommended the improvement of those conditions. The continuance of the present situation is a great detriment to the City and also a bar to the efficient railroad operation upon which the people of the City are so dependent.

In a matter as important and necessary as the carrying out of the West Side Improvement there should be a spirit of reasonable accommodation on all sides with a view to accomplishing results. The Commission has been at all times ready and willing to use its good offices to such an end and will use its legal powers to help toward a solution in any proper case.

Borough of The Bronx.

Grade crossings have been practically abolished in the Borough of The Bronx. There were five grade crossings in 1907, and of these 3 have been eliminated, leaving but 2 still to be disposed of.

Borough of Richmond.

Richmond Borough has 79 grade crossings on the lines of the Staten Island Railway and Staten Island Rapid Transit Railway, a number of which are particularly dangerous. In addition there are 29 private crossings which will ultimately be superseded by public streets as the City Plan is laid out and developed. Of the 79 public grade crossings, 6 have been ordered eliminated and money set aside for the State's one-quarter share of the cost, leaving 73 grade crossings on Staten Island that must be considered for elimination.

Borough of Brooklyn.

Brooklyn has 48 grade crossings. Sixteen of these crossings are on water front lines and dock terminals with infrequent, slow freight operation. I do not regard their present elimination as pressing. The remaining 32 crossings are on the Long Island Railroad. Of these, 22 are on the Evergreen Branch on which there is also infrequent, slow freight operation. Eight crossings are on the Atlantic Avenue Division, and 2 on the Bushwick Branch. These are of pressing and immediate importance, particularly those on the Atlantic Avenue Division.

Borough of Queens.

The Borough of Queens is fairly covered with grade crossings, a great many of which are particularly dangerous. In all there are 162 grade crossings in this borough, all on the Long Island Railroad. Seven of these crossings are on the Evergreen Branch, 7 are private ones, and 4 are on the Creedmoor Branch. The elimination of these crossings is not important at present. Three crossings at Richmond Hill on the Montauk Division are being eliminated under special agreement between The Long Island Railroad Company and the City. The Commission has ordered the elimination of 11 existing crossings and for the closing of another. There remains 129 crossings over which frequent train movements on high speed operation occur.

GRADE CROSSING ELIMINATION PROJECTS.

By reason of grades and other local conditions it is often impracticable to eliminate separate crossings. A number have to be taken together, and it is this combination or grouping of crossings that the engineers refer to as "elimination projects."

Mr. Selmar has reported the following elimination projects in Brooklyn, Queens and Richmond where frequent high speed operation is involved. In each case he has reported the number of crossings in each project and the estimated cost of elimination:

Borough of Brooklyn and Queens.

Project	No. of Crossings	Estimated Cost
Atlantic Div. bet. East New York and Jamaica.....	21	\$10,000,000
East New York Elim.—Atlantic Division.....	3	1,000,000
Ozone Park Elim.—Rockaway Beach Division.....	5	1,200,000
Springfield Elim.—Montauk Division.....	6	1,000,000
Bridge St., Flushing—Whitestone Branch.....	4	1,000,000
Auburndale—Bayside Elim.—North Side Division.....	2	1,000,000
St. Albans Elim.—Montauk Div.....	2	500,000
Far Rockaway Elim.—Far Rockaway Branch.....	11	3,000,000
Rockaway to Arverne Elim.—Rockaway Beach Div.....	26	7,000,000
Edgemere Elim.—Far Rockaway Branch.....	3	2,000,000
Elmhurst Elim.—North Side Division.....	1	300,000
Corona Elim.—North Side Division.....	4	1,000,000
College Point Elim.—Whitestone Branch.....	3	700,000
Whitestone Elim.—Whitestone Branch.....	3	600,000
Whitestone Landing Elim.—Whitestone Branch.....	2	200,000
Douglaston Elim.—North Side Division.....	1	100,000
Laurel Hill Blvd. Elim.—Montauk Division.....	1	200,000
Maspeth Elim.—Montauk Div.....	4	1,200,000
Glendale Elim.—Montauk Div.....	5	1,000,000
Long Island City Elim.—Main Line.....	4	1,000,000
Greenpoint Ave.—Montauk Div.....	1	200,000
Cedar Manor Elim.—Old Southern Division.....	4	800,000
Springfield Elim.—Old Southern Division.....	5	600,000
Rosedale Elim.—Montauk Div.....	3	1,000,000
Little Neck Elim.—North Side Div.....	1	10,000
Bushwick Branch.....	8	1,500,000
West St. Elim.—L. I. City.....	1	200,000
Old South Rd.—Rockaway Beach Div. at Aqueduct.....	1	200,000
Rockaway Beach Div.—		
(Trotting Course Lane).....	3	To be closed as per City Plan
(Centerville Ave.).....		
(Church St.).....		
Montauk Division—Trotting Course Lane.....	1	
Total for Brooklyn and Queens.....	139	\$38,510,000

Borough of Richmond.

Project	No. of Crossings	Estimated Cost
Bay St. Elim.....	1	\$500,000
Mariners Harbor—Port Richmond Elim.....	21	3,000,000
Stapleton Elim. (includes Arrietta Street).....	8	1,500,000
Maple Ave.—Chestnut Ave.—St. Mary's Ave.—Rosebank.....	3	100,000
Fort Wadsworth Elim.—Belair Rd. Ft. Wadsworth.....	3	500,000
South Beach Elim.....	1	500,000
Cedar Ave. Elim.—Arrochar.....	1	To be closed as per City Plan
Center St. Elim.—Clifton.....	1	200,000

Total for Brooklyn, Queens and Richmond.

Number of Projects	No. of Crossings	Estimated Cost
50	212	\$49,510,000

Grade Crossing Elimination on Staten Island.

The places on Staten Island where eliminations can be prosecuted to the best advantage are limited in number. Probably the most pressing situation is at Bay Street, Clifton, adjoining the new City piers, which cannot be fully utilized until the property along the shore ends is fully acquired. Track layouts connecting with the Staten Island Railway would also be involved in making plans for this elimination. The next location in importance is along the north shore at Port Richmond where 21 crossings require treatment as a group. Such a project would involve a total expense of at least \$3,000,000 which in view of the limited appropriation is out of the question at the present time.

In general, at the places on Staten Island where there is considerable traffic and population the expense involved is beyond present means. Furthermore, I am more and more inclined to the view that the proper solution of the Staten Island grade crossing situation is not under the Railroad Law but through the extension of City rapid transit. The two lines now furnishing transit service should be taken over by the City, reconstructed as high speed electric lines and connected with a properly designed tunnel under the Narrows and thereby with the main City rapid transit systems.

It is for these reasons that I do not recommend the allocation of any of the existing appropriation for grade crossing elimination on Staten Island. I do strongly urge the renewed consideration of the Staten Island situation from a rapid transit standpoint and the modification of the existing Staten Island Tunnel plans so as to fit in with the logical development of transit in that borough.

Atlantic Avenue Division of The Long Island Railroad.

Before discussing the allocation of the present appropriation of \$500,000 there should be special reference to grade crossing elimination on the Atlantic Avenue Division. The Long Island Railroad Company is now going ahead with elimination work between the Jamaica Station and the City Line. Logically the next set of grade crossings to be eliminated should be those west of Jamaica—between Jamaica and East New York. As shown above, 21 crossings would be involved in this project and the cost would be \$10,000,000, of which the State's share would be \$2,500,000. The crossings that would be eliminated are the following:

Norwood Avenue	Napier Avenue
Logan Street	Union Avenue (Freedom Avenue)
Euclid Avenue	Wyckoff Avenue
Crescent Street	Grant Avenue (Napier Place)
Railroad Avenue	Greenwood Avenue
Enfield Street (Elderts Lane)	Linden Avenue (Stoothoff Avenue)
Rockaway Plank Rd.	Jefferson Avenue (Walnut Avenue)
Shaw Avenue	Johnson Avenue (Church Avenue)
Benedict Avenue	Lefferts Avenue
Woodhaven Avenue	Beach Avenue
Vanderveer Place	

These crossings are probably regarded by our engineers as the most dangerous group of grade crossings in the City. Some of them are in sections already thickly built up where both pedestrian and vehicular traffic is extremely heavy. Serious accidents have occurred at some of these crossings, one last year in which three firemen were killed and two injured when a fire truck was struck by a train. The community traversed by this line of railroad is rapidly growing and highway traffic is greatly increasing. It is on the main line and high speed electric trains are run at frequent intervals under very intensive operation. Notwithstanding the best methods of protection which can be devised accidents cannot entirely be prevented.

In a communication dated April 20, 1923, addressed to Hon. Bernard Downing, Chairman of the Finance Committee of the State Senate, the Commission requested an appropriation by the State of \$2,500,000 for this important elimination project. The Legislature, however, found it was unable to comply with the Commission's request and the appropriation made by it was limited to \$500,000.

The Atlantic Division is the best example of the class of important grade crossings that cannot be reached under the policy of small annual appropriations. It can only be handled as a big job in a big way and that means a big appropriation. It was with this especially in mind that I stated earlier in this report that largely increased appropriations must be made in some years so that major eliminations can be put under way.

Allocation of Present Appropriations.

It is somewhat discouraging to approach the formidable list of grade crossing eliminations given above with the relatively small amount of money at hand. Important results—although not the most important—can be accomplished with \$2,000,000, and it remains to select those of the projects where that expenditure can do the most good at this time.

East New York Elimination.

If it were not for one consideration I would unhesitatingly select first the East New York elimination which will cost \$1,000,000. This is an important crossing with an elevated rapid transit structure and station over it. It is proposed to elevate the Long Island Railroad to connect with its present elevated structure to the east. East New York Avenue can pass under the railroad with but little change in grade. In my opinion it is most desirable to have the railroad company simultaneously with the elimination of the existing crossing expand the new structure from a 2- to a 4-track one. Simultaneously the railroad company could without unreasonable expense expand its present 2-track elevated structure to the east of this point to 4 tracks; reconstruct its Warwick Street Station as a local station with side platforms in place of the present island platform; and extend this 4-tracking a short distance to the east to a connection with the 4 tracks now there. All this would help most materially in improving the traffic conditions on the Atlantic Avenue Division which are now congested because of inadequate track facilities. Instead of having 4 tracks for a distance of but 1.3

miles as now, extending from Railroad Avenue to Woodhaven Junction, the elimination of the grade crossing on East New York Avenue and the 4-tracking outlined above would provide a stretch of three miles of 4-track road extending from East New York to Woodhaven Junction. This would result in a very marked improvement in traffic conditions.

My doubt about pressing this project arises out of the fact that on June 8, 1923, the Board of Estimate and Apportionment adopted the following resolution:

"Resolved, By the Board of Estimate and Apportionment, that a committee, consisting of the President of the Borough of Brooklyn, the President of the Borough of Queens, the Corporation Counsel and the Chief Engineer of this Board, be and hereby is appointed to confer with a duly qualified representative of the Long Island Railroad Company to the end that an agreement may be formulated for depressing the tracks of said company in Atlantic Avenue from Bedford Avenue in the Borough of Brooklyn to Van Wyck Avenue in the Borough of Queens."

Subsequently and under date of June 14, 1923, the Board of Estimate and Apportionment wrote the Commission, and after referring to this resolution said:

"In view of this action your attention is called to the undesirability of proceeding with the elimination of grade crossings at various points and expending funds for same when there may be a possibility of having the entire route placed underground."

Desirable as an Atlantic Avenue Boulevard with all tracks underground would be, I cannot but regard this proposition as chimerical. It would cost at least \$50,000,000 to carry out, and the plain truth of the matter is that neither the City nor the railroad company has any such amount of money in sight for such a purpose. It would add little to the operating capacity of the railroad, and The Long Island Railroad Company in the near future will have all it can do to obtain the large sums necessary to finance improvements that will furnish added service and accommodations.

I am very loath to press the East New York elimination until the Committee of the Board of Estimate and Apportionment has discussed this matter with the railroad officials and exhausted any possibility of carrying out the suggested plan. It may be that the public hearing hereinafter suggested will afford the opportunity for this matter being so threshed out that progress can be made on the grade crossing elimination.

Montauk Division—Merrick Road Elimination.

It is most desirable to eliminate the grade crossing on the Merrick Road, where it crosses the Montauk Division. The highway traffic at this point is intense. The elimination of this crossing involves the elimination of at least 6 others. There is considerable traffic on all these highways and they are in a territory that is steadily developing.

If the East New York elimination goes forward, I recommend eliminating the following crossings:

Farmers Avenue	Lakeview Avenue
Merrick Road	Willow Place
Springfield Road	Maple Avenue

which can be accomplished for \$800,000.

If the East New York elimination does not go forward, I recommend adding to the above the crossings at Central Avenue and Locust Avenue, which will increase the cost to \$1,200,000. This will clean out all the grade crossings on the Montauk Division from Hillside, where it leaves the main line just east of Jamaica, down to Springfield.

Cooper Avenue (Glendale) Elimination.

The Cooper Avenue crossing at Glendale on the Montauk Division is very heavily used by vehicles traveling to and from Brooklyn and Queens and out on Long Island. This elimination can readily be accomplished by raising the street grade to cross over the railroad tracks. The cost is estimated at \$200,000. In view of the heavy traffic, I recommend this elimination.

Broadway (Elmhurst) Elimination.

If the East New York elimination does not go forward, I believe the one at Broadway (Elmhurst) should be proceeded with. This grade crossing is directly east of the Elmhurst Station on the North Shore Division of the Long Island Railroad. East-

bound trains stopping at the Elmhurst Station come to a full stop before crossing Broadway, while westbound trains cross Broadway before making the stop. The records of the Commission show that since 1908 there have been 6 accidents at this crossing from which 4 fatalities resulted.

The crossing is protected by gates operated day and night. There is also a watchman, the usual "stop, look and listen" sign, and approach warning signs on the three streets leading to it. There is a very considerable train movement, as all trains for Whitestone and Port Washington pass this point. Broadway is one of the principal thoroughfares of the vicinity and street traffic is quite heavy.

This grade crossing is isolated, that is to say the elimination can be proceeded with by itself without involving any other crossings. The natural treatment would be to separate the grades by elevating the railroad to pass over the street with practically no change in the highway. It is estimated that such an elimination will cost close to \$500,000. Due to the fact that there is a small freight yard north of the main tracks and west of Broadway and streets paralleling the railroad on both its north and south sides, which necessitate retaining walls along the railroad, this is a comparatively expensive proposition for a single crossing elimination. Under all circumstances, however, I consider it abundantly justified.

Bridge Street (Flushing) Elimination.

Careful consideration has been given to the group of 4 crossings on the Whitestone Branch because of the very heavy traffic on Bridge Street, Flushing, on which a trolley line operates. Elimination of these crossings has been earnestly urged by the Flushing United Association through Mr. John Holley Clark. The only practical way to eliminate these grade crossings is by raising the grade of the railroad at a cost of over \$1,000,000.

Even if this elimination were authorized at this time, there would be many complications and delays before work could actually be proceeded with, as changes must be made in the bridge spanning Flushing Creek, a short distance to the west. The War Department and the City officials are now negotiating with respect to widening and deepening the channel in Flushing Creek, and the progress of these negotiations appears to be so slow that I do not think it desirable to undertake the elimination of these crossings at the present time, especially in view of the perhaps greater necessity at other places where the way is clear for the work to proceed.

On the basis of including the East New York elimination, the several projects recommended will cost \$2,000,000. Excluding East New York and making the recommended substitutions will cost \$1,900,000.

I have discussed these matters at some length with Vice President LeBoutillier of The Long Island Railroad Company and with some of his associates. Mr. LeBoutillier did not gainsay the prime importance of grade crossing elimination, but in view of other heavy engagements of his company he asked that it be relieved so far as possible of grade crossing work this year. He instanced the electrification of the Montauk Division to Babylon, but laid the greatest stress on the expense that might be imposed on the company by the so-called Kaufman Law of the last session, which requires the complete electrification of all railroads within the City limits of New York City before January 1, 1923. My understanding is that this law was aimed at the New York Central Company and its West Side operation. There are a number of places on the Long Island Railroad within City limits, such as the Evergreen Branch, where electrification, at this time at least, would be a mistake. Upon the presentation of the facts in these cases it is to be expected that the Legislature will favorably consider reasonable amendments. I told Mr. LeBoutillier that in my judgment favorable action by the Legislature was much more likely if the company did its full part on the grade crossing work.

In any event grade crossing evils are becoming more and more acute, and even though their elimination be a considerable financial strain, a railroad situated as the Long Island Railroad is must do its part. In the past 13 years the Long Island Railroad has only been called on to spend approximately \$2,500,000 for grade crossing work or an average of about \$200,000 a year. If called on to spend \$1,000,000 under this year's program its total is only raised to approximately \$3,500,000 and its annual average to about \$270,000.

With so many crossings calling for elimination, it is largely a matter of individual judgment to select the few that can be carried out now. The recommendations made

above represent the conclusions I have arrived at after a careful study with the aid of the Commission's engineers. I believe, however, that it would be a mistake for the Commission to adopt these recommendations before there has been full opportunity to check them by public consideration and discussion. In accordance with the Commission's uniform practice in such matters I suggest, therefore, that action on this report be held in abeyance until after a hearing at which the public and the officials of the railroad company may attend and express their views.

LEROY T. HARKNESS,
Commissioner.

Thereupon the above mentioned report was approved and the public hearing therein suggested was ordered to be held on November 21, 1923, at 11 A. M.

1522—Case No. 2702

Street Surface Railroad Corporations—Schedules of Service—Filing Order

The Secretary presented a report dated October 30, 1923, by the Chief of Transit Bureau recommending the adoption by the Commission of an order directed against street surface railroad corporations, requiring the filing of schedules of service.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2702 in the following form:

Present:

GEORGE McANENY,	} Commissioners.
Chairman,	
LEROY T. HARKNESS,	

IN THE MATTER
of the

Filing by street surface railroad companies and their receivers, if any, within the jurisdiction of the Transit Commission of schedules of passenger service operated on each line operated or controlled by them.

CASE No. 2702.
FILING ORDER.

Ordered, That all street surface railroad companies and their receivers, if any, and each of them, within the jurisdiction of the Transit Commission, be and they are hereby directed to do each and all of the following things, to wit:

1. File with this Commission within ten (10) days from the date of service of this order and three (3) days before their effective date a schedule showing as to each line operated or controlled by them or any of them the service which each of said companies or their receivers, if any, has established and is providing and is willing to provide and the number and headway of cars which such company is operating and is willing to continue to operate on each line until such time or times as such schedule shall be changed in the manner hereinafter provided and such schedules shall be signed and attested by the proper officers and agents of the company for which such schedule is submitted and shall show as to and for each line:

- (a) The route over which the operation of such line is to take place;
- (b) The car run numbers assigned to each line;
- (c) The terminals and car depots for such line;
- (d) The terminals of each run of cars on any part of such line;
- (e) The location of specific points, not less than five in number on a line

on which the running-time over the length thereof exceeds twenty (20) minutes, and two points on any other lines, past which the car of each run shall be scheduled to be operated at designated times of the day and night; such points, the runs, and the scheduled time at which each car on such run shall pass each such designated point, to be shown in and by the said schedules;

(f) Specific times of the day and night when the cars of each run shall be scheduled, respectively, to depart from such termini and to pass the designated points; and

(g) The active and idle car mileage provided by the schedule;

(h) A supplemental table on the schedule showing the headway between each time point on the schedule, also the number of cars required to operate the schedule during the a. m. rush hours, the midday hours and the p. m. rush hours.

Provided, however, that at any time after the filing of any such schedule or schedules the said company may make changes in or additions to any schedule filed by it upon filing with the Commission a supplemental schedule setting forth fully the changes or additions to be made in the schedule last theretofore filed.

It is further provided that any schedules now on file with the Commission which comply with and conform to the requirements of this Order may upon suitable notice by the company to the Commission to that effect be deemed as filed by the company as in compliance herewith and to be observed by the company accordingly.

It is further provided that any provision of any order or any orders inconsistent with the requirements hereof, be and the same hereby is deemed abrogated but only as to such inconsistent provision.

Further Ordered, That this order take effect at once.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1523—S. P. 754

Nassau Electric Railroad Company—Application for Special Permission to Continue Operation for One Year of Park Avenue Line, Exempting Transfer Requirement—Special Permission Adopted

The Secretary presented a communication dated October 29, 1923, from M. B. Hoffman, Assistant Counsel of the Nassau Electric Railroad Company, requesting that the Commission make an order continuing for one year the operation of the Park Avenue Line and exempting the exchange of free transfers.

Thereupon the Commission adopted and ordered filed Special Permission No. 754 reading as follows:

Present:

GEORGE McANENY,
Chairman, } Commissioners.
LEROY T. HARKNESS, }

IN THE MATTER
of the

Application of The Nassau Electric Railroad Company for special permission to continue on file Revised Sheet No. 52 to its Local and Joint Passenger Tariff No. 1, providing for the continuance of the resumption of service on its Park Avenue Line, between Central Avenue, Cooper Street and Washington and Sands Streets, via Central Avenue, Jefferson Street, Bushwick Avenue, Beaver Street, Park Street, Park Avenue, Navy Street, Concord Street and Washington Street, exchanging free transfers with the lines operated to Park Row by The Coney Island and Brooklyn Railroad Company at Sands Street.

SPECIAL PERMISSION
No. 754.

Whereas, The Nassau Electric Railroad Company, by M. B. Hoffman, Assistant Counsel, has made application in writing, dated October 29, 1923, for an Order continu-

ing for a period not exceeding one year, the operation of the Park Avenue Line, approved by Special Permission No. 734, dated October 24, 1922, and

Whereas, Under Chapter 748 of the Laws of 1923, the Commission is authorized to make the Order herein applied for, it is

Ordered, That Special Permission No. 754, be and hereby is granted authorizing The Nassau Electric Railroad Company to continue in effect for a period of one year from November 2, 1923, the schedules in respect to the Park Avenue Line, now on file with the Commission.

Further Ordered, That the provisions of any charter or franchise or agreement whereby The Nassau Electric Railroad Company, in operating the street railway line, commonly known as the Park Avenue Line, is obliged to issue, receive or exchange transfers to and from connecting lines be and the same hereby are suspended and waived for a period of one year from November 2, 1923, except as in said schedules otherwise provided.

Further Ordered, That this Order and special permission take effect November 2, 1923.

By the COMMISSION,
JAMES B. WALKER,
Secretary.

1524—Case No. 2601

Sixth Avenue Railroad Company and Ninth Avenue Railroad Company—Complaint of S. M. Jackson Jacobs as to Failure of Receiver to Honor Transfers at 53rd Street—Report by Counsel of Affirmance by Court of Appeals of Order of Appellate Division Affirming Commission's Order—Filed

The Secretary presented a report dated October 25, 1923, by George H. Stover, Assistant Counsel, approved by Counsel, advising that on October 23, 1923, the Court of Appeals unanimously affirmed without opinion the order of the Appellate Division, First Department, which had affirmed the order of the Commission in Case No. 2601 adopted July 12, 1921, directing Job E. Hedges, Receiver of the Sixth Avenue Railroad Company, to honor transfers of the Ninth Avenue Railroad Company at 53rd Street, Manhattan.

Thereupon the above mentioned report was ordered filed.

1525

The Long Island Railroad Company—New Tariff Supplement Relating to Rates on Shipments of Milk, Buttermilk, Cheese, etc.—Report by Chief of Bureau of Complaints and Traffic—Filed

The Secretary presented Tariff Supplement No. 2 to T. C.—N. Y. No. 189 filed by The Long Island Railroad Company on October 22, 1923, effective November 20, 1923, relating to rates on carload shipments of milk, skimmed milk, buttermilk, pot cheese, cream and condensed milk.

The Secretary also presented a report dated October 22, 1923, by the Chief of Bureau of Complaints and Tariffs advising the new tariff reduces the rate per quart from 1-1/5c to 1c and the minimum charge of \$15 per car was increased to \$30 per car, that the only shipper affected was the Sheffield Farms Co., Inc., who had advised that they were satisfied.

Thereupon the above mentioned papers were filed.

1526—R. T. 7367

Routes Nos. 35 & 67—Receipt from Department of Finance for Check in Sum of \$3,000 for Changes in Subway Ventilating Chamber in Front of the Premises at Nos. 119-127 West 41st Street, Borough of Manhattan—Filed

The following receipt was ordered filed:

October 23, 1923.

THE CITY OF NEW YORK—DEPARTMENT OF FINANCE
BUREAU OF ACCOUNTANCY
DIVISION OF RECEIPTS

Received from Transit Commission check for Three Thousand Dollars (\$3,000.00). Estimated cost of construction, pursuant to an agreement dated September 21, 1923, between Rudolph Wurlitzer & Company and the City of New York by the Transit Commission, of a subway ventilating chamber in front of premises Nos. 119-127 West 41st Street, New York.

To be deposited to the credit of account S 915—Miscellaneous Receipts from the Transit Commission for work done by Contractors not included within the provisions of their contracts.

For Comptroller,
H. H. RATHYEN.

1527—R. T. 7644

Agreement "CP"—Notice by Chief Engineer of Commencement of Work for Changes in Structure to Provide for Crossover on Section No. 5 of Route No. 8—Filed

A notice was ordered filed from the Chief Engineer dated October 24, 1923, advising of the commencement of work by David Levy on October 22, 1923, for making changes in the subway structure so as to provide for a crossover on Section No. 5 of Route No. 8, Agreement "CP".

1528

Leases—Proposed Lease of Seventh Floor of Premises at Nos. 54-60 Lafayette Street, Borough of Manhattan—Approval Resolution

The following resolution was adopted:

Resolved, That this Commission do and it hereby does approve the proposed form of lease from the Civic Centre Company, now submitted to this Commission, covering entire seventh floor of the building located at and designated as Nos. 54-60 Lafayette Street, Borough of Manhattan, City of New York, to be occupied as an office and drafting room of the Commission for a term commencing from the 15th day of December, 1923, to the 15th day of December, 1928, at the annual rental of Ten Thousand (\$10,000) dollars, payable in monthly installments and that the Chairman and Secretary of this Commission be and hereby are authorized and directed to execute and deliver said lease for and on behalf of this Commission.

1529

Employees' Calendar No. 173

On motion, duly seconded, the following resolution was unanimously adopted:

Resolved, That this Commission takes the following action with reference to employees.

Appointment under Rule VIII:9—Anthony J. Donargo, draftsman, at \$175.08 per month, to take effect November 9, 1923; Maurice Friedlander, engineering inspector, at \$150.08 per month, to take effect November 5, 1923; Louis S. Kirjassoff, draftsman, at \$175.08 per month, to take effect November 5, 1923; William Y. Llewelyn, inspector of steel, at \$175.00 per month, to take effect November 23, 1923; Herbert W. Steinbeck, draftsman, at \$175.08 per month, to take effect November 10, 1923.

Reinstatement under Rule XVI:1—Stephen M. Bochales, inspector of equipment, at \$125.08 per month, to take effect May 1, 1923.

Resignations—Charles C. Duffy, junior assistant, at \$125.08 per month, to take effect October 10, 1923; Joseph I. Garfunkel, draftsman, at \$175.08 per month, to take effect November 3, 1923; Benjamin Harris, draftsman, at \$175.08 per month, to take effect October 27, 1923.

Termination of Appointment under Rule VIII:4—Anthony J. Donargo, draftsman, at \$175.08 per month, to take effect November 8, 1923; Maurice Friedlander, engineering inspector, at \$150.08 per month, to take effect November 4, 1923; Louis S. Kirjassoff, draftsman, at \$175.08 per month, to take effect November 4, 1923; William Y. Llewelyn, inspector of steel, at \$175.00 per month, to take effect November 22, 1923; Herbert W. Steinbeck, draftsman, at \$175.08 per month, to take effect November 9, 1923.

Leave of Absence with Pay—Simon Lipschitz, clerk, from October 13, 1923, to October 19, 1923.

Leave of Absence without Pay—Stephen M. Bochales, inspector of equipment, from May 1, 1923, to November 6, 1923.

1530

Voucher Schedule No. 45

The following resolution was adopted:

Resolved, That this Commission approves the bills and the vouchers covering them, as enumerated below, and directs that the said vouchers be transmitted for payment to the Comptroller of The City of New York, or to the Comptroller of the State of New York, as the vouchers may direct:

Vouchers Nos. 1002-1014, open market orders, \$2,152.42; Vouchers Nos. 189-192; 194-197, City payrolls, \$35,180.37; Voucher No. 193, City payroll, \$58,755.87; Voucher No. CM-21, State payroll, \$2,541.66.

Estimates by Chief Engineer of Value of Work Done and Material Furnished for the Construction of Rapid Transit Lines for the Periods Indicated Below:

Voucher No. 284; B. T. & J. J. Mack, Inc.; Final Estimate for the construction of transformer closets for emergency lighting for part of the Broadway-Fourth Avenue Rapid Transit Railroad, to October 8, 1923 (R. T. 7587) \$1,628.29;

Voucher No. 285; Comptroller of The City of New York; approximate estimate No. 1 for a quantity of broken stone stored on the Jerome Avenue Reservoir site, from July 19, 1922 to September 30, 1923 (R. T. 7307) \$5,127.10.

1531

Upon motion duly seconded and adopted, the meeting was adjourned to Wednesday, November 7, 1923.

1532—Case No. 2699

Hearing

The following hearing was adjourned:

Case No. 2699; Manhattan Bus Corporation; Application for a certificate of public convenience and necessity for the operation of a stage route by auto buses on certain streets in the Borough of Manhattan. Adjourned to November 13, 1923, at 10:30 A. M.

JAMES B. WALKER,
Secretary.

PROCEEDINGS OF
TRANSIT COMMISSION

49 Lafayette Street
Borough of Manhattan, City of New York

Proceedings for Friday, November 2, 1923

Present: George McAneny, Chairman; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1533—R. T. 7702

Route No. 52, Section No. 2—Receipt of Bids for Furnishing and Erecting Structural Steel for Part of Flushing Line—Referred to Chief Engineer

Chairman McAneny stated that the time within which to receive bids for furnishing and erecting structural steel for Section No. 2 of Route No. 52, part of the Flushing Line, had elapsed at 11:30 A. M., and directed the Secretary to open the sealed box, which had been provided for the deposit of such bids, and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the five bids received. The bids were then referred to the Chief Engineer.

1534—R. T. 7602

Route No. 52, Section No. 2—Receipt of Bids for Construction of Column Foundations for Part of Flushing Line—Referred to Chief Engineer

Chairman McAneny stated that the time within which to receive bids for the construction of column foundations for Section No. 2 of Route No. 52, part of the Flushing Line, had elapsed at 11:30 A. M., and directed the Secretary to open the sealed box, which had been provided for the deposit of such bids, and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the fourteen bids received. The bids were then referred to the Chief Engineer.

1535—R. T. 3013

Agreement "CR"—Receipt of Bids for Relocation of Entrances to 157th Street Station—Referred to Chief Engineer

Chairman McAneny, stated that the time within which to receive bids for relocation of entrances to 157th Street Station of the Manhattan-Bronx Rapid Transit Railroad—Agreement "CR", had elapsed at 11:30 A. M., and directed the Secretary to open the sealed box, which had been provided for the deposit of such bids, and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the five bids received. The bids were then referred to the Chief Engineer.

1536—R. T. 7701

Route No. 18, Section No. 1—Receipt of Bids for Installation of Frogs, Switches, and Tracks at 180th Street Yard—Referred to Chief Engineer

Chairman McAneny stated that the time within which to receive bids for the installation of frogs, switches and tracks, and preparation of tracks for the storage of cars at the 180th Street Yard, Section No. 1 of Route No. 18, had elapsed at 11:30 A. M., and directed the Secretary to open the sealed box, which had been provided for the deposit of such bids, and to read the bids received. The Secretary presented the proper affidavits of publication and opened the box and read the two bids received. The bids were then referred to the Chief Engineer.

JAMES B. WALKER,
Secretary.

Proceedings for Wednesday, November 7, 1923

Present: George McAneny, Chairman; LeRoy T. Harkness, Commissioner; James B. Walker, Secretary.

The following matters were presented and action taken as noted:

1537

The Minutes of the Proceedings for the month of August, 1923, were approved.

1538—R. T. 7702

Route No. 52, Section No. 2—Resolution Authorizing Release of Checks to All But Lowest Bidder for Furnishing and Erecting Structural Steel for Part of Flushing Line—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on November 2, 1923 for furnishing and erecting structural steel on Section No. 2 of Route No. 52, Flushing Line, the Secretary be and he hereby is authorized and directed to return to all except the lowest bidder the certified checks in the sum of Five thousand dollars (\$5,000) each deposited with their bids.

1539—R. T. 7602

Route No. 52, Section No. 2—Resolution Authorizing Release of Checks to All But Lowest Bidder for Construction of Column Foundations for Part of Flushing Line—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on November 2, 1923, for the construction of column foundations on Section No. 2 of Route No. 52, Flushing Line, the Secretary be and he hereby is authorized and directed to return to all except the lowest bidder the certified checks in, the sum of Five thousand dollars (\$5,000) each deposited with their bids.

1540—R. T. 3013

Agreement "CR"—Resolution Authorizing Release of Checks to All But Lowest Bidder for Relocation of Entrances to the 157th Street Station—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on November 2, 1923, for the relocation of entrances to the 157th Street Station of the Manhattan-Bronx Rapid Transit Railroad—Agreement "CR," the Secretary be and he hereby is authorized and directed to return to all except the lowest bidder, the certified checks in the sum of Three Hundred (\$300.00) Dollars, each, deposited with their bids.

1541—R. T. 7701

Route No. 18—Resolution Authorizing Release of Checks to All But Lowest of Bidders for Installation of Frogs, Switches and Tracks, at 180th Street Yard—Adopted

The following resolution was adopted:

Resolved, That upon the receipt of the report by the Chief Engineer as to the bids received on November 2, 1923, for the installation of frogs, switches and tracks, and preparation of tracks for storage of cars—180th Street Yard, the Secretary be and he hereby is authorized and directed to return to all except the lowest bidder, the certified checks in the sum of Five Hundred (\$500.00) Dollars, each, deposited with their bids.

1542—R. T. 7702

Route No. 52, Section No. 2—Report by Chief Engineer as to Receipt of Bids for Furnishing and Erecting Structural Steel for Part of Flushing Line and Recommendation for Award of Contract to The Jobson-Gifford Company at Bid Price of \$443,239—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

November 5, 1923.

To the TRANSIT COMMISSION:

Award of Contract for Furnishing and Erecting Structural Steel, Route No. 52, Section No. 2, Flushing Route, to Jobson-Gifford Co.

On November 2, 1923 the following bids were received for Furnishing and Erecting Structural Steel for a part of a Rapid Transit Railroad, Flushing Route, Route No. 52, Section 2:

Name	Amount
1. The Jobson-Gifford Company.....	\$443,239.00
2. McClintic-Marshall Company	456,935.00
3. Post & McCord	460,061.50
4. Bethlehem Steel Company	468,619.00
5. The Phoenix Bridge Company	473,223.00

Our estimate for this work amounted to \$509,400.

I have examined the bid of Jobson-Gifford Co., the lowest bidder, and find the prices reasonable. This Company is now successfully carrying out the contract for the Commission under Agreement "BZ," Routes 36 and 37, Section No. 1, making changes in steel work at the easterly approach of the Queensboro Plaza Station. This Organization has also successfully done a great deal of work for the New York Municipal Railway Corporation in connection with third tracking that Corporation's elevated lines in Brooklyn.

I transmit herewith copy of minutes of a conference held in my office today with representatives of this Company as well as of its financial statement.

I consider the Jobson-Gifford Co. well qualified to carry out the work under this contract.

Recommendation: From an engineering standpoint I recommend that the contract for Furnishing and Erecting Structural Steel for a part of a Rapid Transit Railroad,

Flushing Route, Route No. 52, Section No. 2, be awarded to the lowest bidder, Jobson-Gifford Co. at its bid figure of \$443,239 and that a requisition be made on the Board of Estimate and Apportionment for an appropriation of this amount to be charged to Contract No. 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for furnishing and erecting structural steel for part of the Flushing Line, Route No. 52, Section No. 2, was finally adopted on October 16, 1923 and subsequent to advertisement duly made, bids respectively totalling as follows were received on November 2, 1923:

The Jobson-Gifford Company	\$443,239.00
McClintic-Marshall Company.....	456,935.00
Post & McCord	460,061.50
Bethlehem Steel Company	468,619.00
The Phoenix Bridge Company	473,223.00

; and

Whereas, The Chief Engineer of this Commission by communication dated November 5, 1923 has reported that the amount of said bid is reasonable and that the said Jobson-Gifford Company, the low bidder, is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$443,239, the amount estimated to be necessary to carry out said proposed contract,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of the Jobson-Gifford Company submitted as aforesaid be and the same hereby is accepted and the said proposed contract for furnishing and erecting structural steel for part of Flushing Line, Route No. 52, Section No. 2 be and the same hereby is awarded to said Jobson-Gifford Company, subject to its being approved and consented to in form and substance as required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$443,239, estimated to be necessary to meet the City's obligation under said proposed contract be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment as authorized by the above resolution was as follows:

November 7, 1923.

**BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.**

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission and The Jobson-Gifford Company for furnishing and erecting structural steel for part of Flushing Line, Route No. 52, Section No. 2, together with a requisition upon your Honorable Board for the appropriation of the sum of Four Hundred and Forty-three Thousand, Two Hundred and Thirty-nine Dollars (\$443,239), being the estimated amount necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for said proposed contract and bids were received on November 2, 1923 respectively totalling as follows:

The Jobson-Gifford Company.....	\$443,239.00
McClintic-Marshall Company	456,935.00
Post & McCord.....	460,061.50
Bethlehem Steel Company.....	468,619.00
The Phoenix Bridge Company.....	473,223.00

The Chief Engineer of this Commission in a communication dated November 5, 1923 reports that the bid of The Jobson-Gifford Company, the low bidder is reasonable and that the said company is competent and financially capable of carrying out the

provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to said The Jobson-Gifford Company subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Four Hundred and Forty-three Thousand, Two Hundred and Thirty-nine Dollars (\$443,239) and also to direct the Comptroller of The City of New York to issue the bonds of said City at such rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligation under said proposed contract, to wit, the sum of Four Hundred and Forty-three Thousand, Two Hundred and Thirty-nine Dollars (\$443,239).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of Corporate Stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1543—R. T. 7602

Route No. 52, Section No. 2—Report by Chief Engineer as to Receipt of Bids for Construction of Column Foundations for Part of Flushing Line and Recommendation for Award of Contract to Gotham Construction Corporation at Bid Price of \$149,830—Approval Resolution—Requisition upon Board of Estimate and Apportionment—Communication to Commissioner of Plant and Structures

The following report was approved:

November 5, 1923.

To: the TRANSIT COMMISSION:

Subject: *Award of Contract for Column Foundations, Flushing Route No. 52, Section No. 2, to Gotham Construction Corp.*

On November 2, 1923 the following bids were received for Construction of Column Foundations for a part of a Rapid Transit Railroad, Flushing Route, Route No. 52, Section No. 2:

Name	Amount
1. Gotham Construction Corporation.....	\$149,830.00
2. Phoenix Construction Co.....	154,168.00
3. McHarg-Barton Co.	157,920.00
4. Donnell-Zane Co., Inc.....	158,285.00
5. James E. Gaffney.....	162,524.00
6. Slattery Engr'g. & Constr. Co. Inc.....	167,550.00
7. John D. Walsh, Inc.....	169,420.00
8. Ward & Tully, Inc.....	170,145.00
9. Dominick Bonacci	171,410.00
10. Gustin-Morris Contr'g. Corp.....	173,942.50
11. Rosenthal Engr'g. Contr'g Co.....	179,180.00
12. Thomas Crimmins Contr'g. Co.....	187,150.00
13. T. J. Waters Co.....	211,640.00
14. Michael Del Balso.....	227,400.00

Our estimate for this work amounted to \$196,715.

I have examined the bid of Gotham Construction Corporation, the lowest bidder, and find the prices reasonable.

The Gotham Construction Corporation has not previously done any work for the Commission but its president, W. G. Cooper has done considerable work for the Public Service Commission and the Transit Construction Commissioner either under the name

of Cooper & Evans or W. G. Cooper, Inc. amounting in all to more than \$2,500,000 and his work in general has been satisfactory.

I transmit herewith copy of minutes of a conference held in my office today with representatives of the Gotham Construction Corporation in which a statement is made in regard to the financial status of the Corporation.

Recommendation: From an engineering standpoint I recommend that the contract for Construction of Column Foundation for a part of a Rapid Transit Railroad, Flushing Route, Route No. 52, Section No. 2, be awarded to the lowest bidder, Gotham Construction Corporation at its bid figure of \$149,830 and that a requisition be made on the Board of Estimate and Apportionment for an appropriation of this amount to be charged to Contract No. 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for construction of column foundations for part of the Flushing Line, Route No. 52, Section No. 2 was finally adopted on October 16, 1923 and subsequent to advertisement duly made bids respectively totalling as follows were received on November 2, 1923:

Name	Amount
Gotham Construction Corporation.....	\$149,830.00
The Phoenix Construction Company.....	154,168.00
McHarg-Barton Company	157,920.00
Donnell-Zane Company, Inc.....	158,285.00
James E. Gaffney.....	162,524.00
Slatery Engineering & Construction Co. Inc.....	167,550.00
John D. Walsh, Inc.....	169,420.00
Ward & Tully, Inc.....	170,145.00
Dominick Bonacci	171,410.00
Gustin-Morris Contracting Corporation.....	173,942.50
Rosenthal Engineering Contracting Co.....	179,180.00
Thomas Crimmins Contracting Co.....	187,150.00
T. J. Waters Company.....	211,640.00
Michael Del Balso.....	227,400.00

; and

Whereas, The Chief Engineer of this Commission by communication dated November 5, 1923 has reported that the amount of said bid is reasonable and that the said Gotham Construction Corporation, the low bidder, is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to it and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$149,830, the amount estimated to be necessary to carry out said proposed contract,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of Gotham Construction Corporation submitted as aforesaid be and the same hereby is accepted and the said proposed contract for construction of column foundations for part of the Flushing Line, Route No. 52, Section No. 2, be and the same hereby is awarded to said Gotham Construction Corporation subject to its being approved and consented to in form and substance as required by law and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$149,830 estimated to be necessary to meet the City's obligation under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment as authorized by the above resolution was as follows:

November 7, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable

Board as required by law a proposed contract to be entered into between The City of New York acting by the Transit Commission and Gotham Construction Corporation for construction of column foundations for part of the Flushing Line, Route No. 52, Section No. 2, together with a requisition upon your Honorable Board for the appropriation of the sum of One Hundred and Forty-nine Thousand, Eight Hundred and Thirty Dollars (\$149,830) being the amount estimated to be necessary to meet the City's obligation under said proposed contract.

Advertisement has been duly made for proposals of said proposed contract and bids were received on November 2, 1923, respectively totalling as follows:

Gotham Construction Corporation.....	\$149,830.00
The Phoenix Construction Company.....	154,168.00
McHarg-Barton Company	157,920.00
Donnell-Zane Company, Inc.	158,285.00
James E. Gaffney	162,524.00
Slattery Engineering & Construction Co., Inc.....	167,550.00
John D. Walsh, Inc.....	169,420.00
Ward & Tully, Inc.....	170,145.00
Dominic Bonacci	171,410.00
Gustin-Morris Contracting Corporation	173,942.50
Rosenthal Engineering Contracting Co.....	179,180.00
Thomas Crimmins Contracting Co.....	187,150.00
T. J. Waters Company.....	211,640.00
Michael Del Balso	227,400.00

The Chief Engineer of this Commission in a communication dated November 5, 1923 reports that the bid of Gotham Construction Corporation, the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract and the Transit Commission has accepted said bid and awarded said proposed contract to the said Gotham Construction Corporation, subject to its being approved and consented to in form and substance as required by law.

Your Board is therefore requested to consent to said proposed contract herewith submitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of One Hundred and Forty-nine Thousand, Eight Hundred and Thirty Dollars (\$149,830) and also to direct the Comptroller of The City of New York to issue the bonds of said City at such rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligation under said proposed contract, to wit, the sum of One Hundred Forty-nine Thousand, Eight hundred and thirty Dollars (\$149,830).

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York acting by the Public Service Commission and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

The following communication to the Commissioner of Plant and Structures, was approved:

November 7, 1923.

Hon. GROVER A. WHALEN,
Commissioner of Plant & Structures,
Municipal Building,
New York, N. Y.
Dear Sir:

You will recall that the Board of Estimate and Apportionment by resolution adopted June 1, 1923, authorized your department to proceed with the preparation of plans for prosecuting the work of constructing the joint rapid transit and highway bridge over the Flushing River as a link in the extension of the Corona Branch of the Queensboro Rapid Transit Railroad from its present terminus to Main Street, Flushing.

The Commission at its meeting today awarded two contracts for the construction of column foundations and the supply and erection of structural steel for the second section of this proposed extension, which completes the construction work to be placed under contract for said extension by this Commission.

The Commission communicates this information to you for the purpose of apprising you of the present status of this work with a view to cooperation in the effort to complete this very important extension for use by the travelling public at the earliest possible time.

Yours very truly,
JAMES B. WALKER,
Secretary.

1544—R. T. 3013

Agreement "CR"—Report by Chief Engineer as to Receipt of Bids for Relocation of Stairways at 157th Street Station and Recommendation for Award of Contract to John Riches, at Bid Price of \$51,911.50—Approval Resolution—Requisition upon Board of Estimate and Apportionment

The following report was approved:

November 3, 1923.

To: TRANSIT COMMISSION.

Subject: *Award of Contract for work under Agreement "CR" to John Riches.*

On November 2, 1923, the following bids were received for work under Agreement "CR," Relocation of Entrances to the 157th Street Station of the Manhattan-Bronx Rapid Transit Railroad, Borough of Manhattan, Contract No. 1:

Name	Amount
1. John Riches	\$51,911.50
2. Frank Persicano	54,951.70
3. Norman A. Deiser	61,793.00
4. Edward Balaban & Co.....	79,765.50
5. Maurice D. Walsh	85,100.00

Our estimate for this work amounts to \$50,554.50.

I have looked into the prices quoted by the lowest bidder and find them reasonable.

John Riches has been connected with subway construction for a number of years in the capacity of superintendent of construction for other contractors and as subcontractor. He had a contract in his own name for restoration of sidewalk surface and street grade including raising car tracks on Lexington Avenue amounting to about \$21,700, which was carried out successfully. His work has been very satisfactory.

I transmit herewith a copy of minutes of a conference held in my office today with Mr. Riches containing his financial statement, and also copy of letter from his wife dated November 3rd stating that she would furnish financial assistance to Mr. Riches if required.

The work under the above agreement is to be done to permit of widening the roadway at Broadway and 157th Street as requested by the Borough Authorities.

On January 19, 1923, the Board of Estimate and Apportionment passed the following resolution:

"Resolved, by the Board of Estimate and Apportionment, that pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding twenty-six thousand dollars (\$26,000) which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which, to the amount of the par value thereof to be used for the relocation of subway stairways at the southeast and northwest corners of 157th Street and Broadway, and work incidental thereto, under the jurisdiction of the President, Borough of Manhattan; the work of such relocation to be performed by the operating company under the supervision of the Transit Commission the cost thereof to be certified upon vouchers prepared by the Transit Commission and endorsed by the President of the Borough of Manhattan."

Since the original estimate of \$26,000 was made for this work, the amount of work was increased at the request of the Borough Authorities by the inclusion of additional pavement and curbing. Furthermore, the detailed study during the preparation of

plans for this work developed that changes would be required of various subsurface structures not previously expected. In addition to this, since the estimate was made in September, 1922, the cost of construction has advanced very materially and in accordance with the index of the Engineering News-Record this advance was about 30%. It was originally expected that this work would be done under an agreement with the Operating Company but in view of the fact that the cost was in excess of \$25,000, counsel advised that it was necessary to advertise for competitive bids.

Recommendation: It is respectfully recommended that the contract under the Agreement "CR," Relocation of Entrances to the 157th Street Station of the Manhattan-Bronx Rapid Transit Railroad, Borough of Manhattan, Contract No. 1, be awarded to the lowest bidder, John Riches, at his bid figure of \$51,911.50 and that the Board of Estimate and Apportionment be requested to rescind its resolution of January 19, 1923 in reference to this work and instead to make an appropriation of \$51,911.50 to cover the cost thereof, the amount to be taken from other than Rapid Transit funds and the work to be done by John Riches under Agreement "CR."

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The Board of Estimate and Apportionment by resolution adopted January 19, 1923 authorized the performance of the work, as a highway improvement, of relocating subway stairways at the southeast and northwest corners of 157th Street and Broadway, Borough of Manhattan, appropriating the sum of \$26,000, therefore, and directing that this Commission certify the cost thereof; and

Whereas, The form of the proposed contract for relocation of entrances to the 157th Street Station of the Manhattan-Bronx Rapid Transit Railroad, Borough of Manhattan, Contract No. 1, Agreement "CR", was finally adopted on October 16, 1923 and subsequent to advertisement duly made bids respectively totalling as follows were received on November 2, 1923.

John Riches	\$51,911.50
Frank Persicano	54,951.70
Norman A. Deiser.....	61,793.00
Edward Balaban & Co.....	79,765.50
Maurice D. Walsh.....	85,100.00

; and

Whereas, The Chief Engineer of this Commission by letter dated November 3, 1923, stated in part as follows:

"Since the original estimate of \$26,000 was made for this work, the amount of work was increased at the request of the Borough Authorities by the inclusion of additional pavement and curbing. Furthermore, the detailed study during the preparation of plans for this work developed that changes would be required of various subsurface structures not previously expected. In addition to this, since the estimate was made in September, 1922, the cost of construction has advanced very materially and in accordance with the index of the Engineering News-Record this advance was about 30%. It was originally expected that this work should be done under an agreement with the Operating Company but in view of the fact that the cost was in excess of \$25,000, counsel advised that it was necessary to advertise for competitive bids."

that the amount of said bid is reasonable and that the said John Riches, the low bidder is financially able and competent to perform the work under said proposed contract and has recommended the award of said proposed contract to him and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$51,911.50, the amount estimated to be necessary to carry out said proposed contract,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of John Riches submitted as aforesaid be and the same hereby is accepted and the said proposed contract for relocation of entrances to the 157th Street Station of the Manhattan-Bronx Rapid Transit Railroad, Borough of Manhattan, Contract No. 1, Agreement "CR", be and the same hereby is awarded to said John Riches, subject to its being approved and consented to in form and substance as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment in the form now submitted by Counsel for the consent of said Board and the appropriation of the sum of \$51,911.50

estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment as authorized by the above resolution was as follows:

November 7, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

Your Honorable Board on January 19, 1923 adopted the following resolution:

"Resolved, By the Board of Estimate and Apportionment, that pursuant to the provisions of section 189 of the Greater New York Charter, the Comptroller is hereby authorized to issue tax notes of The City of New York in an amount not exceeding twenty-six thousand dollars (\$26,000) which shall be included in annual tax levies, in the manner provided by said section 189 of the Charter, the proceeds of which, to the amount of the par value thereof to be used for the relocation of subway stairways at the southeast and northwest corners of 157th Street and Broadway, and work incidental thereto, under the jurisdiction of the President, Borough of Manhattan; the work of such relocation to be performed by the operating company under the supervision of the Transit Commission, the cost thereof to be certified upon vouchers prepared by the Transit Commission and endorsed by the President of the Borough of Manhattan."

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, accordingly transmits herewith for the consent of your Honorable Board as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and John Riches, for relocation of entrances to the 157th Street Station of the Manhattan-Bronx Rapid Transit Railroad, Borough of Manhattan, Contract No. 1, Agreement "CR," together with a requisition upon your Honorable Board for the appropriation of the sum of Fifty-one thousand, nine hundred and eleven dollars and fifty cents (\$51,911.50), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on November 2, 1923, respectively totalling as follows:

John Riches	\$51,911.50
Frank Persicano	54,951.70
Norman A. Deiser	61,793.00
Edward Balaban & Co.	79,765.50
Maurice D. Walsh	85,100.00

The Chief Engineer of this Commission, in a communication dated November 3, 1923 reports that the bid of John Riches, the low bidder, is reasonable, and that he is competent and financially capable of carrying out the provisions of said contract, and the Transit Commission has accepted said bid and awarded said proposed contract to the said John Riches, subject to its being approved and consented to in form and substance as required by law.

In said report the Chief Engineer further states:

"Since the original estimate of \$26,000 was made for the work, the amount of work was increased at the request of the Borough Authorities by the inclusion of additional pavement and curbing. Furthermore, the detailed study during the preparation of plans for this work developed that changes would be required of various subsurface structures not previously expected. In addition to this, since the estimate was made in September, 1922, the cost of construction has advanced very materially and in accordance with the index of the Engineering News-Record this advance was about 30%. It was originally expected that this work would be done under an agreement with the Operating Company but in view of the fact that the cost was in excess of \$25,000, counsel advised that it was necessary to advertise for competitive bids."

Your Honorable Board is therefore requested to consent to said proposed agreement herewith transmitted and to modify the resolution of January 19, 1923 aforesaid, so as to increase the sum authorized to be acquired to the amount of said low bid upon

which the conditional award of said proposed agreement is predicated, to wit, the sum of Fifty-one thousand, nine hundred and eleven dollars and fifty cents (\$51,911.50) and, also, to delete the condition that the work be performed "by the operating company."

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1545—R. T. 7701

Route No. 18, Section No. 1—Report by Chief Engineer as to Receipt of Bids for Installation of Tracks, etc. in 180th Street Yard and Recommendation for Award of Contract to McElroy & Kerwin, at Bid Price of \$15,285—Approval Resolution—Requisition upon Board of Estimate and Apportionment for Appropriation of \$16,000

The following report was approved:

November 5, 1923.

To the TRANSIT COMMISSION:

Proposed Contract for the Installation of Tracks in the 180th Street Yard—White Plains Road Line, Route 18.

As reported in my communication of November 3rd, bids were received November 2nd for the installation of frogs, switches and tracks and the preparation of tracks for the storage of cars in the 180th Street Yard of the White Plains Road Line, as follows:

McElroy & Kerwin	\$15,285
Slattery Engineering & Construction Company, Inc.....	16,380

On the afternoon of November 2nd, Mr. Kerwin was examined in my office. I believe that this firm is competent to perform the work under this contract. Their bid price was about \$2,000 more than our Engineer's estimate, but I believe in view of unusual features connected with the work and its peculiar location that the price is reasonable.

Attached hereto is a copy of the minutes of the interview held in my office, a financial statement of the firm and copies of the tabulation of the bids.

This contract provides that City's materials which are not incorporated in the work shall be transported by the Contractor to points within the City of New York, as directed, under the provisions of the extra work clause. The contract also provides that work of changing the line equipment to the extent that it is not covered by the unit prices shall be arranged for by the Contractor with the Interborough Rapid Transit Co., in which event the City is obligated to pay the actual net cost plus 5%. To cover these possibilities and unforeseen contingencies an amount somewhat in excess of the net amount of the bid should be requested. I believe the sum of \$16,000 will cover the entire cost of this contract.

Recommendation: That with concurrence of Counsel the contract be awarded to McElroy and Kerwin at their bid price of \$15,285 and that a sum of \$16,000 be requested from the Board of Estimate and Apportionment all chargeable to Contract No. 3.

ROBT. RIDGWAY,
Chief Engineer.

The following resolution was adopted:

Whereas, The form of the proposed contract for the installation of tracks in the 180th Street Yard, White Plains Road Line, Route No. 18, was finally adopted on October 16, 1923 and subsequent to advertisement duly made bids respectively totalling as follows were received on November 2, 1923:

McElroy & Kerwin	\$15,285
Slattery Engineering & Construction Co., Inc.....	16,380

; and

Whereas, The Chief Engineer of this Commission, by communication dated November 5, 1923, has reported that the amount of said bid is reasonable and that McElroy & Kerwin, the low bidder, is financially able and competent to perform the work under said proposed contract and has recommended the award of said pro-

posed contract to them and the making of a requisition upon the Board of Estimate and Apportionment for the sum of \$16,000, the amount estimated to be necessary to carry out said proposed contract,

Resolved, That the said report and recommendation of the Chief Engineer be and the same hereby is approved; that the bid of McElroy & Kerwin, submitted as aforesaid, be and the same hereby is accepted and the said proposed contract for the installation of tracks in the 180th Street Yard, White Plains Road Line, Route No. 18, be and the same hereby is awarded to said McElroy & Kerwin, subject to its being approved and consented to in form and substance, as required by law, and that said proposed contract, together with a requisition upon the Board of Estimate and Apportionment, in the form now submitted by Counsel, for the consent of said Board and the appropriation of the sum of \$16,000, estimated to be necessary to meet the City's obligations under said proposed contract, be transmitted to said Board of Estimate and Apportionment.

The communication to the Board of Estimate and Apportionment as authorized by the above resolution was as follows:

November 7, 1923.

BOARD OF ESTIMATE AND APPORTIONMENT
OF THE CITY OF NEW YORK.

Gentlemen:

The Transit Commission, pursuant to the authority vested in it by the provisions of Chapter 134 of the Laws of 1921, transmits herewith for the consent of your Honorable Board, as required by law, a proposed contract to be entered into between The City of New York, acting by the Transit Commission, and McElroy & Kerwin, for the installation of tracks in the 180th Street Yard, White Plains Road Line, Route No. 18, together with a requisition upon your Honorable Board for the appropriation of Sixteen thousand dollars (\$16,000), being the amount estimated to be necessary to meet the obligations of the City under said proposed contract.

Advertisement has been duly made for proposals for said proposed contract and bids were received on November 2, 1923, respectively totalling as follows:

McElroy & Kerwin.....	\$15,285
Slattery Engineering & Construction Company, Inc.....	16,380

The Chief Engineer of this Commission, in a communication dated November 5, 1923, reports that the bid of McElroy & Kerwin, the low bidder, is reasonable and that the said company is competent and financially capable of carrying out the provisions of said contract, and the Commission has accepted said bid and awarded said proposed contract to the said McElroy & Kerwin, subject to its being approved and consented to in form and substance, as required by law.

Your Board is therefore requested to consent to said proposed contract herewith transmitted and to prescribe a limit to the amount of bonds available to meet the requirements of said proposed contract, to wit, the sum of Sixteen Thousand Dollars (\$16,000), and also to direct the Comptroller of the City of New York to issue the bonds of said City at such a rate of interest as the Commissioners of the Sinking Fund may prescribe for the purpose of providing the necessary means for meeting the City's obligation under said proposed contract, to wit, the sum of Sixteen Thousand Dollars (\$16,000). The sum in addition to the amount of the low bid is being requisitioned for the reason, as reported by the Chief Engineer, as follows:

"This contract provides that City's materials which are not incorporated in the work shall be transported by the Contractor to points within the City of New York, as directed, under the provisions of the extra work clause. The contract also provides that work of changing the line equipment to the extent that it is not covered by the unit prices shall be arranged for by the Contractor with the Interborough Rapid Transit Company in which event the City is obligated to pay the actual net cost plus 5%. To cover these possibilities and unforeseen contingencies an amount somewhat in excess of the net amount of the bid should be requested. I believe the sum of \$16,000, will cover the entire cost of this contract."

Your Board is also requested to authorize, pursuant to Section 45 of the Greater New York Charter, the issuance of corporate stock for the full amount necessary to pay the estimated expense to the City of carrying out said proposed contract.

This requisition is in addition to the requisitions heretofore made for the purpose of carrying out the contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission, and Interborough Rapid Transit Company, known as Contract No. 3.

TRANSIT COMMISSION,
By GEORGE McANENY,
Chairman.

1546—R. T. 7591

Route No. 70-C—Resolution Directing Request to Board of Estimate and Apportionment for Return of Route and General Plan of Bedford Avenue, Fulton Street and Livingston Street Route—Adopted

The following resolution was adopted:

Whereas, The Transit Commission by resolution adopted May 15, 1923 adopted a route and general plan for a proposed rapid transit railroad in the Borough of Brooklyn, in the City of New York, known as the Bedford Avenue, Fulton Street and Livingston Street Route, Route No. 70-C, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment of the City of New York for its consideration, pursuant to the provisions of the Rapid Transit Act, which by the provisions of Section 5 thereof requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time has been extended by resolutions of this Commission to and including thirty days after the 30th day of October, 1923; and

Whereas, The Transit Conference Committee of the Board of Estimate and Apportionment, and the members of this Commission have held several conferences with respect to said route and general plan and in view of the differences in opinion as to the approval of said route and general plan it has been agreed that this Commission would withdraw said route and general plan from a consideration by the Board of Estimate and Apportionment and that at a public hearing to be duly advertised and to be held on November 15, 1923 before the joint committees, the opinion of the general public would be elicited, and after which and upon such findings said route and general plan, or in lieu thereof some other route and general plan would be submitted to the Board of Estimate and Apportionment,

Resolved, That the Secretary of this Commission be and hereby is authorized and directed to request the Board of Estimate and Apportionment of the City of New York to return the said route and general plan of the Bedford Avenue, Fulton Street and Livingston Street Route, Route No. 70-C, to this Commission without taking further action thereon, and without prejudice to this Commission to resubmitting said route and general plan if after said public hearing and consideration it is deemed advisable so to do.

1547—R. T. 7591

Route No. 70-D—Resolution Directing Request to Board of Estimate and Apportionment for Return of Route and General Plan of Bedford Avenue-Brighton Beach Railway Connection—Adopted

The following resolution was adopted:

Whereas, The Transit Commission by resolution adopted May 15, 1923 adopted a route and general plan for a proposed rapid transit railroad in the Borough of Brooklyn, in the City of New York, known as the Bedford Avenue-Brighton Beach Railway Connection, Route No. 70-D, and thereafter transmitted said route and general plan to the Board of Estimate and Apportionment of the City of New York for its consideration, pursuant to the provisions of the Rapid Transit Act, which by the provisions of Section 5 thereof requires a vote to be taken on said route and general plan by said Board within sixty days after it shall have been first received by said Board, which time has been extended by resolutions of this Commission to and including thirty days after the 30th day of October, 1923; and

Whereas, Said Route No. 70-D is a continuation of Route No. 70-C as to which, by resolution adopted coincidentally herewith, this Commission has, because of the reasons therein more particularly set forth, withdrawn from consideration by the Board of Estimate and Apportionment the said Route No. 70-C and this Commission is of the

opinion that similar action should be taken with respect to 70-D inasmuch as its construction and operation is dependent upon the construction and operation of said Route No. 70-C.

Resolved, That the Secretary of this Commission be and hereby is authorized and directed to request the Board of Estimate and Apportionment of the City of New York to return said route and general plan of the Bedford Avenue-Brighton Beach Railway Connection, Route No. 70-D to this Commission without taking further action thereon, and without prejudice to this Commission resubmitting said route and general plan, if, in the future, it is deemed advisable so to do.

1548—R. T. 7708

Route No. 18, Section No. 2—Form of Contract, Specifications, Invitation to Contractors, etc., for Erection of Fence in 239th Street Yard—Resolution Directing Advertisements for Bids

The following resolution was adopted:

Whereas, Counsel and the Chief Engineer have submitted to this Commission for adoption a proposed Invitation to Contractors, Information for Contractors and Form of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings, for the erection of a fence, etc. in the 239th Street Yard of the White Plains Road Line, Route No. 18,

Resolved, That said Invitation to Contractors, Information for Contractors and Form of Contract, Bond and Contractor's Proposal, together with the Specifications and Contract Drawings for the erection of a fence, etc. in the 239th Street Yard of the White Plains Road Line, Route No. 18, be and the same hereby are approved and adopted and that the said Invitation to Contractors be published in the City Record every day of publication continuously from and including November 8, 1923 to and including November 23, 1923 and on November 14, 1923 and November 21, 1923 in The Evening Telegram and the New York Tribune, daily newspapers published in the City of New York, and that such bids as shall be received shall, on the 23rd day of November, 1923 at eleven-thirty (11:30) o'clock, A. M., or at a later date to be fixed by the Transit Commission, be opened publicly by the Transit Commission, at the office of the Transit Commission, and read.

1549—R. T. 5006

Agreement "CI"—Application by Philip J. Healy for Extension of Time withip Which to Complete Contract for Making Test Borings on Sites of Proposed Storage Yards and Extension of Broadway-Fourth Avenue Rapid Transit Railroad in Central Park—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from Philip J. Healy, dated October 29, 1923, requesting an extension of time to and including October 8, 1923, within which to complete work under the contract for making test borings on the sites of the proposed Coney Island and Westchester Avenue Yards and along the proposed extension of the Broadway-Fourth Avenue Rapid Transit Railroad in Central Park, Agreement "CI."

A report was presented from the Chief Engineer, dated October 30, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, The Contract dated May 28, 1923, between The City of New York, acting by the Transit Commission and Philip J. Healy, for making borings on the sites of the proposed Coney Island Yard, Borough of Brooklyn, and proposed Westchester Avenue Yard, Borough of The Bronx, and along proposed extensions to the Broadway-Fourth Avenue Rapid Transit Railroad in Central Park between Seventh Avenue and Central Park West, Borough of Manhattan (Agreement "CI") required the completion of all work thereunder on or before the expiration of four (4) months from the date

of the delivery of said contract, which contract was delivered on May 29, 1923, the last day for completion therefor being September 28, 1923; and

Whereas, By communication dated October 27, 1923, said Philip J. Healy made application for an extension of time under said contract to and including October 8, 1923 to complete the work thereunder for the reasons as more particularly set forth in said communication; and

Whereas, The Chief Engineer of this Commission, by communication dated October 30, 1923, has reported that the work called for by the original contract was completed one (1) day in advance of the prescribed time for completion but that during the progress of such work additional property was acquired adjoining the original site for the Coney Island Yard; that the contractor was ordered pursuant to the provisions of said contract to make six (6) additional borings upon the additional site as indicated by First Division Drawing No. 6, File 2 P; that the extension of time applied for is to cover said additional borings and that such is sufficient cause for extending the time of said contract and recommends that the time of the contractor be extended to and including October 8, 1923,

Resolved, That the time of Philip J. Healy within which to complete the work pursuant to the contract as aforesaid be and the same hereby is extended to and including October 8, 1923, provided, however, that this extension of time shall not take effect unless and until it shall be consented to in writing by the sureties upon the bond deposited as security for the faithful performance of said contract.

1550—R. T. 5006

Agreement "CI"—Certificate by Chief Engineer of Completion of Contract for Making Test Borings at Yard Sites and Along Proposed Extension of Broadway-Fourth Avenue Rapid Transit Railroad in Central Park—Report by Chief Engineer Recommending Contractor Be Required to Deposit Certified Check in Sum of \$200 for Rebuilding of Bridge over Hubbards Creek—Resolution Accepting Work and Directing That Certificate Be Filed with Comptroller

The following certificate was approved:

November 3, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion: Test Borings—Agreement "CI."

In connection with the contract dated May 28, 1923 between the City of New York and Philip J. Healy for borings on the sites of the proposed Coney Island Yard, Borough of Brooklyn, and proposed Westchester Avenue Yard, Borough of The Bronx, and along the proposed extension to the Broadway-Fourth Avenue Rapid Transit Railroad in Central Park between Seventh Avenue and Central Park West, Borough of Manhattan, I hereby certify that all work was completed on October 8, 1923. The total cost of the work was \$4,963.45.

In accordance with the provisions of the contract, all work should have been completed by September 29, 1923. The time for completion, however, was extended to October 8, 1923 by resolution of the Transit Commission adopted on November 7, 1923. As all work was completed within the contract time, as extended, there are no liquidated damages to be assessed.

Recommended that the work be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RINGWAY,
Chief Engineer.

A report was presented from the Chief Engineer dated November 3, 1923, recommending that the contractor be required to deposit a certified check or cash in the sum of \$200 as security for the rebuilding of the foot bridge crossing Hubbards Creek in the Coney Island Yard which was destroyed by the contractor during the progress of the work.

The following resolution was adopted:

Whereas, The contract dated May 28, 1923 between The City of New York, acting by the Transit Commission, and Philip J. Healy, for test borings on the sites of the proposed Coney Island Yard (Borough of Brooklyn) and the proposed Westchester Avenue Yard (Borough of The Bronx), and along the proposed extension to the Broadway-Fourth Avenue Rapid Transit Railroad in Central Park between Seventh Avenue and Central Park West in the Borough of Manhattan, required the completion of all work on or before September 29, 1923, which time was extended to and including October 8, 1923 by resolution of the Transit Commission adopted on November 7, 1923; and

Whereas, The Chief Engineer of this Commission, by communication dated November 3, 1923, has reported that all the work required under said contract was in all respects completed on or before October 8, 1923; that the total amount due therefor was \$4,963.45 and recommends that the work so performed be accepted and that a certificate of such completion and acceptance be prepared and transmitted to the Comptroller of the City of New York, provided, however, that as a condition precedent to such certification that the said contractor, Philip J. Healy, be required to deposit with this Commission a certified check or cash, payable to the City of New York in the sum of \$200, to insure the rebuilding of the foot bridge crossing Hubbards Creek in the Coney Island Yard, which was destroyed by the contractor's vehicle while transporting equipment.

Resolved, That the said report and recommendation be and the same hereby is approved; that the work so performed be and the same hereby is accepted and that a certificate of such final completion and acceptance be prepared and transmitted to the Comptroller of the City of New York, provided, however, that as a condition precedent to the transmission of such certificate to the said Comptroller of the City of New York the said Philip J. Healy shall deposit with this Commission a certified check or cash in the sum of \$200 as security for the rebuilding of the foot bridge crossing Hubbards Creek in the Coney Island Yard destroyed by said contractor's vehicle while transporting equipment, as reported by the Chief Engineer of this Commission in his communication dated November 3, 1923.

1551—R. T. 7513

Routes Nos. 5 & 8—Certificate by Chief Engineer of Completion of Contract, Except Maintenance of Street and Park Surfaces Restored, for Construction of Passageway at Union Square Station—Report by Chief Engineer Recommending That Contractor Be Required to Deposit Certified Check in Sum of \$250 as Security for Repairs to Damaged Tile Work—Resolution Accepting Work and Directing That Certificate Be Filed with Comptroller

The following certificate was approved:

November 5, 1923.

TO TRANSIT COMMISSION:

Certificate of Completion: Union Square Passageway—Routes 5 & 8

In connection with the contract dated May 17, 1922 between the City of New York and George Colon & Company for the construction of Union Square Passageway connection station, Routes Nos. 5 and 8 of the Broadway-Fourth Avenue and Fourteenth Street-Eastern Rapid Transit Railroads of the City of New York, I hereby certify that all work (except the maintenance of street and park surfaces restored) was completed on August 2, 1923. The total cost of the work was \$53,474.68.

In accordance with the provisions of the contract, all work (except the maintenance of street and park surfaces restored) should have been completed on November 19, 1922. The time for completion, however, was extended to August 2, 1923 by resolution of the Transit Commission adopted on October 30, 1923. As all work (except the maintenance of street and park surfaces restored) was completed within the contract time as extended, there are no liquidated damages to be assessed.

Recommended that the work (except the maintenance of street and park surfaces restored) be accepted and a certificate to this effect be transmitted to the Comptroller of the City of New York.

ROBT. RIDGWAY,
Chief Engineer.

A report was presented from the Chief Engineer dated November 5, 1923, recommending that the contractor be required to deposit a certified check or cash in the sum of \$250 as security for repairs to damaged tile work.

The following resolution was adopted:

Whereas, The contract dated May 17, 1922 between The City of New York, acting by the Transit Commission, and George Colon & Company, for the construction of Union Square Passageway connecting the stations of the Broadway-Fourth Avenue Line and the Fourteenth Street-Eastern Line, of the Railroad, as described in the contract dated March 19, 1913, known as Contract No. 4, at Union Square, in the Borough of Manhattan, City of New York, required the completion of all work thereunder on or before November 19, 1922, which time was extended to and including August 2, 1923 by resolution of this Commission adopted on October 30, 1923; and

Whereas, The Chief Engineer of this Commission, by communication dated November 5, 1923, has reported that all the work (except the maintenance of street and park surfaces restored) was in all respects completed on or before August 2, 1923; that the total amount due therefor was \$53,474.68 and recommends that the work so performed (except the maintenance of street and park surfaces restored) be accepted and that a certificate of such final completion and acceptance (except the maintenance of street and park surfaces restored) be prepared and transmitted to the Comptroller of the City of New York, provided, however, that as a condition precedent to the transmission of said certificate the said George Colon & Company be required to deposit with this Commission a certified check or cash in the sum of \$250, as security for the repair of damage to tile work in connection with the work under said contract,

Resolved, That said report and recommendation be and the same hereby is approved; that the work performed under said contract (except the maintenance of street and park surfaces restored) be and the same hereby is accepted and that a certificate of such final completion and acceptance (except the maintenance of street and park surfaces restored) be prepared and transmitted to the Comptroller of the City of New York, provided, however, that as a condition precedent to the transmission of said certificate to the said Comptroller, the said George Colon & Company shall deposit with this Commission a certified check or cash in the sum of \$250, as security for the repair of damaged tile work occasioned by the performance of the work under said contract, as more particularly reported by the Chief Engineer in his communication of November 5, 1923 with respect thereto.

1552—R. T. 7419

Contracts Nos. 3 and 4—Report by Chief Engineer Recommending Approval of Supplementary Schedule Item for Furnishing Kalamein Trim on Windows under Contract for Construction of Built-in Newsstand Enclosures—Approval Resolution

A report was presented from the Chief Engineer dated November 3, 1923, recommending the establishment of a supplementary schedule item, as described below.

The following resolution was adopted:

Whereas, The Chief Engineer of the Transit Commission in pursuance of Item 150 of the contract dated March 29, 1923 between the City of New York acting by the Transit Commission and Fox, Reynolds Company, Inc., for the construction of built-in newsstand enclosures on Contracts 3 and 4, subject to the approval of the Commission, agreed with the said contractor on the following schedule item:

Item No. 531-F—For furnishing and installing complete in place kalamein trim on the under side of the steel lintels of the windows of the newsstand enclosures, together with all painting, drilling, tapping, cutting and trimming and patching of tile necessary to the satisfactory completion of this work, at various locations throughout the contract, in accordance with the directions of the Engineer the sum of \$2.00 per lineal foot.

Resolved, That such action on the part of the Chief Engineer be and hereby is approved.

1553—R. T. 6080

Routes Nos. 19 & 22, Section No. 2—Application by Ferdinand Ziemer for Permission to Occupy Premises at No. 1690 Eastchester Road, Borough of The Bronx—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Ferdinand Ziemer dated October 24, 1923, requesting permission to occupy a building and barn on the premises at No. 1690 Eastchester Road, Borough of The Bronx, at a rental of \$20 per month.

A report was presented from the Real Estate Clerk dated October 29, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Ferdinand Ziemer by application dated October 24, 1923, has requested permission to occupy a small frame building and barn on the premises known as 1690 Eastchester Road, Borough of The Bronx, part of property acquired by condemnation on August 21, 1923, for purposes of the Westchester Avenue Line storage yard, agreeing to pay rent at the rate of \$20.00 per month beginning August 21, 1923, to vacate on 15 days' notice and to other conditions of a character usually contained in similar applications; and

Whereas, The Real Estate Clerk, under date of October 29, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said application.

1554—R. T. 6080

Routes Nos. 19 & 22, Section No. 2—Application by Sophie T. Strassle and Otilie Strassle, for Permission to Occupy Premises at No. 1686 Eastchester Road, Borough of The Bronx—Report by Real Estate Clerk Recommending Approval—Approval Resolution

An application was presented from Sophie T. Strassle and Otilie Strassle, dated October 27, 1923, requesting permission to occupy the building on the premises at No. 1686 Eastchester Road, Borough of The Bronx, at a rental of \$16.00 per month.

A report was presented from the Real Estate Clerk dated October 29, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, Sophie T. Strassle and Otilie Strassle, spinsters, by application dated October 27, 1923, have requested permission to occupy a small frame building on the premises known as 1686 Eastchester Road, Borough of The Bronx, part of property acquired by condemnation on August 21, 1923, for purposes of the Westchester Avenue Line storage yard, agreeing to pay rent at the rate of \$16.00 per month beginning August 21, 1923, to vacate on 15 days' notice and to other conditions of a character usually contained in similar applications; and

Whereas, The Real Estate Clerk, under date of October 29, 1923, has reported upon this application recommending that it be approved, in which recommendation Counsel has concurred;

Resolved, That the Commission do, and it hereby does, approve the aforesaid application, and that the Secretary be, and he hereby is, authorized and directed to subscribe the approval of the Commission on said application.

1555—R. T. 7112

Route No. 5—Application by Interborough Rapid Transit Company for Approval of Lease of Eight Ducts in Tunnel under Harlem River to New York Telephone Company—Report by Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the Interborough Rapid Transit Company dated October 9, 1923, requesting approval of a proposed lease to the New York Telephone Company of eight ducts in the Harlem River Tunnel of the Lexington Avenue Subway for a term of fifteen years at an annual rental of \$1,800 per duct mile.

A report was presented from the Chief Engineer dated November 1, 1923, recommending that the application be approved.

The following resolution was adopted:

Whereas, The Interborough Rapid Transit Company has by communication dated October 9, 1923, submitted to this Commission for approval a proposed form of lease between it and the New York Telephone Company of eight ducts in the railroad duct lines of the Harlem River Tunnel of the Lexington Avenue Subway from 131st Street and Lexington Avenue, Manhattan, to 135th Street and Park Avenue, The Bronx, for a term of 15 years at an annual rental of \$1,800 per duct mile; and

Whereas, The Chief Engineer of this Commission has by communication dated November 1, 1923, advised that the said ducts are not now needed for the operation of the railroad and probably will not be needed for a considerable length of time and has recommended that said proposed lease be approved,

Resolved, That the said proposed lease of eight ducts in the railroad duct lines of the Harlem River Tunnel of the Lexington Avenue Subway from 131st Street and Lexington Avenue, Manhattan, to 135th Street and Park Avenue, Bronx, for a term of 15 years at an annual rental of \$1,800 per duct mile from the Interborough Rapid Transit Company to New York Telephone Company, be and the same hereby is approved.

1556—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Switching Equipment for Signal System for Fourteenth Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 17, 1923, requesting approval of a proposed purchasing agent's order directed to the General Electric Company for switching equipment for signal feeders of the Fourteenth Street-Eastern Line at a cost of \$2,400.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer dated October 30, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has by communication dated October 17, 1923, submitted for the approval

of this Commission, proposed purchasing agent's order dated October 16, 1923, directed to General Electric Company, for the following:

2-Pole, Single Throw, 15,000 Volts, 500 Amps. Oil Circuit Breakers, Cell mounting, complete with motor or solenoid operating mechanism operating over a range from 75 to 150 volts D. C., safety and auxiliary switches, cell top, asbestos lumber doors with fittings, all necessary nuts, insulators, and terminals for 250,000 c.m. cable per pole, hand closing lever, and sufficient oil furnished separately

\$1,200.00 Each Delivered

The breakers shall be used on 11,000 volt service supplied from buses protected by the reactance of the transformers of the rotaries and by 3½% reactance, based on 350 amp. per cable, at the power station on the feeders connected to the bus.

These circuit breakers shall be capable of opening twice under short circuit conditions and shall be in a condition to be closed and carry rated current until the necessary repairs and adjustments can be made. These breakers must be suitable for installation in existing cell at the South 6th Street Sub-Station.

; which proposed purchasing agent's order has been caused to be designated as "Approval No. 378"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated October 30, 1923, have reported that the apparatus is necessary as part of the signal equipment and will be installed in the South 6th Street Substation and recommend that the order be placed with the General Electric Company because the parts manufactured by said company are of standard dimensions; that all the switching apparatus now in this station is of General Electric manufacture and it is desirable to have one type in order to facilitate repairs and reduce the number of spare parts necessary; that the following bids were received for such material:

General Electric \$2400.00

Westinghouse Electric & Mfg. Co. 2086.90

and recommend that the said proposed purchasing agent's order so submitted be approved; and

Whereas, By endorsement dated November 2, 1923, the Auditor of Rapid Transit Costs has recommended that the cost under said proposed purchasing agent's order be classified as Equipment of the Railroad as defined in said Contract No. 4.

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and that the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such work to be classified as Equipment of the Railroad, as defined in said Contract No. 4.

1557—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Signal Transmission Lines for Fourteenth Street-Eastern Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 20, 1923, requesting approval of a proposed purchasing agent's order directed to James Sugden Company, for furnishing and installing signal transmission lines for the Fourteenth Street-Eastern Line, at a cost of \$23,816.

A report was presented from the Engineer of Equipment and Operation and the Chief Engineer, dated October 31, 1923, recommending that the application be approved, which report was endorsed by the Auditor of Rapid Transit Costs, classifying the work as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913, between The City of New York, acting by the Public Service Commission for the First District,

and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has by communication dated October 20, 1923, submitted for the approval of this Commission, proposed purchasing agent's order dated October 20, 1923, directed to James Sugden Company, for the following:

Furnish and install 2200 volt Signal Transmission Lines, 14th Street-Eastern Line, between 6th Ave. Manhattan & Grand St. Brooklyn, and branch connections to I. R. T. 19th St. Sub-Station, No. 12, and South 6th St. Substation, in accordance with Specifications dated Aug. 25, 1923, and Plan C-1458, dated June 22nd, 1923 at the following unit prices:

Estimated Quantities

99,000 Lin. Ft. No. 6 AWG Wire.....	23.4¢ Foot
2,500 Lbs. Brackets, Clamps, etc.....	20¢ Lb.
500 Insulators	30¢ Ea.

Payment will be made to the Contractor on the 20th day of each month for 90% of the Engineer's Estimated value of the work performed during the preceding month, provided the contractor is making satisfactory progress. Balance due will be paid within thirty (30) days after completion and acceptance of the work by our Engineer.

; which proposed purchasing agent's order has been caused to be designated as "Approval No. 377"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated October 31, 1923, have reported that said James Sugden Company, the lowest bidder, is fully competent to perform the work, that the approximate cost for such work is \$23,816; that the following bids were received for such work:

James Sugden Co.....	Approximately \$23,816
B. T. and J. J. Mack.....	Approximately 24,960
Seymour Construction Co.....	Approximately 28,970
Standard Underground Cable Co.....	Approximately 29,541
Okonite Co.	Did not quote
Hazard Mfg. Co.....	Did not quote
Federal Construction and Engineering Co.....	Did not quote

that such work includes the furnishing and installation of two high tension signal transmission cables on each side of subway portion of the 14th St.-Eastern Line; that these cables are necessary to provide normal and emergency power supply for the operation of the signal and interlocking system of this subway and recommend the approval of same; and

Whereas, The Auditor of Rapid Transit Costs by endorsement dated November 2, 1923, has recommended that such work be classified as Equipment of the Railroad,

Resolved, That said reports and recommendations be and the same hereby are approved; that the said proposed purchasing agent's order so submitted be and the same hereby is approved and the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such work to be classified as recommended by the Auditor of Rapid Transit Costs as Equipment of the Railroad.

1558—R. T. 6668

Contract No. 4—Application by New York Rapid Transit Corporation for Approval of Proposed Purchasing Agent's Order for Passimeters on Stations of Fourteenth Street-Eastern Line and Union Square Station of Broadway Line—Report by Engineer of Equipment and Operation and Chief Engineer Recommending Approval—Approval Resolution

An application was presented from the New York Rapid Transit Corporation dated October 19, 1923, requesting approval of proposed purchasing agent's order directed to Harris H. Uris Iron Works, Inc., for furnishing and installing automatic

passimeters at the stations of the Fourteenth Street-Eastern Line and the Union Square station of the Broadway Line at a total cost of \$15,008.

A report was presented from the Engineer of Equipment and Operation and Chief Engineer, dated October 31, 1923, recommending approval, which report was endorsed by the Auditor of Rapid Transit Costs classifying the work for the Union Square Station as Additional Equipment for the Railroad to be performed under Work Order MBA-14, and the work for the Fourteenth Street-Eastern Line as Equipment of the Railroad.

The following resolution was adopted:

Whereas, Pursuant to the provisions of the Contract dated March 19, 1913 between The City of New York, acting by the Public Service Commission for the First District, and New York Municipal Railway Corporation, known as Contract No. 4, New York Rapid Transit Corporation, as successor to the rights and obligations under said Contract No. 4, has by communication dated October 19, 1923, submitted for the approval of this Commission, proposed purchasing agent's order dated October 19, 1923, directed to Harris H. Uris Iron Works, Inc., for the following:

"Furnish labor, material, etc., necessary to install improved Control Facilities, consisting generally of the installation of automatic prepayment passimeters; the furnishing and installing of prepayment entrance and exit turnstiles, passimeter guards and railings, high railings, grills, etc., at the following locations, as called for in our specifications dated September 13, 1923, and as indicated upon drawings referred to therein, for the respective lump sum prices, indicated:

14th Street-Eastern Line:

Sixth Avenue Station	\$2,171.00
Union Square Station	1,565.00
3d Avenue Station	1,479.00
First Avenue Station	990.00
Bedford Avenue Station	1,313.00
Graham Avenue Station	1,275.00
Lorimer Street Station	2,620.00
Grand Street Station	1,264.00

Broadway Subway:

Union Square Station	2,331.00
----------------------------	----------

Payment will be made on the 20th day of each month for 90% of the value of the work performed during the preceding month. Final payment will be made thirty (30) days after completion and acceptance of the work by our Engineer."

; which proposed purchasing agent's order has been caused to be designated as "Approval 375"; and

Whereas, The Engineer of Equipment and Operation and the Chief Engineer of this Commission by communication dated October 31, 1923, have reported that the total cost for such work is \$15,008, to be divided \$12,677 for the 14th Street-Eastern Line and \$2,331 for the Broadway-Fourth Avenue Line; that the following bids were received for such work:

H. H. Uris Iron Works	\$15,008.00
Whale Creek Iron Works	17,602.00
J. Cutter Iron Works	17,760.00
Albee and G. Co., Inc.	20,450.00
Vulcan Rail & C. Co.	24,180.00

that such work includes the installation of low type automatic turnstiles, the furnishing and installing of one high type turnstile, railings, folding and swinging gates, signs and metal enclosures in the ticket booths, but does not include furnishing the automatic turnstiles; that the plans have been approved by the Chief Engineer and the specifications are satisfactory; that the cost is reasonable, and recommend the approval of said proposed purchasing agent's order; and

Whereas, By endorsement dated October 31, 1923, the Auditor of Rapid Transit Costs, has recommended that the cost under said proposed purchasing agent's order be classified as follows:

Additional Equipment for The Railroad under Work Order Number MBA-14 heretofore assigned: Turnstiles for Union Square Station—Broadway Subway	\$2,331.00
Equipment of The Railroad, Turnstiles for the 14th Street-Eastern Line	12,677.00

Resolved, That said report and recommendations be and the same hereby are approved, that the said proposed purchasing agent's order so submitted be and the same hereby is approved and the Chairman of this Commission be and hereby is authorized and directed to execute the form of approval of this Commission made part of said proposed purchasing agent's order, the cost of such work to be classified as recommended by the Auditor of Rapid Transit Costs as hereinbefore more particularly indicated.

1559—R. T. 7591

Route No. 70—Report by Chief Engineer Recommending Approval of Construction of Only One Emergency Footwalk for Brooklyn Crosstown Route—Approved

A report was presented from the Chief Engineer dated October 30, 1923, recommending approval of the construction of only one emergency footwalk for the Brooklyn Crosstown Route, Route No. 70, and that the footwalk be constructed on the westerly side of the subway.

Upon motion duly seconded and adopted the report and recommendation were approved.

1560—R. T. 6595

Contract No. 4—Statements from New York Rapid Transit Corporation of Results of Operation for Month of September, 1923, and Status of Maintenance and Depreciation Funds—Referred to Chief Accountant

The Commission referred to the Chief Accountant a communication dated November 5, 1923, from the New York Rapid Transit Corporation by Howard Abel, Comptroller, submitting statements of the results of operation for the month of September, 1923, for the period from August 4, 1913, to September 30, 1923, and the status of the Maintenance and Depreciation Funds under Contract No. 4.

1561—Case 2670

The Long Island Railroad Company et al.—Application of The City of New York for Determination as to Manner in Which Sixth Avenue between 63rd and 64th Streets, Brooklyn, Shall Cross Companies' Tracks—Report and Opinion Approved—Final Order and Determination Adopted

The Secretary presented a report and opinion, dated October 30, 1923, in Case No. 2670, by George L. Lucas, Acting Chief Executive Officer, recommending that Sixth Avenue between 63rd and 64th Streets, in the Borough of Brooklyn, should be carried across the tracks of The Long Island Railroad Company and the New York Consolidated Railroad Company, upon an overhead bridge and that pending the report on the investigation of the Foster Avenue sewer in connection with the improvement, the proceeding be adjourned subject to the call of the Commission.

Thereupon the above mentioned Report and Opinion in Case No. 2670, was approved and an Order adopted and ordered filed in the following form:

Present:

GEORGE McANENY, Chairman,	} Commissioners.
LEROY T. HARKNESS,	

IN THE MATTER
of the

Application of the BOARD OF ESTIMATE AND APPORTIONMENT OF THE CITY OF NEW YORK, for a determination as to the method by which 6th Avenue between 63rd and 64th Streets, in the Borough of Brooklyn, should be carried across the tracks of the New York Consolidated Railroad Company and THE LONG ISLAND RAILROAD COMPANY.

Case No. 2670.
FINAL ORDER AND DETERMINATION.

The Board of Estimate and Apportionment of the City of New York, having by resolution, dated January 5, 1923, established the lines and grades of 6th Avenue between 63rd and 64th Streets, in the Borough of Brooklyn, across the tracks of the New York Consolidated Railroad Company, now the New York Rapid Transit Corporation, and The Long Island Railroad Company, and having by resolution dated January 5, 1923, made application to the Commission for a determination as to the method by which 6th Avenue between 63rd and 64th Streets, in the Borough of Brooklyn, shall be carried across the tracks of said railroad companies; and the Transit Commission having on the 23rd day of January, 1923, adopted an order directing that a hearing on said application be held on the 24th day of October, 1923, and having designated and certified George L. Lucas, Acting Chief Executive Officer, to conduct said hearing, and the same having been held before said George L. Lucas, on the 24th day of October, 1923, and he having made his report, dated October 30, 1923, and the said report having been approved and adopted by the Commission on November 7, 1923, it is

Ordered and Determined, That Sixth Avenue between 63rd and 64th Streets, in the Borough of Brooklyn, should be carried across the tracks of the New York Consolidated Railroad Company, now the New York Rapid Transit Corporation, and The Long Island Railroad Company, in the Borough of Brooklyn, upon an overhead bridge to be constructed by the railroad companies, substantially in accordance with the dimensions, grades and clearances shown upon the map offered in evidence in this proceeding as Exhibit 9, and described as "Map showing the location and laying out of 6th Avenue, etc.," dated November 10, 1919, and it is further provided that detail plans and specifications shall not be prepared until the results of the investigation by The Long Island Railroad Company as to the condition of the Foster Avenue sewer are known and ascertained.

Further Ordered, That the actual work of construction should be done by the railroad companies, that detailed plans and specifications thereof be submitted for the approval of the Commission and that contracts, if any, similarly submitted, and the division of expense and reconstruction to be reserved for determination by the Commission upon the accounting or accountings provided by the Grade Crossing Act.

Further Ordered, That the New York Rapid Transit Corporation and The Long Island Railroad Company shall notify the Commission within five (5) days after the receipt of a certified copy of this Order whether the terms thereof are accepted and will be obeyed.

Further Ordered, That this Order take effect at once.

BY THE COMMISSION,
JAMES B. WALKER,
Secretary.

1562—Case 2689

The Long Island Railroad Company—Application of The City of New York for Determination as to Manner in Which 14th Avenue between 61st and 62nd Streets, in the Borough of Brooklyn, Should Cross Company's Tracks—Hearing Order Adopted

The Secretary presented a communication, dated October 25, 1923, from James Matthews, Assistant Secretary, Board of Estimate and Apportionment, transmitting

certified copies of two resolutions adopted by the Board of Estimate and Apportionment on September 21, 1923, establishing the lines and grades of 14th Avenue between 61st and 62nd Streets, in the Borough of Brooklyn, and requesting the Commission to determine the manner in which 14th Avenue should be carried across the right of way of The Long Island Railroad Company, together with a map adopted by the Board showing the changes.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2689, directing a hearing with respect to the above matter at a date to be fixed by George L. Lucas, Acting Chief Executive Officer, who was designated and authorized pursuant to Sections 8 and 11 of the Public Service Commission Law to take the testimony therein and report same to the Commission for its decision and determination.

1563—Case 2690

Nassau Bus Line, Inc.—Form of Annual Report—Extension Order Adopted

The Secretary presented a communication, dated October 29, 1923, from the Nassau Bus Line, Inc., requesting an extension of time of sixty days in which to file its annual report pursuant to the Filing Order in Case No. 2690.

The Secretary also presented a report, dated November 1, 1923, by H. S. Fischer, Statistician, approved by the Chief, Bureau of Accounting and Valuations, recommending an extension of time to November 29, 1923.

Thereupon the Commission adopted and ordered filed an Order in Case No. 2690, granting an extension of time to and including November 29, 1923.

1564—Case 1301

Railroad Corporations—Inspection of Steam Locomotives—Application of Procter & Gamble Manufacturing Company for Extension of Time to Remove Flues—Extension Order Adopted

The Secretary presented a communication, dated October 17, 1923, from J. H. Lewis, Master Mechanic, Procter & Gamble Manufacturing Company, requesting an extension of time for the removal of flues from its Locomotive No. 121.

The Secretary also presented a report, dated October 23, 1923, by A. J. O'Neil, Locomotive Boiler Inspector, approved by W. L. Selmer, Acting Chief, Bureau of Railroad Inspection, recommending an extension of time to March 31, 1924.

Thereupon the Commission adopted and ordered filed an Order in Case No. 1301, granting the desired extension of time to March 31, 1924.

1565—Case 1402

The Long Island Railroad Company—Application of The City of New York for Determination as to Manner in Which Ashland Street, in the Borough of Queens, Shall Cross Tracks of New York and Rockaway Beach Division—Order Reopening Case and Directing Hearing Adopted

The Commission adopted and ordered filed an Order in Case No. 1402, in the following form:

Present:

GEORGE McANENY, Chairman,	} Commissioners.
LEROY T. HARKNESS,	

IN THE MATTER
of the

Application of THE CITY OF NEW YORK relative to opening across the tracks of the New York and Rockaway Beach Division of THE LONG ISLAND RAILROAD COMPANY, Ashland Street, in the Fourth Ward, Borough of Queens, City of New York.

CASE No. 1402.
HEARING ORDER.

The Public Service Commission of the State of New York for the First District, having on the 24th day of November, 1911, made an order and determination as to the manner of carrying Ashland Street across the tracks of the New York and Rockaway Beach Division of the Long Island Railroad Company; and it appearing that no construction has been commenced by said railroad company in pursuance of said order and it further appearing that there is or may be necessity for action to require the construction provided in said order, and the Commission desiring in this connection to be advised as to any change in the facts and circumstances affecting the said crossing and as to the necessity of any amendment, alteration or abrogation or other action concerning said order and determination, and to that end to reopen this proceeding.

Now, Therefore, It is hereby

Ordered, That this proceeding be and hereby is reopened, and that a hearing herein be held before the Commission at its hearing room, No. 49 Lafayette Street, in the Borough of Manhattan, City of New York, on the 26th day of November, 1923 at 10 o'clock in the forenoon.

Further Ordered, That at least ten (10) days' notice of the hearing be given to the Long Island Railroad Company, The City of New York and to the owners of the land adjoining the location of said crossing and other parties who appeared upon the original hearing herein, by service upon them of a certified copy of this order, in the manner provided by Section 23 of the Public Service Commission Law.

Further Ordered and Certified, That George L. Lucas, Acting Chief Executive Officer be and he hereby is, pursuant to Sections 8 and 11 of the Public Service Commission Law, authorized and designated to conduct said hearing, to take the testimony therein and report the same to the Commission for its decision and determination.

BY THE COMMISSION,
JAMES B. WALKER,
Secretary.

1566—Case 1567

The Long Island Railroad Company—Application of The City of New York for Determination as to Manner in Which Lambertville Avenue Shall Be Extended over Tracks of Montauk Division—Order Reopening Case and Directing Hearing Adopted

The Commission adopted and ordered filed an Order in Case No. 1567, in the following form:

Present :

GEORGE McANENY,
Chairman, } Commissioners.
LEROY T. HARKNESS, }

IN THE MATTER

of the

Application of THE CITY OF NEW YORK relative to opening Lambertville Avenue from Sutphin Road to Merrick Road in the Fourth Ward, Borough of Queens, City of New York, across the tracks of the Montauk Division of THE LONG ISLAND RAILROAD COMPANY.

Case No. 1567.

HEARING ORDER
